Introduction

The University of Southern Mississippi and its Board of Trustees were established by an act of the Legislature approved on March 30, 1910, by Gov. Edmund F. Noel. Its first name was the Mississippi Normal College, and its original purpose was to train teachers for the rural schools of Mississippi. On February 2, 1932, the Legislature established the Board of Trustees of State Institutions of Higher Learning and placed under its jurisdiction the five colleges and one university owned and operated by the state. On November 3, 1942, the people of the state voted to make the Board of Trustees of State Institutions of Higher Learning a constitutional board for all colleges and universities of the state. The University of Southern Mississippi is now operated under the jurisdiction of that constitutional board.

The act of March 30, 1910, did not provide any state money for the building of Mississippi Normal College, but did provide that localities in the state might bid for its location by offering land for a site and money for constructing buildings. On September 16, 1910, the Board of Trustees accepted the bid of Hattiesburg and Forrest County to supply $250,000 and a free site. That site was west of the city in cutover timberland with great pine stumps everywhere. Contracts were let to clear the land and to build buildings.

The five permanent buildings (College Hall, Forrest County Hall, Hattiesburg Hall, the Industrial Cottage [now the Honor House], and the President’s Home [now the Alumni House]), a temporary wooden Dining Hall, and other necessary improvements were barely finished when the Mississippi Normal College opened on the rainy morning of September 18, 1912, with a president, a faculty of 18, and a student body of 200.

On October 17, 1911, Joseph Anderson Cook, superintendent of Schools, Columbus, Mississippi, was elected president. The University of Southern Mississippi has had only eight presidents since its founding. The Board of Trustees elected Claude Bennett president effective October 10, 1928. On April 23, 1933, the Board of Trustees elected Dr. Jennings Burton George as the third president, effective July 1, 1933. On June 13, 1945, the Board of Trustees elected Dr. Robert Cecil Cook as the fourth president and he officially assumed office on July 1, 1945. On October 21, 1954, President Cook submitted his resignation. He served until December 31, 1954, and Dr. Richard Aubrey McLemore became acting president on January 1, 1955. The Board of Trustees, on May 19, 1955, elected Dr. William David McCain as the fifth president. He officially assumed office on August 1, 1955, and retired June 30, 1975. Dr. Aubrey Keith Lucas became the sixth president of the University on July 1, 1975, and served until his retirement on December 31, 1996, the longest tenure of any president. Dr. Horace Weldon Fleming, Jr. served as the seventh president from January 1, 1997, until August 30, 2001. Dr. Aubrey K. Lucas returned to the presidency on September 1, 2001, and served until April 30, 2002. On April 13, 2002, the Board of Trustees elected Dr. Shelby F. Thames as the eighth president, effective May 1, 2002.

As has been stated, the University of Southern Mississippi was founded on March 30, 1910, as the Mississippi Normal College. On March 7, 1924, the Legislature changed the name to State Teachers College. On February 8, 1940, the Legislature changed the name to Mississippi Southern College, and on February 27, 1962, the Legislature changed the name to The University of Southern Mississippi.

The Mississippi Normal College did not grant degrees in its early years, but awarded certificates for the completion of certain specified courses of study. On April 8, 1922, the Legislature authorized the awarding of the bachelor of science degree. The bachelor of music degree was authorized by the Board of Trustees on June 19, 1934. The first bachelor of arts degree was awarded on August 20, 1940. On May 26, 1947, the Board of Trustees authorized the initiation of graduate work and the awarding of the master of arts degree. In the years since 1947, the University’s graduate programs have developed logically to meet the needs for professional competence beyond the academic measure of the baccalaureate degree. Doctoral programs were first authorized by the Board of Trustees on May 20, 1959.

The administrative and academic organization of The University of Southern Mississippi is divided into the following areas: Office of the University Provosts, Vice President for Research, Vice President for Business and Finance, Vice President for Student Affairs, Vice President for University Advancement, Director of Intercollegiate Athletics, and Vice President USM Gulf Coast. The academic area of The University of Southern Mississippi is organized into the College of The Arts, the College of Business Administration, the College of Education and Psychology, the College of Health and Human Sciences, the College of International and Continuing Education, the College of Liberal Arts, the College of Marine Sciences, the College of Nursing, the College of Science and Technology, the Honors College, and the Graduate School.

The number of graduates is some measure of the growth of a university. The University of Southern Mississippi has awarded 110,329 degrees since the first one was conferred in 1922.
Mission Statement

The University of Southern Mississippi, the state’s only dual campus institution, is a comprehensive doctoral/research extensive university committed to uncompromising quality in teaching, service, research, economic development, and creative activity. This institutional focus enhances quality of life and stimulates economic development. Distinguished by its student-oriented, nurturing campus environments, on its residential and nonresidential sites, the University affords its students abundant opportunities for community engagement, leadership, and personal growth beyond the traditional classroom. Students at The University of Southern Mississippi benefit from a broadly based education that features innovative academic programs. These include the state’s premier programs in polymer science and engineering, marine sciences, economic development, teacher preparation, family and consumer sciences, engineering technology, scientific computing, forensic science, criminal justice, social work, nursing, human wellness, and the visual and performing arts. The reputation of The University of Southern Mississippi rests upon the exceptional quality of its faculty, the competency and dedication of its staff, and the achievements of its diverse students.

Through its colleges, schools, institutes, and centers The University of Southern Mississippi embraces these distinctions:

- Building on a long tradition of leadership in the preparation of Mississippi’s teachers, the University graduates a majority of the state’s professional educators. Programs in psychology and education are nationally recognized for their leadership and have achieved accreditation at the highest levels.
- As a leader in economic development at the state, national, and international levels, the University educates, trains, provides research and analysis for, and collaborates with practitioners and academics in this field. As a leader in international education, the University provides students with unparalleled opportunities to live and learn abroad in preparation for leadership roles in an interdependent global society.
- The University is one of only 24 in the nation to offer accredited programs in each of the four fundamental arts disciplines - music, theater, visual art, and dance. It has the only college in the state organized as a single administrative unit devoted solely to the visual and performing arts.
- Committed to quality education in the humanities and social sciences, the University has a proud record of engaging the first-year student and of excellence in general education. Signature programs with proven records of exceptional quality include criminal justice, English, history, communication, and speech and hearing sciences.
- Scientific and technological infrastructure is being provided to South Mississippi by educating a 21st century science and technology workforce and by creating and managing centers of expertise. In this way, the University is underpinning the discovery and learning that are so essential to economic development and global competitiveness.
- Innovation in applied research, community partnerships, and experimental learning focused on improving the health and well-being of individuals, families, organizations, and communities has garnered national recognition of the University’s many applied health science programs.
- Actively engaged in research and outreach, University nursing graduates provide clinical placements in more than 80 community, hospital, and other health-related care facilities and comprise one of the largest Mississippi contingents in the prestigious American Academy of Nursing.
- The University is a recognized leader in marine and hydrographic sciences research, education, exploration, and outreach. Its faculty, scientists, educators, and students seek to advance the knowledge and technology needed to understand, responsibly use, and sustain the resources of the Gulf of Mexico and the world’s oceans.
- The University provides skilled human resources with leadership potential and intellectual capital to Mississippi’s business community through recognized programs in accounting, marketing, management, management information systems, economics, health care delivery, international business, and finance. It features the state’s only specialty MBAs with concentrations in fields such as polymer science and public health.
The University supports a pioneering honors college that features interdisciplinary pedagogy, small classes, and undergraduate research. It also offers encouragement and intellectual nourishment through several student support services, including a General Studies course and Freshman Year Experience.

The libraries’ digitization program, one of the largest in the southeast, received a 2001 SOLINET (14 member states) award for Outstanding Library Programs. The library houses the nationally prominent de Grummond Children’s Literature Collection, recognized internationally as a resource for original illustrations and manuscripts.

The University embraces precedent-setting avenues for the engaged campus by fostering community partnerships that involve faculty, teachers, and students in academic service-learning and public service. It also houses an award-winning program focused on overcoming developmental disabilities.

USM Libraries

Library services at The University of Southern Mississippi are provided at the Joseph Anderson Cook Library, the William David McCain Library and Archives, and the Gulf Coast Library.

The Joseph Anderson Cook Library

The Joseph Anderson Cook Library contains the principal collections of books, journals, microforms, music, media, and other materials which support the research and instructional programs of the University at all levels. Book stacks and reading areas are intermingled throughout the building, and the open-shelf method of access to materials is utilized. Access is provided to a variety of fulltext databases, bibliographic databases, and Internet resources on a wide range of subjects. The collections are arranged according to the Library of Congress Classification System. The Library is currently acquiring approximately 23,000 new volumes annually and maintaining 5,000 print and more than 14,000 electronic journal titles.

The William David McCain Library and Archives

The William David McCain Library and Archives houses the special collections and archives of The University of Southern Mississippi. Resources are available for use by the public and the University community in the Cleanth Brooks Reading Room. Materials housed in this facility do not circulate outside the building. The online catalog and other descriptive finding aids serve as points of access to the collections. Among the notable holdings of McCain Library and Archives are the Mississippiana and Genealogy Collections; the de Grummond Children’s Literature Collection; the papers of William M. Colmer, Theodore G. Bilbo, and Paul B. Johnson; the Walen Collection of Confederate and Civil War History; and the Cleanth Brooks Collection of belles lettres.

The Gulf Coast Library

The new Gulf Coast campus library, which opened in the fall of 2002, houses print and non-print materials to support the research and curriculum needs of the Long Beach campus. All USM Libraries' electronic holdings are accessible at the Gulf Coast campus and materials are available for campus-to-campus loan. Collections include 37,000 volumes of curriculum resource materials and 400 serial titles. In addition, the library houses a computer lab and the USM Gulf Coast Heritage Room.

The University of Southern Mississippi Museum of Art

The University of Southern Mississippi Museum of Art was established in 1997 by the Board of Trustees. Located in the Fine Arts Building off Southern Drive, the museum is composed of three exhibition galleries: The C. W. Woods Art Gallery, the Lok Exhibition Gallery, and Gallery II. More than 10,000 people visit the museum annually.

Recent exhibitions have included “The Gentle Art of Making Enemies: The Etchings of James McNeill Whistler and Seymour Hayden” and “Faces of Freedom Summer: The Photographs of Herbert Randall,” organized in conjunction with the USM Libraries and Archives. The museum also exhibits works by USM art department faculty and students as well as the works of artists such as Walter Anderson, Marie Hull, Winslow Homer, Rembrandt van Rijn, Honoré Daumier, Dusti Bongé, Richmond Barthe, and Fairfield Porter.

For more information about the USM Museum of Art, please call (601) 266-5200.
Other General Information and Services

E-mail Accounts
The Office of Technology Resources offers electronic mail (E-mail) services. If you are eligible (see below), you are entitled to one Ocean account, which is kept active for the entire time you are enrolled or working at USM. In the event that you leave USM due to graduation or employment elsewhere, there is a grace period before your account is removed.

The University of Southern Mississippi expects all students to have an active USM e-mail account. We can forward your USM mail to any e-mail account you may have already. Your email account will be used by USM and classroom instructors to communicate important information. You should get in the habit of checking your e-mail account daily.

In addition to providing e-mail, these accounts also allow you to create your own Web pages.

Publications
The University of Southern Mississippi has four publications each year: the Undergraduate Bulletin, the Graduate Bulletin, the Independent Study Bulletin, and the Regional Campus Publication. To acquire the complete programs of the University, please check each publication.

Family Educational Rights and Privacy Act of 1974 as amended (FERPA)
The Family Educational Rights and Privacy Act of 1974 as amended deals with one subject only: educational records. The purpose of the law is to define, more precisely than ever has been done, who may or may not see these records. On the one hand, the law grants students guaranteed access; on the other hand, it takes from the universities the privilege of indiscriminate disclosure.

The FERPA sets forth these main requirements:
1. It allows a student access to each educational record that a university or college keeps on him or her.
2. It requires the institution to establish a policy on how students can go about seeing specific records.
3. It requires the institution to inform all students as to what rights they have under the Amendment, how they can act on these rights according to school policy, and how they can see a copy of the policy.
4. It requires the institution to seek student permission, in writing, before disclosing any personally identifiable record to individuals other than professional personnel employed in the university or college (and others who meet certain specified requirements).

The University has developed and put into writing a policy for handling requests from students and for disclosing personally identifiable information about students. Students are notified of their rights under the law by publishing the University policy in the Student Handbook.

Oak Ridge Associated Universities
Since 1992, students and faculty of The University of Southern Mississippi have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 87 colleges and universities, and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help its students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education, the DOE facility that ORAU manages, undergraduates, graduates, postgraduates, and faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and
Introduction

A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits, can be found in the Resource Guide, which is available at http://www.gov/orise/resgd.htm or by calling either of the contacts below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scientist Program, and various services to chief research officers.

For more information about ORAU and its programs, contact Dr. Angeline G. Dvorak, ORAU Councillor for The University of Southern Mississippi, at (601) 266-5116, or contact Monnie E. Champion, ORAU Corporate Secretary, at (423) 576-3306; or visit the ORAU Web page (http://www.orau.gov).

Retention of Students and Program Completion Information

A University of Southern Mississippi Fact Book that includes information on retention and graduation is located in the reserve material at the Circulation desk in Joseph Anderson Cook library and is available upon request.

Sexual Harassment

The University of Southern Mississippi, in its efforts to foster an environment of respect for the dignity and worth of all members of the University community, is committed to maintaining a work-learning environment free of sexual harassment. It is the policy of the University that no member of its community shall sexually harass another. Any employee or student who violates this policy is subject to disciplinary action, including termination. Sexual harassment is illegal under both state and federal law (USM Student Handbook 2001-2002, p. 54).

Rehabilitation Act of 1973 and the Americans with Disabilities Act

The University of Southern Mississippi complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disability Act. No otherwise qualified handicapped person, solely on the basis of handicap, will be excluded from participation in, be denied the benefits of, or be subjected to discrimination in the administration of any educational program or activity, including admission or access thereto or in treatment or employment therein by The University of Southern Mississippi. All reasonable accommodations must be approved through the Office for Disability Accommodations (ODA), for students, or the University 504/ADA compliance officer, for faculty/staff. Students who need assistance in reasonably accommodating a disability in the classroom or on campus should contact the ODA coordinator at (601) 266-5024, TTY (601) 266-6837; faculty/staff should contact the compliance officer at 266-5163, TTY 1-888-671-0051.

The University Press of Mississippi

The University Press of Mississippi was founded in 1970 to encourage the dissemination of the fruits of research and study through the publication of scholarly works. Functioning as the scholarly publishing arm of the state-supported universities in Mississippi, The University Press is governed by a Board of Directors made up of one representative from each of the eight state universities, one representative from the Board of Trustees of State Institutions of Higher Learning, and the director of the Press.

The University Press publishes more than 50 books each year. Primary areas of interest are Mississippi history and literature, but manuscripts in all areas of study are welcomed.

Administrative offices of The University Press are located in the Education and Research Center of Mississippi, 3825 Ridgewood Road, Jackson, MS, 39211.

The University of Southern Mississippi Alumni Association

The Alumni Association was established in 1917 as an organization mainly involved in functions relating to placement service. Since its rebirth in 1946, when the Executive Committee recognized the need for a working Alumni Association with organized alumni groups in the various counties of the state, the association has operated in its present form, serving as a link between the University and its former students.

Southern Miss graduates and former students are encouraged to become active in the Alumni Association and its support of the University’s various academic and athletic programs. Of more than 100,000 graduates since the University’s founding, the Alumni Association has enlisted in excess of 18,000 paid members for the past several years.

The association provides a number of benefits to its members, including a subscription to the quarterly magazine.
The Talon, which helps graduates stay informed of campus developments and provides updates on former classmates. Other benefits include a waiver of out-of-state tuition fees for children of members who meet certain requirements, receipt of mailings on area alumni chapter meetings, library privileges, car decals, eligibility to join the USM Credit Union, and various other special events. The association also produces a biannual newsletter, which is sent to all Southern Miss graduates who have accurate addresses in the database.

The association is very active in developing other programs to support all areas of the University. Some of these include organizing joint district Eagle Club meetings in conjunction with the athletic department, sponsoring high school student nights across Mississippi and the surrounding states, and organizing both athletic road game trips and educational excursions to such locations as Switzerland and England.

The Alumni Association also sponsored the drive to raise the funds necessary for the construction of the first R. C. Cook University Union building, helped set up the USM Foundation (the receptacle for all gifts to the University), and organized the Student Alumni Association, an organization comprised of hard-working, enthusiastic students involved in a variety of activities each semester to promote the University.

Organized Alumni chapters are urged to hold a meeting each year for the election of officers on or around March 30, the date selected by the association as USM Day in commemoration of the founding of the University on that date in 1910. All former students of USM are encouraged to get together in honor of the University on this date.
Admission to the University

All communications regarding entrance to the undergraduate colleges and schools of the University should be addressed to the Office of Admissions, The University of Southern Mississippi, Box 5166, Hattiesburg, MS 39406-5166.

Eligibility for admission will be determined when the application, ACT/SAT score, and scholastic records have been submitted. These items should be received before the deadline date of the semester for which the student is applying (see Calendar). The academic record, character, and conditions of application of the applicant must be in accordance with the rules and regulations of the Board of Trustees of State Institutions of Higher Learning and with the laws of the state of Mississippi. The applicant must have excellent moral character and must be willing to conduct his or her affairs so as to be a credit to the University. The University reserves the right to cancel the admission or registration of an individual whose attendance at the University, in the opinion of the appropriate administrative officer and the president, would not be mutually beneficial to himself or herself and to the institution. Any undergraduate applicant who is denied admission to the University may have his or her case reviewed by the Undergraduate Committee for Admissions and Credits. To initiate the review procedure, the student should contact the Office of Admissions. Applicants should note carefully the law governing legal residence and the penalty for falsifying residence information. The law appears in the STUDENT EXPENSES Section of this Bulletin. The University of Southern Mississippi does not discriminate on grounds of age, sex, race, color, religion, or national origin. These provisions also apply to disabled individuals pursuant to current federal and state regulations subject to reasonable standards of admission and employment. All inquiries concerning discrimination should be referred to Director of Affirmative Action/Equal Opportunity Employment Office Room 108, Administration Building, The University of Southern Mississippi, Hattiesburg, Mississippi 39406-5177.

Admission requirements are subject to change as mandated by the Board of Trustees, State Institutions of Higher Learning, without prior notification.

Application Procedures for Freshmen

How to Apply

Each entering freshman applicant is required to:

1. Present an application for admission.

2. Submit an official high school transcript which lists the date of graduation, class rank, and grade point average and which indicates credit in the following College Preparatory Core (CPC) units in grades 9-12:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4 units</td>
<td>(all must require substantial communication skills)</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3 units</td>
<td>(includes Alg I, Geom, Alg II or a higher math)</td>
</tr>
<tr>
<td>Sciences</td>
<td>3 units</td>
<td>(choose from Bio, Chem, Physics, or their advanced sequences, or any other course of comparable rigor and content; two must be lab based)</td>
</tr>
<tr>
<td>Social Studies</td>
<td>3 units</td>
<td>(must include 1 unit of American History, 1 unit of World History, 1/2 unit of Government, and 1/2 unit of either Economics or Geography.)</td>
</tr>
<tr>
<td>Required Electives</td>
<td>2 units</td>
<td>(1 unit must be either a foreign language or World Geography. The second unit can be either a foreign language, World Geography or a 4th math or 4th science unit.)</td>
</tr>
<tr>
<td>Computer Application</td>
<td>1/2 unit</td>
<td>(computer competency cited on the transcript will meet this requirement)</td>
</tr>
</tbody>
</table>

Algebra I or a foreign language taken in the 8th grade will be accepted toward meeting admission requirements.
For an applicant to be fully admitted to USM, one of the following combinations of curriculum, testing scores, and grade point average must be attained:

1. Complete CPC with minimum 3.20 core GPA and submit ACT or SAT; or,
2. Complete CPC with minimum 2.50 core GPA or in top 50 percent of class and 16 or higher ACT, or the SAT equivalent; or,
3. Complete CPC with minimum 2.00 core GPA and 18 ACT or the SAT equivalent.

If an applicant meets all of the above requirements except for the full CPC, he/she may be admitted with up to two curriculum deficiencies (but no more than one in any allowable area; English and Mathematics areas are not allowed deficiencies.) Students may also be considered as per NCAA IA eligibility criteria. Entering freshmen who have been admitted to the University may be required to enroll in developmental courses. Placement in developmental courses will be based on ACT or SAT subtest scores.

Freshman applicants who do not meet the above listed standards may be required to participate in a screening process that will include the diagnostic test, ACCUPLACER. Depending on the level of development diagnosed through ACCUPLACER and other factors assessed through screening, applicants may be moved directly into a full admission category. Those students will be encouraged to participate in the year-long Academic Support Program. If the ACCUPLACER and other factors indicate the need for remediation, those applicants will be fully admitted with deficiencies for the summer term and will be required to enroll in the Developmental Education Program designed to strengthen the student’s skills in areas requiring remediation. Students who successfully complete this summer program by passing all Summer Developmental courses will be considered to have made satisfactory academic progress and will continue their regular programs of study during the fall term with mandatory participation in the Academic Support Program. Students who fail to complete the Summer portion of the Developmental Education Program are not eligible for enrollment in the regular academic year. Those students will be counseled to explore other post-secondary opportunities.

Realizing that applicants from other states and countries may not have the same curriculum opportunities as our instate applicants, those students will be required to achieve curriculum standards that would be considered equivalent in rigor and content to the College Preparatory Core.

When to Apply

A high school student is urged to apply for admission early during senior year. The applicant should have his or her high school mail to the Office of Admissions a transcript complete for his or her first six semesters. The transcript should have clearly posted the current grade point average, class rank, and the courses for which the student is currently enrolled. A student who applies during his or her final senior semester should provide a transcript complete for the first seven semesters. The deadline for receipt of applications and all required credentials, including results of the ACT/SAT, is twenty (20) days in advance of the session for which the application is being made. An application is processed as soon as possible after all required items are available.

Application Procedures for Transfer Students

How to Apply

Each new student who has attended other colleges or universities and who is seeking admission to an undergraduate college is required to file with the Office of Admissions an application for admission. He or she should also request the authorities at each institution attended to send an official transcript of his or her transcript record to the Office of Admissions. The student who is applying with fewer than the twenty-four (24) semester hours of college credit required for admission as a transfer must also submit an official high school transcript showing the date of graduation. The applicant must also provide an official report of the ACT/SAT scores directly from the testing service. Applications will be processed and admission status determined when all required items, including the ACT/SAT where applicable, are on file.

Any prospective transfer students who have achieved all of the standards as specified by the Board of Trustees for admission to the universities under the governance of the Board of Trustees but who choose to attend an institution not under the governance of the Board of Trustees may transfer at any time to an institution under the Board of Trustees. This does not alter individual institutional
requirements regarding transfer students.

Any student who did not meet freshman requirements at the time of high school graduation must attend an accredited institution of higher learning other than those under the governance of the Board of Trustees and must attain a C average (2.0 GPA on a 4.0 scale) in the following twenty-four (24) semester credit hours:

- 6 semester hours English Composition
- 3 semester hours College Algebra or a higher math course
- 6 semester hours Laboratory Science
- 9 semester hours Transferable Electives

The applicant also must show that he or she has earned an overall GPA of 2.0 on all course work attempted or have an earned associate degree (or its equivalent) from an accredited institution. Developmental courses in English, mathematics, and reading will not be accepted for transfer credit, nor will the grades and hours be used in computation of the individual GPA for admission to the University. Some programs require that students meet more selective standards than those posted above.

Transfer students may be accepted from other institutions of higher learning only when the program of the transferring institution is acceptable to the receiving institution, the program of studies completed by the student meets the requirements established above, and the quality of work performed by the student is acceptable to the Board of Trustees. The authorities at the institutions under the jurisdiction of this board are authorized to require acceptable scores on recognized tests for such transfer students. No student seeking to transfer during the midst of the session, quarter, semester, or trimester of the institution in which he or she is currently enrolled can be considered.

A student currently enrolled in another institution at the time he or she makes application for admission for the following session to one of the undergraduate colleges of this University should arrange to have forwarded to the Office of Admissions an official transcript which includes a listing of courses in progress as well as all completed work. Transfer credit is accepted only from institutions of higher learning which are accredited by a regional accrediting agency or the Mississippi Commission on College Accreditation.

The student must indicate on the application all previous colleges attended. An applicant is not permitted to ignore previous college attendance or enrollment. A student who misrepresents information in filling out the admission application form or a student who finds after admission or enrollment that he or she is ineligible for academic or any other reason to return to his or her last institution and who fails to report this immediately to the Office of Admissions will be subject to disciplinary action, including possible dismissal from the University.

**When to Apply**

The application, required credentials, and the ACT/SAT results (when applicable) must be on file in the Office of Admissions not less than twenty (20) days in advance of the session for which application is being made.

Transferred credit will be evaluated after a student registers for orientation/Preview. If an evaluation is received prior to registration day, the student should bring it for use during advisement. Otherwise, the student should contact the Office of Admissions upon arrival on campus for the purpose of attaining a transfer credit evaluation.

The University requires a grade average of C in all previous college work. The applications of students whose records do not meet the indicated requirements may be subject to review by the dean of Admissions or the Admissions and Credits Committee.

A student under academic suspension from another college or university may not enter The University of Southern Mississippi during the term of his or her suspension. Upon termination of the suspension period, there is no bar to admission if he or she is eligible in other ways.

Students under disciplinary suspension are not admitted to The University of Southern Mississippi. Cases may be considered on appeal.

Students from fully accredited institutions ordinarily will be given full credit for work transferred into the University, insofar as the courses taken are the same as, or equivalent to, courses offered in the college in which the student enrolls at this institution.
Credits transferred from an accredited community/junior college will be accepted as determined by the college in which the student is enrolled. In accepting community/junior college credits, no courses will be considered above sophomore level.

Neither vocational nor developmental/remedial courses will be accepted for transfer credit, nor will the grades made on these courses be used in computation of the grade point average for admissions purposes. Institutional credit based on acceptable nationally standardized tests is only transferrable and will only be considered if official records of individual test scores are available.

**Probationary Admission**

Transfer applicants who meet all regular transfer requirements but who do not have a minimum 2.0 grade point average (on a 4.0 scale) may be considered for admission to the University on Admissions Probation if the following requirements are met:

1. Applicant must meet ACT/SAT requirements mandated by the Board of Trustees.
2. Applicant must meet all curriculum requirements mandated by the Board of Trustees (freshmen or transfer, not both).
3. Applicant's grade point average must meet the Academic Standards level cited on page 24 of this publication.

If the above criteria have been met and an applicant has been admitted on probation, the student must maintain the following prescribed standards to continue enrollment:

1. To “clear” Admissions Probation, the student must pass a minimum of twelve (12) semester hours with a minimum 2.5 grade point average.
2. To continue to enroll on Admissions Probation, a student must maintain a minimum 2.0 grade point average on all USM courses.

If an Admissions Probation student fails to maintain a minimum 2.0 grade point average during any term at USM while on probation, he or she will be administratively dismissed, for which there is no appeal. A student administratively dismissed must attend another accredited institution and must achieve an overall 2.0 grade point average (from all institutions of record) before he or she may be considered for readmission to USM.

A limited number of students may be admitted who have not completed transfer admission course requirements, provided the student has completed English composition and has maintained an overall 2.5 grade point average.

**Transfer Credit Policy**

Credits transferred from accredited institutions are reproduced on the permanent records of the University of Southern Mississippi. This action is evidence that the credits are considered valid. Validity, however, is not to be confused with applicability.

**Applicability** of transfer work depends upon the coincidence of transfer credits with the requirement of a particular curriculum. **Applicability** varies from curriculum to curriculum, not only for transfer students from other institutions but for students transferring from one school or curriculum to another within The University of Southern Mississippi. **Applicability** is determined by the department chair and the dean of the college to which one is admitted. Transfers hours passed will be accepted. To meet graduation requirements, transfer students must have an overall C average, calculated by the method currently in use at The University of Southern Mississippi, on all hours scheduled and rescheduled at The University of Southern Mississippi. **Acceptance of community/junior college work is limited to one-half of the total requirements for graduation in a given curriculum.**

A maximum of sixty-four (64) semester hours of credit earned through credit by examination, independent study courses, extension courses, and educational experiences in the armed forces combined may be counted toward a degree at The University of Southern Mississippi. No more than thirty (30) semester hours in a degree program may be earned through credit by examination.

While enrolled at The University of Southern Mississippi, a student is required to obtain written approval from his or her department to enroll in a course(s) at another institution. Without this approval, the course(s) may not apply toward his or her degree.

**Transcript Evaluations**

The Office of Admissions is charged with the responsibility of providing transferring students and their advisers with transcript evaluations on a timely basis. An official transcript evaluation will be completed
only after all the required official documents necessary for the applicant’s admission to the University have been received by the Office of Admissions and the student has registered for orientation. For the convenience of both the student and advisor, an unofficial transcript evaluation will be provided to assist in advising and in the procurement of Financial Aid and Veterans Administration benefits, etc., upon request. An official transcript evaluation may be delayed for students who do not meet established orientation/preview registration deadlines.

Nontraditional credits awarded by another institution will be evaluated in terms of current policy at The University of Southern Mississippi. Unless the basis for awarding the credit is readily identifiable, no credit will be awarded until such time as the student, through the awarding institution, can establish the creditability of the curriculum.

Acceptance of Military Credit
1. Credit for military schools and educational experiences in the armed forces is awarded on the basis of recommendations of the American Council on Education.
2. Correspondence or extension courses, including USAFI/DANTES college level courses, may be applied toward a degree up to a maximum of thirty-two (32) semester hours. DANTES credit is allowed only for subjects where CLEP credit is accepted, with the addition of the DANTES Public Speaking test. No more than nine (9) semester hours of correspondence (USAFI) work may be earned in any one field.
3. Credit from the Community College of the Air Force is acceptable for purposes of admissions and may be used in a degree program as determined by the academic department. These credits will only be posted upon request.
4. A maximum of sixty-four (64) semester hours of credit earned by independent study, extension and military experience combined may be applied toward a degree.
5. Evaluation of credit will be completed after actual enrollment, upon request.

Requirements for Military Personnel: The Bootstrap Program
In order to receive an official evaluation of credits to determine eligibility for Bootstrap attendance, the following educational credentials must be forwarded:

1. a properly executed military DD Form 295
2. official transcripts bearing the official seal from each institution where credit has been earned
3. official transcripts and CLEP scores for courses completed through the United States Armed Forces Institute, Madison, Wisconsin
4. official high school transcript
5. an application for admission submitted with the request for an evaluation

All documents and correspondence should be directed to the department chair of the student's major.

Requirements for College of Nursing, Baccalaureate
Students desiring admission to the College of Nursing are subject to the admission procedures of the University. A separate application form is required by the College of Nursing. (Please refer to the College of Nursing Admission section.) To be admitted to the baccalaureate nursing major, students must also meet the following minimum requirements:

1. an Enhanced ACT of 21 or above. A corresponding score on the ACT taken prior to October 1989 or the SAT
2. a grade point average of 2.5 on courses prerequisite to the nursing major
3. a minimum of a C in each course applicable to the nursing curriculum
4. certification as a Nursing Assistant through a program approved by the Mississippi Department of Health
5. All prerequisite courses must be successfully completed before beginning the nursing plan.

Only one natural science course may be repeated one time.
Requirements for International Students

Regular University Programs

1. International students without previous records at colleges or universities must meet the requirements outlined for admission as a freshman.

2. If English is not the native language of the student, a score of at least 525 (paper-based) or 197 (computer-based) is required on the TOEFL (Test of English as a Foreign Language).

3. Because application processing requires more time for international students, all applicants residing outside the United States must submit all application materials at least two months before the proposed date of entry into the University. International student applicants residing inside the United States must submit all application materials at least one month before the proposed date of entry into the University.

4. International students who have already attended colleges or universities must meet the requirements outlined for admission as transfer students. The TOEFL requirement may be waived if the transfer student has successfully completed all freshman English requirements with an average of 2.0 or better.

5. A twenty-five dollar ($25) nonrefundable fee must accompany each international student’s application for admission.

6. International students applying for admission to regular university programs should send documents and correspondence to

   Director
   Office of International Student Affairs
   The University of Southern Mississippi
   Box 5151
   Hattiesburg, MS 39406-5151
   U.S.A.

English Language Institute Programs

1. International students, age 18 or older, are eligible for admission.

2. Applications must include a letter from a bank or supporting agency verifying availability of funds.

3. To help assure acceptance, applicants should apply at least 90 calendar days prior to the beginning date of the course.

4. No application or Immigration Form I-20 can be processed until all required materials and deposits have been received by the University.

5. A Dual I-20 Form can be issued to those undergraduate students accepted by the English Language Institute and deemed academically admissible by the University. This I-20 Form enables a student to enter the University in a degree-granting program once all admission requirements have been met. The student must make application to the English Language Institute and to the University.

International students interested in attending the English Language Institute for intensive studies in English should direct all correspondence to

   Director
   English Language Institute
   The University of Southern Mississippi
   Box 5065
   Hattiesburg, MS 39406-5065
   U.S.A.
Other Admission Categories

Special Admissions

The University has several special admissions categories for highly qualified high school students. To be considered for EARLY ADMISSIONS, the applicant must meet one of the two following:

1. 3.20 GPA on at least 15 College Preparatory Curriculum (CPC) units and recommendation of high school counselor or principal.
2. 3.50 GPA on completed CPC courses, and an ACT composite of 25 or the SAT equivalent, and recommendation of high school principal.

The University also offers highly qualified high school students the opportunity to earn college credits while they are enrolled in high school. Through our DUAL ENROLLMENT program, high school students may take one (1) course per term at the University, provided that the course does not interfere with their high school curriculum. To be dually enrolled, the applicant must secure a letter of recommendation from his or her high school counselor and must have a minimum composite score of twenty-five (25) on the ACT or the SAT equivalent.

For information concerning EARLY ADMISSIONS or DUAL ENROLLMENT, make all inquiries to Admissions, Box 5166, Hattiesburg, MS 39406-5166.

NonTraditional Students

For the adult who wishes to complete certain specific undergraduate courses in a degree or nondegree status, the applicant may be considered for admission provided the applicant meets these conditions:

1. has a high school diploma or its equivalent
2. is at least 21 years of age
3. meets acceptable grade point average requirement on transfer work

Previous academic records are required of all applicants. Applicants for nontraditional status are required to certify that they are not under suspension from any college or university. A student found guilty of nondisclosure or misrepresentation in filling out the admission application form, or a student who finds after admission or enrollment that he or she is ineligible for academic or any other reason to return to his or her last institution, and who fails to report this immediately to the Office of Admissions, will be subject to disciplinary action, including possible dismissal from the University.

The student registered in nontraditional status is subject to all University regulations governing registration, attendance, and academic standing. Credit earned in nontraditional status is recorded on the student's permanent record and may be applied in an undergraduate degree program when the student has satisfactorily established degree status by meeting the entrance requirements of the University and of the degree-granting college of his or her choice. A nontraditional student may not register for more than twelve (12) semester hours per semester. Depending on admission evaluation, some students may be limited to six (6) hours per semester. Nontraditional students are ineligible for some forms of financial aid and should consult with the Office of Financial Aid if aid is needed.

Nontraditional students applying for regular status are required to follow admission procedures and to provide all items required of transfer students.

Admission by Examination

Students under 21 with a General Education Development Certificate of High School Equivalency must present a GED composite score equal to the 50th percentile along with ACT/SAT test scores. In such cases, the applicants may be screened and directed according to the results of the ACCUPLACER. The University does not award credit for the General Educational Development Tests, College Level. For applicants over 21 years of age, see regulations governing nontraditional students.

Home-taught students who present an ACT Composite score of 20-24 or the SAT equivalent and a portfolio or transcript showing evidence of completion of the College Preparatory Curriculum may be screened and, if the ACCUPLACER results so direct, may be required to participate in the Developmental Education Program. Those students who present an ACT Composite of 25 or higher or the SAT equivalent and a portfolio or transcript showing evidence of completion of the College Preparatory Curriculum may be fully admitted without further screening.
Immunization Requirements
All students (including transfers) entering the University for the first time and enrolling for academic credit must document proof of immunization for measles and rubella.

1. Proof of immunization may be documented in the following manner:
   a. Obtain a Certificate of Compliance with Immunization (Form No. 121-C) from your local Mississippi State Board of Health office, if you are a resident of the state of Mississippi. Two doses of measles vaccine are required. All international students must have a chest X-ray to screen for tuberculosis;
   b. Documentation (month and year) of immunization which was received after the first birthday;
   c. Positive measles and rubella serology titer with date;
   d. Physician-documented history of having had measles with date of disease. History of rubella is not acceptable.

2. Temporary exceptions - one semester:
   a. Pregnant women
   b. Women suspecting pregnancy
   c. Women anticipating pregnancy within three months

3. Permanent exceptions:
   a. Medical disease which will cause a permanent contraindication to immunization
   b. All persons born prior to 1957

Admitted Student Information
Orientation
New freshmen and transfer students entering The University of Southern Mississippi are required to participate in the orientation program, USM Preview. USM Preview is designed to acquaint students with University structure, policies, procedures, physical layout, faculty, students, organizations, and academic programs. Activities scheduled during the program include the following: evaluation of credit for transfer students, academic advisement, small group sessions, open house for organizations, scheduling of classes, and registration. Parents of entering students are also invited to attend the summer orientation program. Special sessions planned for parents include discussions about University policies, including finances, housing, student activities, educational and recreational opportunities, and academic programs.

Advisement
All new students are assigned to academic advisers and are given specific times to meet with their advisers for assistance in scheduling classes and planning programs of study to meet their individual needs. Assignment of advisers is based on the student’s stated educational major. The General Studies Academic Advisement Program, administered by the Division of Undergraduate Studies, provides an organized plan of advisement for students undecided in their academic majors. The Career Center provides a program of academic and career counseling for students of the University.
Reapplying to the University

Students who have previously attended the University and have a break in attendance of one or more terms must file an application for readmission. Readmission documents required include an official transcript from each institution attended since leaving USM, and, if a degree has been received from another institution, an official transcript showing that degree.

Students must meet the minimum admission standards of the University and be in good standing at all institutions attended since leaving USM in order to be eligible for readmission.

Questions concerning undergraduate readmission should be directed to the Office of Admissions.
Questions concerning graduate readmission should be directed to the Office of Graduate Admissions.

Residency Regulations

**Petitions for Change of Residency:** Petitions for change of residency must be made on or before the last day of latereregistration. Forms are available in the Office of the University Registrar.

**Legal Residence of Students:** The definitions and conditions stated here are as required by state law in the classification of students as residents or nonresidents for the assessment of fees. Requests for a review of residency classification should be submitted to the University Registrar; forms for this purpose are available from the Office of the University Registrar.

**A Minor:** The residence of a person less than 21 years of age is that of the father. After the death of the father, the residence of the minor is that of the mother. If the parents are divorced, the residence of the minor is that of the parent who was granted custody by the court; or, if custody was not granted, the residence continues to be that of the father. If both parents are deceased, the residence of the minor is that of the last surviving parent at the time of that parent’s death, unless the minor lives with a legal guardian of his or her person duly appointed by a proper court of Mississippi, in which case his or her residence becomes that of the guardian.

**An Adult:** The residence of an adult is that place where he or she is domiciled, that is, the place where he or she actually physically resides with the intention of remaining there indefinitely or of returning there permanently when temporarily absent. Adult students who are residing outside of the state of Mississippi, but whose parents have moved to this state and have become residents, must establish residence in their own right. In determining residence for tuition purposes of persons who return to Mississippi after temporary departures such as school attendance, work elsewhere, or military service, cognizance is taken for evidence showing continuity of state residence and demonstrated intent to return to the state.

**Removal of Parents from Mississippi:** If the parents of a minor who is enrolled as a student in an institution of higher learning move their legal residence from the state of Mississippi, the minor is immediately classified as a nonresident student.

**Twelve Months of Residence Required:** No student may be admitted to the University as a resident of Mississippi unless his or her residence, as defined herein above, has been in the State of Mississippi for a continuous period of at least 12 months immediately preceding his or her admission.

A student who has lived within the state for 12 months following his or her 21st birthday may establish residence in his or her own right by showing that he or she is living in the state with the intention of abandoning his or her former domicile and remaining in the state of Mississippi permanently or for an indefinite length of time. Intent may be demonstrated or disproved by factors including, but not limited to, filing of Mississippi income tax returns, eligibility to vote in Mississippi, motor vehicle registration in Mississippi, possession of a Mississippi operator’s license, place of employment, and self support.

**Residence Status of a Married Person:** A married person may claim the residence of his or her spouse. (Foreign students refer to Legal Residence of a Foreign Student.)

**Children of Parents Who Are Employed by the University:** Children of parents who are members of the faculty or staff of the University may be classified as residents without regard to the residence requirement of 12 months.

**Military Personnel Assigned on Active Duty Stationed in Mississippi:** Members of the armed forces on extended active duty and stationed within the state of Mississippi may be classified as residents, without regard to the residence requirement of twelve months, for the purpose of attendance at the
University. Resident status of such military personnel who are not legal residents of Mississippi, as defined above under LEGAL RESIDENCE OF AN ADULT, shall terminate upon their reassignment for duty in the continental United States outside the state of Mississippi.

Children of Military Personnel: Resident status of children of members of the armed forces on extended active duty shall be that of the military parent for the purpose of attending the University during the time that their military parents are stationed within the state of Mississippi and shall be continued through the time that military parents are stationed in an overseas area with last duty assignment within the State of Mississippi, excepting temporary training assignments en route from Mississippi. Resident status of minor children shall terminate upon reassignment under permanent change of station orders of their military parents for duty in the continental United States outside the state of Mississippi, excepting temporary training assignments en route from Mississippi.

Certification of Residence of Military Personnel: A military person on active duty stationed in Mississippi who wishes to avail himself or herself or his or her dependents of the provisions of the paragraph titled MILITARY PERSONNEL ASSIGNED ON ACTIVE DUTY STATION IN MISSISSIPPI must submit a certificate from his or her military organization showing the name of the military member, the name of the dependent, if for a dependent, the name of the organization of assignment and its address (may be in the letterhead), that the military member will be on active duty stationed in Mississippi on the date of registration at the University; that the military member is not on transfer orders; and the signature of the commanding officer, the adjutant, or the personnel officer of the unit of assignment with signer’s rank and title. A military certificate must be presented to the Registrar of the University each semester at (or within ten days prior to) registration for the provisions of the paragraph MILITARY PERSONNEL ASSIGNED ON ACTIVE DUTY STATION IN MISSISSIPPI, named above, to be effective.

Legal Residence of a Foreign Student: Students with permanent immigrant status or refugee status can establish residence in the state by meeting the provisions of the Mississippi Statute.
Student Expenses and Financial Aid

The University of Southern Mississippi is supported chiefly by legislative appropriations. Increases in student fees are put into effect only when public support funds are inadequate and no other recourse is available. Increases are made only for support of the institution or improvement of the activity program of the students; therefore, the University must reserve the right to increase or modify fees and expenses without prior notice but with approval of the Board of Trustees of State Institutions of Higher Learning.

Fees and expenses are in the form of general tuition, room and board, and special fees.

General Tuition

This fee, together with the allocation from the legislative appropriation, is used for general support of the University. Athletic activities and UAC programs are not included for part-time students.

Full-time students for purposes of assessing fees are those who take nine (9) or more semester hours in Graduate School and twelve (12) or more semester hours in all other colleges during fall and spring semesters. During summer terms, seven (7) or more semester hours for Graduate School and nine (9) or more semester hours in all other colleges constitute full-time students for purposes of assessing fees. Undergraduate students enrolled for more than nineteen (19) semester hours during fall and spring semesters and for more than fourteen (14) semester hours during the summer term will be assessed the applicable fee for each additional semester hour. Graduate students enrolled for more than thirteen (13) semester hours during fall and spring semesters and for more than twelve (12) semester hours during the summer term will be assessed the applicable fee for each additional semester hour.

Clinical and hospital services covered by the health service charge included in the general tuition fee are limited to cases of ordinary illness. Services are provided within the limits of the professional, technical, and physical resources of the Clinic. The University does not assume responsibility in cases of extended illness or for treatment of chronic diseases. Cases requiring surgery must be handled by a physician and hospital of the student’s choice and at the student’s expense.

Board

Board fees are assessed to all students living in the residence halls and fraternity houses. Board is available to all other students on an optional basis. Students may choose from a basic seven-day or five-day meal plan. Students with a basic meal plan may dine at the Commons, Elam Arms, Hillcrest, and, occasionally, at Seymour’s. Every meal includes unlimited seconds and unlimited use of the beverage and salad bars. Commuter and snack meal plans are also available.

Telephone Service

Telephone service in residence halls and family student housing is provided through the Office of Technology Resources. The cost of local telephone service is included as a part of housing rent. To access the campus long distance service, students are issued a personal long distance code, which may be obtained at the Customer Services Office, Hub Building, Room 104. Long distance calls are billed to the student at the end of each month, to be paid no later than the 15th of the following month. If the previous month’s charges are not paid by the 15th, service will be suspended until payment is made. Accounts over 60 days past due will be sent to the Business Office for collection. After that time, the account will be administered on a prepay status. Students are responsible for payment for any calls charged to their long distance access codes. All charges must be settled before the student leaves the University for a semester break or upon graduation or withdrawal.

The Customer Services Office also offers a wide range of other services, such as automatic callback, wake-up calls, voice mail, three-way calling, hold, call transfer, call waiting, Internet service, fax service, and Western Union service. These services are available at additional charges in Hub Building, Room 104.
Post Office Box

The post office box rental fee is assessed to all students living in University-controlled housing. Fees are assessed on an academic year basis and are calculated on time remaining in the academic year. The fee covers box rental for the remainder of the academic year provided the student remains enrolled. Those students living off campus may rent a post office box if they so desire.

Student ID Cards

The ID card is a PERMANENT card for each student. The fall semester (permanent) ID card will also be used for spring and summer semesters. The same card must be kept and used even when returning from a previous year or semester. Do not destroy, lose, bend or tamper with an ID card. Only one card will be issued at no charge during a five(5)-year-period. A fee of $10 will be charged at the time a replacement card is made.

Other Financial Information

Payment of Fees

One half of a student’s total fees are due and payable at time of registration. Students with University loans, grants, or scholarships may use those funds as payment for the first half of total fees. Loans, grants, scholarships, and checks made payable to the University must be applied to fees in full before a refund or change can be given. These loans, grants, and scholarships may not be used to pay prior semester outstanding balances. Fees deferred past the last day to register each term will be billed monthly. A monthly service charge of 1.5 percent will be applied to the unpaid balance. Students who pre-register must pay minimum payment (if applicable) by the due date or there will be an additional preregistration fee of $100 added to their accounts. Classes will be dropped at a later date for nonpayment.

The University accepts payment by check, money order, cash, and all major credit cards. The University reserves the right to refuse payment by check where an individual has previously given a check that has been returned.

The University reserves the right to withhold readmission of a student until all delinquent accounts have been paid. In fact, all past due accounts will be included on registration fee invoices and monthly bills. Transcripts of credits will not be issued for students whose accounts are delinquent. All fees must be paid before a degree will be awarded. Payments by personal check on delinquent accounts will be sent for collection before transcripts or degrees will be released. To avoid any delay in receiving these documents, payments can be made by cash, cashier’s check, or money order.

Fines accumulated as a result of failure to adhere to the established procedures of the University, such as library and public safety regulations, or any other policy establishing regulations for the protection of University property, shall become collectable by the Business Office, and, if not collected, shall constitute a delinquent account.

A fee of $50 will be assessed students who register during the late registration period.

Students whose checks for registration fees are returned will be assessed the late registration fee of $50 in addition to the $30 returned check handling fee. Returned checks not promptly paid may result in dismissal from the University.

Courses requiring special fees and music fees are shown in the Special Fee listing and are indicated by a plus sign in the Course Description Section of this Bulletin.

- The first through the tenth working day ................................. 100 percent less a $30 withdrawal fee
- After the 10th working day ..................................................... None

8W1 and 8W2 Summer Term
- The first through the fifth working day ................................. 100 percent less a $30 withdrawal fee
- After the 5th working day ..................................................... None

These schedule dates are posted in the Business Office.

Refunds are based on the assessment, not upon the amount paid by the student.

Appeals for refunds due to extenuating circumstances may be made in writing to Business Services, Box 5133, Hattiesburg, MS 39406-5133. Appeals must be received prior to the end of the academic year.

Refunds/returns of Title IV funds for students who participate in SFA (Student Financial Assistance) programs are calculated based on federal regulations. The processing steps for determining refunds/returns are available in Business Services, Forrest County Hall, Room 101.

Application Deadline
To receive full consideration, all required information and documents must be received by March 15. Late applications will be accepted and considered as funds permit.

Types of Financial Aid Programs Available
The Financial Aid Office has the responsibility of administering major areas of financial assistance. These areas will be listed in three categories—loans, grants and scholarships, and student employment. Further information may be obtained by contacting the Financial Aid Office.

A. Loans
1. Federal Perkins Loan Program
   The Federal Perkins Loan Program is for students who are enrolled at least half time in participating postsecondary institution and who need a loan to meet their educational expenses.
   Primary consideration for this loan is given to students who are enrolled full time.
   Repayment begins nine months after graduation or leaving school for other reasons. Students may be allowed up to ten (10) years to pay back the loan. During the repayment period, five (5) percent interest is charged on the unpaid balance of the loan principal.
   There are loan cancellation provisions for borrowers who go into certain fields.
2. Chester P. Freeman Loan Fund
   Established in 1981, this fund assists students to meet their tuition, fees, and book costs to attend USM. The loan is repayable beginning one year after graduation or leaving the University. The interest rate during repayment is three (3) percent simple interest.
3. Federal Stafford Loan
   Federal Stafford Loans are low-interest loans made to students attending school at least half time. Loans are made by a lending institution chosen by the student. These loans are insured by a guaranty agency and reinsured by the federal government. This loan must be repaid.
   Students can qualify for a Federal Stafford Loan based on financial need or regardless of need — that is, regardless of their or their family’s income. It is possible for a student to have a Federal Stafford Loan partly based on financial need and partly not based on need.
   Undergraduate students can borrow up to $2,625, $3,500, or $5,500 per year, depending on their year in college and eligibility. Graduate students can borrow up to $8,500 per year depending on eligibility. Independent students may be eligible to borrow more.
   Payments normally begin six (6) months after graduation or when the borrower ceases to be at least a half-time student, and students may be allowed up to ten (10) years to repay the loan. In most cases students must pay at least $600 a year unless circumstances agreed upon with the lending institution warrant a lesser amount. Repayment may be deferred if the student borrower returns to school.

B. Grants and Scholarships
   The Federal Pell Grant Program makes funds available to eligible students attending approved colleges, community/junior colleges, vocational schools, technical institutes, hospital schools of nursing, and other post-high school institutions.
   Students may apply for a Federal Pell Grant if they are seeking their first bachelor’s degree.
   The amount of the award is based on the determination of eligibility and the cost of attendance at the school. The grants range from $400 to $4,000.
2. Federal Supplemental Educational Opportunity Grants (SEOG)
   The Federal Supplemental Educational Opportunity Grant Program is for students of exceptional financial need who, without the grant, would be unable to continue their education.
   SEOG is available to eligible students seeking their first bachelor’s degree. Graduate students and students seeking an additional bachelor’s degree are not eligible.
3. Leveraging Educational Assistance Partnership Program (LEAP)
The state of Mississippi, through a matching grant program with the federal government, provides grants to full-time undergraduate students who are residents of the state of Mississippi. Recipients must demonstrate substantial financial need and show academic promise. Grants may range from $200 to $1,500 per academic year. Selection of recipients is made by the Financial Aid Office.

4. University Scholarships (These scholarships are subject to change without notice.) The following awards are available to entering students. Continuation of the scholarship is subject to satisfactory progress.

   a. Presidential Scholarships: Funds for Presidential Scholarships through the USM Foundation are provided through Schilling-Baer; O.L. and Marie B. Sims; Pulley, Pulley, Pulley, and Gough; The Middleburg Family; Lee Cornelius and Vera B. Burns; Edna Daves Yarbrough, the Olliphant Presidential Scholarship; and The USM Foundation Presidential Scholarship. A select number of students are invited to compete for these awards. Scholarship recipients must enroll in the Honors College.

   b. Olliphant Scholarships: Olliphant Scholarships are designated for Honors College students who demonstrate an outstanding record of leadership, a commitment of service to society, and an exemplary record of academic achievement. Olliphant Scholars will receive a stipend of $3,000, to be awarded over the four years at USM.

   c. Honors Scholars: Awards of Honors College Scholarships are competitive and are based on an excellent record of achievement on the ACT (or SAT) and in high school classes, with attention to Honors, AP, and other rigorous courses completed; high school and community activities; honors and achievements; counselor and teacher recommendations; and an essay. Honors scholarships are in the amount of $100 per semester for up to $800 for students completing both General and Senior Honors. Recipients shall enter the Honors College. Applications may be obtained by writing Honors College, Box 5162, Hattiesburg, MS 39406-5162.

   d. Valedictorian/STAR Student Scholarships: Valedictorians or STAR students from a public or private school may be awarded $100. The recipient must be designated as the valedictorian or STAR student of the graduating class and must enroll at USM during the fall semester immediately following his or her high school graduation. The scholarship will be paid fall semester of the freshman year only. Applications may be obtained by writing the Office of Admissions, Box 5166, Hattiesburg, MS 39406-5166.

   e. Academic Excellence Awards: Curriculum, rank-in-class, GPA, and test scores are considered in the awarding of these scholarships. Typically, students receiving awards meet the following guidelines. First-time entering freshmen who are National Merit/National Achievement semi-finalists or who have an ACT composite score of 32 or above and a high school GPA of 90 or above are eligible for an $8,000 award payable at the rate of $2,000 per year. First-time entering freshmen who have an ACT composite score of 30-31 and a high school GPA of 90 or above are eligible for a $5,000 award, payable at the rate of $1,250 per year. Students with an ACT composite score of 28-29 and a high school grade point average of 90 or above are eligible for a $3,000 award payable at the rate of $750 per year. A student is eligible to receive these scholarships only during the fall and spring semesters for four consecutive years. Out-of-state tuition will also be waived. He or she must be a full-time student (minimum of twelve (12) credit hours) and maintain a GPA of 3.0 to continue receiving the award.

   f. USM Sponsored Merit Awards: The University will recommend that National Merit finalists indicating USM as their college choice be awarded these scholarships. Merit Awards are equivalent to $2,000 over a four-year period.

   g. Leadership Scholarships: Recipients are selected based on achievements both in and outside the classroom. A selected number of applicants will be invited to interview for $8,800 awards.

   h. Mississippi Luckyday Citizenship Fellowships: Students actively involved in community service may be considered for $8,000 awards.

   i. Community/Junior College Leadership Awards: Mississippi Community/Junior College students nominated by their respective institutions will be invited to compete for awards up to $4,800.

   j. Community/Junior College Presidential Award: Scholarships of $500 are awarded at the discretion of the community/junior college president (within Mississippi).

   k. Community/Junior College Transfer Achievement Awards: Community/junior college transfer students who are Phi Theta Kappa members and who have a 3.50 GPA or above on at least 54 semester hours of community/junior college work are eligible for a $1,400 award, payable at the rate of $700 per year.

   Information concerning scholarships and scholarship applications may be obtained from the Office of Admissions, Box 5166, Hattiesburg, MS 39406. Students must be enrolled full-time to receive these awards.

5. Upperclass General Academic Scholarships: Scholarships are available each year to upperclass students based upon general academic achievement, leadership, major field of study, financial need, and other stipulations that may be imposed by the donor. Application deadline is March 15 of each year. The value of these awards ranges from $100 to
$1,400 per academic year. Applications may be obtained by writing the director of Financial Aid, Box 5101, Hattiesburg, MS 39406-5101.

C. Student Employment

1. Federal Work-Study Program

The primary purpose of the Federal Work-Study program is to stimulate and promote part-time employment for students. The program also seeks to encourage students receiving federal student financial assistance to participate in community service activities that will benefit the community and the nation. The program is designed for those students who are in need of earnings to pursue their course of study at USM. Primary consideration is given to students with the greatest financial need.

2. Student Employment On Campus

The University also employs students who are not eligible to receive federal work-study. Jobs are posted as they become available. Contact the Student Employment Office, Kennard-Washington Hall, for additional information.

3. Student Employment Off Campus

The Student Employment Office makes available many types of off-campus part-time jobs with businesses in the surrounding area. Referrals are made on an individual basis to jobs matching the students’ qualifications and schedule.

D. Other

1. ROTC Scholarship Program

See the Military Science and Aerospace Studies sections of this Bulletin for information on two-year, three-year, and four-year ROTC scholarships.

2. Marine Officer Programs

Qualified students may apply for an officer program leading to a commission as a second lieutenant in the United States Marine Corps. Commissions are offered in both ground and aviation components. The Platoon Leaders Course (PLC) is offered to freshmen, sophomores, and juniors who attend precommissioning training during the summer. Financial assistance and Flight Indoctrination Programs are available. Qualified seniors attend 12 weeks of training in the Officer Candidate Course (OCC) after graduation. For details, contact the placement officer or the Marine Officer Selection officer when he is on campus.

3. Police Corps Scholarship Program

Qualified students may receive up to $30,000 toward an undergraduate or graduate degree in any major. For details, contact the Office of the Police Corps at 1-800-767-7334.

Satisfactory Academic Progress Policy

In order to receive and maintain federal financial assistance, students are required to progress satisfactorily toward completion of their course of study. Federal financial assistance includes grants, student loans, and employment. Satisfactory Academic Progress is measured primarily in three ways:

1. The student must progress quantitatively by completing the required minimum number of credits each semester or terms.
2. The student must progress qualitatively by earning the required minimum grade point average.
3. The student must complete a program of study within a reasonable time period.

Qualitative Measure

The Financial Aid Office strictly adheres to the academic standards presently established by The University of Southern Mississippi and printed in the University Bulletin. Students who have attempted up to a total of 29 semester hours must earn a 1.5 cumulative grade point average. Students who have attempted up to a total of 59 semester hours must earn a 1.75 cumulative grade point
average. Students who have attempted 60 or more total hours must earn and maintain a 2.00 cumulative grade point average. Total hours attempted will include credits taken at the University and any credits transferred from another institution. Grade point averages, however, are based solely upon credits earned while enrolled at USM. Minimum acceptable academic standards are also represented in the following table:

<table>
<thead>
<tr>
<th>Total Hours Attempted (Including Transfer Credit)</th>
<th>Minimum Cumulative GPA (USM Work Only)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>1.50</td>
</tr>
<tr>
<td>30-59</td>
<td>1.75</td>
</tr>
<tr>
<td>60 and above</td>
<td>2.00</td>
</tr>
</tbody>
</table>

If a student does not attain the minimum grade point average, he or she will receive financial aid warning letters at the end of the summer and fall semesters. Should the student fail to attain the minimum acceptable grade point average as shown above for total hours attempted after spring semester, the student will be placed on financial aid suspension.

A student placed on financial aid suspension is ineligible for any federally funded financial aid programs until he or she returns his or her grade point average to the minimum required level.

**Quantitative Measure**

Students receiving financial aid must also complete a minimum number of credits each semester or term. The following minimums have been established:

**Undergraduate:** At the end of each semester, during which aid is received, undergraduate students must pass 75 percent of the classes attempted. Undergraduate students enrolled during a fall/spring semester must attempt at least six (6) semester hours each term in order to receive financial aid. Undergraduate students enrolled during a summer term must attempt at least four (4) semester hours.

**Graduate:** Graduate students must attempt at least four (4) graduate hours each semester in order to receive financial aid. Graduate students enrolled during a summer term must attempt at least three (3) graduate hours.

Passing grades include A, B, C, D, E, and P. Grades of I, F, Audit, and W will not be accepted as passing grades. Students failing to meet this quantitative measure of academic progress after the summer and fall semester will receive warning letter(s). Students failing to complete the minimum number of hours after the spring semester will be placed on financial aid suspension and will be ineligible for federal financial assistance.

**Maximum Time to Complete Course of Study**

Students must complete degree requirements within a normal time frame, and the following maximums have been established:

**Undergraduate:** A first-time undergraduate student will be deemed in good standing and eligible to receive federal financial aid until he or she has attempted 150 percent of the number of hours normally required to complete degree requirements, usually 192 hours. Attempted hours will include all courses on the academic transcript including grades of A, B, C, D, E, F, P, W, N, and I.

**Graduate:** Graduate students will be deemed in good standing and eligible to receive federal financial assistance until they have attempted twice the number of hours normally required to complete their program of study leading to a master’s or doctoral degree. Attempted hours will include all courses on the academic transcript including grades of A, B, C, D, E, F, P, W, N, and I.

**Second Degree Undergraduate:** Students who have already earned a baccalaureate degree and are now seeking a second undergraduate degree will be eligible to receive federal financial assistance for up to 206 undergraduate hours attempted.

**Second Degree Graduate:** Graduate students pursuing an additional master’s degree will be limited to a maximum of 120 graduate hours. This total includes all graduate hours accumulated. Once a student earns a specialist degree, he or she will be eligible for additional financial assistance only at the doctoral level; once a student earns a doctoral degree he or she will be ineligible for additional federal financial assistance.
Enrollment Status
Students receiving Federal Perkins Loan, Federal Work-Study, Federal Supplemental Grant, or Federal Pell Grant are expected to pass 75 percent of the enrollment status on which their financial aid was based. Students on suspension are ineligible for additional federal financial assistance until they enroll at least half time at their own expense, complete all courses, and earn the minimum required grade point average.

Transfer Students
Students transferring into the University will be assumed to be maintaining satisfactory academic progress. Hours transferred from prior schools will be considered when establishing class standing for grade requirements, as well as when determining the maximum number of hours allowed to receive financial aid.

Remedial Courses
A student is eligible to receive federal financial aid for up to one academic year’s worth of remedial coursework.

Audit Courses
Courses taken for audit do not count for credit or graduation and, therefore, are not counted in determining eligibility for receiving or maintaining financial aid.

Independent Study and Research
Courses taken under this category do not constitute full-time or half-time status and, therefore, are not counted in determining eligibility for receiving or maintaining financial aid.

Repeats
A limit of two (2) courses or a total of six (6) semester hours will be permitted as repeats without affecting financial aid eligibility.

Cooperative Education
Students are not considered as enrolled for credit hours during the terms they are employed and, therefore, are ineligible to receive financial assistance. Co-op students are, however, considered enrolled for purposes of deferring prior loans during periods of co-op.

Simultaneous Measurement
Academic transcripts of financial aid recipients will be reviewed at the end of each semester or term to ensure that the student simultaneously meets all the minimum Satisfactory Academic Policy requirements stated above.

Appeals
Students who have their aid suspended because they have exceeded the maximum length of time allowed to meet degree requirements may appeal that suspension ONLY for one the following reasons:

♦ The student is enrolled in a course of study that normally requires more than 128 semester hours to complete.
♦ The student has military or vocational (not technical) hours on his or her academic transcripts that are not included in his or her program of study.
♦ The student has attempted less than 192 hours in a course of study that normally requires 128 hours to complete.
♦ The student is seeking a second undergraduate degree and has attempted less than 206 semester hours.
♦ The student has graduated and has been officially or conditionally admitted to graduate school.

Students who have their aid suspended because of failure to meet quantitative or qualitative standards may appeal that suspension ONLY for one of the following reasons:
Death of an immediate family member. “Immediate family member” includes parent, spouse, sibling, or independent/dependent child.

The extended illness of the student. “Extended illness” is defined as “a documented chronic or recurring medical or emotional illness that causes the student to be absent from at least 10 class days.”

The extended illness of an immediate family member that places a hardship on the student. “Immediate family member” includes parent, spouse, sibling, or dependent child.

Other unusual circumstances that may affect a student’s ability to meet satisfactory academic progress standards.

Students should request a Financial Aid Appeal Form from the Financial Aid Office and submit it along with all supporting documentation to

Financial Aid Office
The University of Southern Mississippi
Box 5101
Hattiesburg, MS 39406-5101

The Financial Aid office will evaluate appeals, and students will be notified of their eligibility or ineligibility for continued financial assistance.

Students whose appeals are denied by the Financial Aid Office must enroll at USM at least half time until they have removed the deficiency that caused them to be placed on financial aid suspension.

Refunds

Students withdrawing from the University during the refund period who receive federal financial aid must return a portion of any refund to the financial aid programs from which aid was disbursed. The method of returning funds to financial aid programs shall be calculated using the current federal financial aid refund policy in conjunction with the University Refund Policy. A student is ineligible to receive further federal student aid until these funds are returned.

Repayment

When students receive cash above their direct educational expenses (tuition, fees, books, University board and room), they are expected to use those funds to meet noninstitutional education costs. Should a student withdraw during the University refund period, the student must return that portion of any cash disbursement that could not have reasonably been used to meet educational expenses. The portion that must be returned is a repayment. The University’s Repayment Policy coincides with the applicable federal and University refund policy. A student is ineligible to receive further federal student aid until the repayment is made.

The University of Southern Mississippi Athletic Foundation

The University of Southern Mississippi Athletic Foundation is a nonprofit organization that manages and administers the donations of private funds. It supports and raises these funds for the enhancement of the Golden Eagles intercollegiate athletics program. These endowments are used to pay for student-athlete scholarships, renovate and build athletic facilities, assist sports programs with individual needs that may not be in regular budgets, and support the retention of quality coaches and staff members.

The foundation is governed by a 20-member board of directors and is directed by an executive committee; the board of directors consists of staff and faculty of the University as well as volunteers. The Athletic Foundation pledges to be good stewards of its annual donations and its current endowed funds.

The University of Southern Mississippi Foundation Scholarships

The University of Southern Mississippi Foundation is a nonprofit organization that functions as the depository and fiduciary of private gifts to The University of Southern Mississippi. The University of Southern Mississippi Foundation is charged with the responsibility of raising necessary funds to support the academic programs. Overall guidance and policies for the foundation are determined by a board of directors composed of alumni and friends of the University.

Programs designed to raise funds for the academic programs include:

- Annual Fund
- Honor Club
- Planned Giving
- Corporate and Foundation Support

These programs encourage support, in the form of private donations, for academic and athletic scholarships.

The primary role of the foundation is to support the University in its role of teaching, research, and service. The assistance takes many forms including scholarships, library support, professorships, faculty chairs, equipment, etc.

Scholarships receive the largest share of annual expenditures. They are awarded according to the guidelines agreed upon by both the donor and the Foundation. While the Foundation receives and manages the funds, the awarding of scholarships is made by University Scholarship Committees in cooperation with the Financial Aid Office. Please refer to them for availability.

Student Life

Student Activities

The primary source of extra curricular activities at The University of Southern Mississippi is the multitude of student organizations and activities. More than 200 student organizations include all categories of participation- service, social, religious, professional, honorary- to provide an opportunity for almost any interested student to participate. While these activities are outside of or "extra to" the formal curricula, they are unquestionably a part of the student’s total experience while he or she is enrolled at The University of Southern Mississippi.

In addition to the numerous student organizations, there are groups which, by their representative function, serve the entire student body in their various capacities and areas. These groups are Student Government Association and University Activities Council.

While these groups are deliberative and propose to represent the views and wishes of the entire student body, other student governing groups may be found in the residence halls, the fraternity and sorority system, and the international student community.

Athletics

The University of Southern Mississippi is a member of Conference USA and the National Collegiate Athletic Association.

Intercollegiate sports are football, basketball, baseball, tennis, golf, outdoor track, and women’s tennis, basketball, golf, cross-country, volleyball, and indoor and outdoor track.

**Dramatic, Musical and Other Performing Groups**—The university’s preeminence in the fine arts fields of theater and music is reflected in the prominent role of student performing groups. The Debate Squad and the university’s own radio station also encourage student performance.

**The USM Repertory Dance Company** is open to all university students by audition and is sponsored by the Department of Theatre and Dance. This performance group presents reconstructions of masterworks and original choreography in informal and formal concerts, lecture demonstrations, workshops, and tours. Auditions are held at the beginning of each semester.
The University Theatre is the campus dramatic organization sponsored by the Department of Theatre and Dance. Open auditions are held for all productions and any student enrolled at the university is eligible to participate.

The Opera Theatre, open to all students of the university by audition, performs many works of musicodramatic interest during the year.

The Oratorio Chorus, a large symphonic chorus, is open to students and members of the Hattiesburg community. Its two major concerts each year highlight the masterworks of Western art music for chorus; no audition is required.

The University Chorale is a select choir made up of auditioned singers. Their repertoire, performed on campus and on tour, encompasses sacred and secular music from all music eras.

The University Singers is a mixed chorus of about 60 voices. One of the most popular of campus groups, its frequent performances touch a varied repertoire of music for chorus. Audition is required.

Jazz Singers is a small select ensemble made up of excellent student singers who concentrate on performing vocal music in the jazz idiom, especially original music and arrangements made popular since 1960. Membership is by audition only.

Carillon, select ensembles, tour regularly, ringing about 40 performances a year. Carillon, a handbell group, concentrate on contemporary sacred music. An audition is required.

The Symphonic Wind Ensemble, the Symphonic Band, and the Concert Band are open to all university students by audition. The university’s bands have an outstanding record of service to the university and the state.

The Percussion Choir and Marimba Ensembles utilize programs of original music for chamber percussion performance.

The Jazz Laboratory Bands are full-size modern jazz ensembles which play the latest arrangements of music in the big band contemporary idiom.

The University of Southern Mississippi Symphony, open to all students and faculty members of the university by audition, gives a number of concerts each year in addition to assisting with oratorios and operas.

Service awards are available to talented students. Auditions may be arranged through the School of Music.

WUSM-FM is a university-owned public radio station which serves the diverse educational and cultural needs of the Hattiesburg community. Students interested in joining the WUSM-FM staff should contact the radio station.

Student Government Association

The Student Government Association (SGA) of USM consists of all students enrolled in the University. It is structurally set up with executive, legislative, and judicial branches. The officers of the SGA comprise the executive branch, elected representatives from the academic colleges and places of residence make up the senate or legislative branch, and the student courts comprise the judicial branch.

The SGA, however, is much more than a structured student organization. It is the official voice of the student in university affairs. In addition, the SGA serves the student in special services and projects, along with providing representation on committees and boards.

SGA projects and services include the Miss Southern Pageant, student elections, spirit activities, recruiting, legal services.

The Student Government Association is constantly striving to improve programs and services available to the USM student population. By working with the university administration and voicing student concerns, the SGA promotes the welfare of all students in all phases of university life.
Student Publications

The Student Printz, winner of many national awards, is the university newspaper published semi-weekly by a staff of students under the direction of faculty advisers. The Southerner is a yearly publication, published by a student staff under the direction of the assistant director of Student Activities. A handbook for students is also published by the assistant director of Student Activities.

University Activities Council

What is UAC? The University Activities Council plans, produces, and promotes a variety of entertainment for The University of Southern Mississippi community. The organization is run entirely by students and is comprised of a president, five committee chairs, and 40 general voting members. Dedicated, hardworking, and enthusiastic students enjoy the benefits of UAC involvement. By being a member of UAC, students gain practical organizational and interpersonal skills that they can use both inside and outside the classroom.

As a UAC member, you, too, can gain valuable leadership experience, meet new friends, and have a great time bringing educational and entertaining programming to USM!

The Student Community and Campus Life

Department of Residence Life

The Department of Residence Life feels very strongly that the educational benefits for residence hall students extend far beyond the classroom experience. Every effort is made to offer on-campus students the opportunity to take part in cultural, scholastic, athletic, and social programs developed by the residence hall staff. In addition, residence hall students experience cross-cultural living experiences which help promote open-mindedness, tolerance, and leadership—a philosophical goal of Residence Life.

All residence halls are fully air conditioned with the capacity of offering diversified housing options to an on-campus population of 3,488 students. Each room in Oseola McCarty Men’s Hall and Oseola McCarty Women’s Hall has its own bathroom. Hillcrest and Mississippi for women, and Elam, Hattiesburg, and Vann for men are arranged in suite fashion with 4-6 students sharing a bath. Bolton, Jones, Pulley, Roberts, Scott, and Wilber (Panhellenic) for women, and Bond for men are arranged with baths conveniently located on each floor.

Application for campus housing should be made at the time of application to the university. The priority deadline for residence hall space is February 1. Applications, prepayment and signed contract received after February 1 will be processed based on space availability. Assignment of a student to a residence hall is contingent upon receiving prepayment and signed rental agreement at time of application to housing. Although preferences are honored when possible, the application is for accommodation in residence hall and not for a specific roommate or specific hall. Upperclass assignments are made based on date of application. Freshman are assigned randomly to freshman residence halls.

Students signing a rental agreement are obligated to both fall and spring semesters. Cancellation of the rental agreement can be made in cases of marriage, graduation, withdrawal, co-oping, student teaching, or interning. Notification of cancellation must be made in writing by the designated deadlines. Cancellations received after the deadlines will result in forfeiture of the entire prepayment amount. Students who have not cancelled by their designated deadline and are planning to enroll at the university with paid prepayment and signed contracts will be held to the terms and conditions of the academic year residence hall rental agreement.

Applications for campus housing should be mailed to

Department of Residence Life
Box 5064
Hattiesburg, MS 39406-5064

The Department of Residence Life accepts applications for housing assignments regardless of age, race, creed, color, or national origin. In compliance with the Civil Rights Act of 1964 and university policy, housing assignments will not be made on a segregated basis.

Family Housing

Pine Haven Apartments, consisting of two hundred and ninety-six (296) one-two-and three bedroom unfurnished units, are available for married students and single and married students with custody of children. Additionally, one apartment building is designated for single graduate students. Apartment priority is based on the date of application or occupancy.

The rent is due and payable at registration. Students obligate themselves to the full fee for one semester’s rent when they move in, unless they withdraw from the university. A deposit of $75 is required at the time of application. Refund of rent due to withdrawal from the university is followed
according to the university tuition refund schedule. Cancellation of the rental agreement must be made forty-five (45) days prior to the semester of cancellation. Notification of cancellation after the deadline obligates students to payment of rent for the following semester if enrolled, or forfeiture of deposit if not enrolled. Applications and brochures may be secured at the Pine Haven Office or by writing the Department of Residence Life.

**Dining Services**

The Department of Dining Services serves tasty and nutritious meals seven days a week during all school terms. Choices include two entrees, assorted vegetables and desserts, and self-service salad and drink bars. In addition, a lite line, a deli-line, and a variety line are offered in the University Commons. Dining services are also available in Hillcrest and Elam Arms. Students on a 5-Day or 7-Day Basic Meal Plan may choose where to dine on a meal-to-meal basis.

**ALL STUDENTS LIVING IN A RESIDENCE HALL OR A FRATERNITY HOUSE ARE REQUIRED TO PURCHASE A 5-DAY OR A 7-DAY BASIC MEAL PLAN.**

A Snack Plan may be added to a Basic Meal Plan. It may be used at Seymour’s, Columbo Yogurt and Java Coast Coffees, Seymour’s Plaza Express, PlazaToo, Seymour’s Atrium Cafe, and A Stone’s Throw. The Snack Plan may also be used to supplement a 5-Day Basic Plan and allows for occasional weekend meals in the Commons.

Seymour’s, Columbo Yogurt and Java Coast Coffees, Seymour’s Plaza Express, PlazaToo, and Seymour’s Atrium Cafe offer a variety of snacks, short orders, and beverages. Purchases at these establishments are à la carte.

A Commuter Plan is available for off-campus students. This plan operates much like a checking account. Each time a purchase is made, the amount of the purchase is deducted from the balance. With a Commuter Plan, meals at the Commons, Elam Arms, and Hillcrest are purchased at a discounted price. The Commuter Plan may be used in all the dining facilities on campus.

All meal plans may be purchased during registration or at the Dining Services office located in the Commons.

**Meal Ticket Exemptions**

Meal ticket exemptions are allowed only for those students with modified diets that cannot be prepared by the University Dining Services and for those students with internships which conflict with cafeteria serving hours. Those students who may qualify for an exemption should make arrangements for an evaluation PRIOR TO REGISTRATION. However, those not arranging for an evaluation prior to registration should go to the Dining Services Office in the University Commons after registering for classes. Those students who have not completed the requirements for a meal ticket exemption prior to registration will be charged for a meal ticket during the registration process. As a result of the extensive serving hours in the University Commons, work-related exemptions will not be permitted.

**Medical Exemptions**

Those students with a medical problem requiring a modified diet who feel their needs cannot be met by the University Dining Services should make arrangements to have their diet evaluated by the registered dietitian before registration. Documentation required for this evaluation includes a prescription signed by a physician which specifies the student’s modified diet and a copy of the modified diet. The University Commons offers a special diet program for weight watchers. The line caters to weight watchers as well as to those students with medical problems which require special diets.

**Academic Related Exemptions**

**Requirements:**

A student must miss a minimum of 50 percent of meals served per week due to an internship.

**Documentation Required:**

1. A statement, on letterhead stationery, signed by the student’s adviser giving the student’s hours, on a daily basis, Monday through Friday.
2. A copy of the student’s Advisement and Registration Appointment Form which shows the student’s class schedule.

**Work Related Exemptions**

University policy DOES NOT allow for meal ticket exemptions for students holding part-time or full-time employment.
University Facilities and Student Services

Automobiles on Campus
Faculty/staff, employees, and students, full time or part time, who operate a vehicle on university-controlled property regularly or occasionally, will be required to purchase a University Transportation Department parking permit. Parking permits in the form of hang tags, decals, and temporary permits (for vehicles on campus for less than 14 days) are available at the University Transportation Department in the Industrial Arts Building, (601) 266-5447. The department offers a brochure detailing parking zones and other traffic regulations. Penalties are assessed for regulation violations.

Career Services
Career Services offers a variety of services and resources related to employment. The Student Employment Division offers the student an opportunity to obtain part-time employment while enrolled as a regular student at USM. The service is comprehensive in that it involves jobs both on and off campus.

The Cooperative Education Program affords the student the opportunity to gain a complete education with periods of work related to the student’s major. The Cooperative Education coordinator assists in securing meaningful jobs that will give the student practical work experience and financial support to aid in his or her education. The basic qualifications for the undergraduate Co-op Programs are as follows:
1. The student must have a current and cumulative GPA of 2.5 or above.
2. The student must have completed 30 semester hours.
3. The student must be in good standing with the University.

