Academic Calendar

SUMMER 2004

Monday-Friday, March 22 - 26
Advisement in departments

Monday-Friday, March 29 - April 9
Southern’s Online Accessible Records (SOAR)/Web Registration by registration window

Friday, May 14
Application deadline for new students - Check page 16

Thursday, May 27
Orientation and registration for new graduate students; Residence halls open; Advisement in departments

Friday, May 28
Registration for new graduate, reapplying, and continuing students

Monday, May 31
Memorial Day Holiday; Night classes begin

Tuesday, June 1
Day classes begin

Tuesday, June 22
Midpoint in semester; examinations for first-term (8W1) classes

Friday, July 2
Independence Day Holiday (observed)

Friday, July 9
Last day to file application for degree for Fall 2004 Commencement

Friday, July 30
Examinations for second-term (8W2) classes

Monday-Friday, August 2 - 6
Examinations for full-term classes (including night classes)

Friday, August 6
Application deadline for new students - Check page 16

Thursday, August 19
Final orientation and registration for new undergraduate students; Residence halls open

Friday, August 20
Registration for new graduate, reapplying, and continuing students

Monday, August 23
Classes begin

Monday, September 6
Labor Day Holiday

Friday, October 15
Midpoint in semester; examinations for first-term (8W1) classes

Wednesday, October 20
Second term (8W2) classes begin

Monday-Tuesday, October 18-19
Fall Break

Friday, November 12
Last day to file application for degree for Spring 2005 Commencement

Wednesday, November 24
6:00 p.m.
Thanksgiving Holidays begin. Night classes will not meet

Monday, November 29
Classes resume

Friday, December 10
Examinations for second-term (8W2) classes

Monday-Friday, December 13-17
Examinations for full-term and second-term (8W2) classes

Friday, December 17
Commencement, Reed Green Coliseum

FALL 2004

Monday-Friday, March 22-26
Advisement in departments

Monday-Friday, April 12-30
Southern’s Online Accessible Records (SOAR)/Web Registration by registration window

Friday, August 6
Application deadline for new students - Check page 16

Spring Holidays

Monday, March 21
Classes resume

Friday, March 25
Good Friday Holiday
day and night classes will not meet

Wednesday, March 30
Southern Miss Founder’s Day

Thursday, April 7
Last day to file application for degree for Summer 2005 Commencement

Friday, May 6
Examinations for second term (8W2) classes

Monday-Friday, May 9-13
Examinations for full-term classes

Friday, May 13
Commencement, Reed Green Coliseum

Saturday, May 14
Residence halls close

CalendarNotes
Introduction

The University of Southern Mississippi and its board of trustees were established by an act of the Legislature approved on March 30, 1910, by Gov. Edmund F. Noel. Its first name was the Mississippi Normal College, and its original purpose was to train teachers for the rural schools of Mississippi. On February 2, 1932, the Legislature established the Board of Trustees of State Institutions of Higher Learning and placed under its jurisdiction the five colleges and one university owned and operated by the state. On November 3, 1942, the people of the state voted to make the Board of Trustees of State Institutions of Higher Learning a constitutional board for all colleges and universities of the state. The University of Southern Mississippi is now operated under the jurisdiction of that constitutional board.

The act of March 30, 1910, did not provide any state money for the building of Mississippi Normal College, but did provide that localities in the state might bid for its location by offering land for a site and money for constructing buildings. On September 16, 1910, the Board of Trustees accepted the bid of Hattiesburg and Forrest County to supply $250,000 and a free site. That site was west of the city in cut-over timberland with great pine stumps everywhere. Contracts were let to clear the land and to build buildings.

The five permanent buildings (College Hall, Forrest County Hall, Hattiesburg Hall, the Industrial Cottage [now the Honor House], and the President’s Home [now the Alumni House]), a temporary wooden Dining Hall, and other necessary improvements were barely finished when the Mississippi Normal College opened on the rainy morning of September 18, 1912, with a president, a faculty of 18, and a student body of 200.

On October 17, 1911, Joseph Anderson Cook, superintendent of schools in Columbus, Mississippi, was elected president. The University of Southern Mississippi has had only nine presidents since its founding. The Board of Trustees elected Claude Bennett president, effective October 10, 1928. On April 23, 1933, the Board of Trustees elected Dr. Jennings Burton George as the third president, effective July 1, 1933. On June 13, 1945, the Board of Trustees elected Dr. Robert Cecil Cook as the fourth president and he officially assumed office on July 1, 1945. On October 21, 1954, President Cook submitted his resignation. He served until December 31, 1954, and Dr. Richard Aubrey McLemore became acting president on January 1, 1955. The Board of Trustees, on May 19, 1955, elected Dr. William David McCain as the fifth president. He officially assumed office on August 1, 1955, and retired June 30, 1975. Dr. Aubrey Keith Lucas became the sixth president of the university on July 1, 1975, and served until his retirement on December 31, 1996, with the longest tenure of any president. Dr. Horace Weldon Fleming, Jr., served as the seventh president from January 1, 1997, until August 30, 2001. Dr. Aubrey K. Lucas returned to the presidency on September 1, 2001, and served until April 30, 2002. On April 13, 2002, the Board of Trustees elected Dr. Shelby F. Thames as the ninth president, effective May 1, 2002.

As has been stated, The University of Southern Mississippi was founded on March 30, 1910, as the Mississippi Normal College. On March 7, 1924, the Legislature changed the name to State Teachers College. On February 8, 1940, the Legislature changed the name to Mississippi Southern College, and on February 27, 1962, the Legislature changed the name to The University of Southern Mississippi.

The Mississippi Normal College did not grant degrees in its early years, but awarded certificates for the completion of certain specified courses of study. On April 8, 1922, the Legislature authorized the awarding of the bachelor of science degree. The bachelor of music degree was authorized by the Board of Trustees on June 19, 1934. The first bachelor of arts degree was awarded on August 20, 1940. On May 26, 1947, the Board of Trustees authorized the initiation of graduate work and the awarding of the master of arts degree. In the years since 1947, the university’s graduate programs have developed logically to meet the needs for professional competence beyond the academic measure of the baccalaureate degree. Doctoral programs were first authorized by the Board of Trustees on May 20, 1959.