Some companies have additional application requirements.

The Cooperative Education coordinator will determine a student’s eligibility to participate in the program. Each student’s record of performance will be periodically reviewed once an active participant, and he or she may be placed on probation or removed from the program when failing to meet minimum requirements.

Career Services provides assistance to graduating seniors, graduates, and alumni in obtaining career employment after graduation. Students seeking career employment should register with Career Services during the last semester of their junior year or the first semester of their senior year. The online career center allows students access to an employer database and resources useful in beginning a job search. Career Services refers resumes and other materials from the online system to prospective employers. The system provides the flexibility for students to update their files as often as necessary and to generate a resume meeting specific criteria of a given job opening. Placement services may be used by graduates as often as needed and files are kept active for five years. If there is no activity related to the file for a five year period, files are purged from the system.

The Career Center
The Career Center offers individuals assistance in the process of examining and exploring career opportunities. The following services are available:

Career Counseling—Assistance in clarifying each individual’s career path, including education necessary to achieve one’s goals as well as an action plan.

Individual Vocational Testing—Career tests are administered by a counselor to assist an individual in determining vocational areas of interest. An understanding is gained of one’s interests, skills, personality, and values.

Career Resource Center—Contains information on numerous occupations, giving an overview of job descriptions, salaries, advancement opportunities, and hiring trends.

Job-Finding Skill Development—Discussion of the interviewing process, the hidden job market, job seeking skills, and resume writing.

Computerized Vocational Guidance—Software programs which facilitate the career decision making process and contain current information on various career fields.

Health Services
The USM Student Health Service (Clinic) can provide the students, faculty, and staff with the same services available at a family doctor’s office. The Student Health Service provides a wide range of services, including laboratory testing, X-ray, pharmacy, dietary counseling and educational services. The Student Health Service is staffed by several competent physicians and nurse practitioners. The Student Health Service is located on the west side of Kennard-Washington Hall. During the fall and spring semesters, the Student Health Service hours are 8 a.m. to 5 p.m., Monday through Friday.

The USM Student Health Service is accredited by the Accreditation Association for Ambulatory Healthcare, Inc. and is a member of the American College Health Association. For more information please call (601) 266-5390.

Office for Disability Accommodations (ODA)
In accordance with the Rehabilitation Act of 1973 and the Americans with Disabilities Act (1990), The University of Southern Mississippi provides reasonable accommodations for students with disabilities through the Office for Disability Accommodations (ODA). ODA verifies eligibility for accommodations and works with eligible students to develop and coordinate plans for the provision of accommodations. Eligible students include those who are enrolled in degree and nondegree programs offered by The University of Southern Mississippi, are considered qualified to meet all university program requirements despite a disability, and meet the definition of disability as defined by the Rehabilitation Act of 1973 and the ADA.

Accommodations available include test-taking accommodations, interpreters, note-takers, and readers. In order to receive appropriate and timely accommodations, eligible students should contact the ODA before the semester begins to file an application and submit documentation of disability for review. The ODA is committed to creating a positive campus environment where students with disabilities are encouraged to pursue careers on the basis of personal interest and ability.

For an application and guidelines for documentation of disability, write the Office for Disability Accommodations, Box 8586, The University of Southern Mississippi, Hattiesburg, MS 39406-8586 or call (601) 266-5024 or TTY (601) 266-6837 or FAX (601) 266-6035 or visit our Web site, www.ids.usm.edu/ODA.

R.C. Cook University Union
The center of student activities at The University of Southern Mississippi is the R.C. Cook University Union, which houses administrative offices, the student organization offices, Seymour’s, recreational area, and meeting rooms. Students use the facilities of the University Union for recreation, social, religious, and organizational activities. The Union holds membership in the Association of College Unions-International.

Recreational Sports
For students, faculty, and staff who wish to participate in leisure, fitness, or competitive programs, the Division of Recreational Sports offers “something for everyone.” Housed in the Payne Center, the division and its staff work to provide an opportunity for the campus to take advantage of a variety of recreational and fitness-related services, which include personal fitness instruction, intramural sports, aquatics, fitness, Outdoor Adventure Program, sport clubs, and informal recreation activities. The Payne Center is one of the few multipurpose facilities in the nation integrating the concepts of fitness and recreational sports. It offers accessibility to the disabled and contains many indoor recreational facilities. These include four basketball/volleyball courts, six badminton courts, four championship racquetball courts, an international size squash court, a six-lane indoor pool (M.C. Johnson Natatorium), a one-eighth mile indoor exercise track, the Bruce and Virginia Wilgus Fitness Trail, outdoor volleyball courts, Atrium Cafe, sauna, free weight and circuit training room, and cardiovascular workout room. The Payne Center also has conference, meeting, seminar, and banquet facilities where students, faculty, staff, and alumni can attend wellness related workshops and events. These facilities are also available for reservations for events sponsored by university organizations. Recreational Sports also offers outdoor facilities such as the sundeck at the Payne Center, the Intramural and Sports Arena Fields, and Lake Sehoy. Outdoor activities and programs available include more than 40 Intramural Sports events from NFL Flag Football to putt-putt golf, and sport clubs such as Shotokan karate, taekondo, table tennis, martial arts, Budo Club, badminton, men’s soccer, sports officials association, men’s rugby, and women’s rugby. Lake Sehoy offers picnic areas, boating, fishing, putt-putt golf, Frisbee golf, and a pavilion and log cabin for retreats and other special events. The Sports Arena is located on campus and contains two high school regulation-size
basketball courts. All indoor and outdoor facilities, activities, and programs are supervised by First Aid/CPR trained personnel to promote a safe recreational environment for participants. The Fitness Assessment Center and Fitness Counseling staff also provide services which include fitness assessment and exercise prescription for the university community at a nominal fee. For more information regarding Recreational Sports programs and services, please call (601) 266-5405.

University Counseling Center

The University Counseling Center provides individual, group and couples counseling for students, faculty, and staff. The goal of the center is to enhance individual’s functioning and improve their ability to communicate in interpersonal relationships. We assist members of the university community in developing their full potential and in coping with various life stressors. Individuals seek our services for a wide variety of reasons. Many of these reasons include experiencing depression, anxiety, relationship concerns, low self-esteem, substance use/abuse, sexual orientation concerns, difficulties coping with past or recent trauma, problems with eating behaviors, and difficulties adjusting to university life. All counseling services are provided at no charge. Contact with counselors at the center is confidential. The center’s current professional staff consists of three licensed psychologists, two master’s-level counselors, and one predoctoral psychology intern.

Other services provided by the center include outreach and consultation offered to the larger university community. These services often include providing education and prevention programs to student groups, academic departments, and other campus organizations, serving on panel discussions, and advising student groups.

Other programs administered by the Counseling Center include the On Campus...Talking About Alcohol (OCTAA) program, the Program of Assistance, Counseling, Education, and Resources for Students (P.A.C.E.R.S.), the Eating Disorders Treatment Team, the Faculty Staff Assistance Program, and the Southern Mississippi Psychology Internship Consortium (a predoctoral internship program accredited by the American Psychological Association).

The University Counseling Center is located in 200 Kennard-Washington Hall. To find out more about any services provided by the center or to arrange for counseling, call (601) 266-4829 between 8 a.m. and 5 p.m., Monday-Friday. Students may walk in for assessments Monday-Friday from 8:45 a.m.-10:30 a.m. and from 1:45 p.m.-3:30 p.m. The Center also provides after-hours emergency services for the university community. To use these services, individuals may call 266-4911 and ask for the counselor on call.

The Counseling Center is also responsible for the administration of the University Testing Center. The Testing Center is located in 219 Walker Science Building and is responsible for coordinating the following paper-pencil based standardized tests: the ACT, the GRE Subject Tests, the LSAT, the MCAT, and the PRAXIS I and II. The Testing Center also provides computer-based testing services for the following tests: The TOEFL, the PRAXIS I, the GMAT, and the GRE General Test. To register for any of the aforementioned tests, contact the Testing Center at (601) 266-6123.

Veterans Affairs

Veterans Affairs are administered through the Office of the University Registrar. Assistance is given to veterans and dependents of eligible veterans to enable them to derive the maximum benefit from their veterans' educational entitlement.
General Academic Information

Registration
Students should preregister each semester at the designated time using the Web. Specific directions are published in the Class Schedule Guide. Students who preregister must pay minimum payment (if applicable) by the due date or there will be an additional preregistration fee of $100 added to their accounts. Classes will be dropped at a later date for nonpayment.

Registration will continue after the close of the scheduled registration period (see Calendar) for five class days.

A late registration fee will be charged to all students registering after the scheduled registration period. The fee is fifty dollars ($50).

Add/Drop/Withdrawal
A student is permitted to drop a course without academic penalty up to and including approved dates published in the Class Schedule Guide. After the deadline, a student may drop a course only in the event of extenuating circumstances and with permission of the instructor, department chair, and dean of the college offering the course, at which time the student will receive a grade of WP or WF.

A student is permitted to add a course after the deadline of five class days with the permission of the instructor, department chair, and dean of the college offering the course. However, a student will not be allowed to add a course after the last day to drop without academic penalty as published in the Class Schedule Guide. Adding classes after the 100 percent refund period could result in additional tuition charges.

A student withdrawing from the university prior to the deadline for dropping classes will not receive any grades. His or her record will show the date of withdrawal only. A student withdrawing after the deadline for dropping courses will receive a grade of WP or a grade of WF.

Withdrawal Procedures
A student finding it necessary to withdraw from the university must begin the process with the dean of his or her college, who shall initiate the Withdrawal and Refund Authorization Form. A student who is undecided (General Studies) on a major must begin the process in the Division of Undergraduate Studies office, where the Withdrawal and Refund Authorization Form will be initiated. The Web may not be utilized to withdraw.

Refund Policy
The withdrawal deadline for receipt of a grade has nothing to do with the refund schedule for fees. A student who officially withdraws after enrollment may obtain a refund in accordance with the refund policy. Upon notification to the Registrar and Business Services offices, a review will be made on a case-by-case basis for withdrawals that did not follow official withdrawal policy.

Appeals for refunds due to extenuating circumstances may be made in writing to

Enrollment Status
Full-Time Status: The typical student load is twelve (12) to nineteen (19) semester hours (fall/spring). Nine (9) to fourteen (14) semester hours is considered a full load during the summer session. Nineteen (19) hours (fall/spring) and fourteen (14) hours (summer) is the maximum load without dean of college approval.

Classification of Undergraduates: A student is classified as a freshman when he or she has less than 30 semester hours of earned credit; sophomore with as many as 30 semester hours but less than 60 semester hours; junior with as many as 60 hours but less than 90 hours; senior with 90 or more semester hours of earned credit.

Course Numbering: Freshman courses are numbered from 100 to 199; sophomore courses from 200 to 299; upper division courses from 300 to 499; graduate courses 500 or above. Honors courses carry the prefix H.
Course Sequence and Related Sequences: Certain 100- and 200-level courses may not be taken for credit by a student after he or she has completed higher-level courses in the same subject area. Also, certain sequences of courses may not be taken for credit after a student has completed parallel courses which are similar in subject matter. Specific applications of this policy are indicated in the numbered course descriptions in the Course Description Section of this Bulletin. Selection of the courses, as well as exceptions to the policy, is left to the department chairs.

Absences
Students are expected to attend class each time the class meets. When it is necessary that a student be absent from a class, it is a students responsibility to provide an explanation to the professor. Class attendance policy will be set by the professor who is expected to set a reasonable policy with respect to documented absences that are truly beyond the students control. It will be the responsibility of each professor to notify his or her class in writing at the onset of each semester as to the attendance requirements.

Final Examinations
Examinations will be held as published in the Class Schedule Guide. No final examinations are permitted prior to the scheduled examination period (see Calendar). A student who is absent from the final examination without valid reason approved by the Office of the Provost forfeits credit for the semester.

Grades
A — indicates excellent work and carries 4 quality points per semester hour.
B — indicates good work and carries 3 quality points per semester hour.
C — indicates average work and carries 2 quality points per semester hour.
D — indicates inferior work and carries 1 quality point per semester hour.
E — indicates a course in progress. Not included in the grade point average, a grade of E shall be awarded for graduate thesis, recital and dissertation courses and for such self-paced or skill courses as the Academic or Graduate Council may designate. An E shall be changed to a P only in the case of credit for thesis and dissertation and then only for the last recorded credit for these courses. Otherwise, the E remains on the record indicating that to receive credit the student must reregister for the undergraduate course, repeating it on a regular basis until completing it. Upon completion, the appropriate grade, whether P or valuative, shall be assigned.
F — indicates failure and carries no quality points.
I — indicates that a student was unable to complete course requirements by the end of the term because of extraordinary circumstances beyond his or her control. Poor performance or unexplained absences are not a justification for the assignment of an I. If an I has not been removed by the end of the next semester (excluding summer term), it automatically becomes an F. Students are prohibited from enrolling in any course for which the current grade is I.
AW—indicates administrative withdrawal.
WP—indicates withdrawal from a course passing after the deadline for dropping courses.
WF—indicates withdrawal from a course failing after the deadline for dropping courses. (This grade is computed in the GPA as F.)
P — indicates a passing grade in courses taken on a pass-fail basis (does not count in computing GPA).

Pass/Fail Grading Option
Students may choose to take elective courses on a pass-fail basis. The option must be exercised at the time of registration, and the option may not be altered after the deadline for adding courses. No more than thirty-six (36) semester hours earned in independent study or pass-fail courses, with a limit of eighteen (18) semester hours of pass-fail courses, may be applied toward a degree. No more than twelve (12) semester hours earned from the same department by independent study or pass-fail courses may be applied toward a degree. A student may not take a course on a pass-fail basis to repeat a course for the purpose of improving the grade point average or to remove an Incomplete. Such courses cannot be a part of a prescribed degree program, i.e., core requirements, major, or minor. A failing grade in a pass-fail course is recorded as F and is computed in the grade point average in the
same manner as other failing grades.

**Auditing Courses**

A student who takes a course for audit (noncredit) must meet the class in the same manner as a student regularly enrolled. Although no credit is awarded, a student who meets the instructor's requirements for a successful audit will receive an appropriate entry on his or her official record. The instructor has the right to remove a student from the final grade roster for nonattendance. The credit option (audit to credit or credit to audit) may not be changed after the deadline for adding courses. The fee for audit is the same as if registered for credit.

**Computation of Grade Point Averages**

Grade point averages are based on the number of hours undertaken rather than the number of hours passed in determining whether a student meets minimum standards. The total hours attempted, for suspension purposes, will include credit undertaken at the University and credit transferred; the grade point average will involve only credit for courses attempted at The University of Southern Mississippi.

Courses in which a student receives an E will not be counted as part of “total hours attempted” for grade point average computation. These courses will, however, be counted in determining eligibility for financial aid.

An undergraduate student will be permitted to repeat courses a total of two (2) times or a total of six (6) semester hours in order to improve his or her grade-point average. (That is, he or she may repeat one, three-hour course twice; or two, three-hour courses once each.) The first two (2) repeats used shall stand. The grade for the second attempt will be used in grade point average calculations. This policy is limited to courses in which a student initially earned a grade of D or F, but does not apply to courses for which a grade was assigned for reasons of academic dishonesty. Courses must be retaken at The University of Southern Mississippi. Students are free to retake additional courses, but all attempts will be included in the calculation of the grade point average. Exceptions to this policy must be approved by the provost.

**Grade Review Policy**

The instructor (defined as one who has the responsibility for a class, special problem, or thesis) has the authority in his or her class over all matters affecting the conduct of the class, including the assignment of grades. Student performance should be evaluated according to academic criteria made available to all students within the first two weeks of each semester. Grades should not be determined in an arbitrary or capricious manner.

When a student disagrees with the final grade given by an instructor, fair play requires the opportunity for an orderly appellate procedure. A student must initiate the appeal procedure within 30 school days (excluding Saturday, Sunday, and official student holidays) of the beginning of the semester subsequent to the one in which the grade was awarded, or 120 calendar days after the issuance of spring semester grades, should the student not be enrolled during the summer term. The procedure assures due process for both the instructor and student. For policies and procedures governing grade review, contact the dean of the appropriate college or the Office of the Provost.

**Administrative Withdrawal**

A university transcript is a legal document that provides a true and accurate account of academic performance. Any alteration of the history of academic performance as reported by a university transcript should be done only if there is an obvious rationale for doing so.

On rare occasions, academic performance is severely affected by some emotional or personal disaster beyond the control of the student. If a timely withdrawal was impossible or overlooked, a procedure known as administrative withdrawal may offer a remedy.

A student who wishes to petition for an administrative withdrawal should be aware of the following criteria in considering the request.

a. The student’s academic record under review indicates a clear and consistent pattern of good academic performance prior to and subsequent to the semester in question if he or she is currently enrolled.

b. The problem encountered by the student was debilitating and beyond his or her control.

c. The student is able to document the nature and extent of the problem.

The following guidelines pertain to a petition for administrative withdrawal.

a. A petition for administrative withdrawal will be considered only if it is filed prior to
b. Relief by administrative withdrawal will be limited to one semester.

c. The grade of administrative withdrawal (“AW”) will be assigned to all courses taken during the semester in question.

d. Administrative withdrawal must be approved by the dean of the college in which the student was enrolled during the semester in question and by the provost. A student may request administrative withdrawal only once during his or her academic career, and that request must be limited to one particular semester.

A petition for administrative withdrawal must contain the following:

a. A concise but thorough statement of the circumstances responsible for the poor academic performance.

b. Evidence (e.g., a medical diagnosis) supporting claims made in the statement.

c. A complete set of official transcripts exhibiting all college-level course work.

Petitions for administrative withdrawal will be acted on within five working days after receipt by the office of the Provost.

**Dean’s List**

Students will be placed on the Dean’s List if they have earned a grade point average of 3.5 or above on a minimum academic load of twelve (12) semester hours or more during fall or spring, nine (9) or more during summer, provided they have no grade of D or below (includes F or I). Courses taken for pass-fail credit will not be used in computing the minimum academic load.

**President’s List**

Students will be placed on the President’s List if they have earned a grade point average of 4.0 (all A’s) on a load of twelve (12) semester hours or more during fall or spring, nine (9) or more during summer, provided they have no grade of I. Courses taken for pass-fail credit will not be used in computing the minimum academic load.

**Academic Standards**

An undergraduate student will be allowed to continue in the university as long as the cumulative grade point average (GPA) indicated in the following scale is maintained. A higher minimum allowable GPA is sometimes specified by specific colleges within the university. In such cases, the more stringent requirements supersede those which follow.

<table>
<thead>
<tr>
<th>Total Hours Attempted (Including transfer credit)</th>
<th>Minimum Cumulative GPA Required (USM work only)</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>17 - 32</td>
<td>1.75</td>
</tr>
<tr>

<td>2.00</td>
</tr>
</tbody>
</table>

Total hours attempted will include credit taken at the university and any credit which might have been transferred. Courses in which a student has received an I, E, or pass-fail credit will not be counted in the total hours attempted. The GPA will be computed based only upon credits earned at USM.

**Academic Probation**

If a student does not attain the minimum cumulative GPA as indicated above, he or she is placed on academic probation at the end of the term. Academic probation will be removed when the student attains the acceptable cumulative GPA as shown above. Otherwise, he or she will be placed on academic probation continued for as long as he or she earns at least a 2.00 average per term. Students placed on academic probation continued may not enroll for the next semester without the prior written approval of the dean of his or her college. Attaining the minimum cumulative required GPA will clear all suspension categories. The first term a student does not earn at least a 2.00 average while on academic probation continued, he or she will be suspended by the university. Regardless of hours attempted or probation status, a student who does not attain a minimum GPA above a .500 in any semester will be suspended from the university.

**Academic Suspension**

A student placed on academic suspension may not enroll in The University of Southern Mississippi
until after the next regular semester (fall or spring). Students may not enroll in any other college or university without prior written approval of the dean of his or her college. Any credits earned contrary to this policy will not count toward graduation requirements. After one semester a student may be readmitted with prior written approval of the dean of his or her college. A student readmitted following academic suspension must earn a GPA of at least 2.25 each semester or attain the required cumulative GPA. A student readmitted after academic suspension who fails to attain the required GPA will be suspended for two regular semesters.

Readmission after the required suspension period requires reinstatement through an appeal process established by the dean of the college in which the student was enrolled as a major. Probationary status does not require an appeal for reinstatement. Notice of academic probation, academic probation continued, or suspension will be shown on the end-of-term grade report. Any exceptions to the suspension policy must be approved by the dean of his/her college. Regardless of hours attempted or probation status, a student who does not attain a minimum GPA above a .500 in any semester will be suspended from the University.

**Academic Honesty**

When cheating is discovered, the faculty member may give the student an F on the work involved or in the course. If further disciplinary action is deemed appropriate, the student should be reported to the dean of students.

In addition to being a violation of academic honesty, cheating violates the Code of Student Conduct and may be grounds for probation, suspension, or expulsion.

Students on disciplinary suspension may not enroll in any courses offered by The University of Southern Mississippi.

**Plagiarism**

Plagiarism is scholarly theft, and it is defined as the unacknowledged use of secondary sources. More specifically, any written or oral presentation in which the writer or speaker does not distinguish clearly between original and borrowed material constitutes plagiarism.

Because students, as scholars, must make frequent use of the concepts and facts developed by other scholars, plagiarism is not the mere use of another’s facts and ideas. However, it is plagiarism when students present the work of other scholars as if it were their own work.

Plagiarism is committed in a number of ways:

1. reproducing another author’s writing as if it were one’s own
2. paraphrasing another author’s work without citing the original
3. borrowing from another author’s ideas, even though those ideas are reworded, without giving credit
4. copying another author’s organization without giving credit

Plagiarism is a serious offense. An act of plagiarism may lead to a failing grade on the paper and in the course, as well as sanctions that may be imposed by the student judicial system.

*Taken from Student Handbook

**Transcripts**

An official transcript is the reproduction of a complete, unabridged permanent academic record validated with the university seal, facsimile signature of the registrar, and date of issue. A key to transcript is included which contains a full statement of pertinent definitions. Currently enrolled as well as former undergraduate and graduate students may obtain an official transcript by writing the Office of the University Registrar, Box 5006, Hattiesburg, Mississippi 39406-5006. Transcripts are not released when there is an indebtedness to the university.

**Change of Major**

Any student wishing to change his or her major within a college must secure the approval of the dean. A student wishing to transfer from one college of the university to another must make application to, and be approved, by the dean of the college he or she wishes to enter.

**Credit by Examination**

The University of Southern Mississippi will allow students to earn credit by examination under one or more of the following programs up to a total of thirty (30) semester hours.

Credit earned through the use of the examination will be included in the sixty-four (64) hours “Limitation of Transfer Credits” rule and may not be used to meet the thirty-two (32) hours
on-campus requirement.

College Level Examination Program: General Examination. The University of Southern Mississippi will allow credit by examination to those students who have participated in the College Level Examination Program and who have achieved a scaled score of 500 or above (610 in English through April, 1986). Credit will be restricted to students who have been out of high school for at least three (3) years. It will be the responsibility of the Office of Admissions to determine a person’s eligibility to receive credit. A student who has earned over thirty (30) semester hours of college credit may not earn additional credit through the use of this examination. Credit appearing on another institution’s transcript will be accepted for credit only if it meets the same guidelines as those required for USM students. Credit will be granted for successful completion of the examination in the following manner.

Credit will be awarded for each area in which the student receives a scaled score of 500 or above.

College Level Examination Program: Subject Area Examination. A student of any age who has not earned college-level credit in the subject area in which he or she seeks credit can take a CLEP subject-area examination for advanced placement and college credit. However, in the case of foreign languages, students may earn college credit by taking the CLEP examination at the elementary or intermediate levels of Spanish, French, or German, regardless of whether the student has earned previous college level credit in that language by course work. For more details concerning foreign language CLEP credit, see Department of Foreign Languages and Literatures section of this bulletin. Credit will be awarded for a scaled score of 50 or above (a range score of 40-80 is allowed for all foreign language tests). The optional essay is required for all English examinations. The appropriate department at USM will have final determination in the amount of credit to be awarded based on the optional essay. Under this program, students are restricted to a maximum of thirty (30) semester hours, with not more than eight (8) hours or two (2) courses in one subject-matter area, except in the case of foreign languages where students may earn up to twelve (12) hours of credit or four (4) courses in a single language. (It is understood that the thirty (30) hour total includes all credit earned by examination.) The adoption of the CLEP standardized examination will preclude the use of departmental examinations except in those areas where CLEP examinations are not available. The Office of Admissions will be charged with responsibility for determining student’s eligibility to earn credit through these examinations. Credit appearing on another institution’s transcript will be accepted for credit only if it meets the same guidelines as those required for USM students.

Additional information, applications, and CLEP Bulletins may be secured from the Office of Admissions, Room 212, Kennard-Washington Hall, or by writing Box 5166, Hattiesburg, MS 39406-5166.

Advanced Placement Program: Students from cooperating high schools can earn up to twenty (20) hours with no more than eight (8) hours or two (2) courses in one subject-matter area through the College Board’s Advanced Placement Testing Program. Through the 1986 AP Testing year, a score of 3 or 4 will yield three (3) hours credit; a grade of 5 will yield six (6) hours credit. Beginning with the 1987 AP Tests, a score of 2 or 3 will yield three (3) hours credit, and a score of 4 or 5 will yield six (6) hours credit. Departments may require higher scores. (For the AP Biology test only, a score of 3 or below will receive no credit; a score of 4 or above will receive eight (8) hours of credit). The awarding of credit will be administered by the Office of Admissions.

International Baccalaureate: Student receiving the IB diploma may receive up to 30 semester hours of credit for scores of 4 or better on both higher-level and standard-level examinations. Specific policies are determined by the academic unit for which credit is awarded.

Contact the Office of Admissions for specific information.
Challenge Examination: Under the following policy, and with the approval of the Office of the Provost, departments may grant credit by examination in lieu of class enrollment for courses where no CLEP subject area examination is offered.

a. The student must be currently enrolled or must be a former student of the university.

b. The examination must be given by the department through which the course is offered.

c. The student must make application to the chair of the department, who should be assured that the student has had some formal or informal learning experience that has prepared the student for the examination.

d. If approval is granted, the department chair sends a memorandum by the student to the Office of the University Registrar giving the student permission to register for the course(s) on an arranged basis. The memorandum should include the student's name and Social Security number, the course number(s), semester and year, semester hours of credit, and the name of the instructor.

e. The student should complete registration procedures and present the registration invoice to the department chair. (NOTE: The $10 per semester hour fee is assessed above and beyond any additional course-related fees paid for the term.)

f. The instructor of record will receive a regular grade roster at the end of the term for recording the final grade.

Validation of Previously Earned Credit (Nursing)
Under the following policy, and with approval of the Office of the Provost, certain academic departments may allow a student to revalidate credit acquired through previous study in order to apply the credit to a current degree program.

a. The student must be currently enrolled or must be a former student of the university.

b. NCLEX RN Licensure Exam will be used to validate previously earned nursing credit.

c. On the successful completion of NSG 305, the student will register for the courses on an arranged basis.

Summary of Types and Limitations of Credit Usage
The following is a summary of the limitations placed on credit usage:

a. Sixty-four (64) semester hours through a combination of credit by examination, independent study, and Armed Forces experiences.

b. Thirty-two (32) semester hours by independent study (including USAFI); nine (9) semester hours in any one field.

c. Thirty (30) semester hours credit by examination (including CLEP and AP).

d. Eighteen (18) semester hours of pass-fail credit.

e. Twelve (12) semester hours in the same department through a combination of independent study and pass-fail.

f. Sixty-four (64) semester hours in a senior college are required for a baccalaureate degree. Of this total forty-five (45) must be in course numbers 300-level or above and thirty-two (32) must be earned at The University of Southern Mississippi.

g. The types of credit considered as senior college work are: (1) USM, Hattiesburg; (2) USM, Gulf Park; (3) USM, Jackson County; (4) USM, Jackson; (5) Independent Study; (6) USAFI*; (7) Armed Forces experiences.

h. Types of credit not considered senior college work: (1) Junior college transfer work; (2) CLEP; (3) USAFI**; (4) Armed Forces experience.

*If course number evaluations are 300-level or above
**If course number evaluations are below 300-level
General Degree Requirements

Choice of Bulletin
Graduation requirements must be met under a Bulletin which is not more than six years old at the time of the student’s graduation (exclude the current year’s bulletin in counting the six) and which carries announcements for a year during which the student earned some credit at The University of Southern Mississippi or another accredited institution of higher learning, including community/junior colleges.

Hour Requirements
An applicant for a degree must complete a minimum of 128 semester hours, including core requirements and major and minor requirements. Not more than nine (9) semester hours in physical education activity courses, and not more than four (4) semester hours credit in any one varsity sport may be used in meeting total hour requirements for a degree. Courses in dance are excluded from this limitation. Of the total of 128 semester hours, sixty-four (64) must be earned in a senior college, and forty-five (45) of the sixty-four (64) must be in courses numbered 300 or above.

Grade Point Requirement
A student must earn a grade point average of at least 2.0 (an average grade of C) based on all courses taken at The University of Southern Mississippi. A passing grade in a pass-fail course is recorded as P and carries credit toward graduation. However, a grade of P does not carry any quality points and is not used in computing grade point average. A failing grade in a pass-fail course is recorded as F and is computed in the grade point average in the same manner as other failing grades.

Residence Hour Requirements
To become eligible for a bachelor’s degree at The University of Southern Mississippi, a student must:

a. earn his or her last thirty-two (32) semester hours at The University of Southern Mississippi, of which twelve (12) semester hours must be in upper-division courses in his or her major. This policy applies to all students, including transfer students from other colleges and universities and those students at USM, Gulf Park. The transfer student must meet the quality point requirements for work undertaken at The University of Southern Mississippi that apply to all the regular students;

b. earn at least twelve (12) semester hours of the bachelor’s program on the campus from which the degree will be awarded. (Special Note: The College of Business Administration requires 50 percent of all business courses required for the B.S.B.A. to be completed at USM.)

c. earn at least twelve (12) semester hours of resident credit in the major field of study at one of the campuses of the university;

d. recognize the limitation on Independent Study Courses: A long-standing regulation provides that students will not be permitted to do independent study while in residence. Students not attending the university during the summer session are not considered to be in residence and may enroll in independent study courses without prior approval; however, they should consult with their faculty adviser for assistance in course selections. Exceptions to this regulation can only be made with the approval of the appropriate dean and the provost. If a student takes an independent study course during the last semester of attendance, he or she may not register for an independent study course after leaving the campus with the expectation of completing requirements for his or her degree.

Hour and Quality Point Requirements for Preprofessional Degrees
University of Southern Mississippi students may be allowed to complete degree requirements for the bachelor of science or the bachelor of arts degree in professional, accredited schools of medicine, dentistry, or law on the following conditions:
General Degree Requirements

a. that (90) hours of credit and 180 quality points shall have been completed, with a minimum of two semesters and thirty (30) semester hours of residence at The University of Southern Mississippi;
b. that all core requirements for the degree shall have been completed;
c. that credit and quality points shall be transferred back to The University of Southern Mississippi from the accredited school of medicine, dentistry, or law to complete requirements for the degree. A minimum of one year’s work must be transferred. In any case, a minimum of 128 semester hours must be completed before the degree can be awarded.
d. that the program leading to the degree shall be completed within two calendar years of the termination of the last semester of residence at The University of Southern Mississippi.

General Education Curriculum

In 1999, the Academic Council of the university embarked on a major revision of the basic curriculum required of all undergraduate students. The result of the Council’s deliberations was the General Education Curriculum as adopted in spring 2002 and modified in fall 2002. The revised General Education Curriculum went into effect fall 2003.

General Education Curriculum Vision Statement: The General Education Curriculum at The University of Southern Mississippi is designed to educate students who upon graduation:

• enjoy lives enriched by a broad range of knowledge, the ability to think critically, analytical skills, aesthetic appreciation, historical and social awareness, scientific literacy, and effectiveness in oral and written communication;
• are energized by a spirit of inquiry and enthusiasm for problem-solving;
• assume leadership roles;
• are engaged local, national and global citizens;
• are flexible and resourceful in adapting to professional and social change;
• integrate knowledge across subjects and disciplines; and
• assess information and make choices conscious of intellectual, social, and ethical contexts.

General Education Curriculum Mission Statement: The General Education Curriculum is interwoven with college and departmental requirements and with the student’s experience within the broader university community. The General Education Curriculum encourages the spirit of inquiry, the breadth of awareness, and the skills of analysis that provide a foundation and context for the challenges and possibilities of a lifetime of learning.

The General Education Curriculum fosters the skills of learning and communication; the acquisition and integration of knowledge; the development of logical and critical thinking; and the enlargement and refinement of understanding of the individual’s responsibility to self and society. The undergraduate experience at The University of Southern Mississippi produces students who appreciate both the differences between and the connections among specific subject matters and disciplines, and their relation to general knowledge.

General Education Curriculum Learning Objectives: Fourteen discrete learning objectives organized around five broad principles inform the structure and content of the General Education Curriculum.

Essential Skills

1. Graduates will have and demonstrate suitable reading, writing, and other communication skills.
2. Graduates will have and demonstrate fundamental mathematical and computer skills.

Acquisition and Integration of Knowledge

3. Graduates will have and demonstrate knowledge of the methods, basic data, ideas and explanation, and scope of the natural sciences.
4. Graduates will have and demonstrate an understanding of contemporary issues and concerns.
5. Graduates will have and demonstrate an awareness and understanding of the development and interrelationships of societies from a global perspective.
6. Graduates will have and demonstrate an understanding that society consists of integrated and
complex social systems.

7. Graduates will have and demonstrate an understanding of connections among different subjects and ideas.

**Aesthetic Understanding**

8. Graduates will have and demonstrate an understanding and appreciation of artistic, creative, and cultural expression.

**Development of Logical and Critical Thinking**

9. Graduates will have and demonstrate a capacity for intellectual independence and analytical thought. They demonstrate the ability to seek and evaluate information by asking questions, to make judicious decisions by using judgments on evidence, to understand and assess various kinds of reasoning, and to use critical thinking skills in all areas of their lives.

**Responsibility, Self, and Society**

10. Graduates will have and demonstrate an understanding of themselves and others as psychological, emotional, and moral individuals.

11. Graduates will have and demonstrate an understanding of people as moral agents. They will understand the nature of moral reasoning and ethical decision-making, character, responsibility, duties and obligations, and justice.

12. Graduates will have and demonstrate an understanding of the implications of diversity among individuals.

13. Graduates will have and demonstrate an understanding of the implications of diversity within and among social systems.

14. Graduates will have and demonstrate knowledge and appreciation of foreign cultures.

The General Education Curriculum is composed of 38 hours divided among five categories.

1. **Written and Oral Communication**: 9 hours

   Fluency in communication is the hallmark of an educated person. Fluency in communication is valued not only on its own merit but also because demonstration of communication skills reflects the fact that individuals possess reading and critical thinking skills. Therefore, the General Education Curriculum emphasizes the development in all students of mature communication skills.

   **Writing Requirement**

   Students scoring 17 or above on the English language portion of the ACT must enroll in English 101 during their first semester at the university. (Students scoring 16 or below on the English language portion of the ACT must complete an appropriate intermediate course or courses and immediately thereafter enroll in English 101). In the semester immediately following completion of English 101, students must enroll in English 102.

   Thus, the nine-hour requirement in written and oral communication can be met through successful completion of the following courses:

   - English 101
   - English 102
   - Senior Captone Experience

   Classes in which learning to write and writing to learn play a significant role are not limited to those courses. Except for some mathematics courses, all other courses offered in the General Education Curriculum require a minimum of 2,500 words to be written outside the classroom, as well as significant essay components on examinations and in laboratory sections.
Additionally, all General Education Curriculum courses require a significant final project or proctored final examination.

**Writing-Intensive Courses**

Students must complete three writing-intensive courses. Writing-intensive courses are identified in the schedule of classes by the letters “WI.” Writing-intensive courses are defined as those that, while focusing on a specific subject matter (with corresponding readings and discussions), encourage students to think critically and creatively, outline a subject matter or theme, and draft written essays. In writing-intensive courses, students write a minimum of 5,000 typewritten words (roughly 20 pages) in a multiparagraph research paper or in a series of shorter essays. Class enrollment are capped at 24.

English 102 and the Senior Capstone Experience are writing-intensive; one additional writing-intensive course must be taken at the upper-division level.

**Oral Communication Requirement**

Many majors require that students complete an oral communication course. To satisfy the General Education Curriculum requirement that students develop mature speaking skills, students speak in course discussions and, more importantly, in formal public speeches delivered in upper-level writing-intensive courses, including the Senior Capstone Experience. These courses require successful completion of a minimum of two graded speeches. The speaking components in those classes value clarity of presentation, ideas, and voice, as well as professionalism, and rhetorical grace and precision.

**Senior Capstone Experience**

Each major requires that students participate in a capstone experience that is communication intensive. The experience may be a senior seminar or another designated course or courses (including student teaching), provided that the course or courses meet the written and oral communication requirements outlined above and provided that the department utilizes the experience as a means of assessing student achievement of departmental objectives. To receive credit for the Senior Capstone Experience, students must receive a grade of “C” or better.

**II. Basic Science and Mathematics: 11 hours**

**Science Requirement: 8 hours**

The goal of the science requirement within the General Education Curriculum is to provide students with a fundamental understanding of the methods, basic data, ideas and explanation, and scope of the natural sciences.

Students must complete two four-hour lecture and laboratory sequences.

Mathematics Requirement: 3 hours

The goal of the mathematics requirement is to provide students with the fundamental skills to construct and solve equations, a form of reasoning that has long proven essential for students working in disciplines as diverse as the sciences and fine arts.

Mathematics 101  College Algebra (or higher numbered course)

Computer Requirement

In many General Education Curriculum courses students have the opportunity to learn and demonstrate basic computer skill, including electronic collaboration, creation of structured electronic documents, and online research and evaluation. Additionally, each department requires that its students demonstrate competency in the operation of computers.

III. Global History and Culture: 12 hours

The primary objectives of the global history and culture requirement are the development of student understanding of the interrelationship of societies; the implications of diversity among individuals and social systems; of the integrated and complex nature of social systems; of contemporary issues and concerns; of the links between different subjects and disciplines; and of foreign cultures.

To achieve the General Education Curriculum objectives that the category seeks to fulfill, student must choose three hours in one of the social sciences listed below; and they must complete English 203; either History 101 or 102; and either History 101, History 102, Philosophy 151, or Religion 131.

(Students who take Geography 101 to fulfill the social science requirement may not fulfill their Science requirement by taking Geography 104/104L or Geography 105/105L.)

Art 130 The Art Experience
Dance 107 The Power of Dance
Music 365 Enjoyment of Music
Theater 100 Theatrical Experience

V. Decision-Making and Responsibility: 3 hours
The purpose of the General Education Curriculum requirement in decision-making and responsibility is to develop student understanding of contemporary issues and concerns; understanding of self and others as psychological, emotional, and moral individuals; and understanding of the nature of moral reasoning and ethical decision-making, character, responsibility, duties and obligations, and justice.

Exemption from a General Core Course Requirement
A student may be granted a personal exemption from a university core course if he or she is able to demonstrate mastery of the course material. The latter can be achieved for any core course in one of the following three ways: The student may have taken an equivalent course through the College Entrance Examinations Board’s Advanced Placement Testing Program before entering USM, or may pass an appropriate CLEP examination or a departmental challenge examination on the relevant course material. The detailed procedures and regulations regarding these three methods of obtaining up to 30 hours credit toward a degree at USM are described in the General Academic Information section of this Bulletin.

Requests for exemptions and substitutions for the requirements of the General Education Curriculum should be addressed to the provost.

Major Field Requirements
All graduates of USM are required to complete specialized study in a single discipline, which the student elects as his or her “major.” The major serves two main purposes: It provides intellectual depth in the student’s undergraduate education through concentrated study in his or her chosen field, and it gives the student the fundamental knowledge necessary to practice professionally or pursue advanced study in that field. Because of the varying demands of the many disciplines, specific requirements for each major are determined by the faculty of the appropriate discipline. Generally, the student must complete a set number of hours in the discipline, usually one-quarter to one-half of the total hours required for a degree, and must maintain the minimum university GPA for these major courses. Other requirements may include: the completion of specified courses, course sequences, or course distributions; the completion of a concentration or emphasis (further specified coursework, producing greater specialization) within the major; the completion of a minor in another discipline; the maintenance of a higher discipline-designated GPA, for all or part of the major courses; juried or public performances; field work, teaching practice, and other training programs; and any other course, standard, or training which, in the opinion of the discipline’s faculty, is necessary to achieve the purposes of the major field requirement. The student should consult the appropriate description and academic advisement degree plan in this Bulletin for information on each discipline’s requirements for a major.

Minor Field Requirements
In addition to the major, the student may (or, if required by his or her major program, must) also choose a minor field of specialization. The minimum hours required for a minor are 18 semester hours in which the student must maintain the minimum university GPA for minor courses. The specific requirements for each discipline’s minor are indicated in the appropriate
Description in this Bulletin. Since advisement for the minor is conducted by the minor discipline, the student should consult with the faculty of the minor discipline.

**Grade Point Requirement for the Major and Minor**

A student must have a grade point average of at least 2.0 (C) in the major field and in the minor field on courses taken at The University of Southern Mississippi.

A transfer student’s work done in the major and minor fields in another institution must average at least 2.0 to be applicable toward the major and minor requirements at The University of Southern Mississippi. If the transferred work does not average at least a C, the student must remove any deficiencies in that part of the major and minor credit being transferred. Transferred deficiencies may be removed by: (a) repeating at The University of Southern Mississippi a sufficient number of courses on which grades of D were transferred and, thereby, raising the grades in those courses to the level required for a C average or (b) striking from the transferred transcript courses in the major or minor field with grades of D and taking additional courses in the major or minor at the upper division level to meet the university’s degree requirements.

**Application for Degree**

A student is expected to file an application for a degree one (1) semester before degree requirements are completed, and an application will be accepted no later than the published deadline (see Calendar). This application filed with the Office of the University Registrar will show the work completed by the student and the courses planned for the ensuing semester. Filing in advance of the proposed graduation date will allow time for checking the application and also allow the student time for making up deficiencies found in the degree program. Each student has final responsibility to ascertain that he or she has complied with all applicable catalogue requirements for graduation. Faculty advisers assist students in developing their programs, but these advisers cannot, of their own accord, waive or vary degree requirements as they appear in the university Bulletin. After the application has been approved by the academic department, it becomes the student’s official degree program. Students graduating in the Honors College must submit the Honors College Attachment to the Application for Degree. Application forms may be obtained in the college office of the dean.

**Advisement Registration Transcript**

From the point of advisement in the academic department through the filing of the application for a degree, the university utilizes the Advisement Registration Transcript. Each semester the student’s record (transcript) is evaluated by the computer to verify progress toward completion of the degree in his or her declared major. Degree plans are discussed in the narrative for each department within this Bulletin.

**Degrees with Honors**

Students with exceptional academic records may be awarded degrees with honors or highest honors based on hours attempted at The University of Southern Mississippi. A degree with honors will be granted to a student who maintains a cumulative grade point average of 3.5 or more. A degree with highest honors will be granted to a student who maintains a cumulative grade point average of 3.8 or more. Graduation with Latin designations will be granted to students who complete the requirements for Senior Honors in the Honors College. As an alternative to Senior Honors, graduation *cum laude* will be granted to students who meet the following stipulations: (a) the satisfactory completion of a comprehensive examination in the major field, such examination to be designed and administered by the department involved; (b) the satisfactory completion of a senior project resulting in a written report on that project meeting guidelines based on those presently in effect for Senior Honors projects; (c) notice of intent to meet these requirements must be filed with the department chair/school director at least one calendar year prior to graduation; and (d) an overall grade point average of 3.25 to 3.49. Graduation *magna cum laude* will be granted to students who meet the following stipulations: (a), (b), and (c) above, and (d) an overall grade point average of 3.50-3.79. Graduation *summa cum laude* requires (a), (b), (c), and (d) an overall grade point average of
3.80 or above.

Second Baccalaureate Degree

Students who have earned a baccalaureate degree may be granted by The University of Southern Mississippi a second baccalaureate degree based upon requirements of an applicable catalog, provided the program for the second degree includes at least thirty-two (32) semester hours in residence with at least sixty-four (64) quality points (equivalent to a 2.0 average on a 4.0 scale). The actual number of hours to be taken, which may exceed thirty-two (32) as well as the specific degree requirements, will be established by the academic department responsible for the area of study in which the second baccalaureate is sought. In all cases, a 2.0 grade point average is required. The thirty-two (32) semester hours must be related to a specific major separate from the first major, and the thirty-two (32) semester hours must be completed after the first degree has been conferred.

Academic Standing

A student must be in good academic standing to graduate.
Academic Organization

Organization for Instruction

For purposes of undergraduate instruction, The University of Southern Mississippi is organized into the College of The Arts, the College of Business Administration, the College of Education and Psychology, the College of Health and Human Sciences, the College of International and Continuing Education, the College of Liberal Arts, the College of Science and Technology, the Institute of Marine Sciences, the Honors College, and USM Gulf Coast.

Due to current program reviews, changes may occur in individual major requirements. Please check with the department chair for current degree requirements.

The University of Southern Mississippi offers baccalaureate degrees in the following areas for the school year of 2003-2004.

**This program does not lead to a degree. Students completing preprofessional programs will select an academic major with a minor in the appropriate preprofessional area.*

***(P) Programs. The BA programs in American Studies, Communication, and International Studies are interdisciplinary. The Paralegal Studies program is administered by the Department of Political Science. The BA program in Economics is offered in conjunction with the College of Business Administration, which offers the BSBA in Economics. General Studies does not offer a degree but is the appropriate program for those students who have not yet declared a major.***

****Certificate programs available.

Obviously, many of these majors involve the closest cooperation among the university’s academic departments. A detailed analysis of majors, emphasis areas, and minors is found under the section of this *Bulletin* devoted to each specific college. Requirements for an academic minor may be waived for students completing either the Army or Air Force ROTC programs.

College of The Arts

Mary Ann Stringer, Dean
Hattiesburg, MS 39406-5031
(601) 266-4984

The primary purpose of the College of The Arts is to provide its students with a well-rounded preparation for professional and teaching careers in one of the many branches of art, music, dance, or theatre. In addition, it seeks to provide opportunities for students in all departments of the university to participate in artistic activities and develop an awareness of cultural values. To achieve its purposes, the College of The Arts offers courses of study centered around a core of theoretical, historical, and other academic subjects as well as performance activities designed to develop artistic ability and general cultural awareness.

Organization

The College of The Arts is organized into the School of Music, the Department of Art, and the Department of Theatre and Dance. Baccalaureate majors are available in Art, Art Education, Music, Music Education, Dance, and Theatre. Undergraduate minors are available in Art, Dance, Music, and Theatre.

Since curricular requirements vary for each major, students desiring degrees from the College of The Arts should follow the courses outlined under each department.

Students majoring in elementary education who wish to emphasize areas in fine arts, please see “Areas of Concentration for Elementary Certification.”

School of Music

Charles A. Elliott, Director
Hattiesburg, MS 39406-5081
(601) 266-5363

The University of Southern Mississippi School of Music is a fully accredited member of the National Association of Schools of Music. Requirements are in accordance with the published regulations of this Association.

Students electing to take applied lessons not required for specific degree programs are required to pay an additional fee. (See Special Fees and Expenses.)

There are two undergraduate majors available to students in the School of Music: a major in Music or in Music Education. Emphasis areas in music are Church Music, Jazz Studies, Music History and Literature, Performance (Organ, Percussion, Piano, Strings, Guitar, Voice, and Wind Instruments), Composition, and Music Industry. Music Education emphasis areas are Instrumental and Choral/Elementary General (with plans for singers, keyboardists, and guitarists).

All music majors are responsible for policies found in handout “USM School of Music Policies,” available in the Fine Arts building.

Many School of Music courses are offered on a rotation basis. Consult the “School of Music Rotation Guide” available in the Fine Arts Building or call (601) 266-5363 to request a copy.

Major Instrument Requirement

Major instrument credit hour requirements vary based on the degree sought. However, it is highly recommended that music majors enroll in a three credit hour major instrument lesson every semester to properly prepare for performing recitals. Registration in the 300 levels of applied lessons and all performing recital repertoire and performances must be pre-approved by the appropriate music faculty.
Major Ensemble Requirement

Every music or music education degree requires participation in the same major ensemble for the equivalent of eight consecutive semesters, excluding summers; music education majors who graduate within eight semesters are excused from meeting one semester of this eight-semester requirement. Students who transfer to USM will receive one semester of ensemble credit for each semester of participation in an ensemble at their previous institution(s); a maximum of four semesters of credit will be granted. Students who do not have the proper number of terms of registration for the correct major performing ensemble will not be allowed to graduate.

The B.A. in Music requires six (6) semesters in the same major ensemble, excluding summers. Major performing ensembles are band (excepting summer band), orchestra, and chorus (excepting evening and summer chorus and MUP 486). Jazz lab band satisfies the requirement only for students pursuing the B.M. degree with emphasis in jazz. For students whose degree plan requires a chorus, assignment to the proper major performing chorus is made by the director of choral activities.

The approval of the School of Music director must be obtained for any exceptions to the major performing ensemble requirement as stated above.

Advisory Auditions and Approval of Concentration

Every potential music major is required to take a placement examination in piano during the first week of classes in his or her first term of enrollment as a music major. A decision to approve/not approve one’s major instrument/voice will be made by the end of the second year. For transfer students, the decision will be made before the end of the first semester of matriculation at USM.

Recital Attendance Requirements

Recital Class is an official class for one (1) hour credit. Music and Music Education majors are required to register for Recital Class (MUP* 299 or 499) and receive a grade of “P” (Passing) each semester for a minimum of eight consecutive semesters if the student completes degree requirements within eight (8) semesters of full-time enrollment. This requirement will be waived for the semester a student is registered for MED 493. Transfer students receive one semester of recital credit for each semester of full-time work completed at other colleges; the maximum number of semesters that can be credited to any transfer student is four. B.A. in Music majors must complete three (3) semesters of recital class at USM and must register for MUP 499 each semester.

*Applied Music courses have the designation MUP, i.e, Musical Performance Studies.

Jury Policy

Music majors and music minors enrolled in MUP Private Lessons in their principal applied area must perform a jury for appropriate applied faculty. All others enrolled in MUP Private Lessons must perform a final examination for the applied teacher. At the finish of each semester and summer term, the applied teacher must complete a “Final Jury/Examination Form” for each student and file it with the academic adviser. Students enrolled in applied music who do not take a final examination or a jury will receive the grade “I” or “F.” The applied teacher must record and submit any exception to this policy to the academic adviser; signatures of all appropriate area faculty must be included on this form.

Senior Capstone Experience

The University of Southern Mississippi requires a “senior capstone experience.” This experience may be met by a senior thesis or senior recital/project with a writing intensive component. This requirement varies by degree. See your adviser for details.

Emphasis: Church Music

The curriculum in Church Music is designed to provide a thorough and complete course of training for those who intend to pursue church music as a full-time profession. Special emphasis is placed on literature to be used in the church services. Students will not be enrolled for organ until satisfactory proficiency at the piano has been demonstrated.

Students seeking the Church Music Emphasis in the Bachelor of Music degree must concentrate in one applied music emphasis—either voice, organ, or piano. The major emphasis must be studied for a minimum of eight semesters and include 20 semester hours of credit. The student will present a full recital (MUP 470), open to the public, that is graded “Satisfactory” by the appropriate area.
Emphasis: Music Composition

This emphasis is designed to prepare the student for teaching theory and composition and writing and arranging music of serious intent. Various steps in the preparation of music from the preliminary sketch to the published composition are included.

Emphasis: Music History and Literature

The curriculum in Music History and Literature is planned for those who intend ultimately to teach musicology on the college level or for those who desire careers in music librarianship, music journalism, music publishing, or the recording industry—fields in which a wide and comprehensive knowledge of music history and literature is essential.

The student in music history and literature will receive a strong foundation not only in his or her chosen field but also in theory and in academic subjects that will enrich the student’s cultural background.

During the final semesters of matriculation, the student must enroll in MUS 492-Special Problems (3 hrs.) for an independent study that culminates in a senior thesis. The exact nature of the thesis will be decided by the student and the musicology faculty of the School of Music. The thesis project should reflect significant individual effort that involves library or field research. The project must conform to scholarly procedures accepted within the discipline. Prospectus: A prospectus acceptable to the thesis adviser must be submitted no later than one semester prior to graduation.

Emphasis: Jazz

Half recital required. Recital must be approved by major instrument professor and director of Jazz Studies.

Emphasis: Music Industry

The aim of the Bachelor of Music degree with an emphasis in Music Industry is to prepare undergraduates for positions in the music industry.

The plan of courses meets the university’s general education requirements and the School of Music’s expectations for the degree Bachelor of Music. In addition, it provides the opportunity for career training by allowing one to choose a plan of directed electives for a job in a music industry field. These 24 to 27 hours of directed electives, along with required courses in Music Industry, will train students for employment in Merchandising, Music Management, Film and Video, Video and Audio, Public Relations, or Advertising. Please note: This is not a recording technology degree.

No matter which group of directed electives is chosen, 112-115 hours of the required 136-142 hours in the degree are the same for all who emphasize Music Industry.

In addition to completing the usual four-year undergraduate program, the student must complete a pre-approved internship in the industry for a summer term or for a fall or spring semester.

Requirements for a Major in Music Education
(Bachelor of Music Education—BME)

The curricula in music education are designed to prepare musicians who will teach in the public or private schools or teach privately. The emphases listed below are designed to provide a balance between music performance, music pedagogy, and general education. These curricula are fully-certified by the National Association of Schools of Music, and they satisfy teacher licensure requirements. To satisfy requirements in the state of Mississippi, students seeking the B.M.E. degree must earn a grade of C or better in all required courses and in ENG 101 and ENG 102.

Criteria for Admission to Teacher Education Programs, completion of Teacher Education Programs, forms, deadlines, and procedures can be found in this Bulletin under the heading “College of Education and Psychology.” Students applying for admission to teacher education must be in good academic standing at USM. Students on Probation, Probation Continued, or Suspension status will not be admitted to teacher education until such a time when their transcript reflects they are in good standing.

Students seeking the Bachelor of Music Education degree must

a) make satisfactory progress with one concentration (e.g., flute, voice) in at least seven (8) semesters of applied music study (summers are not included) with at least one (1) semester at the 300 level, one semester waived if student teaching in the eighth semester.

b) present a half-recital (MUP 395), open to the public, that is graded “Satisfactory” by the appropriate faculty area.
c) complete all course work before student teaching; grades of “I” are not acceptable.

Piano Competency

Music education majors (including transfer students) are required to pass the “USM Piano Competency Examination” before enrolling in Student Teaching. Piano competencies are developed through enrollment in a four-semester sequence of piano classes, applied lessons, or a combination of both.

Freshmen who matriculate with substantial piano backgrounds may begin private study immediately. Freshmen with limited experience in piano will be screened during their spring term, then begin class piano their sophomore year. Transfer students are encouraged to attempt the “USM Piano Competency Examination” prior to matriculation at USM; call (601)266-5363 for an appointment; testing and advising will also be conducted during the first week of classes each semester (including summer sessions) for those who are unable to arrange prior examinations.

A block of time will be scheduled during Juries each semester (including summer sessions) for “USM Piano Competency Examination” appointments. Exams are offered only at this time.

This program provides students with an opportunity to reduce the number of semesters in piano study. The “USM Piano Competency Examination” can be taken any time it is offered. Students are encouraged to pass the examination as soon as possible. Those who pass before they have registered for four hours of piano credit may use the remaining hours for further piano study or for elective credit. If proficiencies are not developed in pace with the class piano syllabus, the number of semesters will be increased. The number of credit hours accumulated is not a criterion for passing the “USM Piano Competency Examination.”

Requirements for a Minor in Applied Music

Students minoring in Applied Music must complete eighteen (18) hours as follows: required—six (6) semesters of private applied or group study; and three semesters in an appropriate major ensemble; electives—nine (9) hours chosen from MUS 100, 101, 102, 201, 231, 232, and MED 331/333 or MED 332.

Requirements for a Minor in Music History and Theory

Students minoring in Music History and Theory must complete eighteen (18) hours in any courses bearing a prefix of MUS or MED (excluding MED 100, MUS 361, and MUS 365).

Note: Many of the courses offered by the School of Music have prerequisites; students should consult the University Bulletin for course descriptions.

Non-Major Enrollment in Private Instrument/Voice Lessons

Non-majors who enroll in private lessons may be unable to take the course due to lack of available instructors. Non-majors should consult the School of Music director’s office personnel (Fine Arts Building) before Wednesday of the first week of school to obtain instructor availability.
The University of Southern Mississippi’s Department of Art is an accredited institutional member of the National Association of Schools of Art and Design. Requirements are in accordance with the published regulations of NASAD.

Curricula leading to the degree of Bachelor of Fine Arts are offered in art education, drawing and painting, graphic communication, and sculpture. Curricula are also available in art leading to the degree of Bachelor of Arts in Art and the Bachelor of Arts in Museum Studies. Minor programs are available in art. The National Teacher Examinations are required of all students with an emphasis in Art Education.

Professional and student art exhibitions are continuously on view in the USM Museum of Art.

Admissions Policy

Pre-Art Program

High school graduates who have been admitted by the university and who wish to major in an area within the Department of Art must first complete the Pre-Art Program. The requirements for the Pre-Art Program are

- the completion of fifteen (15) hours of general education requirements, including three (3) hours in English, three (3) hours in history, and three (3) hours in mathematics.
- the completion of ART 101, ART 102, ART 111, ART 112, and ART 113, for a total of fifteen (15) credit hours.
- a 2.5 overall grade point average on the required fifteen (15) hours of general education courses and the above specified ART courses or permission of the department chair.

Transfer students are likewise admitted directly into the Pre-Art Program until their coursework has been evaluated to determine eligibility for admission according to the same guidelines as for freshmen.

Application to a Degree Program

When a student is in the last semester of completing the requirements of the Pre-Art Program, the student should make an application for entry into a Department of Art Degree Plan. Those plans are: B.A. in Art, B.A. in Museum Studies, and B.F.A. with emphasis areas in Art Education, Drawing and Painting, Graphic Communication and Sculpture. A portfolio review may be required as part of the application procedure. Contact the Department of Art at least one semester prior to desired admission for further information.

To remain in any Department of Art Degree Plan, a student must maintain a 2.5 GPA on all USM coursework.

A student who drops below the 2.5 GPA requirement will have one probationary semester (not including summer) to bring up grades. A student whose grades do not improve after probation will be barred from taking any additional ART or ARE courses. However, a student may seek permission from the department chair to retake ART or ARE courses in which he/she earned a D or F, for the purpose of attaining a better grade, within the university’s regulations regarding the substitution of one grade for another.

Art Education

Criteria for Admission to Teacher Education Programs, completion of Teacher Education Programs, forms, deadlines, and procedures can be found in this Bulletin under the heading “College of Education and Psychology.” Students applying for admission to teacher education must be in good
academic standing at USM. Students on Probation, Probation Continued, or Suspension status will not be admitted to teacher education until such a time when their transcript reflects they are in good standing. Students seeking an Art Education degree must earn a grade of C or better in all required courses.

Crook, Hayes, Judd, Kuhn, McConnell, Mallican, Prieur, Quarnstrom, Reischman, Sutherland

The University of Southern Mississippi Department of Theatre and Dance is an institutional member of the National Association of Schools of Theatre and the National Association of Schools of Dance. Theatre and Dance requirements are in accordance with the published regulations of these associations.

The department offers major and minor degree programs in both theatre and dance, the only programs in the state offered in a college of the arts. Both programs provide the student with sound theory and intensive practical training and, in addition, opportunities for extensive performance experiences and exposure to visiting professional artists. Not every course is offered every semester. Please refer to the class schedule guide for current semester course offerings.

Students may apply for admission to a Theatre Bachelor of Fine Arts program after three semesters of post-secondary study, and at least one semester at The University of Southern Mississippi. Entrance into a B.F.A. program requires the completion of 18 hours of general education requirements, including three (3) hours in English, three (3) hours in History, and three (3) hours in Mathematics and the completion of THE 103, THE 111 or 120, THE 200 or 201, and nine (9) additional credit hours of Theatre courses. Entrance into the B.F.A. program also requires no more than one D in any Theatre class, and a 2.5 grade point average in Theatre course work.

Admission to the B.F.A. degree in dance in both emphasis areas requires an audition. Please contact the director of the dance program at 266-4151 for audition dates.

The curriculum leading to the degree of Bachelor of Fine Arts with an emphasis in Dance Education will prepare dancers to teach in public or private schools. The program is designed to provide a well-rounded education that balances dance performance, choreography, and pedagogy with the core curriculum. Students should note that in order to maintain a program of the highest quality, the total hours required by the Dance Education program exceeds that of the performance and choreography emphasis area.

Students desiring to become public elementary or secondary school dance education specialists must adhere to all teacher education requirements, including an overall grade point average of 2.50 in the general education core, and the successful completion of student teaching. In addition, students must earn a grade of C or higher in all courses required for certification. Criteria for Admission to Teacher Education programs, completion of Teacher Education Program, forms, deadlines, and procedures can
be found in this Bulletin under the heading College of Education and Psychology. Students must consult an adviser in dance and the current Bulletin for prerequisites and proper sequences of courses.

Dance majors applying for admission to teacher education must be in good academic standing at USM. To satisfy the state of Mississippi, students seeking a degree in Dance Education must earn a grade of C or better in all required courses.

Out-of-state students should consult with their respective state agencies regarding licensure requirements.

For information concerning the Master of Fine Arts degree, please consult the Graduate Bulletin.

***Degree Abbreviation: (BSBA) Bachelor of Science in Business Administration.
Mission

The College of Business Administration at The University of Southern Mississippi is committed to preparing students for careers in business and to assisting organizations in South Mississippi. Accordingly, our programs emphasize

• values conducive to personal and career development •
• the functions and environments of business •
• communication and critical thinking •
• the global dimension of business •
• ethical decision making •

To fulfill our mission, the College seeks a balanced and synergistic agenda of instruction, scholarly activity, and professional service.

Accreditation

Recognizing that the College of Business Administration has fulfilled accreditation requirements, the AACSB International–Association to Advance Collegiate Schools of Business has accredited all business programs offered on the Hattiesburg and Gulf Coast campuses. The School of Professional Accountancy and Information Systems has also achieved separate accreditation by AACSB.

Organization and Administration

Dean’s Office

The dean is the chief administrative officer of the College of Business Administration (CBA) and is responsible for all operations of the College. In the CBA Undergraduate Academic Services Office, the assistant to the dean oversees admissions to the CBA, recruitment, the advisement process, and degree applications. Students needing assistance should direct inquiries to the CBA Undergraduate Academic Services Office.

Academic Administrative Units

The academic administrative units that report to the Dean’s Office are the School of Accountancy and Information Systems, the Division of Business Administration-Gulf Coast, and the Departments of Economics, Finance, and International Business, and Management and Marketing. A list of undergraduate academic offerings appears at the beginning of this section, while detailed information on curricula follows.
Student Procedures

Admission

High school graduates who have been admitted by the university and who wish to major in an area of business administration are concurrently admitted into the College of Business Administration as Pre-Business majors. As rising juniors, their records will be evaluated to determine admission into one of the college majors. Students will be admitted formally to a CBA major after (1) attaining junior standing, (2) obtaining a minimum cumulative 2.5 GPA on all attempted college course work, including transfer courses as well as repeated transfer courses, and (3) completing the following foundation courses with a minimum grade of C in each course: ACC 200, ECO 201 and 202, ENG 101 and 102, MAT 101 and 102, and CSC 100.

Transfer students are likewise admitted directly into the College of Business Administration as Pre-Business majors until their course work has been evaluated to determine eligibility for admission according to the same guidelines as for freshmen.

Pre-Business majors will be allowed to preregister for upper-level business courses if they are enrolled in their final foundation courses. Upon completion of the foundation courses with the minimum grades in each course and junior standing, students’ records will be reviewed to determine if formal admission and continuance in preregistered upper-level business courses will be allowed.

Pre-Business majors are required to be advised each term by CBA Undergraduate Academic Services. After formal admission into the major, students may elect to advise themselves provided they maintain a minimum of 2.0 cumulative GPA.

Restrictions

The College of Business Administration imposes the following limitations on transfer credits:

1. Courses offered at the junior or senior level at The University of Southern Mississippi are not accepted in transfer from two-year institutions.
2. Not more than one-half of the College of Business Administration core curriculum plus requirements for the major is accepted in transfer.
3. Transfer courses designated as technical training courses, as well as developmental courses such as intermediate algebra, are not accepted as meeting degree requirements.
4. Credit for life experiences are not accepted as meeting degree requirements.
5. See additional restrictions on transfer credit under “Graduation Requirements” section.

In addition, there are the following restrictions for enrolling in courses offered by the College of Business Administration:

1. At least junior standing (60 hours completed) is required of all students enrolling in College of Business Administration courses numbered 300 or above.
2. College of Business Administration majors must have completed the following twenty-four (24) hours with a minimum of C in each course prior to beginning their junior-level business courses: ACC 200, ECO 201/202, ENG 101/102, MAT 101/102, and CSC 100.
3. Students majoring in degree programs outside of the College of Business Administration may not take more than 30 credit hours of Business Administration courses (including transfer credit) without being admitted to the college.
4. Students are not normally allowed to be dually enrolled at USM and another institution. Students must obtain approval from CBA Undergraduate Academic Services prior to dual enrollment. The dual enrollment policy includes independent study courses as well.
5. CBA courses offered through independent study are primarily for nondegree seeking students. Therefore, CBA majors are not allowed to take independent study courses to satisfy degree requirements.
6. For restrictions on using the pass/fail option, refer to the section of this Bulletin on “General Academic Regulations.”

7. Students desiring to transfer additional courses for degree requirements after attending USM are encouraged to obtain prior approval of transfer work from CBA Undergraduate Academic Services.

Changes of Major

College of Business Administration students who wish to change to another business major can do so by completing a “Change of Major” form in the CBA Undergraduate Academic Services Office.

Students who desire to transfer to a degree program outside the College of Business Administration must first be accepted by the college offering the program. Applications for admission to the new program are processed in the dean’s office of the college that grants the degree. The academic areas involved are notified so that advisement records can be transferred.

Advisement

Students are advised in Undergraduate Academic Services where their advisement records are maintained. Prior to registration, if necessary, an adviser can help arrange a schedule of classes for the upcoming semester. An early advisement and registration period is scheduled near the middle of each semester. Students with a probationary status must see an adviser.

Probation and Suspension

University regulations regarding probation and suspension are listed in this Bulletin under “General Academic Regulations.” College of Business Administration students who do not meet university grade point requirements are placed on probation or suspended. Students with a probationary status must see an adviser for academic counseling.

Students who are suspended are not allowed to take classes for at least one fall or spring semester. Anyone who earns college credit elsewhere while on academic suspension from the College of Business Administration may not apply these credits toward graduation requirements in the CBA. All questions regarding suspension appeals in the College of Business Administration should be directed to CBA Undergraduate Academic Services. After one semester, suspended students may submit an application for reinstatement to the College of Business Administration. The CBA Suspension Committee reviews these applications and academic records to determine whether students are to be readmitted.

College Deadlines

The university deadlines regarding adding and dropping courses are strictly enforced in the College of Business Administration. Students must demonstrate extenuating circumstances in order to waive the deadlines as stated on the university calendar. University withdrawals from the College of Business Administration will not be allowed once final exams begin.

Graduation Requirements

To graduate, students must meet all prescribed course requirements shown on their advisement sheets. Information about the procedures for filing an “Application for Degree” are available in the CBA Undergraduate Academic Services Office. Students should be aware of the following degree requirements:

1. A minimum of sixty-four (64) hours of course work must be taken in a senior college.

2. A maximum of six (6) hours from approved study-abroad programs may be used in meeting degree requirements.

3. Special restrictions apply to correspondence and extension credits, to credit by examination, to challenge examinations, and to special problem courses. Students interested in these possibilities must obtain prior approval from the CBA Undergraduate Academic Services Office to assure that credits are applicable toward a College of Business Administration degree.

4. To receive a Bachelor of Science in Business Administration degree from the College of Business Administration, students must complete their last thirty-two (32) hours of course work, including MGT 400 and at least twelve (12) hours in the major at USM. Independent study courses may not be taken during the last 32 hours.
5. Of all required business course work taken, at least 50 percent (34 hours) must be completed at USM.

6. Of all required course work, a minimum of 50 percent must be nonbusiness courses.

7. In addition to meeting all course work requirements, students must have a 2.0 grade point average overall, in the College of Business Administration core, and in the major. Transfer students also must meet the foregoing grade point average requirements for all courses taken at USM and must also have a 2.0 average for all attempted college course work.

Double majors within the College of Business Administration must be carefully planned since students must complete a minimum of 21 hours in each emphasis, and emphasis courses may not overlap. Therefore, a student who wishes to pursue a double major must have such a course of study approved by the assistant to the dean in CBA Undergraduate Academic Services Office.

CBA majors may elect to pursue a minor in an area outside the college. Prior to completing 70 credit hours, students who wish to pursue such minors must request the approval from the area offering the minor. CBA minors normally are offered only to students pursuing a degree outside the College of Business Administration. Double minors within the CBA also must be carefully planned since courses in each minor may not overlap.

Students who wish to complete a second baccalaureate degree in the CBA must request a “Change of Major” and have a program of study approved by CBA Undergraduate Academic Services and the department. CBA students must meet CBA admissions as stated under CBA admissions. Students must complete a minimum of 32 hours in order to receive a second baccalaureate degree.

Placement

The university maintains a central Placement Center that assists College of Business Administration students in locating employment following graduation. Students are encouraged to establish a file with the Placement Center at least two semesters prior to graduation in order to qualify for interviews with prospective employers.

Student Organizations

There are several professional and honorary societies for business students interested in sharing common interests or who have achieved high academic standing. These societies include the following organizations: the American Production and Inventory Control Society; Association of Information Technology Professionals; Beta Alpha Psi, national scholastic and professional accounting fraternity; Beta Gamma Sigma, national scholastic honorary society for business students; Collegiate Chapter of the American Marketing Association; Delta Sigma Pi Epsilon Chi Omicron; Financial Management Association National Honor Society; Institute of Management Accountants, professional accounting fraternity; Collegiate Chapter of National Association of Business Economists, a professional economics organization; Omicron Delta Epsilon, national honorary society in economics; Phi Chi Theta, national professional business fraternities; Sigma Iota Epsilon, both an honorary and a professional fraternity; and the Society for the Advancement of Management (SAM). A representative from each of these organizations and other appointed students constitute the Business Student Advisory Council, which works with and advises the dean on many student-related matters.

Financial Assistance

There are several scholarships designated for College of Business Administration students as well as other awards for which business students are eligible. Information concerning business scholarships can be obtained from the CBA Scholarship Committee. Inquiries regarding other forms of financial aid should be directed to the Director of Financial Aid, Box 5101, Hattiesburg, MS 39406-5101.

Graduate Studies

Undergraduate students who are considering applying for admission to graduate business degree programs should consult with Graduate Academic Services. Admission to graduate business programs at USM is based on several factors, including the undergraduate grade point average and the score on the Graduate Management Admission Test (GMAT).
Study Abroad in Business Administration

The College of Business Administration offers its students the opportunity to earn six (6) hours of approved credit toward their degrees while studying abroad. Business study abroad courses may be substituted for the following requirements (maximum of 6 hours) subject to prior approval: (1) FL 401, (2) ECO 336, (3) ANT 221/GHY 341 or foreign language requirement, (4) up to 3 hours in the student’s major, and (5) directed elective. These study abroad programs are available during the summer semester at relatively low cost to the student. Other exchange programs and study-abroad courses may be available during the fall and spring semesters. Students must have a course of study approved through CBA Undergraduate Academic Services prior to enrolling in these credits to ensure graduation requirements are satisfied.

Curriculum: First- and Second-Year Course Requirements for all College of Business Administration Majors

The business administration curriculum for the first two years consists primarily of nonbusiness courses that provide intellectual breadth and thereby complement the specialized studies that follow in the junior and senior years.

Students should complete the following courses during the first and second years:

School of Accountancy and Information Systems

W. Robert Smith, Director
Hattiesburg, MS 39406-5178
(601) 266-4641

Mission

The School of Accountancy and Information Systems (SAIS) is an academic unit within the College of Business Administration (CBA) at The University of Southern Mississippi and is committed to the mission of the CBA. Within this framework, the SAIS has its own unique mission.
The primary objective of the SAIS is to be a quality provider of undergraduate- and master’s-level accounting and information systems education. The SAIS strives to produce technically competent and broadly educated accounting graduates able to think critically and to communicate clearly. In addition, graduates should understand the ethical and global dimensions of their professions and the necessity for lifelong learning. The SAIS is also committed to providing quality accounting and information systems education to other students to complement their chosen curricula. Therefore, as its first priority, the SAIS emphasizes excellent teaching in an environment of continuous curriculum development to ensure currency and relevance.

The SAIS also acknowledges its responsibilities to the university, the CBA, the accounting profession, information systems professionals, business and government enterprises, and taxpayers. The SAIS strives to meet these responsibilities by providing appropriate services and by engaging in the scholarly pursuits of research and writing. These activities complement the primary teaching mission.

**Accounting**

The School of Accountancy and Information Systems offers an undergraduate program in accounting designed to prepare students for a variety of entry-level positions in public accounting, industry, and government. The program is intended to prepare students for professional careers in which depth and breadth of business and accounting knowledge are required.

As the knowledge required to practice accounting is expanding rapidly, many students are finding it desirable to pursue a fifth year of study leading to a Master of Professional Accountancy (MPA). The Accounting major is integrated with the MPA program. Students who aspire to obtain professional certification should pursue this program. See the [Graduate Bulletin](#) for admission and curriculum requirements.

A grade of C or better in all Accounting courses is required for graduation.

**Management Information Systems**

The School of Accountancy and Information Systems offers a major in Management Information Systems. The degree program is patterned after the Association of Information Technology Professionals (AITP) model for information systems education. Excellent career opportunities exist in management information systems for those who have good academic records, are energetic and ambitious, and seek challenging work.

The Management Information Systems emphasis is primarily oriented toward applications development and systems analysis work in the private and public sectors. Career opportunities also exist in computer training, computer sales, and microcomputer systems design and applications.

The objective of the Financial Information Systems emphasis is to provide students with a knowledge of the information function in an organization. This would include knowledge of standards and practices for acquisition of financial information as well as the ability to select and implement technology to support this activity. An emphasis in Financial Information Systems provides an alternative for those interested in both information systems and accounting—a degree alternative that contains study in both disciplines.

A grade of C or better in all MIS course is required for graduation.

**Requirements for a Minor in Management Information Systems**

For a nonbusiness student, the Management Information Systems minor consists of the following courses: ACC 200; ECO 201; CSC 100, MIS 300, 310, 320 or 408, 401 and 406.

For a CBA student, the Management Information Systems minor consists of the following courses: MIS 310, 401, 406, and nine hours from the CSS 242 or CSS 333, MIS 315, 320, 408, and 412.

Of all minor requirements, 50 percent must be taken at USM.

Economics
The Economics major is designed to prepare students for positions in business, government, or education. The courses equip the student for the analysis of many of the economic problems and issues with which middle- and upper-level managers and administrators must deal. The four-year program provides the requisite skills for entry-level positions and the foundation for graduate study in economics or in areas such as law, public administration, and various business disciplines.

A Bachelor of Arts in Economics is also available through the College of Liberal Arts; see department chair for details.

Finance
Emphasis areas within the Finance major are offered in Banking and Finance, Insurance, Personal Financial Planning, and Real Estate. Each curriculum stresses education in theory, tools of analysis, and problem-solving techniques fundamental to firms operating in the finance, insurance, real estate, and financial service industries. Students choosing the Finance emphasis are prepared for careers with banks and other financial institutions, securities firms, and government agencies that oversee the financial sector. Offerings in the Insurance emphasis are designed for those students who plan to pursue positions in the insurance area as agents, risk managers, underwriters, and claim adjusters, as well as government agencies that oversee the insurance industry. Courses in the Real Estate emphasis prepare the student for real estate sales, property management, financing, and sales. The Personal Financial Planning emphasis curriculum prepares students for successful completion of the Certificate in Financial Planning offered by the Certified Financial Planning Board of Standards, as well as for the entry-level positions in the financial services industry. A grade of C or better is required in certain prerequisite courses before the student can progress to higher-level Finance courses.

International Business
The International Business major is designed to prepare students for positions with international business firms operating in the global environment as well as state and federal agencies involved in facilitating the export-import processes. In addition to the international business courses in the major, students are required to participate in one international seminar abroad to enhance sensitivity to foreign culture, language, and international business acumen.

Business Administration

The Business Administration major is a broad, nonspecialized major that prepares students to begin careers in a wide range of businesses. It is designed for those students wishing to pursue business careers but who do not wish to specialize in one particular field of business. The variety of upper-level business courses also provides students with the expertise in developing and maintaining a small business of their own.

Management

The programs of study in Management have three objectives: (1) to provide students with concepts, knowledge, and skills required in the effective management of profit-making enterprises, government institutions, and nonprofit service organizations; (2) to prepare the student for employment that will lead to positions of managerial responsibility; and (3) to make education in general management available to students pursuing technical, educational, and professional careers.

Students interested in majoring in Management may elect to emphasize in Human Resources Management or Production/Operations Management. The Management emphasis stresses an overall view of the organization in which the student obtains a thorough knowledge of management concepts and techniques and develops executive skills necessary for effectiveness in the administrative world. The Production/Operations Management emphasis provides instruction in quantitative analysis, material handling, quality standards, and manufacturing resource planning.

Careers in management are available in industry, government, service organizations, and teaching. The students’ education and training will, when coupled with additional maturity and experience, serve to further their careers in more responsible management positions such as production or plant manager, labor relations director, or personnel administrator.

Marketing

Marketing is a major concern of all businesses and a growing number of nonprofit organizations. The goals of the marketing program are to (1) prepare students for entry-level positions in marketing; (2) provide the background necessary to advance to higher-level marketing management positions; and (3) develop executive skills that are critical for success in all business occupations. It is necessary, therefore, that the student cultivate the abilities to (1) think creatively; (2) solve problems; (3) communicate orally and in writing; and (4) understand interpersonal relations.

As quality, total customer satisfaction, and relationship management become the critical success factors in the global economy, marketing majors are positioned to take advantage of these opportunities. Some of the career options presented by these opportunities include advertising,
sales, retailing, purchasing, marketing research, public relations, product management, logistics, services marketing, and nonprofit marketing. Graduates have had particular success in locating jobs in pharmaceutical, medical supplies and equipment, consumer products, and professional services industries. Since more than half of all American workers are employed in marketing-related fields, the marketing major can target numerous career choices in the commercial/industrial, institutional, and government sectors. In addition, a marketing degree is excellent preparation for entrepreneurship and small business management.

College of Education and Psychology

Carl R. Martray, Dean
April D. Miller, Associate Dean
Hattiesburg, MS 39406-5023
(601) 266-4568

The University of Southern Mississippi, through its College of Education and Psychology, holds membership in the American Association of Colleges for Teacher Education, the Teacher Education Council of State Colleges and Universities, and the Southern Regional Consortium of Colleges of Education. The Professional Education Unit at The University of Southern Mississippi is accredited by the National Council for Accreditation of Teacher Education (NCATE), 2010 Massachusetts Ave., NW, Suite 500, Washington, DC 20036; phone (202) 466-7496. This accreditation covers all initial and advanced educator preparation programs at USM. The University of Southern Mississippi participates in State and Institutional Reports on the Quality of Teacher Preparation: Title II, Higher Education Act. To request a copy of this report, contact: Dean’s Office, College of Education and Psychology, Box 5023, Hattiesburg, MS 39406; phone (601) 266-4568. For details of graduate teacher education programs, consult the Graduate Bulletin. For degrees offered by departments within the college, please see the previous page. To prepare for a career in secondary education (grades 7-12), a student must matriculate in the college and department of the teaching major and also successfully complete the Education Curriculum courses for secondary licensure.

Mission

The mission of the College of Education and Psychology is to provide quality programs for three major areas: psychology, professional education, and instructional technology. The college develops individuals who possess critical thinking and problem-solving abilities; theoretical, practical, and technical competence; effective communication skills; an appreciation for diversity; a sensitivity to standards of ethical conduct; and a commitment to lifelong learning. The college fulfills its mission through programs characterized by excellence in instruction and supervised practice, research training, scholarly productivity, leadership, professional service, and collaborative activities.

Admission Requirements

Admission to the College of Education and Psychology does not constitute admission to a teacher education program nor to a non-teaching major program. Program planning and proper advisement must be completed to gain admission to both teacher education programs and non-teaching programs. Regular status in the College of Education and Psychology is maintained by meeting the quality point requirements for hours completed as designated by the general university requirement and evaluated by the Office of Admissions and Records.

General Core, College of Education and Psychology

The core of the College of Education and Psychology builds on the university core. For degree programs leading to teacher licensure, the following courses must be completed to meet both the university core and state licensure requirements:

- Biological Science with laboratory ................................................................. 4 hrs.
- ENG 101 and 102 ....................................................................................... 6 hrs.
- ENG 203 ................................................................................................. 3 hrs.
- *English Elective (See degree program requirements.) ............................. 3 hrs.
- Fine Arts Elective .................................................................................... 3 hrs.

- *HPR 105 .................................................................................................. 1 hr.
- MAT 101 .................................................................................................. 3 hrs.
- Mathematics or Science Elective .............................................................. 3 hrs.
- *NFS 167 .................................................................................................. 1 hr.
- Physical Science with laboratory .............................................................. 4 hrs.
- PSY 110 .................................................................................................... 3 hrs.
- SCM 111, 305, or 330 .............................................................................. 3 hrs.
- **Social Science Electives ........................................................................ 3 hrs.
- Social Science Electives ........................................................................ 6 hrs.
Teacher Education Programs and Requirements

Students desiring admission to the professional education program must have (a) an ACT composite score of 21 or higher, with no scale score below 18, or an SAT of 860 (verbal and quantitative) upon entrance into college; or (b) acceptable scores on the Praxis I subscales or Computerized PPST: Reading (170), Writing (172), and Mathematics (169), or on the Praxis I (CBT): Reading (316), Writing (318), and Mathematics (314). Of equal importance is the satisfaction of a 2.65* grade point average on the specified 44-hour general core and the demonstration of basic technology literacy. Students will not be admitted to teacher education programs while their USM academic status shows they are on Probation, Probation Continued, or while Suspended. A minimum overall GPA of 2.5 (transfer credit, transfer plus USM, and/or at USM) is required for admission to the teacher education program.

*NOTE: Special education majors and students who major in “special subject licensure” (grades K-12) must demonstrate a 2.50 grade point average on the 44-hour core.

All applicants desiring to pursue a teacher education program must request formal admission to the Teacher Education Program through the Dean’s Office, College of Education and Psychology.

Internship

Practicum: a minimum of 30 hours of field experience is required prior to student teaching, 15 hours
of which is observation and 15 hours of practicum. Specific programs may require more practicum
hours.

Student Teaching .................................................................14 hrs. (two experiences of 7 hours each)

Multiple assessments will be conducted during the student teaching experience.

Teacher Licensure

Students preparing to teach must choose a teaching area from one of the following: Elementary
Education (K-4, K-8, or K-8 w/Sped), Secondary Education (7-12), or Special Areas (K-12). The
University of Southern Mississippi endorses only accredited teacher education programs and
will not vouch for the preparation of students who are not graduates of such programs or who
obtain certification through an alternative route.

All students who desire to become teachers, regardless of the teaching major, must apply for
admission to the Teacher Education Program in the College of Education and Psychology and be
screened according to the preceding admission standards.

The student should note that state teacher licensure requirements supersede the program
requirements listed in this Bulletin. Mandated changes in program requirements will be
communicated through the student’s academic adviser.

To prepare for a career in secondary education (grades 7-12), a student must matriculate in the
college and department of the teaching major and also successfully complete the Education
Curriculum courses for secondary licensure.

Additionally, Praxis II: Principles of Learning and Teaching and Subject Assessments/Specialty
Area tests must be taken by all who seek a teaching license. It is the student’s responsibility to have
the results forwarded to the Mississippi State Department of Education.

Services and Centers in the College

Office of Educational Field Experiences

Janice Thompson, Director
Bettie Barrett, Assistant Director
Box 5028
Hattiesburg, MS 39406-5028
(601) 266-4571

ALL STUDENTS MUST REGISTER FOR TEACHER CANDIDACY THROUGH USM.

The Office of Educational Field Experiences (OEFE) has been directed by the Professional
Education Council of The University of Southern Mississippi to act as the central clearinghouse for
the pre-student teaching and teacher candidacy (formally called student teaching) placements.
Although specific requirements vary from course to course, education students are required to
complete a minimum of 15 clock hours of observation and 15 clock hours of practicum prior to
teacher candidacy.

Teacher candidacy serves as the capstone semester of the Unit’s Practitioner-Scientist Framework.
This semester provides all teacher education students the opportunity to apply best professional
practices in two separate and diverse experiences in K-12 schools.
All field experiences are completed in accredited, off-campus host schools designated by the OEFE director. Guidance and evaluation are provided by cooperating host school personnel and supervisory faculty members of USM.

Requirements for Teacher Candidacy

All teacher candidates:

1. Need to have completed all coursework: the core subject, education courses, major and minor areas, concentrations of study, labs, and field work. Any exceptions to this policy must be approved by submitting a Policy Exception Form to the student’s major department, then through the Office of Educational Field Experience to the dean of the College of Education and Psychology.
2. Need to have at least a 2.50 degree program GPA at the time that the teacher candidacy semester begins.
3. Need to have been admitted to the teacher education program and completed the teacher education curriculum.
4. Need to expect to spend a full semester in off-campus schools designated by the director of Educational Field Experiences. (NOTE: Transportation and child care responsibilities are the responsibility of the candidate and should be handled as if the individual has accepted a position with the schools.)
5. Need to attend a preliminary instructional meeting provided by OEFE prior to receiving their Teacher Candidacy Request packets. All candidacy paperwork is submitted to the Office of Educational Field Experiences at the beginning of the semester prior to the teacher candidacy for timely placement in area schools. Packet due dates are September 15 for spring candidacy and February 15 for the following fall semester, respectively.

THE TEACHER CANDIDACY SEMESTER: Registration for the final semester of field work is restricted to 14 semester hours of teacher candidacy. It is USM policy that no other coursework be taken during teacher candidacy, and that all coursework be completed before the final semester of field work.

Mathematics Education Services Center

The Director
Hattiesburg, MS 39406
(601) 266-5247

The Mathematics Education Services Center operated by the Department of Curriculum, Instruction, and Special Education offers a program of diagnostic assessment and follow-up prescriptive teaching for students throughout the academic year. The cost of these services per semester are as follows:

1. $150 - Diagnostic Assessment
2. $75 - Prescriptive Teaching

Center for Literacy and Assessment

Dana G. Thames, Director
Hattiesburg, MS 39406-5026
(601) 266-5501

The primary responsibility of the Center for Literacy and Assessment is the promotion of effective teacher education for elementary and secondary students in methods, techniques, and materials in literacy development. The foci of the program are at the undergraduate, master’s, and advanced graduate levels emphasizing theory, practice, evaluation, and research. The center offers limited services in the diagnosis of reading problems. The cost of the diagnostic evaluation which includes a suggested program of remedial procedures is $150, or a proportional part, based on ability to pay. Limited remedial instruction, provided by graduate or undergraduate students on a limited basis, is $75 per semester.

An up-to-date collection of materials used for elementary, secondary, or adult reading instruction and a library of children’s books are open for examination.

University students and adults may obtain testing, counseling, and special instruction in the reading areas of comprehension, vocabulary development, and study skills improvement through the center’s “Improvement of Study” course.

An annual reading conference is held in the spring or summer. Nationally known reading authorities are featured on the conference program and address the salient concerns with regard to literacy.
efforts, initiatives, and instructional formats.

The center also provides up-to-date research findings related to literacy. Most recently, the research focus has related to attitude, self-perception, direct instruction, and comprehension.

**Gunn Education Materials Center**

(601) 266-4561

Gunn Materials Center contains the principle collection of books and other printed materials, audiovisuals, and computer software that directly support the teacher education programs. A computer lab is located here with both Macintosh and IBM compatible computers. Textbooks on the state adoption list are available as well as a collection of children’s literature trade books. The center is open to all currently enrolled students as well as to teachers in the surrounding area.

**Hours:** Monday - Thursday 8:00 a.m. - 5:30 p.m., Friday 8 a.m. - 4 p.m.

**Education Service Center**

Johnny R. Purvis, Director
Hattiesburg, MS 39406-5068
(601)266-4559

The Education Service Center (ESC) serves as a cooperative planning and development unit through which the university and other schools can be more effective in serving the educational needs of their constituents. Through the center’s activities, the resources of the university and local school districts are utilized to identify and coordinate efforts to solve educational problems and to promote general improvement in the quality of education in the state. The center serves as a field services division for the College of Education and Psychology and strives to promote cooperative interaction between the university and the school districts, stimulate the exchange of ideas and successful educational practices, promote cooperative research, disseminate ideas and information, conduct and sponsor workshops and seminars, and arrange for consultative services to the schools. The center is the umbrella organization for the Southern Education Consortium (SEC).

**The Frances A. Karnes Center for Gifted Studies**

Frances A. Karnes, Director
Hattiesburg, MS 39406
(601) 266-5236

Numerous instructional, research, and service programs are conducted on a continuing basis in The Frances A. Karnes Center for Gifted Studies in response to its primary purpose of advancing the field of gifted education. The instructional activities include the Saturday Gifted Studies Program and the following residential programs: Summer Gifted Studies Program, the Summer Program for Academically Talented Youth that is offered in collaboration with Duke University, and the Leadership Studies Program. The center also conducts Leadership Competitions for youth each year. Other instructional and service activities provided by the Center include the Parenting Gifted Children Conference and two staff development conferences for teachers of the gifted. Teacher education is offered for those seeking licensure in gifted education. Advanced degree programs with an emphasis area in gifted education are provided at the master’s, specialist’s, and doctoral levels. Research conducted by center personnel is reported regularly in journals, monographs, and other scholarly publications.

**Clinics**

**Psychology Department**

The Department of Psychology operates three training clinics that are associated with APA-accredited doctoral training programs. Each offers treatment, diagnostic, and consultation services to university faculty, staff, and students, and to members of the community at large. Inquiries about specific services or fees should be directed to the respective clinic (see below). Clinics operate on the university calendar and normally are open only when classes are in session. Services are provided by graduate students under the direct supervision of program faculty. Fees may vary slightly but are based on a sliding scale determined by income level and
family size. Written inquiries for any clinic may be directed to Department of Psychology, Box 5025, Hattiesburg, MS 39406-5025.

Psychology Clinic (Clinical Psychology)
Gary Jones, Director
Hattiesburg, MS 39406
(601) 266-4588/4604

Services include individual therapy, family and marital therapy, and psychological assessment (e.g., intelligence, general personality, and neuropsychological). Clients include children and families, adolescents, and adults. Clinic hours are 8 a.m. until 5 p.m.; the facility is also open one evening a week.

Gutsch Clinic (Counseling Psychology)
William J. Lyddon, Director
Hattiesburg, MS 30406
(601) 266-4601/4602

Services include individual and group counseling therapy, marriage and family therapy, vocational and career counseling, and consultation on a range of concerns that could be described as “problems of living.” Clients include children and families, adolescents, and adults. Types of assessment include intelligence, ability, personality, behavioral, and interest or vocational. Clinic hours are 8 a.m. until 5 p.m. daily.

School Psychology Service Center
D. Joe Olmi, Director
(601) 266-5255/4604

Services include family and school behavior assessment and intervention designed for children, adolescents, and young adults who are having learning problems or school-related behavioral and emotional problems. Specialized assessment and treatment services are available for concerns related to learning, attention deficit disorders, home behavior, and school behavior. Consultation services are also provided to area schools. Center hours are from 2 p.m. to 6 p.m., Monday through Thursday; and 8 a.m. to 11 a.m., Friday. Appointments outside these hours may be arranged.

Departments
Department of Technology Education
Edward C. Mann, Chair
Hattiesburg, MS 39406-5036
(601) 266-4446

Davis, Fisher, Hartnell, Juneau, Shoemaker, Yuen

The Department of Technology Education offers a curriculum leading to the Bachelor of Science degree with majors available in three areas of study: Business Technology Education, Technical and Occupational Education, and Office Administration (non-teaching). Through these diversified degree programs, the department serves a dual role: providing salable skills to students who desire a career in business or industry and providing the professional education courses for teachers of career and technical subjects.

In addition to the undergraduate programs, the department offers graduate emphases in both Business Technology Education and Technical and Occupational Education and a Master of Science in Instructional Technology. For a description of these master’s level programs, please consult the Graduate Bulletin.

Requirements for a Major in Business Technology Education
Diane Fisher, Adviser
Hattiesburg, MS 39406-5036
(601) 266-4446

A major in Business Technology Education prepares the student to teach in secondary or
postsecondary education programs that equip individuals with knowledge, skills, attitudes, and work habits essential for initial employment in the technological environment of today’s business world or success in the college environment. Graduates of this program are licensed to teach in such programs as Business Education, Business and Computer Technology, Computer Applications, and Cooperative Education.

Students desiring entry into secondary teacher education programs must attain the minimum scores set by the Mississippi State Department of Education on the ACT (Composite 21 with no subscore below 18; prior to enrollment in higher education), or SAT (860, verbal plus quantitative), or Praxis I subscales or Computerized PPST: Reading (170), Writing (172), and Mathematics (169), or Praxis I (CBT): Reading (316), Writing (318), and Mathematics (314). See Teacher Education Programs and Requirements section in this Bulletin for a complete description of the teacher education admissions requirements.

Requirements for a Major in Technical and Occupational Education

Karen Juneau, Adviser
Hattiesburg, MS 39406-5036
(601) 266-4446

The major in Technical and Occupational Education was designed for students who possess a previously acquired trade or technical specialty and wish to (1) prepare for a teaching career in vocational-technical education, or (2) build an appropriate academic foundation that will increase their opportunities for professional development and advancement within the field of career and technical education. A minimum of two years’ work experience at or above the journeyman level in a trade or technical area is required for state licensure.

Further, this major is an excellent choice for individuals interested in pursuing a career with industry - especially in the area of training and development.

Degree Plan

Requirements for a Major in Office Administration
(Non-Teaching Degree)

Lajuan Davis, Adviser
Hattiesburg, MS 39406-5036
(601) 266-4446

A major in Office Administration prepares students for a variety of business positions such as office manager, administrative assistant, administrative support specialist, secretary, and word processing specialist. Office Administration equips students for entry-level employment and advancement by providing opportunities to develop skills, knowledge, attitudes, and understandings needed in the automated office.

Admission to Elementary Education (K-4, K-8, or K-8 w/Sped K-8) or Special Education (K-12) Teacher Education Programs

Students desiring to major in Elementary Education (K-4, K-8, or K-8 w/Sped K-8) or Special Education (K-12) must meet the following requirements before being admitted to the program.

1. Attain at least a C average for the required 6 hours of English composition.
2. Complete the College of Education and Psychology’s General Education Requirements (44 hours of specified courses).
3. Demonstrate basic technology literacy (through course requirements or examination, as determined by the Professional Education Council).
4. Attain a minimum grade point average of 2.65 for Elementary Education or 2.5 for Special Education (on a 4.0 scale) based on the 44 hours of general education identified on page 142. File application for formal admission to the Teacher Education Program.
5. Attain the minimum scores set by the Mississippi State Department of Education on the ACT (Composite 21 with no subscore below 18, prior to enrollment in higher education), SAT (860, verbal plus quantitative, prior to enrollment in higher education), Praxis I subscales or Computerized PPST: Reading (170), Writing (172), and Mathematics (169), or on the Praxis I (CBT): Reading (316), Writing (318), and Mathematics (314).
6. Meet with the assigned adviser and complete a program plan.

Students will not be admitted to the Elementary Education program while on Probation, Probation Continued, or while Suspended. For a more detailed explanation of the above requirements, Teacher Education Programs and Requirements section in this Bulletin. Students should also see their assigned adviser or the coordinator of Undergraduate Elementary or Special Education.
Secondary Teacher Education Programs
(Grades 7-12)
Students seeking an undergraduate degree with licensure to teach at the secondary school level (Grades 7-12) must consult advisers in the college and department of the selected teaching field. Academic majors that provide for licensure in the various teaching fields, grades 7-12 are

- Biology
- Business Technology Education
- Chemistry
- English
- Family and Consumer Sciences
- Foreign Language
- Geology (General Science Licensure)
- History
- Mathematics
- Physics
- Speech Communications

Requirements for Supplemental Endorsements
Mississippi’s standards for teacher licensure provide for supplemental endorsements to be added to standard teaching licenses. These endorsement areas require less extensive training than that required for standard teaching licenses. Supplemental endorsement areas achieved through a prescribed program include computer applications, computer education, English as a second language, driver education, health education, gifted education, occupational home economics, remedial reading, mild/moderate handicapped K-8, and mild/moderate handicapped 7-12.

Students pursuing undergraduate degrees with secondary teacher licensure are encouraged to take the additional courses necessary to qualify for endorsements in one or more of these areas.

Special Subject Area Teacher Education Programs
(K-12)
Students pursuing undergraduate degrees with special subject area teacher licensure (Grades K-12) must complete the prescribed general education requirements of the appropriate school or college, and the education curriculum.

General Education Requirements
All students seeking undergraduate special area teacher licensure must complete the general education requirements of the College of Education and Psychology. A student receiving an undergraduate degree from a school or college other than the College of Education and Psychology must also satisfy the general education requirements of that school or college and the teacher education curriculum.

Students may not enroll for any of the Professional Teacher Education Curriculum courses until they have met all requirements for and have been admitted to the Teacher Education Program through the College of Education and Psychology Dean’s office.

Requirements for a Major in a Special Subject Area
Majors (to include associated emphasis area) offered by the various colleges and schools of the university that provide for licensure in the various special subject area teaching fields are

- Art Education
- Child Development (PreK-K grades only)
- Dance Education
- Education of the Deaf
- Health Education
- Library Science
- Music Education
- Physical Education
- Special Education

For specific course and related requirements for a major associated with a special subject area of teacher licensure, the student should refer to the appropriate section of this Bulletin under the department offering the major.

Requirements for Non-Teaching Degrees
The College of Education and Psychology offers non-teaching major programs in the departments of Psychology and Technology Education. Both majors in the Department of Psychology (psychology and social rehabilitation services) are non-teaching. In the Department of Technology Education, office
administration is also a non-teaching major, leading to the Bachelor of Science degree. Students in psychology may take programs leading to the Bachelor of Arts degree.

**Bachelor of Arts**  
(Non-Teaching)

The requirements for the Bachelor of Arts non-teaching degree are the same as those for the Bachelor of Science non-teaching degree with one exception. Students in the Bachelor of Arts program must complete six (6) to nine (9) hours in a foreign language. Those students who have completed two years of the same language in high school and make satisfactory placement test scores may meet the language requirement by completing six (6) semester hours in the same language at the 200 level or above.

**Department of Educational Leadership and Research**

Ric Keaster, Chair  
Hattiesburg, MS 39406-5027  
(601) 266-4579

The Educational Administration and Supervision component of the Department of Educational Leadership and Research offers programs for the preparation of administrators for the public schools and colleges and for teachers of educational administration. These preparation programs are offered only at the graduate level and lead to the master’s degree, the specialist’s degree, and the doctoral degree. For a description of these programs, consult the *Graduate Bulletin*.

The Research and Foundations components of the Department of Educational Leadership and Research provide supportive courses for teacher education. At the undergraduate level, these services include Educational Foundations and at the graduate level, Educational Foundations and Research.

The Adult Education component of the Department of Educational Leadership and Research offers graduate programs for persons who work with adult learners in a wide variety of settings. Programs are provided that lead to the master’s, specialist’s, and doctoral degrees. For descriptions of these programs, please consult the *Graduate Bulletin*.

Some courses are offered at the undergraduate level to support degree programs in other departments and as staff training for agencies that employ persons at the baccalaureate level or below to work with adult learners.

**Department of Psychology**

Stan Kuczaj, Chair  
Hattiesburg, MS 39406-5025  
(601) 266-4177

The Department of Psychology offers both graduate (MA, MS, PhD) and undergraduate programs (BA or BS). At the master’s level, the department offers work leading to the Master of Education degree in Counseling and Personnel Service and the Master of Science degree in Counseling Psychology. The Master of Education program in Counseling and Personnel Services meets Mississippi State Department of Education requirements for AA licensure as a school counselor.

At the doctoral level, there are five emphasis areas: clinical, counseling, experimental, industrial/organizational, and school psychology. The doctoral programs in clinical, counseling, and school psychology are fully accredited by the American Psychological Association. The program in school psychology is also accredited by the National Association of School Psychologists. (For
The descriptions of graduate programs, see the Graduate Bulletin.

At the undergraduate level, the Department of Psychology offers degrees in Psychology (BS or BA) and in Social and Rehabilitation Services (BS).

The undergraduate degree in Psychology prepares students for entry-level jobs in many areas of the discipline of psychology, or for advanced degrees in other professions. Students preparing for graduate or professional school in other disciplines should consult the appropriate adviser to ensure that the program of study is congruent with the graduate or professional school to which they plan to apply. Students majoring in Psychology must complete a minimum of thirty-three (33) semester hours of course work in the Department of Psychology and earn a grade of C or better in each of these courses. To receive the Bachelor of Arts degree, a student must also complete nine (9) hours of a foreign language.

Purpose
The College of Health and Human Sciences seeks to improve the health and well-being of individuals, families, organizations, and communities.

Mission
The College of Health and Human Sciences prepares students to work in applied arts and sciences positions that enhance the quality of life for individuals, groups, families, organizations, and communities. This mission is accomplished through the teaching, service, and research of faculty, staff, and students.

Through classroom, laboratory, and field teaching, our graduates are prepared for service in professional, applied programs that address the complex, dynamic human needs within the community, state, region, and nation.

A strong service function is a key component of college values. Faculty, staff, and students of the college are committed to addressing major service issues of the university and the Gulf South region.

Research by college faculty, staff, and students is designed to discover, extend, and disseminate knowledge of human needs, development, performance, and quality of life across the life span. Research findings also strengthen the teaching and service components of the college.

Vision
The College of Health and Human Sciences will attain national distinction through the recognition of exemplary models of teaching and learning; fully engaged and committed faculty, staff, and students; rigorous and relevant curricula; quality basic and applied research; respect for diverse ideas; professional collegiality; and technological proficiency and ingenuity.

Organization and Administration
Dean’s Office
The dean is the chief administrative officer of the College of Health and Human Sciences and is responsible for its operation. In the Dean’s Office, the associate dean coordinates scheduling, the college catalog, adjunct faculty coordination, and undergraduate and graduate academic concerns.

Administrative Units
The administrative offices that report to the Dean’s Office include the Mississippi Tourism Resources Center, the Applied Research Division of the National Food Service Management Institute, the Center for Applied Research Education (CARE), and five academic units.

The academic programs of the College of Health and Human Sciences are housed in the School of Family and Consumer Sciences, the School of Human Performance and Recreation, the School of Social Work, the Center for Community Health, and the Department of Hospitality Management.

These academic units offer undergraduate and graduate academic programs designed to meet the challenges of the college’s mission statement. Each academic unit is responsible for maintaining its associated student files for academic advisement of its majors. Since curricular requirements vary for each major, students desiring degrees from the College of Health and Human Sciences should...
follow the courses outlined under each unit. Detailed information on individual curricula of the five
units follows. Please note that a number of programs within the college must meet criteria of
accrediting agencies and thus may have additional application procedures or admission
requirements above those of the university. Most programs within the college require students to
have valid professional liability insurance purchased through fees assessed each semester by the
university. Please consult the directors of the individual units to obtain specific information.

The College of Health and Human Sciences offers teacher preparation programs in four disciplines.
Students can pursue teacher certification in K-12 Physical Education through the School of Human
Performance and Recreation, K-12 certification in Family and Consumer Sciences Education
through the School of Family and Consumer Sciences, pre-kindergarten/Kindergarten certification in
Child Development (Licensure track) through the School of Family and Consumer Sciences, and K-
12 certification in Community Health Sciences with an emphasis in School Health Education
through the Center for Community Health. All four programs are fully accredited.

General Core, College of Health and Human Sciences

The core of the College of Health and Human Sciences builds on the university core. All students in
the college are required to complete HHS 100: Concepts of Wellness and two of the following:
HHS 101: Diversity and Social Justice; FAM 475: Contemporary Issues Affecting the Quality of
Life; SWK 420: Methods of Social Work Research; or CSC 100: Introduction to Computing.

Teacher Licensure

A student in the College of Health and Human Sciences seeking standard teacher licensure in
Mississippi must satisfy the core requirements of not only the College of Health and Human
Sciences, but also the College of Education and Psychology. Students should refer to degree
programs within the College of Health and Human Sciences, which are approved by the State
Department of Education for teacher licensure in a specific teaching field. Specialized courses
within each program are included in the degree plans, with additional course requirements in the
Professional Teacher Education Core. Please see admission requirements for Teacher Education.

Facilities and Labs

Because the programs within the College of Health and Human Sciences are of an applied
nature, laboratory learning experiences play an important part in the educational experience. The
College of Health and Human Sciences is fortunate to have several specialized facilities,
services, and labs to support the academic programs, included are the Laboratory of Applied
Physiology, the Fitness Assessment Center, the Pedagogy Laboratory, the Center for Child
Development, the Charcoal Room, and the University Clinic in Family Therapy. Laboratory
facilities provide unique opportunities for students to apply skills and knowledge in a supervised
learning experience.

The School of Family and Consumer Sciences offers five undergraduate majors which prepare
students to assume professional responsibilities in a variety of career fields. Programs in the school
offer excellent opportunities for obtaining a broad general education while developing the skills and
abilities necessary for functioning competently in a selected professional area. The undergraduate
programs and professional fields they serve share a common focus on improving the quality of life
for individuals and families, whether through intermediary roles or through direct service in one of
the helping professions.

The undergraduate programs in the School are accredited by the Council for Accreditation of the
American Association of Family and Consumer Sciences (AAFCS). The Didactic Program in
Dietetics is accredited by the Commission on Accreditation for Dietetic Education (CADE) of The
American Dietetic Association, The Interior Design Program is fully accredited by the Foundation for Interior Design Education Research (FIDER) and endorsed by the National Kitchen and Bath Association (NKBA). The Family and Consumer Sciences Education program is fully accredited by the National Council for Accreditation of Teacher Education (NCATE).

Offerings for Non-Majors
A number of courses offered within the School of Family and Consumer Sciences do not have prerequisites and are excellent choices for electives. Minors are also available in a number of areas within the School of Family and Consumer Sciences.

- CD 150 (Child and Family in the Community)
- FMA 121 (Fashion Fundamentals)
- FMA 330 (Textiles I)
- FMA 332 (Fashion Behavior Appearance and Communication)
- FAM 101 (Introduction to Professional Studies)
- FAM 150 (Social and Professional Development)
- FAM 151 (Personal Development and Interpersonal Relationships)
- FAM 442 (Personal and Family Financial Management)
- FAM 443 (Family Resource Management)
- NFS 272 and 272L (Principles of Food Preparation)
- NFS 362 (Nutrition)
- ID 140 (Interior Design I)
- ID 325 (History of Interior Furnishings and Decorative Arts)
- ID 497 (British Housing and Interiors)
- FAM 351 (Marital and Family Relationships)

Child and Family Studies
In addition to the general education core, course work in Child and Family Studies has a family systems perspective and focuses on developmental observations. A broad knowledge of the child and family is acquired through courses in nutrition, family dynamics, communications, psychology, developmental disabilities, computer science, and contemporary issues affecting the quality of life. Students take courses in infant and child development, curriculum activities, behavior and guidance of children, parenthood, and supervised work through practicum or internship experiences. Graduates who complete the course requirements for a Child and Family Studies degree may be eligible for provisional membership in the National Council on Family Relations’ Certified Family Life Education Program. Child Life graduates are eligible to apply for certification by the National Child Life Council. Students majoring in Child and Family Studies must specialize in one of the following areas: Child Development, Child Development Licensure Track, Child Life, Family Relations.

Child Development graduates work as teachers and administrators of childcare and preschool programs or as child development specialists who plan and implement developmentally appropriate activities with children in other settings. Child Development students interested in teaching Pre-Kindergarten through Kindergarten in the public school system can choose a licensure track option. Successful completion of the Praxis I, according to Mississippi State Department of Education guidelines, is required before the student is admitted to the Child Development Licensure Track option. Before the Mississippi State Department of Education will license teachers, the Praxis II must also be successfully completed. The student should review general teacher education requirements in this Bulletin. The student should note that the state teacher licensure requirements supersede the requirements listed in this Bulletin.

Graduates in the Child Life specialization work with children and families in health care settings. Family Relations graduates work in human service organizations such as child abuse prevention agencies, parent and family resource centers, Departments of Human Services, Court Appointed Special Advocate, family development centers, and agencies on aging. Graduates are also prepared to work with the Extension Service.

Laboratory and Field Experiences
Laboratory and field experiences, as well as academic work, are integral to students’ preparation. The Center for Child Development, accredited by the National Academy for the Education of Young Children, offers all students opportunities to observe and participate in directed experiences with infants, toddlers, and preschoolers. Students with a specialization in Child Development must complete one semester of supervised teaching in the Center.

Students interested in careers as Child Life Specialists are offered a variety of opportunities to work
with children and families in health care environments. Through volunteer experiences and structured, clinical practicum, students are prepared to seek a 500-hour clinical internship in hospitals with Child Life programs.

Students with an emphasis in Family Relations gain valuable knowledge through field experiences in human services or community agencies. This emphasis may lead to American Humanics Certification in non-profit management (see adviser for guidelines).

Special Program Requirements
Students must work closely with an academic adviser in selecting an emphasis and elective courses best suited to their interests and career goals.

Students must earn a grade of C or better in all courses required for the major area of study, specialization area, and any courses substituted for major and specialization area courses in order to graduate.

Students must have a cumulative GPA of 2.5 to transfer into Child and Family Studies or Family and Consumer Sciences Education.

According to university policy, direct equivalent transfer credit for junior/community college technical courses as replacements or substitutes for junior-and senior-level courses in the major are not allowed. See “Application Procedures for Transfer Students/Transfer Credit Policy” in this Bulletin. In cases where students claim to have mastered the concepts covered in courses for which no College Level Examination Program (CLEP) equivalent exists, faculty will design examinations covering content in those courses to provide a venue for students to prove mastery.

Laboratory experiences are required in most circumstances, even if a student is able to pass a challenge examination over the lecture material. Faculty designing challenge examinations can require students to produce additional evidence of mastery, including projects that were a part of previous course work or additional documentation that provides a more complete assessment of the student’s experience.

Requirements for Admission to the Child Development Licensure Track
Students applying for admision to teacher education must be in good academic standing at USM.

Students must have a 2.50 GPA on 44 specified hours of the general education core curriculum and pass the technology literacy exam.

Students must complete freshman English Composition with an average grade of C or better.

Students must attain acceptable scores set by the Mississippi Department of Education on the Praxis I or ACT or the SAT.

Requirements for Child Life Specialization
GPA criteria before enrolling in CD 456:

- a GPA of 3.0 in the major area of study
- a GPA of 3.5 in CD 378, CD 400, CD 452/L and NSG 406 or SW 492

Completion of 50 volunteer hours (see adviser for guidelines).

Requirements for a Minor in Child and Family Studies
All students pursuing a minor in Child and Family Studies must complete nine (9) semester hours in the following courses: CD 350 and CD 3350L; FAM 351 and FAM 452. An additional nine (9) semester hours may be selected from the following electives: CD 352, CD 352L, CD 451, CD 451L, CD 452, CD 452L, CD 453, CD 453L, FAM 442, FAM 450, FAM 451, FAM 453.

Family and Consumer Sciences Education
Overview of Major
This program provides students with a broad background in family and consumer sciences areas and includes a course of study for those students interested in becoming licensed to teach in the state of Mississippi. Program graduates not interested in becoming licensed may seek employment with the Extension Service or with private or governmental agencies that provide consumer services to individuals and families. These students have a number of electives that can be used to tailor the degree program toward their specific interests, whether communications, business/marketing, or
other areas.

**Career Opportunities**

Family and Consumer Sciences graduates (teacher licensure) are prepared to teach in grades 7-12. The program is designed to prepare students to teach at the middle school and high school levels of instruction in Career Discovery, Personal Development, Family and Individual Health, Family Dynamics, Child Development, Resource Management, and Nutrition and Wellness. Family and Consumer Sciences educators also apply pedagogical skills in instructional settings associated with the Extension Service, government agencies, correctional facilities, and nonprofit groups.

**Special Program Requirements**

**Requirements for Admission into the Professional (Teacher) Education Program:**

Students applying for admission to teacher education must be in good academic standing at USM. Students on Probation, Probation Continued, or Suspension status will not be admitted to teacher education until such a time when their transcript reflects that they are in good standing.

A student must have a 2.65 GPA on 44 specified hours of the university core curriculum, with an average of C or better in the freshman English courses.

A student must attain acceptable scores set by the Mississippi Department of Education on the PRAXIS I examination or the ACT.

A student must attain passing scores set by the university on the Technology Literacy Examination.

If these four requirements are met, students are admitted to the Professional Education Program for further study in Family and Consumer Sciences (teacher licensure).

**Additional Program Information**

The Family and Consumer Sciences Teacher Education program is designed to prepare an informed practitioner with extensive content knowledge, pedagogical skills, and specialty content knowledge. The program is designed using the practitioner-to-scientist framework, which includes a general education core, the professional education core, and specialty studies in Family and Consumer Sciences. The general education core provides the foundation for a solid liberal arts education, which includes basic knowledge and skills in reasoning and communication, humanities and fine arts, social and behavioral sciences, natural and applied sciences, and human wellness. The second knowledge base involves 21 hours of course work emphasizing the heritage and methodology of teaching. In addition, students complete 16 hours of course work involving professional development in the areas of technology, family systems, and family life education. The third knowledge base involves specialty studies in which students expand the breadth of their knowledge and skill in areas unique to family and consumer sciences. Required course work is closely related to the structure of the Family and Consumer Sciences curriculum developed by the Mississippi State Department of Education. The final knowledge base involves the 14 hours of student teaching in which students apply and integrate the knowledge, skills, and attitudes gained through course work in the general, professional, and specialty areas of the degree program.

**National Standards:** Curriculum planning and evaluation are driven by the National Standards for Family and Consumer Sciences prepared by the National Association of State Administrators of Family and Consumer Sciences (NASAFACS) in association with the Vocational-Technical Education Consortium of States Southern Association of Colleges and Schools. In addition, the Family and Consumer Sciences Teacher Education Program has been heavily influenced by changes in society, the Family and Consumer Sciences curriculum developed by the Mississippi State Department of Education, and recommendations from our accrediting agency, the American Association of Family and Consumer Sciences. The integrative nature of the knowledge base of Family and Consumer Sciences and its impact on the quality of life undergirds the philosophy expressed through curriculum choices.

**Fashion Merchandising and Apparel Studies**

**Overview of Major**

The curriculum in Fashion Merchandising and Apparel Studies provides students the opportunity to pursue careers in the production, marketing, and merchandising of textile and apparel products.
Course requirements cover the organization and operation of the fashion business, the production and distribution of merchandise, the product information and merchandise characteristics, and the social, psychological, and aesthetic components of dress. Required courses in business add depth to the student’s background and variety to a graduate’s career options. As circumstances and interests warrant, students may take courses that include travel to major fashion market centers, such as Dallas and New York.

**Career Opportunities**

Most graduates in the program select career paths in retailing, such as merchandise buyers, store operations managers, special events coordinators, personal shoppers, visual merchandising managers, and private label coordinators. Other career options include, but are not limited to, jobs in apparel production, such as sales representatives, quality analysts, and production managers.

**Internship**

During the senior year, fashion merchandising students complete an internship, often in a retail operation which sells fashion apparel, accessories, and related merchandise. This supervised experience provides valuable preprofessional work experience and often develops into the graduate’s first career position. Internships may take place locally or in any geographical location that provides necessary work experiences. Students are responsible for securing the internship position and obtaining approval for the work site.

**Special Program Requirements**

**Graduation Requirements:**

- A marketing minor is required for fashion merchandising students.
- An overall GPA of 2.0
- A GPA of 2.5 for all courses listed under the major are of study and the last 60 hours attempted must be earned.
- A grade of C or higher must be earned in all courses listed under the major area of study.

**Transfer Credits:**

- Transfer students are admitted to the program upon admission to the university. Students who wish to transfer from another college within the university must have a 2.0 GPA. Application for transfer may be made to the School of Family and Consumer Sciences throughout the year.

**Requirements for a Minor in Fashion Merchandising and Apparel Studies**

All students pursuing a minor in Fashion Merchandising and Apparel Studies must complete eighteen (18) hours from the following courses: FMA 121, 131, 222, 330, 331, 332, 334, 335, 337, 421, 435, 436, 437, and 478. Students are required to work with an adviser in the fashion merchandising program to plan the 18 hours for the minor.

**Interior Design**

**Overview of Major**

The degree is accredited as a first professional-level degree program by the Foundation for Interior Design Education Research (FIDER) and endorsed by the National Kitchen and Bath Association (NKBA). Requirements are in accordance with the published standards and guidelines of FIDER and NKBA.

This program prepares students to identify, research, and solve problems related to the needs of people in residential, institutional, and commercial environments in order to enhance the quality of life and protect public health, safety, and welfare. The program’s interdisciplinary approach addresses the demands and standards of qualification of the profession and related fields. The core of program requirements includes sequential studio courses covering the analysis, planning, and design of human environments. Supplemental courses include instruction in presentation, HVAC systems, lighting, plumbing, acoustics, codes, special needs, historic and contemporary furnishings/design, aesthetics, and professional procedures.
Professional designers, architects, manufacturers, and allied representatives serve the program in an advisory capacity as members of advisory boards, guest lecturers, part-time faculty, critics, and supervisors of interns. Further contact with professionals is supported through the student chapter of the American Society of Interior Designers (ASID) and student membership in the International Interior Design Association (IIDA) and National Kitchen and Bath Association (NKBA). All faculty members have had professional experience and are members of professional organizations.

Career Opportunities
Career opportunities exist in the following areas: residential and contract interior design/space planning firms; architectural and engineering firms; facilities planning, independently or within the structure of corporations, institutions or government agencies; antique dealerships; furniture and textile manufacturers and distributors; furniture showrooms for trade and retail; preservation and restoration design; and interior design education.

Internships and Studies Abroad
A four-credit hour, one-semester internship in a professional setting with faculty supervision is required.

Graduates are eligible to participate in the Interior Design Experience Program (IDEP), a monitored, documented experience program administered by the National Council for Interior Design Qualification (NCIDQ).

Students are offered the opportunity to earn six hours of credit while studying abroad through the British Studies program.

Special Program Requirements
Admission to The University of Southern Mississippi as an Interior Design major does not ensure progression to the upper division studio courses. Criteria for progression to the upper division 300/400-level studio courses include a letter of application, specified GPA requirements, completion of specified courses, portfolio review, and recommendation by faculty.

Application forms and instructions may be obtained from the student’s adviser or the Interior Design Program coordinator. The deadline for completion of the forms is the semester prior to enrollment in ID 320. Dates will be posted in the studio and announced in the lower division studio courses.

Course enrollment is limited, as required for FIDER Accreditation. Students who have completed or who are currently enrolled in the following prerequisite course may apply to the Interior Design program for progression to the upper division studio courses:

Progression Criteria
Prerequisite Courses: The following courses must be completed prior to entry in 300/400-level studio courses (additional prerequisites may apply for individual 300/400 level courses):

**University Core**
6 hrs. ENG 101 and 102
3 hrs. MAT 101 or higher level
6 hrs. HIS 101 and 102
ART 130

**Interior Design**
3 hrs. ID 140
3 hrs. ID 238
3 hrs. ID 240

**Architectural Engineering Technology**
3 hrs. ACT 132/L or ENT 100/L
3 hrs. ENT 120

**Art**
3 hrs. ART 101
6 hrs. ART 111 and 112
3 hrs. ART 113, 102, or other ART studio courses
Portfolio Review: Applicants will submit a portfolio of work completed in the above course prerequisites for review by the Interior Design faculty. Declared Interior Design majors will be issued written directions that will include format and project inclusions.

Grade Point Average: Student must have earned a cumulative GPA of 2.0 and a 2.5 in all courses completed under the major area of study.

Assessment Method: A written evaluation criteria list will be issued to all students declaring an Interior Design major and made available for students enrolling in 100/200-level Interior Design courses and prospective students. The evaluation criteria will incorporate applicable FIDER standards and guidelines applicable to predetermined competency level expectations.

Due Date: Applicants will submit the portfolio the semester prior to expected enrollment in ID 320. Dates will be posted in the studio and announced in the ID 200-level studios.

Progression in Interior Design Studio Course Sequence: According to FIDER standards, the Interior Design curriculum is designed to encompass continuity, repetition of significant concepts, sequential ordering of content, progression of learning, and interrelationships among learning experiences. The student must earn a grade of C or higher in each course of the Interior Design studio sequence before taking the next ID studio in the sequence. The sequential order of the design studio course sequence is as follows:

- ID 140
- ID 238, 240
- ID 320, 339
- ID 340, 342, 439, 440
- ID 490

Internship Prerequisites: Before enrolling in ID 442, Interior Design Internship, a student must have completed all course prerequisites, earned a grade of C or better in all courses in the major area of study, and have a 2.5 GPA in the major area of study and the last 60 hours of courses attempted. Approval must be obtained through an application form available from the student’s academic adviser.

Graduation Requirements: In addition to all university and major course requirements, the following requirements must be met in order to graduate:

- Fifty percent of required courses in the major must be completed at USM.
- All required 300 and above level studio courses must be completed at USM.
- A grade of C or higher must be earned in all courses in the major area of study.
- A cumulative GPA of 2.5 under the major area of study and the last 60 hours of courses attempted must be earned.

Transfer Credits: Transfer students are admitted to the program upon admission to the university. Students who wish to transfer from another college within the university must have a 2.0 GPA. Application for transfer may be made to the School of Family and Consumer Sciences throughout the year. The evaluation criteria for transfer credits in the major are as follows:

1. Quality and representation of course objectives documented in portfolio of previous work completed in Interior Design Studio and support courses
2. Work completed at a FIDER-accredited school (Transfer of 300- and above level Interior Design credits from non-FIDER-accredited institutions will be considered on an individual basis.)
3. Course syllabi and project description
4. Grades earned in the courses
5. Course descriptions published in school catalog

Nutrition and Dietetics

The Nutrition and Dietetics program is currently approved by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association. The mission of the Nutrition and Dietetics program is to prepare students for careers as dietetics professionals who will enhance the quality of life for individuals, groups, families, organizations, and communities in the state, region, and nation. The Nutrition and Dietetics program provides the knowledge, skills, and values required for successful entry into a supervised practice program, graduate school, or the job market. There
are three steps to becoming a Registered Dietitian (RD):

- Earn a bachelor’s degree and complete the didactic program requirements for entry-level dietitians in an accredited program;
- Successfully complete an accredited supervised practice program/dietetic internship; and,
- Earn a passing score on the national Registration Examination for Dietitians.

Career Opportunities

Many work environments, particularly those in medical and health care settings, require that an individual be credentialed as a RD. Registered Dietitians are employed in a wide variety of settings, including hospitals, public health departments, nursing homes/retirement centers, food service establishments, private practice, colleges and universities, food and nutrition-related businesses, contract food service companies, and military service.

Laboratories

Students gain valuable knowledge and skills through laboratory and field experiences in food preparation, food service management operations, medical nutrition therapy, and community nutrition.

Special Program Requirements

To take any Nutrition and Food Systems (NFS) course numbered above 400, students majoring in Nutrition and Dietetics must meet the following criteria:

- Have a GPA of 2.5 or higher on required science courses (CHE 106, CHE 106L, BSC 250, BSC 250L, BSC 251, BSC 251L, CHE 251, CHE 251L, and CHE 420) with no grade lower than C in any of those courses
- Have a grade of B or better in NFS 362
- Have a cumulative GPA of 2.75 or higher

In addition, students must have a grade of C or better in all required NFS courses in order to graduate.

The School of Human Performance and Recreation (HP&R) prepares professionals concerned with the improvement of the quality of life of individuals by addressing issues related to health, leisure, exercise and sport. Those issues are many and diverse and include rehabilitation (both physical and psychosocial), sport and leisure service systems, and helping individuals attain their maximum human performance potential. There are four majors and seven specialization area within the school:

- Athletic Training
- Human Performance
  - Exercise Science
  - Kinesiotheraphy
  - Physical Education
- Coaching and Sport Administration
  - Coaching
  - Sport Administration
- Recreation
  - Recreation Administration
  - Therapeutic Recreation
The following School of HP&R curricular programs are currently accredited or approved by professional boards or agencies: Athletic Training by the Commission on Accreditation of Allied Health Education programs (CAAHEP); Kinesiotherapy by the Committee on Accreditation of Education Programs for Kinesiotherapy (CoA-KT); Physical Education by the K-12 Teaching Specialty Accreditation—National Council for Accreditation of Teacher Education (NCATE)/National Association for Sport and Physical Education (NASPE); and Recreation by the Council on Accreditation of the National Recreation and Parks Association (NRPA) and the American Association for Leisure and Recreation (AALR).

Additionally, courses are offered within the various degree programs that facilitate professional certification in Athletic Training by the National Athletic Training Association Board of Certification (NATABOC) and state of Mississippi teacher licensure; Kinesiotherapy registration by the Council on Professional Standards for Kinesiotherapy (COPSKT registration); Health Fitness Instructor Certification by the American College of Sports Medicine (ACSM); Teacher Licensure—K-12 Physical Education by the Mississippi State Department of Education; Therapeutic Recreation Specialist by the National Council for Therapeutic Recreation Certification (NCTRC); and Certified Park and Recreation Professional by the National Recreation and Parks Association (NRPA).

Offerings for NonMajors
A number of courses offered within the School of HP&R do not have prerequisites and are excellent choices for electives: HPR 200: Leisure and Recreation in Society; HPR 201: Leisure Skills Development; HPR 202: Introduction to Exercise Science; HPR 220: Introduction to Human Performance; HPR 273: Taping and Wrapping for Coaches; HPR 305: Adventure Training; HPR 309: First Aid; HPR 350: Introduction to Commercial Recreation; HPR 351: Community Recreation Services for People with Disabilities; HPR 411: Adapted Activities and Techniques for Therapeutic Recreation; and THY 411: Introduction to Kinesiotherapy.

Several certification programs are also available through the School of HP&R for nonmajors. Students seeking add-on Driver Education teaching endorsement to a Mississippi teaching license may take several courses offered within the School of HP&R curricula. A variety of American Red Cross certifications are available in First Aid and Aquatics areas (see specific description of areas and corresponding courses of study for further detail).

Driver Education Certification
Students who wish to meet the teacher licensure requirement to teach driver education in Mississippi schools must complete requirements for a Standard Class A license “add-on” endorsement and the following courses: CHS 341 or CJ 332; HPR 480, 483, 483L, 484; and one course from HPR 370, 371, 372, or 373.

American National Red Cross Certification
The program offers certificates from the Red Cross in Community First Aid and Safety (Adult/Child/Infant CPR, Basic First Aid, and AED), Lifeguard Training, Lifeguard Training Instructor, Water Safety Instructor, Basic through Advanced Level Stroke Instruction. Please consult an adviser in the School of HP&R for specific course requirements.

Aquatics Specialization
The School of HP&R offers a group of aquatic-related courses that may be of interest to students who wish to receive instruction leading to various certifications offered by American Red Cross and the National Association of Underwater Instruction (NAUI). Any USM student is eligible to be certified in the Aquatics Specialization by successfully completing the following classes as prescribed by the School of HP&R: HPR 364, 460; either HPR 360 or 363; and seven (7) hours from the following: HPR 160, 163, 184, 300, 361, 363, 365, or 380.

HP&R Lifetime Fitness and Activity Instructional Program
The School of HP&R offers a variety of 100-300 level activity-based academic courses. Students have the opportunity to learn basic skills of lifetime sports, fitness, and leisure activities, which may be applied to on-campus or off-campus leisure time. The upper-level service courses offered are designed to provide in-depth skill development in a particular area of interest. These are available to all students and are offered for a grade or on a pass/fail basis.
Special Program Requirements

Students should follow the program outline in their specific major or emphasis. High school graduates and transfer students from community/junior colleges or other four-year colleges may be admitted to the School of HP&R in their chosen degree programs upon admission to the university. Students desiring to transfer from other schools or colleges within the university must be in good academic standing and possess a minimum GPA of 2.0 in order to be admitted to a degree program.

A number of programs within the School of HP&R must meet criteria of accrediting agencies and therefore may have additional admission and retention requirements above those of the university for formal admission into the School. Accreditation requirements supersede the program requirements listed in this Bulletin. Mandated changes in program requirements will be communicated through the student’s assigned academic adviser. It is School of HP&R policy to place all majors under the Bulletin year corresponding to the date the student declares his or her final HP&R major.

Students who wish to enter or are admitted to the School of HP&R must maintain a minimum cumulative GPA of 2.0 on all USM hours. Students whose GPAs fall below the minimum are placed on program probation. Policies governing academic probation are available from the school director.

Students must demonstrate proficiency (grade of C or better) in each HPR course required by their major/minor. Any major who earns a grade lower than a C must repeat the HPR course until proficiency is established. Specific program specialization areas may also have proficiency requirements above and beyond those previously discussed.

Athletic Training

Overview of Major

The Bachelor of Science degree program in Athletic Training is designed to provide students with a firm foundational base in the professional preparation for a career in Athletic Training. The Athletic Training Education Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). All Athletic Training majors must complete the 89 to 90 semester hour degree core as well as the university core requirements. Students who wish to pursue Athletic Training certification by the National Athletic Training Association Board of Certification (NATABOC) and Mississippi Athletic Training Licensure should complete courses in the Athletic Training academic major.

Career Opportunities

Upon successful completion of the academic degree in Athletic Training, the student is eligible to sit for the NATABOC national certification exam. Students who pass the NATABOC certification exam may be employed at various settings such as high school outreach programs, clinics, colleges and universities, professional sports, and industrial wellness centers.

Laboratories, Field Experiences, Internships, Practica

Clinical experiences are divided into four clinical courses (HPR 354L, 355L, 454L, and 455L). Students must complete one field experience course (HPR 472L). Students must accumulate a minimum of 225 hours of supervised clinical experience in laboratory/clinical courses each semester. Students must complete a total of 1,125 hours of supervised clinical experiences over the fall and spring semesters. Laboratory/practicum courses for supervised clinical experiences are offered only during the fall and spring semesters, not during the summer semester.

Special Program Requirements

Prior to admission to the Athletic Training degree program, all students must enter Pre-Athletic Training. All students entering the Pre-Athletic Training program directly from high school and all students transferring to Pre-Athletic Training are subject to the admission procedures and standards of the university. Admission to The University of Southern Mississippi as a major in Human Performance Pre-Athletic Training program does not ensure progression to the degree program in Athletic Training or upper division Athletic Training program courses. Freshmen and transfer students must complete Pre-Athletic Training requirements during their freshman/sophomore years for consideration for admission to the Athletic Training degree program. Pre-Athletic Training course work requirements for admission to the Athletic Training degree program include the
following:

A. HPR 219-Introduction to Athletic Training (100 hours of supervised observations by NATABOC Certified Athletic Trainer)
B. HPR 309-First Aid
C. PSY 110-General Psychology
D. CHS 101-Personal Wellness (Health)
E. BSC 250-Anatomy & Physiology I (with BSC 250L taken concurrently)
F. BSC 251-Anatomy & Physiology II (with BSC 251L taken concurrently)
G. NFS 362-Nutrition
H. CSC 100-Introduction to Computing

Students who have completed the course work prerequisites and observational requirements for admission to the Athletic Training degree program must also complete an application that can be obtained from the Athletic Training program director. The deadline for returning completed applications for fall admission is March 1.

Progression to the upper division Athletic Training courses shall be reserved for (a) students admitted to the Athletic Training degree program and (b) upper division students who receive instructor’s permission. The following are required for admission and progression to the Athletic Training program:

- Completed application form and letters of reference.
- Cumulative GPA of 2.80.
- Minimum grade of B in Pre-Athletic Training required course work.
- Observation and evaluation by HPR 219 clinical instructors (100 hours of supervised observational experiences).
- Submission of a complete physical examination by a physician or nurse practitioner, a TB skin test (or chest x-ray if positive), a current tetanus immunization (within 10 years), and a verification of Hepatitis B vaccination.
- All students admitted to the Athletic Training program are required to acquire liability insurance through The University of Southern Mississippi.
- Once in the program, all students must have a grade of B or better in all Athletic Training course work and maintain a cumulative GPA of 2.80.
- Students are not allowed to complete two clinicals in any one semester. Students must accumulate a minimum of 1,125 hours of supervised clinical experience in laboratory/practicum courses over fall and spring semesters. Laboratory/practicum courses for supervised clinical experiences are offered only during the fall and spring semesters, not during the summer semester.

**Double Major**

Students double majoring in Athletic Training and Community Health Sciences with an emphasis in School Health Education should review the general teacher education requirements in the Bulletin and refer to the Community Health Sciences degree plan.

**Community College Transfers**

Students who have attended a community college and have all the necessary prerequisite course work and observational requirements, may transfer directly into the Athletic Training degree program. Transfer students who have not completed pre-requisites prior to enrollment at USM must complete course work and admission requirements prior to admission. Students will not be admitted to the Athletic Training degree program unless all requirements and prerequisites are met. Transfer students should note that additional semesters may be needed to complete the Athletic Training degree program or additional course work in teacher education or a dual major. For additional information, transfer students should contact the Athletic Training program director in the fall semester prior to transferring.

**Academic Probation/Dismissal**

All students admitted to the Athletic Training degree program must adhere to the program retention policies as stated in the Athletic Training Policies & Procedure Manual and the Athletic Training...
Room Duties and Ethical Principles. The Athletic Training degree program requires that students be able to perform technical functions, physically and mentally, at a clinical setting. Therefore, students admitted to the Athletic Training degree program must be able to meet established technical standards or that they believe, with certain accommodations, they can meet the standards. Technical standards are available from the Athletic Training program director's office.

The following policies apply to all students admitted to the Athletic Training degree program:

A student may repeat any Athletic Training course one time depending on availability of space in the course.

A student who drops below a cumulative 2.80 GPA in the program will be placed on probation in the program for one semester. If the student does not obtain a cumulative 2.80 GPA during the probation semester, he/she will be dismissed from the program. The Athletic Training program director will send notification of dismissal from the program to the student.

Clinical settings and rotations require that students conduct themselves in a professional manner, including a strict professional dress code as established by the clinical site. In addition, lack of attendance, excessive tardiness, or the inability to fulfill technical standards, or function safely in a clinical setting is cause for dismissal from the program (see Athletic Training Room Duties and Ethical Principles & Athletic Training Policies & Procedure Manual).

Students who fail to maintain the required GPA, violate policies on established clinical site requirements, or violate codes of moral/ethical conduct will be dismissed from the Athletic Training program (see current policies in Athletic Training Policies & Procedure Manual and Code of Ethics of the National Athletic Trainers Association).

Students may elect to double major in Human Performance and Recreation and Community Health Sciences with emphases in School Health Education and Athletic Training.

Any student requesting readmission to the Athletic Training program must follow the appeal process as outlined in the current University Student Handbook.

Coaching and Sport Administration

Overview of Major

The Bachelor of Science degree program in Coaching and Sport Administration (CSA) offers professional preparation in basic sport administration with further specialization in Coaching. In addition to completing the university and college core, the student must complete a 15 semester hour degree core and the specialization courses in either Sport Administration or Coaching.

Career Opportunities

The Sport Administration specialization is designed to prepare students who seek careers in sports programming in private enterprise, municipal sport administration, professional athletic office operations, or college athletic administration. The Coaching specialization prepares students to work as coaches on school and professional coaching and athletic administration settings.

Laboratory and Field Experiences

All students in CSA are required to complete six hours of HPR 419 (practicum) that provides hands-on professional field experience.

Special Program Requirements

Students who wish to major in the Sport Administration specialization must declare a minor in business administration.

Students who wish to prepare to coach in the public schools in Mississippi must possess a Mississippi teaching license. Therefore, students should pursue a second major in a recognized secondary teacher education field. Students may elect to double major in Coaching and Sport Administration and Community Health Sciences with emphases in School Health Education and Coaching. Students interested in obtaining a Mississippi teaching license through an alternative route should contact the Mississippi State Department of Education for requirements.
Double Major
Students double majoring in Coaching and Sport Administration and Community Health Sciences with an emphasis in School Health Education should review the general teacher education requirements in this Bulletin and refer to the Community Health Sciences degree plan.

Requirements for a Minor in Coaching and Sport Administration
All students pursuing a minor in Coaching and Sport Administration must complete a minimum of 18 hours in CSA-related courses. The following courses are required for a minor in Coaching: HPR 273, 309, 419 (2 hours minimum), 468, 470, and six (6) semester hours of adviser-approved electives, including at least one coaching methods course. For Sport Administration, HPR 307, 405, 410, 419 (three hours), 468, and at least one adviser-approved elective (three hours) must be taken.

Human Performance
Overview of the Major
The Bachelor of Science degree program in Human Performance is designed to provide students with a foundation theory base in the movement sciences. Additionally, the program offers professional preparation in three areas of Human Performance: Exercise Science, Kinesiotherapy, and Physical Education (K-12 Teacher Licensure). All Human Performance majors must complete a 20 to 29 semester hour degree core as well as the university core requirements. Majors also must select one of the three specializations and complete course requirements specific to the emphasis or specialization selected.

Exercise Science
Career Opportunities
The Exercise Science specialization prepares students who are seeking careers as Fitness Instructors in either corporate health promotion or medical settings. Students interested in pursuing careers in Exercise Science should select the Sports Medicine emphasis within the degree program. Within this emphasis, students are required to take 20 semester hours in Sports Medicine-related course offerings.

Laboratory and Field Experiences
All Exercise Science students are required to take HPR 302 (Techniques of Evaluating Fitness) and HPR 308L, the Lab component of Exercise Physiology (308). Students must also complete 9-12 hours of a supervised internship.

Special Program Requirements
Students specializing in Exercise Science are highly encouraged to complete CHE 106, 106L; BSC 250, 250L; 251, 251L; and one of CHE 107, 107L; CHE 251, 251L; or BSC 110, 110L, early in their program since these courses are prerequisites for many major courses.

All students entering the School of HP&R are subject to the admission procedures and standards of the university. Admission to the School HP&R at The University of Southern Mississippi, however, does not ensure progression to the upper division Exercise Science specialization. Initially, students are admitted to the Pre-Exercise Science program. An application to the Exercise Science specialization may be submitted when a student has successfully completed all of the following:

- A cumulative GPA of 2.0 or above
- A grade of C or better in the following courses:
  - CHE 106, 106L
  - CHE 107, 107L; or CHE 251, 251L; or BSC 110, 110L
  - BSC 250, 250L, BSC 251, 251L
  - NFS 362 or NFS 367
  - HPR 202

The following progression policies apply to all students admitted to the B.S. in Human Performance Exercise Science specialization:

- A minimum cumulative GPA of 2.0 must be maintained
A grade of C or better must be achieved in all HPR core and specialization courses.

**Academic Probation/Dismissal**

The following policies apply to all students admitted to the B.S. in Human Performance Exercise Science specialization:

- A student not maintaining a cumulative GPA of 2.0 will be placed on program probation.
- A student earning a grade of less than C in a HPR core or specialization course will be placed on program probation.
- A student on program probation earning a grade of less than C in a HPR core or specialization course that is being repeated will be dismissed from the program.
- A student on academic probation who fails to achieve a cumulative GPA of 2.0 will be dismissed from the Exercise Science program.
- A student who violates university/professional codes of moral/ethical conduct will be dismissed from the Exercise Science program.

**K-12 Physical Education**

**Career Opportunities**

Traditionally, the teaching specialty of Physical Education has been practiced by physical educators working with school-aged children in school-based settings or with adults in post-secondary institutional settings. Physical Education teaching specialists are now applying pedagogical skills in non-traditional instructional settings such as sport specific community-based or residential institutions, correctional facilities, sport camps, and other youth organizations.

**Laboratories, Field Experiences, Internships, Practica**

The K-12 Physical Education specialization provides professional education undergraduates with practicum and laboratory experiences through HPR 210 and HPR 462L, respectively. The practicum/laboratory experiences are designed to progressively guide candidates toward becoming competent practitioners. HPR 490/491 provide each preservice teacher with student teaching experience at two levels: elementary and middle/high school. Before a student is allowed to enroll in student teaching, he/she must have a minimum degree GPA of 2.5 (students must also have a C or better in all HP&R major and professional education course requirements).

**Special Program Requirements**

Students interested in pursuing careers in the instruction of Physical Education in both school and non-school settings should select the Physical Education emphasis within the degree program. All students in this emphasis must complete the Physical Education Core, twenty-two semester hours, and selected courses to meet the requirements of either Teacher Licensure or Kinesiotherapy registration. Those students who wish to seek Standard Mississippi K-12 Physical Education Teacher Licensure must follow prescribed courses listed in the K-12 Teaching specialization. Upon successful completion of all degree requirements, students will meet all course requirements necessary for application of Standard Mississippi Teacher Licensure (K-12 Physical Education) and will be immediately eligible to teach elementary and/or secondary level Physical Education in schools within Mississippi and in many states throughout the United States.

All students seeking K-12 Physical Education specialization must request formal application to the Professional Education Program through the Dean’s Office, College of Education and Psychology. The following criteria must be met before formal application to Professional Education:

- A student must have a 2.5 GPA on forty-four specified hours of the university core curriculum with an average grade of C or better in freshman English courses.
- A student must meet minimum score criterion set by the Mississippi State Department of Education on the PRAXIS I examination or the ACT.
- A student must meet minimum score criterion on the Basic Technology Literacy Examination.

Having met the above requirements, students are admitted to the Professional Education Program in the College of Education and Psychology and are allowed to register for HPR 462, HPR 462L, HPR 463, REF 400, REF 469, and SPE 400.

**Requirements for a Minor in Physical Education**

All students pursuing Mississippi add-on endorsement in Physical Education to their secondary education programs must complete the following coursework:

- A grade of C or better must be achieved in all HPR core and specialization courses.
education standard licensure must complete 18 hours in Human Performance courses.

All students pursuing a minor in Physical Education must complete 18 hours.

The following courses are required: HPR 314, 320, and 326. The remaining three courses (not including concurrent labs) should be selected from HPR 308/308L, 401, 404, or 301/301L.

**Kinesiotherapy**

**Career Opportunities**

Current employment settings and duties of program graduates for Registered Kinesiotherapists are in Department of Veterans Affairs Medical Centers, public and private hospitals, sports medicine facilities, rehabilitation facilities, learning disability centers, schools, colleges and universities, private practice and as exercise consultants. The types of treatments carried out by kinesiotherapists focus on, but are not limited to therapeutic exercise, ambulation training, geriatric rehabilitation, aquatic therapy, prosthetic/orthotic rehabilitation, psychiatric rehabilitation, and driver training.

**Laboratories, Field Experiences, Internships, Practica**

Upon completion of all course requirements, students must complete two semesters (THY 460 and THY 470) of clinical internships in various rehabilitation and wellness centers. Students must register for THY 421 concurrently with each internship.

**Special Program Requirements**

Students seeking careers in adaptive physical education or rehabilitation settings (public and private) should complete courses in the Kinesiotherapy specialization. Upon successful completion of course work, these graduates are eligible for the Kinesiotherapy Registration Examination by the Council on Professional Standards for Kinesiotherapy (COPSKT-registration).

All students seeking Kinesiotherapy specialization must meet all admission requirements for the university and the School of HP&R. Second-level admission to the Kinesiotherapy specialization will be required in order for students to enroll in upper-level specialization requirements and complete all internships. Initially, students are admitted to the Pre-Kinesiotherapy specialization. Admission to the Pre-Kinesiotherapy specialization, however, does not ensure progression to the Kinesiotherapy specialization. An application to second-level admission into the Kinesiotherapy specialization may be submitted when a student has successfully completed the following:

- BSC 250, 250L and BSC 251, 251L with a minimum of C in each course.
- A degree program GPA of 2.8 or above.
- THY 411, HPR 105, HPR 148, HPR 205L, HPR 218, HPR 301, 301L, HPR 303, HPR 308, 308L, HPR 309, HPR 370, HPR 401, and HPR 404 with a minimum of C in each course.

The number of students admitted each semester will vary according to the resources available. Academic credit for life and previous work experiences will not be granted in lieu of internships or any other required Kinesiotherapy course.

The following progression policies apply to all students admitted to the Kinesiotherapy specialization:

- A minimum of C in all HPR, PSY, BSC, and THY courses.
- A student who drops below a 2.8 GPA in the degree program will be placed on probation for one semester. If a 2.8 GPA is not obtained after completion of the probation semester, he/she will be dismissed from the program.
- A student dismissed from the program may submit a written petition to the director of Kinesiotherapy for consideration for readmission to the program.

**Recreation**

**Overview of the Major**

The Bachelor of Science degree program in Recreation offers professional preparation in two distinct areas of recreation: Recreation Administration and Therapeutic Recreation. All Recreation majors must complete a 39-to-42 hour degree core as well as the University core requirements. Majors must also select one of the two emphases and complete course requirements specific to the emphasis.
Career Opportunities
The Recreation Administration emphasis is designed to prepare students for professional employment in a variety of recreational settings, including community-based, commercial, or outdoor recreation and park management. Students graduating from this program are immediately eligible to take the Certified Park & Recreation Professional (CPRP) examination and apply for certification. The Therapeutic Recreation emphasis is designed to prepare students for professional positions as Therapeutic Recreation specialists in a variety of settings. Therapeutic Recreation Specialists may work with individuals with physical, mental, emotional, or social limitations in either hospital, residential, or community-based settings. The Bachelor of Science degree in Recreation with an emphasis in Therapeutic Recreation prepares students to sit for the new national certification exam offered by the National Council for Therapeutic Recreation Certification (NCTRC).

Laboratories, Field Experiences, Internships and Practica
All students in Recreation (Recreation Administration and Therapeutic Recreation) are required to enroll in three hours of HPR 210 (Practicum) and 9-12 hours of HPR 495 (Internship). The Practica are taken on three occasions over three separate semesters for one hour credit each. The Practicum is a forty-hour per semester field experience that provides the student the opportunity to learn through observation, practice new skills, and develop an appreciation for the profession. The internship is the culminating experience for all students in Recreation, and is taken after all course work has been completed. The internship is a 10-12 week (minimum) full time field work experience in which students are provided the opportunity to apply theory to practice and begin the process of developing and shaping their skills.

Special Program Requirements
- 2.0 cumulative GPA for admission
- Students must have a 2.2 cumulative GPA to begin internship

Requirements for a Minor in Recreation
All students pursuing a minor in Recreation must complete 18 hours in Recreation-related HPR courses. The following courses are required: HPR 200, 322, and 323. The remaining nine hours may be selected from approved electives following consultation with a Recreation adviser.

School of Social Work
Michael Forster, Director, School of Social Work and Coordinator, Master of Social Work Program
Timothy Rehner, Assistant Director, School of Social Work and Coordinator, Baccalaureate of Social Work Program
Hattiesburg, MS 39406-5114
(601) 266-4163
Bethel, Belton, Bohanon, Brooks, Davis, Forster, Hrostowski, Kolbo, Rehner, Rowley, Scarfield, Williams

The School of Social Work offers the Baccalaureate of Social Work (BSW) degree. The degree prepares students for generalist social work practice at the entry level within the social work profession. BSW students, while acquiring the knowledge, values, and skills needed to practice social work in any social service agency, are prepared to practice within the context of Mississippi, a state characterized by limited social welfare safety nets and scarce public resources. BSW students are prepared to improve the interactions between individuals (especially those who are members of vulnerable populations) and their social environment as well as to advocate for social changes that would remove institutional barriers that prevent individuals from full social participation.

The USM School of Social Work’s Baccalaureate of Social Work (BSW) program is accredited by the Council on Social Work Education. The program has been accredited continuously since February of 1996, retroactive to 1992.

Offerings for Non-Majors
A number of courses offered within the School of Social Work do not have prerequisites and are excellent choices for electives. Additionally, these courses are prerequisites to application to the BSW program and are classified as pre-social work courses.
Overview of Major
The Social Work curriculum builds upon a liberal arts foundation through which students develop core competencies. Students are required to have a solid background in the social and behavioral sciences, including theories of individual development, group processes, and organizational behavior. The BSW program teaches students the knowledge, values, and skills necessary for effectively working with individuals, families, groups, organizations, and communities.

Students begin the BSW program by taking 9 hours of prerequisite course work (SWK 200, SWK 300, SWK 315). During the pre-social work semesters, students apply to the BSW program. Subsequent to an admission process, a cohort of students is selected from the applicant pool. A new cohort of social work students begins the BSW program each fall and spring semester. Once students are accepted into the BSW program they must complete three semesters of course work followed by a senior field practicum capstone course requiring a minimum of 450 hours of supervised practice within an approved human service agency. Each student intern is supervised by a licensed master’s level social worker.

Career Opportunities
Once graduates of the BSW program pass the state mandated licensure exam they are recruited by human service organizations within the region and across the state. Although the following is not an exhaustive list, alumni are employed in hospitals and mental health centers, schools, children and family services, addictions programs, youth courts, and correctional facilities. Many BSW alumni also pursue the Master of Social Work degree at USM or other graduate programs. BSW graduates may be eligible for admission to USM’s Advanced Standing Master of Social Work program.

Field Experiences and Practicums
BSW students are required to complete one 40-hour volunteer service learning experience as part of the SWK 230 course (Introduction to Social Work). The volunteer service experience must be approved by the instructor of the course and must have a licensed social worker as a supervisor.

The final integrative senior practicum requires students to work 450 hours in a human service agency approved by the field coordinator of the school. Students work under the supervision of a licensed master’s level social worker, applying the generalist problem solving method to their work with individuals, families, groups, organizations, and communities. Students also attend a weekly three hour seminar that requires them to demonstrate, through written and oral presentations, the mastery of content related to their social work practice.

Special Program Requirements
A limited number of students are accepted into the program each semester. The following admission standards must be met by all applicants to the BSW program.

- Complete at least 70 hours of the School of Social Work’s, the College of Health and Human Sciences’, and university’s core requirements.
- Earn grades of C or above in all university core required courses (including transfer courses) used to meet the Social Work degree requirements.
- Maintain an overall GPA and USM GPA of 2.5 or above.
- Complete successfully the 40 hours of volunteer experience (a requirement of SWK 230).
- Participate in an interview with the BSW Program’s Admission Committee.

The following progression policies apply for all students accepted into the BSW program.

- Maintain an overall GPA and USM GPA of at least 2.5 (The minimum GPA is required for acceptance into the senior practicum).
- Earn grades of at least C or higher in the BSW program with the exception of the senior seminar where students must at least earn a B.
- Adhere to the standards of conduct specified in the Social Work Code of Ethics.
- Complete the senior practicum (450 clock hours) in an agency setting designated by the
The Center for Community Health offers an undergraduate degree in Community Health Sciences, with emphases in Health Promotion and School Health Education. Both emphases provide students with knowledge and skills necessary to successfully function in the selected area. Within each area, students are prepared to enhance the health of individuals and community organizations, including hospitals, health clinics, health departments, and schools. A student may elect to double major in Community Health Sciences and Human Performance and Recreation by choosing one of the following: School Health Education and Coaching or School Health Education and Athletic Training.

The Center for Community Health is currently in the process of seeking undergraduate approval from the conjoint committee of the Society for Public Health (SOPHE) and American Association for Health Education (AAHE). The SOPHE/AAHE Baccalaureate Program Approval Committee (SABPAC) is a voluntary credential for undergraduate professional programs in health education. This approval is recognized by the profession as a standard for entry-level health education preparation programs.

**Offerings for Non-Majors**

A number of courses offered within the Center for Community Health do not have prerequisites and are excellent choices for electives

- CHS 101 (Personal Wellness)
- CHS 430 (Human Sexuality)
- CHS 436 (Stress Management)

Students may receive a minor in Community Health Sciences (18 hours) or Health Policy and Administration (18 hours).

**Degree Descriptions**

**Overview of Major**

Students receiving the degree in Community Health Sciences are required to complete emphasis area coursework in addition to the general education core. Students must choose one of the following emphasis areas:

- Health Promotion
- School Health Education

A student may elect to double major in Community Health Sciences and Human Performance and Recreation by choosing one of the following:

- School Health Education and Coaching
- School Health Education and Athletic Training

Students in the Health Promotion emphasis will acquire a broad knowledge of community health through courses pertaining to personal wellness, contemporary health issues, community program planning and evaluation, health policy and administration, and social and behavioral psychology. Students in School Health Education receive a sound knowledge base in school health issues, curriculum development, educational, child, and adolescent psychology, testing and measurement, and teaching methodology. The School Health Education and Coaching double major prepares students to teach health and coach school sports. Students in this double major complete the same as listed for school health education plus coaching-related courses, including organization and administration of sport programs, psychology and sociology of human performance, prevention and care of athletic injuries, exercise physiology, and coaching methodology. Students in School Health Education and Athletic Training double major complete the school health education requirements...
plus courses in kinesiology, exercise physiology, athletic training, biomechanics, and development of strength and conditioning programs.

**Career Opportunities**

Students receiving a degree in Health Promotion work in a variety of health-related settings, including hospitals, health clinics, health departments, nursing homes, assisted living communities, and community outreach organizations. Students in School Health Education, Health Education and Coaching, and Health Education and Athletic Training will work in public or private school settings as classroom teachers and, as indicated, as coaches or athletic trainers.

**Field Experience/Practicum**

Students in the Health Promotion emphasis are required to complete a 200-hour practicum at an approved health-related facility. In the practicum, students will observe and participate in daily activities under the direction of a facility preceptor. Students in the School Health Education emphasis, Health Education and Coaching, and Health Education and Athletic Training double majors are required to complete a semester of student teaching. They must report and serve as regular classroom teachers and, as required by state guidelines, teach at least three health classes per day.

**Special Program Requirements**

Students interested in Community Health Sciences should choose one of the emphasis areas or double majors after discussing each with an academic adviser.

The following are requirements for a degree in Community Health Sciences:

- Cumulative GPA of 2.5 to be admitted into the program
- Cumulative GPA of 2.5 before taking CHS 408, 411, 412, 409, 415
- Grade of C or better in all courses required for the major area of study

Students pursuing the School Health Education emphasis or a double major in School Health Education and Coaching or School Health Education and Athletic Training must have a 2.5 GPA in the General Education Core at the completion of all degree requirements.

Students pursuing the School Health Education emphasis or a double major in School Health Education and Coaching or School Health Education and Athletic Training must pass PRAXIS I and the Technology Literacy Exam before being admitted into teaching education courses and pass PRAXIS II prior to applying for the teaching certificate. The student should review general teacher education requirements in this Bulletin.

**Requirements for a Minor in Community Health Sciences**

Community Health Sciences offers two minors:

- Community Health Sciences - Students must complete a minimum of 18 hours including CHS 101, 210, and 409.
- Health Policy and Administration - Students must complete CHS 321, 412, 420, 425, 427, and 460.

**Department of Hospitality Management**

Dr. Joe C. Hutchinson, Chair
James Taylor, Associate Chair (Hattiesburg)
Hattiesburg, MS 39406-5176
(601) 266-6762
Ernie Wilson, Associate Chair (Gulf Coast)
Long Beach, MS 39560-2699
(228) 214-3226

**Hallab, Hutchinson, Price, Ruetzler, Taylor, Wilson**

The Department of Hospitality Management offers a Bachelor of Science degree in Hospitality Management that prepares students for exciting careers in hotel, restaurant and tourism management and can be completed on both the Hattiesburg and Gulf Park campuses.

**Offerings for Non-Majors**

A number of courses offered within the Department of Hospitality Management do not have prerequisites and are excellent choices for electives.
HM 100 (Introduction to Hospitality Management)
HM 283 (Introduction to Travel and Tourism)
HM 345 (Quality Service Management in the Hospitality Industry)
HM 375 (Beverage Management)
HM 385 (Introduction to the Convention Industry)

Students may receive a minor in Hospitality Management (21 hours).