The administrative and academic organization of The University of Southern Mississippi is divided into the following areas: Office of the President; Office of the Provost - Hattiesburg; Office of the Provost - Gulf Coast; Office of the Chief Financial Officer; Office of the Vice President for Research and Economic Development; Office of the Vice President for Student Affairs; and Office of the Director of Intercollegiate Athletics. Academically, the university is organized into the College of Arts and Letters, College of Business and Economic Development, College of Education and Psychology, College of Health, College of Science and Technology, and Honors College.
The University of Southern Mississippi

Vision
The University of Southern Mississippi will be a premier, comprehensive, dual-campus university that complements its established excellence in undergraduate education with nationally known graduate programs, a groundbreaking economic development initiative, and a demonstrated commitment to improving the quality of life for its constituency.

Mission
As a Carnegie Doctoral/Research-Extensive institution, The University of Southern Mississippi serves the state, the region, and the nation through its strong, varied undergraduate programs undergirded by a sound general education curriculum; through its masters and doctoral programs in the sciences, education, psychology, economic development, the humanities, business, health services, and the arts; and through its faculty’s innovative research achievements. Southern Miss’ academic initiatives are reinforced by its commitment to knowledge-based service activities that enhance quality of life and economic development.

Commitments
Preparation Mississipi’s Teachers
Founded to teach Mississippi’s teachers, The University of Southern Mississippi, which graduates a majority of the state’s professional educators, will maintain its leadership in pedagogy and instruction. The general education curriculum; General Studies, Freshman Year Experience, and Honors College programs; and innovative programs in international education and service-learning underscore the institution’s commitment to quality instruction.

Conducting Cutting-Edge Research
As a comprehensive, Carnegie Doctoral/Research-Extensive institution, The University of Southern Mississippi pursues groundbreaking scholarly, creative, and basic research in fields as diverse as polymer science, music, and marine sciences. Internationally recognized faculty will utilize external funding; instruction of undergraduate and graduate students; and service initiatives in the university, in the community, and in their academic disciplines as they push the boundaries of knowledge and discovery.

Creating a Healthier Region
The University of Southern Mississippi will contribute to the health and well-being of individuals, families, organizations, and communities in the region through continued innovation in applied research, community partnerships, and experiential learning, particularly in its nursing and applied health science programs.

Leading in Economic Development
With an innovative, historical commitment to cultivating financial resources for the university and to providing skilled human resources with leadership potential and intellectual capital to Mississippi’s business community, The University of Southern Mississippi will expand its initiatives in economic development. It will collaborate with foundations, government funding agencies, corporate sponsors, alumni and private donors to enhance its state funding. It will judiciously expend new resources to support its commitment to excellence in teaching, research, and service - a dedication reinforced by academic degree programs in economic development.

Taking Mississippi to the World
Already a national leader in international education - and acknowledging its diverse student population and its recognition of its responsibility to embrace and teach about an increasingly heterogeneous, complex world - Southern Miss will continue to provide students with unparalleled opportunities to live and learn abroad in preparation for leadership roles in an interdependent global society.
Enhancing the Cultural Environment

Through its fully accredited academic programs in music, theatre and dance, and the visual arts, Southern Miss provides artistic and cultural opportunities for the community as it educates accomplished practitioners of the arts. Regular performances and exhibits - complemented by the outreach programs of the Community Arts School, the Honors Forum lecture series, and presentations by visiting creative writers - present the campus and surrounding region with exposure to talented students, faculty, and world-renowned performers. The University of Southern Mississippi will continue to serve as the primary provider of artistic and cultural events for the South Coast.

Educating the Whole Student

Recognizing that students learn outside the classroom as well as within, The University of Southern Mississippi will fulfill its commitment to developing the full potential of its students. Distinguished by its student-oriented, nurturing campus environments, the university affords its students abundant opportunities for community engagement, leadership, and personal growth. Countless student activities and support services; world-class facilities and programs that promote healthful living; and a caring, student-centered faculty and staff guarantee students' growth and development in all aspects of their experience at The University of Southern Mississippi.
General Information

E-Mail Accounts

iTech offers electronic mail (e-mail) services. If you are eligible (see below), you are entitled to one Ocean account, which is kept active for the entire time you are enrolled or working at Southern Miss. In the event that you leave Southern Miss due to graduation or employment elsewhere, there is a grace period before your account is removed.

The University of Southern Mississippi expects all students to have an active Southern Miss e-mail account. We can forward your Southern Miss mail to any e-mail account you may have already. Your email account will be used by Southern Miss and classroom instructors to communicate important information. You should get in the habit of checking your e-mail account daily.

In addition to providing e-mail, these accounts also allow you to create your own Web pages.

In order to use your e-mail account, you must bring a valid student ID to the iTech office and get a password, or you may call the Help Desk weekdays between 8 a.m. and 5 p.m. at 266-HELP(4357). You may also obtain your e-mail account information at iTech computer labs on campus. Information on computer labs can be found at: [http://www.usm.edu/itech/helpdesk/labs](http://www.usm.edu/itech/helpdesk/labs)

Eligibility & Cost

All current Southern Miss students, faculty, and staff are eligible to receive e-mail accounts at no charge.

Publications

The University of Southern Mississippi has four publications each year: the Undergraduate Bulletin, the Graduate Bulletin, the Independent Study Bulletin, and the Regional Campus Publication. To obtain information about the complete programs of the university, please check each publication.

Family Educational Rights and Privacy Act of 1974 as amended (FERPA)

The Family Educational Rights and Privacy Act of 1974 as amended deals with one subject only: educational records. The purpose of the law is to define, more precisely than ever has been done, who may or may not see them. On the one hand, the law grants students guaranteed access; on the other hand, it takes from the universities the privilege of indiscriminate disclosure.

The FERPA sets forth these main requirements:

1. It allows a student access to each educational record that a university or college keeps on him or her;
2. It requires the institution to establish a policy on how students can go about seeing specific records;
3. It requires the institution to inform all students as to what rights they have under the amendment, how they can act on these rights according to school policy, and how they can see a copy of the policy; and
4. It requires the institution to seek student permission, in writing, before disclosing any personally identifiable record to individuals other than professional personnel employed in the university or college (and others who meet certain specified requirements).

The university has developed and put into writing a policy for handling requests from students and for disclosing personally identifiable information about students. Students are notified of their rights under the law by publishing the university policy in the Student Handbook.

Oak Ridge Associated Universities

Since 1992, students and faculty of The University of Southern Mississippi have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 86 colleges and universities, and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tenn. ORAU works with its member institutions to help their students and faculties gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences,
pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at http://www.orau.gov/orise/educ.htm, or by calling either of the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs, as well as services to chief research officers.

For more information about ORAU and its programs, contact

Angeline G. Dvorak Monnie E. Champion
Vice President for Research ORAU Corporate Secretary
and Economic Development (865)357-3306
ORAU Councillor for Southern Miss

Retention of Students and Program Completion Information

The University of Southern Mississippi Fact Book includes information on retention and graduation and is located in the reserve material at the circulation desk in Joseph Anderson Cook Library and is available upon request.

Sexual Harassment

To foster an environment of respect for the dignity and worth of all members of the university community, Southern Miss is committed to maintaining working and learning environments free of sexual harassment. It is the policy of the university that no member of its community shall sexually harass another. Any employee or student who violates this policy is subject to disciplinary action which may include termination. Sexual harassment is illegal under federal law.

Rehabilitation Act of 1973 and the Americans with Disabilities Act

The University of Southern Mississippi complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. No otherwise qualified handicapped person, solely on the basis of handicap, will be excluded from participation in, be denied the benefits of, or be subjected to discrimination in the administration of any educational program or activity, including admission or access thereto or in treatment or employment therein by The University of Southern Mississippi. All reasonable accommodations for students must be approved through the Office for Disability Accommodations (ODA); accommodations for faculty and staff must be approved through the university 504/ADAcompliance officer. Students who need assistance in reasonably accommodating a disability in the classroom or on campus should contact the ODA coordinator at (601) 266-5024, TTY (601) 266-6837; faculty/staff should contact the compliance officer at 266-5163, TTY 1-888-671-0051.

The University Press of Mississippi

The University Press of Mississippi was founded in 1970 to encourage the dissemination of the fruits of research and study through the publication of scholarly works. Functioning as the scholarly publishing arm of the state-supported universities in Mississippi, The University Press is governed by a Board of Directors made up of one representative from each of the eight state universities, one representative from the Board of Trustees of State Institutions of Higher Learning, and the director of the press.

The University Press publishes more than 50 books each year. Primary areas of interest are Mississippi history and literature, but manuscripts in all areas of study are welcomed.

Administrative offices of The University Press are located in the Education and Research Center of Mississippi, 3825 Ridgewood Rd., Jackson, MS, 39211.

The University of Southern Mississippi Alumni Association

The Alumni Association was established in 1917 as an organization mainly involved in functions relating to placement service. Since its rebirth in 1946, when the Executive Committee recognized the need for a working Alumni Association with organized alumni groups in the various counties of the state, the association has operated in its present form, serving as a link between the university and its former students.
Southern Miss graduates and former students are encouraged to become active in the Alumni Association and its support of the university’s various academic and athletic programs. Of more than 105,000 graduates since the university’s founding, the Alumni Association has enlisted in excess of 16,000 paid members for the past several years.

The Association provides a number of benefits to its members, including a subscription to the quarterly alumni magazine, *The Talon*, which helps graduates stay informed of campus developments and provides updates on former classmates. Other benefits include a waiver of out-of-state tuition for children of members who meet certain requirements, receipt of mailings on area alumni chapter meetings, library privileges, car decals, eligibility to join the USM Credit Union, and various other special events. The association also produces a biannual newsletter, *Southern Miss Connections*, which is sent to all Southern Miss graduates who have accurate addresses in the database.

The association is very active in developing other programs to support all areas of the university. Some of these include organizing joint district Eagle Club meetings in conjunction with the Athletic Department, sponsoring high school student nights across Mississippi and the surrounding states, and organizing both athletic road game trips and educational excursions to such locations as Switzerland and England.

The Alumni Association also sponsored the drive to raise the funds necessary for the construction of the first R. C. Cook University Union building, helped set up the USM Foundation (the receptacle for all gifts to the university), and organized The Legacy, an organization comprised of hard-working, enthusiastic students involved in a variety of activities each semester to promote the university.

Organized alumni chapters are urged to hold a meeting each year for the election of officers on or around March 30, the date selected by the association as Founders’ Day in commemoration of the founding of the university on that date in 1910. All former students of Southern Miss are encouraged to get together in honor of the university on this date.
University Libraries

Library facilities at The University of Southern Mississippi include the Joseph Anderson Cook Library and the William David McCain Library and Archives on the Hattiesburg campus and the Gulf Coast Library in Long Beach. An extensive Web site provides access to the libraries online holdings, including full text and bibliographic databases, electronic journals and books, and digitized exhibits from the libraries Special Collections. The libraries Web site also provides access to services such as reference and research assistance, tutorials and other instructional services, and document delivery.

The Joseph Anderson Cook Library

The Joseph Anderson Cook Library contains the principal collections of books, journals, microforms, music, media, and other materials which support the research and instructional programs of the university at all levels. Book stacks and reading areas are intermingled throughout the building in an open shelf arrangement. Access is provided to a variety of fulltext databases, bibliographic databases, and Internet resources on a wide range of subjects. The collections are arranged according to the Library of Congress Classification System. The library is currently acquiring approximately 25,000 new volumes annually and maintaining 5,000 print and over 15,000 electronic journal titles.

The William David McCain Library and Archives

The William David McCain Library and Archives houses the special collections and archives of The University of Southern Mississippi. Resources are available for use by the public and the university community in the Cleanth Brooks Reading Room. Materials housed in this facility do not circulate outside the building. The online catalog and other descriptive finding aids serve as points of access to the collections. Among the notable holdings of McCain Library and Archives are the Mississippiana and Genealogy Collections; the de Grummond Children’s Literature Collection; the papers of William M. Colmer, Theodore G. Bilbo, and Paul B. Johnson, Jr.; the Walen Collection of Confederate and Civil War History; and the Cleanth Brooks Collection of belles lettres.