**Hospitality Management**

**Overview of Major**

The Hospitality Management program offers a wide range of courses that lead students along their career path. Areas of industry emphasis include lodging, food and beverage, tourism or convention and event management. This industry focus is balanced with general education and business management courses. Courses integrate classroom lectures with case studies, computer assignments, guest lectures, and field trips.

**Career Opportunities**

The Bachelor of Science degree in Hospitality Management will prepare students for an exciting career in hotel, restaurant, and tourism management. Management positions in this field have become more challenging and employers value professionals who are better educated and better trained. Most graduates begin with excellent starting salaries and benefit packages as entry-level managers of leading hospitality organizations.

**Laboratories, Field Experiences, Internships, Practica**

Valuable experience is gained through required work experiences and internships. Students have the opportunity to blend their classroom knowledge with hands-on learning experiences in hotels, restaurants, private clubs, convention centers, convention and visitor bureaus, tourist attractions, and travel and tour operations. Students also work in the Charcoal Room, a fine dining restaurant laboratory located on the Hattiesburg campus. This opportunity allows the blending of experience and knowledge that is necessary for a successful career in hospitality management.

**Special Program Requirements**

In addition to all other university and major course requirements, the student must achieve a cumulative GPA of 2.5 in the Hospitality Management major and elective course requirements.

**Transfer Credit Requirements**

Equivalent hotel, restaurant, or tourism courses will be transferred based on the recommendation of Hospitality Management faculty advisers.

A minimum of 33 hours of Hospitality Management courses must be completed at USM to complete the requirement for a bachelor's degree in Hospitality Management.

**Second Degree Requirements**

A minimum of 33 credit hours must be completed at USM to complete the requirements for a second degree in Hospitality Management.

Courses are to be chosen with the advice of Hospitality Management faculty advisers.

**Requirements for a Minor in Hospitality Management**

A minor in Hospitality Management shall consist of a minimum of 21 hours. The student is to complete 15 hours of Hospitality Management required courses and 6 hours of Hospitality Management electives. These courses are to be chosen with the advice of Hospitality Management faculty advisers.

The mission of the College of International and Continuing Education is fourfold. First, to prepare individuals for the opportunity of entering the workplace in the professional and applied academic fields of geography, geographic techniques, and community planning. Second, to serve as liaison between the university’s academic programs and the community at large through continuing education. Third, to coordinate international admissions and student services, and administer the university’s extensive study-abroad programs. And fourth, to provide intensive English instruction for international students.

The college is operationally divided into the Department of Geography, the Department of Economic Development and Planning, the Center for International Education, and the Department of Continuing Education and Distributed Learning.

## Academic Programs

The following college and university core requirements must be completed for the Bachelor of Arts and Bachelor of Science degrees in either geography or planning.

Standards for Admission and Transfer
High school graduates and transfer students from other accredited colleges or universities may be admitted directly to the college and to their chosen major program. Students desiring to transfer to the college from another college within the university must be in good academic standing; normally they must present a minimum GPA of 2.0 in order to be admitted to a major program. Students entering the college will be assigned to an appropriate faculty member for academic advisement.

Foreign Language Requirements
The Bachelor of Arts degree offered by the college requires proficiency in a foreign language, to be chosen from among those offered by the Department of Foreign Languages and Literatures. Normally twelve (12) hours of beginning and intermediate foreign language instruction are required, through course level 202. Students are encouraged to begin their study of foreign language during the first semester of their freshman year and to participate in an overseas immersion experience.

Students with previous experience in languages (such as courses from high school or community college) may satisfy this requirement through advanced placement in as few as six hours (course level 201, 202). Course credit for previous work in language may be acquired through the CLEP examination; for details contact the Department of Foreign Languages (266-4964) or the CLEP officer in Admissions (266-4508). With approval of the department chair and the dean, international students may use their native language as an exemption from this requirement.

The college makes full use of the Advisement Registration Transcript in advising. The college believes that the contact between student and adviser is a vital one, and the Advisement Registration Transcript facilitates maximum usage of these hours spent together in conference. The university and college core requirements are listed above; requirements for the major, minor, and electives are listed under the two academic programs outlined below. It is Department of Economic Development and Planning and Department of Geography policy to place all majors under the Bulletin year corresponding to the date the student declares his or her final major in the departments.

Career opportunities in area studies, historical-cultural geography, human resources analysis, environmental studies, landscape ecology, cartography, computer mapping, geographic information systems, remote sensing, and teaching are available through several professional degree programs. An emphasis area as well as a certificate program in Geographic Information Technology are also available, requirements for which are listed in a separate section of the Bulletin. The department’s undergraduate programs support the Planning major, as well as provide preparatory work for professional positions in economic and industrial development where a master’s degree may be required. Consult the Graduate Bulletin for information on graduate programs in both economic development and geography.

Undergraduate courses in geography may be categorized as follows: regional (400 through 408 sequence), techniques (410 through 419), and topical (remaining courses numbered above 300).

Students entering the Department of Geography will major in one of two degree-granting programs offered through the department. These include

Bachelor of Arts and Bachelor of Science in Geography
Geography Program
A student majoring in geography will work toward the Bachelor of Arts or Science degree. The student, working closely with an adviser, will tailor the course work to fit his or her career goal. All students pursuing a major in geography must complete the following requirements, which include a minimum of thirty-six (36) hours in the department and a minor or related electives:

Teacher Licensure
Students seeking teacher certification in geography should do so through the Department of History, which offers a certification program in social studies. Such students may wish to pursue a double major in history and geography.

Requirements for an Emphasis in Geographic Information Technology
This is an emphasis area within the BS/BA degree programs and prepares students for professional employment or graduate study in fields applying computerized methods of geographic data analysis. Majors emphasizing cartography, remotely sensed image interpretation, and Geographic Information Systems (GIS) will meet Federal Civil Service Commission qualification standards under the job title Cartographer. These same standards also qualify graduates for entry into the job market wherever geographic information is being used in the public or private sector.

Requirements for a Certificate in Geographic Information
The Certificate in Geographic Information is a professional curriculum that prepares students to employ geographic information effectively for solution of problems in many fields. The certificate program is open to both resident degree candidates and practitioners who need to update and formalize their knowledge pertaining to use of geographic information and who comply with either traditional or nontraditional admission requirements of the university as specified elsewhere in this Bulletin. Students may complete the certificate program with or without being admitted to a specific degree program. Students must declare their intent to complete the certificate program in a letter to the Department of Geography before completing six (6) credit hours of the courses required for the Certificate.

To earn the Certificate, students are required to complete (1) a minimum of 15 credit hours from GHY 410, 411, 412, 416, 417, 418 (and their accompanying laboratory sections), 419 and (2) a directed individual project for one (1) credit hour of GHY 494, all with grades of B or better. These courses may be taken by the student as part of a degree major or minor or as a suite of electives. Students may complete the certificate curriculum by taking the courses in any combination of either physical or virtual classrooms.
Requirements for a Minor in Geography

Students minoring in geography must complete eighteen (18) hours including GHY 101 or 102. Six (6) hours should be taken from two of the following three groups of courses: regional (400 through 409), techniques (410 through 417), or topical (remaining courses numbered 300 and above). The remaining nine (9) hours can be chosen from courses numbered 300 and above.

The Community Planning and Development Program

The purpose of the program is to develop versatile professional planners with skills and knowledge applicable in both the public and private sectors. The interdisciplinary curriculum provides an understanding of the various factors and processes that impact community growth and change, including economic, social, and environmental factors. In addition to developing critical analytical skills, the design of the program allows for development of applied technical skills. Each student also gains practical experience during a professional internship. For those students seeking to pursue advanced studies, the program provides preparation for a variety of graduate and professional schools.

Students who are interested in community planning and development but do not elect to complete the major may choose to minor in the area or complete a certificate program. The certificate program enables students from any discipline to develop a specialty in one of the following aspects of community planning and development: land development and planning, tourism planning and development, and environmental planning and policy.

Requirements for a Major in Community Planning and Development

A student majoring in Community Planning and Development will work toward a Bachelor of Arts or Science degree. The student will work closely with an adviser to tailor a program to meet his or her career goals. All students pursuing a major in Community Planning and Development must complete the following requirements:

Depending on the student’s interest, six or more courses should be selected to complete a minor in an appropriate area (examples include political science, environmental sciences, international studies, economics, geography, and tourism management). Students may also complete a certificate program as described in the following section.

Requirements for a Minor in Community Planning and Development

To obtain a minor in Community Planning and Development, the students must complete eighteen
(18) hours of planning and related courses. PLG 360 and PLG 465 must be included.

Requirements for a Certificate Program
The certificate program is open to any USM student, regardless of major. Each certificate requires fifteen hours of course credits in a specialty area. An application can be obtained from the Community Planning and Development program director.

Land Development and Planning Certificate
The development of land and the amount and pattern of urban growth is influenced by many factors, including how government organizations approach the land use planning process. This certificate program provides an understanding of the relationships between urban growth and the land development planning process, including the various tools and techniques used in planning and development. The certificate would benefit those wishing to learn more about the impacts of public-sector planning policies and practices on the private-sector property development process.

Required courses:
PLG 360 Introduction to Community Planning and Development
PLG 461 Planning and Development Law
PLG 464 Physical Infrastructure for Planning and Development
PLG 465 Land Use Planning and Policy
REI 330 Real Estate Principles

Environmental Planning and Policy Certificate
How are environmental choices made? What tools, techniques, and ways of thinking provide insight into the debates surrounding environmental issues? The course work in this program focuses on these and other questions concerning the dynamics between natural and human systems. Whatever the student’s major or profession, environmental issues are impacting many aspects of daily life—whether real estate development, public administration, tourism development, construction technology, or community planning, chances are that environmental laws, issues, or policies will be a concern.

Required courses:
PLG 462 Environmental Planning and Policy
PLG 461 Planning and Development Law or CJ 431 Environmental Law
ESC 301 Living in the Environment

Electives: Select two depending on interests
PHI 437 Environmental Ethics
BIO 436/L Conservation Biology
GHY 370 Conservation of Natural Resources
ESC 405 Environmental Impact Statements
GLY 304 Environmental Geology (also taught in Jamaica)
PLG 360 Introduction to Community Planning and Development

Tourism Planning and Development Certificate
Tourism and related activities are among the largest industries in the world. This program is designed to give participants interdisciplinary training in the many facets of planning and developing tourism. Courses provide insight into the role and interaction of the public and private sectors in tourism. Five courses must be completed:
PLG 360 Introduction to Community Planning and Development
PLG 466 Economic Development Seminar in Tourism Planning and Development or
HRT 483 Dimensions of Tourism
ANT 437 Archaeology and Public Policy (includes management of cultural resources) or
HPR 447 Interpretation of Cultural and Natural Resources

Electives: Select two depending on interests
PLG 462 Environmental Planning
GHY 489 Caribbean Studies (taught in Jamaica, includes tourism development, and eco-tourism)
HRT 490 International Studies in Hotel, Restaurant, and Tourism Management (taught in the British Isles)
HRT 494 Tourism Destination Development

The Center for International Education administers all programs bringing international students to USM and coordinates all programs sending USM students abroad for academic credit. In addition, the center strives to promote a spirit of internationalism on the USM campuses; to assist academic departments in the internationalization of curriculum; to encourage student, faculty, and library development in the international sphere; and to assist business and government in projects of an international nature.

The center is comprised of three components: the English Language Institute, the Office of International Student Affairs, and the Office of International Programs.

English Language Institute

Audrey D. Blackwell, Director
Box 5065
Hattiesburg, MS 39406-5065
U.S.A.
(601) 266-4337
FAX (601) 266-5723
E-mail: eli@usm.edu
Web site: www.eli.usm.edu

The English Language Institute (ELI) delivers intensive English instruction for international students. The program, which accommodates students from beginning to advanced language proficiency, is attended by students from every major continent.

The ELI fosters cross-cultural awareness within the university and the community by offering ELI students opportunities of interaction with native English speakers, both on and off campus.

Founded in 1947, it is among the oldest language institutes in the United States.

Office of International Student Affairs

Barbara Whitt Jackson, Director
Box 5151
Hattiesburg, MS 39406-5151
U.S.A.
(601) 266-4841
FAX (601) 266-5839
Web site: www.isa.usm.edu
E-mail: isa@usm.edu

The Office of International Student Affairs (ISA) coordinates all facets of international admissions and student/scholar services. The ISA provides counseling on immigration regulations, personal matters, and culture shock and adjustment, as well as some academic counseling in conjunction with the various departments. The office processes all international applications, evaluates foreign academic credentials, and issues the appropriate immigration documents for the non-immigrant
foreign student. Multicultural programming for the international students and the community is also coordinated by the ISA.

The ISA Office disseminates USM information to foreign schools, U.S. embassies and consulates abroad, and nonprofit international organizations such as the Institute for International Education.

This office also provides information to and immigration documents for research scholars invited by various USM departments to participate in limited research opportunities.

Office of International Programs

Susan Steen, Director

FAX (601) 266-5699

The Office of International Programs administers a variety of programs providing USM students both long-term and short-term opportunities to study abroad for academic credit. Short-term programs offering regular USM academic credit include the following:

The British Studies Program, a summer term in London in which USM functions as the academic and logistical linchpin for a consortium comprised of The University of Memphis, Hinds Community College, Midwestern State University, Texas A&M University–Commerce, The University of Louisiana–Monroe, Southeastern Louisiana University, Mississippi College, Henderson State University, Cameron University, and the College of Charleston.

The Austrian Studies Program in Vienna, Austria
The Australian Studies Program, Australia and New Zealand
The Caribbean Studies Program in Jamaica
The Cuban Studies Program in Havana and Varadero, Cuba
The Irish Studies Program
The Spanish Language Program in Cholula, Mexico
The Spanish Language Program in Madrid and Nerja, Spain

Other academic study-abroad programs coordinated by this office are

Semester- and year-abroad exchanges:
- Ecole Supérieure du Commerce Extérieur, France
- Exeter University, England
- Université de Perpignan, France
- Keele University, Stoke-on-Trent, England
- Macquarie University, Sydney, Australia
- University of Alcalá de Henares, Madrid, Spain

The Department of Continuing Education and Distributed Learning (CEDL) functions to complement The University of Southern Mississippi’s overall mission of teaching, research, and service. By serving as liaison between the university and the community at large, the department extends access to the educational programs of the institution through multiple delivery systems to individuals at various stages of their lives and careers for intellectual, professional, social, and cultural advancement.

CEDL acts in partnership with the academic colleges to link faculty expertise and resources with the needs of the university’s clients and constituencies. In this role, CEDL serves as an agent for opportunity, innovation, and quality.

The Department of Continuing Education and Distributed Learning accomplishes its mission by distributing educational opportunities in settings and formats that broaden the university’s traditional modes of delivery.

Credit and Distributed Learning: The Office of Credit Programming and Distributed Learning has the responsibility of coordinating and administering all credit intensive weekend, intersession, and extension courses. Included are courses available on the Internet and select courses using compressed interactive video. Courses offered through this office are the result of collaborative relationships with the university’s academic departments. In addition, academic courses may be arranged in a format and location to meet the specific needs of governmental, business, industrial, and educational groups.

Through independent (correspondence) study, a student may earn up to 32 hours of undergraduate university credit or one complete unit of high school credit. Independent study allows the student to earn credit through the advantages of home study. These courses are particularly suited to the needs of the student who is unable to attend the university on a regular schedule.

Marketing and Professional Development: The Office of Marketing and Professional Development is responsible for a diversity of programming that serves to address the educational needs of the community. Through market research and awareness efforts, this office seeks to identify the educational needs of professionals, paraprofessionals, and those making career changes. This office coordinates and administers the logistical details for conferences, institutes, workshops and training programs whether on-site or via the Internet. Additionally, this office provides convention and annual meeting coordination assistance to professional associations, fraternal organizations, and other education groups. The Listener’s License Program, administered through this office, enables individuals to utilize university resources by observation within the academic class setting on a nonparticipating basis. This office also oversees the approval and awarding of Continuing Education Units (CEU) offered by the university. The CEU is a nationally recognized unit of measure for noncredit continuing education programs. It is designed to document learning experiences that are valid in their own right, but differ from experiences for which academic credits are traditionally awarded.

Institute for Learning in Retirement. The Institute for Learning in Retirement is an association of active women and men, 50 years of age or older, who seek to explore stimulating learning experiences while developing new friendships.

In this world of change and complexity, the Institute brings insight and perspective to interested—and interesting—adults who wish to pursue activities of the mind in an informal and supportive environment.

The institute’s program recognizes that a growing number of adults are adventuresome, active, and intellectually curious. The cornerstone is peer-learning and shared responsibility. The strength of the program is that it is self-directed and run for and by the members. It draws on members’ talents and experiences as instructors, facilitators, and leaders.

Mission and Organization

The College of Liberal Arts offers a wide range of academic majors in communication, the humanities, social sciences, and related disciplines. All major programs in the College award the Bachelor of Arts (B.A.) degree.

As the chart of academic offerings on the previous pages shows, the College of Liberal Arts is organized into two schools and eleven departments, plus several interdisciplinary programs. In the sections below, the two schools, Library and Information Science and Mass Communication and Journalism, are presented first, with the constituent departments and programs of the School of Mass Communication and Journalism listed there. Then follow the remaining units in alphabetical order.

The collegiate general curriculum is listed below; this core curriculum is the foundation upon which a liberal education is based, encouraging students to think logically and creatively, communicate effectively, and write clearly. These are skills essential to any modern professional career. At the same time, students enrolled in the College of Liberal Arts are prepared in a special field of expertise, with a major and (usually) a minor, allowing a wide choice of career fields.

General Education Requirements for the Bachelor of Arts Degree in the College of Liberal Arts

I. Written and Oral Communication (12 hours)
   ENG 101, 102
   SCM 111, 305, 320, or 330
   Computer Literacy: LIS 201 or another course approved by the major department.

II. Basic Science and Mathematics (11 hours)
   MAT 101 or higher
   Recommended courses include: AST 111/111L, BSC 103/103L, CHE 104/104L,
   GLY 101/101L, PSC 190/190L; but any approved Category II science courses will suffice.

III. Global History and Culture (33 hours)
   HIS 101, 102
   PHI 151 or REL 131
   Humanities Elective: 3 hrs chosen from ENG 200, 201, 202; HIS 201, 202; RTF 170; WS 301
   Social Science Electives: 6 hrs chosen from: ANT 101, GHY 101, PS 201, SOC 101
   Foreign Language: 12 hrs in a single foreign language; fewer hours may suffice, but course level 202 must be completed.

IV. Aesthetic Values (3 hours)
   ART 130, DAN 107, MUS 365 or THE 100

V. Decision-Making and Responsibility (3 hours)
   ECO 101, PHI 171, PSY 110, HHS 100, HHS 101, PS 101

In addition, each student must take two (6 hrs.) writing intensive courses, normally in the major or minor field. Such courses are designated in the annual schedule book with the course suffix WI.

Standards for Admission and Transfer

High school graduates and transfer students from other accredited colleges or universities may be admitted directly to the College of Liberal Arts and to their chosen major programs. Students desiring to transfer to the College of Liberal Arts from another college within The University of Southern Mississippi must be in good academic standing; normally they must present a minimum GPA of 2.0 in order to be admitted to a major program. (Some programs have higher admission standards; see the individual program listings below for specific requirements.) Students entering the college will be assigned to an appropriate faculty member for academic advisement.
Foreign Language Requirements

The Bachelor of Arts degree offered by the college requires proficiency in a foreign language, to be chosen from any one of the following: Chinese, French, German, Classical Greek, Italian, Japanese, Latin, Portuguese, Russian, or Spanish. (Not all of these languages will be available every year.) Normally twelve (12) hours of beginning and intermediate foreign language instruction are required, through course level 202. Students are encouraged to begin their study of foreign language during the first semester of their freshman year.

Students with previous experience in languages (such as courses from high school or community college) may satisfy part or all of this requirement through advanced placement in as few as six hours (course level 201, 202). Course credit for previous work in language may be acquired through the CLEP examination; for details, contact the Department of Foreign Languages and Literatures (266-4964) or the CLEP officer in Admissions (266-4508).

With the approval of their department chair and the dean, international students may use their native language as an exemption from this requirement.

Study Abroad

In cooperation with the College of International and Continuing Education, the College of Liberal Arts strongly encourages its students to take advantage of the many offers to study abroad. Summer credit-abroad programs are offered in England, Austria, France, Mexico, China, Ireland, Australia, Scotland, Jamaica, Africa, and Spain; moreover, year-long and semester-long programs of study are also available, along with a summer internship program in Wales. Academic credit for study abroad may be used to satisfy requirements in the major or minor. Many students find study abroad a good way to complete their language requirement. Financial aid may be applied toward the cost of USM’s international programs.

For details on the college’s study-abroad programs, students should consult their adviser or the College of International and Continuing Education (266-4344).

Teacher Licensure

The College of Liberal Arts offers several programs leading to teacher licensure at the K-12 or secondary level. Requirements for licensure include (1) an ACT composite score of 21 (SAT 860) or higher, with no scale score below 18 upon entrance into college, or acceptable scores on the appropriate Praxis I examination; (2) a minimum grade point average on the 44-semester-hour general education core curriculum of 2.65 (for secondary) or 2.5 (for K-12); (3) the demonstration of basic technology literacy; (4) students applying for admission to teacher education must be in good academic standing at USM—students on Probation, Probation Continued, or Suspension status will not be admitted to teacher education until such a time when their transcript reflects that they are in good standing; (5) a C average in Freshman English Composition; (6) completion of 32 hours of professional education courses (PSY 374; REF 400; REF 469; SPE 400; a General Methods course; an Area Methods course; and Student Teaching); (7) a grade of C or better in all content courses in the academic major as well as all professional education courses; (8) acceptable scores on the Praxis II examinations (Principles of Learning and Teaching exam and Subject Assessment exam); (9) fulfillment of major requirements in subject area; and (10) admission to the teacher education program.

These requirements are subject to modification; for current information, students should contact the University’s Education Licensure adviser, 127 Owings-McQuagge Hall; (601)266-5522.

The State Department of Education also provides an alternate route to licensure for graduates of an accredited college or university. For details and specific procedures contact

The purpose of the School of Library and Information Science is to educate students for careers in the information professions. Covering all types of media formats, the curriculum prepares future information professionals to create, develop, organize, access, and evaluate print and nonprint resources in a variety of settings.

The Bachelor of Arts degree in Library and Information Science may be used to satisfy the requirements for licensure as a school library media specialist. The baccalaureate degree in Library and Information Science with a teacher licensure emphasis is approved by the National Council for Accreditation of Teacher Education. The graduate program in Library and Information Science is the only master’s program in Mississippi accredited by the American Library Association (see the Graduate Bulletin). The school cooperates with the University Placement Service in assisting its graduates in finding positions. Students are encouraged to join and support the activities of the Library and Information Science Student Association, the American Library Association, the Special Libraries Association, and the Mississippi Library Association. Often these professional organizations provide job placement services.

Academic Standards for a Major in Library and Information Science

Any student who satisfies admission requirements to the university through the Office of Admissions is eligible for admission to the School of Library and Information Science. All students majoring in Library and Information Science must have their major program approved by the director of the school and have a completed program plan on file in the director’s office.

During the first two years at the university, the Library and Information Science major should acquire a broad general education in the liberal arts and sciences. Library and Information Science courses for the undergraduate major or minor are begun in the junior year and completed in the senior year. Library and Information Science majors are advised to concentrate elective hours in one subject field, professional area, or language in order to qualify for better library positions. The student’s choice of a degree program should be determined by his or her career goals, licensure requirements, and in consultation with a faculty adviser or the director of the school.

Students desiring to prepare for positions in public, academic, or corporate libraries or information centers or other information professions should follow the general Bachelor of Arts degree program described below; this program requires forty (40) credit hours. General Library and Information Science majors must also complete the requirements for a minor or a dual major in another field, a senior capstone course for their major, and sufficient elective hours from any departments of the university to complete the 128 semester hours required for a degree. Students must earn a grade C or higher in all Library Science courses and all required courses in the minor. Students should consult their advisers when planning their minors or dual majors.

Students are advised that in order to qualify for many professional positions in the library field, especially those in public, college, and special library fields, a Master of Library and Information Science (MLIS) degree is required. This graduate degree can be earned in one additional year of study beyond the B.A. See the Graduate Bulletin for information on the graduate program in Library and Information Science.

Licensure as a School Library Media Specialist

Students desiring to become public elementary or secondary school library-media specialists should follow the applicable teacher licensure degree program. Licensure as a school library-media specialist in the state of Mississippi requires a library and information science major of thirty (30) hours plus thirty-seven (37) hours of professional education core courses. Students must earn a grade of C or higher in all Library Science courses and in all required professional education courses. Existing teacher education programs as presented in this Bulletin are subject to change contingent on formal university approval. Out-of-state students should consult with their respective state agencies regarding licensure requirements. For more information about the Teacher Licensure Program, contact the School of Library and Information Science.
The School of Mass Communication and Journalism

Advertising; Journalism; Radio, Television, and Film

David H. Goff, Director
Hattiesburg, MS 39406-5121
(601) 266-4258

C. Brown, Davies, Gentile, Hall, Haque, Kaul, Mayo, McDowell, Porciello, Webster, Wiggins, M. Williams, Yssel

The mission of the School of Mass Communication and Journalism is to provide a comprehensive education across the broad spectrum of the mass media fields and to graduate a highly qualified, diverse group of baccalaureate and graduate degree holders.

The school was formed in 2001 from the merger of the departments of Journalism and Radio, Television, and Film and offers the same majors previously available from the two departments: Advertising; Journalism (with emphasis areas in News-Editorial and Public Relations); and Radio, Television, and Film (with emphasis areas in Broadcast Journalism, Film, and Radio-Television Production). In addition, a concentration in Photojournalism is offered within the Journalism: News-Editorial emphasis.

At the time of the merger, the Department of Journalism and the Advertising Program were accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). The new school will seek full unit accreditation when the accreditation earned by Journalism and Advertising comes up for renewal in 2004.

NOTE: This Bulletin introduces a revised set of General Education requirements for the university and the College of Liberal Arts. In order to comply with ACEJMC accreditation standards all majors in the School of Mass Communication and Journalism require a minimum of 65 semester hours in the basic liberal arts and sciences. In addition, every program in this school requires a capstone experience course and two writing intensive courses in the major.

Major in Advertising

The Advertising Program is designed to teach students the creative and business practices of advertising. Graduates are prepared for professional positions as advertising layout artists, copy writers, media planners, and account executives in the mass media, advertising agencies, and advertising departments in business and industry.

Requirements for a Major in Advertising

Students in the program must complete thirty-three (33) semester hours, but not more than thirty-six (36) semester hours, in Journalism and Radio, Television, and Film, including JOU 231, 312, 330, 333, 421, 431, 433; RTF 425. Students must achieve a minimum grade of C in each major course and a GPA of 2.5 in the major. An eighteen (18) to twenty-one (21) hour minor is required. However, students in the Advertising Program may not minor in Journalism or Radio, Television, and Film. Advertising majors may not count MKT 355 towards their major or minor. Courses for other minors are chosen in consultation with the adviser. A statistics course is required of all students in the program. Students must choose one course from PSY 360 or SOC 460.

Requirements for a Minor in Advertising

All students pursuing a minor in advertising must complete a minimum of eighteen (18) hours of journalism courses. The following nine (9) hours are required: JOU 231, 312, 330. The remaining nine (9) hours are to be selected in consultation with an advertising adviser who can recommend courses in advertising and public relations.

Degree Plan
Major in Journalism

The objective of the major in Journalism is to teach students professional and theoretical concepts and to develop their technical skills to enable them to be productive and responsible contributors in the field of journalism. The program emphasizes the basics of reporting, writing, editing, and taking and developing pictures, but professional preparation also requires an understanding of the history and legal, ethical, and social responsibility of journalism. The department strives to achieve an integration of practice and theory in its courses.

The major offers a choice of two emphasis areas of study: News-Editorial and Public Relations. These are designed to prepare students for a variety of career positions, including news reporting and editing, writing, photojournalism, and public relations.

The faculty strongly believes that students should have a broad cultural education in the humanities and social sciences to complement their professional preparation so they can serve society, as well as their own self-interests, productively and responsibly. Students must achieve a minimum grade of C in each major course and a GPA of 2.5 in the major. All journalism students, in consultation with their advisers, must develop a minor in an area outside the school.

Requirements for a Major in Journalism

All students pursuing a major in Journalism must complete the following requirements, which include a minimum of thirty-three (33) semester hours, but not more than thirty-six (36) semester hours in journalism and/or radio-television-film:

All majors in the News-Editorial emphasis are expected to do practical work on *The Student Printz*. Others are invited to participate in the publication of the newspaper.

Requirements for an Emphasis in News-Editorial

The News-Editorial Program is designed to prepare students for positions in the news media as reporters, editors, and writers. The following courses are required: JOU 202, 203, 241/241L, 303, 311, 312, 402, 450, 455, and 460. From elective course work taken outside the major in Journalism, students are advised to develop an area of concentration that supports and enhances their educational and professional goals.

Students may pursue a concentration in photojournalism within the News-Editorial Emphasis. Required courses in News-Editorial are JOU 202, 203, 311, 312, 450, 455, and 460, including one course chosen from among JOU 301, 303, or 452. The photojournalism concentration requires completion of JOU 241/L, 341/L, 441/L, and three or four hours chosen from Journalism and/or Radio, Television, and Film. Photojournalism students may elect to take JOU 342 instead of JOU 450.

Requirements for an Emphasis in Public Relations

This program of study is designed to prepare students for careers as public relations practitioners, and consultants in business and industry, nonprofit organizations, educational institutions, and governmental agencies.

The following courses are required: JOU 202, 203, 311, 312, 421, 422, 426, 428, and 455. A statistics course is required of all students in the public relations emphasis. Students must choose one course from PSY 360 or SOC 460.

Requirements for a Minor in Journalism

Students pursuing a minor in Journalism must complete a minimum of eighteen (18) hours of journalism courses, with at least nine (9) hours above the 300-level. These courses should be selected in consultation with an adviser affiliated with the particular area to be emphasized—News-Editorial or Public Relations.
Major in Radio, Television, and Film

The major in Radio, Television, and Film offers preparation for professional employment in the diverse film and electronic media industries. The one constant that characterizes these fields is change. Therefore, the department strives to equip students with more than current career skills. The total program emphasizes the broader skills that prepare students for the continuing self-education required to meet the challenge of change in one’s life and in one’s career. The major in Radio, Television, and Film also provides an excellent preparation for graduate study in film or mass communication. In addition to the curriculum for RTF majors, the department provides instructional support to interdisciplinary programs in Advertising and Communication.

Students majoring in Radio, Television, and Film select one of three emphasis areas. Broadcast Journalism prepares students to enter the challenging and competitive field of radio and television news. The Film emphasis is designed to prepare students for positions with large and small motion picture production companies, federal or state agency production units, or for self-employment as independent producers, directors, or production specialists. The Radio-Television Production emphasis is intended for students who seek careers in advertising and program production in broadcasting and cable television. This emphasis also prepares students to pursue career opportunities with the growing number of corporations, medical centers, and governmental agencies that utilize television communication for training and institutional communication.

The Internship Program (RTF 303) provides supervised experiential learning in a professional setting. To qualify for the program, an RTF major must have completed all but twelve hours of major course work with a B average in RTF courses and an overall GPA of 2.5. Eligible students must submit an internship application prior to the midpoint of the semester preceding the requested internship. Students employed by a film or electronic media firm cannot receive academic credit for work they are already doing for pay.

Requirements for a Major in Radio, Television, and Film

The major in Radio, Television, and Film requires a minimum of 33 semester hours, but not more than 36 hours of course work. In addition, students must achieve a minimum grade of C in each major course and a GPA of 2.5 in the major.

Many Radio, Television, and Film courses require students to perform copywriting, news writing, or script writing on a deadline. Typing proficiency is essential for these classes. RTF majors who do not enter the program with basic typing skills should enroll in BTE 101 (Keyboarding for Information Processing) early in their course of study.

All Radio, Television, and Film majors are required to complete the following:

**NOTE:** All students must complete a minimum of 128 semester hours with at least 45 semester hours at the 300 or 400 level. The number of elective credits earned will vary.

Requirements for a Minor in Radio, Television, and Film

The student minoring in Radio, Television, and Film must complete a minimum of eighteen (18) hours in RTF courses with at least nine (9) hours above the 300-level. The department recommends structuring the selection of minor courses along the lines of one of the three emphasis areas offered to RTF majors. Students seeking an RTF minor and their advisers are cautioned to pay close attention to RTF course prerequisites.
The Air Force ROTC Program offers a course of study leading to a commission as a second lieutenant and service on active duty. The program is an accredited part of the curriculum of the University. Air Force ROTC may apply toward satisfying the requirements for an academic minor.

Air Force ROTC Requirements

While Aerospace Studies classes are open to all USM students, those wishing to pursue an Air Force commission should meet the following requirements:

**General Military Course:** AOS 101, AOS 103, AOS 201, and AOS 203. Men and women who are full-time university students may enroll in the General Military Course (GMC). The GMC surveys the missions, activities, and history of the United States Air Force. There is no obligation associated with enrollment in any GMC course. The professor of Aerospace Studies may grant credit or partial credit for completion of the GMC for students who have served on active duty, for junior- or senior-level ROTC participation in a program of any service, and for Civil Air Patrol work.

**Professional Officer Course:** AOS 312, AOS 313, AOS 412, and AOS 413. Enrollment in the Professional Officer Course (POC) under an Air Force contract (obligated reserve) is limited to those students who have applied and have been accepted for this course. Application is normally made while a member of the GMC or (for students not enrolled in the GMC) early during the academic year prior to the year of desired entry. Students with previous military service may apply for direct entry. Individuals entering the POC must have two academic years remaining in college as full-time students at the undergraduate or graduate level. Students who complete the Professional Officer Course in Aerospace Studies (Air Force ROTC) are allowed to waive the requirement for an academic minor, if one is required in their major. After completing their studies, all contracted POC students are obligated to accept a commission and to enter the active duty Air Force.

Students who enter Air Force ROTC classes are considered to be in the Four- or Two-Year Program, depending on their academic progress upon entry. Enrollment in the General Military Course offers the student good exposure to the Air Force without obligation and also affords maximum opportunity for scholarships and entry into the Professional Officer Course. The POC is normally preceded by either a four- or five-week summer field training conducted at Lackland Air Force Base, San Antonio, Texas. Financial entitlements while in the POC normally total about $3,000 for non-scholarship students and up to $9,900 for those maintaining a 2.00 term GPA ($1,500 per semester toward tuition, $225 per semester for books, and between $250 and $350 per month for ten-month academic year).

**Air Force ROTC College Scholarship Program**

An Aerospace Studies committee nominates qualified freshman, sophomore, and junior students to compete for three- and two-year scholarships. Scholarships can pay full tuition, as well as certain fees and expenses associated with required courses, including most textbooks. In addition, the recipient will receive between $250 and $350 (tax free) monthly allowance (depending upon classification) during the school year. Scholarships are awarded based on the specific needs of the Air Force. All academic majors are potential scholarship recipients. Interested students should contact the Department of Aerospace Studies.

Four-year scholarships are also available to high school students. High school students interested in making application can apply online at www.AFROTC.com or may write: Air Force ROTC
(RRUC), Maxwell AFB, Alabama 36112-6106 during their junior year or before November of their senior year or contact any Air Force ROTC unit or Air Force recruiter.

Satisfactory completion of courses in English composition and mathematical reasoning is required for scholarship and POC students. Completion of the university core will normally fulfill these requirements.

Department Activities

Air Force ROTC students are eligible for membership in the Drill Team and Arnold Air Society and allowed to participate in departmental activities. Arnold Air Society is a national organization with membership restricted to Air Force ROTC cadets; Silver Wings, another national service organization, also supports Air Force interests and is open to all students. Both organizations are sponsored by the Air Force Association and hosted by the department. Other departmental activities include orientation flights, visits to Air Force bases, physical fitness conditioning, and intramural sports, as well as optional summer professional development training programs to include activities such as piloting a jet aircraft, attending a parachute jump school, or participating in a space launch.

American Studies Program

Allan R. McBride, Director
Hattiesburg, MS 39406-10065
(601) 266-4310

The American Studies Program offers an interdisciplinary major or minor for students interested in a broad liberal arts education. Through courses from many fields, the student acquires an understanding of the development of American heritage. By course selection and during the American Studies Seminar, students may pursue their special interests. The major requires thirty (30) semester hours.

Though no minor is required with the American Studies major, students are encouraged to have a second major or minor in complementary, career-oriented fields, such as pre-law, pre-medicine, pre-dentistry, paralegal studies, journalism, public relations, library science, accounting, marketing, political science, management, radio-television-film, military science, or education. The requirements listed below are in addition to the Liberal Arts core curriculum. Students in this program will be advised by the director of the American Studies Program.

Options for the American Studies Major

Group III. Select any combination of three courses from Groups I and II

- AMS 403 (senior year requirement)

Total 30
Requirements for a Minor in American Studies
Students minoring in American Studies must complete eighteen (18) hours in course work that is drawn from courses listed under the major requirements including one of the following courses: AMS 304, 403, or 404. No more than six (6) hours from a student’s major field may count toward the AMS requirements.

Degree Plan

Department of Anthropology and Sociology

H. Edwin Jackson, Chair
Hattiesburg, MS 39406-5074
(601) 266-4306

Danforth, Flanagan, Glamser, H.D. Hunt, Kaufmann, Kinnell, A.C. Miller, R. Turner, A.L. Young

The Department of Anthropology and Sociology offers a major and a minor in both Anthropology and Sociology. As the societies of the world become increasingly interdependent and as our own society continues to confront the problems of pluralism and rapid social change, success in many fields (including international development, business, government, and education) will depend on the individual’s understanding of, and ability to adapt to, varied circumstances and human cultural diversity. The programs in the Department of Anthropology and Sociology equip the student with the tools necessary for such an understanding.

Requirements for a Major in Anthropology

The multifaceted nature of Anthropology, which integrates into a single discipline the social sciences, the natural sciences, and humanistic studies, uniquely combines skills and insights that will prove essential in many contemporary settings. Students will complete courses in Cultural Anthropology, Archaeology, Physical Anthropology, and Anthropological Linguistics. Students majoring in anthropology must complete all general education requirements of the College of Liberal Arts, thirty-three (33) hours in Anthropology (including ANT 221, 231, 241, 251, and 421), and have a minor in another discipline. The student’s adviser will discuss the choice of a minor that best complements the student’s interests, career goals, and aspirations.

Requirements for a Major in Sociology

The scientific analysis of the social world to which Sociology is dedicated provides the student with unique insights into the nature of social institutions and their effects on each other and on individual behavior. The Sociology major equips the student with analytical skills applicable in a wide range of contemporary settings. Students majoring in Sociology must complete all general education requirements of the College of Liberal Arts, thirty-three (33) hours in Sociology (including SOC 101, 460, 462, and 482), and have a minor in another discipline. The student’s adviser will discuss the choice of minor that best complements the student’s career goals and aspirations.

Requirements for a Minor in Anthropology

The minor in Anthropology allows students of another discipline to achieve a fundamental understanding of Anthropology. Faculty members will assist students to select courses that best complement their major interests. Students will complete a minimum of eighteen (18) hours in Anthropology, including nine (9) hours chosen from among ANT 221, 231, 241, or 251.

Requirements for a Minor in Sociology

The minor in Sociology is designed to equip the student of another discipline with an understanding of the fundamentals of the discipline of Sociology. Faculty members will assist students to select courses that best complement their major interests. Students will complete a minimum of eighteen (18) hours in Sociology, including SOC 101.
The Department of Criminal Justice

The Department of Criminal Justice offers an interdisciplinary major leading to a Bachelor of Arts degree and a minor. A special emphasis area in Juvenile Justice is also available.

Requirements for the major area are a minimum of thirty-six (36) hours of course work in Criminal Justice (CJ 200, 325, 330, 341, 352, 360, 420, 430, and 433 are required) and ENG 332, 333 and FSC 440, but not including the optional field practicum (CJ 400). The student must also pursue either an academic minor or two interdisciplinary blocks of nine (9) hours each (not to include 100-level courses overlapping with the core); these interdisciplinary blocks may be flexibly structured to strengthen the student’s understanding of and interest in the humanities, behavioral sciences, or professional areas, such as Accounting, Computer Science, Forensic Science, and Management. The Juvenile Justice emphasis must include eighteen (18) hours in Psychology or Social Work.

The flexible and interdisciplinary nature of the Criminal Justice curriculum provides an ideal educational base for those seeking careers in which special skills are needed. The careful selection of a minor also enhances this feature of the curriculum. Minors in Paralegal Studies, English, Philosophy, or Political Science provide excellent preparation for law school, while minors in Spanish, Accounting, Forensic Science, and Computer Science have proven to be in high demand in state and federal investigative services. Wildlife conservation officers and environmental protection agencies have extensively employed Criminal Justice majors with Biology minors. The department endeavors through individual counseling to identify a student’s goals and potential and to provide the best education possible to meet those aspirations.

Requirements for a Minor in Criminal Justice

All students pursuing a minor in Criminal Justice must complete a minimum of eighteen (18) hours of courses in Criminal Justice, including CJ 200, but not including the field practicum.

Program in Economics

The Bachelor of Arts in Economics is an interdisciplinary degree offered through the collaboration of the College of Liberal Arts and the Department of Economics and International Business within the College of Business Administration. The degree is designed to prepare graduates for employment in either the private or public sector or for the pursuit of higher degrees in a number of academic disciplines, most notably Economics, Economic Development, Community and Regional Planning, Geography, Law and Justice Studies, Political Economy, Political Science, and Public Administration. Because of its interdisciplinary curriculum, the B.A. in Economics allows somewhat more latitude in course selection than most USM degrees and requires the completion of slightly more than the 128-semester hour university minimum for graduation.
Requirements for a Major in Economics

Students pursuing the B.A. in Economics must complete seventy (70) semester hours in specified courses; these satisfy the general education requirements of the university, the College of Liberal Arts, and the major. In completing the remaining degree requirements, majors may elect to follow one of two set degree tracks, the one quantitative and the other qualitative, or to formulate and pursue a flexible degree track commensurate with individual career objectives.

The quantitative or Mathematics Degree Track is designed to prepare one for the successful pursuit of higher degrees in Economics and related academic disciplines requiring a strong background in mathematics and statistics. It consists of 58.5 semester hours beyond the seventy-hour core curriculum, including a minor in Mathematics, and thus establishes a degree plan requiring the completion of a total of 128.5 semester hours.

The qualitative or Social Science Degree Track provides a broadly based liberal arts education in “political economy,” an area of study that cuts across the normally separate domains of economics and politics, and examines the relationship of the two within the difficult calculus of public law. The Social Science Degree Track is recommended for students planning to seek employment upon graduation or to pursue higher degrees in academic disciplines requiring a lesser preparation in mathematics and statistics (Economic Development, Community and Regional Planning, Geography, Law and Justice Studies, Political Science, and Public Administration). It consists of 60.5 semester hours beyond the seventy-hour (70) core curriculum, including a minor in political science, and thus establishes a degree plan requiring the completion of a total of 130.5 semester hours.

Requirements for a Minor in Economics

Students wishing to minor in Economics must satisfy the requirements of the Department of Economics and International Business.

Department of English

Michael Salda, Chair
Hattiesburg, MS 39406-5037
(601) 266-4319

The Department of English prepares undergraduate majors for careers in teaching, law, business, and other fields that require communication skills. The department offers a B.A. with or without secondary teaching licensure. In addition to programs in English Education and Literature, the department sponsors a program in Creative Writing.

Requirements for a Major in English

The undergraduate major in English consists of thirty-six (36) hours of English beyond the freshman level. At least twenty-one (21) hours must be taken at the 300 or 400 level, with at least nine (9) hours of these at the 400 level. Majors must include among their courses Analysis of Literature (ENG 340), plus at least one course from each of the following categories:

1. English or World Literature before 1700
2. English or World Literature after 1700
3. American Literature

For teacher licensure, students must take the following: the required courses listed above for all undergraduate majors; Contemporary World Literature (ENG 311); English Grammar (ENG 301); Language Study for Teachers (ENG 403); Literature for the Adolescent (ENG 418); Shakespeare (ENG 454 or 455); Reading/Writing Theory (ENG 490); Methods of Teaching English—Secondary (ENG 491, 491L); and Student Teaching (ENG 494 and 495). Students pursuing a degree in
English with licensure must earn a grade of C or higher in all English courses and in all required professional education courses.

In addition, required teacher education courses include the following fifteen (15) hours: PSY 374, REF 400, REF 469, SPE 400, and CIS 313. Students must consult an adviser in the Department of English and the current Bulletin for prerequisites and proper sequences of courses.

Students who complete the licensure program are eligible for a license through an NCATE-approved program.

Requirements for a Minor in English
An undergraduate minor in English requires a total of eighteen (18) hours beyond ENG 101 and 102, including at least nine (9) hours at the 300 or 400 level.

The Center for Writers
Hattiesburg, MS 39406-5144
(601) 266-4321

The Center for Writers, functioning under the aegis of the Department of English, offers undergraduates the opportunity to specialize in poetry or fiction within the context of the basic English B.A. degree. A cohesive sequence of workshop courses of increasing difficulty encourages student writers to locate and focus their talents and to observe and participate in the process of creative writing. A companion group of theory and literature courses places emphasis on contemporary and current writings, literary theory, and criticism in English and in translation. The center sponsors two publications: Mississippi Review, a national journal of fiction, poetry, and criticism; and Product, a student publication geared to publish and circulate within the university community the very best student writing.

The Writing Center
Liberal Arts Building 303
Hattiesburg, MS 39406-5037
(601) 266-4321

The Writing Center offers free tutorial assistance to USM students, faculty, and staff involved in writing projects. Tutors, who are faculty and graduate students trained in composition, work one-on-one with writers in a comfortable environment designed for both writing and talking about writing. Support is available in all areas of writing, ranging from topic exploration to development to preparation of final copy. Services are available on a drop-in or appointment basis, and writers may choose to visit once or to establish a long-term program of development. Instructors may also refer students to the Writing Center.

Department of Foreign Languages and Literatures
Rafael Sánchez-Alonso, Chair
Hattiesburg, MS 39406-5038
(601) 266-4964

E. Anglin, K. Austin, E. Biron, L. Broome, J. Burnett, M. Clark, J.-L. Dassier, L. Escobar,
L. Fonder-Solano, J. Gillespie, G. Mitchell, W. Odom, W. Powell, Y. Unnold

The Department of Foreign Languages and Literatures offers a flexible program leading to the Bachelor of Arts degree either with or without teaching licensure. It also offers an academic minor. The program aims to provide the students with sufficient language skills and cultural insights to give them sound foundations for a wide range of careers. It is designed to meet the following objectives:

1. prepare students (in combination with other disciplines) for industrial, commercial, and government employment in which knowledge of a foreign language and culture is a distinct advantage;
2. prepare students to teach foreign languages in secondary schools;
3. prepare students for graduate study in foreign languages and literatures and related fields;
4. provide supportive courses for other programs in the University.

The department offers curricula from the beginning through the advanced levels in French and Spanish. The department also offers Chinese, German, Greek, Italian, Japanese, Latin, Portuguese, and Russian through at least the intermediate levels. Not all of these languages will be taught every year; students should consult the Schedule Guide for a list of annual course offerings in this department.

Students have access to the Foreign Language Multimedia Center in the Liberal Arts building and may be required to attend laboratory sessions in addition to regular classroom meetings. Other foreign language audiovisual materials are available in the Cook Library.

In cooperation with other departments at this university, the Department of Foreign Languages and Literatures has established a number of formal and informal programs for students who wish to prepare for careers in which a knowledge of a foreign language and culture is either essential or desirable. For assistance in devising a suitable curriculum, students should consult as soon as possible with a foreign language adviser. Information on the MATL (Master of Arts in the Teaching of Languages) program can be found in the Graduate Bulletin and on the department’s Web page: http://www.forlang.usm.edu.

Study Abroad
Under the auspices of USM’s College of International and Continuing Education, the department offers active and very popular study-abroad courses, summer, semester, and yearlong programs.

CLEP Examinations in Foreign Languages
Students with previous language study or background may earn up to a total of twelve (12) hours of college credit in Spanish, French, or German by taking a CLEP examination.

Students may take the CLEP examination at any time during their course of study. For complete details regarding how to take the CLEP examination in foreign languages and its benefits, consult the Department of Foreign Languages and Literatures or USM CLEP coordinator in the Admissions office.

Requirements for a Major in Foreign Languages
The Department of Foreign Languages and Literatures offers three options for a B.A.: (1) Foreign Languages: Spanish concentration; (2) Foreign Languages: French concentration; (3) Foreign Languages. Each option requires a minimum of thirty (30) semester hours (above the 100 level) in foreign languages and literatures. At least eighteen (18) hours must be earned in upper-level foreign language courses. Students must complete at least one, preferably two, 300-level courses before enrolling at the 400 level.
Option One: Spanish Concentration

I. A minimum of six (6) hours in literature and culture courses to be chosen from the following:
   - SPA 331: Hispanic Daily Life
   - SPA 332: Traditions, Festivals, and Icons
   - SPA 341: Introduction to Spanish Literature
   - SPA 433: Hispanic Film
   - SPA 435: Spanish Culture and Civilization
   - SPA 436: Latin American Culture and Civilization
   - SPA 442: Survey of Spanish Literature
   - SPA 445: Topics in Spanish Literature
   - SPA 446: Don Quijote
   - SPA 452: Topics in Latin American Literature

II. A minimum of six (6) hours in Spanish language-focused courses to be chosen from the following:
   - SPA 305: Spanish Reading and Composition
   - SPA 313: Grammar Review
   - SPA 321: Intermediate Conversation
   - SPA 405: Phonetics
   - SPA 406: Advanced Composition and Grammar
   - SPA 411: Spanish Subjunctive
   - SPA 421: Advanced Conversation
   - SPA 491: Advanced Studies in Spanish Language

III. The remaining courses for the major may be selected from the following:
   A. Any of the above.
   B. A maximum of six (6) hours from the following:
      - SPA 201: Intermediate Spanish I
      - SPA 202: Intermediate Spanish II
      - SPA 281, 282: Intermediate Credit for Study Abroad
   C. A maximum of six (6) hours from the following:
      - SPA 381, 382, 383: Study Abroad
      - SPA 481, 482, 483: Study Abroad
   D. A maximum of six (6) hours from the following:
      - SPA 492: Special Problems (subject to approval by adviser and chair)

Option Two: French Concentration

Courses for the emphasis may be selected from the following:
   - FRE 201: Intermediate French I
   - FRE 202: Intermediate French II
   - FRE 305: French Grammar Review
   - FRE 321: French Conversation and Discourse
   - FRE 340: Reading in French
   - FRE 405: French Phonology
   - FRE 406: Advanced Composition
   - FRE 411: Advanced Conversation
   - FRE 431: French Film
   - FRE 434: France in the Fifth Republic
   - FRE 435: Francophone Civilization and Culture
   - FRE 437: Topics in French Culture
   - FRE 442: Survey of French Literature
   - FRE 445: Topics in French Literature
   - FRE 491: Advanced Studies in the French Language
   - FRE 492: Special Problems (a maximum of six hours, subject to approval by adviser and chair)

Additional courses that may be applied to the major include a maximum of six (6) hours from the following:
   - FRE 281, 282: Intermediate Credit for Study Abroad
   - FRE 381: Study Abroad
   - FRE 481: Study Abroad

Option Three: Foreign Languages

This option requires the completion of thirty (30) hours at the 200 level or above, including eighteen (18) hours in courses at the 300 and 400 level. Of these eighteen hours, at least twelve (12) must be in a single language.

Note 1: Courses in any language taught in the department may be counted toward this option.
Note 2: For students participating in USM study-abroad programs in Germany or Austria, all hours for this option...
may be earned in German.

Requirements for a Major in Foreign Languages with Teacher Licensure

A student seeking teacher licensure in either French or Spanish needs twenty-seven (27) hours in the appropriate concentration. A student seeking teacher licensure in German should choose option three, with a minimum of twenty-seven (27) hours of German at the 200 level and above. All students seeking teacher licensure in foreign languages must include FL 461 and FL 461L in their programs. In addition, the student should fulfill the requirements of the Teacher Education Program at USM, as explained on the SMART Degree Plan. Students must earn a grade of C or higher in all Foreign Language courses and in all required professional education courses.

Requirements for Minor in Foreign Languages

An undergraduate minor in Foreign Languages requires a total of eighteen (18) hours in one of the following languages: French, German, Spanish, or Latin. A minor in Classics consisting of twenty-one (21) hours is also available. Six (6) hours must be at the 300-400 level.

Department of History

Charles C. Bolton, Chair
Hattiesburg, MS 39406-5047
(601) 266-4333
FAX (601) 266-4334

The Department of History participates in programs leading to the degrees of the Bachelor of Arts, the Master of Arts, the Master of Science, and the Doctor of Philosophy. For the master’s and doctoral degrees, please consult the Graduate Bulletin.

Mission

The study of history is intended to promote a responsible and informed citizenship, a heightened understanding of the human experience, and an appreciation of the achievements and variety of humankind. It also promotes career training. Indeed, the study of history is perhaps as valuable for the skills it helps to develop as for the information it imparts. History is an exacting discipline that fosters intellectual curiosity, analytical thought, research skills, ability to collect and analyze large amounts of data, clarity of expression, and disciplined work habits—qualities that are central to careers in academic, professional, public, business, and service areas.

Career Opportunities

Departmental surveys of graduates indicate that History majors have built careers in a variety of professional areas. A large number are teachers at high schools, community colleges, colleges, and universities. Many are lawyers. A considerable number of them are stockbrokers, bankers, military officers, public servants, directors of libraries, archivists, and even medical doctors. History majors can enter all these professions because their academic discipline fosters the writing, thinking, research, and analytical skills that make them marketable in a variety of professions.

Requirements for a Major in History

Students majoring in History must receive at least a grade of C in each history course. They must take thirty-six (36) hours that must include HIS 101, 102, 201, 202, and 300. Of the twenty-one (21) remaining hours required for the major, no more than twelve (12) hours of advanced course work can be selected from any one of the three following course areas: (1) United States History, (2) European History, or (3) Other (Latin American, East Asia, Africa, and other non-United States, non-European courses). Students who have satisfied the thirty-six (36) hour major requirement may
take additional advanced courses in History in any area they prefer.

History 300 must be completed in the first semester of the junior year.

History majors with exceptional academic records may be awarded degrees with honors or highest honors. See the “General Information” section of this Bulletin for full requirements.

Social Studies Licensure

Students wishing to obtain a class A teaching license must major in History and must take twenty-four (24) hours of specified social science courses (twelve of these also satisfy the college general core) and nineteen (19) hours of education courses. A semester of student teaching completes the curriculum. Students must receive at least a grade of C in all courses required for licensure. Students with an ACT score of 21 (SAT equivalent is 860) with no sub score below 18 upon entering college will be exempted from the Praxis I. The Specialty Area (Social Studies) and Principles of Teaching and Learning sections of the Praxis should be taken no later than the semester before student teaching.

Study Abroad

The department values international study and travel and offers a variety of stimulating and academically challenging summer credit-abroad courses in six (6) foreign countries (HIS 494, 495, 496, 497, 498, and 499). Students are encouraged to enroll in these programs and may apply up to twelve (12) hours of credit toward major requirements (but no more than six (6) hours of credit in any area of course concentration).

To facilitate study abroad, the department annually awards a scholarship to a deserving student for any USM summer-credit abroad history course. Eligibility and application details are available through the Department of History; applications are accepted by the chair no later than the second week of the spring semester.

Requirements for a Minor in History

The student minoring in History must take 21 hours in History, which must include HIS 101 and 102.

Requirements for a Minor in History and Music History

The History department also offers a minor combining History and Music History. It is ideally suited for music and music education majors and for anyone interested in exploring the relationship between history and the arts. For more information on this minor, contact the chair of the Department of History or the director of the School of Music.

Students minoring in History and Music History must complete twenty-four (24) hours in the following courses: MUS 231, 232; HIS 201 or 202, 401, 407, 413, 424; and a Music History elective (chosen from MUS 332, 360, 431 - 437, 450, 471). In lieu of MUS 231, 232, students may take courses in Opera, American Music, Symphonic Literature, Baroque, Classic, Romantic, Twentieth Century, Jazz History, or Masterpieces of Music.

Humanities Program

Antonio Rodriguez-Buckingham, Director
Hattiesburg, MS 39406-10046
(601) 266-4238

The interdisciplinary program in Humanities offers a minor that concentrates study in one of three areas of courses chosen from various disciplines within the College of Liberal Arts. The program helps students develop their ability to write and think by focusing on important texts for reading, study, and discussion. In addition to the minor in Humanities, students may take the proseminar in the Humanities (HUM 495) and receive a Certificate of Humanities Study.
Requirements for a Minor in Humanities

The minor in Humanities requires eighteen (18) hours. All students must complete HUM 490: Studies in European Humanities (3 hours) and five other courses (15 hours) selected from one of the following three areas. Courses must be chosen from at least three different disciplines within the selected area. With the approval of the director and Council of the Humanities Program, students may elect to concentrate their fifteen (15) hours on alternative topics such as “Science, Technology, and Society,” “Perspectives on Religion,” or “Human Nature.” See the Program’s Director for details. All courses listed give three (3) credit hours.

Courses Applicable to More than One Area:

The following courses may be taken to satisfy requirements in more than one area. The areas for which these courses may be used are indicated by the number in parenthesis following the listing. Topics of courses marked with an asterisk vary. Students should check with the instructor of these courses to be sure that the topic for that semester is appropriate to the area they have chosen.

- ANT 313 Peoples and Cultures of Africa (1-3)
- ANT 314 Peoples and Cultures of Asia (1-3)
- ANT 315 American Indians (1-3)
- ANT 318 Peoples and Cultures of the Pacific (1-3)
- ENG 440 Literary Criticism* (1-3)
- FL 310 German Literature in Translation (2-3)
The International Studies Program requires a total of forty-eight (48) credit hours to satisfy the requirements for both a major and minor. The hours are allocated as follows:

1. A fifteen (15) credit-hour core consisting of GHY 341 (World Political Geography), HIS 473 (U.S. Foreign Relations), PS 331 (Introduction to International Politics), IS 491 (Seminar in International Relations), and IS 492 (Independent Study, consisting of a three-hour senior project).
2. Fifteen (15) credit hours of general courses related to International Affairs. These courses will be selected by the director of the program in collaboration with the student and will be based on the student’s particular interests.
3. Twelve (12) credit hours of courses in a geographical area of the student’s choice (Africa, Asia, Europe, Latin America) approved by the program director or by the relevant International Studies area director.
4. Six (6) credit hours of study outside the United States or a relevant internship in the United States in a program directed by the College of International and Continuing Education. With the program director’s approval, exemptions from this requirement may be allowed for foreign students and in other special cases.

International Studies Program: Comparative Americas

Within the International Studies Program, there is an alternative concentration in the Comparative Americas that requires forty-eight (48) credit hours to satisfy the requirements for both a major and a minor. Admission to the program requires a 3.0 GPA, and students must maintain that average during both their junior and senior years to graduate. Students also are required to undertake a research project on the Comparative Americas, to be defended before a committee comprised of three full-time faculty members from USM. The hours are allocated as follows:

1. A fifteen (15) hour core: GHY 341, PS 331, HIS 413, IS 491, and IS 492. Students will identify sources for their senior project in IS 491 and will produce and defend that project by the end of IS 492.
2. Fifteen (15) credit hours in the History of the Comparative Americas: HIS 300 (which must be completed by junior year); two courses in Latin American history (HIS 310 and at least one upper-division course); and two courses in U.S. history, one of which must be a 400-level course.
3. Twelve (12) corresponding credit hours from other disciplines in the social sciences, fine arts, or humanities. For example, students who take a course in Spanish literature must take a course in American literature. Students whose research projects are devoted to the African experience in the Americas may take up to six (6) credit hours from the African Studies Program, while students whose projects focus on the military must take at least six (6) credit hours in European history.

4. Six (6) hours of outside study. Three (3) hours must be devoted to community service in the Gulf South or with the Latin American component of the Oral History Project. The remaining three (3) hours may be satisfied through an internship or through one of the Latin American courses offered by the College of International and Continuing Education.

Upon selecting the International Studies major, students should meet with the program director at their earliest convenience to draft a program of study. Failure to do so may cause graduation delay.

**Requirements for a Minor in International Studies**

A minor requires the completion of eighteen (18) hours in International Studies, including GHY 341, HIS 473, PS 331, IS 491, and two other relevant courses selected by the director in collaboration with the student.

**Department of Military Science**

**(ARMY ROTC)**

LTC Kevin Dougherty, Chair
Hattiesburg, MS 39406-5042
(601) 266-4456

Cooper, Hennen, Maul, Moore, Stanley, Sybert

**Mission**

The mission of the Army ROTC Program is to provide instruction to college students preparing them for future leadership positions, both civilian and military, and to commission second lieutenants for the United States Army, Army National Guard, and Army Reserve.

**Program of Instruction**

The ROTC program of instruction is divided into two courses, the Basic Course and the Advanced Course. The full program encompasses four years, but several options for lateral entry and compression are available.

The Basic Course consists of two years of instruction and is one method of entry into the Advanced Course. The Basic Course is introductory in nature, and no military obligation is incurred.

The Advanced Course is designed to prepare selected cadets for commissioning in the United States Army. All academic majors are accepted, and the university has waived the requirement for a minor for those students completing the ROTC program. Successful completion of a five-week advanced summer camp and recommendation by the professor of Military Science are required for commissioning. The Advanced Course student is paid a $350 per month tax-free subsistence allowance during his junior year of the Advanced Course and $400 during his senior year. Active Duty and Reserve Commissions are earned. A recipient of a Reserve Commission may opt for a short period of active duty and then join a Reserve or National Guard unit.

Basic Course students participate in a leadership practicum. This includes practical training exercises on the USM campus and the Camp Shelby training site.

Contracted Basic Course and Advanced Course students will be required to attend weekly physical training sessions, a weekly leadership laboratory, and participate each semester in practical training exercises.

All Advanced Course cadets are required to complete a course or demonstrate proficiency in three areas of Professional Military Education. The course areas are Military History, Computer Literacy,
and Communications (written and oral).

Two-Year Program

A two-year program leading to a commission is available to the following categories of students:

1. A veteran whose military record is evaluated by the professor of Military Science and determined to have the necessary background for acceptance into the Advanced Course.
2. Students who did not take the Basic Course during the freshman and sophomore years. These students must successfully complete a four-week leadership training course prior to applying for or while enrolled in the Advanced Course.
3. Students who are currently enlisted in the Army National Guard or Army Reserves.

Extracurricular and Enrichment Activities

ROTC cadets have the opportunity to participate in several professional organizations within the Corps of Cadets. These include the Scabbard and Blade (honorary military society), Color Guard, Ranger Company, and Ranger Challenge Team.

ROTC Scholarship Program

The Army ROTC Scholarship Program is designed to offer financial assistance to outstanding young men and women in the ROTC program who are interested in commissioned service in the Army. There are three types of scholarships: four-year, three-year, and two-year. Each scholarship provides tuition, textbooks, and laboratory fees in addition to paying a $250 subsistence allowance per month for the period that the scholarship is in effect for freshman increasing to $400 per month for seniors.

Four-year scholarships are available to high school seniors. Four-year scholarship applications must be mailed prior to November 15 in the student’s senior year of high school. Information and application packets for the four-year scholarship may be obtained from the high school counselor, by going online at www.armyrotc.com, or by writing to:

USM Military Science Department
Scholarship Officer
Box 5042
Hattiesburg, MS 39406-5042

Students desiring to apply for the two-year or three-year scholarships should contact the Military Science Department Chair at the university. Applicants will be screened by a scholarship committee, and recommendations will be forwarded to the Department of the Army for final selection.

Simultaneous Membership Program (SMP)

Qualified National Guard and Army Reserve members can enter the Advanced Course and remain in their units while combining and enhancing their pay and tuition benefits and earning their commission as a second lieutenant. Participants in the program are eligible for both state and federal tuition assistance applied directly to tuition costs.

Paralegal Studies Program

Gail Lucas, Director
Hattiesburg, MS 39406-5108
(601) 266-4310

The Paralegal Studies Program is approved by the American Bar Association Standing Committee on Legal Assistants. Students majoring in Paralegal Studies, an interdisciplinary major offered through the Department of Political Science, complete thirty-six (36) hours of course work. The Bachelor of Arts degree in Paralegal Studies prepares students for employment in private law firms, businesses, and government offices. Although paralegals, as nonlawyers, are legally restricted from practicing law, they assist attorneys in delivering legal services more efficiently and may perform a variety of tasks, including legal research and drafting, litigation assistantship, interviewing and investigation, and file organization and maintenance.

All students majoring in Paralegal Studies must maintain an overall GPA of 2.5 after thirty (30) hours of course work at USM, and any students transferring to the Paralegal Studies program must attain a GPA of 2.25 prior to transferring.
Requirements for a Major in Paralegal Studies
The Paralegal Studies curriculum is interdisciplinary and includes the following requirements:

1. General Education Curriculum seventy (70) hours as outlined in the College of Liberal Arts preface.
2. PLS 381, 382, 383, 384, 385, 386, 387, 388
3. ENG 332 or 333
4. CJ 330
5. Two of the following electives: ACC 200; BA 200; REI 340; CJ 430, 463; CSC 100; PS 380, 480, 481, 484, 489; PLS 389, 492.
6. Eighteen (18) to twenty-one (21) hours in a minor field

Graduation with a degree in Paralegal Studies requires 128 hours, including at least twenty-one (21) hours in courses numbered 300 and above in the major.

Students are strongly advised to complete PLS 381 (Introduction to Paralegalism) and PLS 383 (Legal Research) their first semester in the program.

Students participating in PLS 389 (Internship in Paralegal Studies), an elective course, usually intern the summer between their junior and senior year.

Department of Philosophy and Religion
David M. Holley, Chair
Hattiesburg, MS 39406-5015
(601) 266-6518

Bruton, Burr, Capper, Jr., DeArney, Smithka, Wood

The mission of the Department of Philosophy and Religion is to teach students the art of critical thinking, to challenge them to think creatively, and to lead them to make a deliberate and rational attempt to understand both the whole and the parts of their experience for the purpose of obtaining wisdom for effective living. Accepting Socrates’ belief, “The unexamined life is not worth living,” we encourage students to discover and examine the basic philosophical and religious ideas of diverse cultures in order to gain illumination of personal and social values.

The department offers programs of study leading to the Bachelor of Arts with a major in Philosophy, a minor in Philosophy, and a minor in Religion. The major in Philosophy requires thirty (30) hours of courses. This major offers both breadth and depth in Philosophical training for students interested in pursuing graduate study in Philosophy, as well as for those majoring in Philosophy as a preprofessional program in law, medicine, or other related fields. Although the department does not offer a major in Religion, students can take a significant number of courses in religion to prepare them for graduate work in the academic study of Religion or for preprofessional study for the ministry or religious education.

The minor in Philosophy requires the completion of eighteen (18) hours in Philosophy. The department recommends that the student take Introduction to Philosophy (PHI 151), Logic (PHI 253), and Ethics (PHI 356) as part of their eighteen (18) hours.

The minor in Religion requires the completion of eighteen (18) hours in Religion or Philosophy courses closely related to Religion. The department recommends that the student take Philosophy of Religion (PHI 372) and at least one course in the Eastern and one course in the Western religious traditions as part of their eighteen (18) hours.
Department of Political Science

Allan B. McBride, Chair
Hattiesburg, MS 39406-5108
(601) 266-4310

The Department of Political Science offers a major and minor in Political Science and advising in Pre-Law Studies. Degrees include the Bachelor of Arts, Master of Arts, Master of Science. The master’s degrees are described in the Graduate Bulletin. The Political Science major is designed to prepare students for careers in national, state, and local governments, teaching, international service, and other fields.

Graduation with a major in Political Science requires 128 hours, including the collegiate general education curriculum (seventy (70) hours; see College Preface for these requirements), thirty-three (33) hours in the major, and eighteen (18) hours in a minor field. In addition to PS 101 (American Government) and PS 201 (Great Issues of Politics), the Political Science major must take at least one course from six of the seven areas of Political Science.

The Seven Areas of Political Science

Political Theory: 321, 420, 421, 426
American Government and Politics: 301, 303, 304, 401, 402, 403, 404, 405, 406, 407, 408, 409
International Relations: 330, 331, 431, 432, 435
Comparative Government: 300, 450, 451, 452, 456, 457, 458
Public Administration: 370, 375, 470, 471, 472, 473, 474
Public Law: 380, 480, 481, 484, 485, 489
Research Methods: 411, 412

Requirements for a Minor in Political Science

Students minoring in Political Science must complete PS 101, 201, and twelve (12) additional hours with at least one course from three of the seven areas of political science.

Pre-Law Advisement

Dr. Kathanne W. Greene
Hattiesburg, MS 39406-5108
(601) 266-4310

Students interested in attending law school should consult the pre-law adviser initially. By the beginning of their second year, students should officially declare a major and minor and then see their major adviser for academic advisement. During the third year, the student should meet with the pre-law adviser for information on the Law School Admissions Test (LSAT) and admissions information.

In addition to their major and minor courses, students interested in law school can supplement their program of study with the following courses as electives: ACC 200; ENG 332 or 333; PHI 253; PLS 383; PS 301, PS 380, PS 407, PS 480, PS 481, PS 484 or BA 200. Students desiring to strengthen their writing skills should include additional composition courses as well.

In making admissions decisions, law schools give greatest consideration to a student’s grade point average, LSAT score and writing sample, and academic letters of recommendation. Students are encouraged to major in a subject area in which they are interested and in which they can maintain a high grade point average.

The Department of Speech and Hearing Sciences offers undergraduate curricula that provide both a broad, eclectic exposure to communication processes and disorders and a solid foundation for graduate studies in the field. The department provides an ideal blend of academic, clinical, and research activities for both undergraduate and graduate students.

Educational and Clinical Services
In addition to its academic programs, the Department of Speech and Hearing Sciences operates a number of clinical and public services: (1) The Speech-Language-Audiology Clinic provides students with an orientation to clinical procedures used in speech-language pathology and audiology; the clinic is accredited by the Professional Services Board of the American Speech-Language-Hearing Association and provides diagnostic services and therapy programs to students, faculty, and the community. (2) The Children’s Center for Communication and Development provides an interdisciplinary approach to diagnosis and treatment of communicatively handicapped and developmentally delayed infants and preschool children. (3) The DuBard School for Language Disorders provides speech-language and educational services for individuals with severe disorders of language.

Requirements for a Major in Education of the Deaf
Specific course requirements for an undergraduate degree in Education of the Deaf are shown on the PACE Degree Plan. Students must adhere to all teacher education requirements, including an overall GPA of 2.50 on forty-four (44) hours of general core courses, an approved sequence of professional course work, the successful completion of student teaching, and obtaining passing scores on the Praxis Examination. Students must earn a grade of C or higher in all Education of the Deaf courses and in all required professional education courses.

Requirements for a Major in Speech-Language Pathology and Audiology
The specific course requirements (shown on the PACE Degree Plan) are designed to provide a pre-professional foundation for continued course work on the graduate level. Since professional certification and licensure require the master’s degree, students should plan to apply for graduate study at The University of Southern Mississippi or another accredited graduate program following the completion of undergraduate study.

Requirements for a Minor in Education of the Deaf
All students pursuing a minor in Education of the Deaf must complete eighteen (18) hours. Courses required for the minor are SHS 323, 329, and 425. Recommended courses are SHS 302, 340, and 421.

Requirements for a Minor in Speech-Language Pathology and Audiology
All students pursuing a minor in Speech-Language Pathology and Audiology must complete eighteen (18) hours. Courses required for the minor are SHS 211, 221, and 423. Recommended courses are SHS 301, 425, and 431.

The Department of Speech Communication is dedicated to teaching students how communication fosters success in personal relationships, business settings, and society. Focusing on oral, face-to-face human interaction, our courses teach students how to persuade, manage conflicts, lead groups, interview, and interpret nonverbal messages. Though our primary goal is to prepare students for life, we also enable students to find suitable employment in business, government, and nonprofit organizations. This major also prepares students for careers as teachers, lawyers, and clergy. Many surveys of employers indicate that the ability to communicate well with other people is the number one quality sought in job applicants. The Speech Communication major offers undergraduate students an exciting, involving, and evolving field of study. A graduate program awarding both master’s and doctoral degrees contributes to a stimulating intellectual environment for all students.

Degree Requirements

Students are required to take thirty-nine (39) hours of Speech Communication courses. Four required courses are SCM 111, SCM 305, SCM 311, and SCM 330. Students select the remaining hours in conjunction with their major adviser.

All departmental courses at the 400 level are “writing intensive” and can count toward that general education requirement. Students must fulfill the university’s capstone experience requirement by taking SCM 450. Check with your adviser for any changes in these policies.

Students interested in an organizational communication (business) orientation are advised to take SCM 312, SCM 315, SCM 350, SCM 410, SCM 420, and SCM 430. Complementary minors in such areas as Journalism/Public Relations, Marketing, and Management may be arranged in consultation with the major and minor adviser.

Requirements for a Speech Communication Major with Teaching Licensure

The licensure program certifies the graduate to teach Speech Communication in grades 7-12. It meets or exceeds the requirements set down by the Mississippi State Department of Education and earns NCATE (National Council for Accreditation for Teacher Education) licensure. Meeting NCATE requirements carries with it automatic licensure in 30 states in addition to Mississippi. Students should note that the total hours required by this program exceeds the university minimum of 128 hours in order to maintain a program of the highest quality in the teaching area plus NCATE licensure. Students must earn a grade of C or higher in all Speech Communication courses and in all required professional education courses.

Requirements for a Minor in Speech Communication

All students pursuing a minor in Speech Communication must complete eighteen (18) hours of Speech Communication courses. The following courses are required: SCM 305, 311, and 330. The following courses will not count toward the minor: SCM 300L, 411, 459, 459L, 488, 489, and 492.

Communication Program

The Communication Program offers an interdisciplinary major jointly sponsored by the Departments of Speech Communication and the School of Mass Communication and Journalism. This 54-hour program provides students with a general background in the subject. Production and skill courses provide a practical introduction to communication industries while other courses foster an understanding of the role of communication in society. Students seeking more focused study in one of the areas of communication are advised to major in one of the programs offered by the Department of Speech Communication or the School of Mass Communication and Journalism.
Students must consult with their adviser to select courses that have been identified by the School of Mass Communication and Journalism and the Department of Speech Communication as writing intensive and that fulfill the university’s capstone experience requirement.

The Women’s Studies Program offers a minor earned through an interdisciplinary series of courses on issues and research concerning women. Its aim is to increase students’ awareness, knowledge, and critical analysis of gender issues and differences.

**Requirements for a Minor in Women’s Studies**

The minor in Women’s Studies requires eighteen (18) hours. All students must complete *Women’s Studies* 301: *Introduction to Women’s Studies*. The remaining hours must be distributed among at least three disciplines. The following are approved for Women’s Studies credit in every semester in which they are taught:

- ANT 452: Language, Gender, and Culture
- CJ 463 (Cross-listed as WS 427): Family Law
- CJ 464 (Cross-listed as WS 428): Family Violence
- DAN 430 (Cross-listed as WS 462): Dance History I
- DAN 431 (Crosslisted as WS 463): Dance History II
- ENG 468 (Cross-listed as WS 403): British Women Writers
- ENG 478 (Cross-listed as WS 602): American Women Writers
- *NSG 336*: Nursing Care of Childbearing Women and Families
- *NSG 336L*: Nursing Care of Childbearing Women and Families Laboratory
- HIS 328 (Cross-listed as WS 310): Ancient & Medieval Women
- HIS 477 (Cross-listed as WS 410): Women in American Society
- PS 405 (Cross-listed as WS 420): Women and Politics
- SCM 475: Gender Issues in Speech Communication
- SOC 415 (Cross-listed as WS 425): Sociology of Gender
- WS 401: African Women Writers
- WS 450: Seminar in Women’s Studies
- WS 490: Directed Research in Women’s Studies

*These courses are open only to students enrolled in Nursing degree programs.

Special topics courses in various disciplines will be approved for credit on a semester-by-semester basis, and more regular courses will be added as they are developed. Students should be advised by the program director each semester.

The College of Marine Sciences offers multidisciplinary graduate-level, research-oriented academic degree programs. College faculty are located on both the Mississippi Gulf Coast and in Hattiesburg. Gulf Coast locations include the John C. Stennis Space Center, near Bay St. Louis, Mississippi, the J. L. Scott Marine Education Center and Aquarium in Biloxi, and the Gulf Coast Research Laboratory in Ocean Springs. The College offers Master of Science and Doctor of Philosophy degrees in Marine Science and a Master of Science in Hydrographic Science (through the Department of Marine Science), Master of Science and Doctor of Philosophy degrees in Coastal Sciences (through the Department of Coastal Sciences), and a Bachelor of Science in Marine Biology (through the Department of Biological Sciences). Marine Science graduate emphasis areas are Biological Marine Science, Physical Marine Science, Geological Marine Science, and Chemical Marine Science.

More than 20 upper-level, undergraduate courses in Biological Sciences (BSC), Coastal Sciences (COA), Marine Science (MAR), and Science Education (SCE) are offered at the Gulf Coast Research Laboratory, mainly during the summer. Marine Science (MAR) graduate courses in biological, geological, and physical oceanography and marine chemistry are offered at the Stennis Space Center. MAR 151 (a general curriculum natural sciences elective) is offered on the Hattiesburg campus. The Department of Coastal Sciences (COA) offers specialized courses at the graduate level focused on research in the areas of aquaculture, coastal and marine fisheries, coastal geology, invertebrate zoology and biology, coastal ecology, parasitology, estuarine chemistry, toxicology, botany, applied molecular techniques, science education, and biodiversity and systematics. The college also cooperates with the departments of Geology, Physics and Astronomy, and Chemistry and Biochemistry to provide state-of-the-art research and educational opportunities.

Undergraduates interested in preparing for graduate study in Marine Science or Coastal Sciences should pursue a bachelor’s degree program in their department of choice, developing a strong background in biology, chemistry, geology, physics, and mathematics through calculus. Students interested in the Marine Biology degree in the Department of Biological Sciences should review that section of the catalog.