The Gulf Coast Library

The Gulf Coast Library moved into its new facility in 2002. The library contains collections of print and nonprint materials which directly support the instructional programs of the Long Beach campus. Currently, the library subscribes to almost 400 serial titles with online full text access to more than 14,000 titles. The curriculum lab contains over 37,000 volumes. Holdings at the Gulf Coast Library are supplemented by the print resources of the Hattiesburg campus. Electronic resources are available for all university faculty, staff and students regardless of location.

The University of Southern Mississippi Museum of Art

The University of Southern Mississippi Museum of Art was established in 1997 by the Board of Trustees. Located in the Fine Arts Building off Southern Drive, the museum is composed of three exhibition galleries: the C. W. Woods Art Gallery, the Lok Exhibition Gallery, and Gallery II. Over 10,000 people visit the museum annually.

Recent exhibitions have included “The Gentle Art of Making Enemies: The Etchings of James McNeill Whistler and Seymour Hayden” and “Faces of Freedom Summer: The Photographs of Herbert Randall,” organized in conjunction with the Southern Miss Libraries and Archives. The museum also exhibits works by Southern Miss art department faculty and students as well as the works of artists such as Walter Anderson, Marie Hull, Winslow Homer, Rembrandt van Rijn, Honoré Daumier, Dusti Bonge, Richmond Barthe, and Fairfield Porter.

In 2004, the museum presented “AIGA: 50 Books/50 Covers,” (September-November), an exhibition of works by Southern Miss art faculty (November), and a Senior Exhibition (December). Following the winter break, the museum shall present “J.B. Harter: Landscapes” and “Ritual Vessels: Barbara-Ann-Carver-Hunt and Claudia Ka Cartee” (January); “Mississippi Voices” and “A New Religious Diversity: Photographs by Cindy Brown” (February); as well as annual MAEA, student, and senior shows between March and May.

For more information about the Southern Miss Museum of Art, please call (601) 266-5200.
Accrediting Agencies

The University of Southern Mississippi is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor’s, master’s, specialist’s, and doctoral degrees. Specific academic programs as noted in this Bulletin have been accredited by the following accreditation agencies:

THE ASSOCIATION TO ADVANCE COLLEGIATE SCHOOLS OF BUSINESS (314-872-8481)
600 Emerson Road, Suite 300
St. Louis, MO 63141-6762

AMERICAN LIBRARY ASSOCIATION (312-280-2432)
50 East Huron Street
Chicago, IL 60611

AMERICAN PSYCHOLOGICAL ASSOCIATION (202-336-5500)
750 First Street, NE
Washington, DC 20002-4242

AMERICAN SPEECH-LANGUAGE-HEARING ASSOCIATION (301-897-5700)
10801 Rockville Pike
Rockville, MD 20852

COMMISSION ON ACCREDITATION FOR DIETETICS EDUCATION OF THE AMERICAN DIETETIC ASSOCIATION (312-899-5400)
120 South Riverside Plaza, Suite 2000
Chicago, IL 60606-6995

COMMISSION ON ACCREDITATION FOR MARRIAGE AND FAMILY THERAPY EDUCATION (202-452-0109)
1133 15th Street, NW, Suite 300
Washington, DC 20005-2710

COMMISSION ON COLLEGIATE NURSING EDUCATION (202-887-6791)
One Dupont Circle NW, Suite 530
Washington, DC 20036-1120

Email: graduatestudies@usm.edu
www.usm.edu/graduatestudies

In recognition of the university's increasing role in graduate education, the Office of Graduate Studies was established as the Graduate School in 1947. In the years since, the university's graduate programs have developed to meet societal needs for professional competence beyond the baccalaureate degree.

In 1972, responding to the need to offer graduate programs beyond the boundaries of the Hattiesburg campus, the Board of Trustees of the Institutions of Higher Learning authorized the university to grant graduate degrees on the campus of The University of Southern Mississippi, Gulf Coast. Graduate-level course work can be taken on the various Gulf Coast campuses, as well as through the study-abroad programs sponsored by the Center for International and Continuing Education.

Because the university has emerged as a dynamic center of higher learning in which advanced research and graduate education flourish in symbiotic fashion, the Southern Regional Education Board and Carnegie Foundation bestow upon the university their highest rankings. The university of Southern Mississippi is an SREB Four-Year I institution, and it is among the approximately 150 universities in the nation recognized by the Carnegie Foundation as a Doctoral Research-Extensive institution.

The Graduate Council

The Graduate Council determines policies pertaining to graduate education at the university. The Graduate Council includes elected members from the various degree-granting colleges. Permanent ex officio members are the president of the university and the university librarian. The council elects a chair from its regular members. The university registrar serves as recording secretary to the council.

The council's bylaws are available at www.usm.edu/graduatestudies.

The responsibilities of the Graduate Council include:

1. Determining policies of admission to graduate study at Southern Miss.
2. Considering and approving graduate programs submitted to the council through curriculum committees of each college.
3. Electing members of the graduate faculty upon recommendation by the academic deans.
4. Approving new courses, modifying existing courses, and deleting courses for graduate credit including online courses.
5. Acting upon any other issues affecting graduate programs.

The graduate programs approved by the council are carried out through the graduate faculty in each degree-granting college of the university’s academic organization.

Graduate Admissions (U.S. citizens)

Mary Lowry, Manager of Graduate Admissions
The University of Southern Mississippi
118 College Drive #10066
Hattiesburg, MS 39406-0001
(601) 266-5137

All U.S. citizens applying to graduate programs offered on all Southern Miss campuses should apply online or send their application form, transcripts from all universities attended, and test scores to Graduate Admissions. Letters of recommendation and all other required admission materials should be sent to the department or school to which the student is applying. Students applying to more than one department should send letters of recommendation and all other material to both departments.
International Student Applications
Barbara Whitt Jackson, Administrator, International Student and Scholar Services
The University of Southern Mississippi
118 College Drive #5151
Hattiesburg, MS 39406-0001
USA (601) 266-4841

International Student and Scholar Services (ISSS) coordinates all facets of international admissions and student services. ISSS processes all international applications, evaluates foreign academic credentials, and issues the appropriate immigration documents for nonimmigrant foreign students. ISSS provides counseling on immigration regulations. When complete, application packets are sent to the appropriate department.

Graduate Degree Requirement Processing, Auditing, and Tracking
Sue Fayard, Degree Auditor and Tracking Specialist
Joyce Sanders, Administrative Assistant and Graduate Reader
The University of Southern Mississippi
118 College Drive #5024
Hattiesburg, MS 39406-0001
(601) 266-4369

The degree auditor and tracking specialist maintains the advising transcripts, processes all milestone information (e.g., comprehensive exam results) and changes of grades, and does the final degree audit before posting the degree. The graduate reader manages the processing of theses and dissertations from initial committee appointments to the final proofreading. The reader also sends copies of the theses and dissertations to the bindery. See www.usm.edu/graduatestudies for specific information on plan of study forms, deadlines, and dissertation/thesis guidelines.

Graduate Student Association
President, Graduate Student Association
The University of Southern Mississippi
118 College Drive #5024
Hattiesburg, MS 39406-0001
(601) 266-4369

The Graduate Student Association invites all graduate students to join. The President of the GSA represents graduate students at various official functions. The GSA sponsors a variety of activities including lectures and informal gatherings. It is affiliated with the National Association of Graduate and Professional Students.

Degree Programs Offered*

The University of Southern Mississippi offers graduate-level programs in nearly every recognized academic discipline. Even those departments that do not offer master’s or doctoral degrees can offer a graduate minor. In addition, graduate degrees are offered at the Gulf Coast campus. For specific information about the graduate programs at Gulf Coast, please see the Gulf Coast section in the Bulletin.

The degrees which are offered and their majors are listed below. Refer to each department for emphasis areas.

*Please note that degree offerings may change due to current program reviews. Those listed in this Bulletin are those granted as of the 2004-2005 academic year. Check with the department for current offerings.
Degrees Offered

Doctor of Audiology (AUD)

Doctor of Education (Ed.D.)
- Education: Adult Education
- Education: Curriculum and Instruction
- Education: Educational Administration
- Education: Special Education

Higher Education Administration
Human Performance
Science Education

Doctor of Philosophy (Ph.D.)
- Administration of Justice
- Biological Sciences
- Chemistry
- Coastal Sciences
- Communication: Mass Communication
- Communication: Speech Communication
- Counseling Psychology
- Education: Adult Education
- Education: Curriculum and Instruction
- Education: Educational Administration
- Education: Special Education
- English

Higher Education Administration
History
Human Performance
International Development
Marine Science
Music Education
Nursing
Nutrition & Food Systems
Polymer Science & Engineering
Psychology
Science Education
Scientific Computing

Doctor of Music Education (DME)

Doctor of Musical Arts (DMA)

Specialist in Education (Ed.S.)
- Adult Education
- Educational Administration
- Educational Research

Higher Education Administration
School Counseling
Special Education

Specialist in Library and Information Science (SLIS)

Master of Art Education (MAEd)

Master of Arts (MA)
- Anthropology
- Communication: Mass Communication
- Communication: Speech Communication
- Criminal Justice
- English

History
Philosophy
Political Science
Psychology
Speech and Hearing Sciences

Master of Arts in Teaching (MAT)

Master of Arts in the Teaching of Languages (MATL)

Master of Business Administration (MBA)

Master of Education (MEd)
- Adult Education
- Counseling and Personnel Services
- Educational Administration

Educational Curriculum and Instruction
Special Education

Master of Fine Arts (MFA)
- Theatre

Studio Art: Drawing/Painting

Master of Library and Information Science (MLIS)

Master of Music (MM)

Master of Music Education (MME)

Master of Professional Accountancy (MPA)

Master of Public Health (MPH)
### Master of Science (MS)

### Master of Science in Nursing (MSN)

### Master of Social Work (MSW)
Admission Requirements and Procedures

Since applicants must always be admitted to a specific program, all applications are closely reviewed and must be approved by faculty and the chair of the department in which the student intends to study and by the college dean. U.S. citizens should obtain admission forms and should submit them to the Office of Graduate Admissions. International applicants should obtain admission forms from the Office of International Student and Scholar Services. (See the International Student Applications section of the Bulletin for specific details).

Most programs require that applicants submit Graduate Records Examination (GRE) scores. However, programs in the College of Business and Economic Development require that applicants take the Graduate Management Admission Test (GMAT). Some programs in the College of Education and Psychology require the Miller Analogies Test (MAT); and in the College of Health, some programs accept a variety of examinations, including the MCAT. Prospective students should plan to take the appropriate examination early in their senior year of college, and they should request that a copy of their scores be sent to the Office of Graduate Admissions. The university's testing center offers all of the tests. For additional information, call 266-6123.

Admission decisions result from evaluation of quantitative and qualitative information submitted by the applicant or submitted at the applicant’s request. In addition to test scores, applicants must provide a completed application form and official transcripts from all institutions attended. The applicant must provide letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study. Some programs require submission of a writing sample and/or a personal essay; others require that the applicant participate in an interview or audition. All application materials are reviewed and contribute to admission decisions. A decision to accept an applicant into a graduate degree program is based upon the quality of his or her previous academic experience, as well as the applicant’s purpose of study, the appropriateness of the applicant’s purpose when weighed against the strengths of a program, and the recommendations of the faculty in the proposed field of study. In some programs, prior professional and employment activities are also considered.

The academic record, character, and conditions of the applicant must be in accordance with the rules and regulations of the Board of Trustees of State Institutions of Higher Learning and with the laws of the state of Mississippi. The applicant must have excellent moral character in conformity with the generally accepted standards customarily in effect at the university.

The university reserves the right to cancel the admission or registration of an individual whose attendance at the university, in the opinion of the appropriate administrative officer and the president, would not be beneficial to the student and/or to the institution.

Admission Review

Any student who is denied admission, whose admission is suspended, who questions the type of admission granted, or whose admission status is changed after matriculation, may have his or her case reviewed by the Graduate Committee for Admissions and Credits. Any request for review must be made within one year of the date of the denial or suspension.

It should be clearly understood that the admission requirements listed below represent the minimal standards set by the Graduate Council and that additional requirements and higher standards may well be stipulated by the various departments. Applicants should check for such requirements in the departmental section of the Bulletin.

Deadlines for Graduate Admission Application

The following departments have set different application deadlines that must be met. If there is no application deadline indicated, the department does not accept new students that semester.

### Types of Admission to Master’s Programs

An applicant may be granted regular or conditional admission to a master’s program.