COMS Campuses

Gulf Coast Research Laboratory

The Gulf Coast Research Laboratory (GCRL), located in Ocean Springs, has offered summer courses in the marine sciences since 1947. GCRL is a campus of 50 acres that is home to the Department of Coastal Sciences, the Center for Fisheries Research and Development, and the Mississippi-Alabama Sea Grant Consortium. Nearly 200 faculty, technical and support personnel, and students work on this campus.

J. L. Scott Marine Education Center and Aquarium

The state’s Gateway to the Gulf, the J. L. Scott Marine Education Center and Aquarium (Scott Aquarium) is Mississippi’s largest public aquarium. This facility, located in Biloxi, features 48 aquariums and a central 42,000-gallon tank whose inhabitants are representative of those found in the Gulf of Mexico. Science education and a suite of hands-on marine programs have earned the Scott Aquarium an international, award-winning reputation. Annual visitation at the Scott Aquarium is 75,000 to 80,000.
John C. Stennis Space Center

The NASA John C. Stennis Space Center (SSC) is home to more oceanographers than any other location in the world. USM students and faculty have the opportunity to interact with more than 1,000 scientists, engineers, and technical personnel who work at this site located near Bay St. Louis, Mississippi. Collaborations are possible with personnel at the Naval Research Laboratory, the Naval Oceanographic Office, the Naval Meteorology and Oceanography Command, the National Oceanic and Atmospheric Administration’s National Data Buoy Center, the National Marine Fisheries Service, the U.S. Environmental Protection Agency’s Gulf of Mexico Program, the U.S. Geological Survey, the National Aeronautics and Space Administration laboratories, and other agencies.

Undergraduate Research

The Department of Marine Science, located at the NASA John C. Stennis Space Center, provides opportunities for undergraduate students to conduct research in the laboratories of Marine Science faculty members. This individualized study consists of Special Topics and Special Problems courses that allow students to gain experience in marine science research through participation with faculty in various field, laboratory, or library research projects. Departmental approval must be obtained before a student can participate in the undergraduate research program. For further information, contact the Department of Marine Science, 1020 Balch Blvd., Stennis Space Center, MS 39529; (228) 688-3177; marine.science@usm.edu.

Summer Field Program at GCRL

The College of Marine Sciences, through its Department of Coastal Sciences, offers a selection of accelerated, field-oriented graduate and undergraduate courses during the summer at the Gulf Coast Research Laboratory (GCRL) campus. Summer courses at GCRL are listed in this Bulletin under the three primary departments involved in the program: Coastal Sciences (COA), Biological Sciences (BSC), and Marine Science (MAR). Where appropriate, courses are also cross-listed by Geology, Chemistry, and Science Education. Summer courses are available for graduate or undergraduate credit. Graduate students may also conduct thesis, dissertation, and directed research at GCRL.

Admission to the Field Academic Program

Due to space limitations for the field-oriented courses, students may need to apply directly to the GCRL for admission to the accelerated summer courses. Courses may fill during registration through the Web. Contact the Summer Program Coordinator, Department of Coastal Sciences, Gulf Coast Research Laboratory, P.O. Box 7000, Ocean Springs, MS 39566-7000, for application materials. The Gulf Coast Research Laboratory is affiliated with 65 colleges and universities whose students participate in the summer academic program. Admission and registration for the GCRL Summer Field Program begin once registration through the Web (www.coms.usm.edu) has closed. Early application to the summer program through the Web is prudent because most courses fill quickly.

Course Loads

The Summer Field Program courses are offered during two five-week terms. Because courses are taught at an accelerated pace, i.e., an entire semester of lecture and laboratory are taught in five weeks, a student is allowed to enroll in only one course each term. Students are able to earn up to twelve (12) semester hours credit during the summer. Classes meet each weekday with particular times scheduled for field trips, classroom instruction, and laboratory work.
Housing

Limited summer housing is available on the GCRL campus in an air-conditioned dormitory that was fully remodeled in 2000. During the summer sessions, the dining hall serves three meals daily to dormitory residents.

Fees

- Deposit ............................................................................................................. $50
- Undergraduate .................................................................................... $162 per semester hour
- Graduate ............................................................................................ $216 per semester hour
- Room and Board .................................................................................. $135 per week

(Fees are subject to change without prior notice.)

Students pay fees directly to the GCRL. Students with loans arranged through USM should notify the GCRL Office of Student Services at the time of application for admission to the GCRL program. Additional fees may be assessed to cover fuel expenses for extended cruises.

Calendar

- Application Deadline .................................................................................. May 1, 2003
- First summer term begins ........................................................................ May 26, 2003
- Second summer term begins ..................................................................... June 30, 2003

Undergraduate Research

The Gulf Coast Research Laboratory provides opportunities for USM undergraduate students to conduct research at the Laboratory through the Summer Field Program. This individualized study consists of special topics and special problems courses that allow students to study in subject areas for which there are no formal course offerings. These courses are tailored to provide advanced students the opportunity to participate in field, laboratory, or library research with qualified faculty and staff members. The research problems must be marine related and be of a nature that prevents the work from being easily conducted on the USM campus. Departmental approval must be obtained before a student can enter this program. For further information, contact Office of Student Services, Gulf Coast Research Laboratory, P.O. Box 7000, Ocean Springs, MS 39566-7000; telephone (228) 872-4201.

Mission

The College of Nursing provides educational programs to prepare professional practitioners in the discipline of nursing for diverse populations; promotes service activities to the community, the nursing profession, and the university; and fosters research and scholarly activities to expand nursing knowledge and practice. The curricula prepare the beginning generalist in professional nursing and the advanced practitioner for leadership in health care systems.

The faculty envision the College of Nursing as an academic entity in which a diversified body of undergraduate and graduate students are prepared as expert nursing professionals able to think critically and provide leadership at various levels in their fields of practice. The college is viewed as a center for the development of new knowledge and improved forms of practice for nursing.

The faculty envision the College of Nursing of The University of Southern Mississippi will be distinguished as

1. a statewide, regional and international center for nursing education, practice expertise, and leadership;
2. a center of academic excellence grounded in the most innovative nursing education and the most advanced research;
3. a provider of regional health initiatives to promote and maintain the health and health care of citizens; and
4. a center of doctoral education in nursing for the state.

Organization and Administration

The College of Nursing offers programs at three sites—Hattiesburg, the Gulf Coast, and Meridian. The dean of the College of Nursing is responsible for the implementation of programs on all sites. The assistant deans for undergraduate and graduate programs facilitate the implementation of these curriculum. There are coordinators at Meridian and the Gulf Coast campuses who coordinate scheduling, student admission, and advisement at these sites.

History

Following a year of planning and curriculum development, the first students were admitted to the School of Nursing in September 1967. The School of Nursing received National League for Nursing accreditation in 1969. The first bachelor of science degrees with Nursing as a major were conferred in May 1969. The degree title was changed to Bachelor of Science in Nursing (BSN) April 1991. The school became the College of Nursing in November 1997.

Accreditation

The College of Nursing program is accredited by the National League for Nursing Accrediting Commission and approved by the Board of Trustees of State Institutions of Higher Learning and the Commission on Collegiate Nursing Education (CCNE).
Baccalaureate Program

The Baccalaureate Program offers preparation in general education and education for the professional practice of nursing in a variety of settings. Courses in the liberal arts and humanities, the sciences, and the professional component are selected to prepare the student to assume effectively the role of citizen and professional practitioner. Part-time studies are available; however, full-time students will be given priority for class space.

Successful completion of the nursing program leads to the Bachelor of Science in Nursing Degree and permits the student to make application to take the National Council Licensure Examination for RN licensure. Applicants who have been convicted or have charges pending against them for a felony or misdemeanor in any state may be denied permission to take the licensure examination by the Mississippi State Board of Nursing.

Admission

All students entering the College of Nursing directly from high school and all students transferring to the College are subject to the admission procedures and standards of the university. Admission to The University of Southern Mississippi as a pre-nursing student does not ensure progression to the upper division nursing major.

Students having completed at least 75 percent of the prerequisite nursing courses may make application to the College of Nursing for progression to the Nursing major. Application forms may be obtained through the Office of Student Services, Room 110, Harkins Hall. The deadline for return of completed applications is:

The fall term admission is March 1
The spring term admission is October 1.

There are no exceptions to these two filing dates.

In addition to filing an application, the following minimum requirements must be met for consideration for admission to the College of Nursing:

1. An Enhanced ACT of 21 or above; a corresponding score on the ACT taken prior to October 1989 or the SAT is acceptable (not applicable to RN-BSN students).
2. An overall grade point average of 2.5 on courses prerequisite to the nursing major.
3. A minimum of a C in each prerequisite course applicable to the nursing curriculum.
4. Certification as a Nursing Assistant through a program approved by the Mississippi Department of Health or another similarly approved program.
5. All prerequisite courses must be successfully completed before beginning the nursing plan.

Note: Only one natural science course may be repeated one time.

The number of students admitted each semester will vary according to the resources available. Mississippi residents and students who have completed the nursing prerequisites at USM will receive priority in admission to the College of Nursing.

Academic Probation/Dismissal

The following policies apply to all students admitted to the College of Nursing:

1. A student may repeat only one nursing course one time depending on availability of space in the course.
2. The student who receives a second grade below a C in a nursing course is dropped from the program. Notification of dismissal will be sent to the student. The student may appeal the dismissal to the Admissions, Progression, Retention, and Recruitment Committee.
3. The inability to function safely in a clinical setting is cause for dismissal from the nursing program. (See current policies on safe clinical practice in the College of Nursing Handbook.)
4. Students who violate codes of moral/ethical conduct will be dismissed from the nursing program. (See current policies on professional integrity and impaired student nurse policy in the College of Nursing Handbook.)
Readmission
Students who have previously enrolled in nursing courses, have a break in attendance of one or more terms, and leave in good standing may reapply. Applicants are invited to file an application for readmission to the College of Nursing. The deadlines for return of completed applications are March 1 for Fall and October 1 for spring term readmission.

Students are subject to the curriculum plan of study as outlined in the *Undergraduate Bulletin* of the year of readmission. Students must also meet the readmission policies of the university.

The following are considered when an application for readmission is received by the College of Nursing:

- student’s standing in both academic and clinical courses prior to withdrawal
- student’s GPA
- availability of space in the course
- college resources

Student Advisement
Each student admitted to the program will be assigned an adviser. The adviser will assist the student in planning a program of study toward the degree, approve the schedule each semester, provide counsel, and sign the application for degree.

Expenses
The general fees and expenses are the same for nursing students as for other university students. Additional expenses incurred by nursing students such as uniforms, books, insurance, student nurse organization fees, etc., are estimated as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>3rd Year</th>
<th>4th Year</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$1,200</td>
<td>$600</td>
</tr>
</tbody>
</table>

Travel: Students are responsible for arranging transportation to off-campus hospitals and other agencies that constitute part of the program.

Insurance
Students enrolled in courses in the upper division nursing major of the nursing program are required to purchase professional and personal liability insurance through the university; a fee will be charged at the time of registration. Automobile liability insurance is required.

Health Requirements
A physical examination and selected immunizations (MMR, tetanus) are required for admission to the upper-division nursing major. A TB skin test is required yearly for the remainder of the time required to complete the program. Hepatitis vaccinations are encouraged. (See the *College of Nursing Handbook* for specific requirements.)

Registered Nurse Students*
Registered nurse students must complete the same Bachelor of Science in Nursing degree prerequisites as all other degree candidates in the College of Nursing. The prerequisites may be taken at The University of Southern Mississippi or at another accredited college or university. (See the university *Bulletin* for limitation of transfer credits.)

For registered nurse students, the NCLEX RN licensure exam will be used to validate previously earned nursing credit. At the successful completion of NSG 305, students will register for NSG 307, 361, 362, and 363. A Mississippi license is required for admission to this program.

**** Only a minor is available
The College of Science and Technology provides training in all of the classical fields of science, several contemporary multidisciplinary areas, and “career-oriented” technology degree programs.

The College of Science and Technology is organized into three schools, eight departments, and six centers or institutes. The School of Engineering Technology includes programs in Architectural, Computer, Construction, Electronics, Industrial, and Software Engineering Technology at the undergraduate level; a program in Industrial Training is also available. The School of Mathematical Sciences includes the departments of Computer Science and Statistics, Mathematics, and Physics and Astronomy; descriptions of its undergraduate programs can be found in the listings of its departments. The School of Polymers and High Performance Materials offers programs of study in Polymer Science. Other departments of the college include Biological Sciences, Chemistry and Biochemistry, Geology, and Medical Technology. The centers and institutes include those for Science and Mathematics Education, Environmental Science, Molecular and Cellular Biosciences, Formulation Science, and the Mississippi Polymer Institute.

Preprofessional programs are offered by the College of Science and Technology in the following health-related areas: medicine, dentistry, veterinary medicine, pharmacy, physical therapy, optometry, dental hygiene, health information management, occupational therapy, and cytotechnology. These programs are administered by the Pre-medical and Health Professions Office. The college also provides pre-engineering and pre-architecture curricula.

Students who matriculate at USM as a College of Science and Technology major may not subsequently attend another institution of higher learning (e.g., community/junior college, four-year college, or university) with the intention of transferring courses taken at these institutions back to their USM degree program unless they have received prior approval to take such courses by their department chair and college dean. USM students who take courses at another institution of higher learning without obtaining prior approval of their chair and dean may petition their chair and dean for inclusion of such courses in their USM degree program, but approval will be granted only if the reasons for not obtaining prior approval are substantial and warrant such an exception to the above stated policy. In all but the most unusual circumstances, USM students who take courses at another institution to repeat courses already taken at USM will not be allowed to count these courses towards the completion of their USM degree. USM students majoring in degree programs outside the College of Science and Technology who subsequently request transfer into one of the College of Science and Technology degree programs must meet all of the above conditions or receive prior approval by their new chair and dean for any exceptions.

**Teacher Licensure**

The College of Science and Technology offers several programs leading to teacher licensure at the K-12 or secondary level. Requirements for licensure include (1) an ACT composite score of 21 (SAT 860) or higher, with no scale score below 18 upon entrance into college or acceptable scores on the appropriate Praxis I examination; (2) a minimum grade point average on the 44-semester-hour general education core curriculum of 2.65 (for secondary) or 2.5 (for K-12); (3) admission to the teacher education program; (4) a C average in Freshman English Composition; (5) completion of 32 hours of professional education courses (PSY 374; REF 400; REF 469; SPE 400; a General Methods course; an Area Methods course; and Student Teaching); (6) a grade of C or better in all content courses in the academic major as well as all professional education courses; (7) acceptable scores on the Praxis II examinations (Principles of Learning and Teaching exam and Subject Assessment exam); and (8) fulfillment of major requirements in the subject area.
Students applying for admission to teacher education must be in good academic standing at USM. Students on Probation, Probation Continued, or suspension status will not be admitted to teacher education until such a time when their transcript reflects that they are in good standing.

These requirements are subject to modification; for current information students should contact the University’s Education Licensure adviser, 116 Owings-McQuagge Hall; phone 266-5522.

The State Department of Education also provides an alternate route to licensure for graduates of an accredited college or university. For details and specific procedures contact:

General Education Curriculum for a Bachelor of Science degree from the College of Science and Technology

A student wishing to obtain a Bachelor of Science degree from the College of Science and Technology must complete the university General Education Curriculum as defined below. Additionally, the student must demonstrate competency in the following area:

- Oral Communication and Presentation
- Computing
- Calculus
- The Scientific Method

Specific competency requirements are established and administered by the school or department offering the program of study and approved by the College of Science and Technology.

*Laboratory Science courses must be taught through the College of Science and Technology.

GPA Graduation Requirements

Students are required to earn a minimum GPA of 2.0 on all courses attempted at USM. Additionally, a minimum of 2.0 GPA is required on all courses attempted (transfer and at USM) within the major and minor field of study.

Interdisciplinary Minors

In addition to the degree programs offered by the College of Science and Technology, minors are available in the areas noted previously under “Academic Offerings.” Two of these minors are
interdisciplinary, one in Environmental Science and one in General Science.

Requirements for a Minor in Environmental Science

Students pursuing the undergraduate minor in Environmental Science must complete a minimum of eighteen (18) hours of course work. Courses used to meet minimum requirements in the core, major, or another minor may not be duplicated for the Environmental Science Minor. The following course is required: ESC 301 (Living in the Environment). The remaining fifteen (15) hours must be selected from among the following courses: BSC 435/L, 440/L, 441/L, 443/L, 444/L, 489/L, CHE 311/L, 411/L, 470; CHS 321, 421, 440; CJ 480, CJ 431, CSS 418, 435; ENT 430/L; ESC 250, 302, 330, 401/L, 406, 430, 450, 402/L, 431/L, 492; GGY 311/L, 323, 325/L, 370, 412/L, 417/L, 418/L, 425, 427, 474; GLY 306, 411, 465, 476; MAR 401/L, 405/L, 406/L, 422/L, 441/L, 461/L, 481/L, PLG 462, 465; SOC 461; TOX 470. From time to time, additional courses will be approved for inclusion among the fifteen hours of electives. Students should inquire about the most current listing from either the assistant to the dean, College of Science and Technology, or the director, School of Engineering Technology.

Requirements for a minor in General Science

The multidisciplinary General Science minor requires twenty-seven (27) hours from three or more appropriate fields (astronomy, biological sciences, chemistry, computer science, geology, marine science, mathematics, physics, and polymer science) with at least eight (8) hours from each field included; courses in the major are excluded.

Center for Science and Mathematics Education

Susan C. Ross, Director
(601) 266-4739

The Center for Science and Mathematics Education coordinates all programs in teacher education offered by the College of Science and Technology. Teacher education programs are offered through the departments of Biological Sciences, Chemistry and Biochemistry, Geology, Mathematics, and Physics and Astronomy. Programs in secondary teacher education require the equivalent of a major in an academic discipline and a minor in secondary education. Students interested in science or mathematics teaching licensure at the secondary level are referred to the department offering the academic discipline of their choice. Students transferring from the community and junior colleges are advised to follow the core requirements outlined for the College of Science and Technology.

Objectives

The objectives of the Center for Science and Mathematics Education are (1) to coordinate all programs in teacher education offered by the College of Science and Technology; (2) to provide, in cooperation with the Department of Curriculum, Instruction, and Special Education, a curriculum in the sciences and science methods for prospective elementary school teachers; (3) to provide the science teaching methods course and student teaching supervision for prospective secondary teachers; (4) to provide programs leading to advanced degrees in science education; (5) to work with public schools in the development of curricula, professional development, science fairs, and other activities designed to improve science instruction at all public school levels; and (6) to utilize educational technology as an effective delivery tool for professional development.

Curriculum and Programs

The Center for Science and Mathematics Education offers a three course sequence: FS 131, General Physical Science; FS 133, General Biological Science; and FS 135, Earth and Environmental Science. The courses in the Fundamentals of Science (FS) sequence are laboratory courses designed to meet core requirements for elementary education and special education majors.
In addition, the Center offers elementary and secondary science teaching courses designated in the catalog as Science Education (SCE).

Graduate programs offered by the Center for Science and Mathematics Education are described in the *Graduate Bulletin*.

### Institute of Environmental Science

**Cyndi Gaudet, Director**  
Hattiesburg, MS 39406-5137  
(601) 266-4896

The Institute of Environmental Science assembles teams of researchers from all disciplines as needed to undertake applied research in the areas of environmental studies and renewable energy resources. Providing environmental expertise to the community is another major function of the Institute.

### Center for Molecular and Cellular Biosciences

**Gordan Cannon, Coordinator**  
Hattiesburg, MS 39406-5043  
(601) 266-4221

The center is composed of scientists with expertise in the disciplines of biochemistry, microbiology, molecular biology and molecular genetics. The center facilitates research in these areas by means of a weekly Journal Club, which reviews the current literature, and the Distinguished Scientists Seminar Series, which brings world-renowned researchers to the Hattiesburg campus. In addition, the center provides a forum for interaction among graduate and undergraduate students working in the laboratories of the participating faculty. Faculty currently associated with the center are members of the Department of Biological Sciences or the Department of Chemistry and Biochemistry.

### Mississippi Polymer Institute

**James M. Evans, Director**  
Hattiesburg, MS 39406-0003  
(601) 266-4607

The Mississippi Polymer Institute was authorized by the Mississippi Legislature in 1983. The purpose of the institute is to conduct research designed to increase the utilization of Mississippi raw materials in polymers and to support the rapidly growing polymer industry in Mississippi. The institute is an integral part of the College of Science and Technology and functions as an integral component of the School of Polymers and High Performance Materials.

### Institute for Formulation Science

**Robert Y. Lochhead, Director**  
Hattiesburg, MS 39406-0076  
(601) 266-4880

The Institute for Formulation Science supports and coordinates research in formulation science. The institute is an integral part of the College of Science and Technology and functions in concert with the School of Polymers and High Performance Materials.

### The National Science Foundation Industry/University Cooperative Research Center in Coatings (NSFI/UCRC)

**Marek W. Urban, Director**  
Hattiesburg, MS 39406-0076  
(601) 266-6808

The National Science Foundation Industry/University Cooperative Research Center (NSFI/UCRC) program, initiated in 1973, currently sponsors about 58 centers across the nation. The NSF encourages formation of Cooperative Research Centers involving more than one institution. The I/UCRC in Coatings has been active since 1990, and in 2000, The University of Southern Mississippi and Eastern Michigan University formed a powerful
joint center serving coatings industries. The assets of people and equipment of the institutions are highly complementary. The Coatings Research Center is organized and operated within NSF guidelines. While NSF provides funding for infrastructure, the major portion of funding comes from member companies and organizations.

The National Science Foundation Materials Research and Engineering Research Center (MRSEC)

Marek W. Urban, Director
Hattiesburg, MS 39406-0076
(601) 266-6868

The Center for Response-Driven Polymeric Films Center (CRDPF), was established in 2002 and addresses vital scientific, engineering, and educational aspects of stimuli-response macromolecules, polymeric films and coatings that will be necessary to solve critical societal needs of the 21st century. The center focuses on understanding responses of biological systems, development of synthetic routes for responsive macromolecules, development of environmental stimuli functions leading to film formation, and development technologies for understanding formation processes of polymeric coatings.

International Coatings and Formulations Institute (ICFI)

Shelby F. Thames, Executive Director
Hattiesburg, MS 39406-0037
(601) 266-4080

The International Coatings and Formulations Institute is an organization dedicated to promoting cooperation between The University of Southern Mississippi’s School of Polymers and High Performance Materials and the coatings industry. Created in January 1998, ICFI affords participants a unique opportunity for industrial, academic, and governmental partnerships in the field of coatings and formulations innovation and commercialization.

Pre-medical and Health Professions Office

Robin Barnett, Director
Hattiesburg, MS 39406-5165
(601) 266-4724

The Pre-medical and Health Professions Office administers 10 undergraduate programs that lead to professional study in the following fields: medicine, dentistry, optometry, veterinary medicine, pharmacy, dental hygiene, physical therapy, occupational therapy, cytotechnology, and health information management. These pre-professional programs vary greatly in content and duration; all are designed to prepare students for admission to the appropriate professional school. Students interested in any of these fields are urged to contact the Pre-medical and Health Professions Office to ensure that the proper courses are taken and the necessary procedures are followed. For details regarding the individual programs, consult the descriptions below.

Pre-Cytotechnology Program

The University of Southern Mississippi offers a two-year program that prepares students for the two-year professional program within the Department of Cytotechnology, School of Health Related Professions, University of Mississippi Medical Center. Students completing this program receive the B.S. degree from the University of Mississippi.

Pre-Dental Program

Minimal requirements for admission to most schools of dentistry are similar and normally include
completion of specified courses in English, biology, chemistry, physics, and mathematics; completion of a baccalaureate degree; and scores from the nationally administered Dental Admission Test (DAT). The Program Plan for Pre-Dental outlined later in this catalog lists minimal requirements for admission to the School of Dentistry of the University of Mississippi and most other dental schools. Pre-dental students do not receive a degree in “pre-dent.” Rather, as they follow a pre-dental curriculum, they work toward completing a baccalaureate degree in the field of their choice. Students usually take the DAT the spring of the junior year and apply to dental school the fall of the senior year.

Exceptional students with as few as 90 semester hours credit, who otherwise meet admissions criteria, may be admitted to dental school; under certain conditions, those individuals may transfer credits from their first year at dental school and receive the bachelor’s degree from The University of Southern Mississippi.

Program Plan

Pre-Dental................................................................................................................................................................319

Pre-Dental Hygiene Program

The University of Southern Mississippi offers a two-year curriculum that prepares students for the two-year professional program in dental hygiene at the University of Mississippi Medical Center. Students completing the entire program receive the B.S. degree from the University of Mississippi.

Program Plan

Pre-Dental Hygiene.................................................................................................................................................319

Pre-Health Information Management Program

This curriculum prepares students for the two-year professional program within the Department of Health Information Management, School of Health Related Professions, University of Mississippi Medical Center. Acceptance into this program is dependent upon the degree of preparation and level of academic achievement of candidates and is determined solely by the professional school. Students completing the professional program receive the B.S. degree in Health Information Management from the University of Mississippi.

Program Plan

Pre-Health Information Management......................................................................................................................319

Pre-Medical Program

Schools of medicine have fundamentally similar minimal requirements for admission. Generally, these requirements include completion of specified courses in English, biology, chemistry, physics, and mathematics; completion of a baccalaureate degree; and scores from the nationally administered Medical College Admission Test (MCAT).

The curriculum outlined meets only minimal requirements for admission to the School of Medicine of the University of Mississippi and to other medical schools. Pre-medical students do not receive a degree in “pre-med.” Rather, as they follow a pre-medical curriculum, they work toward completing a baccalaureate degree in the field of their choice. Students usually take the MCAT the spring of the junior year and apply to medical school the following summer.

Exceptional students with as few as 90 semester hours credit, who otherwise meet admissions criteria, may be admitted to medical school; under certain conditions, these individuals may transfer credits from their first year at medical school and receive the bachelor’s degree from The University of Southern Mississippi.

Program Plan

Pre-Medical Program..............................................................................................................................................319

Pre-Occupational Therapy Program

The curriculum in pre-occupational therapy prepares students for the two-year professional program
at the University of Mississippi Medical Center. Students completing the entire program receive the M.S. degree from the University of Mississippi. Admission to professional programs of occupational therapy is extremely competitive, being dependent upon a strong record of academic preparation and achievement; it is determined solely by the professional school.

Program Plan
Pre-Occupational Therapy ................................................................. 320

Pre-Optometry Program
Students wishing to study optometry must complete three or more years in a pre-professional program. Currently, programs at the University of Alabama at Birmingham, the Southern College of Optometry in Memphis, Tenn., and the University of Houston in Houston, Texas, admit residents of Mississippi to professional study. The prerequisites for admission to these programs are somewhat different, and the student and pre-optometry adviser will need to determine the appropriate pre-professional curriculum to be followed. The curriculum outlined in the Program Plan for Pre-Optometry is only illustrative and does not reflect the specific entrance requirements of a particular school of optometry. The Optometry Admission Test (OAT) is a requirement for admission to all colleges of optometry and should be taken in the fall of the third year of pre-professional study.

Program Plan
Pre-Optometry .................................................................................. 320

Pre-Pharmacy Program
Colleges of pharmacy normally require four years of pre-professional training, but minimal requirements for admission vary. The student and the pre-pharmacy adviser will design the academic program to meet the specific admission criteria for the college of pharmacy that the student wishes to attend. The Program Plan outlined in this catalog meets admission requirements of the School of Pharmacy of the University of Mississippi as well as many other pharmacy schools. The Pharmacy College Admission Test (PCAT) is required by the University of Mississippi; it may also be required by other schools. It is given in February, April, and November of each year; applications are available in the Pre-medical and Health Professions Office.

Program Plan
Pre-Pharmacy .................................................................................. 320

Pre-Physical Therapy Program
The curriculum in pre-physical therapy fulfills course requirements for admission to the two-year master’s-level program within the Department of Physical Therapy, School of Health Related Professions, University of Mississippi Medical Center. A baccalaureate degree is required, and students must have observed the work of two clinical departments of physical therapy for at least forty (40) hours prior to application. Admission to professional programs of physical therapy is extremely competitive, dependent upon a strong record of academic preparation and achievement; it is determined solely by the professional school.

Program Plan
Pre-Physical Therapy ........................................................................ 320

Pre-Veterinary Program
Residents of Mississippi wishing to study veterinary medicine ordinarily apply to the College of Veterinary Medicine, Mississippi State University. Current criteria for admission to that college are given in the MSU publication, Requirements for Application to the College of Veterinary Medicine, which is available from the pre-veterinary adviser. Candidates are evaluated on the basis of pre-veterinary academic preparation, as well as expertise in management of domestic animals and experience within the food-animal industry.

The pre-vet curriculum satisfies minimal course requirements for admission to MSU’s College of
Veterinary Medicine; applicants to other schools should consult the appropriate admissions offices. Although only sixty-five (65) semester hours of undergraduate coursework are required, students are strongly advised to work towards completing the baccalaureate degree in a science field. The Veterinary College Admission Test (VCAT) is also required. It is recommended that students acquire experience working in a veterinary clinic before applying to a vet school.

School of Engineering Technology

R.A. Cade, Director
Hattiesburg, MS 39406-5137
(601) 266-4896

Adams, Ali, Annullis, Applin, Blesse, Buchanan, Coates, Endt, Fletcher, Gaudet, Herrod, Houston, Johnsey, Kemp, Ley, Leybourne, Lipscomb, Marchman, Neal, Newsom, Sulbaran, Vajpayee

The School of Engineering Technology offers seven undergraduate programs with direct application to industry. The five Engineering Technology programs listed below are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (TAC of ABET), 111 Market Place, Suite 1050, Baltimore, Maryland 21202, telephone (410) 347-7700. The following programs require a minimum of a C in MAT 101 (College Algebra) and MAT 103 (Trigonometry):

- Architectural Engineering Technology
- Computer Engineering Technology
- Construction Engineering Technology
- Electronics Engineering Technology
- Industrial Engineering Technology

The School also offers Bachelor of Science degrees in the following:

- Workforce Training and Development
- Software Engineering Technology

The School offers a two-year pre-engineering program, a two-year pre-architecture program, and programs leading to the Master of Science in Engineering Technology and Workforce Training and Development.

The baccalaureate programs provide career-oriented technology education that enables graduates to enter positions with skills that are in high demand in modern industry. All programs are designed to accept transfer students from accredited community/junior colleges and technical institutes. Guidance for transfer students is provided with the individual program information in this section; however, students planning to transfer to the School of Engineering Technology are urged to contact the appropriate Program Coordinator for details.

Minors in Engineering Technology are outlined following the corresponding major programs. Minor requirements may not be satisfied by transfer of courses from other institutions that are not accredited by TAC of ABET.

Architectural Engineering Technology

(Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology)

Desmond Fletcher, Coordinator
Hattiesburg, MS 39406-5137
(601) 266-4896 or 266-5185

The Architectural Engineering Technology program educates future Architectural Engineering Technologists in the process of producing design projects from schematics through construction. The program is designed to prepare its graduates for employment in architecturally related firms, including architects’ offices, design-build firms, engineering firms, governmental agencies, real estate development firms, planning offices, and architectural materials suppliers and manufacturers. Major courses of study include architectural design, architectural history, architectural working drawings, building materials, computer-aided design and drafting, electrical systems, estimating, mechanical systems, office practices, specifications, structural design, and surveying. Students desiring to transfer...
to a school of architecture should consult with their adviser early in their course of studies.

### Requirements for a Minor in Architectural Engineering Technology

The requirements for a minor in Architectural Engineering Technology are ACT 132/L, ACT 204, ACT 322, and nine (9) hours of Architectural Engineering Technology electives (recommended courses are ACT 315, ACT 316, and ACT 325).

### Computer Engineering Technology

(Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology)

Kamal Ali, Coordinator  
Hattiesburg, MS 39406-5137  
(601) 266-4896

The major in Computer Engineering Technology offers the student a variety of topics concerning the uses of computers and digital electronics in our technical society. The plan of study leading to the baccalaureate degree provides the student with practical applications of computer technology in combination with the theoretical background necessary for a well-rounded education. Extensive laboratory experience aids the student in the design, analysis, and application of digital electronics to the problems encountered in modern technology. Graduates of this program are expected to be knowledgeable in digital electronics, computer hardware and software, and applications involving the computer as a problem-solving tool.

### Construction Engineering Technology

(Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology)

Desmond Fletcher, Coordinator  
Hattiesburg, MS 39406-5137  
(601) 266-4896 or 266-5185

The Construction Engineering Technology program emphasizes the technology, engineering, and construction business requirements that have been historically needed by the construction industry. Construction is one of the largest and most diversified industries in the world, accounting for approximately 12 percent of the country’s gross national product. The key professional in this vast industry is the constructor. Various job titles for the constructor are estimator, scheduler, superintendent, project manager, project engineer, controls manager, materials manager, or owner. These skilled professionals are indispensable in meeting the global needs for new residential, commercial, industrial, manufacturing, civil, and environmental projects.

While requiring basic business courses, the interdisciplinary Construction Engineering Technology program offers students specialized course work in surveying, building systems, construction practices/procedures, cost estimating, scheduling, construction contracts, and structural design. Graduates are employed in both office and field positions. Employers include contractors, subcontractors, suppliers, consultants, and government agencies.

Electronics Engineering Technology
(Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology)
Randy Buchanan, Coordinator
Hattiesburg, MS 39406-5137
(601) 266-4896

The major in Electronics Engineering Technology covers a variety of topics in modern electronics, including electronic devices, digital systems and microprocessors, instrumentation, control systems, power systems, robotics, and communications. Graduates have extensive knowledge of electronics and are qualified to fill supervisory positions in the electronics industry.

Electronics Engineering Technology majors must satisfy the general core requirements of the University and the College of Science and Technology. Corresponding lecture and laboratory courses must be taken simultaneously.

Students minoring in Electronics Engineering Technology must complete eighteen (18) hours as follows: EET 110/110L, EET 111/111L, and ten (10) hours of Electronics Engineering Technology electives. Recommended courses are EET 210/210L, EET 311/311L.

Industrial Engineering Technology
(Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology)
Eyler Coates, Coordinator
Hattiesburg, MS 39406-5137
(601) 266-4896 or 266-6421

The major in Industrial Engineering Technology is designed to prepare students to meet the growing demands of industry for employees with expertise in manufacturing processes, statistical quality control, production management, automation, and computer-aided manufacturing. In addition to the traditional program emphasizing productivity improvement, a special emphasis area in manufacturing is offered. Both programs provide the graduate with a strong background in the technical sciences and applied mathematics, and prepares him or her for a wide spectrum of jobs in the manufacturing, service, and government sectors in either technical or management positions.

Workforce Training and Development
Cyndi Gaudet, Coordinator
Hattiesburg, Mississippi 39406-5137
(601) 266-4896 or 266-6181

The Workforce Training and Development curriculum is designed to produce graduates who meet industry’s requirements for skilled technical workers with expertise to assess organizational
performance improvement needs. Students gain the necessary skills to design, develop, and conduct workforce analysis and training programs. The degree requires the completion of both a technical concentration and the training and development course work. The training and development course work is designed to address key competencies for training professionals identified by the American Society for Training and Development and the U.S. Department of Labor. Students must select one of the following three technical competency concentrations offered by the School of Engineering Technology: (1) Industrial/Manufacturing, (2) Computer Technology, or (3) Environmental Science.

**Pre-Engineering Curriculum**

Ruth A. Cade, Adviser  
Hattiesburg, MS 39406-5137  
(601) 266-4896 or 266-5628

Pre-engineering provides the academic background required for transfer into an engineering school at the junior (third-year) level. The Pre-Engineering coordinator designs each student’s program to ensure that all course work can be transferred to the engineering program designated by the student. The engineering fields for which a USM student can prepare include, but are not limited to, the following:

- Aerospace Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Geological Engineering
- Industrial Engineering
- Mechanical Engineering
- Nuclear Engineering
- Petroleum Engineering

**Software Engineering Technology**

Shelton Houston, Coordinator  
Hattiesburg, MS 39406-5137  
(601) 266-4896

The Software Engineering Technology major is designed to prepare its graduates for business and industrial careers requiring the development, management, and operation of computer systems and applications in networked environments. All courses emphasize compliance with industry standards and best practices. While graduates possess the communication and programming skills in languages commonly used in business and industrial settings, each student is required to pursue a concentration that stresses the implementation of associated applications. Concentration areas include Computer Networking, Telecommunication, and Design Computing.

The broad-based curriculum provided in both hardware and software prepares graduates from the Software Engineering Technology program to find employment in positions generally classified as system administrator, system analyst, programmer, graphics designer, Internet developer, and Webmaster.

**Requirements for a Minor in Software Engineering Technology**

The requirements for a minor in Software Engineering Technology are SET 370/L and SET 390, plus twelve (12) semester hours of Software Engineering Technology concentration courses. Suggested sequence for courses are (SET 483, SET 485, SET 488, and SET 486 or SET 489) or (SET 131/L, SET 132/L, SET 231/L, and SET 232/L).
Completion of an approved sequence of courses will provide students with fundamental knowledge and skills in a selected concentration. For additional information contact the program coordinator.

The Department of Biological Sciences offers a choice of curricula leading to either the Bachelor of Science degree in Biological Sciences or the Bachelor of Science degree in Marine Biology. Course work taken within the Department of Biological Sciences can be applied to only one (1) major or emphasis. The B.S. in Biological Sciences curriculum includes the emphasis areas of Environmental Biology, Microbiology, and Molecular Biology for students seeking preparation for careers in these specific fields of the biological sciences, as well as a general Biological Sciences curriculum for students seeking broader preparation. The latter curriculum, when combined with the required education courses and other specified electives, is also well-suited for students seeking licensure as secondary school teachers of biological sciences. Students selecting the Microbiology or Molecular Biology emphases will complete the requirements for a minor in Chemistry. Students selecting the Environmental Biology or general Biological Sciences emphases or the B.S. in Marine Biology are not required to complete a minor, although completion of four additional hours in Chemistry beyond those required for these programs will satisfy the requirements for a minor in Chemistry. The teacher licensure program in Biological Sciences includes a major in biological sciences and a minor in secondary education. It is an NCATE approved teacher education program. Detailed Degree Plans for the various Biological Sciences emphasis areas and degrees are provided later in this Bulletin (see below for pages for specific emphasis areas). Information concerning the Master of Science and the Doctor of Philosophy degrees appears in the Graduate Bulletin. A student’s choice of degree program and of curriculum should be determined in consultation with an adviser.

Requirements for a Minor in Biological Sciences

Students minoring in Biological Sciences must complete eighteen (18) hours in biological sciences, including at least seven (7) hours numbered 300 or above taken at The University of Southern Mississippi.

Gulf Coast Research Laboratory

The Department of Biological Sciences is allied with the Gulf Coast Research Laboratory in Ocean Springs. Faculty at both institutions actively participate in teaching and research activities at the Gulf Coast Research Laboratory. Summer course work at Ocean Springs is strongly recommended for both undergraduate and graduate students and is required for students earning a B.S. in Marine Biology.
Department of Chemistry and Biochemistry

Chemistry majors work toward the Bachelor of Science degree. There are four emphasis areas that lead to this degree: the American Chemical Society (ACS) Certified Emphasis, the American Chemical Society (ACS) Certified Emphasis in Biochemistry, the Biochemistry Emphasis, and the Chemistry Emphasis. All four emphases prepare students for careers in private industry or government and for admission to graduate programs in the chemical sciences, medicine, dentistry, and other science-related, professional programs. For information about advanced degrees in chemistry at USM, please see the Graduate Bulletin. Licensure to teach secondary school chemistry may be obtained through the Chemistry Emphasis. Special characteristics of each emphasis area are noted below.

Chemistry majors must satisfy the general core requirements of the university and the College of Science and Technology. The semester hour requirement depends on the emphasis area studied. A minor is not required. Corresponding lecture and laboratory courses must be taken simultaneously. For a chemistry major to enroll in any chemistry course, he or she must have a grade of C or better in all prerequisite science and math courses. A chemistry major is allowed a total of three repeats in 100-, 200-, and 300-level prerequisite science and math courses to achieve the required grade of C or better; any course may be repeated only once. To graduate, a grade of C or better must be achieved in all courses counted toward the chemistry major.

ACS Certified Emphasis in Chemistry

Students completing this emphasis are certified by the Committee on Professional Training of the American Chemical Society. They take a minimum of forty-nine (49) semester hours of chemistry course work. The mathematics and science courses must be taken with the pre- and/or corequisites listed in this Bulletin. Key features of the curriculum are a requirement for physics with calculus (PHY 201/201L, 202/202L), mathematics through differential equations (MAT 285), and several senior-level chemistry courses (CHE 411/411L, 431/431L, and 494 or 496) with physical chemistry as a prerequisite. Students contemplating using this emphasis as preparation for admission to a professional school should consult with a pre-professional adviser about taking additional life sciences courses.

ACS Certified Emphasis in Biochemistry

This newest of the department’s emphasis areas is a hybrid of the ACS certified Chemistry emphasis with the biochemistry emphasis. Incorporating a rigorous grounding in mathematics and chemistry with several courses in the life sciences, this emphasis area is an excellent preparation for graduate school in a biochemistry-related field. Students interested in scientific careers in biochemistry research are, therefore, encouraged to consider the ACS certified biochemistry emphasis area.

Biochemistry Emphasis

This emphasis requires a minimum of forty-three (43) semester hours of chemistry, including eleven (11) hours of senior-level biochemistry (CHE 421/421L, 422, 424), and twenty-four (24) hours of biological sciences. It provides an excellent preparation for medical or dental school because of its extensive life sciences content. Students contemplating using this emphasis as preparation for careers as chemists in industry or government or for entry into graduate school in biochemistry or chemistry are strongly encouraged to take a full year of physical chemistry (CHE 461/461L and 462/462L).

Chemistry Emphasis

The advantage of this emphasis is its flexibility. The twenty-eight (28) hours of electives allow the student to take a minor or even a double major in many other academic areas. This emphasis requires a minimum of forty-two (42) semester hours of chemistry. It requires ten (10) semester hours of calculus, but it does not require completion of physics with calculus (PHY 201/201L,
202/202L), although this is strongly encouraged. Students contemplating using this emphasis as preparation for admission to a professional school should consult with a pre-professional adviser about taking additional life sciences courses.

Secondary School Teaching Licensure
An option with the Chemistry Emphasis allows the student to obtain Mississippi Department of Education secondary teaching licensure in chemistry, physical science, and general science. The program requires a minimum of thirty-six (36) hours of chemistry course work. Course work in Biological Sciences (BSC), Geology (GLY), and Physics (PHY) is also required, as are Science Education courses SCE 460 (Methods in Teaching Science) and 489/490 (Student Teaching). See Degree Plan for details. Students pursuing a degree in Chemistry with licensure must earn a grade of C or higher in all Chemistry courses and in all required professional education courses.

In addition, required teacher education courses include the following fifteen (15) hours: PSY 374, REF 400, REF 469, SPE 400, CIS 313. Students must consult an adviser in the department of Chemistry and Biochemistry and the current Bulletin for prerequisites and proper sequencing of courses.

Students who complete this program are eligible for a license through an NCATE-approved program.

Requirements for a Minor in Chemistry
A minor in chemistry requires 21 hours of chemistry, with a grade of C or higher in each course. CHE 100, CHE 104, CHE 104L, CHE 251, CHE 251L, and CHE 409, will not count towards the 21 hours required for the minor.

The Department of Computer Science and Statistics offers a flexible degree plan accredited by the Computing Sciences Accreditation Board. This program is offered under the CSC designation. Graduates of this program are prepared to begin professional careers in Computer Science or to pursue graduate studies. Students seeking a second degree in this program must satisfy all accreditation requirements. Under the CSS designation, the department offers a degree plan in Computer Science with an emphasis in statistics and many courses that are primarily service courses to the university community. The department offers a supplemental teacher licensure program for teachers who wish to become licensed in Computer Science Education. This licensure is granted to a teacher who is licensed in another teaching area and completes the following courses: CSS 400, CSC 101/L, CSC 102, CSC 305, CSC 307, TOE 465, and one of CSC 203, CSC 305, CSC 317, or CSC 405. For all programs, a grade of C or higher must be earned in required CSS and CSC courses. For information concerning the Master of Science degree in Computer Science, the Master of Science in Computer Science with an Emphasis in Computational Science, and the Doctor of Philosophy degree in Scientific Computing, please consult the Graduate Bulletin.

Geology is the science of the Earth. It deals with processes within the Earth and at the Earth’s surface that control landscape features, produce essential natural resources, and often result in geologic hazards. It is a science that seeks to understand the history of the Earth through geologic time and to predict the results of human interaction with the natural environment. It is an interdisciplinary science and requires a foundation in mathematics, physics, chemistry, and biology.

The Department of Geology offers the Bachelor of Science degree. Graduates are prepared for careers in environmental geology and water resources, exploration and development of petroleum and other natural resources, marine geology, space geology, and many other areas. An emphasis area prepares students for secondary science teacher licensure. The M.S. in Geology at The University of Southern Mississippi and graduate programs at other universities provide advanced training in all of these areas and also prepare students for careers in research and teaching. The Bachelor of Science degree in Geology provides a strong foundation for students planning on graduate or professional school in areas such as Marine Science, Environmental Science, Remote Sensing, Space Science, and Environmental Law.

Additional Requirements for a Degree in Geology: The degree in Geology (excluding the teacher licensure program) has two requirements that should be noted. (1) A six-semester hour course in field geology is required. Students can take this course from another university with approval of the department chair. The student is responsible for all fees, including out-of-state tuition, if applicable. (2) Students must take the exam required to qualify as a Registered Professional Geologist in the state of Mississippi. The student is responsible for the exam fee.

High School Preparation: High school students interested in careers in geology or related areas are encouraged to complete credits in biology, chemistry, physics, mathematics through second year algebra, solid geometry, and trigonometry.

Transfer Preparation: Students transferring into the Department of Geology from community colleges, other universities, or other programs should note the prerequisites for upper-level geology courses. Completion of GLY 101, GLY 101L, and at least one course in chemistry no later than the summer preceding the junior year is recommended.

Preparation for Secondary Education Licensure (General Science and Physical Science): The Department of Geology offers a Bachelor of Science degree program which leads to licensure in General Science and in Physical Science. The student must apply for admission to the Teacher Education Program through the Dean’s Office, College of Education and Psychology. For admission, a student must have a 2.65 grade point average on a restricted 44-hour general core and
meet one of the following requirements: (1) an ACT composite score of 21, with no score below 18 upon entrance to college, or (2) acceptable PRAXIS scores. Students must achieve a grade of C or better in every course required for the major (including required supporting sciences and mathematics) and in professional education courses. More details are provided in the College of Education and Psychology section of this Bulletin.

The Department of Mathematics offers a flexible curriculum for the baccalaureate degree so that individual students may tailor their university Mathematics programs to fit specific educational and career objectives. The Bachelor of Science degree in Mathematics provides a sound foundation for a broad latitude of careers in education, industry, business, and government. Most of today’s challenging careers call for continuing education beyond the bachelor’s degree, and an undergraduate major in Mathematics provides a versatile avenue for preparing for advanced studies in a number of fields, including Mathematics, Computer Science, Statistics, Management Science, Actuarial Science, Mathematics Education, and Engineering.

Students who have completed a college preparatory program in high school should begin their University mathematics programs with MAT 167. Students without this background should elect appropriate mathematics courses in consultation with their academic advisers. Mathematics majors should take MAT 340 and 326 concurrently with the calculus sequence. They can receive advanced mathematics elective credit only for those courses taken after having successfully passed MAT 340 and 326 with a grade of C or better. No mathematics or computer science course in which a student receives a grade less than C will count toward the major. Mathematics majors may not enroll in the courses MAT 102, 136, 137, 210, 308, 309, 310, 312, 314, or 410, which are designed to serve the special interests of students in other departments and colleges. They must include PHY 201 and 201L in their programs and cannot use the Fundamentals of Science courses to fulfill their science requirements. The mathematics faculty recommends that all majors include PHY 202 and 202L in their programs and that they obtain two-year proficiency in one of the following languages: French, German, Italian, or Russian.

The mathematics major who intends to pursue a career in Actuarial Science should include MAT 320, 418, 419, 420, 426, 460, and 461 in his/her program. In addition, this student should elect to take REI 325 and 326, as well as a course in macroeconomics and a course in management.

The student who desires to pursue the Secondary Teacher Education Program in Mathematics must request formal admission to the Teacher Education Program through the Dean’s Office, College of Education and Psychology. Admission requirements are subject to modification; for current information, students should contact the University’s Education licensure adviser, 116 Owings-McQuagg Hall; telephone 266-5522. A student pursuing a degree in Mathematics with licensure must earn a grade of C or higher in all required professional education courses. The required education courses include the following thirty-three (33) hours: PSY 374, REF 400, REF 469, SPE 400, CIS 313, MAT 457, MAT 457L, MAT 489, and MAT 490. The State Department of Education also provides an alternate route to licensure for graduates of an accredited college or university. Moreover, a student who has earned a baccalaureate degree in an area with secondary teacher licensure can also receive additional licensure in a second area from the State Department of Education. For instance, a student can earn additional licensure in mathematics by taking eighteen
(18) hours in mathematics. This department suggests these courses: MAT 167, 168, 169, 280, 326, and 340. A student can earn additional licensure in computer education by completing the following courses: CSC 101, CSC 101L, CSC 102, CSC 305, CSC 307, CSS 400, and IT 365. For details and specific procedures contact The Office of Educator Licensure.

Requirements for a Minor in Mathematics

Students pursuing a minor in mathematics must complete a minimum of eighteen (18) hours of Mathematics courses to include at least six (6) hours taken at The University of Southern Mississippi. Only those courses which count toward the major in Mathematics can count in the minor in Mathematics, with the exception of MAT 430 and 431, which do count in the minor but not in the major. Students seeking a minor in Mathematics are encouraged to consult a faculty adviser in the Department of Mathematics.

Department of Medical Technology

M. Jane Hudson, Chair
Hattiesburg, MS 39406-5134

Beck, Bryant, Hall, Lux, Myers

A student majoring in the Department of Medical Technology should consult the degree plan for required courses.

Admission to Junior-Level Courses

A minimum GPA of 2.0 overall and a C or better in College Algebra, a second math (MAT 102 or other Calculus), and General Chemistry lectures and laboratories are required for entrance into junior-level MTC courses. MTC 202 and 203 are prerequisites or corequisites for all junior-level MTC courses. Students must make a C or better in these courses. Other prerequisites and corequisites for MTC 302/302L, 306/306L, 309/309L, and 315 are stated in the course descriptions found in this catalog.

Progression in the Junior Year

A student must make a C or better in junior-level MTC courses. The department repeat policy for these courses is

1. A student may repeat one junior-level MTC course without permission from the department faculty to improve the grade.
2. A second repeat of junior-level courses will require specific permission of the faculty. To obtain permission, the student must present a justification in person before the faculty of the department. A favorable majority vote of the faculty is required for permission to repeat and continue as a major.

Admission to the Senior Year

During the junior year, the student will apply to the department for admission to the senior year. Students should contact the Medical Technology Department for the application procedure. A minimum overall and science GPA of 2.3 is required. Science courses used to calculate the science GPA include all BSC, CHE, MAT, ENT, CSS, and MTC courses in the curriculum. Professional liability insurance, physical report, and hepatitis, tetanus, MMR vaccinations (unless physician indicates contraindications) are required. Application completion, successful completion of all courses in the curriculum, and demonstration of qualities and attitudes that are necessary to develop as a competent professional are required. When qualified applicants exceed class size, selection will be based upon GPA. The senior year consists of two phases: Phase I, two semesters on The University of Southern Mississippi campus; and Phase II, a twenty-four week clinical session at one
of the affiliated hospitals. Preferences for hospital assignments will not be considered.

**Progression in the Senior Year**
Consult the *Medical Technology Student Policy Manual* for progression policies for the senior year.

**Affiliated Hospitals**
Forrest General Hospital: Thrash, Cole
Gulf Coast Medical Center: Dellinger, Gandour
Memorial Hospital at Gulfport: Gandour, White
Singing River Hospital: Eudy, Holland

**Accreditation**
The Department of Medical Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 8410 West Bryn Mawr Avenue, Suite 670, Chicago, Illinois 60631, phone (773) 714-8880. Upon successful completion of the program, students receive the Bachelor of Science degree in Medical Technology and become eligible to take national certifying examinations.

**Language Proficiency**
Regardless of courses taken previously, if English is not the native language of any student, evidence of English proficiency must be provided prior to admission into the senior year. The MTELP (Michigan Test of English Language Proficiency) requirement is “Proficiency II” and is preferred by the department. Alternately, a TOEFL of 550 may be accepted. In addition, a score of 4 (“functional language skills”) must be earned on a fluency test administered by the English Language Institute. This fluency test is specifically designed to determine listening and speaking skills with respect to situations and language expected during the senior year of the program.

**MLT Matriculation**
MLT students who hold an associate’s degree from a NAACLS accredited MLT program and certification as a Medical Laboratory Technician (or equivalent) from a nationally recognized certifying agency are not required to take the MTC courses prior to the practicum, with the exception of MTC 492, as long as their transcripts document equivalent courses taken as part of the community college program and a grade of C or above was obtained in each MLT course. MLT students must successfully complete university and college core requirements.

**Essential Functions**
Essential functions, the nonacademic standards that a student must be able to master to participate successfully in the program, are available upon request from the department office and are on the department Web page at [www.medtech.usm.edu](http://www.medtech.usm.edu). During the first advisement session, the essential functions are automatically provided to Medical Technology majors.

**Master of Science Degree**

Mission Statement:

- To transmit, create, and apply the knowledge and methods of physics through the avenues of teaching, research, and service
- To provide a quality Bachelor of Science in Physics that provides students with an understanding of the fundamentals of Physics and fosters in them a broad and intellectual viewpoint. Graduates of our program will be prepared for technical positions in industry, positions in government laboratories, and positions as high school Physics teachers, as well as graduate study.
- To provide a quality Master of Science program in Physics that enables students to perform research in fundamental science by designing research problems, conducting research projects, and disseminating research findings.
- To provide leadership within the state of Mississippi in Physics research through the participation of the faculty in pioneering pure and applied research and the dissemination of the resulting new knowledge and methods.
- To serve the university and community by providing an understanding of scientific and technological issues facing society.

The Department of Physics and Astronomy offers programs of study leading to the Bachelor of Science degree in Physics and the Master of Science degree in Physics, which may include an emphasis in department also participates in the Scientific Computing doctoral program. Information relating to the master’s and doctor’s degrees may be found in the Graduate Bulletin.

A Bachelor of Science degree in Physics is excellent preparation for any career that requires analytical and/or quantitative work. The physics programs at USM are designed to prepare majors for advanced study in Physics (master’s and doctor of philosophy), to obtain technical positions in the industrial and governmental sectors, and to become high school Physics teachers. Students interested in Physics teaching certification should seek advisement in the Department of Physics and Astronomy. In addition, Physics is a gateway into other areas, such as Astronomy, Biophysics, Chemistry, Computational Science, Geophysics, Engineering, Medicine, Oceanography, Patent law, Radiology, etc.

It is assumed that the minimum high school mathematical preparation of entering freshman Physics students includes algebra, geometry, and trigonometry.

The School of Polymers and High Performance Materials offers programs of study leading to the degrees of the Bachelor of Science in Polymer Science, the Master of Science in Polymer Science and in Polymer Science and Engineering, and the Doctor of Philosophy in Polymer Science and Engineering. The school was awarded Commendation status by the Board of Trustees in 1983 as a result of a statewide five-year program review. For information concerning the master’s and doctor’s degrees, see the Graduate Bulletin.

The objective of the undergraduate curriculum is to prepare the graduate to enter the industrial community, to continue studies at the graduate level, or to pursue a variety of professional degrees. The Bachelor of Science in Polymer Science constitutes an interdisciplinary program of study and, therefore, no minor is required. Enrollment in any polymer class requires that the student has achieved a grade of C or higher in the designated prerequisite course(s). No polymer science course in which a student receives a grade less than C will count toward the polymer science major. The School of Polymers and High Performance Materials is a nationally ranked, top 10 program.

The above listing is based on currently known requirements for schools of architecture and recommended courses to better guarantee success in those schools. It is recommended that each student verify transfer of credit to the Architectural School of choice prior to entering our Pre-Architecture program at USM.
### PRE-ENGINEERING

**Program Plan**

01. WRITTEN AND ORAL COMMUNICATION (9 HRS)
   - ENG 101 (Comp One)
   - ENG 102 (Comp Two)
   - Speech Communication (SCM 111 OR SCM 320)

02. BASIC SCIENCE AND MATHEMATICS (33 HRS)
   - CALCULUS (MAT 167, MAT 168, MAT 169)
   - MAT 280
   - MAT 285
   - CHE 106, CHE 106L
   - CHE 107, CHE 107L
   - PHY 201, PHY 201L
   - PHY 202, PHY 202L

02. HUMANITIES (6 HRS)
   - SELECT 2 COURSES FROM ONE GROUP BELOW:
     - WESTERN CIVILIZATION (HIS 101, HIS 102)
     - AMERICAN HISTORY (HIS 201, HIS 202)
     - LITERATURE (ENG 203, ENG 340, ENG 350, ENG 351, ENG 370, ENG 371, ENG 372)
     - RELIGION (REL 131, REL 333, REL 335, REL 435, REL 436)
     - PHILOSOPHY (PHI 151, PHI 253, PHI 300, PHI 316)
     - FOREIGN LANGUAGE (CHI, FRE, GER, GRK, ITA, JPN, LAT, RUS, OR SPA)

04. AESTHETIC VALUES (3 HRS)
   - FINE ART APPRECIATION:
     - ART 130 OR DAN 107 OR MUS 365 OR THE 100

05. SOCIAL SCIENCES (9 HRS)
   - SELECT 1 COURSE FROM 2 GROUPS:
     - ANT 101 OR ANT 221
     - ECO 201 OR ECO 202
     - GHY 101 OR GHY 102 OR GHY 331 OR GHY 341
     - PS 101 OR PS 331
     - PSY 110 OR PSY 375
     - SOC 101 OR SOC 240 OR SOC 314
   - SELECT A THIRD COURSE FROM ONE OF THE DEPTS CHOSEN ABOVE.

06. MAJOR CORE (6 HRS)
   - ENT 100 (Engineering Graphics)
   - ENT 260 (Vector Statics)

07. PRE-ENGINEERING ELECTIVES (HOURS VARY)
   - AN ADVISER AT THE GRADUATING UNIVERSITY SHOULD BE CONTACTED TO VERIFY THE TRANSFER OF CREDITS INTO THE CHosen ENGINEERING PROGRAM.
   - AEROSPACE: CSS 240, (MAT 316 OR MAT 326), MAT 415
   - BIOLOGICAL: BSC 110/L, BSC 111/L, CHE: 251/L, CSS 240
   - CHEMICAL: CHE 255/L, CHE 256/L, CHE 461/L, CHE 462/L

11. ELECTIVES (8 HRS)

Minimum of 130 Hours in Program
A minimum of 64 hrs. required from four-year college, 45 hrs. 300- or 400-level courses, last 32 hrs. from USM.
Mission and Organization
The Division of Undergraduate Studies, an academic unit within the Office of the Provost, is dedicated to providing students in transition with the knowledge and skills on which to develop a successful university experience. To that end, the division administers three separate and distinct programs:

1) the General Studies Program for Undeclared majors,
2) the University (UNV) 101 Program, and
3) the Developmental Education Program for students who have not met regular admission criteria.

Given that these programs reach students at a critical point in college, the Division of Undergraduate Studies is essential to the university community in terms of promoting retention and persistence, graduation rates, academic success, and student satisfaction.

The over-arching purpose of the division is to help students make successful transitions. UNV 101 emphasizes the transition from high school, a two-year college, or the world of work to a four-year university, and specifically, The University of Southern Mississippi. The General Studies Program helps students to work through the process of deciding upon a major, while steadily making progress toward satisfying university degree requirements. The Developmental Education Program provides an academic foundation for under-prepared students to make the transition to college-level courses.

The General Studies Program provides an organized plan of study for students who are undecided or undeclared in their academic major. It is the appropriate place for USM students who wish to sample university life and various fields of study before committing to a definite major. While in General Studies, students pursue the University’s General Education Curriculum and work with specially trained academic advisers. Faculty from various disciplines provide high quality advisement that encourages students to explore, select, and eventually commit to an appropriate major, thus facilitating the timely completion of an undergraduate degree. General Studies works closely with USM’s Career Services to help the undecided student.

Ordinarily the General Studies program admits and enrolls only freshman, though transfer students may be admitted with the consent of the director. As with all programs at the university, transfer from another major into General Studies requires a minimum of a 2.00 GPA. Students may remain in the General Studies Program through sophomore status; usually the program does not accept juniors or seniors.

The Division of Undergraduate Studies administers the UNV 101 Program. UNV 101 seeks to provide a common experience for first-year students at USM, regardless of major. This course is designed to prepare students for transition to university life, specifically at The University of Southern Mississippi. UNV 101 is a two-hour, letter-graded course that may be used to fulfill degree requirements at USM. Taught in a seminar setting by trained faculty, this course encourages the development of active learning skills, promotes responsible decision-making about academic majors and career planning, and helps students establish rewarding human relationships in college with peers, professors, and the university staff.

The Developmental Education Program offers students who do not meet regular admission criteria an opportunity to enroll in a four-year public institution of higher learning in the state of Mississippi. The entire program consists of three semesters (summer, fall, and spring) of prescribed study, determined by current IHL Board policy.

The summer component of the program includes the following courses: English (ENG 90), reading (CIE 90), mathematics (MAT 90), and support lab (LS 90L). Each course is three credit hours for a total of twelve credit hours. Students who successfully complete the summer term by passing all four courses will be considered to have made satisfactory academic progress in the first phase of the program and will be eligible to continue in the fall. This includes mandatory participation in the Developmental Education Program in the fall and spring immediately following the student’s enrollment.

The fall component includes enrollment in Academic Support I (LS 101). The spring component includes enrollment in Academic Support II (LS 102). Students must pass the fall and spring components of the Developmental Education Program immediately following the completion of the student’s summer enrollment to maintain their enrollment status.

Students who fail to satisfactorily complete all three components of the Developmental Education Program are considered to have made unsatisfactory academic progress and are not eligible for continued enrollment. These students will be counseled to explore other post-secondary opportunities.

Honors education was first organized at the university in 1965 as an Honors Program, and in 1971 was named in honor of George R. Olliphant. The Honors College, established in 1976, includes the George R. Olliphant Honors Program, and provides students of superior academic ability with a broadly based undergraduate education. Its aim is to identify, encourage, and reward academic excellence in all fields and to serve students with varying academic interests. In many respects, the education offered through the Honors College may best be described as that of a small liberal arts college set within a large comprehensive university, with students encouraged to draw freely from both the college and the university. Students in the Honors College have access to small Honors classes, outstanding professors, special scholarships, and opportunities for independent study and special activities.

The curriculum of the Honors College consists of two phases: the General Honors Program for freshmen and sophomores, and the Senior Honors Program for juniors and seniors. To enter the College as freshmen, students compete with other applicants on the basis of high school grades, scores on the American College Test (or Scholastic Aptitude Test), detailed evaluations by two high school teachers and their principal or guidance counselor, and an essay. Students may also be asked to come to the campus for a personal interview. Successful completion of General Honors will be cited on the student’s transcript and diploma. The Senior Honors Program is described below.

The following is a brief description of the Honors College requirements and curriculum. For more specific details, students and advisers are urged to consult the Honors College Handbook, available on the Web at www.honors.usm.edu.

General Honors

Freshmen admitted to General Honors complete the curriculum listed below. In satisfying the General Honors requirements, students thereby fulfill the University General Education requirements. For most students, completion of General Honors will also fulfill the core requirements of their majors. Some students, however, may have to take additional core courses required specifically for their major. Students undertaking General Honors are required to complete at least 26 hours in Honors courses and departmental Honors sections, taking six or more hours of Honors course work each semester. Students are in good standing as long as they remain on track and maintain a minimal 3.0 overall average; they must graduate with at least a 3.0 average in order to receive General Honors recognition at graduation.

Senior Honors

To enter Senior Honors, the student must either complete General Honors with a minimum GPA of 3.0 or meet the following admission requirements: (1) a grade point average of 3.5 on at least 40 hours, (2) recommendations from two professors, (3) an essay, and (4) approval by the student's major department. Students must maintain a GPA of 3.25 to remain in Senior Honors. Those students entering from General Honors with a 3.0 GPA will have until the end of the first semester of their junior year to raise their GPA to 3.25. Students completing Senior Honors with the required GPA will receive the special recognition denoted by the Latin designations summa cum laude (3.8 or higher overall average), magna cum laude (3.50-3.79), or cum laude (3.25-3.49). Students will typically apply for Senior Honors during their sophomore year and, if admitted, begin the first semester of their junior year. The Senior Honors curriculum offers students opportunities for independent study in their major, for small seminars on a wide range of topics, for study abroad, and for scholarship assistance.

Senior Honors Curriculum

The Senior Honors curriculum is designed to accomplish two objectives: (1) to continue the process begun through the General Education curriculum of broadening the student’s knowledge and intellectual interests and (2) to give the student the opportunity to develop a greater understanding of the goals and methods of his or her major discipline by completing a Senior Honors project under the direction of a professor in his or her major department. The student in Senior Honors is thus required to enroll in two topical Honors Seminars outside the major (HON 403); the University Forum (HON 321, 322), Prospectus Writing (HON 301), in which the student plans the senior project; and in a research course in his or her major for completion of the senior project.

***The senior project must be done in the area of the student’s major unless specific prior approval is given by the Dean of the Honors College for a project in the area of the minor.

Senior Honors Research

The Senior Honors project involves two phases: the prospectus and the project itself. The prospectus must be presented two semesters prior to graduation; guidelines for the prospectus may be obtained from the Honors College Office. The project should reflect significant individual effort that involves library research, laboratory research, or field research. The project must conform to accepted scholarly procedure within the discipline of the major field. The project may be creative, but a creative project must be executed within the framework of accepted scholarly procedure. That is, a student who produces a creative effort must introduce that effort by adequate discussion of the nature of the creative form involved, including an indication of familiarity with other examples of that form. Any doubts as to the validity of a proposed project should be resolved in discussion among the project director, the chair of the student’s major department, and the Honors dean. Directions for the format of the senior project may be secured from the Honors College Office or in the Honors College Handbook, accessible at www.honors.usm.edu. Graduating students are expected to present their research in a public senior symposium during the semester of graduation.

The comprehensive examination must be taken no later than four weeks before the student is scheduled to graduate. The examination may be either written or oral, at the option of the major department. The exact nature of the examination is a matter for decision by the department involved, but there are general guidelines:

1. The examination should be designed so that it can be completed in a maximum of three hours.
2. The examination should test the candidate’s general knowledge of the field of the major rather than specialized information about some particular aspect of the major.
3. The examination should be uniform for all candidates within a particular semester.
4. It is the responsibility of the student to contact the department chair and request that the comprehensive examination be designed and administered. These arrangements should be made one semester in advance.
5. A student who does not pass the examination upon the first attempt may repeat it once.

Graduation Recognition

A student may graduate with General Honors or Senior Honors in the Honors College. Senior Honors will be denoted by the Latin designations, *cum laude* (GPA of 3.25-3.49), *magna cum laude* (GPA or 3.50-3.79), and *summa cum laude* (GPA of 3.80 or higher).

Financial Assistance

Students enrolled in the Honors College may apply for financial aid through the Office of Financial Aid on the same basis as any other student. Scholarships available only to Honors students are listed below.

1. **Presidential Scholarships:** Each year, the Honors College will designate a select group of Honors freshmen as Presidential Scholars. Applicants are expected to have high ACT scores, superior grades, and proven leadership ability. The value of this award is equal to tuition, fees, and room and board for a four-year period. (The recipient will receive university-mandated necessary increments each semester.) Presidential Scholars are required to maintain at least a 3.25 GPA. The Schillig-Baird Scholarships, O. L. and Marie Sims Scholarship, and the Pulley-Pulley Gough Scholarship, and others are awarded from special endowments made available for Presidential Scholarships.

2. **George R. Olliphant Scholarships:** Available to a selected number of deserving students enrolled in the Honors College.

3. **Honors Scholarships:** Freshmen admitted to the Honors College are designated Honors College Scholars. Awards are based on an excellent record of achievement on the ACT (or SAT) and in high school classes, with attention to Honors, AP, and other rigorous courses successfully completed; high school and community activities; honors and achievements; counselor and teacher recommendations; and an essay. Freshman and sophomore Honors Scholars are required to maintain a GPA of at least 3.0. Students admitted to Senior Honors are also eligible for Honors College Scholarships. Juniors and seniors are required to maintain a GPA of at least 3.25. Honors scholarships are in the amount of $150 per semester for up to $1,200 for students completing both General and Senior Honors.

4. **Travel Awards:** Special travel awards are available for the study-abroad programs sponsored by the university’s College of International and Continuing Education. Students should apply to the dean of the Honors College in late January.
The University Forum

The University Forum is a special series of lectures and programs open to all students, faculty, and townspeople. It is sponsored each fall and spring by the University Honors College and features nationally known speakers in a variety of fields. Students who attend the forum lectures and designated films, concerts, plays, and other activities may receive an hour of credit on a pass/fail basis by enrolling in HON 321 or 322. This course may be repeated by any USM student for up to 8 hours of credit.

The University of Southern Mississippi–Gulf Coast serves students at four locations: the Gulf Park Campus in Long Beach, the Keesler Center on Keesler Air Force Base, John C. Stennis Space Center in Bay St. Louis, and USM Jackson County Center located on the Jackson County Campus of the Mississippi Gulf Coast Community College in Gautier. In 1998, USM was declared a dual campus university, allowing the Coast operation to offer two undergraduate options for degree completion. A student may begin as a freshman and complete their undergraduate degree on the coast. Secondly, the articulation agreement with area community colleges assures a smooth transition for students who transfer credit to the degree programs at USM Gulf Coast. Refer to the USM Gulf Coast academic publication for specific information concerning the Gulf Coast courses and programs.

Degree Programs

USM Gulf Coast provides a flexible delivery system designed to meet the educational needs of coast citizens. Consequently, new courses and programs are added as student demand warrants and resources permit. A sufficient number of courses are now available so that USM Gulf Coast students may earn their entire baccalaureate degree(s) with majors and emphases in the following areas:

- Accounting
- American Studies
- Biology
- Computer Engineering Technology
- Computer Science
- Criminal Justice
- Electronics Engineering Technology
- Elementary Education
- English
- History
- Hospitality Management
- Industrial Engineering Technology
- Interdisciplinary Studies
- Library and Information Science
- Management
- Management Information Systems
- Marine Biology
- Mathematics
- Nursing
- Paralegal Studies
- Political Science
- Psychology
- Secondary Education
- Software Engineering Technology
- Special Education
- Technical and Occupational Education

Admission

Each new student seeking admission to USM Gulf Coast is required to file an application for admission with the Office of Admissions and Records. He or she should also request the authorities at each institution attended to send an official transcript of his or her record to the Office of Admissions and Records. Students who are applying with fewer than the twenty-four (24) hours transfer requirements must also have sent an official high school transcript showing the date of graduation. The applicant must also provide an official report of the ACT/SAT scores directly from the testing service. In order to determine an admission status and facilitate advisement, students must furnish transcripts and complete applications for admission prior to registration. Transcripts and the completed applications should be sent to the Office of Admissions and Records, USM Gulf Coast, 730 East Beach Boulevard, Long Beach, MS 39560-2699. In all other respects, admission requirements are identical with those outlined elsewhere in this Bulletin.
Course Load

Students are permitted to carry a total of twelve (12) to nineteen (19) semester hours. Nine (9) to fourteen (14) hours is considered a full load during the summer session. Nineteen (19) hours is the maximum load without approval of the division chair. Credit courses and workshops taken on any USM campus will be counted as part of the course load.

Honors

Special policies have been formulated in order to accord official recognition to students who achieve outstanding academic records. **PRESIDENT'S LIST:** Undergraduate students who earn a 4.00 grade point average on an academic load of not less than twelve (12) semester hours in one semester and have no grades of I will be placed on the President's List. **DEAN'S LIST:** Undergraduate students will be placed on the Dean’s List if they have earned a 3.25 grade point average or above on an academic load of not less than twelve (12) hours in one semester, provided they have no grade of D or below (includes F and I). **DEGREES WITH HONORS:** USM Gulf Coast students with exceptional academic records may be awarded a degree with honors or with highest honors. The residence requirement for such degrees is not less than thirty-two (32) semester hours of credit with The University of Southern Mississippi. A degree with honors will be granted to a student who maintains a grade point average of 3.5 or more. A degree with highest honors will be granted to a student who maintains a grade point average of 3.8 or more.

Tuition

*(All fees are subject to change without notice.)*

**Fall/Spring Tuition**

- Undergraduate: $162 per semester hour
- Graduate: $216 per semester hour

One-half of a student’s tuition is due and payable at the time of registration. Tuition deferred past the last day to register each semester will be billed monthly. A monthly service charge of 1.5 percent will be applied to the unpaid balance. MasterCard® and VISA® credit cards are accepted.

Financial aid may be used to satisfy the minimum payment with the following exceptions: Financial aid cannot be applied to prior balances, and work study or other forms of aid paid periodically to students may not be used to defer tuition. All financial aid must be applied to tuition before a refund can be issued.

A general tuition level cap of $1937 has been set for undergraduate students enrolled for 12-19 semester hours and $1937 for graduate students enrolled for 9-13 semester hours during the fall/spring semester. Undergraduate students enrolled for more than nineteen (19) hours will be assessed tuition for each additional hour, and graduate students enrolled for more than thirteen (13) hours will be assessed tuition for each additional hour.

Students enrolled during fall/spring semesters who are not residents of Mississippi will be assessed an additional fee of $204 per semester hour for undergraduates and $271 per semester hour for graduates, up to a maximum of $2,439.

EXPLANATION

The semester credit hours are listed after the title of each course.

Example:

100. Introduction to the Arts. 3 hrs. A team-taught investigation of the music, visual, and theatrical arts designed for students who are not otherwise academically involved with these arts. (CC 1233)

USM courses for which there are acceptable junior/community college courses are marked as (CC ____). It should be noted that there is a variance in course sequence between the junior/community colleges and USM. In addition, courses with the same junior/community college numbers vary from college to college. An adviser should be consulted prior to course scheduling.

The plus (+) sign in front of a course indicates that a special fee is charged for that course. (See Special Fees listing in Student Expenses section, page 22.) (All labs are subject to a usage fee.)

ACCOUNTING (ACC)

(Enrollment in courses numbered 300 or above requires at least junior standing. CBA majors must meet foundation prerequisites.)

300. Managerial Accounting. 3 hrs. Prerequisites: ACC 200, CSC 100. The use of accounting information in managerial decision making.

320. Intermediate Cost Accounting. 3 hrs. Prerequisites: ACC 200 with a grade of C or better, MIS 201, 202. A study of cost accounting systems and methods.

327. Intermediate Accounting II. 3 hrs. Prerequisite: ACC 200 with a grade of C or better. A continuation of ACC 325.

330. Federal Income Tax Accounting. 3 hrs. Prerequisite: ACC 300 or 325 with a grade of C or better. Introduction to federal taxation and the basic concepts and applications of federal tax laws.

401. Advanced Accounting I. 3 hrs. Prerequisite: ACC 327 with a grade of C or better. Advanced financial accounting topics.

402. Advanced Accounting II. 3 hrs. Prerequisite: ACC 327 with a grade of C or better. Advanced financial accounting topics.

407. Government and Not-for-Profit Accounting. 3 hrs. Prerequisite: ACC 325 with a grade of C or better. The study of government and not-for-profit accounting principles.

409. Auditing. 3 hrs. Prerequisite: ACC 325 with a grade of C or better. An introduction to the financial statement attest function.

412. Seminar on Contemporary Accounting Topics. 3 hrs. Prerequisite: ACC 325 with a grade of C or better. Selected readings and discussions of current accounting topics.

420. Special Problems in Accounting. 1-6 hrs. Prerequisite: Consent of director. Individual study on an approved topic in Accounting. (Students undertaking a Senior Honors Project will enroll in ACC H492.)

499. International Accounting Research Abroad. 3 hrs. Prerequisite: Consent of Program Director. A research course in international accounting offered for students enrolled in ACC 498.

ADULT EDUCATION (ADE)

440. Methods and Materials in Adult Education. 3 hrs. Reviews the uses and adaptation of various materials and techniques for teaching adults. Relates content and methods.

441. Foundations of Adult Literacy Instruction. 3 hrs. Examines the basis of reading instruction in relation to the needs and characteristics of the nonliterate adult.

442. Methods and Materials for Adult Literacy Instruction. 3 hrs. Materials, diagnostic, and evaluative procedures, and laboratory experiences will be included.

445. Teaching the Disadvantaged Adult. 3 hrs. Characteristics, needs, and problems are related to programs and procedures found to be successful.

476. Learning in Adult Education. 3 hrs. A study of learning in adulthood, and related to a range of educational programs.

478. Specialized Studies in Developmental Disabilities. 1-6 hrs. Specialized study and skill acquisition in the area of
developmental disabilities. Topics vary.

480. Applied Educational Gerontology. 3 hrs. This course prepares individuals to design and implement educational programs for older adults.

490. Special Problems in Adult Education. 1-3 hrs. May be arranged for an individual or a group with common interests. Permission of the department chairman required.

494. Student Teaching in Adult Education. 1-2 hrs. Prerequisite: ADE 440 or 441 or 442 or IVE 431 or 435. For students who plan to teach in an adult education program or a post-secondary vocational center and who are not presently employed in such a program.

495. Internship in Adult Education. 3-9 hrs. A nine-month, supervised experience for practicing teachers of adults.

497. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper-level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

AEROSPACE STUDIES (AOS)

First-Year Aerospace Studies

101. Foundation of the United States Air Force I. 1 hr. Corequisite: AOS 101L. A survey course to introduce the student to the Air Force and Air Force ROTC. Provides overview of missions and organization of the Air Force, officer professionalism, military customs and courtesies, Air Force officer opportunities, and an introduction to communication skills.