**I. Regular Admission**

Minimum Standards for Regular Admission are as follows:

A. The applicant must hold a baccalaureate degree from an institution approved by a recognized accrediting agency.

B. The applicant must be eligible to re-enter in good standing the last college or university attended.

C. The applicant must present evidence, by official transcript, of a grade point average equivalent to at least 2.75 (calculated on a 4.0 scale) for the last two years of undergraduate study, and a grade point average of at least 3.0 on undergraduate courses in the field of proposed graduate study.

D. The applicant must have at least three (3) letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study sent to the department/school. If applying to more than one department, students must ask referees to send letters to each department/school.

E. Applicants must have standardized test scores (GRE, GMAT, or MAT or other approved graduate admission test) sent to Graduate Admissions. Consult specific departmental requirements for additional information.
F. The appropriate department chair and the college dean must be satisfied that the applicant shows promise of satisfying master’s degree requirements.

G. International students should submit TOEFL scores.

II. Conditional Admission

A student who fails to qualify for regular admission may be admitted on a conditional basis; however, such a student possesses a grade point average of at least 2.50 (calculated on a 4.0 scale). Conditional admission can be given only upon the recommendation of the department chair and the college dean.

A masters student admitted conditionally must maintain a grade point average of at least 3.0 on the first nine (9) hours of coursework at or above the 500 level. If, prior to satisfying the requirements to have the conditional status removed, the student attempts more than 9 hours of coursework at or above the 500 level, he or she must achieve a 3.0 overall grade point average. Lower-level coursework taken to remedy perceived deficiencies may not be counted toward the nine-hour requirement. All courses taken to remove conditional status must be taken on a campus of The University of Southern Mississippi.

Additional requirements may be imposed by the department chair. The student should meet with the chair to be clear about such requirements.

All requirements must be met or the student will not be allowed to continue to seek a master’s degree. Upon the recommendation of the department chair and with the approval of the dean, the student will be reclassified as a regularly admitted student. A student not maintaining the required grade point average or otherwise failing to satisfy any additional requirements, will be discontinued.

Types of Admission to Specialist’s Programs

Advanced graduate programs leading to the specialist’s degree are available to qualified students. An applicant may be granted regular or conditional admission to these programs.

I. Regular Admission

Minimum standards for regular admission are as follows:

A. The applicant must hold a master’s degree from an institution approved by a recognized accrediting agency.

B. The applicant must be eligible to re-enter in good standing the last college or university attended.

C. The applicant must present evidence, by official transcript, of a grade point average of no lower than 3.25 (calculated on a 4.0 scale) on previous graduate work. Applicants must also submit official transcripts from all other institutions they attended.

D. The applicant must have at least three letters of recommendation from persons qualified to assess the applicant’s readiness for specialist work. If applying to more than one department, students must ask referees to send letters to each department.

E. Applicants must have results from the general test of the Graduate Record Examination (GRE) unless the department requires the Miller Analogies Test (MAT). Consult specific departments for additional information.

F. Applicants must submit other materials specified by departments, e.g., writing samples, statement of purpose, and/or resumes. See specific departmental requirements for this information.

G. The appropriate department chair and college dean must be satisfied that the applicant shows promise of satisfying specialist’s degree requirements.

H. International students should submit TOEFL scores.
Additional requirements may be imposed by the department chair. The student should meet with the chair to be clear about such requirements.

All requirements must be met or the student will not be allowed to continue to seek a specialist’s degree. Upon the recommendation of the department chair and with the approval of the dean, the student will be reclassified as a regularly admitted student. A student not maintaining the required grade point average or otherwise failing to satisfy any additional requirements, will be discontinued.

Types of Admission to Doctoral Programs

Advanced graduate programs leading to the doctoral degree are available to qualified students. An applicant may be granted regular or conditional admission to these programs.

II. Regular Admission

Minimum standards for regular admission are as follows:

A. The applicant must hold a master’s degree from an institution approved by a recognized accrediting agency.
B. The applicant must be eligible to re-enter in good standing the last college or university attended.
C. The applicant must present evidence, by official transcript, of a grade point average of no lower than 3.50 (calculated on a 4.0 scale) on previous graduate course work. Applicants must also submit official transcripts from all other institutions they attended.
D. The applicant must have at least three letters of recommendation from persons qualified to assess the applicant’s readiness for doctoral work. If applying to more than one department, students must ask referees to send letters to each department.
E. Applicants must have results from the general test of the Graduate Record Examination (GRE) sent to Graduate Admissions.
F. Applicants must submit other materials specified by departments, e.g., writing samples, statement of purpose, and/or resumes. See specific departmental requirements for additional information.
G. The appropriate department chair and college dean must be satisfied that the applicant shows promise of satisfying doctoral degree requirements.
H. International students should submit TOEFL scores.

II. Conditional Admission

A student who fails to qualify for regular admission may be admitted on a conditional basis; provided, however, such a student possesses a grade point average of at least a 3.25. Conditional admission can be given only upon the recommendation of the department chair and the college dean.

A doctoral student admitted conditionally must maintain a grade point average of at least 3.5 on the first nine (9) hours of coursework at or above the 600 level. If, prior to satisfying the requirements to have the conditional status removed, the student attempts more than 9 hours of coursework at or above the 600 level, he or she must achieve a 3.5 overall grade point average. Lower-level coursework taken to remedy perceived deficiencies may not be counted toward the nine-hour requirement. All courses taken to remove conditional status must be taken on a campus of The University of Southern Mississippi.

Additional requirements may be imposed by the department chair. The student should meet with the chair to be clear about such requirements.

All requirements must be met or the student will not be allowed to continue to seek a doctoral degree. Upon the recommendation of the department chair and with the approval of the dean, the student will be reclassified as a regularly admitted student. A student not maintaining the required grade point average or otherwise failing to satisfy any additional requirements, will be discontinued.

Regulations Governing Non-Degree Graduate Students

Permission to take courses as a non-degree graduate student may be granted for any of the following reasons:

A. The student did not meet requirements for conditional or regular admission before the deadline. These admission requirements must be met and the non-degree status changed to conditional or regular by the end of the first full semester after the student enrolls in graduate courses in order to continue coursework. Permission from the department offering the course and the dean must be secured in order to register for the course.
B. The student may or may not be able to meet admission requirements but does not desire to work toward a graduate degree. For example, an individual pursuing only a certificate may wish to do so as a non-degree student.

C. The student is enrolled in another university and desires to obtain credit from The University of Southern Mississippi to be transferred to the university in which he or she is seeking a degree.

D. Students who have been denied admission to a program, but who wish to take graduate courses, may request permission to take courses as a non-degree seeking graduate student. Therefore, they must have the permission of the chair of the department offering the course and the dean to register for any graduate course.

Even though a non-degree graduate student is allowed to take courses at the university, he or she has not been admitted to any department or to any degree program. Moreover, no credit earned beyond the master’s degree while classified as a non-degree student may be applied toward the doctoral degree. Non-degree graduate students must have the permission of the chair of the department offering the course and the dean to register for any graduate course.

A non-degree graduate student must hold a baccalaureate degree from an accredited institution. Non-degree graduate students are not eligible for financial aid.

To be allowed to continue as a non-degree graduate student, the student must consult with the department chair or academic adviser of the department in which he or she is taking courses during the first semester enrolled at the university regardless of whether or not the student plans to seek a degree.

No more than nine semester hours earned while classified as a non-degree graduate student will be accepted toward a master’s degree at The University of Southern Mississippi. A student must, therefore, gain conditional or regular admission before completing more than nine semester hours of study.

An applicant for specialist and doctoral study may take courses as a non-degree graduate student if the department chair and dean give their permission. However, no credit earned as a non-degree graduate student may be applied to doctoral degrees. All non-degree graduate students at the advanced level must have the permission of the chair of the department offering the course and the dean to register for any graduate course.

Limitations on University Faculty Members

Members of the faculty of The University of Southern Mississippi above the rank of instructor cannot become candidates for a doctoral degree at the institution. They may, however, enroll for graduate courses as a non-degree student. Faculty members of the rank of instructor may become candidates for doctoral degrees at The University of Southern Mississippi on the same terms as any other advanced graduate student candidate.

Permission for Undergraduate Seniors to Register for Graduate Credit

Exceptionally well-qualified undergraduate students at The University of Southern Mississippi may apply to the Office of Graduate Studies for permission to take course work for graduate credit if they are within nine semester hours of meeting bachelor’s degree requirements as certified by the university registrar. If the dean approves, the student may then register for graduate courses up to a maximum of six semester hours of graduate credit with a total course load not exceeding 12 semester hours. The student must complete requirements for the baccalaureate degree within the first semester/term in which he or she registers for graduate courses. The student’s application for admission will not be given final approval until after he or she satisfies all requirements for the baccalaureate degree.

An undergraduate student from another institution desiring to take graduate courses as listed above should file a graduate application, have a transcript sent to the Graduate Admissions office, and receive permission from the department chair and dean to take a graduate class.
Procedures for Applying for Admission (U.S. citizens)

I. Students must submit a new application for each program and degree sought: master’s, specialist’s, and doctoral.

II. All credentials (application, an official transcript from each institution attended, and standardized test scores) must be submitted to Graduate Admissions by the deadline published in the University Calendar, or the departmental deadline. Letters of recommendation should be sent directly to the department. If applying to more than one department, students should have letters sent to all departments.

III. All applicants must pay a $25 application fee. Send checks or money orders to the Office of Graduate Admissions.

IV. After all credentials are received, the Graduate Admissions office will compute the applicant’s grade point average for the last 60 hours of baccalaureate classwork and will forward the application and transcript to the appropriate department chair. As soon as the application has been processed by the department chair and the college dean, the Office of Graduate Studies will notify the applicant of the university’s decision on the request for admission. The letter from the Office of Graduate Studies is the official letter of admission.

V. An applicant’s admission status is good for a maximum of one year. However, some departments require a new application if the student does not enroll the semester he/she is admitted. Once a student’s admission window closes, all paperwork (transcripts, etc.) is shredded, and a student must again apply for admission.

VI. Students whose native language is not English and have recently come to the United States are required to take the TOEFL exam to demonstrate English proficiency.

International Admissions

International Student and Scholar Services

International Student and Scholar Services (ISSS) coordinates all facets of international admissions and student services. ISSS provides counseling on immigration regulations, personal matters, culture shock and adjustment, as well as some academic counseling in conjunction with the various departments. ISSS processes all international applications, evaluates foreign academic credentials, and issues the appropriate immigration documents for non-immigrant foreign students. Multi-cultural programming for international students and the community is also coordinated by the office.

ISSS disseminates Southern Miss information to foreign schools, U.S. embassies/consulates abroad, and non-profit international organizations (such as the Institute for International Education). This office also provides information to and immigration documents for research scholars invited by various Southern Miss departments to participate in research opportunities. For further information, write to

The University of Southern Mississippi
Administrator
International Student and Scholar Services
118 College Drive #5151
Hattiesburg, MS 39406-0001
U.S.A.
Tel. (601) 266-4841 FAX (601) 266-5839
Internet: http://www.usm.edu/cice/iss
e-mail: isss@usm.edu

English Language Proficiency: Applicants whose native language is not English must present the results of the Test of English as a Foreign Language (TOEFL). Exceptions may be made if the applicant has earned a degree at an accredited U.S. college or university. TOEFL requirements vary from program to program. See admission requirements for international students under the department listings for specific TOEFL requirements.

English Instruction: Applicants without English language proficiency can consider enrolling in the university’s English Language Institute prior to academic enrollment. For more information, write The University of Southern Mississippi, English Language Institute, 118 College Drive #5065, Hattiesburg, MS 39406-0001, USA or email eli@usm.edu.
Admission Materials: Applicants must submit all application materials required by the departments to the International Admissions Office. Graduate test scores (GRE or GMAT, depending on department) are also required. Official transcripts with degrees posted must be submitted for each school attended. These documents should be submitted in their native language with a certified English translation.

Financial Resources: In order to meet requirements for entry into the United States for study, applicants are required by federal law to demonstrate sufficient financial resources. Students must be prepared to provide proof that he/she has sufficient funds to cover the first year of study. In addition, students must demonstrate financial solvency for future years of study to establish that he/she will not become a public charge. Applicants must provide documented evidence of their financial resources for university study since the university has no special fund for financial assistance to international students.