103L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 103. An application of material covered in AOS 103. Includes uniform wear, customs and courtesies, drill and ceremonies, and followership experiences.

Second-Year Aerospace Studies

201. Evolution of USAF Air and Space Power I. 1 hr. Corequisite: AOS 201L. Examines general aspects of air and space power through a historical perspective. Also covers principles of war, tenets of air and space power, and Air Force core values. Development of communication skills continues.

201L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 201. An application of material covered in AOS 201. Includes uniform wear, customs and courtesies, drill and ceremonies, and followership experiences.

203L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 203. An application of material covered in AOS 203. Includes uniform wear, customs and courtesies, drill and ceremonies, and followership experiences.

204. Air Force ROTC Summer Field Training (4 week). 2 hrs. Department Consent. An introduction to leadership and the Air Force. Topics include core values, drug and alcohol awareness, human relations, team building, problem solving, officer professionalism, and physical fitness.

Third-Year Aerospace Studies

312L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 312. An application of material covered in AOS 312 and an introduction to the leadership role and officer-type activities. Cadets are assigned positions within a wing organization with a corresponding area of responsibility.

313. Air Force Leadership Studies II. 3 hrs. Corequisite: AOS 313L. A continuation of AOS 312 with emphasis on ethics and the personnel system.

313L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 313. An application of material covered in AOS 313 through advanced leadership experiences. Cadets are assigned positions within a wing organization with a corresponding area of responsibility.
Fourth-Year Aerospace Studies

412L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 412. An application of material covered in AOS 412 through advanced leadership experiences. Cadets are assigned positions within a wing organization with a corresponding area of responsibility.

413. Preparation for Active Duty. 3 hrs. Corequisite: AOS 413L. Continues the regional studies of AOS 412 as well as examining military justice and Air Force policies and programs.

413L. Air Force Leadership Laboratory. 1 hr. Corequisite: AOS 413. An application of material covered in AOS 413 through advanced leadership experiences. Cadets are assigned positions within a wing organization with a corresponding area of responsibility.

492. Special Projects. 1-2 hrs. Requires permission of the chair.

ALLIED ARTS (AA)

100. Introduction to the Arts. 3 hrs. A team-taught investigation of the musical, visual, and theatrical arts designed for students who are not otherwise academically involved with these arts. (CC 1233)

300. Directed Art Tours. 3 hrs. Prerequisite: AA 100 or permission of instructor.

AMERICAN STUDIES (AMS)

304. Issues in America. 3 hrs. Topics vary according to professor and department in which the course is offered. May be repeated for credit if content varies.

403. Seminar in American Studies. 3 hrs. Required of American Studies majors during senior year. Open to other majors with permission of professor.

404. Issues in America. 3 hrs. Topics vary according to professor and department in which the course is offered. May be repeated for credit if content varies.

492. Special Problems. 1-3 hrs. (Students undertaking a Senior Honors Project will enroll in AMS H492.)

499. British Studies: Anglo-American Studies. 3-6 hrs. A seminar conducted in Great Britain under the auspices of the USM Institute of Anglo-American Studies.

ANTHROPOLOGY (ANT)

101. The Human Experience: A Global Perspective on Human Diversity. 3 hrs. Surveys the five major subdisciplines of anthropology (physical anthropology, archaeology, linguistics, social/cultural anthropology, and applied anthropology) to provide the student with a holistic understanding of humanity’s social and biological diversity. (CC-SOC 2213)

221. Cultural Anthropology. 3 hrs. A comparative approach to the analysis of human cultural and social diversity. (CC-SOC 2233)

241. Introduction to Physical Anthropology. 3 hrs. A study of prehistoric and modern human physical variation and its causes.

251. Introduction to Linguistic Anthropology. 3 hrs. A survey of anthropological approaches to the diversity of human languages.

311. World Cultures. 3 hrs. A survey of cultural and social patterns from each of the primary geographic and cultural areas of the world (Africa, Asia, South America, North America, Oceania, Europe, and Australia).

312. Peoples and Cultures of Europe. 3 hrs. Ethnology of Europe and the adjacent North African and Middle Eastern territories.

313. Peoples and Cultures of Africa. 3 hrs. An ethnological survey of the major culture areas of the African continent with particular reference to sub-Saharan Africa.

314. Peoples and Cultures of Asia. 3 hrs. Ethnological survey of the far East, the Indian subcontinent, Central Asia, and Insular Southeast Asia.

317. Peoples and Cultures of Mesoamerica. 3 hrs. Introduction to the major prehistoric and contemporary peoples of Mexico and Central America, including the Aztecs, Maya, and Valley of Oaxaca.

331. Survey of Archaeological Methods. 3 hrs. An examination of the conceptual frameworks and methods by which archaeologists learn about the past.

333. Archaeology of North America. 3 hrs. A study of the origin and development of prehistoric American Indian cultures.

334. Archaeology of the Old South. 3 hrs. A survey of archaeological research conducted on antebellum plantations in the Southern United States.

335. Biblical Archaeology. 3 hrs. A survey of ancient Near Eastern peoples and cultures as reconstructed by anthropology and archaeology.

342. Ethnographic Field Methods. 1-6 hrs. Methods of ethnographic fieldwork through participation in organized field studies. Permission of instructor required.

416. Forensic Anthropology. 3 hrs. An introduction to anthropological field methods and theory applicable to forensics, including bone identification and sex/age/race identification.

420. Culture and Ethnicity. 3 hrs. Prerequisite: ANT 221. An analysis of culture and ethnicity with special reference to the problem of modernization.

421. Ecological Anthropology. 3 hrs. Prerequisite: ANT 221. An examination of human cultural strategies for adaptation to different environments.

422. Economic Anthropology. 3 hrs. Prerequisite: ANT 221. The evolution of economic systems, cross-cultural analysis of economic systems, and the role of economic forces in cultural change.

423. Religion and Healing. 3 hrs. This course studies several examples of religious healing practices found in ethnographic literature creating a dialogue between indigenous and academic theories of healing.

425. Kinship and Social Organization. 3 hrs. Prerequisite: ANT 221. A comparative study of kinship and social organization, and a survey of the major anthropological theories concerning organizational variability.

427. Psychological Anthropology. 3 hrs. Prerequisite: ANT 221. Cross-cultural analysis of personality formation, perception and cognition, and mental illness.

428. Political Anthropology. 3 hrs. Prerequisite: ANT 221. A comparative survey of patterns of group decision-making, leadership, resolution of conflict, and social control in human societies.

431L. Advanced Prehistoric Analysis Laboratory. 1 hr. Prerequisite: ANT 331. Corequisite: ANT 431. A laboratory to accompany Prehistoric Archaeology. Overview of analytical techniques in archaeology and prehistoric technologies.

433. Prehistory of Southeastern Indians. 3 hrs. Prerequisite: ANT 331. A survey of the prehistoric archaeology of the Southeastern United States, especially Mississippi and adjoining states, from the first inhabitants to the time of European contact.

434. Historical Archaeology. 3 hrs. Prerequisite: ANT 331. A study of questions and techniques used on archaeological sites dating from the 15th century to the early 20th century.

435. Urban Archaeology. 8 hrs. Prerequisite: ANT 331. An examination of archaeological remains recovered in American cities.

436. Archaeology Field Methods. 1-6 hrs. Methods of fieldwork through participation in organized field projects. Permission of instructor required.

437. Heritage Resources and Public Policy. 3 hrs. The history and present state of public policy issues related to archaeological and historic resources, in their role in the planning process. Prerequisite: ANT 231, ANT 331, or ANT 333.

439. Topics in Archaeology. 3 hrs. Variable content. May be repeated three times in separate topical offerings.

441. Human Variation. 3 hrs. Prerequisite: ANT 101 or ANT 241. An exploration of human biological variation, including its sources, its classification, and its expression in different environments.

442. Medical Anthropology. 3 hrs. Prerequisite: ANT 101 or ANT 241. Introduction to the relationship between human culture and disease, especially cross-cultural comparisons of perception and treatment of illness.

445. Bioarchaeology. 3 hrs. Prerequisite: ANT 101 or ANT 241. Methods and theories used in interpretation of skeletal and mortuary data in archaeological contexts.
449. Topics in Physical Anthropology. 3 hrs. Prerequisite: ANT 101 or ANT 241. Variable content. May be repeated three times in separate topical offerings.

451. Language Planning, Culture, and Politics. 3 hrs. Study of language planning, cultural identity, and politics around the world.

452. Language, Gender, and Culture. 3 hrs. Cross-cultural study of the social basis of gender differences in language.

459. Topics in Linguistic Anthropology. 3 hrs. Variable content. May be repeated three times in separate topical offerings.

492. Special Problems. 1-3 hrs. A problem study to be approved by the department chairman. (Students undertaking a Seniors Honor Project will enroll in ANT H492.)

493. Irish Studies. 4 hrs. Variable content. Lecture series and study in Ireland under the auspices of the Center for International Education.

494. Topics in Caribbean Anthropology. 4 hrs. Variable content; lecture series, study, and fieldwork (archaeological and ethnographic) in the Caribbean under the auspices of the Center for International Education.

499. British Studies. 3-6 hrs. Variable content. Lecture series and research abroad under the auspices of the Center for International Education.

ARCHITECTURAL ENGINEERING TECHNOLOGY (ACT)

132L. Architectural Graphics Laboratory. 1 hr. Corequisite: ACT 132.

204. Building Materials. 2 hrs. Properties, characteristics, and utilization of materials used in design and construction of projects.

204L. Building Materials Laboratory. 1 hr. Study of materials used in buildings through materials research in the library and on the Internet, jobsite visitation, building of mockups related to building materials, and building of video library.

234L. Architectural CADD Laboratory. 1 hr. Prerequisite: ACT 132. Corequisite: ACT 234. Introduction to architecturally-oriented software and use to prepare plans for buildings.

253L. Architectural Working Drawings I Laboratory. 1 hr. Corequisite: ACT 235.

261. Residential Planning and Design. 3 hrs. Prerequisites: ACT 132, and ACT 204. Corequisite: ACT 261L. Analysis and problem solving in the design and planning of residential buildings.

261L. Architectural Engineering Technology Laboratory. 0 hr. Corequisite: ACT 261.

262. Architectural Design I. 2 hrs. Prerequisites: ACT 132 and ACT 204. Corequisite: ACT 262L. Residential and high-density planning (Group Residential Occupancy Classification); study and application of design principles to threedimensional visual organizations which convey spatial information.

262L. Architectural Design I Laboratory. 1 hr. Corequisite: ACT 262.

301. IRC (International Residential Code). 1 hrs. Prerequisites: ACT 132L, ACT 204, or permission of instructor. Introduction to IRC Building Code for one and two family dwelling units.

303. Principles of Energy in Interior Design. 3 hrs. Principles of thermal, atmospheric, acoustic, solar, and luminous environments as applied to design in architecture and interior design.

322. Architectural History. 3 hrs. Analysis of achievements in the design and construction of major architectural developments from early times to present.

323L. Architectural Rendering Laboratory. 1 hr. Corequisite: ACT 323.

334. Architectural Landscaping. 3 hrs. Prerequisite: ACT 262L. Principles of landscaping as applied to the building environment.

342L. Architectural Landscaping Laboratory. 0 hr. Corequisite: ACT 324.

drawings, with integration of commercial building systems.

330L. Architectural Working Drawings II Laboratory, 1 hr. Corequisite: ACT 336.

338. Architectural Working Drawings III. 3 hrs. Prerequisite: ACT 336 or permission of instructor. Corequisite: ACT 338L. Emphasis on detailing, graphics, plan coordination and development of working drawings.

338L. Architectural Working Drawings III Laboratory, 0 hr. Corequisite: ACT 338.

343. Structural Design. 3 hrs. Prerequisite: ENT 340L. Design of structural members using steel, wood, and concrete.

348L. Architectural Working Drawings III Laboratory. 0 hr. Corequisite: ACT 338.

349. Architectural Working Drawings III. 3 hrs. Prerequisite: ACT 348. Advanced topics in computer modeling and animation developed with AutoDesk Viz.

352. Digital Imaging for Architectural Rendering. 3 hrs. The techniques of processing, manipulating, and analyzing images while they are in the form of virtual two-dimensional discrete digital quantity.

363. Architectural Design II. 2 hrs. Corequisite: ACT 336L. Spatial planning of commercial buildings (Group Medical/Business Occupancy Classification); application of design processes and analytical methods; information retrieval, programming and architectural problem solving.

363L. Architectural Design II Laboratory. 1 hr. Corequisite: ACT 363.

364. Architectural Design III. 2 hrs. Corequisite: ACT 363L. Analysis of environmental and site forms as they relate to planning and design of assembly and educational structures (Groups Assembly and Education Occupancy Classification).

364L. Architectural Design III Laboratory. 1 hr. Corequisite: ACT 363.

392. Special Problems. 1-3 hrs. Prerequisites: Junior standing and approval of faculty adviser.

400. Senior Project. 3 hrs. Prerequisites: Senior standing and approval of faculty adviser.

401. Senior Project. 3 hrs. Prerequisite: ACT 400.

404. Applications of Computer-Aided Drafting and Design. 3 hrs. Prerequisite: ACT 132/L and ACT 234/L. Use of commercially-available software to create complete sets of architectural and engineering drawings.

426. Specifications. 3 hrs. Introduction to development and writing of architectural project specifications.

450. Virtual Reality Applications I. 3 hrs. Prerequisite: ACT 132/L. Comprehensive study of virtual reality techniques to real-time visualization of engineering technology topics.

457. Architectural Estimating. 2 hrs. Prerequisites: ACT 336/L or approval of instructor. Development of project budgets from schematic stages through final design using cost estimating and value engineering methods.

465. Architectural Design IV. 2 hrs. Comprehensive architectural concepts applied to institutional buildings (Group I Occupancy Classification).

465L. Architectural Design IV Laboratory. 1 hr. Corequisite: ACT 465.

492. Special Problems. 1-3 hrs. Prerequisites: Senior standing and approval of faculty adviser.

ART (ART)

(*=Permission of instructor necessary; **=Permission of department chair required; ***=Specifically equipped personal laptop computer required; specifications available through the art office, (601)266-4972, or the Web site at www.arts.usm.edu/cota_website/VACover.htm

101. Drawing I. 3 hrs. Studio. A study of the possibilities of drawing as the expression of a variety of ways of seeing and thinking. (CC 1313)

102. Drawing II. 3 hrs. Studio. Prerequisite: ART 101, or *. A continuation of ART 101 involving space, composition, and sustained drawings. (CC 1323)

111. Design I. 3 hrs. Studio. A study of the basic elemental relationships, plastic integration factors, principles, and the ordering of them toward expression. (CC 1413)

112. Design II. 3 hrs. Studio. Prerequisite: ART 111, or *. A continuation of the study of design with color theory and practice. (CC 1423)

113. Three-Dimensional Design. 3 hrs. Studio. Prerequisite: ART 111 OR *. Concepts and basic visual problems in designing sculptural form with the dimensions of height, width, and depth.
130. Art Appreciation. 3 hrs. An introduction to the visual arts for non-art majors. May not be used toward the major or minor. (CC 1113)

201. Figure Drawing I. 3 hrs. Studio. Prerequisite: ART 102, 112, 113, or *. Study of the structure and anatomy of the human figure. Drawing and study from the figure.

202. Figure Drawing II. 3 hrs. Studio. Prerequisite: ART 201 or *. Advanced study from the human figure involving composition and sustained drawings.

203. Figure Drawing III. 3 hrs. Studio. Prerequisite: ART 202 or *. Advanced drawing from the figure involving composition, expression, and personal vision.

221. Technical Foundations for Painting. 3 hrs. Studio. Prerequisites: ART 102, 112, 113 or *. Experimental problems with traditional painting media and techniques.

238. Introduction to Museum Studies. 3 hrs. This course will allow the student to study in the museum environment and become familiar with the professional duties of various museum personnel.

251. Workshop in Ceramics. 3 hrs. Traditional techniques in the forming, firing, and glazing of clay. May not be used toward the major or minor in art or art education. May be repeated. (CC 2613)

301. Drawing. 3 hrs. Studio. Prerequisite: ART 202 or *. Advanced study of visual form in drawing.

303. Drawing. 3 hrs. Studio. Prerequisite: ART 302 or *. Advanced problematic study of form in drawing moving toward personal expression.

304. Workshop in Drawing. 1-3 hrs. Arr. A variety of drawing experiences which may be pursued by students at various levels. May not be used toward the major or minor. May be repeated.

309. Visual Art Elements. 3 hrs. An introduction to visual art concepts, perceptions, and techniques in a classroom setting. For non-art majors. May not be used toward major or minor.

311. Digital Visualization.*** 3 hrs. Studio. Prerequisites: ART 101 and 111, or *. An emphasis on the design and development of imagery utilizing computer technology. Vector software will be utilized.

312. Digital Page Layout.*** 3 hrs. Studio. Prerequisite: ART 102 and 112, or *. Page layout for print and electronic applications. Page make-up software will be utilized.

313. Digital Imaging.*** 3 hrs. Studio. Prerequisites: ART 102 and 112 or *. Design and manipulation of digital imagery for print and electronic applications. Raster image software will be utilized.

321. Painting I. 3 hrs. Studio. Prerequisite: ART 102, 112, 113, or *. Introduction to problematic study of form in painting, including experiments with painting media and technique.

323. Painting III. 3 hrs. Studio. Prerequisite: ART 322, or *. Advanced problematic study of painterly form moving toward an introduction to personal expression.

324. Workshop in Painting. 1-3 hrs. Painting experiences which may be pursued by students at various levels. May not be used toward the major or minor. May be repeated.

331. Directed Museum and Gallery Tour. 1-3 hrs. Field trip and tour of galleries and museums for the viewing of original works. May be repeated.

332. History of Art I. 3 hrs. A lecture course surveying ancient through medieval art.

334. History of Art II. 3 hrs. A lecture course surveying Renaissance through contemporary art.

335. Practicum in Gallery Operations. 3 hrs. Provides experience in every facet of gallery operations, including the organization of exhibition schedules, the acquisition, design and installation of art exhibitions, and the writing of promotional material.

336. Practicum in Museum Studies. 3 hrs. Introduces the skills required to assume curatorial and managerial positions in museums. Offers instruction in the history of museums and art acquisition, exhibit design, artifact conservation, and the organization of permanent collections.

337. Practicum in Arts Management. 3 hrs. Offers experience in the organization and management of galleries, museums and arts foundations. Emphasis placed on business management and marketing, fund raising, event planning and promotion, and arts advocacy.

341. Graphic Design I/Production.*** 3 hrs. Studio. Prerequisites: ART 102, 112, 113, or *. Introduction to the history, processes and procedures of graphic design and reproduction. Computer technology and its role in graphic production is examined.
342. Graphic Design II/Typography.*** 3 hrs. Studio. Prerequisites: ART 102, 112, 113, or *. The study of letter forms, with an emphasis on typography as an expressive design element. Solutions involving traditional and computer methodologies.

343. Graphic Design III/Presentation.*** 3 hrs. Studio. Prerequisites: ART 102, 112, 113, or *. Design systems and presentation methods for graphic layout, with an emphasis on the integration of type and image.

344. Illustration.*** 3 hrs. Studio. Prerequisites: ART 201, 363 or *. Problems, solutions, and techniques involving the exploration of the image as a means of visual communication.

351. Ceramics I. 3 hrs. Studio. Prerequisite: ART 102, 112, 113. Traditional techniques in the manipulation of clay and glazing.

352. Ceramics II. 3 hrs. Studio. Prerequisite: ART 351. Traditional utilitarian techniques in manipulation of clay from the wheel.

360. Workshop in Sculpture. 3 hrs. An introduction to sculptured materials, techniques, and concepts. May not be used toward the major or minor in Art or Art Education. May be repeated.

363. Sculpture III. 3 hrs. Studio, repeatable once for additional 3 hrs. Prerequisite: ART 113 or *. Advanced study from the human figure involving three-dimensional modeling.

370. Workshop in Printmaking. 3 hrs. An introduction to printmaking techniques. May not be used toward the major or minor in Art or Art Education. May be repeated.

374. Special Problems in Printmaking. 3 hrs. Studio. Prerequisites: ART 102, 112, 113, or *. Directed study in printmaking techniques. May be repeated.

380. Workshop in Art. 1-3 hrs. Workshop in Art. Art experiences with variable content. May not be used toward the major or minor. May be repeated.

381. Photography I. 3 hrs. Studio. Introduction to basic skills with the camera and darkroom using black and white photography.

382. Photography II. 3 hrs. Studio. Prerequisite: ART 381 or *. Continuation of Art 381 with an emphasis on composition in black and white photography.

400. The Art of Italy. 3 hrs. Prerequisite:*. A travel/study course in the art of Italy.

410. Art 1900-1940. 3 hrs. The analysis of Fauvism, Expressionism, Cubism, Futurism, Dada, Surrealism.

415. Graphic Design History. 3 hrs. A lecture course designed to inform about the current trends in the plastic and graphic arts, including historical precedents. Fulfills requirement of an art history elective.

422. Painting V. 3 hrs. Studio. Prerequisites: ART 421, or *. Advanced development of a personal language and statement in painting.

423. Painting VI. 3 hrs. Studio. Prerequisites: ART 422, or *. A sustained individual effort in painting leading to the independent work of the senior project.

428. Painting Project. 3 or 6 hrs. Prerequisites: ART 422, and *. Independent expressive problem in painting culminating with an exhibition.

430. Research Methods in Art History. 3 hrs. A systematic analysis of the tools and techniques available to the art historian when conducting research into the art object. WI
434. Italian Renaissance Art History, 3 hrs. Prerequisite: ART 334. Art of Italy during the 14th through 16th centuries.

435. Baroque and Rococo Art History, 3 hrs. Prerequisite: ART 334. The art of Europe from the end of the 16th through the 18th centuries.

437. The Historiography and Methodologies of Art History, 3 hrs. This course will serve as an introduction to the historical development of art history as a field of intellectual inquiry. Emphasis placed on the major approaches that modern art historians have applied to the discipline.

438. Art 1940-Present, 3 hrs. Prerequisite: ART 334. The analysis of the many trends in art in the Post-World War II period.

441. Graphic Communication I,*** 3 hrs. Studio. Prerequisite: ART 341, 342, 343, or *. Solving conceptual problems visually requiring the application of professional level graphic communication skills.

442. Graphic Communication II,*** 3 hrs. Studio. Prerequisite: ART 441, or *. Continuation of ART 441, with particular emphasis on professional procedure.

443. Graphic Communication III,*** 3 hrs. Studio. Prerequisite: ART 442. A continuation of ART 442, with particular emphasis on professional portfolio development.

448. Graphic Communication Project,*** 3 or 6 hrs. Prerequisite: ART 443, and *. A comprehensive design study initiated by the student in an area of specified interest under the direction of a committee of faculty advisers. Public presentation of portfolio.

+451. Ceramics IV, 3 hrs. Studio. Prerequisite: ART 353. Continuation of Ceramics III.

+453. Ceramics VI, 3 hrs. Studio. Prerequisite: ART 452. Continuation of Ceramics V with a direction toward a professional level of personal expression.

+458. Ceramics Project, 3 or 6 hrs. Prerequisite: ART 453. Independent project in ceramics culminating with an exhibition. A written proposal, faculty committee, and * is required.

+462. Sculpture V, 3 hrs. Studio. Prerequisite: ART 461. Continuation of Sculpture IV.

+463. Sculpture VI, 3 hrs. Studio. Prerequisite: ART 462. Advanced sculpture, self-motivated sculpture with a direction toward a professional level of personal expression.

+468. Sculpture Project, 3 hrs. Prerequisite: ART 463. Independent project in sculpture culminating with an exhibition. A written proposal, faculty committee, and * is required.

+491. Art Internship, 1-9 hrs. A professional work-training experience with a host organization, institution, or artist as a means of preparing for a career goal or further studies. Permission of the faculty intern supervisor and department chair required. May be repeated.

+492. Special Problems in Art, 1-3 hrs. Prerequisite: Senior standing and consent of instructor. Individual research on an approved visual art problem. May be repeated. (Students undertaking a Senior Honors Project will enroll in ART H492.)

ART EDUCATION (ARE)

452. Methods in Art, 3 hrs. Prerequisite: Senior Standing and student must be formally admitted to teacher education program. Stresses the aims, objectives, and methods of art education in the K-12 classroom.

453. Practicum in Art Education, 1-6 hrs. Prerequisite: Student must be formally admitted to teacher education program. Students will participate in supervised practicum experiences in elementary and secondary educational setting. May be repeated.

482. Student Teaching in Art Education I, II. 7,7 hrs. Prerequisites: Student must be formally admitted to teacher education program. A research project to further the development of objectives, specialized art techniques, curriculum and methods of teaching in the K-12 classroom.

ASTRONOMY (AST)

111. General Astronomy I. 3 hrs. Introduction to early astronomy, tools of astronomers, and the solar system.

111L. General Astronomy I Laboratory. 1 hr. Corequisite: AST 111.

112L. General Astronomy II Laboratory. 1 hr. Corequisite: AST 112.

BIOLICAL SCIENCES (BSC)

Courses that may not be counted toward a major in Biological Sciences:

103. Biological Science. 3 hrs. Concepts and methods of biological science and their relationship to human affairs. Satisfies General Education Curriculum requirements for laboratory sciences (Category IV). Cannot be taken in combination with BSC 110 or 111 to meet the general education curriculum requirement.

103L. Biological Science Laboratory. 1 hr.

107. Human Biology. 3 hrs. Prerequisites: BSC 103 and BSC 103L strongly recommended. Basic concepts, principles, and processes in human biology, including consideration of social, moral, and ethical issues and concerns. Satisfies General Education Curriculum requirements for laboratory sciences (Category IV).

107L. Human Biology Laboratory. 1 hr. Corequisite for BSC 107.

281. Microorganisms in Food. 3 hrs. Microbiology of domestic and commercially prepared foods. Satisfies General Education Curriculum requirements for laboratory sciences (Category IV).

281L. Microorganisms in Food Laboratory. 1 hr. Corequisite for BSC 281.

Courses which may be counted toward a major in Biological Sciences:

110. Principles of Biological Science I. 3 hrs. Introduction to biological science, emphasizing cellular organization, genetics, ecology, and evolution. Satisfies the general education requirement for laboratory science. Cannot be taken in combination with BSC 103 to meet the general education curriculum requirement. (CC 1133)

110L. Principles of Biological Science I Laboratory. 1 hr. Corequisite for BSC 110.

111. Principles of Biological Science II. 3 hrs. Introduction to biological science, emphasizing diversity, organisms, and organ systems. Satisfies the general education requirement for laboratory science. Cannot be taken in combination with BSC 103 to meet the general education curriculum requirement. (CC 1141)

111L. Principles of Biological Science II Laboratory. 1 hr. Corequisite for BSC 111.

201. General Zoology. 2 hrs. Prerequisite: BSC 110 and 111 or equivalent. Systematics, functional morphology, and ecological relationships of the major animal phyla. (CC 2414)

201L. General Zoology Laboratory. 1 hr. Corequisite for BSC 201.

226. General Botany. 2 hrs. Prerequisite: BSC 110 and 111 or equivalent. Systematics, structure, physiology, growth, and development of plants. (CC 1313, 1314)

226L. General Botany Laboratory. 1 hr. Corequisite for BSC 226.

250. Human Anatomy and Physiology I. 3 hrs. Cells and tissues; integumentary, skeletal, muscular, immune, respiratory,
and circulatory systems. Satisfies General Education Curriculum requirements for laboratory sciences (Category IV). (CC 1513, 2513, 1514, 2514)

250L. Human Anatomy and Physiology I Laboratory. 1 hr. Corequisite for BSC 250. (CC 1511, 2511)

251. Human Anatomy and Physiology II. 3 hrs. Nutrition and metabolism; gastrointestinal, nervous, renal, endocrine, and reproductive systems. Satisfies General Education Curriculum requirements for laboratory sciences (Category IV). (CC 1523, 2523, 1524, 2524)

251L. Human Anatomy and Physiology II Laboratory. 1 hr. Corequisite for BSC 251. (CC 1521, 2521)

305. Evolution. 3 hrs. Prerequisites: BSC 110 and BSC 111 or equivalent; BSC 201 and GLY 103 recommended. A comprehensive treatment of evolutionary theory.

340. Environmental Biology. 3 hrs. Prerequisite: BSC 110 and 111, or comparable courses, or permission of the instructor. Fundamental principles of ecology and exploration of environmental issues.

360. Cellular Physiology. 3 hrs. Prerequisites: 8 hours of biology, 8 hours of chemistry; organic chemistry recommended. Cellular anatomy, chemistry, and physics.

361. Comparative Anatomy. 2 hrs. Prerequisites: BSC 110 and 111. Comparative anatomy and functional morphology of the vertebrates, with a phylogenetic perspective.

361L. Comparative Anatomy Laboratory. 2 hrs. Corequisite for BSC 361.

370. Genetics. 4 hrs. Prerequisite: BSC 380 or BSC 110; one semester of organic chemistry recommended. The fundamental principles of heredity.

380. General Microbiology. 3 hrs. Prerequisites: BSC 110 and 111 or equivalent. Current concepts in microbiology, including microbial structure and function, physiology, genetics, ecology, and role in disease.

380L. General Microbiology Laboratory. 1 hr. Corequisite for BSC 380.

382. Microbial Ecology. 3 hrs. Prerequisites: BSC 110, 111, 380. The study of the relationship between microorganisms and their biotic and abiotic environments.

400. History of Biology. 3 hrs. Lectures and papers concerning the development of biological sciences.

401. Natural History of Animals. 1 hr. Prerequisite: Consent of instructor. Life histories of animals.

401L. Natural History of Animals Laboratory. 2 hrs. Corequisite for BSC 401.

402. Natural History of Plants. 1 hr. Prerequisite: Consent of instructor. Life histories of plants.

402L. Natural History of Plants Laboratory. 2 hrs. Corequisite for BSC 402.

403. Natural History of Infectious Diseases. 3 hrs. A study of infectious diseases and their effect on man.

404. Field Biology. 1-2 hrs. arr. Ecological and taxonomic studies. Offered between semesters as 4- to 12-day field trips.

404L. Field Biology Laboratory. 2-4 hrs. Corequisite for BSC 404.

405. Paleobiology. 3 hrs. Prerequisite: General Zoology. Study of life forms existing in prehistoric or geologic time as represented by plants, animals, and other organisms.

405L. Paleobiology Laboratory. 1 hr. Corequisite: BSC 405.

406. Zoogeography. 3 hrs. Prerequisite: Consent of instructor. A descriptive and analytical study of the distribution of animals.

407. Biology of Vertebrates. 3 hrs. Prerequisites: BSC 110 and 111.Ecology, evolution, behavior, and conservation of vertebrate animals. Field trips when possible.

407L. Biology of Vertebrates Laboratory. 1 hr. Corequisite for BSC 407.

408. Invertebrate Zoology I. 2 hrs. Prerequisite: BSC 110, 111, 201. Functional morphology, systematics, and life histories of the phyla Porifera through the minor protostomes.

408L. Invertebrate Zoology I Laboratory. 1 hr. Corequisite for BSC 408.

409. Invertebrate Zoology II. 2 hrs. Prerequisite: BSC 408 or permission of instructor. Functional morphology, systematics, and life histories of invertebrate phyla through the Hemichorda.

409L. Invertebrate Zoology II Laboratory. 1 hr. Corequisite for BSC 409.

410. Human Parasitology. 3 hrs. Prerequisites: BSC 110, 201. Life histories, medical significance, and diagnosis of helminths and protozoa parasitic in man.

410L. Human Parasitology Laboratory. 1 hr. Corequisite for BSC 410.

411L. Entomology Laboratory. 1 hr. Corequisite for BSC 411.

412. Medical Entomology. 2 hrs. Prerequisite: Consent of instructor. Arthropod vectors and agents of disease.

412L. Medical Entomology Laboratory. 1 hr. Corequisite for BSC 412.

413. Arachnida Biology. 2 hrs. Prerequisites: BSC 110, 111. Biology, morphology, and classification of the arachnids.

413L. Arachnida Biology Laboratory. 1 hr. Corequisite for BSC 413.

414. Ichthyology. 2 hrs. Evolutionary relationships, morphology, physiology and zoogeography of fishes, with emphasis on identification of local forms.

414L. Ichthyology Laboratory. 1 hr. Corequisite for BSC 414.

415. Biology of Fishes. 2 hrs. Prerequisite: Consent of instructor. Functional morphology, ecology and behavior of fishes.

415L. Biology of Fishes Laboratory. 2 hrs. Corequisite for BSC 415.

416. Introduction to Fishery Science. 2 hrs. A survey of the biology, management, and potential yield of fish populations.

416L. Introduction to Fishery Science Laboratory. 1 hr. Corequisite for BSC 416.

417. Herpetology. 3 hrs. Prerequisites: BSC 110, 111. Ecology, evolution, and natural history of amphibians and reptiles. Field trips when possible.

417L. Herpetology Laboratory. 1 hr. Corequisite for BSC 417.

418. Avian Biology. 3 hrs. Prerequisite: BSC 361 recommended. Morphology, taxonomy, life history, distribution, evolution, and adaptations of birds.

418L. Avian Biology Laboratory. 1 hrs. Corequisite for BSC 418.

419. Mammalogy. 2 hrs. Prerequisite: BSC 361 recommended. Morphology, taxonomy, life history, distribution, evolution, and adaptations of mammals.

419L. Mammalogy Laboratory. 1 hr. Corequisite for BSC 419.

421. Marine Invertebrate Zoology. 3 hrs. Prerequisite: 16 hrs. of biology, including general zoology. Morphology, distribution, and ecology of the phyla from Protozoa through Protochordates. (May be taken as COA 428 or MAR 403.)

421L. Marine Invertebrate Zoology Laboratory. 3 hrs. Corequisite for BSC 421. (May be taken as COA 428L or MAR 403L.)

422. Science and Society: from Copernicus to the Bomb. 3 hrs. An interdisciplinary course designed for both science and liberal arts students. Traces the development of science and technology and their role in society from the Renaissance to the present. (May be taken as HIS 423 and HUM 423.)

424. Parasites of Marine Animals. 3 hrs. Prerequisite: Permission of instructor. Emphasis on morphology, taxonomy, life histories, and host-parasite relationships. (May be taken as COA 453 or MAR 404.)

424L. Parasites of Marine Animals Laboratory. 3 hrs. Corequisite for BSC 424. (May be taken as COA 453L or MAR 404L.)

425. Marine Phycolgy. 2 hrs. Prerequisites: General botany and plant taxonomy. A survey of the principal groups of marine algae. (May be taken as COA 433 or MAR 420.)

425L. Marine Phycolgy Laboratory. 2 hrs. Corequisite for BSC 425. (May be taken as COA 433L or MAR 420L.)

426. Introductory Mycology. 3 hrs. Prerequisite: Consent of instructor. Systematics, morphology, physiology, and ecology of fungi.

426L. Introductory Mycology Laboratory. 1 hr. Corequisite for BSC 426.

427. Introductory Phycolgy. 2 hrs. Prerequisite: Consent of instructor. Taxonomy, physiology, and biochemistry of the algae.

427L. Introductory Phycolgy Laboratory. 1 hr. Corequisite for BSC 427.

428. Plant Anatomy. 2 hrs. Prerequisite: Consent of instructor. A study of the anatomy of vascular plants.

428L. Plant Anatomy Laboratory. 1 hr. Corequisite for BSC 428.

429. Comparative Morphology of Plants. 3 hrs. Prerequisite: Botany or consent of instructor. Life cycles, evolution, and morphology of vascular plants.

429L. Comparative Morphology of Plants Laboratory. 1 hr. Corequisite for BSC 429.

430. Aquatic and Marsh Plants. 2 hrs. Prerequisite: Consent of instructor. Collection, identification, and ecology of plants of fresh and brackish water.

430L. Aquatic and Marsh Plants Laboratory. 1 hr. Corequisite for BSC 430.

431. Plant Physiology. 3 hrs. Prerequisite: Organic chemistry. The basic physiological processes of green plants.

431L. Plant Physiology Laboratory. 1 hr.

432. Economic Botany. 2 hrs. Prerequisite: Consent of instructor. Origin, distribution, and significance of plants most important to man.
432L. Economic Botany Laboratory. 1 hr. Corequisite for BSC 432.

433. Taxonomy of Local Flora. 2 hrs. Prerequisites: BSC 110, 111. The classification of local flora.
433L. Taxonomy of Local Flora Laboratory. 2 hrs. Corequisite for BSC 433.

434. Dendrology. 2 hrs. Prerequisites: BSC 110, 111. The taxonomic and ecological characteristics, and the distribution of trees.
434L. Dendrology Laboratory. 2 hrs. Corequisite for BSC 434.

435. Plant Ecology. 3 hrs. Prerequisite: Advanced standing in botany. Relationship of plants to their environment.
435L. Plant Ecology Laboratory. 1 hr. Corequisite for BSC 435.

436. Conservation Biology. 3 hrs. Prerequisite: Advanced standing in botany and zoology or consent of instructor. The biology of plant and animal populations in human-generated environments, with emphasis on their long-term management.
436L. Conservation Biology Laboratory. 1 hr. Corequisite: BSC 436. Labs consist of six full-day field trips held on Saturday.

437. Coastal Vegetation. 2 hrs. Prerequisite: 10 hrs. of biology, including general botany. A study of general and specific aspects of coastal vegetation, with emphasis on local examples. (May be taken as COA 434 or MAR 421.)
437L. Coastal Vegetation Laboratory. 1 hr. Corequisite for BSC 437. (May be taken as COA 434L or MAR 421L.)

438. Salt Marsh Plant Ecology. 2 hrs. The botanical aspects of local marshes: includes plant identification, composition, and structure. (May be taken as COA 435 or MAR 422.)
438L. Salt Marsh Plant Ecology Laboratory. 2 hrs. Corequisite for BSC 438. (May be taken as COA 435L or MAR 422L.)

439. Marine Ecology. 3 hrs. Prerequisite: 16 hrs. of biology. The relationship of marine organisms to their environment. (May be taken as COA 446 or MAR 405.)
439L. Marine Ecology Laboratory. 2 hrs. Corequisite for BSC 439. (May be taken as COA 446L or MAR 405L.)

440. Ecology. 3 hrs. Prerequisites: BSC 110 and 111, or consent of instructor. The study of the relationships of organisms to their environment and to each other.
440L. Ecology Laboratory. 1 hr. Corequisite for BSC 440.

441L. Population and Community Ecology Laboratory. 1 hr. Corequisite for BSC 441.

442L. Behavioral Ecology Laboratory. 1 hr. Corequisite: BSC 442.

443. Freshwater Biology. 3 hrs. Prerequisites: BSC 110 and 111, or consent of instructor. The study of the biota of ponds, lakes, rivers, and streams.
443L. Freshwater Biology Laboratory. 1 hr. Corequisite for BSC 443.

444. Limnology. 2 hrs. Prerequisites: BSC 110 and 111, or consent of instructor. The physical, chemical, and biological dynamics of inland waters.
444L. Limnology Laboratory. 1 hr. Corequisite for BSC 444.

445L. Marine Biology Laboratory. 1 hr. Corequisite for BSC 445.

446. Aquaculture. 2 hrs. Prerequisites: 12 hours of biology and 8 hours of chemistry. Production of aquatic organisms in natural and artificial environments.
446L. Aquaculture Laboratory. 1 hr. Corequisite for BSC 446.

447. Marine Aquaculture. 3 hrs. Problems and procedures relating to the culture of commercially important crustaceans, fish, and mollusks. (May be taken as COA 424 or MAR 407.)
447L. Marine Aquaculture Laboratory. 3 hrs. Corequisite for BSC 447. (May be taken as COA 424L or MAR 407L.)

448. Fauna and Faunistic Ecology of Tidal Marshes. 2 hrs. Prerequisite: Consent of instructor. Taxonomy, distribution, trophic relationships, reproductive strategies, and adaptation of tidal marsh animals. (May be taken as COA 447 or MAR 406.)
448L. Fauna and Faunistic Ecology of Tidal Marshes Laboratory. 3 hrs. Corequisite for BSC 448. (May be taken as COA 447L or MAR 406L.)

449. Marine Fisheries Management. 2 hrs. Prerequisite: Statistics recommended. A statistical review of the world fisheries. (May be taken as COA 446 or MAR 410.)

477. Microbial Genetics. 3 hrs. Prerequisite: BSC 370. The genetics and molecular biology of microorganisms and bacteriophages.

477L. Microbial Genetics Laboratory. 1 hr. Corequisite for BSC 477.

478L. Molecular Biology Laboratory. 4 hrs. Prerequisite: BSC 476 or BSC 477, or permission of the instructor. The paradigms of molecular biology in a laboratory setting.

479. Applications of Biotechnology in Marine Biology. 3 hrs. Prerequisites: BSC 110, 111, 201, CHE 106, 107, 255, 256; CHE 420 or 421, 422 recommended or permission of instructor. Basic biochemical and molecular techniques used to conduct research in marine biology. (May be taken as COA 465.)

479L. Applications of Biotechnology in Marine Biology Laboratory. 3 hrs. Corequisite for BSC 479. (May be taken as COA 465L.)

481. Pathogenic Microbiology. 3 hrs. Prerequisites: BSC 370, BSC 380, and BSC 476 or 477 or permission of instructor. The molecular mechanisms of microbial pathogenesis, emphasizing the major groups of disease-producing microorganisms.

482. Advanced Pathogenic Microbiology. 2 hrs. Continuation of BSC 481.

482L. Advanced Pathogenic Microbiology Laboratory. 2 hrs. Corequisite for BSC 482.

483. Viral Ecology. 3 hrs. The interactions between viruses and their hosting species over a wide range of taxonomic levels with emphasis on evolutionary ecology and principle types of transmission cycles.

484. Virology. 3 hrs. Viral classification, replication, and molecular biology.

484L. Virology and Tissue Culture Laboratory. 1 hr. Basic and applied tissue culture techniques.

485. Viral Pathogenesis and Diagnosis. 3 hrs. Fundamental principles of medical virology.

485L. Viral Pathogenesis and Diagnosis Laboratory. 1 hr. Corequisite for BSC 485. Immunological, molecular, and histological techniques for diagnosis of viral diseases.

486. Immunology and Serology. 3 hrs. A study of the cellular, chemical, and genetic mechanisms of the immune response.

486L. Immunology and Serology Laboratory. 1 hr. A laboratory introduction to cellular and serologic immune reactions and their diagnostic usefulness.

487. Microbial Physiology. 3 hrs. A comprehensive survey of bacterial structure, nutrition, and biochemistry.

487L. Microbial Physiology Laboratory. 1 hr. Corequisite for BSC 487.

488. Food Microbiology. 2 hrs. Microorganisms affiliated with the preparation, spoilage, pathogenicity, and sanitation of foods.

488L. Food Microbiology Laboratory. 2 hrs. Corequisite for BSC 488.

489. Environmental Microbiology. 3 hrs. Microbiology of water/air/soil; bioremediation.

489L. Environmental Microbiology Laboratory. 1 hr.

490. Marine Microbiology. 3 hrs. Prerequisite: General Microbiology. An introduction to the role of microorganisms in the overall ecology of the oceans and estuaries. (May be taken as COA 471 or MAR 409.)

490L. Marine Microbiology Laboratory. 2 hrs. Corequisite for BSC 490. (May be taken as COA 471L or MAR 409L.)

492. Special Problems I, II, III. 1-6 hrs. A course in library or laboratory research selected in consultation with the adviser. (Students undertaking a Senior Honors Project will enroll in BSC H492.)

494. Experimental Design and Data Analysis in Biology. 3 hrs. Prerequisites: PSY 360, CSS 211, or permission of instructor. Design of experiments, statistical analysis of data, and interpretation of analysis results for biological research.

495. Application of Basic Concepts for Secondary School. 3 hrs. Prerequisite: Admission to Teacher Education Program and permission of instructor. Techniques and methods in teaching biology integrating the implications of science, technology, and society.

495L. Application of Basic Concepts for Secondary School Laboratory. 2 hrs. Corequisite for BSC 495. Laboratory experiments and field experiences in secondary school biology teaching.

496. Undergraduate Seminar I, II, III. 1 hr. The presentation and discussions of current biological topics.

497. Senior Practicum. 1 hr. Prerequisite: Advanced senior standing and permission of instructor. Exercises and experiences to evaluate and develop or improve selected key professional skills. (All Biological Sciences majors must register for this course during their last academic year semester before graduation.)
BUSINESS ADMINISTRATION (BA)

(Enrollment in courses numbered 300 or above requires at least junior standing. CBA majors must meet foundation prerequisites.)

100. Introduction to Business. 3 hrs. An introductory course to the major aspects of the business world. Not open to juniors and seniors enrolled in the College of Business Administration. (CC 1113)

200. The Legal Environment of Business. 3 hrs. The study of the legal, political, and regulatory environment in which businesses operate. (CC 2413)

300. Business Administration Junior Seminar. 1 hr. Prerequisite: Junior standing in Business Administration. Topic related to career planning as well as to student success and opportunities in the College of Business Administration.

301. Managerial Statistics I. 3 hrs. Prerequisites: MAT 102, CSC 100. Basic concepts: central tendency and dispersion; probability; binomial, Poisson, and normal distributions; estimation; hypothesis testing; analysis of variance.

303. Regression Analysis. 1.5 hrs. Prerequisite: BA 301. Continuation of BA 301. The use of regression analysis for managerial decision-making.

400. Business Administration Senior Seminar. 1.5 hrs. Prerequisite: Senior standing in Business. A study of one or more current business issues.

411. Advanced Business Law. 3 hrs. Prerequisite: BA 200. A study of selected legal topics relating to credit, financial, and accounting practices.

BUSINESS TECHNOLOGY EDUCATION (BTE)

101. Keyboarding for Information Processing. 3 hrs. Development of basic keyboarding skills useful to a broad spectrum of individuals and disciplines. Designed to enhance the individual’s potential for efficient processing of both words and data on the computer.

102. Intermediate Typewriting and Introduction to Word Processing. 3 hrs. *See prerequisite below. Ability to type by touch. A thorough review of manipulative input devices with an emphasis on formatting. Letter styles, manuscripts, and tabulations are covered, utilizing industry-current software.

201. College Notetaking. 3 hrs. Theory principles; emphasis on fluency of reading and writing; some dictation and transcription. Laboratory included. (JC 1213)

202. Advanced Notetaking. 3 hrs. *See prerequisite below. Review of alphabetic or machine shorthand principles with emphasis on advanced recording techniques, pre-transcription factors, and transcription activities.

310. Advanced Word Processing. 3 hrs. *See prerequisite below. Advanced production and editing of documents with emphasis on speed and accuracy; completion of simulation projects using industry-current software.

451. Teaching Skill-Based Subjects in Business Education. 3 hrs. Prerequisites: ACC 200, CIS 313, and Gold Card. Preparation of prospective business teachers to teach accounting, keyboarding, and other skill subjects.

452. History and Philosophy of Vocational Education. 3 hrs. History, concepts, office occupations, employment opportunities, procedures, and techniques. (WI)

453. Techniques of Coordination. 3 hrs. A study of the techniques, procedures, problems, etc., in the operation of cooperative education programs.

454. Methods in Teaching Marketing Education. 3 hrs. Principles, concepts, program plans, curricula, methods and instructional materials, activities, research, and evaluation.

455. Organization and Administration of Distributive Education. 3 hrs. Basic problems, objectives, and characteristics of DE programs as applied in their development.

456L. Methods in General and Vocational Business Education Laboratory. 1 hr. Prerequisite: CIS 313, BTE 451, and Gold Card. Corequisite: BTE 456. A course designed to relate the study of theory to practical experience in a business education setting.

461. Information Processing I. 3 hrs. Microcomputer knowledge and skill development via document production utilizing integrated software (word processing, database, spreadsheet).

463. Information Processing II. 3 hrs. Microcomputer knowledge and skill development through the production of documents and business/technical presentations utilizing integrated and presentation software.
465. Microcomputer Applications in Business Technology Education. 3 hrs. Skill development in use of multiple software packages appropriate to teaching and managing technology education.

475. Legal Secretariatship. 3 hrs. A course stressing the professional aspects of legal practices, procedures, and terminology.

477. Medical Transcription. 3 hrs. Emphasis on medical terminology, records, and forms, with limited transcription.

478. Advanced Medical Transcription. 3 hrs. Prerequisite: BTE 477. Emphasis on additional medical terminology, with increased emphasis on transcription.

479. Review for the Certified Professional Secretary Examination. 3 hrs. Prerequisites: Typewriting skill. A course to prepare persons for the Certified Professional Secretary Examination. Not to be counted toward any degree at The University of Southern Mississippi.

480. Organizational Communication. 3 hrs. Prerequisites: ENG 101, 102, and junior standing. A study of communication in business organizations and the application of theory and methodology with emphasis on writing letters and reports.

492. Special Problems in Business Education. 1-3 hrs. Study approved and directed by the department chair. (Students undertaking a Senior Honor Project will enroll in BTE H492.)

493. Student Teaching in Business Technology Education. 7 hrs. Prerequisites: All courses required for major. Supervised field-based experience in secondary business technology education. Repeatable to 14 hours.

Note: Prerequisite for all typewriting and shorthand courses—Grade of C or better in the preceding course or equivalent coursework.

CHEMISTRY AND BIOCHEMISTRY (CHE)

100. Introductory Chemistry. 4 hrs. A preparatory course (for CHE 106) in chemical fundamentals; does not satisfy core requirements in any academic college.

104. Chemistry and Our Environment. 3 hrs. For nonscience majors. Emphasis on the impact of chemical discovery and technology on the individual and society. Concurrent registration in CHE 104L is required.

104L. Chemistry and Our Environment Laboratory. 1 hr. A laboratory designed to accompany CHE 104. Concurrent registration in CHE 104 is required.

106. General Chemistry I. 3 hrs. Prerequisites: High school chemistry and a passing score on a placement exam (given first week of class) or a C or better in CHE 100. Molecular structure, stoichiometry, the mole concept, gases, types of solutions, energy-enthalpy. Concurrent registration in CHE 106L is required. (CC 1213, 1214, 1215)

106L. General Chemistry I Laboratory. 1 hr. A laboratory designed to accompany CHE 106. Concurrent registration in CHE 106 is required. (CC 1211)

107. General Chemistry II. 3 hrs. Prerequisites: CHE 106, 106L. Kinetics, equilibria, thermodynamics, electrochemistry, nuclear chemistry, coordination compounds. Concurrent registration in CHE 107L is required. (CC 1223, 1224, 1225)

107L. General Chemistry II Laboratory. 1 hr. A laboratory designed to accompany CHE 107. Concurrent registration in CHE 107 is required. (CC 1221)

251. Elementary Organic Chemistry. 3 hrs. Prerequisite: CHE 106, 106L. A course which includes nomenclature and reactions of aliphatic and aromatic hydrocarbons, acids, aldehydes, ketones, and amines, and stereochemistry. Concurrent registration in CHE 251L is required. (CC 2413, 2414)

251L. Elementary Organic Chemistry Laboratory. 1 hr. A laboratory designed to accompany CHE 251. Concurrent registration in CHE 251 is required. (CC 2411)

255. Organic Chemistry. 3 hrs. Prerequisite: CHE 107, 107L. Aliphatic compounds: nomenclature, reaction mechanisms, stereochemistry. Concurrent registration in CHE 255L is required. (CC 2423, 2424, 2425)

255L. Organic Chemistry Laboratory. 1 hr. A laboratory designed to accompany CHE 255. Concurrent registration in CHE 255 is required. (CC 2421, 2422)

256. Organic Chemistry. 3 hrs. Prerequisite: CHE 255, 255L. Aromatic compounds, acids, acid derivatives, aldehydes, ketones, amines, phenols, and spectroscopic analysis. Concurrent registration in CHE 256L is required. (CC 2433, 2434, 2435)

256L. Organic Chemistry Laboratory. 2 hrs. A laboratory designed to accompany CHE 256. Concurrent registration in CHE 256 is required. (CC 2431, 2432)

300. Chemical Safety. 3 hrs. Prerequisite: CHE 251, 251L or 256, 256L, or permission of the instructor. Hazards of various commonly used chemicals. Includes 3 hours of laboratory per week.

311L. Analytical Chemistry Laboratory. 2 hrs. A laboratory designed to accompany CHE 311. Concurrent registration in CHE 311L required.

331. Descriptive Inorganic Chemistry. 2 hrs. Prerequisites: CHE 256, 256L. Chemistry of the elements emphasizing the synthesis, structure, reactions, and periodic trends of inorganic compounds.

400. Chemical Literature. 2 hrs. Prerequisite: CHE 256, 256L. The selection and use of the reference materials of chemistry (periodicals, journals, texts, patents, etc.), and the development of writing skills.

404. Spectral Elucidation of Structure. 3 hrs. Prerequisites: CHE 256, 256L and 311, 311L. Applications of vibrational, electronic, nuclear magnetic resonance, and mass spectrometry to structure determination.

409. Chemistry Laboratory Teaching. 1 hr. Prerequisite: Permission of instructor. Instruction and practice for teaching assistants in the academic chemistry laboratory.

410. Safety Principles and Procedures in the Chemical Sciences. 1 hr. Prerequisite: CHE 256, 256L or permission of instructor. Common laboratory hazards and their remediation.

411. Instrumental Analysis. 3 hrs. Prerequisite: CHE 461, 461L. Pre- and corequisite: CHE 462, 462L. Theory and practice of instrumental methods of analysis; absorption spectroscopy, chromatography, magnetic resonance, mass spectoscopy, electro-metric methods and fundamental electronics. Concurrent registration in CHE 411L is required.

411L. Instrumental Analysis Laboratory. 1 hr. A laboratory designed to accompany CHE 411. Concurrent registration in CHE 411 is required.

420. Principles of Biochemistry. 3 hrs. Prerequisite: CHE 251, 251L or equivalent. A one-semester course covering the fundamentals of biochemistry.

420L. Principles of Biochemistry Laboratory. 1 hr. A laboratory designed to accompany CHE 420. Concurrent registration in CHE 420 is required.

421. Biochemistry I. 3 hrs. Prerequisite: CHE 256, 256L. The properties of amino acids, proteins, carbohydrates, lipids, and nucleic acids; actions of enzymes and protein synthesis.

421L. Biochemistry I Laboratory. 2 hrs. An optional laboratory course to accompany CHE 421. Concurrent registration in CHE 421 is required.

422. Biochemistry II. 3 hrs. Prerequisite: CHE 421. Major metabolic pathways with emphasis on energy considerations and interrelationships of the pathways.

422L. Biochemistry II Laboratory. 2 hrs. Prerequisite: CHE 421L. A continuation of CHE 421L. Concurrent registration in CHE 422 is required.

423. Analytical Biochemistry. 3 hrs. Prerequisite: CHE 421. A survey of methods used by biochemists to detect and characterize biologically important molecules.

424. Biochemistry III. 3 hrs. Prerequisite: CHE 421. Biochemical principles underlying nucleic acid structure, functions and interactions with other biomolecules that mediate molecular changes in living systems.

431. Inorganic Chemistry. 3 hrs. Prerequisite: CHE 461, 461L, 462, 462L. Electronic state transitions and spectra, coordination chemistry, reaction kinetics and mechanisms, special topics.

431L. Inorganic Chemistry Laboratory. 1 hr. A laboratory designed to accompany CHE 431. Concurrent registration in CHE 431 is required.

461. Physical Chemistry. 3 hrs. Prerequisites: CHE 256, 256L, 311, 311L; PHY 202 or 112, and MAT 168 or 178. Chemical thermodynamics. Concurrent registration in CHE 461L is required.

461L. Physical Chemistry Laboratory. 1 hr. A laboratory designed to accompany CHE 461. Concurrent registration in CHE 461 is required.

462. Physical Chemistry. 3 hrs. Prerequisites: CHE 256, 256L, 311 311L; PHY 202 or 112; MAT 168 or 178. Kinetics and quantum chemistry. Concurrent registration in CHE 462L is required.

462L. Physical Chemistry Laboratory. 1 hr. A laboratory designed to accompany CHE 462. Concurrent registration in CHE 462 is required.

470. Survey of Toxicology. 3 hrs. Prerequisite: CHE 256. A one semester survey course in toxicology.

471. Teaching Chemistry in the Secondary School. 3 hrs. Prerequisites: CHE 256, 256L, 311, 311L, CIS 313; Corequisite: SCE 460. Application of chemical knowledge to designing, developing, and assessing instruction. Concurrent registration in CHE 471L is required.

471L. Laboratory for Teaching Chemistry in the Secondary School. 1 hr. A laboratory designed to accompany CHE 471.
Concurrent registration in CHE 471 is required.

Special Projects. 1-3 hrs. Prerequisites: CHE 256, 256L and permission of instructor. Highly recommended: CHE 410. A special project performed under the direction of a faculty adviser and terminated by a formal written report. May be repeated once for credit. (Students undertaking a Senior Honors Project will enroll in CHE H492).

Industrial Internship in Chemistry. 3 hrs. Prerequisite: Permission of faculty. Structured experience in chemical industry. Includes final report. May be substituted for CHE 496.

Research. 1-3 hrs. Prerequisite: CHE 461, 461L, 462, 462L and permission of instructor. Highly recommended: CHE 410. A senior level research problem performed under the direction of a faculty adviser and terminated by a formal written report. May be repeated once for credit. (Students undertaking a Senior Honors Project will enroll in CHE H496.)

CHILD DEVELOPMENT (CD)

150. Child and Family in the Community. 3 hrs. Explores the influence of environmental, psychological, cultural, and societal factors on the growth and development of young children within the family.

350. Child Development. 2 hrs. corequisite: CD 350L. Designed to present theory, research, and practice concerning the physical, cognitive, emotional, and social development of children.

350L. Child Development Laboratory. 1 hr. corequisite: CD 350. A laboratory designed to develop an understanding of the development and behavior patterns of young children through observation of children in classroom settings.

352. Behavior and Guidance of the Young Child. 2 hrs. Prerequisites: CD 350 and CD 350L. corequisite: CD 352L. Designed to present developmentally appropriate behavior patterns and guidance principles for young children in and outside of the classroom setting.

352L. Behavior and Guidance of the Young Child Laboratory. 1 hr. corequisite: CD 352. A laboratory for the study of developmental behavior patterns and principles of guiding the behavior of young children.

359. Preschool Teachers’ Workshop I, II, III. 1 hr. Prerequisites: CD 350 and CD 350L. corequisite: CD 359L. Designed to present theory, research, and practice concerning the physical, cognitive, emotional, and social development of children.

378. The Hospitalized Child. 3 hrs. Prerequisites: CD 350 and CD 350L; or permission of instructor. Overview of the role of the Child Life Specialist in working with children and their families in a hospitalized setting, with emphasis on both theory and practice.

400. Child Life Clinical Practicum. 3 hrs. Prerequisites: CD 453, CD 453L, CD 378. Practicum experience in a pediactric care facility with on-site supervision by a certified child life specialist.

450. Administration of Child and Family Programs. 3 hrs. Prerequisite: 3 hrs. in Child Development. Evaluation of policies and procedures, organizational structure, and management will be emphasized.

451. Infant Development. 2 hrs. corequisite: CD 453L. Emphasis is given to the development and behavior of the infant and toddler.

451L. Infant Development Laboratory. 1 hr. corequisite: CD 451. A laboratory for studying the growth, development, and behavior of infants and toddlers.

452L. Child Development Methods and Materials Laboratory. 1 hr. corequisites: CD 452. A laboratory for evaluating and selecting materials, developing teaching techniques, and planning programs for young children.

453. Curriculum Activities for Young Children. 2 hrs. Prerequisites: CD 350 and CD 350L; CD 352 and CD 352L. corequisite: CD 453L. A study of educational activities for young children.

455. Supervised Participation. 9 hrs. Prerequisite: CD 452 and CD 452L. Directed participation in programs for young children.

456. Internship in Child Life. 12 hrs. Prerequisites: CD 378, 400, permission of adviser, and 50 volunteer hours with children with special needs. Understanding the operation of a child life program through a supervised work experience in a cooperating hospital with children with special needs.

480. Student Teaching: Pre-Kindergarten. 7 hrs. Prerequisites: All required courses and admission into Licensure Track.
Directed participation in programs for young children.

492. Special Problems in Child Development. 1-4 hrs. Prerequisites: CD 350 and consent of instructor. (Students undertaking a Seniors Honors Project will enroll in CD H492.)

497. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper-level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

498. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

COASTAL SCIENCES (COA)

300. Marine Science I: Oceanography. 3 hrs. Prerequisites: college algebra, 8 hours of chemistry and 8 hours biological sciences. For upper division science majors. An introduction to biological, chemical, geological, and physical marine sciences. May be taken as MAR 300.

300L Marine Science I Laboratory. 2 hrs. Corequisite for COA 300. A laboratory for COA 300. May be taken as MAR 300L.

301. Marine Science II: Marine Biology. 3 hrs. Prerequisites: 8 hours of biological sciences. An introduction to marine biology with emphasis on local fauna and flora. May be taken as MAR 301.

301L Marine Science II Laboratory. 2 hrs. Corequisite for COA 301. May be taken as MAR 301L.

405. Marine Chemistry. 3 hrs. Prerequisite: Permission of instructor. Sea water chemistry and cycles and their impact on the marine environment. May be taken as MAR 441.

405L Marine Chemistry Laboratory. 1 hr. Corequisite: COA 405. A laboratory for COA 405. May be taken as MAR 441L.

406. Environmental Estuarine Chemistry. 3 hrs. Prerequisites: BSC 111, CHE 256, MAT 179, or permission of instructor. Corequisite: COA 406L. Sources, reactions, transport, fate and effects of environmental chemical species in aquatic environments with special emphasis on estuaries. May be taken as MAR 443.

406L Environmental Estuarine Chemistry Laboratory. Corequisite: COA 406. A laboratory for COA 406. May be taken as MAR 443L.

409. Coastal Marine Geology. 3 hrs. Prerequisites: 6 hours in geology. Inshore and nearshore geological processes, sedimentation patterns, and land forms. May be taken as MAR 482.

416. Marine Fisheries Management. 2 hrs. Prerequisite: Consent of instructor. An overview of practical marine fishery management problems. May be taken as BSC 449 or MAR 410.

416L Marine Fisheries Management Laboratory. 2 hrs. Corequisite: COA 416. May be taken as BSC 449L or MAR 410L.

417. Field and Laboratory Techniques in Marine Fisheries Sciences. 3 hrs. Prerequisite: Consent of instructor. Principles of fishery survey design, field techniques, and laboratory procedures for undergraduate students. Course will include research cruises in both offshore and inshore environments.

421. Marine Ichthyology. 3 hrs. Prerequisite: 16 hours of biology. Marine fishes including evolutionary relationships, morphology, physiology, and zoogeography. May be taken as BSC 458 or MAR 408.

421L Marine Ichthyology Laboratory. 3 hrs. Corequisite: COA 421. A laboratory for COA 421. May be taken as BSC 458L or MAR 408L.

424. Marine Aquaculture. 3 hrs. Problems and procedures relating to the culture of commercially important crustaceans, fish, and mollusks. May be taken as BSC 447 or MAR 407.

424L Marine Aquaculture Laboratory. 3 hrs. Corequisite: COA 424. A laboratory for COA 424. May be taken as BSC 447L or MAR 407L.

428. Marine Invertebrate Zoology. 3 hrs. Prerequisites: 16 hours of biology. Morphology, distribution, and ecology of the phyla Protozoa through Protostomes. May be taken as BSC 421 or MAR 403.

428L Marine Invertebrate Zoology Laboratory. 3 hrs. Corequisite for COA 428. A laboratory for COA 428. May be taken as BSC 421L or MAR 403L.

433. Marine Phyology. 2 hrs. Prerequisite: 10 hours of biology including botany. A survey, based upon local examples, of the principal groups of marine algae. May be taken as BSC 425 or MAR 420.

433L Marine Phyology Laboratory. 2 hrs. Corequisite: COA 433. A laboratory for COA 433. May be taken as BSC 425L or MAR 420L.

434. Coastal Vegetation. 2 hrs. Prerequisite: 10 hours of biology, including general botany. A study of general and specific aspects of coastal vegetation, with emphasis on local examples. May be taken as BSC 437 or MAR 421.

434L Coastal Vegetation Laboratory. 1 hr. Corequisite: COA 434. A laboratory for COA 434. May be taken as BSC 437L or MAR 421L.

435. Salt Marsh Plant Ecology. 2 hrs. The botanical aspects of local marshes; includes plant identification, composition, and structure. May be taken as BSC 438 or MAR 422.

435L Salt Marsh Plant Ecology Laboratory. 2 hrs. Corequisite for COA 435. A laboratory for COA 435. May be taken as BSC 438L or MAR 422L.
443. Marine Mammals. 3 hrs. Prerequisites: 16 hours of biological sciences or permission of instructor. Corequisite: COA 443L. Course will emphasize natural history and population ecology of cetaceans. Will include life history, distribution, population dynamics, diet and feeding, social behavior, evolution, and zoogeography. May be taken as BSC 459 or MAR 423.

443L. Marine Mammals Laboratory. 2 hrs. Corequisite for COA 443. A laboratory for COA 443. May be taken as BSC 459L or MAR 423L.

446. Marine Ecology. 3 hrs. Prerequisites: 16 hours of biological sciences. The relationship of marine organisms to their environment. May be taken as BSC 439 or MAR 405.

446L. Marine Ecology Laboratory. 2 hrs. Corequisite for COA 446. A laboratory for COA 446. May be taken as BSC 439L or MAR 405L.

447. Fauna and Faunistic Ecology of Tidal Marshes. 2 hrs. Prerequisite: Consent of instructor. Taxonomy, distribution, trophic relationships, reproductive strategies, and adaptations of tidal marsh animals. May be taken as BSC 448 or MAR 406.

447L. Fauna and Faunistic Ecology of Tidal Marshes Laboratory. 3 hrs. Corequisite for COA 447. A laboratory for COA 447. May be taken as BSC 448L or MAR 406L.

453. Parasites of Marine Animals. 3 hrs. Prerequisite: Consent of instructor. Emphasis on morphology, taxonomy, life histories, and host-parasite relationships. May be taken as BSC 424 or MAR 404.

453L. Parasites of Marine Animals Laboratory. 3 hrs. Corequisite for COA 453. A laboratory for COA 453. May be taken as BSC 424L or MAR 404L.

456. Comparative Histology of Marine Organisms. 3 hrs. Histology of marine organisms, including tissue processing techniques. May be taken as BSC 468 or MAR 430.

456L. Comparative Histology of Marine Organisms Laboratory. 3 hrs. Corequisite for COA 456. A laboratory for COA 456. May be taken as BSC 468L or MAR 430L.

465. Applications of Biotechnology in Marine Biology. 3 hrs. Prerequisites: BSC 110, 111, 201, CHE 106, 107, 255, 256; CHE 420 or 421, 422 recommended or permission of instructor. Basic biochemical and molecular techniques used in to conduct research in marine biology. May be taken as BSC 479.

465L. Applications of Biotechnology in Marine Biology Laboratory. 3 hrs. Corequisite for COA 465. May be taken as BSC 479L.

471. Marine Microbiology. 3 hrs. Prerequisites: General Microbiology. An introduction to the role of microorganisms in the overall ecology of the oceans and estuaries. May be taken as BSC 490 or MAR 409.

471L. Marine Microbiology Laboratory. 3 hrs. Corequisite for COA 471. A laboratory for COA 471. May be taken as BSC 490L or MAR 409L.

485. Marine Science for Elementary Teachers. 3 hrs. Prerequisite: Permission of instructor. May be taken as MAR 458 or SCE 435.

486. Coastal Ecology for Teachers. 3 hrs. Prerequisite: Permission of instructor. Corequisite: COA 486L. Designed to provide teachers with a background in basic coastal ecology. May be taken as MAR 459.

486L. Coastal Ecology for Teachers Laboratory. 1 hr. Corequisite for COA 486. May be taken as MAR 459L.

487. Techniques in Marine Science Education. 3 hrs. Marine resources of Mississippi. May be taken as MAR 456.

488. Marine Science for Teachers. 3 hrs. Prerequisites: COA 487/MAR 456 or permission of instructor. May be taken as MAR 457 or SCE 457. Advanced topics in marine science.

491. Special Topics in Coastal Sciences. 1-6 hrs. Prerequisite: Consent of instructor. Directed study in an area for which no formal courses are offered.

492. Special Problems I, II, III in Coastal Sciences. 1-6 hrs. Prerequisite: Consent of instructor. A course in library and/or research selected in consultation with the instructor.

COMMUNITY HEALTH SCIENCES (CHS)

101. Personal Wellness. 3 hrs. An examination of the relationships of various lifestyle components to various levels of wellness. (CC 1213)

210. Introduction to Health Education. 3 hrs. A study of the health education profession, specialities, manpower, and philosophies.

310. Practicum in School Health. 1 hr. A course designed to relate theory to practical experience in a public school setting.

321. Community Health. 3 hrs. Introduction to community health practices, professional standards, policy and functioning of health agencies.

341. Safety. 3 hrs. Accident problems, safety programs, and methods of prevention.

408. Health Education Methods. 3 hrs. Prerequisites: CHS 409, 2.5 GPA. A survey of teaching methods that are appropriate for health education program delivery.

409. Community Health Education Planning. 3 hrs. Prerequisite: CHS 210, CHS 321, 2.5 GPA. Diagnostic phases
preceding program development, skills in planning, organization, and implementation of health education programs in the community.

410. School Health Education Planning. 3 hrs. Diagnostic phases preceding program development, skills in planning, organization, and implementation of school health education programs.

411. Health Education Curriculum for Secondary Schools. 3 hrs. Prerequisite: 2.5 GPA. Varieties of curriculum organization, scope and sequence, survey of education content, facilities and equipment.

412. Measurement and Evaluation in Health Education. 3 hrs. Prerequisites: CHS 409, 2.5 GPA. A survey of evaluation instruments for appraising and interpreting health data.

414. Consumer Health. 3 hrs. Prerequisite: CHS 210 or permission of instructor. A survey of consumer problems related to health misconceptions, choosing health services, medical quackery, and advertising of health products.

415. School Health Program. 3 hrs. Prerequisites: 2.5 GPA. Health issues related to the comprehensive school health program.

420. Communicable and Chronic Disease in Man. 3 hrs. Prerequisites: CHS 101 or permission of instructor. Problems, control, and prevention of communicable and chronic disease in modern society.

421. Sanitation. 3 hrs. Prerequisites: CHS 210 or permission of instructor. Sanitation in the home and school, in food production, water supply, waste, and excreta disposal.

422. Drugs and the Whole Person. 3 hrs. Prerequisite: CHS 101 or permission of instructor. Psychosocial, medical, legal, and health aspects of drugs and their abuse.

425. Health Administration. 3 hrs. An introduction to health program administration including organization, financing, delivery systems, and manpower development.

427. Health Policy. 3 hrs. The role of the health professional in the development of public health policy, influencing social policy, and planning for social change.

431. Sexuality Education. 3 hrs. Prerequisites: CHS 210 or permission of instructor. Theory, methods, materials for planning, organizing, and implementing sexuality in school and community settings.

432. Introduction to Epidemiology. 3 hrs. Concepts and methods of epidemiology as applied to a variety of health related problems.

436. Stress Management Techniques. 3 hrs. To acquaint students with educational programming related to stress management with specific techniques to manage stress.

437. Health Education in Clinical Settings. 3 hrs. Analysis of the role, methods, and technology of health education pertaining to health care clinics and patient education.

440. Introduction to Biostatistics. 3 hrs. Introduction to statistical analysis in health-related fields. Application of descriptive and inferential statistics, measures in epidemiology and health services research.

449. Long Term Care Policy and Administration. 3 hrs. Introduction to Long Term Care Policy and Administration involving public and private programs and practice of health care for the elderly and special populations.

450. Health Law and Justice. 3 hrs. Prerequisite: CHS 425 or permission of instructor. An examination of social and legal principles impacting health care delivery in the U.S.

459. Special Topics. 1-3 hrs. A comprehensive study of a selected health science area in which students will evaluate current state of knowledge and apply theory and concepts to construct strategies within their own professional area.

462. Special Problems. 1-6 hrs. Requires permission of instructor. A student originated problem, research plan, and reporting of results, with guidance of a chosen adviser.

463. Practicum. 6 hrs. Prerequisite: CHS 437 or 438 and permission of adviser. Available to community health services majors only. Practical experience in the delivery of health education and administration programs.

464. Student Teaching in Health Education. 7 hrs. Supervised field-based internship in middle and secondary health education.

477. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

478. Families of Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of the developmentally disabled.
499. British Studies. 3-6 hrs. Involves variable topics. Lectures and supervised research in England. Offered exclusively through the USM Institute of Anglo-American Studies.

**COMPUTER ENGINEERING TECHNOLOGY (CET)**

240. Introduction to Digital Electronics. 3 hrs. Prerequisite: EET 110. Corequisites: CET 240L. Theory and application of pulse and digital signals and the circuitry for their generation and conditioning. Introduces number systems, digital logic, and data encoding and processing methods and circuits.

240L. Digital Electronics Laboratory. 1 hr. Corequisite: CET 240.

301. Logic Circuit Design. 3 hrs. Prerequisite: CET 240. Corequisite: CET 301L. Introduces the basic tools for logic circuit design and analysis. Provides an understanding of common logic constructs, such as: multiplexers, demultiplexers, encoders, decoders, multivibrators, counters, registers, and memories.

301L. Logic Circuits Design Laboratory. 1 hr. Corequisite: CET 301.

302. Microprocessor Architecture and Applications. 3 hrs. Prerequisite: CET 301. Corequisite: CET 302L. Introduction to the design and programming of microprocessor-based circuits and systems, including the design and programming tools necessary to create stand-alone microprocessor systems. Comparison of different microprocessor architectures and applications.

302L. Microprocessor Laboratory. 1 hr. Corequisite: CET 302.

316. Digital Communications and Computer Networks. 2 hrs. Prerequisite: CET 3021 Corequisite: CET 316L and CET 302. Digital communication concepts including modulation, data transmission, transmission media, computer networks.

316L. Digital Communications Laboratory. 1 hr. Corequisite: CET 316.

322. Advanced Analytical Applications. 3 hrs. Prerequisite: MAT 137. Laplace transform methods for analog signals and systems; transfer functions; z-transform methods for discrete time signals and systems; frequency-domain methods; Fourier analysis.

324. Applied Discrete Transforms. 3 hrs. Prerequisite: CET 323. System transfer functions, system response analysis, digital filter design, state-space system representation.

370. Hardware Systems. 3 hrs. Corequisite: CET 370L. Design, analysis and implementation of digital logic systems with emphasis on circuit construction and verification. This course does not satisfy major requirements for Computer or Electronics Engineering Technology students.

370L. Hardware Systems Laboratory. 1 hr. Corequisite: CET 370.

+400. Senior Project I. 2 hrs. Prerequisite: Senior standing and approval of faculty adviser. (Students undertaking a Senior Honors Project will enroll in CET H400.)

+401. Senior Project II. 2 hrs. Prerequisite: CET 400. (Students undertaking a Senior Honors Project will enroll in CET H401.

420L. Embedded Microcomputer Design Laboratory. 1 hr. Corequisite: CET 420.

437. Microcomputer Design. 4 hrs. Advanced microcomputer architecture and operation.

471. Small Computer Systems. 3 hrs. Prerequisites: CET 301 and CET 302. Corequisite: CET 471L. Detailed examination of the interfaces to a small computer operating system and the development of software and hardware extensions. Emphasis is on preparing the student to develop commercial, plug-in applications for MS-DOS/WINDOWS systems.

471L. Small Computer Systems Laboratory. 1 hr. Corequisite: CET 471.

472. Advanced Programmable Devices. 3 hrs. Prerequisites: CET 301. Corequisite: CET 472L. Synchronous logic design through the use of state machine models and other advanced design tools. Designs implemented and tested in VLSI programmable logic devices.

472L. Programmable Devices Laboratory. 1 hr. Corequisite: CET 472.

477. Introduction to Control Systems Technology. 3 hrs. Prerequisites: CET 323 and EET 312. Corequisite: CET 477L. Fundamental control system theory and applications; servomechanisms; process control; measurement and instrumentation.

477L. Control Systems Laboratory. 1 hr. Corequisite: CET 477.

478L. Digital Control Systems Laboratory. 1 hr. Corequisite: CET 478.

483. Windows Networking. 3 hrs. A comprehensive examination of the Windows 95 networking architecture and capabilities.

485. NOS Server Administration. 3 hrs. Prerequisite: CET 483. A comprehensive examination of the Windows NT 4.0 installation and administration, one of today's most popular Network Operating Systems (NOS).

486. Intranetworking. 2 hrs. Prerequisite: CET 485 or permission of instructor. A continuation of SET 485 that will emphasize intranetworking directory architecture, binding of network protocols, creation and management of user and group accounts.

488. TCP/IP. 3 hrs. Prerequisite: CET 483. A comprehensive examination of the Internet's standard protocol suite TCP/IP.

489. Internet Information Server. 2 hrs. Prerequisite: CET 485 or permission of instructor. Installation and configuration of a popular NOS as an Internet information server.

492. Special Problems. 1-4 hrs.

**COMPUTER SCIENCE (CSC)**

100. Introduction to Computing. 3 hrs. Prerequisite: 1/2 Carnegie unit in computing. Provides an insight into the problem solving/software/social/ethical/legal issues that underlie computer systems. Assignments include databases, spreadsheets, and simple programming. (CC 1113)

101L. Computer Science I Laboratory. 1 hr. Corequisite: CSC 101.

102. Computer Science II. 4 hrs. Prerequisite: CSC 101, 101L. Continuation of CSC 101 with emphasis on programming style and algorithm analysis.

203. Introduction to Computer Systems. 3 hrs. Prerequisite: CSC 102. Computer systems and architecture, assembler language programming.

204. Introduction to Computer Organization. 3 hrs. Prerequisite: CSC 102. Fundamentals of logic design, organization and structuring of computer hardware components, mechanics of information transfer and control within a digital computer system.

300. Foundations of Computer Science. 3 hrs. Prerequisite: MAT 167. Introduction to finite and discrete structures, combinatorics and graphs, and algorithmic processes with applications in computers, languages, and programs.

305. Introduction to File Processing. 3 hrs. Prerequisite: CSC 102. Concepts of structuring data on bulk storage devices, applications of data structures and file processing techniques.

306. Operating Systems and Computer Architecture. 3 hrs. Prerequisites: CSC 203, 204, and 307. Operating systems principles, relationships between operating system and computer architecture.

309. Computers and Society. 3 hrs. Ethical issues for technical professionals, social impact of professional and entrepreneurial activity, the social impact of computer technology.

317. Object Oriented Programming. 3 hrs. Prerequisites: CSC 203 and 307. Conceptual overview, characteristics of an object oriented language, objects, classes, arrays, operator overloading, inheritance, virtual functions, streams.

320. Introduction to Linear Programming Techniques. 3 hrs. Prerequisite: MAT 103. Formulation of models, graphical solutions, simplex method, two-phase technique, duality, convexity, simultaneous linear equations, vector spaces.

408. Organization of Programming Languages. 3 hrs. Prerequisite: CSC 307. Runtime behavior of programs, formal specification and comparative analysis of programming languages, programming paradigms.

413. Algorithms. 3 hrs. Prerequisites: CSC 307 and MAT 169 or MAT 179. Design and analysis of algorithms. Complexity theory.

414. Software Design and Development. 3 hrs. Prerequisite: CSC 307, Corequisite: CSC 414L. Formal development of software through team projects.

414L. Software Design and Development Laboratory. 1 hr. Prerequisite: CSC 307. A laboratory designed to support CSC 414.
415. **Theory of Programming Languages.** 3 hrs. Prerequisite: CSC 408. Formal treatment of programming language translation and compiler design concepts.

420. **Networked Distributed Systems.** 3 hrs. Prerequisite: CSC 307. Introduction to computer networks. Inter-process communication, distributed file systems, O.S. support, security, coordination & agreement, name services.

421. **Relational Database Management Systems.** 3 hrs. Prerequisite: CSC 411. Theory of relational systems, comparison of relational and conventional systems, use of state-of-the-art relational systems such as ORACLE.

424. **Software Engineering II.** 3 hrs. Prerequisite: CSC 414. Programming languages and software design, modular/object oriented design, teams programming, human factors, case studies.

435. **Simulation and Modeling.** 3 hrs. Prerequisites: CSS 211 or 415 and 240 or 330. Constructing models of discrete stochastic systems, systems dynamics. Use of a simulation package.

444. **Robotic Systems: Theory, Development and Analysis.** 3 hrs. Prerequisite: MAT 326. Robotic system development, direct kinematics, the arm equation, workspace analysis, trajectory planning and robotic programming methodologies.

485. **Information Retrieval in the U.K.-Theory.** 3 hrs. Prerequisites: High level programming language and permission of instructor. A study of British information processing systems.

486. **Information Processing in the U.K.-Applications.** 3 hrs. Prerequisites: CSC 485 and permission of instructor. Design of information processing systems.

492. **Computer Science Problems I.** 1-3 hrs. Prerequisite: Senior standing. Solution of problems germane to a select area of study.

493. **Computer Science Problems II.** 3 hrs. Solution of problems germane to a select area of study.

* A grade of C or better is required for all prerequisite courses listed in this section.

**COMPUTER SCIENCE (CS)**

(Offered Only at USM Gulf Coast)

301. **Introduction to Programming.** 3 hrs. Structured programming, stepwise refinement, introduction to the C programming language.

302. **Advanced Computing Programming.** 3 hrs. Prerequisites: CS 301 or equivalent. Structured Programming and an in-depth study of the C programming language.

307. **Data Structures.** 3 hrs. Prerequisite: CS 302. Data structures and algorithms for their manipulation. Lists and arrays; stacks, queues, linked lists, tree structures; elementary sorting and searching routines.

401. **Object Oriented Programming.** 3 hrs. Prerequisite: CS 307. Conceptual overview, characteristics of an object oriented language, objects, classes, arrays, operator overloading, inheritance, virtual functions, streams.

408. **Programming Languages.** 3 hrs. Prerequisite: CS 307. Formal study of programming languages, organization of programming languages, run-time behavior of programs, interpretative language, lexical analysis, and parsing.

411. **Relational Database Management Systems.** 3 hrs. Prerequisite: CS 307. Introduction to RDBMSs. Includes database design using the entity relationship model, relational model theory, the relational algebra and the implementation of applications using SQL and a state-of-the-art relational system such as Oracle.

414. **Software Engineering I.** 3 hrs. Prerequisite: CS 307. Overview of software developments, project management, programming style, testing, debugging, and other topics.

415. **Compiler Design.** 3 hrs. Prerequisite: CS 307. An in-depth study of compilers and compiler writing techniques.
421. Advanced Topics in Relational Database Management Systems. 3 hrs. Prerequisite: CS 411. A selection of advanced topics representing current trends in RDBMSs. Topics include, but are not restricted to, concurrency, backup and recovery, embedded database calls, distributed RDBMSs, and Object Oriented RDBMSs.

424. Software Engineering II. 3 hrs. Prerequisite: CS 414. Programming languages and software design, modular/object oriented design, team programming, human factors, case studies.

485. Information Retrieval in the U.K.-Theory. 3 hrs. Prerequisites: high level programming language and permission of instructor. A study of British information processing systems.

486. Information Processing in the U.K.-Applications. 3 hrs. Prerequisites: CS 485 and permission of instructor. Design of information processing systems.

492. Computer Science Problems I. 3 hrs. Prerequisite: Senior standing. Solution of problems germane to a select area of study.

493. Computer Science Problems II. 3 hrs. Solution of problems germane to a selected area of study.

COMPUTER SCIENCE AND STATISTICS (CSS)*

211. Statistical Methods I. 3 hrs. Prerequisite: MAT 101. Sampling and sampling distributions: normal and binomial, measures of central tendency and dispersion, hypothesis testing. (CC-BAD 2323)

212. Statistical Methods II. 3 hrs. Prerequisite: CSS 211. Hypothesis testing, correlation, regression analysis, analysis of variance and covariance.

240. FORTRAN Programming. 3 hrs. Techniques of programming using the FORTRAN 77 language. (CC 2323)

310. Introduction to Programming. 3 hrs. Structured programming, step-wise refinement, introduction to Pascal. Students may not apply both CSS 333 and CSC 101 toward a degree.

331. Visual Basic. 3 hrs. Prerequisite: CSC 101 or CSS 240 or CSS 330. Designing and writing VB program, object oriented design, event driven programming, object linking, embedding and prototyping, CAD and equipment interface.

334. Problem Solving Using C, II. 3 hrs. Prerequisite: CSS 333. Continuation of top-down design, integrated editor and debugger, elementary data structures, file processing, topics in graphics.

340. Advanced Computing Programming. 3 hrs. Prerequisite: CSS 330 or equivalent. Structured Programming and an in-depth study of Pascal. Students may not apply both CSS 340 and CSC 102 toward a degree.

342. Introduction to COBOL Programming. 3 hrs. Prerequisite: CSS 334 or CSC 102. Programming of problems using the COBOL language.

343. C Programming. 3 hrs. Prerequisite: CSS 350. Techniques of programming using the C language.

350. Data Structures. 3 hrs. Prerequisite: CSS 334. Data structures and algorithms for their manipulation. Lists and arrays; stacks, queues, deques, tree structures; elementary sorting and searching routines. Students may not apply both CSS 350 and CSC 102 toward a degree.

360. The Unix Operating System. 3 hrs. Prerequisite: CSC 102. History, operating system fundamentals, basics, file system, informational and text utilities, vi editor, Bourne shell programming, X windows, networking, awk and perl programming.

400. Introduction to Computer Education. 3 hrs. Introduction to concepts, techniques, materials, and resources for teaching computer science concepts, problem-solving, and programming relative to computer literacy. Research and presentations related to Computer Science Education.

402. Structured Basic Programming. 3 hrs. Prerequisite: CSS 400. Technical presentation of BASIC with scientific problem solving, algorithms and an introduction to data structures. Cannot count toward a degree in Computer Science.

403. Authoring Systems for Computer Based Learning. 3 hrs. Prerequisite: CSS 400. Developing computer based instructional modules utilizing the authoring system approach. Cannot count toward a degree in Computer Science.
404. Internet Concepts. 3 hrs. Prerequisite: basic computer literacy. Introduction to the Information Super Highway via the INTERNET. Does not satisfy core requirements in the College of Science and Technology.

405. Advanced Internet: CGI Programming. 3 hrs. Prerequisites: Knowledge of the INTERNET, basic HTML, some high level programming language. Basic review of WWW and HTML, forms and forms processing, CGI programming, Java programming, VRML, security, and privacy issues.

415. Methods of Mathematical Statistics I. 3 hrs. Prerequisite: MAT 168. Introduction to probability, random variables, mathematical expectation, sampling distributions, confidence intervals, and hypothesis testing on single populations.

416. Methods of Mathematical Statistics II. 3 hrs. Prerequisite: CSS 415. Confidence intervals and hypothesis testing on two or more populations, analysis of variance models, regression analysis.

417. Experimental Design. 3 hrs. Prerequisite: CSS 416. Factorials, randomized blocks, Latin squares and split-plot, fractional factorials and confounding, response surface models.

418. Sampling Methods. 3 hrs. Prerequisite: CSS 415. The planning, execution, and evaluation of sample surveys. Simple random sampling, stratified random sampling, cluster sampling.

341. Advanced Visual Basic. 3 hrs. Prerequisite: CSS 331. OO terminology and applications, object linking and embedding, word processing and spreadsheet concepts, RDBMS, SOL, introduction to the internet, VB objects on the internet, VB programming on the internet.

442. Information Systems. 3 hrs. Prerequisite: CSS 342. Methods of system analysis, data acquisition, file structures, terminal selection, use of flowcharts and decision tables.

444. The Java Environment. 3 hrs. Prerequisite: CSC 102 or CSS 334. Object-oriented programming using Java.

460. Unix System and Network Administration. 3 hrs. Prerequisite: CSS 360. Implementing firewalls, gateways, and providing network file, print, web, and electronic mail services.

490. Computer Science Seminar. 1 hr. Arr. Presentation of technical topics in the field.

* A grade of C or better is required for all prerequisite courses listed in this section.

CONSTRUCTION ENGINEERING TECHNOLOGY (BCT)

101. Construction Practices. 2 hrs. Basic construction techniques, tools and equipment, and job planning analysis used in residential projects.

205. Surveying. 2 hrs. Prerequisite: MAT 103. Corequisite: BCT 205L. Theory and practice in use of instruments for measuring distances, angles, etc., as applied in architectural and construction projects.

205L. Surveying Laboratory. 1 hr. Corequisite: BCT 205.

235L. Building Systems I Laboratory. 1 hr. Corequisite: BCT 235.

336L. Building Systems II Laboratory. 1 hr. Corequisite: BCT 336.

337. Construction Materials. 3 hrs. Prerequisite: ENT 340 - Strength of Materials. Comprehensive overview of materials common to construction. The course will emphasize both the selection and testing of construction materials.

337L. Construction Materials Laboratory. 1 hr. Prerequisite: ENT 340 - Strength of Materials. Laboratory testing of construction materials. The course will emphasize scientific methods and presentation of data.

392. Special Problems. 1-3 hrs. Prerequisites: Junior standing and approval of faculty adviser.

400. Senior Project. 3 hrs. Prerequisites: senior standing and approval of faculty adviser.

408. Route Surveying. 2 hrs. Prerequisite: BCT 205. Corequisite: BCT 408L. Principles for the design and layout of routes, coverage includes horizontal and vertical alignment, route location, earthwork, computation, ground photogrammetric survey methods, and special survey methods for highways, railroads, pipelines, transmission lines, and urban construction.

408L. Route Surveying Laboratory. 1 hr. Corequisite: BCT 408.

409. Boundary Surveying. 2 hrs. Prerequisite: BCT 205. Corequisite: BCT 409L. The application of knowledge of the science of surveying measurement, the legal principles of boundary location, the laws related to boundaries and land use,
the land planning and development concepts pertinent to subdivision of land and property surveys.

409L Boundary Surveying Laboratory, 1 hr. Corequisite: BCT 409.

446. Hydraulics and Surface Drainage, 2 hrs. Corequisite: BCT 446L. Hydraulic analysis and design of urban, highway, airport, and watershed drainage problems; discussion of overland and drainage channel flows; hydraulics of storm-drain systems and culverts; determination of design flow and runoff from highways, airports, and urban areas; design of drainage gutters, channels, sewer networks, and culverts.

446L. Hydraulics and Surface Drainage Laboratory, 1 hr. Corequisite: BCT 446.

454L. Estimating I Laboratory, 1 hr. Corequisite: BCT 454.

455L. Estimating II Laboratory, 1 hr. Corequisite: BCT 455.

456L. Highway Estimating Laboratory, 1 hr. Corequisite: BCT 456.

458. Construction Planning and Scheduling, 2 hrs. Prerequisite: BCT 336 and ENT 120. Corequisite: BCT 458L. Critical Path Method (CPM) as a project planning, scheduling, and monitoring technique.

458L. Construction Planning and Scheduling Laboratory, 1 hr. Corequisite: BCT 458.

476. Construction Labor, 3 hrs. Prerequisite: Senior standing. A study of construction labor resources, labor history, and governmental labor regulations.

477. Construction Project Management, 3 hrs. Prerequisite: Senior standing. Duties and responsibilities of a construction manager. Services provided by CM firms.

478. Applications of Construction Law, 3 hrs. Prerequisite: Senior standing. Analysis of construction law. Legal problems, the bidding process, contract performance, the contract.

486L. Project Controls Laboratory, 1 hr. Corequisite: BCT 486.

492. Special Problems, 1-3 hrs. Prerequisites: Senior standing and approval of faculty adviser.

COOPERATIVE EDUCATION (CED)

300. Cooperative Education Work Term, 0 hrs.

CRIMINAL JUSTICE (CJ)

200. Introduction to Criminal Justice, 3 hrs. An introduction to criminal law, criminological thought, and the operation of the criminal justice system. (CC-CRJ-1313)

330. Criminal Law, 3 hrs. A survey of applied substantive criminal law with emphasis on the most common criminal offenses.

342. Criminal Investigation, 3 hrs. Prerequisite: CJ 330. An overview of the crime solving process with emphasis on methodology, corpus delicti, and evidence.

352. Introduction to Modern Corrections, 3 hrs. An overview of major correctional systems and methods of treatment of offenders.

360. Introduction to Juvenile Justice, 3 hrs. A survey of the common law roots of juvenile law, the unfolding of case law in

 CURRICULUM AND INSTRUCTION ELEMENTARY EDUCATION (CIE)

090. Developmental Reading. 3 hrs. Develops basic reading skills (open only to students in Developmental Education program). Does not satisfy any university core or degree requirements.

099. Intermediate Reading. 3 hrs. Available for all entering freshmen with a sub-standard ACT Reading. Does not satisfy any university core or degree requirements.

100. Developmental Processes in Elementary Mathematics. 1-5 hrs. A review of the fundamentals of elementary arithmetic, algebra, and geometry for preservice elementary teachers. This course cannot be used for degree requirements.

102. Improvement of Study. 1 hr. An analysis of effective study techniques. Useful for college students who wish to improve their own reading and study habits. May be taken three times for credit. Does not satisfy any university core or degree requirements.

Enrollment in the following courses is restricted to students admitted to the Teacher Education Program (those who have a Gold Card) or by special permission of the department chair.

301. Mathematics: Primary & Middle Grades. 3 hrs. Prerequisites: MAT 210, 309, 310. Corequisite: CIE 301L. A course which utilizes modern strategies of psychology and methodology in elementary school mathematics on exploratory, structural, and mastery levels of learning.

301L Mathematics: Primary and Middle Grades Laboratory. 1 hr. Practica and clinical activities related to the utilization of strategies of psychology and methodology in elementary school mathematics.

305. Social Studies: Primary & Middle Grades. 3 hrs. Corequisite: CIE 305L. Emphasis is on the social science interdisciplinary approach for content and methodology, problem solving, unit teaching, and thinking.

305L. Social Studies: Primary and Middle Grades Laboratory. 1 hr. Practica and clinic activities related to the social science interdisciplinary approach for content and methodology, problem solving, unit teaching, and thinking.

306. Language and Cognitive Development in the Elementary School. 3 hrs. Corequisite: CIE 306L. Emphasizes the methods and materials for teaching handwriting, creative writing, listening, speaking, and grammar in grades 1 through 8.

306L. Language and Cognitive Development in the Elementary School Laboratory. 1 hr. Practica and clinic activities related to the teaching of handwriting, creative writing, listening, speaking, and grammar in grades one through eight.

318. Literature for the Middle School. 3 hrs. A study of literature appropriate for use in grades 4 through 8 stressing effective use of literature in the school program.

343. Curriculum: Primary & Middle Grades. 3 hrs. A general methods course which examines materials and methods of teaching pupils in grades K through 8.

403. Kindergarten—Primary Education. 3 hrs. A practicum designed to give teaching experiences in understanding the social, emotional, physical and cognitive growth and development of children.

410. Foundations in Multicultural Education. 3 hrs. Prerequisites: REF 400 and SPE 400. Develops knowledge, skills, and attitudes required for teaching students from diverse backgrounds in grades K-8, emphasizing procedures for teaching reading and language arts skills to culturally and linguistically diverse students.

411. Reading Instruction: Skills and Development. 3 hrs. Corequisite: CIE 306, CIE 306L. Builds a theoretical basis for reading skills development.

425. Early Childhood Education. 3 hrs. A general methods course which examines materials and methods of teaching children in kindergarten through grade 3.

427. Evaluation in Early Childhood Education. 3 hrs. Emphasis is placed on evaluative techniques and principles relative to the physical, intellectual, emotional, and social development of young children.

+ 480. Student Teaching I: Lower Grades. 7 hrs. Prerequisites: All courses required for major.

+ 482. Student Teaching I: Upper Grades. 7 hrs. Prerequisites: All courses required for major.

489. Seminar in Elementary Student Teaching. 6 hrs. Prerequisite: Permission of the Director of Student Teaching. Designed to meet the student teaching requirement for nonlicensed experienced teachers. This course deals with classroom management, programs of instruction, and student role in the educational environment.

491. The Reading Conference. 3 hrs. An intensive program consisting of lectures, group discussion, and demonstration lessons.
492. Special Problems. 1-9 hrs. Prerequisite: Permission of the department chair. Provides the opportunity to pursue a special topic or area of interest. (Students undertaking a Senior Honor Project will enroll in CIE H492.)

493. Internship in the Elementary School. 1-9 hrs. Prerequisite: Permission of the department chair. Reserved for those students who are enrolled in the internship program.

494. Learning Resources in Early Childhood Education. 3 hrs. Students will become acquainted with learning sources, selection, use, and production multimedia materials.

495. British Studies in Early Childhood Education. 3-6 hrs. Compares and contrasts the philosophies and current trends of American and British early childhood education.

496. Projects in Elementary Education I, II, III. 3 hrs. Designed for school systems planning local projects of curriculum revision and course of study construction.

497. Teacher Licensure Reinstatement. 3 hrs. Prerequisite: Permission of instructor. Educational reform and research correlates of effective teaching, schools, and administration. (Also offered as CIS 497.)

498. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

499. British Studies in Education. 3-6 hrs.

CURRICULUM AND INSTRUCTION FOR PRIMARY GRADES (CIP)

100. K-4 Professional Orientation and Practicum. 1 hr. An introduction to the field of K-4 early childhood education, through practica experiences followed by seminar sessions.

Enrollment in the following courses is restricted to students admitted to the Teacher Education Program (those who have a Gold Card) or by special permission of the department chair.

340. Foundational Studies in Early Childhood Education. 3 hrs. Introduction to K-4 education.

+480. Student Teaching: Kindergarten. 7 hrs. Prerequisites: All courses required for major.

+481. Student Teaching: Primary Grades. 7 hrs. Prerequisites: All courses required for major.

CURRICULUM AND INSTRUCTION READING (CIR)

Enrollment in the following courses is restricted to students admitted to the Teacher Education Program (those who have a Gold Card) or by special permission of the department chair.

308. Language and Literacy Development. 3 hrs. Examines research/theory related to emergent literacy among linguistically and culturally diverse children in grades K-4.

309. Literacy I: Theoretical Foundations. 3 hrs. Exposes emerging practitioners to a variety of theories that are the foundations of literacy development.

310. Research and Pedagogy in Content Area Literacy. 3 hrs. Prerequisite: USM Teacher Education Card. Engages emerging elementary and secondary practitioners in planning instruction which uses literacy as a tool for learning content area information.

317. Methods and Materials in Children's Literature. 3 hrs. An introduction to children’s primary literature in all forms, and a study of ways in which it is integrated into the curriculum for enrichment.

407. Literacy II: Pedagogical Practices. 3 hrs. Prerequisite: CIR 309. Corequisites: CIE 407L. Relying on current theory and research, this course engages emerging practitioners in implementing a variety of approaches, methods, strategies, and activities for literacy development.

407L. Literacy II: Pedagogical Practices Laboratory. 1 hr. Practica and clinical activities related to the reaching and implementation of a variety of approaches, methods, strategies, and activities for literacy development.

412. Literacy III: Assessment for Literacy Development. 3 hrs. Prerequisites: CIR 309, CIR 407. Corequisites: CIR 412L.
In a clinical setting, emerging practitioners will apply knowledge of theory and assessment in the development of effective literacy instruction.

412. Literacy III: Assessment for Literacy Development Laboratory. 1 hr. Concurrent registration in CIR 412 is required. A laboratory designed to accompany CIR 412.

**CURRICULUM AND INSTRUCTION SECONDARY EDUCATION (CIS)**

Enrollment in the following courses is restricted to students admitted to the Teacher Education Program (those who have a Gold Card) or by special permission of the department chair.

301. Practicum in Secondary Education. 1 hr. A course designed to relate the study of theory to practical experience in a public school setting. May be repeated twice.

313. Principles of Teaching High School. 3 hrs. This general methods course emphasizes the goals of secondary education, motivation and direction of learning, and school organization.

401. Dealing with Social Problems in the Classroom. 3 hrs. Managing class activities and instruction to deal with social problems which affect children and adolescents. (Telecourse)

410. Multicultural Education. 3 hrs. Prerequisites: REF 400 and SPE 400. Develops knowledge, skills, and attitudes required for teaching students from diverse backgrounds in grades K-8, emphasizing procedures for teaching reading and language arts skills to culturally and linguistically diverse students.

470. Curriculum of the Secondary Schools. 2 hrs. A course which examines the present day structure and nature of the secondary school curriculum.

476. Professional Development Seminar. 1 hr. Prerequisite: Concurrent enrollment in student teaching. A study of individual and group practices, interpersonal relations skills, and professional activities which foster professionalism.

495. Seminar in Secondary Student Teaching. 6 hrs. Prerequisite: Permission of director of student teaching. Designed to meet the student teaching requirements for non-certified experienced teachers. This course deals with classroom management, programs of instruction, and student role in the educational environment.

496. Internship in Secondary Education. 9 hrs. Prerequisite: Permission of the director of interns. Reserved for those students who are enrolled in the internship program.

497. Teacher Licensure Reinstatement. 3 hrs. Prerequisite: Permission of instructor. Educational reform and research correlates of effective teaching, schools, and administration. (Also offered as CIE 497.)

499. Studies in British Education. 3-6 hrs.

**DANCE (DAN)**

Many dance courses are offered on a rotation basis. Consult the Class Schedule Guide available in the Theatre and Dance office, or call (601)266-4161 to request a copy.

101. Beginning Modern Dance. 2 hrs. Discussion and practice of movement patterns, improvisation, and studies in modern dance for the non-major. May be repeated twice for a total of six hours.

102. Beginning Ballet. 2 hrs. Discussion and practice of movements in ballet for the non-major. May be repeated twice for a total of six hours.

103. Beginning Tap. 2 hrs. Developing an understanding and practice of movement skills basic to tap dance of America. May be repeated twice for a total of six hours. For non-majors.

104. Jazz Dance I. 2 hrs. The study and application of the basic skills of jazz dance. May be repeated twice for a total of six hours. For non-majors.

201. Modern Dance Technique II. 2 hrs. May be repeated for a total of eight hours. A survey of modern dance techniques from past to present forms. A continuation of DAN 158. Open to non-majors with consent of instructor.

203. Tap Dance, 2 hrs. Study of the various styles of tap including rhythm, jazz, and ballet forms. May be repeated twice for a total of six hours. Open to non-majors with consent of instructor.

210. Dance Improvisation, 2 hrs. An exploration of the elements of dance through the spontaneous act of creating and performing movement. Open to non-majors with consent of instructor.

212. Elements of Dance Composition, 3 hrs. Prerequisite: DAN 253. Exploration of the elements of dance applied to dance choreography. Open to non-majors with consent of instructor.

240. Rhythmic Analysis and Accompaniment for Dance, 3 hrs. Prerequisite: MUS 362 or rhythmic competency test. A basic analysis of music as it applies to movement and the study and practical application of dance accompaniment. Open to non-majors with consent of instructor.

301 Modern Dance Technique III, 2 hrs. May be repeated for a total of eight hours. The study and development of modern dance techniques and applied theories. A continuation of DAN 258. Open to non-majors with consent of instructor.

302. Ballet Technique II, 2 hrs. Continuation and further enrichment of the technique of ballet at the intermediate level for the dance major. Open to non-majors with consent of instructor.

304. Jazz Dance II, 2 hrs. The study and application of the principles of jazz movement. May be repeated for a total of six hours. Open to non-majors with consent of instructor.

309. Dance Theatre Laboratory, 1-2 hrs. Prerequisite: DAN 252, DAN 352, or DAN 452 or consent of instructor. Studio sessions in special aspects of dance theatre (partnering, point work, classical repertoire).

310. Dance Composition, Theory, and Application, 3 hrs. Prerequisite: DAN 253, DAN 259. Methods and approaches used in making dances.

312. Choreographic Research Project I, 2 hrs. Prerequisites: DAN 253, DAN 259, and junior standing. Choreographic approaches for development toward the Senior Choreographic Research Project.

320. Dance Production, 1 hr. Developing an awareness and application of production skill. May be repeated up to five times. Open to non-majors with consent of instructor.

340. Music Analysis and Resources for Dance, 3 hrs. Prerequisite: DAN 254 or consent of instructor. The study and practice of the principles of music and how those principles relate to movement and choreography.

351. Labanotation I, 3 hrs. Prerequisite: DAN 254. Introduction to elementary Labanotation, a system of recording movement. Open to non-majors with consent of instructor.

401. Modern Dance Technique IV, 2 hrs. May be repeated for a total of eight hours. Advanced Modern Dance technique and applied analysis of movement. A continuation of DAN 358. Open to non-majors with consent of instructor.

402. Ballet Technique III, 2 hrs. Continuation and further enrichment of the technique of ballet for the dance major. May be repeated for a total of eight hours. A continuation of DAN 352. Open to non-majors with consent of instructor.

409. Practicum in Dance, 1-3 hrs. May be taken for a total of 9 hours. Practices and projects in Ballroom Dance, Dance Theory, Performance, or Choreography for the undergraduate student. Open to non-majors with consent of instructor.

410. Choreographic Research Project II, 3 hrs. Prerequisites: DAN 253, DAN 259, and junior standing. A choreographic and written project of an original dance work. (Students undertaking senior honors 470 will enroll in DAN H470.)

420. Repertory Dance Company, 1 hr. May be repeated for a total of 8 hours. The study and practice of selected choreographic works for performance. By audition only.

430. Dance in Cultural Context, 3 hrs. The history of the development of dance forms and their social, cultural, and political significance from lineage-based societies through the end of the nineteenth century. Open to non-majors with consent of instructor.

431. 20th Century Dance Forms, 3 hrs. The history of the development of twentieth century dance forms and the artistic and societal frameworks in which they evolved. Open to non-majors with consent of instructor.

471. Dance Internship, 1-9 hrs.

472. Service Learning in Dance, 1-3 hrs. Linking Dance to the surrounding community. Students devise and execute outreach projects.

480. Theatre Dance, 2 hrs.
491. **Senior Seminar.** 1 hr. Prerequisite: Senior standing. Examination and clarification of goals. Dance resources, resume building, portfolio review.

492. **Special Problems.** 1-3 hrs. May be taken for a total of 9 hours. (Students undertaking a Senior Honors Special Problems Project will enroll in DAN H492.) Open to non-majors with consent of instructor. A directed individual study planned and approved by a faculty adviser.

499. **British Studies.** 3-6 hrs. Studies in dance and movement sciences abroad (5 weeks).

**DANCE EDUCATION (DED)**

260. **Field Observations in Dance.** 1 hr. An introduction to dance education as a profession; field experience, and research provided.

360. **Methods in Dance Education K-12.** 3 hrs. Methods, materials, and practical experience for teaching dance.

361. **Practicum in Dance Education.** 3 hrs. Prerequisites: DED 260, 360. A course designed to give the student class room opportunities in both elementary and secondary dance classes.

+460. **Student Teaching in Elementary Dance.** 7 hrs. Prerequisites: Admission to teacher education program, DED 260, DED 360, DED 361, PSY 374, SPE 400, REF 400, REF 409. Student practice teaching in elementary dance education.

+461. **Student Teaching in Secondary Dance.** 7 hrs. Prerequisites: Admission to teacher education program, DED 260, DED 360, DED 361, PSY 374, SPE 400, REF 400, REF 409. Student practice teaching in secondary dance education.

**ECONOMICS (ECO)**

(Enrollment in courses numbered 300 or above requires at least junior standing. CBA majors must meet foundation prerequisites.)

101. **Basic Economics.** 3 hrs. Principles of microeconomics and macroeconomics applied to current social issues for understanding of policy proposals

201. **Principles of Economics I.** 3 hrs. A study of a nation’s economy. Topics include inflation, unemployment, gross domestic product, business cycles, and international influences. (CC 2113)

202. **Principles of Economics II.** 3 hrs. A study of market systems. Topics include supply and demand, the behavior of firms and households in different market structures, government intervention in markets, barriers to trade, and foreign exchange markets. (CC 2123)

330. **Money and Public Policy.** 3 hrs. Prerequisites: ECO 201 and 202. A study of the nature and functions of money, financial institutions, monetary theory, and the political, social, and international context in which economic policy is formulated.

345. **Intermediate Macroeconomic Theory.** 3 hrs. Prerequisites: ECO 201 and 202. An intermediate study of the determination of aggregate income and employment.

401. **Public Finance.** 3 hrs. Prerequisites: ECO 201 and 202. A study of federal and state spending and fund-raising policies within the context of the social goals of the society.

440. **Economic Development.** 3 hrs. Prerequisites: ECO 201 and 202. Emphasis on the economic tools for economic development with particular attention to regional growth and change. Case studies include a number of countries and successful examples of regional, corporate, and local development.

450. **Introduction to Econometric Methods.** 3 hrs. Prerequisites: BA 303. Specification, estimation, and interpretation of econometric models.

470. **Comparative Economic Systems.** 3 hrs. Prerequisites: ECO 201 and 202. A course designed to acquaint the student with the origins, development, and characteristics of fascism, socialism, and capitalism.
492. Special Problems in Economics. 1-6 hrs. Prerequisite: Consent of chair. Individual study on an approved topic in Economics. (Students undertaking a Senior Honors Project will enroll in ECO H492.)

498. International Economics Seminar Abroad. 3 hrs. Prerequisite: Consent of program director. Conducted in various locations abroad: a series of lectures and discussions involving authorities on international economic issues and practices.

499. International Economics Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international economics offered for students enrolled in ECO 498.

ELECTRONICS ENGINEERING TECHNOLOGY (EET)

100. Seminar in Electronics. 1 hr. Provides instruction for academic preparation, exposure to faculty & department activities, and an overview of career opportunities for EET majors. Required of all first-semester EET freshman.

110. Introduction to Electric Circuits. 3 hrs. Prerequisite: MAT 101, Corequisite: EET 110L. Basic electrical concepts and relationships. Use of DC circuit analysis theorems and techniques.

110L. Electric Circuits Laboratory. 1 hr. Corequisite: EET 110.

111. Analysis of Alternating Current (AC) Circuits. 3 hrs. Prerequisite: EET 110 and MAT 103. Corequisite: EET 111L. Impedance and phasor concepts. Use of AC circuit analysis theorems and techniques.

111L. AC Analysis Laboratory. 1 hr. Corequisite: EET 111.

200. Electronics Assembly and Fabrication Practices. 1 hr. Corequisite: EET 200L. Laboratory and shop practice; safety; soldering and assembly; computer-aided printed circuit board (PCB) design; PCB fabrication.

200L. Assembly and Fabrication Laboratory. 1 hr. Corequisite: EET 200L.

210. Electronic Devices and Circuits. 3 hrs. Prerequisite: EET 111. Corequisites: EET 210L and PHY 111/201. Theory and application of solid state devices; diodes, junction and field-effect transistors, IC fabrication; small signal BJT amplifiers.

210L. Devices and Circuits I Laboratory. 1 hr. Corequisite: EET 210.

230L. Electronic Instrumentation Laboratory. 1 hr. Corequisite: EET 230.

301. Intermediate Network Analysis and Design. 3 hrs. Prerequisites: EET 111 or equivalent and junior standing. Corequisite: MAT 136. Develop additional skills in the time/frequency domain; network analysis.

311. Applications of Semiconductor Devices I. 3 hrs. Prerequisite: EET 210 or EET 301. Corequisites: EET 311L and PHY 112/202. Analysis and design of dc and small-signal amplifiers based on BJTs and FETs; difference amplifiers.

311L. Applications of Semiconductor Devices I Laboratory. 1 hr. Corequisite: EET 311.

312. Applications of Semiconductor Devices II. 3 hrs. Prerequisites: EET 311 and PHY 111/201. Corequisite: EET 312L. OPAMPS, power amplifiers, voltage regulators, special devices.

312L. Applications of Semiconductor Devices II Laboratory. 1 hr. Corequisite: EET 312. Laboratory applications of linear devices and circuits.

315. Design of High-Frequency and Communications Circuits. 3 hrs. Prerequisites: EET 311, MAT 136/167, and PHY 112/202. Corequisite: EET 315L. RF amplifiers and oscillators; signal spectra; noise; modulation; demodulation; phase-locked loops.

315L. High-Frequency Communications Laboratory. 1 hr. Corequisite: EET 315.

323. Advanced Analytical Methods. 3 hrs. Prerequisite: MAT 137/168. Laplace transform methods for analog signals and systems; transfer functions; z-transform methods for discrete time signals and systems; frequency-domain methods.

324. Applied Discrete Transforms, 3 hrs.

342L. Electrical Machinery Laboratory. Corequisite: EET 342. 1 hr.
392. Special Problems. 1-3 hrs.

+400. Senior Project. 2 hrs. Prerequisite: Senior standing and approval of faculty adviser. Project should be in area of student’s specialization. (Students undertaking a Seniors Honor Project will enroll in EET H400.)

+401. Senior Project. 2 hrs. Prerequisite: EET 400. (Students undertaking a Seniors Honors Project will enroll in EET H401.)

412L. Advanced Circuit Analysis Laboratory. 1 hr. Corequisite: EET 412.

450. Microwave Technology. 3 hrs. Prerequisites: EET 315, MAT 137/168, PHY 112/202. Corequisites: EET 450L. Introduction to microwave technology with special emphasis on microwave communications systems and radar; microwave components and circuits; measurement techniques; fault isolation.

450L. Microwave Laboratory. 1 hr. Corequisite: EET 450.

477. Introduction to Control Systems Technology. 3 hrs. Prerequisites: CET 323 and PHY 112/202. Corequisite: EET 477L. Fundamental control system theory and applications; servomechanisms; process control; measurement and instrumentation.

477L. Control Systems Laboratory. 1 hr. Corequisite: EET 477.

492. Special Problems. 1-3 hrs. Prerequisite: Senior standing and approval of faculty adviser. Supervised study in areas not covered by available courses.

ENGINEERING TECHNOLOGY (ENT)

100. Engineering Graphics. 3 hrs. The basics of engineering drawing: tools and equipment, geometric construction, sketching, projections, dimensioning, and tolerances. Introduction to computer-aided drafting and design (CADD).

110. Descriptive Geometry. 3 hrs. Prerequisite: ENT 100. Parametric solid modeling; study of objects using computers.

120. Computational Methods in Engineering Technology. 3 hrs. Applications of software used in technology disciplines, mathematics, and physics.

121. Introduction to Engineering Technology. 3 hrs. An overview of the various fields of engineering technology including tools used throughout the field.

260. Vector Statics. 3 hrs. Prerequisites: MAT 101, MAT 103; PHY 111, 111L. Corequisite: MAT 136 or equivalent. Forces in 2 and 3 dimensions, equilibrium, structures, friction. Vector notation.

320. Computer-Aided Drafting and Design I. 3 hrs. Prerequisite: ENT 120. Commercial CADD systems; hardware and software, graphics programming in two-and three-dimensions.

360. Mechanics of Materials. 3 hrs. Prerequisites: CSS 240, MAT 137, and PHY 112. Stresses and strains; deformations; axial, torsional, bending and combined loading; thermal stresses; FORTRAN programs.

360L. Mechanics of Materials Laboratory. 1 hr. Concurrent registration in ENT 360 is required.

390. Engineering Economics. 3 hrs. Prerequisite: MAT 136. Aspects of investment analysis relating to equipment justification, retirement, and replacement in industry.

+400. Senior Project. 3 hrs. Prerequisite: Senior standing and approval of faculty adviser. Required to select performance problem and develop and evaluate training intervention which addresses the problem or need.

420. Computer Aided Drafting and Design II. 3 hrs. Prerequisite: ENT 320. CADD applied to architectural and engineering drawing using AUTOCAD.

421. Computer-Aided Design and Drafting III. 3 hrs. Prerequisite: ENT 420 or CADD experience. Advanced CADD topics applied to architectural and engineering drawing using AutoLISP.

430. Solar Heating and Cooling. 3 hrs. Solar energy conversion methods; collectors; residential, commercial heating and cooling, and the economics of solar energy.

430L. Solar Heating and Cooling Laboratory. 1 hr.
444. **Fire Safety.** 3 hrs. Codes and technology used in fire prevention, detection, protection, and suppression.
470. **Electronics for Scientists.** 3 hrs. Prerequisite: PHY 112 or 202, MAT 137. Corequisite: ENT 470L. Practical electronics needed for maximum utilization of scientific instrumentation, automation, and logic circuits.
470L. **Electronics for Scientists Laboratory.** 1 hr. Corequisite: ENT 470.
492. **Special Problems.** 1-6 hrs. Topics in Engineering Technology I.
493. **Special Problems.** 1-3 hrs. Topics in Engineering Technology II.
496. **Industrial Internship.** 1-6 hrs. A minimum of 400 total hours of internship under the direct supervision of industrial professionals in collaboration with USM faculty.

**ENGLISH (ENG)**

090. **Developmental Writing.** 3 hrs. Develops basic writing skills. (Open only to students in Developmental Education Program.)
099. **Introduction to Composition.** 3 hrs. Required of entering freshmen with a below minimum English score on the ACT. Does not satisfy any university core or degree requirement.
100. **Basic Composition.** 3 hrs. (May not count toward a major, minor, or core.) Stresses grammar, mechanics, usage, and other basic writing skills.
101. **Composition One.** 3 hrs. Stresses clear, effective writing with special attention to syntactical and organizational skills. (CC 1113, 1213)
102. **Composition Two.** 3 hrs. Prerequisite: English 101. Refines compositional skills and stresses additional rhetorical and research methods. (CC 1123, 1223)
200. **Introduction to Drama.** 3 hrs. Focuses on drama of the western world.
201. **Introduction to Fiction.** 3 hrs. Focuses on the various types and modes of fiction, both short stories and novels.
202. **Introduction to Poetry.** 3 hrs. Focuses on major English and American poetry.
203. **World Literature.** 3 hrs. Acquaints students with significant figures and works of world literature. (CC 2413, 2423, 2453)
206. **The Study of Language.** 3 hrs. Introduction to issues relevant to the understanding of language theory and use.
211. **Fiction Writing I.** 3 hrs. Introduction to fiction writing.
222. **Poetry Writing I.** 3 hrs. Introduction to poetry writing.
300. **Vocabulary Development.** 3 hrs. (May not count toward major, but with permission of the English Department adviser may count toward the minor.) Stresses the improvement of vocabulary.
311. **English Grammar.** 3 hrs. A comparative study of traditional and structural grammars, with attention to usage and rhetorical uses of grammar.
311. **Survey of Contemporary Literature.** 3 hrs. Surveys major contemporary writers and their influences. (Required for secondary or middle grade certification.)
319. **Literary Study of the Bible.** 3 hrs. Examines the literary structure, style, and content of the English Bible.
321. **Fiction Writing II.** 3 hrs. Prerequisite: ENG 221. Stresses the techniques of short fiction writing.
322. **Poetry Writing II.** 3 hrs. Prerequisite: ENG 222. Stresses the techniques of poetry writing.
332. **Advanced Composition.** 3 hrs. Prerequisite: ENG 101 and ENG 102. Junior standing recommended. Emphasizes writing, research, and documentation skills needed for professional papers.
333. **Technical Writing.** 3 hrs. Prerequisite: English 101, 102 and junior standing or twelve hours in student’s major field. Stresses report writing in student’s major field.
340. **Analysis of Literature.** 3 hrs. Introduces the discipline of literary criticism. Prerequisites: ENG 101, 102, 203.
350. **Survey of British Literature I.** 3 hrs. Surveys major British literature from the Old English period to the Romantic period.
351. **Survey of British Literature II.** 3 hrs. Surveys major British literature from Romantic period to the present.
370. **Survey of American Literature I.** 3 hrs. Surveys American literature from its beginnings to the Civil War.
371. **Survey of American Literature II.** 3 hrs. Surveys American literature from the Civil War to the present.
400. Senior Seminar. Prerequisite: Senior standing. Explores various literary topics in a seminar setting. Repeatable to six hours.
401. Advanced Grammar. 3 hrs. Introduces structural and transformational grammar.
403. Language Study for Teachers. 3 hrs. The study of language and language theories with pedagogical applications.
406. History of the English Language. 3 hrs. Surveys the development of the English language from Old English to the present.
411. Studies in Postcolonial Literature. 3 hrs. Examines postcolonial literature from the 19th century to the present.
413. Survey of The Modern Novel. 3 hrs. Examines major British and Continental novels of the last 100 years.
414. Survey of Modern Poetry. 3 hrs. This course will acquaint students with the work of the significant modern poets, as well as the modern period’s important poetic innovations and movements.
417. Survey of Modern Drama. 3 hrs. Surveys important British and Continental dramas of the 20th century.
418. Literature for the Adolescent. 3 hrs. Study of literature and pedagogical theory for use with secondary school students.
419. Studies in World Literature. 3 hrs. Focuses on Continental, British, and American writers of the 19th and the 20th centuries. Repeatable to nine hours.
421. Fiction Writing III. 3 hrs. Prerequisites: English 221 and 321. Provides an opportunity to develop techniques of fiction writing. Repeatable to nine hours.
422. Poetry Writing III. 3 hrs. Prerequisites: English 222 and 322. Provides an opportunity to develop techniques of poetry writing. Repeatable to nine hours.
423. Creative Non-fiction Writing. 3 hrs. Workshop in writing non-fiction prose: personal essay, reviews, opinion.
425. Readings in the Theory of Fiction. 3 hrs. Emphasizes theories and forms of contemporary fiction. Repeatable to six hours.
426. Readings in the Theory of Poetry. 3 hrs. Emphasizes theories and forms of contemporary poetry. Repeatable to six hours.
433. Advanced Technical Writing. 3 hrs. Advanced course in technical writing in which students prepare three or four major assignments related to a single research problem.
440. Literary Criticism. 3 hrs. Provides a historical approach to the study of literary criticism from the classical period to the present. Emphasis will be on major texts and critics.
450. Survey of Medieval Literature, 500-1500. 3 hrs. Surveys world literature of the period.
452. Arthurian Literature. 3 hrs. Surveys the literature treating the legend of King Arthur.
454. Survey of Shakespeare. 3 hrs. Survey of Shakespeare’s work, including plays of several genres.
455. Studies in Shakespeare. 3 hrs. Studies a selected group of Shakespeare’s work according to genre, theme, or special topic.
456. Survey of Sixteenth-Century English Literature. 3 hrs. Surveys the more important English writers of this period.
457. Survey of the Development of British Drama to 1642. 3 hrs. Surveys English drama from its beginnings to 1642, exclusive of Shakespeare.
458. Survey of Seventeenth-Century British Prose and Poetry. 3 hrs. Survey of the period 1600-1660, with emphasis on the “schools” of Donne and Jonson.
459. Milton. 3 hrs. Focuses on the poetry and prose of Milton, with emphasis on the major works.
460. Survey of British Literature, 1660-1740. 3 hrs. Surveys British literature from the Restoration to 1740.

341. Introduction to Spanish Literature. 3 hrs. Prerequisite: SPA 202 or equivalent and SPA 305. Introduction to genres, literary structure, terms, methods of critical analysis and approaches to the reading and study of Spanish literature.

361. Spanish for Law Enforcement. 3 hrs. Prerequisite: SPA 201. For Criminal Justice majors or minors only.

381. Intermediate Oral Communication Credit for Study Abroad. 3 hrs. Prerequisite: SPA 202, 282, or equivalent; otherwise same as SPA 181 (See SPA 181). Intermediate-advanced study abroad, emphasis on oral communication. Equivalent to SPA 321. Repeatable.

382. Grammar and Composition Credit for Study Abroad. 3 hrs. Prerequisites: SPA 202, 282, or equivalent; otherwise same as SPA 181. Intermediate-advanced study abroad, with emphasis on grammar and composition. (equivalent to SPA 313, 305)

383. Culture and Intro to Literature Credit for Study Abroad. 3 hrs. Prerequisites: Min. 6 hrs at the 300-level; otherwise same as SPA 181. Intermediate-advanced study abroad with emphasis on culture and literature. (Equivalent to SPA 332 or 341)

405. Spanish Phonetics. 3 hrs. Prerequisite: A minimum of 6 hours at the 300 level. A contrastive study of the phonetic systems of English and Spanish with emphasis on corrective exercises in Spanish pronunciation.

406. Advanced Composition and Grammar. 3 hrs. Prerequisite: SPA 305 and SPA 313 or equivalent. Review of basic grammar, progressing to more sophisticated aspects; idiom study; composition.

411. The Spanish Subjunctive. 3 hrs. Prerequisite: SPA 406. A study of subjunctive structures and concepts, with composition practice.

421. Advanced Conversation. 3 hrs. Prerequisite: SPA 321 and SPA 313. Conversational practice in formal and informal language drawn from print and electronic media.

433. Hispanic Film. 3 hrs. Prerequisite: 6 hours 300-level Spanish. Overview of Spanish and Spanish American cinema. Discussions will emphasize cultural and socio-historical issues.

435. Spanish Culture and Civilization. 3 hrs. Prerequisite: A minimum of 6 hours at 300 level. A chronological survey of Spanish history and culture from Celt-Iberian times to the present.

436. Latin American Culture and Civilization. 3 hrs. Prerequisite: A minimum of six hours at the 300 level. A chronological survey of Hispanic civilizations and institutions.

442. Survey of Spanish Literature. 3 hrs. Prerequisite: At least six hours of Spanish at the 300 level. May be taken for a total of six hours if topics vary.

445. Topics in Spanish Literature. 3 hrs. Prerequisite: At least six hours of Spanish at the 300 level. May be taken for a total of six hours if topics vary.

462. Don Quijote. 3 hrs. Prerequisite: A minimum of six hours at the 300 level. A study of the Cervantes novel, of its historical and literary background, and of the principal critical materials.

452. Topics in Latin American Literature. 3 hrs. Prerequisite: At least six hours of Spanish at the 300 level. May be taken for a total of six hours if topics vary.

481. Advanced Oral and Written Communication Credit for Study Abroad. 3 hrs. Prerequisites: Min 6-9 hours at the 300 level; otherwise same as 181 (see SPA 181). Advanced study and practice of oral and written skills (equivalent to SPA 421, SPA 406). Repeatable.

482. Hispanic Culture and Civilization Credit for Study Abroad. 3 hrs. Prerequisites: Minimum 3 hrs at 400-level; otherwise same as SPA 381. Advanced culture and civilization study abroad. (equivalent to SPA 435, 436).

483. Topics in Hispanic Literature Credit for Study Abroad. 3 hrs. Prerequisites: Min 6 hrs at 400-level; otherwise same as SPA 181. Systematic study of certain topics in Hispanic literature. (equivalent to SPA 442, 445, 452)

491. Advanced Studies in the Spanish Language. 3 hrs. Prerequisite: At least six hours at the 300 level. Content varies in response to students’ interests and needs. Topics include: syntax, lexicography, and etymology. May be repeated for a total of six hours.

492. Special Problems. 1-3 hrs. Prerequisite: Consent of the instructor and approval by chair. May be repeated twice.
FORENSIC SCIENCE (FSC)

140. The Science of Forensic Science. 3 hrs. The biological, chemical, physical, and physiological principles important for the understanding of forensic science.

140L. The Science of Forensic Science Laboratory. 1 hr. Concurrent registration in FSC 140 is required.

310. Introduction to Forensic Science. 3 hrs. The collection and analysis of physical evidence.

310L. Introduction to Forensic Science Laboratory. 1 hr. Concurrent registration in FSC 310 is required.

340L. Fingerprinting Techniques Laboratory. 1 hr. Concurrent registration in FSC 340 is required.

430. Survey of Forensic Toxicology. 3 hrs. Toxicology as applied to forensic investigations.

440. Drug Identification. 3 hrs. Lectures, demonstrations and discussions covering all aspects of drug identification, emphasizing those relating to law enforcement.

442. Arson and Explosives. 3 hrs. Introduction to fire investigation; arson and bombings.

442L. Arson and Explosives Laboratory. 1 hr. Concurrent registration in FSC 442 is required.

445. Crime Scene Documentation. 3 hrs. Prerequisites: FSC 310 and FSC 340 or permission of instructor. Concurrent registration in FSC 445L is required. The processing of a crime scene, including crime scene photography, sketching of the crime scene, and collecting and processing evidence.

445L. Crime Scene Documentation Laboratory. 1 hr. A laboratory designed to accompany FSC 445. Concurrent registration in FSC 445 is required.

480. Seminar in Forensic Science. 3 hrs. May be repeated for credit. Designed to cover areas of significance in the field of forensic science. Topics may include Medico-Legal Death Investigation, Vehicle Fire Investigation, and Forensic Photography.

491. Special Projects in Forensic Science. 1 hr. Individual studies in forensic science principles.

491L. Laboratory for Forensic Science. 3 hrs. Laboratory to accompany FSC 491.

549. Field Study in Forensic Science. 3, 6, or 9 hrs. Prerequisite: permission of the director of Forensic Science. Field work offering research and practice in a forensic science setting.

599. British Studies. 1-6 hrs. Variable content. Lecture series and research under the auspices of the College of International and Continuing Education.

FUNDAMENTALS OF SCIENCE (FS)

(The three courses in the FS sequence are laboratory courses designed to meet core requirements for elementary education and special education majors. Laboratory (1 hr.) must be taken concurrently with lecture (3 hrs.). These courses are designed to address the key concepts and principles of science needed to teach science effectively in the elementary grades.)

131. General Physical Science. 3 hrs. Restricted to Elementary or Special Education majors. Study of the interaction of matter and energy.

131L. Laboratory for General Physical Science. 1 hr. A laboratory designed to accompany FS 131. Concurrent registration in FS 131 is required.

133. General Biological Science. 3 hrs. Restricted to Elementary or Special Education majors. A study of interactions of organisms with their environment.

133L. Laboratory for General Biological Science. 1 hr. A laboratory designed to accompany FS 133. Concurrent registration in FS 133 is required.

135. Earth and Environmental Science. 3 hrs. Restricted to Elementary or Special Education majors. A study of the lithosphere, hydrosphere, atmosphere, and environmental concerns.

135L. Earth and Environmental Science Laboratory. 1 hr. A laboratory designed to accompany FS 135. Concurrent registration in FS 135 is required.

GENERAL STUDIES (GS)

100. Orientation. 1 hr.

301. College Survival. 1 hr.
GEOGRAPHY AND AREA DEVELOPMENT (GY)

101. World Geography: Dynamics of a Changing Earth. 3 hrs. Introduction to descriptive and analytical principles of geographical analysis through consideration of regional themes. (CC 1113)

102. Introduction to Geography. 3 hrs. Introduction to the basic elements and concepts of geography. (CC 1123)

104. Weather and Climate. 3 hrs. Atmospheric processes and geographic distribution of moisture, global temperatures, and circulation interacting to create weather and storms; global climate patterns; human impact on climate.

104L. Weather and Climate Laboratory. 1 hr. Prerequisite or corequisite: GHY 104. Exercises, observations, and experiments applying scientific methods to atmospheric processes. Two laboratory hours per week.

105. Landforms, Hydrology, and Biogeography. 3 hrs. Geographic processes and spatial distribution of landforms; global hydrological systems; soil development and vegetation associations; human impact on landforms.

105L. Landforms, Hydrology, and Biogeography Laboratory. 1 hr. Prerequisite or Corequisite: GHY 105. Exercises, observations and experiments applying scientific methods to landforms, soils and vegetation. Two laboratory hours per week.

210. Maps and Civilization. 1 hr. Role of maps and map making in society, considering both historic development and current role of cartography.

315. Sources, Techniques, and Analysis in Geography. 3 hrs. An introduction to the principles of data collection, analysis, and presentation in a geographical context.

325. Physical Geography of the Environment. 3 hrs. A general introduction to the major earth physical environmental systems. Particular emphasis is placed on understanding how environmental problems evolve, as well as on human-environment interactions.

+325L. Physical Geography of the Environment Laboratory. 1 hr. Prerequisite or corequisite: GHY 325. Analysis and interpretation of physical geographic data, maps, and charts. Field trips may be required.

326. Introduction to Meteorology and Weather Forecasting. 3 hrs. GHY 325 recommended as prerequisite. An introduction to the atmosphere, its processes and weather forecasting.

327. Earth Surface Processes and Environments. 3 hrs. GHY 325 recommended as prerequisite. Study of the natural processes influencing the origin and development of landscapes.

330. Unveiling the Earth: The Geography of Exploration. 1 hr. Examines the ways in which geographical information accumulated through the activities of traders, missionaries, politicians, and others.

341. Geography and World Political Affairs. 3 hrs. The geographer’s approach to patterns of power, conflict, and dispute resolution, including environmental affairs, development issues, strategic trading, multinational, electoral, and local affairs.

350. Economic Geography. 3 hrs. Principles and practices of economic geography as applied at various scales from local to global.

360. World Cities. 3 hrs. The growth and structure of the world’s major cities, with emphasis on modern planning and development problems.

362. Urban Geography. 3 hrs. Review of urban development, processes contributing to development, and effect these processes have on cities.

370. Conservation of Natural Resources. 3 hrs. An analysis of basic principles and problems associated with the use, misuse, and conservation of natural resources.

400. Geography of Mississippi. 3 hrs. Survey of physical, economic, and historical geography of the state; emphasis on human-environment relations and problems.

401. Geography of the United States and Canada. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

402. Geography of Middle America and the Caribbean. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

403. Geography of South America. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

404. Geography of Europe. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

405. Geography of Russia. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

406. Geography of Africa. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

407. Geography of East and South Asia. 3 hrs. A geographical analysis of the physical and human characteristics of the region.
408. **Geography of Southwest Asia.** 3 hrs. A geographical analysis of the physical and human characteristics of the region.

+410L **21st Century Cartography Laboratory.** 2 hrs. Corequisite: GHY 410. Use of mapping software to design and construct effective maps and techniques for obtaining maps and geographic data from the World Wide Web and other sources.

411. **Remote Sensing and Image Interpretation.** 3 hrs. Corequisite: GHY 411L. Acquisition, analysis, and interpretation of aerial photographic products, digitally remote sensed imagery, and the analytic tools in current use by the public and private sectors.

+411L **Remote Sensing and Image Interpretation Laboratory.** 1 hr. Corequisite: GHY 411. Application of remote sensing images interpretation principles using manual and automated analysis tools.

412. **Environmental Remote Sensing.** 3 hrs. Prerequisite: GHY 411 or permission of instructor. Corequisite: GHY 412L. Advanced image processing techniques using a variety of images and computer packages. Course focus is on environmental applications and integration with other spatial analysis tools.

+412L **Environmental Remote Sensing Laboratory.** 1 hr. Prerequisite: GHY 411L or permission of instructor; corequisite: GHY 412. Students are exposed to a variety of advanced image processing techniques using digital remote sensing imagery.

416. **Computer Applications in Geography.** 2 hrs. Corequisite: GHY 416L. Role of personal computers in geography. Concepts and applications of computerized geographic mapping, information, simulation, and analytic techniques.

+416L **Computer Applications in Geography Laboratory.** 1 hr. Corequisite: GHY 416. Operation of computerized geographic mapping, information, simulation, and analytic systems.

+417L **Geographic Information System Laboratory.** 1 hr. Corequisite: GHY 417. Operation of computerized geographic information systems for design making.

418. **Spatial Analysis.** 2 hrs. Prerequisite: GHY 417. Corequisite: GHY 418L. Theory and application of geographic information systems and spatial statistics in decision making.

+418L **Spatial Analysis Laboratory.** 2 hrs. Corequisite: GHY 418. Design, construction, and use of a geographic information system database.

419. **Managing Geographic Information Systems.** 1 hr. Theory and practice of managing a geographic information system.

422. **Biogeography.** 3 hrs. Prerequisite: Consent of instructor. Study of plant and animal distributions, and human impacts on distributions, from a geographic, geological, and biological perspective. (May be taken as BSC 406.)

425. **Environmental Climatology.** 3 hrs. Acquisition, analysis, and interpretation of meteorological and climatological data. Particular emphasis is placed on understanding climactic anomalies at a variety of time scales, as well as on human-environmental interactions.

428. **Severe Storms.** 3 hrs. An examination of the causes, characteristics and destructive nature of severe weather.

435. **Historical Geography of the American Landscape.** 3 hrs. Examines the nature and causes of change in the human landscape of the United States.

440. **Population and Human Resources.** 3 hrs. A geographical analysis of the spatial variations in demographic and non-demographic aspects of human populations.

441. **Contemporary Issues in Geography Seminar.** 3 hrs. Prerequisite: 18 hours credit in Geography. This discussion course focuses on analysis of the geographical background to topical issues.

442. **Social Geography: Values Systems and Landscape Change.** 3 hrs. An analysis of the relationship between geographical patterns of human social organization, social values and spatial patterns of landscape change.

451. **Theory of Economic Location.** 3 hrs. Principles of economic location analysis with emphasis on locational decision making and investment by different types of businesses. Relevance to economic development and planning is stressed.

489. **Caribbean Studies.** 1-6 hrs. Variable content. Lecture series, field exercises, and research offered abroad under the auspices of the Center for International Education.

491. **Internship.** 1-9 hrs. The internship gives the students credit for practical, supervised experience in the work place. May be repeated to a maximum of nine hours.

492. **Special Problems.** 1-3 hrs. May be repeated for a total of six hours. (Students undertaking a Senior Honors Project will
493. Internship in Geographic Information. 1-6 hrs. Prerequisite: Permission of instructor. Internship in GIS, remote sensing, and cartography. May be repeated for a total of six hours.

494. Prolaboratory in Geographic Information. 1-3 hrs. Prerequisite: Permission of instructor. Preparation and presentation of a professional GIS, remote sensing, or cartographic project. May be repeated with change of content for a total of six hours.

498. Study Abroad. 1-6 hrs. Students gain experience of foreign environments, both cultural and physical, through structured programs offered by the College of International and Continuing Education.

499. British Studies: Geography of the British Isles. 3-6 hrs. An overview of the human and physical geography of the British Isles. Includes field trips and directed research.

GEOLOGY (GLY)

101. Physical Geology. 3 hrs. An introductory course emphasizing the origin and nature of earth materials and processes affecting the earth’s surface and interior. (CC 1113)

101L. Physical Geology Laboratory. 1 hr. Pre- or corequisite: GLY 101. An elementary study of rocks, minerals, and maps. (CC 1111)

103. Historical Geology. 3 hrs. A study of earth history as revealed in the character and fossil content of rocks. (CC 1123)

103L. Historical Geology Laboratory. 1 hr. Pre- or corequisite: GLY 103. Introduction to the study of fossils and interpretation of geologic maps. (CC 1121)

151. Introduction to Ocean Science. 3 hrs. Survey of the physical, chemical, geological, and biological features of the ocean. (Same as MAR 151)

151L. Introduction to Ocean Science Laboratory. 1 hr. Pre- or corequisite: GLY 151. Elementary exercises for interpreting oceanographic data and samples. (Same as MAR 151L)

301. Mineralogy. 3 hrs. Prerequisites: GLY 101, GLY 101L, CHE 106. Pre- or corequisite: MAT 103. Elements of crystallography, silicate structures, and determinative mineralogy.

301L. Mineralogy Laboratory. 1 hr. Corequisite: GLY 301.

304. Petrology. 3 hrs. Prerequisites: GLY 301, GLY 301L. Principles of rock genesis, classification, and recognition.

304L. Petrology Laboratory. 1 hr. Corequisite: GLY 304.

306. Environmental Geology. 3 hrs. Prerequisite: GLY 101 or permission of instructor. The nature of geological hazards and man’s impact on the environment.

308. Structural Geology. 3 hrs. Pre- or corequisite: GLY 301. Principles of rock deformation.

308L. Structural Geology Laboratory. 1 hr. Corequisite: GLY 308.

310. Geomorphology. 3 hrs. Prerequisites: GLY 101, GLY 101L, MAT 103 or equivalent. Study of geologic processes involved in landscape development.

310L. Geomorphology Laboratory. 1 hr. Corequisite: GLY 310.

341. Invertebrate Paleontology. 3 hrs. Prerequisites: GLY 103, GLY 103L, or permission of instructor. Taxonomy, morphological features, and geologic distribution of invertebrate fossils.

341L. Invertebrate Paleontology Laboratory. 1 hr. Corequisite: GLY 341.

380. Introduction to Geological Field Work. 2 hrs. Pre- or corequisites: GLY 304 and GLY 308. Introduction to field methods used to produce geologic maps, structural cross sections, and stratigraphic columns.

401. Principles of Stratigraphy. 3 hrs. Prerequisites: GLY 301, GLY 308, GLY 341, or permission of instructor. A study of the character and distribution of sedimentary rock units in space and time.

403. Optical Mineralogy. 3 hrs. Pre- or corequisite: GLY 304. Introduction to optical mineralogy, and thin section study of rocks using polarizing microscope.

403L. Optical Mineralogy Laboratory. 1 hr. Corequisite: GLY 403.

405L. Sedimentology Laboratory. 1 hr. Corequisite: GLY 405.

406. Fundamentals of Crystallography. 1 hr. Prerequisite: MAT 103. An introduction to the concepts of crystal systems, morphology, Hermann-Mauguin symbols, Bravais lattice, unit cells, Miller indices, and X-ray diffraction. For non-geology majors.

406L. Fundamentals of Crystallography Laboratory. 1 hr. Corequisite: GLY 406.
407. Principles of X-ray Diffraction. 1 hr. Prerequisites: GLY 301, 406, or permission of instructor. Introduction to principles, analytical techniques, and precautions involved in X-ray diffraction instrumentation.

408. Petrography. 3 hrs. Prerequisites: GLY 304, GLY 403L. Characterization of rock composition and textures, classification and petrogenesis with use of polarizing microscope and thin sections.

408L. Petrography Laboratory. 1 hr. Prerequisites: GLY 403, GLY 403L. Corequisite: GLY 408.

410. Elements of Geochemistry. 3 hrs. Prerequisite: GLY 304. Chemical principles governing the formation of minerals and rocks and their reactions with the lithosphere, hydrosphere, atmosphere, and biosphere.

411. Applied Groundwater Geochemistry. 3 hrs. Prerequisites: GLY 410, GLY 476 recommended. Design and implementation of groundwater geochemistry monitoring programs for hydrogeological site assessment.

420. Geophysics I. 3 hrs. Prerequisites: GLY 308, PHY 201 or consent of instructor. Introduction to seismic methods used in hydrocarbon and mineral exploration.

420L. Geophysics I Laboratory. 1 hr. Corequisite: GLY 420. Introductory exercises in seismic computation and interpretation.

421. Applied Geophysics II. 3 hrs. Prerequisites: GLY 308, PHY 201 or consent of instructor. Introduction to gravity, magnetic, and electrical methods in hydrocarbon and mineral exploration.

421L. Applied Geophysics II Laboratory. 1 hr. Corequisite: GLY 421. Introductory exercises in computation and interpretation of gravity, magnetic, and electrical fields.

422. Geophysical Well-Logging. 3 hrs. Prerequisites: GLY 101, MAT 103, PHY 201. Pre- or Corequisite: GLY 405. Principles of obtaining data from bore hole instruments, and geological interpretation of data.

422L. Geophysical Well-Logging Laboratory. 1 hr. Corequisite: GLY 422.

423. Geological Remote Sensing. 2 hrs. Prerequisites: GLY 301, GLY 304, and GLY 308 or permission of instructor. Corequisite: GLY 423L. Introduction to the use of multispectral, hyperspectral, and radar remote sensing data and imagery in applied geology.

430. Principles of Geology for Science Teachers. 3 hrs. Prerequisite: Permission of instructor. Principles of physical and historical geology for teachers. Not applicable to geology degree.

430L. Principles of Geology for Science Teachers Laboratory. 1 hr. Corequisite: GLY 430.

443. Calcareous Micropaleontology. 3 hrs. Prerequisite: GLY 341. Taxonomy, morphology, and stratigraphic use of carbonate microfossils.

443L. Calcareous Micropaleontology Laboratory. 1 hr. Corequisite: GLY 443.

444. Siliceous Micropaleontology. 3 hrs. Prerequisite: GLY 341. Taxonomy, morphology, and stratigraphic use of siliceous and organic-walled microfossils.

444L. Siliceous Micropaleontology Laboratory. 1 hr. Corequisite: GLY 444.

450. Geological Marine Science. 3 hrs. Pre- or corequisite: GLY 405, or consent of instructor. Study of the formation and deformation of the oceanic crust and the distribution and character of marine sediments. (Same as MAR 481)

450L. Geological Marine Science Laboratory. 1 hr. Corequisite: GLY 450. (Same as MAR 481L)

465. Engineering Geology. 3 hrs. Prerequisite: GLY 308 or permission of instructor. The integration of geologic and engineering principles and their application in the evaluation and utilization of Earth resources and the mitigation of natural and human-induced hazards.

470. Petroleum Geology. 3 hrs. Pre- or corequisite: GLY 401 or permission of instructor. The origin, occurrence, and accumulation of oil and natural gas.

470L. Petroleum Geology Laboratory. 1 hr. Corequisite: GLY 470.

474. Geological Excursion. 1 hr. Field studies of geological phenomena in areas remote from the campus.

476. Hydrology. 3 hrs. Pre- or corequisite: GLY 401 or permission of instructor. An introduction to the origin, distribution, movement, and properties of the waters of the earth.

492. Special Problems in Geology. 1-3 hrs. Prerequisites: Senior standing and permission of the chair. Independent study or
research.

498. Senior Thesis. 3 hrs. Prerequisite: Permission of chair. Formal presentation and publication of supervised research for students with senior standing. Degree requirement for McCarty Scholarship awardees.

HEALTH AND HUMAN SCIENCES (HHS)

100. Concepts of Wellness. 3 hrs. Wellness within an integrated framework encompassing topics associated with fitness, nutrition and health.

101. Diversity and Social Justice. 3 hrs. The universality of diversity with a focus on social justice issues.

HISTORY (HIS)

PS 420, 421, and 425 may be selected as history if approved by the student’s adviser.

No more than six (6) hours of these courses may be counted as history credit.

101. World Civilizations: Beginnings to 1500 C.E. 3 hrs. (CC 1113, 1143, 1163)

102. World Civilizations: 1500 to the present. 3 hrs. (CC 1123, 1153, 1173)

201. Survey of United States History up to 1877. 3 hrs. (CC 2213)

202. Survey of United States History Since 1877. 3 hrs. (CC 2223)

300. Research Seminar. 3 hrs. A basic course to acquaint the student with the theory and practice of historical study.

302. Integrated American Social Studies to 1877. 3 hrs. Strengthens content knowledge about social studies and models innovative multidisciplinary instructional methods.

303. Studies in Non-Western History. 3 hrs. Examines various topics in the non-western world. Content of course may vary. May be repeated for a total of nine hours.

304. Survey of Islamic History. 3 hrs. To provide undergraduate students the opportunity to learn about the evolution of Islamic history and culture.

305. Survey of Asian History. A historical study of the countries of Asia in the 19th and 20th centuries.

307. Survey of African History, 1500-Present. 3 hrs. Exploration of the key aspects of the history of Africa, designed to give students a general working knowledge of Africa and Africans from the early modern era to the present.

310. Survey of Latin American History. 3 hrs. A study of Latin American history from the conquest to the present with an emphasis on social, economic, and cultural developments.

326. The Rise of Christianity and the Roman Empire. 3 hrs. A study of the emergence of Christianity as an intellectual, religious, and political force in late antiquity and the early Middle Ages.

328. Ancient and Medieval Women. 3 hrs. To introduce students to women in ancient and medieval Europe—their roles, the attitudes about women, perceptions of their strengths and weaknesses.

330. Early Medieval Europe. 3 hrs. This course will examine the implications of the fall of Rome and the creation of the German successor states.

331. Later Medieval Europe. 3 hrs. This course will focus on the implications of technological development and the spread of education of medieval people.

346. Early English History. 3 hrs. A history of England from the earliest times to 1485 with emphasis on the development of law and royal administration.

349. Modern British History. 3 hrs. A survey of Great Britain since the Industrial revolution.

360. Modern Military History. 3 hrs. A survey of modern military history.

370. Mississippi History. 3 hrs. A survey of Mississippi’s economic, social, and political development from 17th century European settlement to the present.

375. Economic History of the United States. 3 hrs. Explores the economic history of the United States from colonial times to the present.

401. Themes in the Non-Western World. 3 hrs. An analysis of economic, political, social, and cultural issues which have
shaped relations between the Western and non-Western worlds. Content of course may vary. May be repeated for a total of nine (9) hours.

402. Imperialism, Nationalism, and Decolonization. 3 hrs. A survey of select topics in 19th century European imperialism, its effects on colonial societies, the development of colonial nationalist movements, and the problems of third-world decolonization in the 20th century.

403. Africa, History and Cinema. 3 hrs. This course will examine major themes in modern African history via texts and motion pictures.

404. History and Cinema. 3 hrs. This course will provide a multidimensional examination of the relations between the discipline of history, or more precisely the production of historical narratives and interpretations, and cinema.

406. Modern China. Survey of the historical processes that have transformed China into a modern Marxist society.

409. United States Relations with Asia. An exploration of the dynamic interactions between the United States and China and Japan over the past 200 years.

410. History of Mexico Since Independence. 3 hrs. A survey of the national history of Mexico and the Caribbean. The focus of the course is on Mexico and Cuba.

412. History of Brazil. 3 hrs. An examination of Brazilian history, with particular emphasis on the period since independence.

413. The United States and Latin America. 3 hrs. A detailed discussion of the relationship between the societies and governments of the United States and Latin America.

415. World War I. 3 hrs. An exploration of the causes, conduct, and consequences of World War I.

416. World War II. 3 hrs. A study of causes, conduct, and consequences of World War II.

417. The Vietnam War. 3 hrs. A discussion of military, social, political, and cultural consequences of the war.

418. War and Society in Modern Africa. 3 hrs. Exploration of origins and conduct of colonial warfare, anti-imperialist wars of independence, and post-colonial armed conflicts in modern Africa, focusing primarily on 19th and 20th centuries.

420. Exploration and Discovery. 3 hrs. Examination of factors contributing to European exploration from the Renaissance to 19th century.

422. The History of Medicine. 3 hrs. To provide students with an understanding of the ideas, practices, and institutions in the treatment of disease and the maintenance of health from ancient times to the present.

425. Medieval Christianity. 3 hrs. This course will explore a central era of Christian religious development during the European Middle Ages.

426. Renaissance Europe. 3 hrs. This course will examine the social, political, and intellectual changes emerging in Europe after the Black Death.

427. Reformation Europe. 3 hrs. This course will examine the setting, events, and implications of the religious Reformation in European history.

429. The Age of the Enlightenment. 3 hrs. A survey of the political, social, and cultural history of Europe from the Age of Absolutism to the French Revolution.

495. Proseminar in Humanities. 1-2 hrs., repeatable to 3 hrs. Assignment to a Humanities mentor. Supervised writing on an approved topic.

INDUSTRIAL ENGINEERING TECHNOLOGY (IET)

300L. Manufacturing Processes Laboratory. 1 hr. Corequisite: IET 300.

302. Industrial Quality Control. 3 hrs. The use of control charts, acceptance sampling, and tolerances to test and improve product quality. Basic reliability.

308. Maintenance Engineering Technology. 3 hrs. Prerequisite: CSS 211. Corequisite: IET 308L. Problems associated with keeping an operating system at a highly productive level and managing a maintenance department.

308L. Industrial Engineering Technology Laboratory. 0 hr. Corequisite: IET 308.

310L. Production Materials Laboratory. 1 hr. Corequisite: IET 310.

350. Industrial Cost Control. 3 hrs. Analysis of individual cost components that impact the total cost of manufacturing goods or services. Cost control techniques surveyed range from the analysis of raw materials, reliability, labor, machine and equipment selection, automation, overhead, warehousing, material handling, and inventory to the shipment of the final product.

400. Senior Project. 3 hrs. Prerequisites: Senior standing and approval of faculty adviser. Student required to complete project in his or her area of specialization.

401. Senior Project. 3 hrs. Continuation of IET 400.

405. Production and Inventory Control Systems. 3 hrs. Principles of production and inventory planning and control. Forecasting techniques, EOQ, MRP, production scheduling, line balancing, CPM/PERT.

406. Industrial Automation. 3 hrs. Pneumatic logic, ladder logic diagrams, and programmable logic controllers.

409. Plant Layout and Material Handling. 3 hrs. Prerequisite: IET 480. Effectiveness of plant layout and material handling to the production activity, involving personnel, materials, tools and equipment.

410. Motion and Time. 3 hrs. Corequisite: IET 410L. Methods improvement, time study, and predetermined motion times.

410L. Motion and Time Laboratory. 1 hr. Corequisite: IET 410.

420. Design for Rapid Prototyping. 3 hrs. Prerequisites: ENT 320 and ENG 333. Survey of applications or rapid automated prototyping, stereo-lithography systems, parametric design and reverse engineering.

480. Industrial Simulation and Modeling. 3 hrs. Prerequisite: CSS 211. Analysis of manufacturing and service operations encountered in industry using computer simulation techniques.

491. Seminar. 2 hrs. Prerequisite: Senior standing. Tours, guest lectures, student presentations, and discussions of the latest methods in the field.

492. Special Problems. 1-3 hrs. Prerequisites: Senior standing and approval of faculty adviser. Supervised study in area not covered by available courses.

INSTRUCTIONAL TECHNOLOGY (IT)

365. Computer Applications in Education. 3 hrs. Skill development in the use of computer technology appropriate to
teaching, learning, and managing education.

467. Desktop Publishing. 3 hrs. Prerequisite: Basic computer literacy. Microcomputer production of typeface/graphics enhanced media designed to be both pleasing in appearance and effective in communication.

469. Computer Based Instructional Technology. 3 hrs. Prerequisite: Basic computer literacy. Interactive instructional design and applications for effective presentations.

INTERIOR DESIGN (ID)

455. Organization Theory. 3 hrs. Prerequisite: MGT 300. To develop an understanding of the impact of the interaction of structure, environment, technology, and climate on organizational effectiveness.

465. Production and Operations Management. 3 hrs. Prerequisites: BA 301 and MGT 300. Development of the P.O.M. functions of production planning and control, inventory control, quality control, and materials handling.

468. Compensation Administration. 3 hrs. Prerequisite: MGT 300. Wage and salary administration including job analysis, incentive systems, wage survey, and fringe benefits.
472. Labor Relations. 3 hrs. Prerequisite: MGT 300. An integrated study of current law, practice, and policy; cases and role playing.

475. Entrepreneurship/Small Business Management. 3 hrs. Prerequisite: MGT 300. Theories and applications related to unique challenges of initiating and/or operating a small business.

480. Current Issues in Management. 3 hrs. Prerequisites: MGT 364 and MGT 454. A comprehensive course designed to synthesize management concepts and issues through the use of cases, research projects, and readings.

482. Small Business Operations Management. 3 hrs. Prerequisite: MGT 475. A case approach to entrepreneurship.

492. Special Problems in Management. 1-6 hrs. Prerequisite: Consent of chair. Individual study on an approved topic in management. (Students undertaking a Senior Honors Project will enroll in MGT H492.)

495. International Management. 3 hrs. Prerequisite: MGT 300. A course concentrating on the comparison of problems in management in the U.S. with those of multi-national firms.

499. International Management Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international management offered to students enrolled in MGT 498.

**MANAGEMENT INFORMATION SYSTEMS (MIS)**

(Enrollment in courses numbered 300 or above requires at least junior standing. CBA majors must meet foundation prerequisites.)

201. Introduction to Business Computer Concepts. 1 hr. Introduction to computer operating systems and concepts in the business environment. (For students with advanced experience in word processing and DOS, a challenge exam may be granted with permission from the chair of Management and MIS.)

202. Introduction to Business Spreadsheets. 1 hr. Introduction to the use of spreadsheets in the business environment. (For students with advanced experience in spreadsheets, a challenge exam may be granted with permission from the chair of Management and MIS.)

203. Introduction to Business Database. 1 hr. Introduction to the use of databases in the business environment. (For students with advanced experience in database management, a challenge exam may be granted with permission from the chair of Management and MIS.)

204. Introduction to Business Systems Topics. 1 hr. Introduction to current topics and application in business information systems.

300. Management Information Systems. 3 hrs. Prerequisites: CSC 100. An introduction to management information systems.

309. Business Process Systems and Control. 3 hrs. Prerequisite: MIS 300 with a C or better. An examination of the basic processing cycles used to process accounting and operational data in business systems.

310. Systems Analysis and Design. 3 hrs. Prerequisites: MIS 300 with a grade of C or better. The tools, techniques, and concepts of analysis and design of business information systems.

315. Applications Program Development. 3 hrs. Prerequisite: MIS 310 with a grade of C or better. The interactive development of business problems, utilizing advanced data structure, and file maintenance.

320. Advanced Microcomputer Applications. 3 hrs. Prerequisites: MIS 300 with a C or better. An advanced course in the use of business microcomputers for decision support and information retrieval.

392. Supervised Field Experience in MIS. 1-3 hrs. Prerequisite: MIS 300 with grade no lower than B and permission of instructor. Supervised field-based internship in management information systems.

401. Database Management Systems. 3 hrs. Prerequisite: MIS 310 with a C or better. The theory and practice of database design. Software packages are used to design business information systems.

406. Data Communications. 3 hrs. Prerequisite: MIS 300 with a C or better. A course on the wide range of modern business systems, including transmission protocols, networking, and the management of distributed computer systems.

408. Business Operating Systems. 3 hrs. Prerequisite: MIS 300 with a C or better. The application and structure of various operating systems to the business environment.

412. Systems Analysis and Design Applications. 3 hrs. Prerequisites: MIS 315, MIS 320, MIS 401, MIS 406, MIS 408 with grades of C or better and must be in semester of graduation. A continuation of MIS 310. The course focuses on the design of practical business information systems.

492. Special Problems in Management Information Systems. 1-6 hrs. Prerequisite: Consent of chair. Individual study on an
approved topic in management information systems. (Students undertaking a Senior Honors Project will enroll in MIS H492.)

MARINE SCIENCE (MAR)

151. Introduction to Ocean Science. 3 hrs. Survey of the physical, chemical, geological and biological features of the ocean.

151L. Introduction to Ocean Science Laboratory. 1 hr. Pre- or Corequisite: MAR 151. Elementary exercises for interpreting oceanographic data and samples.

300. Marine Science I: Oceanography. 3 hrs. Prerequisites: college algebra, 8 hours of chemistry and 8 hours biological sciences. For upper division science majors. An introduction to biological, chemical, geological, and physical marine sciences.

300L. Marine Science I Laboratory. 2 hrs. A laboratory for MAR 300.

301. Marine Science II: Marine Biology. 3 hrs. Prerequisites: 8 hours of biological sciences. An introduction to marine biology with emphasis on local fauna and flora.

301L. Marine Science II Laboratory. 2 hrs. A laboratory for MAR 301.

401. Biological Oceanography. 3 hrs. Prerequisite: Permission of instructor. Biological processes in the ocean and the influence of biotic and abiotic factors on these processes.

401L. Biological Oceanography Laboratory. 1 hr. A laboratory designed to accompany MAR 401.

405. Marine Ecology. 3 hrs. Prerequisite: 16 hours of biological sciences. The relationship of marine organisms to their environment.

405L. Marine Ecology Laboratory. 2 hrs. A laboratory for MAR 405.

407. Marine Aquaculture. 3 hrs. Problems and procedures relating to the culture of commercially important crustaceans, fish, and mollusks.

407L. Marine Aquaculture Laboratory. 3 hrs. A laboratory for MAR 407.

408. Marine Ichthyology. 3 hrs. Prerequisite: 16 hours of biology. Marine fishes including evolutionary relationships, morphology, physiology, and zoogeography.

408L. Marine Ichthyology Laboratory. 3 hrs. A laboratory for MAR 408.

410. Marine Fisheries Management. 2 hrs. Prerequisite: Consent of instructor. An overview of practical marine fishery management problems. (May be taken as BSC 449.)

410L. Marine Fisheries Management Laboratory. 2 hrs. Corequisite for MAR 410.

420. Marine Phycology. 2 hrs. Prerequisite: 10 hours of biology including botany. A survey, based upon local examples, of the principal groups of marine algae.

420L. Marine Phycology Laboratory. 2 hrs. A laboratory for MAR 420.

421. Coastal Vegetation. 2 hrs. Prerequisite: 10 hours of biology, including general botany. A study of general and specific aspects of coastal vegetation, with emphasis on local examples.

421L. Coastal Vegetation Laboratory. 3 hrs. A laboratory for MAR 421.
421. Coastal Vegetation Laboratory. 1 hr. A laboratory for MAR 421.

422. Salt Marsh Plant Ecology. 2 hrs. The botanical aspects of local marshes; includes plant identification, composition, and structure.

422L. Salt Marsh Plant Ecology Laboratory. 2 hrs. A laboratory for MAR 422.

423. Marine Mammals. 2 hrs. Prerequisite: 16 hours biological sciences or permission of instructor. Corequisite: MAR 423L. Course will emphasize natural history and population ecology of cetaceans. Will include life history, distribution, population dynamics, diet and feeding, social behavior, evolution, and zoogeography.

430. Comparative Histology of Marine Organisms. 3 hrs. Prerequisite: Consent of instructor. Histology of marine organisms, including tissue processing techniques.

430L. Comparative Histology of Marine Organisms Laboratory. 3 hrs. A laboratory for MAR 430

441. Marine Chemistry. 3 hrs. Prerequisite: Permission of instructor. Sea water chemistry and cycles and their impact on the marine environment.

441L. Marine Chemistry Laboratory. 1 hr. A laboratory for MAR 441.

443. Environmental Estuarine Chemistry. 3 hrs. Prerequisites: BSC 111, CHE 256, MAT 179, or permission of instructor. Corequisite: MAR 443L. Sources, reactions, transport, fate and effects of environmental chemical species in aquatic environments with special emphasis on estuaries.

443L. Environmental Estuarine Chemistry Laboratory. 1 hr. Corequisite: MAR 443. A laboratory for MAR 443.

456. Techniques in Marine Science Education. 3 hrs. Marine resources of Mississippi. May be taken as SCE 456.

457. Marine Science for Teachers. 3 hrs. Prerequisite: MAR/SCE 456 or permission of instructor. Advance topics in marine science. May be taken as SCE 457.

458. Marine Science for Elementary Teachers. 3 hrs. Prerequisite: Permission of instructor. May be taken as SCE 435.

459. Coastal Ecology for Teachers. 3 hrs. Prerequisite: Permission of instructor. Corequisite: MAR 459L. Designed to provide teachers with a background in basic coastal ecology. (May be taken as SCE 459.)

459L. Coastal Ecology for Teachers Laboratory. 1 hr. Prerequisite: Permission of instructor. Corequisite: for MAR 459. (May be taken as SCE 459L.)

461. Physical Oceanography. 3 hrs. Prerequisites: PHY 112 or 202 and MAT 179 or permission of instructor. An introduction to the physical properties of the oceans.

461L. Physical Oceanography Laboratory. 1 hr. A laboratory for MAR 461.

466. Acoustics. 3 hrs. Prerequisites: MAT 471 or permission of instructor. Principles of the generation, transmission and reception of acoustic waves.

481. Geological Oceanography. 3 hrs. Prerequisite: Permission of instructor. Study of the formation and deformation of the oceanic crust and the distribution and character of marine sediments.

481L. Geological Oceanography Laboratory. 1 hr. A laboratory for MAR 481.

482. Coastal Marine Geology. 3 hrs. Prerequisite: 6 hours in geology. Inshore and nearshore geological processes, sedimentation patterns, and land forms. May be taken as GLY 431.

485. Microcomputer Applications in Marine Science Instrumentation. 3 hrs. Introduction to programming and hardware concepts relevant for marine science applications.

490. Special Problems in Marine Science. 1-6 hrs. Prerequisite: Consent of instructor. Independent research.

491. Special Topics in Marine Science. 1-6 hrs. Prerequisite: Consent of instructor. Directed study in area for which no formal courses are offered.

MARKETING (MKT)

(Enrollment in Marketing courses requires at least junior standing. CBA majors must meet foundation prerequisites.)

300. Principles of Marketing. 3 hrs. Prerequisites: ECO 201 and MAT 101. A study of the marketing function in organizations.

322. Creative Marketing. 3 hrs. Prerequisite: MKT 300. An introductory course in problem-solving techniques which emphasizes creative problem-solving methodology, information processing strategies, and interpersonal behavior in task-oriented groups applied to marketing.

330. Professional Selling. 3 hrs. Prerequisite: MKT 300. An analysis of the ethics, functions, and techniques of professional
355. Integrated Marketing Communications. 3 hrs. Prerequisite: MKT 300. An introduction to marketing communications through integration of the basic principles from advertising, personal selling, sales promotion, and public relations.

365. Consumer Behavior. 3 hrs. Prerequisite: MKT 300. Analysis of human behavior in the market place. Emphasis is placed on applying concepts from the social sciences to understanding consumer decision processes, buying patterns, and consumer research.

370. Supply Chain Management. 3 hrs. Prerequisite: MKT 300. Integrative analysis of business processes from original suppliers through end users.

392. Supervised Field Experience in Marketing. 1-3 hrs. Prerequisites: MKT 300 with a grade no lower than “C” and consent of Chair. Supervised field-based internship in Marketing.

400. Marketing Issues in Electronic Commerce. 3 hrs. Prerequisite: MKT 300. An introduction to marketing in computer-mediated environments including Internet marketing and World Wide Web-based firms.

424. Marketing Research. 3 hrs. Prerequisites: MKT 300 and BA 301. A study of the systems, methods, and procedures used in meeting the informational needs of managers in the marketing area for both quantitative and qualitative marketing data.

428. Marketing Management. 3 hrs. Prerequisite: Final 12 hours of course work. A comprehensive course designed to synthesize the more specialized marketing knowledge of the student through the study of case histories.

430. Sales Management. 3 hrs. Prerequisites: MKT 300 and MKT 330. A study of the methods and procedures involved in selection, training, organization, compensation, supervision, and evaluation of the sales force, using the modified case method of instruction.

440. Retail Management and Strategy. 3 hrs. Prerequisite: MKT 300. An examination of specific problem areas in retail innovations, spatial competition, and retail mix development.

458. Direct Marketing Management. 3 hrs. Prerequisite: MKT 355. Integrative coverage of database management, creative strategies and execution, direct marketing media, relationship management, list management, and research.

492. Special Problems in Marketing. 1-6 hrs. Prerequisite: Consent of chair. Individual study on an approved topic in marketing. (Students undertaking a Senior Honors Project will enroll in MKT H492.)

495. International Marketing. 3 hrs. Prerequisites: MKT 300 and MGT 300. The economic, political, and cultural aspects of international business operations.

499. International Marketing Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international marketing offered for students enrolled in MKT 498.

MATHEMATICS (MAT)

090. Developmental Mathematics. 3 hrs. Basic arithmetic skills review and strong concentration on beginning algebra. Open only to Development Educational Program students.

099. Intermediate Algebra. 3 hrs. Required of all entering freshmen with a substandard ACT mathematics score. Does not satisfy any university core or degree requirements. Meets 250 contact minutes per week. (CC 1233)

101. College Algebra. 3 hrs. Prerequisite: Two years of high school algebra or MAT 099. Polynomials, factoring, functions and graphs, linear and quadratic equations and inequalities. Taught using technology and group projects. (CC 1313)

101E. Explorations in College Algebra. 3 hrs. Prerequisite: Two years of high school algebra or MAT 099. Polynomials, factoring, functions and graphs, linear and quadratic equations and inequalities. (CC 1313)

102*. Finite Mathematics and Introduction to Calculus. 3 hrs. Prerequisite: MAT 101. Matrices and systems of equations, introduction to calculus. (CC 1333, 1423, 1513)

103. Plane Trigonometry. 3 hrs. Prerequisite: Two years of high school algebra or the equivalent. Trigonometric functions and their inverses, trigonometric identities and equations, solutions of triangles, logarithms. (CC 1323)

128. Precalculus Mathematics. 3 hrs. Prerequisite: High school trigonometry. Functions, analytic geometry, sequences, series, mathematical induction. (The above courses are open only to freshmen. Other students desiring to take these courses must have approval from the chair of the Department of Mathematics. Only two of the following can be taken for credit: MAT 101, MAT 103, and...
MAT 128. Applied Calculus for Engineering Technology I. 3 hrs. Prerequisite: High school trigonometry. Plane analytic geometry, differentiation and integration with applications to curvilinear motion, related rates, curve sketching and areas. (A student who receives credit for any other calculus course cannot use this course to satisfy any degree requirements in the College of Science and Technology.)

137. Applied Calculus for Engineering Technology II. 3 hrs. Prerequisite: MAT 136. Continuation of techniques of differentiation and integration. Areas, volumes, centroids, moments of inertia, and an introduction to first and second order differential equations. (A student who receives credit for MAT 168 or 169 cannot use this course to satisfy any degree requirements in the College of Science and Technology.)

167. Calculus I with Analytic Geometry. 3 hrs. Prerequisite: High school trigonometry. Limits, continuity, derivatives and their applications including curve sketching and optimization. (CC 1613)

168. Calculus II with Analytic Geometry. 3 hrs. Prerequisite: MAT 167. Definite and indefinite integrals, integration techniques, application of integrals, improper integrals and l'Hôpital’s rule. (CC 1623)

169. Calculus III with Analytic Geometry. 3 hrs. Prerequisite: MAT 168. Sequences, series including Taylor series and power series, parametric equations and polar coordinates in calculus, vectors and the geometry of space. (CC 2613)

210*. Mathematics for Elementary Teachers I. 3 hrs. Prerequisite: MAT 101. Problem solving, logic, sets, whole numbers, and whole number arithmetic. (Open only to elementary and special education majors.) (CC 1723)

210. Explorations in the Mathematics Classroom. 1 hr. Prerequisite: None. Ten hours of secondary classroom observations together with five hours of seminar under the direction of a mathematics faculty member.

280. Multivariable Calculus. 3 hrs. Prerequisite: MAT 169. Calculus of vector valued functions including tangent and normal vectors, partial derivatives and applications, multiple integrals and applications. (CC 2623)

305. Mathematical Computing I. 3 hrs. Prerequisite: MAT 280. Introduction to a computer algebra system using calculus-based projects. Students will solve mathematical problems in the MAPLE environment which require an understanding of calculus concepts.

308. Mathematics for Early Childhood Education. 3 hrs. Prerequisite: MAT 210. Problem solving, ordering, comparing, classifying, numberless, money, time, measurement, and geometry. (Open only to elementary and special education majors.)

309. Mathematics for Elementary Teachers II. 3 hrs. Prerequisite: MAT 210. Integers, rational numbers, structure of the real numbers, ratios, percents, proportions, problem solving, statistics and probability. (Open only to elementary and special education majors.)

310*. Mathematics for Elementary Teachers III. 3 hrs. Prerequisite: MAT 210. Basic concepts of 2-dimensional and 3-dimensional geometry, motion geometry, and measurement. (Open only to elementary and special education majors.)

312*. Applied Calculus for Business and Social Sciences. 3 hrs. Prerequisite: MAT 102. Elementary functions, differential and integral calculus with applications. (A student who receives credit for any other calculus course cannot use this course to satisfy any degree requirements in the College of Science and Technology.)

314. Calculus for the Arts and Sciences. 3 hrs. Prerequisite: High school trigonometry. An introduction to functions, graphs, continuity, differential and integral calculus, with applications to the arts and life sciences. (A student who receives credit for any other calculus course cannot use this course to satisfy any degree requirements in the College of Science and Technology.)

340. Discrete Mathematics. 3 hrs. Logic, set theory, and selected topics from algebra, combinatorics, and graph theory. (A course designed to be taken concurrently with the calculus sequence.)

410. Mathematics for Teachers of Junior High School Mathematics. 3 hrs. The real number system and major subsystems, introduction to algebra, informal geometry, consumer mathematics and introduction to BASIC programming. (Open only to elementary and special education majors.)

417. Introduction to Partial Differential Equations. 3 hrs. Prerequisite: MAT 285, 326, and 340. Integrability conditions, quasilinear equations, applications of physics, classification of second order equations and canonical forms, and separation of variables.

418*. Linear Programming. 3 hrs. Prerequisite: MAT 326 and 340. Convex sets, linear inequalities, extreme-point solutions, simplex procedure, and applications.

419*. Optimization in Mathematical Programming. 3 hrs. Prerequisites: MAT 280 and 418. Selected topics in optimization from linear and nonlinear programming.

423. Modern Algebra I. 3 hrs. Prerequisite: MAT 326 and 340. Elementary notions in groups, Fundamental Theorem of Finitely Generated Groups, permutation groups, quotient groups, isomorphism theorems, and applications of transformation groups.

424. Modern Algebra II. 3 hrs. Prerequisite: MAT 423. Survey of standard algebraic systems; rings, integral domains, fields, modules, polynomial rings, and fields of quotients.

426. Linear Algebra II. 3 hrs. Prerequisite: MAT 326 and 340. Determinants, polynomials, complex numbers, single linear transformations; orthogonal, unitary and symmetric linear transformations.

430. Advanced Engineering Mathematics I. 3 hrs. Prerequisites: MAT 280 and 285. Introduction to Laplace transforms and Fourier series with emphasis on solving ordinary and simple partial differential equations. (Does not count as an upper-level mathematics elective.)

431. Advanced Engineering Mathematics II. 3 hrs. Prerequisite: MAT 430. Vector calculus and an introduction to complex variables with emphasis on integral theorems and integration. (Does not count as an upper-level mathematics elective.)

437. Graph Theory. 3 hrs. Prerequisite: MAT 326 and 340. An introduction to graphs and a sampling of their numerous and diverse applications.

441. Advanced Calculus I. 3 hrs. Prerequisites: MAT 280, 326, and 340. Point set theory, sequences, continuity, uniform continuity, limits, mean value theorems, and L'Hospital's rule.

442. Advanced Calculus II. 3 hrs. Prerequisite: MAT 441. Riemann integration, Taylor's theorem, improper integrals, infinite series, and uniform convergence.

457. Methods in Mathematics-Secondary. 3 hrs. Prerequisites: CIS 313, MAT 280, 285, 326, and 340. A course designed to give the students a knowledge of the objectives, curriculum problems, and organization and methods of teaching secondary school mathematics. (Does not count as an upper-level mathematics elective.)

457L. Methods in Mathematics-Secondary Laboratory. 1 hr. Corequisite: MAT 457. A practicum with a minimum of 15 contact hours in a school setting. (Does not count as an upper-level mathematics elective.)

460*. Numerical Analysis I. 3 hrs. Prerequisites: MAT 280, 326, and knowledge of a programming language. Methods of solving equations and systems of equations, error analysis, and difference equations.

472. Modern Geometry. 3 hrs. Prerequisites: MAT 280, 326, and 340. Heuristic and analytic treatment of a branch of modern geometry, such as projective or differential geometry.

481. History of Mathematics. 3 hrs. Prerequisites: MAT 167. The history of mathematics from antiquity through the 17th century. Also offered as HUM 481. (Does not count as an upper-level mathematics elective.)

485. Mathematical Modeling. 3 hrs. Prerequisites: MAT 280, 285, 326, and a programming language. An introduction to mathematical modeling using case studies. Projects and presentations are required.

+489. Student Teaching in Mathematics I. 7 hrs. Prerequisite: Approval of the director of student teaching. Corequisite: MAT 490.

+490. Student Teaching in Mathematics II. 7 hrs. Prerequisite: Approval of the director of student teaching. Corequisite:
MAT 489.

492. Special Problems I, II. 1-3 hrs. Prerequisite: Approval of department chair. Students undertaking a Senior Honors Project will enroll in MAT H492.

494. Undergraduate Mathematics Seminars I, II. 1 hr. Prerequisite: Consent of instructor. Topics of current interest.

*Students will use University computers and appropriate software as a part of course requirements.

MEDICAL TECHNOLOGY (MTC)

101. Introduction to Medical Technology. 1 hr. An introduction for incoming students to the scope, objectives, and requirements for a career in medical technology.

102. Introduction to Allied Health Professions. 1 hr. Introduction to careers in allied health professions including roles, work responsibilities, interaction with patients, educational requirements, salary potential, and employment trends.

103. The Internet and Medicine. 1 hr. Evaluation of Internet sources and proper utilization of sources will be explored.

201. Medical Terminology. 2 hr. Prerequisite: MAT 101 (grade C or higher). Acquaints student with calculations and applications for laboratories.

202. Safety for Health Care Settings. 1 hr. Acquaints student with principles, procedures, and regulations for six major categories of safety related to laboratories.

203. Clinical Laboratory Calculations. 2 hrs. Prerequisite: MAT 101 (grade C or higher). Acquaints student with calculations and applications for laboratories.

204. Clinical Bacteriology I. 3 hrs. Prerequisites: MTC 202, MTC 203, BSC 110, 110L, BSC 380, 380L or permission of instructor. Corequisite: MTC 302L. MTC 315 recommended. Evaluation of clinical specimens with regard to pathogenic microorganisms. See admission to junior-level MTC courses.

205. Clinical Bacteriology I Laboratory. 2 hrs. Prerequisite: MTC 202, MTC 203, BSC 110, 110L, BSC 380, 380L or permission of instructor. Corequisite: MTC 302.

306. Fundamentals of Hematology. 3 hrs. Prerequisite: MTC 202, MTC 203, BSC 110, 110L, or permission of instructor. Corequisite: MTC 306L. An introduction to the study of blood and blood forming organs. See admission to junior-level MTC courses.

306L. Fundamentals of Hematology Laboratory. 2 hrs. Prerequisite: MTC 202, MTC 203, BSC 110, 110L. Corequisite: MTC 306.

309. Clinical Chemistry I. 3 hrs. Prerequisite: MTC 202, MTC 203, CHE 420, 420, BSC 110, 110L, or permission of instructor. Corequisite: MTC 309L. An introduction to the basic principles and methodology of clinical chemistry. See admission to junior-level MTC courses.

309L. Clinical Chemistry I Laboratory. 2 hrs. Prerequisite: MTC 202, MTC 203, BSC 110, 110L, CHE 420, 420L, or permission of instructor. Corequisite: MTC 309.

315. Introduction to Clinical Immunology. 3 hrs. Pre- or corequisite: BSC 110/110L, MTC 202, MTC 203, or permission of instructor. Corequisite: MTC 315. Function of the immune system and its relationship to diagnostic methods.

401. Body Fluids. 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 401L. Analysis of the physical, chemical, and microscopic parameters of urine and other body fluids.

401L. Body Fluids Laboratory. 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 401.

402. Clinical Bacteriology II. 3 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 402L. Laboratory methods of isolation, identification, and other testing of pathogenic bacteria and their etiologic role in disease.

402L. Clinical Bacteriology II Laboratory. 2 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 402.

403. Clinical Mycology. 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 403. The study of pathogenic fungi. Emphasis is placed on laboratory methods of isolation and identification of medically important fungi.

403L. Clinical Mycology Laboratory. 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 403.

405. Clinical Parasitology. 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 405L. The study of medically significant protozoan and helminthic parasites and their vectors. Emphasis is placed on laboratory methods of detection and identification of these organisms.

405L. Clinical Parasitology Laboratory. 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 405.

406. Hematology I. 3 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 406L. The study of blood cells and their abnormalities with emphasis on procedures of laboratory examination.

406L. Hematology I Laboratory. 2 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 406.

407. Clinical Immunodiagnostics I. 2 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 407L. An introduction to immunodiagnostic testing, theory, and practical experience involving antigen-antibody reactions in
relation to disease in humans.

407L. Clinical Immunodiagnostics I Laboratory, 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 407.

408. Clinical Immunohematology, 3 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 408L. The theory and techniques of donor selection, processing blood for transfusion, and resolving incompatibilities.

408L. Clinical Immunohematology Laboratory, 2 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 408.

409. Clinical Chemistry II, 3 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 409L. The qualitative and quantitative chemical analysis of blood, urine, cerebrospinal fluid, and other body fluids.

409L. Clinical Chemistry II Laboratory, 2 hrs. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 409.

410. Special Chemistry, 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 410L. Introduction to therapeutic drug monitoring and clinical toxicology with special emphasis on pathophysiology and analyte measurement.

410L. Special Chemistry Laboratory, 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 410.

411. Coagulation, 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 411L. The study of hemostasis in the human and its application to clinical laboratory testing, normal and abnormal.

411L. Coagulation Laboratory, 1 hr. Prerequisite: Admission to the Senior Practicum. Corequisite: MTC 411.

412. Principles of Clinical Administration and Education, 1 hr. Prerequisite: Admission to the Senior Practicum. Introduction of basic principles of clinical laboratory administration and education.

451. Urinalysis, 1 hr. Prerequisite: Admission to the Senior Practicum. Clinical education at one of the affiliated hospital laboratories.

452. Clinical Microbiology, 4 hrs. Prerequisite: Admission to the Senior Practicum. Clinical education at one of the affiliated hospital laboratories.

456. Hematology II, 3 hrs. Prerequisite: Admission to the Senior Practicum. Clinical education at one of the affiliated hospital laboratories.

457. Clinical Immunodiagnostics II, 1 hr. Prerequisite: Admission to the Senior Practicum. Clinical education at one of the affiliated hospital laboratories.

458. Blood Bank, 3 hrs. Prerequisite: Admission to the Senior Practicum. Clinical education at one of the affiliated hospital laboratories.

459. Clinical Chemistry III, 4 hrs. Prerequisite: Admission to the Senior Practicum. Clinical education at one of the affiliated hospital laboratories.

461. Oncology, 3 hrs. Prerequisite: Biochemistry or Molecular Biology or permission of instructor. An introduction to the biological and clinical aspects of cancer.

492. Special Problems in Medical Technology I, II, III, IV, 1-8 hrs. Assignments of a specific clinical problem in medical technology under faculty direction. (Students undertaking a Seniors Honor Project will enroll in MTC 492.)

MILITARY SCIENCE AND LEADERSHIP (MSL)

Basic Military Science and Leadership

101. Foundations of Officership, 2 hrs. Introduction to leadership and the Armed Forces. Course topics include small group leadership, decision making, team building, first aid, problem solving, marksmanship, and Adventure training such as rappelling and paintball.

+363. Maternal-Child Nursing. 10 hrs. Prerequisite: NSG 305. The course is in two parts; nursing care of the childbearing woman and nursing care of children at various stages of health and wellness. (R.N.’s only)

405. Professional Development III: Nurse as a Member of the Health Care Team. 2 hrs. Prerequisite: Completion of junior level nursing courses. This course focuses on role responsibilities of a baccalaureate-prepared nurse as a member of the healthcare team.

406. Death and Bereavement. 3 hrs. An examination of research and theory related to death and bereavement.

410. Holistic Nursing Practice. 3 hrs. Seminar discussion of holistic practice and interventions, demonstration and/or experiential sessions to facilitate understanding of a holistic perspective in nursing and daily living.

411. Health Care of Older Adults. 2 hrs. Prerequisite: Completion of junior level nursing courses. This course examines the science of gerontological nursing with an emphasis on misconceptions and current issues.

415. Professional Development IV: Nurse as a Professional Member of Society. 2 hrs. Prerequisite: Completion of 1st
semester senior nursing courses. This course focuses on role responsibilities of a baccalaureate-prepared nurse in a changing health environment.

419. The Computer as a Nursing Tool. 3 hrs. Exposure to the computer and examination of nursing applications.

425. Adult Health III. 3 hrs. Prerequisite: Completion of junior level nursing courses. corequisite: NSG 425L. This course builds on knowledge and skills needed to provide nursing care to seriously ill adults.

425L. Adult Health III Lab. 3 hrs. Prerequisite: Completion of junior level nursing courses. corequisite: NSG 425. This clinical course focuses on care of critically ill adults.

426. Child/Family Health Nursing. 3 hrs. Prerequisite: Completion of junior level nursing courses. corequisite: NSG 426L. This course provides core knowledge for care of children/families of diverse populations.

426L. Child/Family Health Nursing Lab. 2 hrs. Prerequisite: Completion of junior level nursing courses. corequisite: NSG 426. This clinical course applies knowledge for care of children/families of diverse populations.

428. Role Transition Preceptorship. 4 hrs. Prerequisite: Successful completion of all other nursing courses except NSG 460. corequisite: NSG 460. Facilitate role transition in the management of groups of patients using the nursing process.

433. Psychiatric Mental Health Nursing. 3 hrs. Prerequisite: Completion of 1st semester senior nursing courses. corequisite: NSG 433L. This course builds a knowledge base for psychiatric mental health nursing practices.

433L. Psychiatric Mental Health Nursing Lab. 2 hrs. Prerequisite: Completion of 1st semester senior nursing courses. corequisite: NSG 433. This clinical course focuses on care of patients with psychiatric mental health problems.

435. Community Health Nursing. 2 hrs. Prerequisite: Completion of 1st semester senior nursing courses. corequisite: NSG 435L. The focus of this course is population health in the community with an emphasis on health promotion.

435L. Community Health Nursing Lab. 2 hrs. Prerequisite: Completion of 1st semester senior nursing courses. corequisite: NSG 435. The focus of this course is the application of population health concepts in the clinical setting.

438. Health Policy and Economics. 3 hrs. Prerequisite: Completion of junior level Nursing courses. Survey of health economics, finance theory, cost control, prospective reimbursement, trends.

439. Legal-Ethical Issues in Nursing Practice. 3 hrs. Provides basic knowledge of legal and ethical issues confronting nurses.

442. Basic EKG Interpretation. 3 hrs. Prerequisite: NSG 350, 352, and 335 or permission of the instructor. Basic principles of electrocardiographic interpretation.

460. Senior Studies. 2 hrs. Prerequisite: Completion of 1st semester senior courses. This course integrates core knowledge and role development to assist in nursing practice.

466. Nursing Care of Individuals/Families with Complex Health Care Needs. 4 hrs. Prerequisite: NSG 322, NSG 322L, NSG 350, NSG 352, or permission of instructor. Corequisite: NSG 466L. A course that prepares nurses to meet needs of clients facing life-threatening illnesses. (RN’s only.)

466L. Nursing Care of Individuals/Families with Complex Health Care Needs Laboratory. 2 hrs. Prerequisites: NSG 322, NSG 322L, NSG 350, NSG 352, or permission of instructor. Corequisite: NSG 466. Focuses on clinical skills to care for clients facing life-threatening illnesses. (RN’s only.)

491. Austrian Studies. 3 hrs. Variable topics.

492. Directed Study of Nursing. 1-6 hrs. Permission of instructor required. (Students undertaking a Senior Honors Project will enroll in NSG H492 for 3 hours).

493. Health Care of the Elderly in England. 3 hrs. This course is designed to explore the effects on the family of providing care for the dependent elderly.

495. Management and Economics of Health Care. 3-6 hrs. Prerequisite: Senior level. U.S. and British health system, financing, administration, and nursing management.

496. Nursing: The British Heritage. 3-6 hrs. The evolution of modern nursing in England within the context of international, social, economic and political events.

497. Emergency Nursing: A British View. 3 or 6 hrs. Prerequisite: Senior level. Introduction to the British health system and roles assumed by British emergency nurses.
498. Families of the Developmentally Disabled. 3 hrs. Prerequisite: Senior standing or Permission of instructor. Interdisciplinary approach to the study of families of the developmentally disabled.

499. British Studies: Hospice Study and Experience. 3 hrs. Prerequisite: Permission of instructor. Introduction to hospice concept and symptom control in special units, hospitals and homes. British caregivers will present origin and current application of hospice concept.

NUTRITION AND FOOD SYSTEMS (NFS)

167. Nutrition for Living. 1 hr. A study of nutrition concepts relating to health and human wellness. (HPR 1241, 1751)

265. Orientation to Dietetics. 1 hr. Study of dietetics and careers in the profession.

272. Principles of Food Preparation. 2 hrs. Study of theories and techniques of food preparation and their effects on food products. (CC 1213)

272L. Principles of Food Preparation Laboratory. 1 hr. Corequisite: NFS 272.

320. Nutritional Assessment. 2 hrs. Prerequisites: NFS 362; BSC 250, 251. Corequisite: NFS 320L. Identify techniques of basic assessment of the nutritional status of healthy individuals throughout the life cycle.

320L. Nutritional Assessment Laboratory. 1 hr. Corequisite: NFS 320. Develop skills in assessing and articulating the nutritional status of healthy individuals throughout the life cycle.

330L. Communication Techniques in Nutrition Laboratory. 1 hr. Corequisite: NFS 330. Lab to accompany NFS 330. Students develop appropriate interviewing and counseling techniques in nutrition and food selection.

350. Food Production Management. 3 hrs. Prerequisites: HM 340, 340L. Food production and delivery systems, layout design, and food service equipment selection for commercial food production.

362. Nutrition. 3 hrs. Study of the body's need for foods, including the chemistry of digestion, metabolism, and nutritive requirements of the body during the life cycle.

364. Teaching Food and Nutrition in the Elementary Grades. 3 hrs. Course planned to give understanding of materials and methods for teaching nutrition at this level.

385. Medical Nutrition Therapy. 2 hrs. Prerequisites: NFS 272, 272L. Corequisite: NFS 385L. Medical nutrition therapy in health promotion, disease prevention, and menu planning and modification.

385L. Medical Nutrition Therapy Laboratory. 1 hr. Corequisite: NFS 385. Practical application of medical nutrition therapy to health promotion, disease prevention, and menu planning and modification.

410. Intermediate Nutrition. 3 hrs. Prerequisites: CHE 420, NFS 362. The study of specific nutrient effects on human metabolism. Metabolic pathways are explored and the roles of specific nutrients in these pathways are discussed.

430. Experimental Foods. 3 hrs. Prerequisites: NFS 362 and CHE 251, 251L. Study of selected nutritional, chemical, physical, and sensory properties of foods in relation to preparation procedures. Includes laboratory.

453. Community Nutrition. 3 - 6 hrs. Prerequisites: NFS 320, 320L, 330, 330L, 362, 453, 459, or permission of instructor. Study of nutrition assessment methodology and resources available within the community.

454. Critical Thinking in Dietetics. 4-15 hrs. Permission of instructor required. Prerequisites: NFS 410 and 461. Study of disease states and dietary management in clinical settings.

455. Seminar. 1 hr. Prerequisite: Senior status in Nutrition and Dietetics. Selected topics in nutrition. May be repeated for a total of 3 semester hours.

466. Environmental Nutrition. 2 hrs. Prerequisite: NFS 272, NFS 362 or permission of instructor. Food safety principles,
the Hazard Analysis Critical Control Point System, microbiology of food safety, and infection control; environmental issues related to the food service industry and the field of dietetics will be discussed.

471. Marketing for the Dietetics Professional. 1 hr. Prerequisite: Senior status. The application of marketing theories to food and nutrition services.

477. Administrative Dietetics. 3-6 hrs. Prerequisite: NFS 350, ACC 200, MGT 300; permission of instructor. Study and application of management theory and techniques in the supervision of food service personnel.

485L. Medical Nutrition Therapy II Laboratory. 1 hr. Corequisite: NFS 485. An application of MNT II through field trips to hospitals, mock charts, case studies, role playing, and videotaping.

486L. Medical Nutrition Therapy III Laboratory. 1 hr. Prerequisite: NFS 485. Corequisite: NFS 486. Application of MNT III through case studies, role playing, and hospital visits.

492. Special Problems in Food and Nutrition. 1-4 hrs. Prerequisite: Senior standing and permission of the instructor.

PARALEGAL STUDIES (PLS)

381. Introduction to Paralegalism. 3 hrs. An introduction to the profession, including history and development, ethics, the American legal system, and paralegal skills.

382. Civil Litigation. 3 hrs. An introduction to civil litigation—the process of resolving disputes between individuals, businesses, and government through the court system, with emphasis on procedure.

383. Legal Research. 3 hrs. A summary of primary and secondary legal sources including reporters, digests, codes, citations, LEXIS, the Internet, and other basic research materials.

384. Legal Drafting. 3 hrs. An introduction to writing correspondence, pleadings, discovery, legal memoranda, briefs, and other documents used in civil practice.

385. Law Office Computing and Management. 3 hrs. A skills course which introduces computer applications in the law office, including Windows, word processing, automated litigation support, and specific law office management applications, such as timekeeping, billing, and docket control systems.

386. Equity Practice. 3 hrs. A study of the courts of equity and their jurisdiction in the American legal system, with emphasis on domestic relations, wills, and estates.

387. Title Searching and Loan Document Preparation. 3 hrs. An introduction to the procedure of title searching and the preparation of loan closing documents.

388. Commercial Skills for Paralegals. 3 hrs. An introduction to transactional law and related topics, including bankruptcy, debtor-creditor law, intellectual property, and formation of business entities.

389. Internship in Paralegal Studies. 3-9 hrs. Prerequisites: PLS 381, 382, 383, and 384, a GPA of 2.5, and permission of the director. The course is open only to paralegal majors.

492. Special Problems in Paralegal Studies. 1-3 hrs. Prerequisite: Consent of the director. Provides the opportunity to pursue a special topic or area of interest. May be repeated for a total of three hours. (Students undertaking a Senior Honors project will enroll in PLS H492.)

PHILOSOPHY (PHI)

151. Introduction to Philosophy. 3 hrs. An introduction to the methods and major themes of Philosophy. (CC 2113, 2153)

171. Ethics and Good Living. 3 hrs. An exploration of the role of ethics in achieving a good life. Includes reflection on self-interest, moral rules, concern for others, and integrity.

253. Logic. 3 hrs. The development of critical thinking and argumentative skills utilizing informal and formal logical techniques. (CC 2713)

300. Business Ethics. 3 hrs. A philosophical exploration of how to recognize, analyze, and implement ethical decisions within the multivalued contexts of the various fields of business. May not be taken as a substitute for PHI 151.

316. Philosophy of Science. 3 hrs. An introduction to the study of scientific method, the nature of science, and the relationship
of science to other academic disciplines and to culture at large.

353. Study of a Major Philosopher. 3 hrs. May be repeated for credit to a total of nine hours. A detailed examination of a selected philosopher.

356. Ethics. 3 hrs. An examination of classical and contemporary moral theory.

357. Philosophy of Religion. 3 hrs. An examination of classical problems in philosophical theology.

358. Philosophy of Human Nature. 3 hrs. A philosophical consideration of the nature of human consciousness including philosophical anthropology, philosophical psychology, and cognitive science.

420. Metaphysics. 3 hrs. Analysis of classical and contemporary problems in metaphysics.

436. Aesthetics. 3 hrs. Philosophical analysis of theories of art and beauty.

450. Existentialism and Phenomenology. 3 hrs. An examination of the central themes in contemporary European existentialism and phenomenology.

451. Political Philosophy. 3 hrs. A study of the major schools of political philosophy from classical to contemporary times.

453. Philosophy of Law. 3 hrs. An inquiry into theories of law.

454. Environmental Ethics. 3 hrs. An examination of human responsibilities for nature; the impact of civilization on the natural world; formulation of ethical principles and policies.

455. Symbolic Logic. 3 hrs. A study of the basic theory and operations of the propositional calculus, quantification, and the logic of relations.

460. Contemporary Philosophical Issues. 3 hrs. An examination of the central themes in contemporary Philosophy.

492. Special Problems. 1-3 hrs. A study of a philosophical issue to be approved by the department chairman. May be taken for a total of nine hours. (Students undertaking a Senior Honors Project will enroll in PHI H492.)

499. British Studies: Comparative Business Ethics. 3-6 hrs.

PHYSICS (PHY)

103. Introductory Physics. 3 hrs. Prerequisite: MAT 101. A survey of physics principles for non-science majors. Credit for this course may not be applied toward degrees in the College of Science and Technology.

103L. Introductory Physics Laboratory. 1 hr. Corequisite: PHY 103.

111. General Physics I. 3 hrs. Prerequisites: MAT 101, 103. Corequisite: PHY 111L. An algebra and trigonometry-based introductory physics course. (CC 2414)

111L. General Physics I Laboratory. 1 hr. Corequisite: PHY 111.

112. General Physics II. 3 hrs. Prerequisite: PHY 111 and PHY 111L. Corequisite: PHY 112L. A continuation of PHY 111. (CC 2424)

112L. General Physics II Laboratory. 1 hr. Corequisite: PHY 112.

190. Foundations and Frontiers in Physics. 2 hrs. The first course for a physics major that surveys the scope and breadth of the discipline of physics; to include an historical perspective and good practices for a physicist.

201. General Physics I with Calculus. 4 hrs. Prerequisite: MAT 167 or 178; corequisite: MAT 167 or 178 and PHY 201L. A rigorous course in physics recommended for physics majors. Required for pre-engineering students. (CC 2514)

201L. General Physics I with Calculus Laboratory. 1 hr. Corequisite: PHY 201.

202. General Physics II with Calculus. 4 hrs. Prerequisite: PHY 201 and PHY 201L. Corequisite: PHY 202L. A continuation of PHY 201. (CC 2524)

202L. General Physics II with Calculus Laboratory. 1 hr. Corequisite: PHY 202.

327L. Electronics I Laboratory. 1 hr. Corequisite: PHY 327.

328L. Electronics II Laboratory. 1 hr. Corequisite: PHY 328.

332. Thermodynamics and Statistical Mechanics. 3 hrs. Prerequisites: PHY 202 and 362. Temperature, thermodynamic principles, and the application of statistics to classical and quantum systems.

341L. Optics Laboratory. 1 hr. Corequisite: PHY 341.

361L. Elementary Modern Physics I Laboratory. 1 hr. Corequisite: PHY 361.

362. Elementary Modern Physics II. 3 hrs. Prerequisite: PHY 361. A study of atomic and molecular physics, properties of solids, and other applications of quantum mechanics.

392. Physics Special Problems. 1-3 hrs. Prerequisite: Permission. Theoretical and experimental problems limited to junior and senior students.

422. Electricity and Magnetism II. 3 hrs. Prerequisite: PHY 421. A continuation of PHY 421.

435. Principles of Microwave Systems. 3 hrs. Prerequisite: PHY 327. Introduction to microwave theory, basic design of microwave systems.

451. Physical Applications of the Fourier Transform. 3 hrs. Prerequisites: MAT 280 and PHY 202. Convolution, deconvolution of physical signals and introduction to sampling.

455. Fluid Dynamics. 3 hrs. Prerequisites: PHY 350 and MAT 285. A mathematical development of the physical principles governing fluid flow.

460. Advanced Physics Laboratory. 2 hrs. Prerequisites: Permission and Senior Standing. Advanced experiments in modern physics.

461. Quantum Mechanics. 3 hrs. Prerequisites: PHY 361 and 362. Quantum theory, spectroscopy, and atomic and nuclear structure.

485. History and Literature of Physics. 3 hrs. Prerequisite: PHY 112 or 202. A survey of physics from the ancients to the present.

499. Undergraduate Research. 1-6 hrs. Prerequisite: Permission. An introduction to the methods of physical research. (Students undertaking a Senior Honors Project will enroll in PHY H499.)

PLANNING (PLG)

360. Introduction to Community Planning and Development. 3 hrs. An introduction to the planning process and the role of government, private, and nonprofit organizations in community planning and development will be provided.

450. Financing Economic and Community Development. 3 hrs. An examination of the theory and practice of public finance is provided in this course. Topics include fiscal impact assessment of development, capital budgeting, current policy issues, and grants writing.

461. Planning and Development Law. 3 hrs. The legal context for planning and managing land use and development is provided in this course. The course also provides insight into environmental law as applied to planning.

462. Environmental Planning and Policy. 3 hrs. This course provides an introduction to the detailed study of environmental planning analysis and methodology as an element in land-use decision-making systems.
Planning and Development Research Methods. 3 hrs. This course provides an introduction to research techniques for collection, organization, and analysis of information to aid in the planning and development decision-making process.

Physical Infrastructure Planning and Development. 3 hrs. The relationships between physical infrastructure and planning and development are explored in this course. Provisions of physical infrastructure at the site and community levels are examined.

Land Use Planning and Policy. 3 hrs. This course will examine the planning and development procedures which impact the development market such as land suitability analysis and land use plans.

Economic Development Planning for Communities. 3 hrs. This course provides an introduction to the strategies, programs, and processes used at the community and regional levels to encourage investment and employment opportunities.

Studio Laboratory: Plan Preparation. 3 hrs. Preparation and presentation of a professional plan as a collaborative community/student group effort. May be repeated with change of content for a total of six (6) hours.

Current Issues Seminar. 3 hrs. This course is designed to allow flexibility in the topic, depending on student interests. The course will begin by an examination of the profession including its evolution, theory base, ethics, and requirements for professional certifications. A current topic will then be selected for exploration, such as transportation planning, sustainable development, or negotiation and conflict management.

Professional Practice Internship. 1-9 hrs. Students will obtain practical experience working with a planning or development organization. May be repeated for a total of nine hours. Letter-grade credit is only available for three hours.

Special Problems. 1-6 hrs. May be repeated for a total of six hours.

Comparative Urban Planning. 3-6 hrs. This course focuses on urban planning and the development of the urban landscape in the British Isles. Includes lectures, field trips, and directed research.

POLITICAL SCIENCE (PS)

101. American Government. 3 hrs. An introduction to American national government and politics. (CC 1113, 1153)

Great Issues of Politics. 3 hrs. An introduction to the central concepts, issues, and questions of political life.

Political Systems of the Modern World. 3 hrs. A survey of major foreign political systems, with emphasis on advanced industrial democracies.

State and Local Politics. 3 hrs. An examination of political institutions and processes in the 50 states and their local governments.

American Political Movements. 3 hrs. A study of Afro-American, Old and New Left, Radical Right, Counter-Culture, and Feminist movements.

Politics of Popular Culture. 3 hrs. A survey of the political aspects of contemporary popular culture.

American Political Theory. 3 hrs. Surveys American political thought from the contributions of the Iroquois Federation through Thomas Jefferson to Martin Luther King and other contemporary thinkers.

United States Foreign Policy. 3 hrs. Theory and practice of American foreign relations with emphasis on contemporary case studies.

World Politics. 3 hrs. Theories of conflict and cooperation among states in the international system.

Introduction to Public Administration. 3 hrs. The course surveys the subfields of Public Administration. These include: organizational theory and behavior; public policy; budgeting; and a history of public administration.

Government and Economics. 3 hrs. An analysis of those governmental policies in the U.S. and elsewhere designed to promote economic prosperity, insure economic stability, and provide public services. (No prior courses in economics are required.)

Introduction to Law in American Society. 3 hrs. A basic course to familiarize students with the court structure, the legal profession, and the role of law in American society.

Political Socialization. 3 hrs. How we learn and what we learn about politics.

Urban Politics. 3 hrs. An examination of political issues in America’s metropolitan areas.

Politics and Environment. 3 hrs. Course examines major political theories applied to environmental approaches. Second, the impact of these political theories on environmental policies is considered.

The Legislative Process. 3 hrs. An examination of American legislative institutions with major emphasis upon the U.S. Congress.

Women and Politics. 3 hrs. A feminist examination of the role of sex/gender in political movements, government, and public policy.
406. Political Parties. 3 hrs. An examination of the role of political parties in the American political system.
407. Mississippi Government. 3 hrs. An examination of political institutions and processes in Mississippi.
408. The American Presidency. 3 hrs. An examination of the numerous political duties of the president of the United States.
409. Southern Politics. 3 hrs. An examination of the politics and political culture of the southern states.
411. Research in Political Science. 3 hrs. An introduction to the theory and practice of political research.
412. Political Analysis. 3 hrs. An introduction to the theory and practice of political analysis.
420. Political Theory Plato to Machiavelli. 3 hrs. Examines major thinkers from 500 B.C. to 1500 A.D. Includes, in addition to Plato and Machiavelli, Aristotle, Augustine, and Aquinas, and topics such as feudal political thought.
421. Political Theory Hobbes to Nietzsche. 3 hrs. A study of modern political theory, focusing on selected theorists (e.g., Hobbes, Rousseau, Marx, and Nietzsche) and topics such as anarchism and socialism.
426. 20th Century Political Theory. 3 hrs. Thinkers from N. Lenin to Hannah Arendt, Michel Foucault, and Vaclav Havel will be analyzed. The course includes schools of contemporary thought such as feminism and postmodernism.
431. International Law and Organization. 3 hrs. The study of the functions of intergovernmental organizations in the modern world system.
432. Foreign Policies of the Major Powers. 3 hrs. Case studies illustrating the behavior of states in world affairs.
435. Comparative Foreign Policy. 3 hrs. An examination of the foreign policies of other nations.
436. Comparative Studies in European Politics. 3 hrs. An examination of contemporary West European political systems, including the European Union.
451. Governments of Eastern Europe. 3 hrs.
452. The Political Systems of Great Britain and the Commonwealth. 3 hrs. An analysis of the politics of Great Britain, Canada, Australia, and New Zealand, stressing the dynamics of parliamentary government.
454. Government and Politics in Africa. 3 hrs. A survey of the political systems of Africa, including both North Africa and Sub-Saharan Africa.
456. Latin American Governments and Politics. 3 hrs.
457. Political Development. 3 hrs. A comparative analysis of political change and modernization.
458. Latin American Political and Economic Development. 3 hrs.
470. Science, Technology, and Politics. 3 hrs. The role of politics in science and technology is examined specifically in terms of the impact of elites, the public, and technocrats.
471. Public Personnel Administration. 3 hrs. Examines the U.S. Civil Service and Merit System and its impact on employees and government.
472. Organization and Management. 3 hrs. The “models” or “theories” of organization. Administrative management and alternative models are evaluated as to their potential for authentic public organization.
473. Public Policy. 3 hrs. Substantive areas of public policy are investigated in this course, including public health, medicine, energy, air, and water pollution, land use, etc.
474. The Politics of Taxing and Spending. 3 hrs. This course is divided into two areas, budgeting models and their policies; issues such as taxing, fiscal policies, etc. are considered.
480. United States Constitutional Law. 3 hrs. An examination of the powers of the national government and the relationship between the national and state government using Supreme Court decisions.
481. The American Judicial Process. 3 hrs. This course examines the political aspects of the staffing, the structure, and the operation of the state and federal court systems.
484. Administrative Law. 3 hrs. An analysis of the procedures and powers of federal agencies.
485. International Law. 3 hrs. The development of the modern law of nations with emphasis on conventions and cases.
489. U. S. Supreme Court and Civil Liberties. 3 hrs. An analysis of the role of the U.S. Supreme Court in protecting individual rights. Primary focus is on litigation involving provisions of the Bill of Rights.
491. Proseminar in Political Science. 3 hrs. Prerequisite: Consent of instructor. An undergraduate seminar devoted to topics selected by the supervising professor. May be repeated once for credit with change in content.
492. Special Problems. 1-3 hrs. (Students undertaking a Senior Honors Project will enroll in PS H 492.)
497. Government-Business Relations in Japan. 3 hrs. An on-site analysis of business and government linkage in Japan offered under the auspices of the Center for International Education.
499. Seminar in British Politics. 3-6 hrs. Prerequisite: PS 300 or PS 452, or permission of instructor. A seminar conducted in Great Britain under the auspices of the Anglo-American Institute.
POLYMER SCIENCE (PSC)
(Also see FORENSIC SCIENCE)

190. Living in a Material World. 3 hrs. Corequisite: PSC 190L. An examination of the materials in the world around us, including composition, properties, and why they are used.

190L. Lab for Living in a Material World. 1 hr. Corequisite: PSC 190. Laboratory for PSC 190, Living in a Material World.

191. Introduction to Polymers. 2 hrs. An introduction to the history, recent developments, applications, and processing of polymers.

285. Problem Solving Techniques for Polymer Scientists. 3 hrs. Prerequisite: MAT 169 or 179. Consolidates mathematical methods into a form that can be readily applied to solve polymer science and engineering problems. Required: MathCad 2001 Software/Manual and laptop computer to run software.

291. Physical Aspects of Polymers. 2 hrs. An introduction to the properties of major commercial polymers, raw material sources, and the organization of the polymer industry. This course includes computer modeling and computations.

301. Organic Polymer Chemistry I. 3 hrs. Prerequisites: CHE 256 and CHE 256L. Systematic study of polymers with emphasis centered on those synthesized by step-growth polymerization.

302. Organic Polymer Chemistry II. 3 hrs. Prerequisite: PSC 301. A study of polymer formation techniques, kinetics, and properties with emphasis on addition polymerization, copolymerization, and stereoregular polymerization.

310. Technical and Scientific Communication. 1 hr. Prerequisite: ENG 102. Training in the preparation of written and oral reports on scientific and technical problems.

341L. Polymer Techniques I. 2 hrs. Prerequisite: CHE 256/L, PSC 410. Laboratory methods of polymer synthesis, structural determination, and characterization.

342L. Polymer Techniques II. 2 hrs. Prerequisite: PSC 341L. Laboratory methods of polymer synthesis, structural determination, and characterization.

361L. Laboratory for Polymer Science 361. 2 hrs. Prerequisite: PSC 410. Corequisite: PSC 361.

390. Individual Research Projects in Polymer Science. 1-6 hrs. Prerequisite: CHE 256L, PHY 202L, PSC 410. May be repeated for credit.

401. Physical Chemistry of Polymers I. 3 hrs. Prerequisite: PHY 202, 202L. Polymer structure, chain conformation, solution properties, thermodynamics, fractionation, and molecular weight measurement.

402. Physical Chemistry of Polymers II. 3 hrs. Prerequisite: PSC 401. Instrumental analysis of polymers, morphology, rheology, structure-property relationships.

430. Polymer Characterization. 3 hrs. Prerequisites: CHE 256L, PHY 202/L. Macromolecular chemical structure and morphological characterization using thermal, spectroscopic and x-ray diffraction techniques.

430L. Laboratory for Polymer Science 430. 1 hr. Prerequisite: PSC 410. Corequisite: PSC 450.

470. Surface Coatings. 4 hrs. Prerequisite: PSC 302. Study of the physical and chemical properties of the pigments, binders, solvents, and additives employed in surface coatings; dispersion techniques, surface preparation, paint testing, application techniques, and surface coatings analysis are also discussed.

470L. Laboratory for Polymer Science 470. 1 hr. Corequisite: 470.

471. Electronics for Scientists. 3 hrs. Prerequisite: PHY 202/L. Practical electronics needed for maximum utilization of scientific instrumentation, automation, and logic circuits.

471L. Laboratory for PSC 471. 1 hr. Prerequisite: PSC 410. Corequisite: PSC 471.

480. Polymer Kinetics. 3 hrs. Prerequisite: PSC 302. Introduction to polymerization kinetics and reactor design.

490. Special Projects in Polymer Science. 1 hr. Prerequisites: PSC 302, 342L, PHY 202/L. Individual research. Prospectus
is prepared and research plan is executed with final report required. (Students undertaking a Seniors Honor Project will enroll in PSC H490.)

490L. Laboratory for Polymer Science 490. 3 hrs. Prerequisite: PSC 410. Corequisite: PSC 490.

491. Special Projects in Polymer Science. 1 hr. Prerequisites: PSC 490/L. Individual research. Prospectus is prepared and research plan is executed with final report required. (Students undertaking a Seniors Honor Project will enroll in PSC H491.)

491L. Laboratory for Polymer Science 491. 3 hrs. Prerequisite or corequisite: PSC 410. Corequisite: PSC 491.

482. Sociological Theory. 3 hrs. A study of classical and contemporary social theory, focusing on selected theorists (e.g., Weber, Durkheim, Marx, Merton, and Goffman) and selected topics, including anomie and alienation, the rise of capitalism, theories of crime, and concepts of self.

489. Caribbean Studies. 3 hrs. Variable content. Lecture series and study in the Caribbean under the auspices of the Center.
for International Education.

492. Special Problems. 1-3 hrs. To be used to pursue specialized interests for which courses are not offered. Must be approved by the department chair. (Students undertaking a Seniors Honor Project will enroll in SOC H492.)

499. British Studies. 3-6 hrs. Variable content. Lecture series and research offered abroad under the auspices of the Center for International Education.

SOFTWARE ENGINEERING TECHNOLOGY (SET)

100. PC Hardware I. 1 hr. Introduction to the architecture and peripheral devices of the Intel Family of Microprocessors.

101. PC Hardware II. 1 hr. Corequisite: SET 100. Advanced architecture and peripheral devices of the Intel Family of Microprocessors.

131. Internetworking Technologies. 2 hrs. Corequisite: SET 131L. An introduction to local and wide area networking technologies emphasizing physical infrastructure planning, design, installation, and management.

131L. Internetworking Technologies Laboratory. 1 hr. Corequisite: SET 131. Practical exercises in planning, installing, and maintaining local and wide area networking infrastructure.

231L. Routing and Switching Laboratory. 1 hr. Prerequisite: SET 132 and permission of instructor. Corequisite: SET 231. Advanced practical exercises in routing TCP/IP frames with distance-vector and link state routing protocols in a multi-router/multi-switched environment to improve network performance and increase quality of service.

232L. Wan Switching and Dialup Laboratory. 1 hr. Prerequisite: SET 231 and permission of instructor. Corequisite: SET 232. Practical exercises in configuring routers to utilize dialup protocols over packet-switched and circuit-switched connections.

331. Scalable Networks. 2 hrs. Prerequisite: SET 232 or permission of instructor. Corequisite: SET 331L. Design, implementation, and configuration of complex and scalable routed LAN, routed WAN, switched LAN networks, and dial access services.

331L. Scalable Networks Laboratory. 1 hr. Prerequisite: SET 232. Corequisite: SET 331. Practical exercises in implementing and troubleshooting wide area networks of scalable design.

332L. Multilayer Switched Network Laboratory. 1 hr. Prerequisite: SET 332. Corequisite: SET 332. Practical exercises in implementing campus networks using multilayer switching technologies over high speed Ethernet with routing and switching.

363. Telecommunications Systems. 3 hrs. A comprehensive systems level overview of telecommunication facilities and protocols covering the full spectrum of services.

370. Hardware Systems. 3 hrs. Prerequisite: MAT 103 or higher. Corequisite: SET 370L. Design, analysis and implementation of digital logic systems with emphasis on circuit construction and verification.

370L. Hardware Systems Laboratory. 1 hr. Corequisite: SET 370.

371L. Personal Computer Applications Laboratory. 1 hr. Prerequisites: SET 370, 370L. Corequisite: SET 371.

392. Special Problems. 1-3 hrs. Prerequisite: Sophomore standing and approval of faculty adviser. Supervised study in an area not covered by available courses.

400. Senior Project I. 1-3 hrs. Prerequisites: Senior standing. Student to complete project in his or her area of specialization.

401. Senior Project II. 1-3 hrs. Prerequisites: Senior standing. Student to complete project in his or her area of specialization.

431. Remote Access Networks. 3 hrs. Prerequisite: SET 332. Building remote access networks to interconnect central sites to branch offices and home office/telecommuters.

432. Internetwork Troubleshooting. 3 hrs. Prerequisite: SET 431. How to baseline and troubleshoot a routed and switched multi-protocol Ethernet, Fast Ethernet, and Token Ring networks.
433. Internetwork Design. 3 hrs. Prerequisite: SET 431. Designing LAN and WAN architectures for scalable, multilayer, complex, multi-protocol internetworks.

453. Communications Server Administration. 3 hrs. Prerequisite: SET 131 or SET 390, SET 486. A comprehensive examination of administering enterprise messaging and scheduling services in a client-server environment.

455. E-Commerce Server Administration. 3 hrs. Prerequisite: SET 131 or SET 390, SET 489. A comprehensive examination of developing, implementing, and administering web-based services for electronic commerce.

463. Wireless and Personal Communication Systems. 3 hrs. Prerequisite: SET 363. An examination of current and planned wireless communication systems emphasizing system architecture and access methodology.

483. Windows Networking. 3 hrs. A comprehensive examination of the Windows 95 networking architecture and capabilities.

485. NOS Server Administration. 3 hrs. A comprehensive examination of the Windows NT 4.0 installation and administration, one of today’s most popular Network Operating Systems (NOS).

486. Intranetworking. 3 hrs. Prerequisite: SET 485 or permission of instructor. A continuation of SET 485 that will emphasize intranetworking directory architecture, binding of network protocols, creation and management of user and group accounts.

488. TCP/IP. 3 hrs. Prerequisite: SET 131 or SET 390, SET 370, SET 485 or permission of instructor. A comprehensive examination of the Internet’s standard protocol suite TCP/IP.

489. Internet Information Server. 3 hrs. Prerequisite: SET 131 or SET 390, SET 485, SET 488 or permission of instructor. Installation and configuration of a popular NOS as an Internet information server.

492. Special Problems. 1-3 hrs.

SPECIAL EDUCATION (SPE)

121. Introduction to Field Experiences in Special Education. 3 hrs. Introduction to Special Education focusing on an array of services provided exceptional individuals. Course focus is on knowledge, skills, and opportunities.

331. Practicum in Elementary Special Education. 1 hr. Observational methods. To be taken with SPE 431.

342. Practicum for Transitional Policy. 1 hr. To be taken with SPE 442.

351. Practicum for Classroom Management. 1 hr. To be taken with SPE 451.

400. The Psychology and Education of the Exceptional Individual. 3 hrs. Prerequisite: USM Teacher Education Gold Card. An introduction to exceptional populations and procedures and policies relating to their education and citizenship.

402. General Methods in Special Education. 3 hrs. Prerequisite: USM Teacher Education Gold Card. The development of conceptual and writing skills associated with individual educational programs for disabled students, materials, and media techniques.

405. Early Intervention for Children with Special Needs. 3 hrs. Individual educational planning for children age 0-5 with special needs.

430. An Introduction to Learning Disabilities. 3 hrs. A study of social, emotional, physical, and learning characteristics of individuals with specific learning disabilities.

341. Programming for Elementary Students with Mild/Moderate Disabilities. 3 hrs. Prerequisite: USM Teacher Education Gold Card; REF 400, 469; SPE 400, 402, 430, 440; PSY 374. Corequisite: SPE 331. Methods, materials, and individual educational planning for elementary level students with disabilities.

440. An Introduction to Mental Retardation and Developmental Disabilities. 3 hrs. A study of social, emotional, physical, and intellectual characteristics of individuals with mental retardation.

442. Intervention and Transitional Policies for Secondary Students with Mild/Moderate Disabilities. 3 hrs. Prerequisite: USM Teacher Education Gold Card; REF 400, 469; SPE 400, 402, 430, 440, 485, PSY 374. Corequisite: SPE 342. Methods, materials, and individual educational planning for mildly and moderately disabled students at the secondary level.

460. Characteristics and Education of the Gifted Student. 3 hrs. Study of gifted populations to include characteristics, learning modes, and assessment procedures.

461. Instructional Strategies for Teaching High Ability and Gifted Students within Traditional Classrooms. 3 hrs. This course emphasizes instructional strategies, methods and materials, and assessment and evaluation techniques to maximize the potential of high ability and gifted students in traditional educational settings. (Not for certification in gifted education)
Course Descriptions | 473

+ 481. Student Teaching: Mild/Moderate Disabilities. 7-14 hrs.

492. Special Problems in Special Education. 1-3 hrs. A consideration of special interest areas in the field of exceptional education. (Students undertaking a Seniors Honor Project will enroll in SPE 492.)

497. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

498. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of the concerns of families of individuals with developmental disabilities.

SPEECH AND HEARING SCIENCES (SHS)

201. Introduction to Phonetics. 3 hrs.

202. Fundamentals of Speech and Hearing Sciences. 3 hrs.

202L. Fundamentals of Speech and Hearing Sciences Laboratory. 1 hr.

211. Introduction to Communication Disorders. 3 hrs.

221. Introduction to Audiology. 3 hrs.

310. Student Teaching: Clinical Observation. 3 hrs. First clinical and student teaching experience. Prerequisite: SHS 201, 211, 301 or permission of instructor.

301. Language and Speech Development. 3 hrs.

302. Anatomy and Physiology of the Hearing Mechanisms. 3 hrs.

303. Anatomy and Physiology of the Speech Mechanism. 3 hrs.

306. Basic Neuroanatomy in Speech-Language Pathology. 3 hrs. Prerequisites: SHS 302, 303 or permission of instructor.

308. Instrumentation in Speech and Hearing Science. 3 hrs. Prerequisites: SHS 202, 202L or permission of instructor.

310. Student Teaching: Clinical Observation. 3 hrs. Prerequisites: SHS 201, 211, 221, 301, and 431 or 432, or permission of instructor. Students observe speech pathology, audiology and deaf education testing, and habilitation techniques with a variety of clients. Report writing, analysis of client behaviors, and session planning are stressed. (Section 01 is Audiology; Section 02 is Speech/Language Pathology.)

+311. Clinical Assisting—Speech. 1-3 hrs. Clinical experience assisting speech/language clinicians. Prerequisite: SHS 310 and GPA greater than 3.0 or permission of instructor.

323. Basic Sign Language. 3 hrs. Prerequisites: SHS 302, 303 or permission of instructor. Concepts of total communication, sign language and finger spelling are stressed.

329. Intermediate Sign Language. 3 hrs. Prerequisite: SHS 323 or permission of the instructor. Course is a continuation of the Basic Sign Language course with additional signs and situational experiences.

340. Advanced Methods of Communicating with the Hearing Impaired. 3 hrs. Prerequisite: Permission of instructor. Develops extensive sign vocabulary; introduces ethics of interpreting; and individualizes training for specific situations.

410. Intervention Language Disorders. 3 hrs. Prerequisite: Minimum overall 2.25 grade point average.

411. Articulation Disorders. 3 hrs. Prerequisites: SHS 201, 301 or Permission of Instructor; minimum overall 2.25 grade point average.

412. Diagnostic Procedures in Speech Pathology. 3 hrs. Prerequisites: SHS 201, 211, 221, 301, and 431 or 432, or permission of instructor; minimum overall 2.25 grade point average.

414. Stuttering and Related Problems. 3 hrs. Prerequisite: Minimum overall 2.25 grade point average.

417. Speech and Language Disorders Related to Congenital Anomalies. 3 hrs. Prerequisite: SHS 303; minimum overall 2.25 grade point average.

419. Organic Speech Disorders. 3 hrs. Prerequisites: SHS 202, 303, 411; minimum overall 2.25 grade point average.

421. Aural Rehabilitation. 3 hrs. Prerequisite: SHS 221; minimum overall 2.25 grade point average.

422. Diagnostic Prescriptive Teaching of the Hearing Impaired. 3 hrs. Prerequisite: Senior standing or permission of instructor.

425. Psycho-Social Factors Associated with Hearing Impairment. 3 hrs. Prerequisite: Permission of instructor; minimum
overall 2.25 grade point average.

428. Clinical Audiology I. 3 hrs. Prerequisite: SHS 221.

430. Speech Pathology and the Hearing Impaired Child. 3 hrs. Prerequisite: Minimum overall 2.25 grade point average.

431. Language Disorders I: Assessment of Children with Language Disorders. 3 hrs. Prerequisite: SHS 301; minimum overall 2.25 grade point average.

432. Language Disorders II: Habilitation of the Aphasic Child. 3 hrs. Prerequisite: SHS 301; minimum overall 2.25 grade point average.

433. Developing Language Skills with the Hearing Impaired. 3 hrs.

435. Developing Oral/Aural Communication in Hearing Impaired Children. 3 hrs.

436. Developing Reading in the Hearing Impaired. 3 hrs. Prerequisite: SHS 433 or permission of instructor.

437. Introduction to Education of the Hearing Impaired. 3 hrs.

492. Special Problems. 1-3 hrs. (Students undertaking a Senior Honors project will enroll in SHS H492.)

+495. Student Teaching: Deaf. 7 hrs. Intensive practicum in school setting covering full range of teaching responsibilities with a certified teacher of the hearing impaired.

+496. Student Teaching: Deaf. 7 hrs. A continuation of SHS 495.

497. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

499. British Studies: Comparative Problems in Speech and Hearing Sciences. 3-6 hrs.

SPEECH COMMUNICATION (SCM)

300L. Oral Language Laboratory. 1 hr. An oral language laboratory.

303. Argumentation and Debate. 3 hrs. Theory and practice in inquiry and advocacy involving analysis, reasoning, organization and presentation of oral arguments for decision making.

305. Interpersonal Communication. 3 hrs. A course designed to improve students' competence in and understanding of interpersonal relationships.

310. Research Methods in Speech Communication. 3 hrs. This course introduces the learner to social science research methods. Students will learn methodological concepts, design, and statistics.

TECHNICAL AND OCCUPATIONAL EDUCATION (TOE)

241. Principles of Training and Development. 3 hrs. An introduction and overview of training professions in both the public and private sector. To include on-site visitation of host industrial organizations and other institutions.

322. Engineering Drawing II. 3 hrs. Prerequisites: TOE 323. May include hands-on CAD.

350. Architectural Drawing. 3 hrs. Practice in drafting contemporary house plans, floor plans, evaluations, sections, details, etc. May include hands-on CAD.

433. Curriculum Construction for Cooperative Education. 3 hrs. Objectives, content, arrangement and techniques of teaching in part-time cooperative and evening programs.

434. Occupational Surveys. 3 hrs. Planning and conducting occupational surveys for educational purposes.

441. Philosophy and Principles of Occupational Instruction. 3 hrs. A methods course for teaching trade, technical and other vocational subjects.

443. Design of the Occupational Based Instructional Program. 3 hrs. Occupational analysis based design and sequencing of instructional components, and the development of appropriate support materials.
444. Development of Occupational Instruction Materials. 3 hrs. Selection, development and use of instructional technologies, with an emphasis on media production.

445. Delivery of the Occupational Instruction Program. 3 hrs. Learning theory based techniques of instructional delivery in the vocational classroom and laboratory.

447. Industrial Human Relations. 3 hrs. A study of human behavior and interpersonal dynamics within the industrial organization and environment. Primarily for industrial educators.

448. Industrial and Vocational Safety. 3 hrs. Analysis of fundamentals of accident prevention and their application in the school and industrial environments.

449. Student Leadership Development in Vocational Education. 3 hrs. A course designed to impart detailed information regarding activities and responsibilities of the vocational student organization adviser.

450. History and Philosophy of Vocational Education. 3 hrs. Objectives, principles, aims, and organization of programs in schools and colleges.

451. Techniques of Coordination. 3 hrs. A study of the techniques, procedures, problems, etc., in the operation of cooperative education programs.

492. Special Problems in Technical Education. 1-3 hrs. Prerequisites: Senior standing and chair’s permission.

494. Student Teaching in Vocational-Technical Education. 12 hrs. Prerequisite: TOE 441. For students who plan to teach in a post-secondary vocational or technical program and who are not presently employed in such a program.

495. Internship in Vocational-Technical Education. 1-9 hrs. Prerequisite: TOE 441. A nine-months’ supervised experience for practicing teachers of vocational or technical subjects.

497. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

THEATRE (THE)

Many Theatre courses are offered on a rotation basis. Consult the Undergraduate Curriculum Guide available in the Theatre and Dance office or call (601)266-4994 to request a copy.

100. Theatrical Expressions. 3 hrs. An introduction to theatre as an art form, reflecting the aesthetic aspects and social conditions of a culture. (CC 2233)

103. Introduction to Theatre. 4 hrs. (3 hrs. lecture and 1 hr. laboratory). An introduction to the principles of theatre, with involvement in the rehearsal, production, and performance process as they apply to major departmental productions. (CC-SPT-1213)

110. Nonmajor’s Beginning Acting. 3 hrs. An introductory acting technique course specifically designed for interested non-theatre students.

111. Fundamentals of Oral Interpretation. 3 hrs. General educational approach to the art as a means of communicating literary content. (CC-SPT-2143)

120. Fundamentals of Acting. 3 hrs. An introductory acting technique course using modern scene study and improvisations. (CC-SPT-1233)

200. Stagecraft. 3 hrs. Introduction to scenicographic theory and techniques with practical application. (CC-SPT-2223)

200L. Stagecraft Laboratory, 1 hr. Laboratory for THE 200. Must be taken concurrently.

201. Introduction to Costume, 3 hrs. Introduction to theatrical costume and makeup theory with its practical application.

201L. Costume Laboratory, 1 hr. Laboratory for THE 201. Must be taken concurrently.

202. Costumes for the Dance, 2 hrs. Study of costumes in the dance and their effect on performance. Basic patterns and construction techniques will be mastered.

215. Stage Dialects. 3 hrs. Prerequisite: THE 115 or consent of instructor. Introduction to stage dialects.

+304. Two-Dimensional Makeup, 3 hrs. Painted character makeup.
306. Introduction to Scenery and Lighting. 3 hrs. Prerequisites: THE 200. Theory and practice in the utilization of stage scenery and lighting with daily involvement in their practical application to major departmental productions.

306L. Scenery and Lighting Laboratory. 1 hr. Laboratory for THE 306. Must be taken concurrently.

310. Intermediate Acting I. 3 hrs. Prerequisite: THE 120. A continuation of fundamentals of acting on a more intense level, to include character development and technique.

315. Voice for the Actor/Singer. 3 hrs. Vocal techniques for the singing actor.

361. Stage Movement/Combat. 2 hrs. Performance course designed to cover basic stage movement, physical alignment, body awareness, economy of movement, and physical expression of character.

401. Costume Design. 3 hrs. Prerequisite: THE 201 or consent of instructor.

403. Advanced Movement/Combat. 2 hrs. Prerequisite: THE 361. Course in unarmed and armed stage combat, with continued emphasis on alignment and fluidity through T’ai Chi.

406. Scenic Design. 3 hrs. Prerequisite: THE 306. Elements of Scene Design, Play analysis in terms of visualization and style, and the mechanics of developing an effective stage setting.

410. Stage Sound Engineering. 3 hrs. Principles and practice in stage sound engineering.

412. Stage Lighting. 3 hrs. Prerequisite: THE 306. Theory and application of general and special lighting, color, instrumentation, and control.

413. Improvisation. 3 hrs. Prerequisite: 310. Prerequisite: 310. A performance course using improvisation as a means to free impulse, develop characterization and refine movement.

414. Scene Study. 3 hrs. Prerequisites: THE 310 and instructor approval. Scene study using contemporary dramatic works.

420. Advanced Directing. 3 hrs. Prerequisite: THE 320. Advanced techniques for the stage director.

427. Theatre History I. 3 hrs. Prerequisites: All 200 level requirements complete or consent of instructor. This course is writing intensive.

428. Theatre History II. 3 hrs. A continuation of THE 427. This course is writing intensive.

429. Dramatic and Performance Theory. 3 hrs. Prerequisites: All 200 level requirements complete or consent of instructor. Examination and evaluation of dramatic and performance theory. This course is writing intensive.

430. Summer Theatre I. 3 hrs. Concentrated applied theatre.

435. Advanced Scene Design. 3 hrs. Prerequisite: THE 406 or consent of instructor. The techniques of scene design as applied to nonrealistic stage settings.

445. Advanced Stage Lighting. 3 hrs. Prerequisite: THE 412.

450. The Audition Process. 3 hrs. Prerequisites: THE 310 and consent of instructor. An acting class designed to help prepare students for professional auditions and interviews.

451. The Rehearsal Process. 2 hrs. Prerequisites: THE 416 and consent of instructor. An acting class designed to dissect and analyze the rehearsal process from casting through production.

460. Costume Design Studio. 3 hrs. Prerequisite: THE 401 or consent of instructor. Projects in designing costumes for plays, opera, and dance. Emphasis placed on costume designs as an element in a total production concept.

461. Three-Dimensional Makeup. 3 hrs. Prerequisites: THE 304 or consent of instructor. Projects in makeup design and execution. Emphasis placed on three-dimensional makeup techniques for theatre, television, and film.

471. Performance and Production Internship. 1-9 hrs. May be taken for a total of nine (9) hours. Professional experience in residence with approved professional organizations.
481. Repertory Theatre. 3-9 hrs. Participation in the analysis and preparation of the performances of three plays in repertory. Student must enroll in three 3-hour sections.

481L. Practicum in Box Office and Publicity. 1-3 hrs. May be taken for a total of nine (9) hours.

483L. Practicum in Technical Theatre. 1-3 hrs. May be taken for a total of nine (9) hours.

484L. Practicum in Lighting and Sound Engineering. 1-3 hrs. May be taken for a total of (9) hours.

485L. Practicum in Properties. 1-3 hrs. May be taken for a total of nine (9) hours.

486L. Practicum in Design. 1-3 hrs. May be taken for a total of nine (9) hours.

488L. Practicum in Acting and Directing. 1-3 hrs. May be taken for a total of nine (9) hours.

489L. Practicum in Costume and Makeup. 1-3 hrs. May be taken for a total of nine (9) hours.

492. Special Problems. 1-3 hrs. To allow individual students or groups of students to study special advanced problems in theatre not normally addressed by regular courses. (Students undertaking a Senior Honors Project will enroll in THE H 492.)

497. Theatre Exchange Studies Abroad. 9-15 hrs. Opportunity to study theatre for one semester in an approved exchange program abroad. Offered under auspices of Center of International Education.

THERAPY (THY)

411. Introduction to Kinesiotherapy. 3 hrs. An introduction to the theory of organizing and conducting kinesiotherapy as it applies to physical and mental rehabilitation.

412. Kinesiotherapy I. 3 hrs. Prerequisite: Admission to specialization. Emphasis placed on physical evaluation procedures of spine and extremities, musculo-skeletal function, goniometry and gait analysis.

413. Kinesiotherapy II. 3 hrs. Prerequisite: Admission to specialization. Rehabilitation as a part of the comprehensive medical core and its application in restoration of physical and mental impairments towards functional independence.

421. Clinical Experience Seminar. 2 hrs. Arr. Seminar class discussing various rehabilitation and professional issues in kinesiotherapy. May be repeated twice. To be taken concurrently with THY 460 and 470.

460. Clinical Experience I. 10 hrs. Prerequisites: Completion of all course requirements except THY 421 and 470; GPA of at least 2.8. Extensive field based internship in kinesiotherapy. Includes application of theory into practical experience in various rehabilitation and wellness programs. THY 421 must be taken concurrently. Student must provide personal liability insurance.

470. Clinical Experience II. 10 hrs. Prerequisites: Completion of all course requirements except THY 421; GPA of at least 2.8. Extensive field-based internship in kinesiotherapy. Internships include application of theory into practical experience in various rehabilitative and wellness programs. THY 421 must be taken concurrently. Student must provide personal liability insurance.

497. Professional Collaboration for Developmental Disability Services. 3 hrs. Prerequisite: Upper level undergraduate students only. Study of the interdependent contributions of relevant disciplines in training, service, and research.

498. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

TOXICOLOGY (TOX)

470. Survey of Toxicology. 3 hrs. Prerequisite: CHE 256. A one semester survey course in toxicology. (May be taken as CHE 470.)

UNIVERSITY STUDIES (UNV)

101. University 101. 2 hrs. Introduction to higher education and a general orientation to the functions and resources of the university.
WOMEN'S STUDIES (WS)

301. Introduction to Women's Studies. 3 hrs. Introduces the interdisciplinary area of Women's Studies through readings, guest lectures, and discussions.

310. Ancient and Medieval Women. 3 hrs. Introduces students to women in ancient and medieval Europe, their roles, the attitudes about women, perceptions of their strengths and weaknesses.