Admission Procedure:
1. Write to The University of Southern Mississippi, International Student and Scholar Services, 118 College Drive #5151, Hattiesburg, MS 39406-0001 USA for information and application forms to the university’s graduate programs.
2. Complete the forms properly and return them with a $25 processing fee to the address above. The application and supporting documents must be received no later than two months prior to the registration date desired.
3. Have all official transcripts and diplomas from all former institutions attended sent to International Student and Scholar Services. Please note: photocopies are NOT acceptable. Transcripts should be in native language with certified English translations.
4. Have all appropriate test scores sent to International Student and Scholar Services.
5. Have at least three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study sent to International Student and Scholar Services.
6. After all application materials are received, the applicant’s file will be sent to the appropriate department and college dean. The Office of Graduate Studies will notify the applicants of the admission decision. The letter from the Office of Graduate Studies is the official letter of admission.
7. Application materials submitted to the university will not be returned.

A Certificate of Eligibility for exchange Visitor Status (Form DS2019 for a J-1 visa) or a Certificate of Eligibility for Student Status (Form I-20 for an F-1 visa) is issued only to those applicants who have been officially admitted to the university.

Immunization
If born after 1956, a Certificate of Compliance is required. International students may have additional requirements (contact International Student and Scholar Services).
General Degree Requirements

Master’s Degree Requirements

I. Credit Hours
A minimum of thirty (30) semester hours credit is required for any master’s degree. Many departments require more than the minimum. Consult specific departmental requirements for additional information.

A 3.0 GPA in the master’s program is required for graduation.

II. Plan Of Study Form
Students must submit a “plan of study” form to the Office of Graduate Studies by their second semester of enrollment. See www.usm.edu/graduatestudies for specific directions.

III. Time Limitation
The student must complete the master’s degree within six calendar years from the date of initial enrollment in a graduate program. Six years is the maximum age allowed for graduate credits toward a master’s degree. The dean, under extenuating circumstances, and special petition, may approve revalidation of over-age credit hours if the original credit was earned at The University of Southern Mississippi and if the department chair approves the revalidation. The revalidation is secured by the student’s successfully passing a special examination on the course. However, any student who fails to complete the master’s degree program within the six-year time period becomes subject to any changes in degree requirements made at any date six years prior to graduation. The fee charged for the special revalidation examination is $30 per course. The fee is to be paid before the revalidation examination is taken. Over-age extension courses cannot be revalidated. Revalidation forms are available in the Office of Graduate Studies.

IV. Credit Hours Limitations
A. A minimum of 50 percent of the credit earned at The University of Southern Mississippi must be taken on the campus from which the degree is awarded.
B. A minimum of eighteen (18) semester hours must be in courses numbered 600 or above.
C. A total of no more than nine (9) semester hours of work earned as a non-degree student may be applied toward a master’s degree. Please note E below.
D. As many as six (6) semester hours of graduate credit from other accredited institutions may be transferred to the student’s program with the approval of the appropriate department chair and dean provided that the course work transferred falls within the six-year period allowed for the degree. Such course work must carry a letter or numeric grade and cannot be a pass/fail course.
E. A total sum of no more than nine (9) semester hours of transfer work and non-degree work may be applied toward a master’s degree.

V. The Master’s Committee
The student’s work toward the master’s degree is either supervised by a departmental committee comprised of a chair and at least two members recommended by the department chair and appointed by the Office of Graduate Studies. The committee appointment forms should be sent to the Office of Graduate Studies.

VI. The Minor Field
If a minor field is required in the master’s program, it shall consist of a minimum of nine (9) semester hours of graduate course work.

VII. Continuous Enrollment
Students are expected to enroll continuously after they have taken required course work until they complete their degree using the guidelines listed below.
A. Students must enroll for one (1) hour if they are using university services, e.g., library and/or technology services.
B. Students must register for three (3) hours of 698 or project hours during the semester/term they expect to defend and complete the thesis or project. All required course work must be completed before the semester in which the student defends the thesis. The thesis must be deposited in the Office of Graduate Studies or the final project given to the major professor.
C. Students must register for one (1) hour of 697 or project hour the next semester/term if they have not deposited the thesis in the dean’s office or submitted final project to their department.

Failure to enroll for the appropriate hours will result in the student’s being discontinued from Southern Miss and will require that the student reapply for admission to the program.
D. Leave of Absence
Under special circumstances such as illness, family hardship, or military service, a student may request a leave of absence. Leaves of absence will be granted for one semester or longer as circumstances warrant. Requests for a leave of absence should be submitted in writing to the department chair or director. The chair or director will then forward his or her recommendation to the Office of Graduate Studies. The dean will notify the student and chair or director of the decision. Normally, requests should be submitted at least one semester before the leave of absence.

VIII. The Master’s Thesis
A. The degree of master of arts entails the writing of a thesis (798. Thesis, 6 hrs.). For the degrees of master of science and master of education, some programs offer a non-thesis option. Students intending to pursue a degree higher than the master’s are encouraged to write a thesis.

B. As appropriate, the Human Subjects Protection Review Committee and/or the Institutional Animal Care and Use Committee must approve the thesis methodology before the thesis is begun. The signed approval forms and approval letter must be included in an appendix. (See The Use of Human Subjects section of the Bulletin.)

C. Guidelines for the preparation of theses is available on the Web at www.usm.edu/graduatestudies.

D. Oral Defense of Thesis. After the thesis has been accepted and after all required course work has been completed, a final oral examination on the thesis will be conducted by the student’s thesis committee and any other faculty members designated by the dean. The examination will be open to any member of the graduate faculty. The thesis committee chair should submit the results of the oral defense of the thesis form to the Office of Graduate Studies immediately following the defense. A copy of the thesis title page should also be submitted.

E. Students are responsible for meeting the thesis deadlines that are listed on the thesis-dissertation deadline schedule in the Bulletin. If a student fails to deposit the thesis in the Office of Graduate Studies in accordance with the published schedule, the degree will be awarded in the next semester.

IX. Foreign Language
Some master’s degree programs, particularly programs leading to the master of arts, include a foreign language requirement. Students should refer to the section of the Bulletin describing individual departments and schools to determine whether specific requirements have been established for a program of interest. A student may demonstrate proficiency in a foreign language by any of several options; the particular option followed by the student must have the approval of the student’s advisory committee and the dean. The options are as follows:

A. Completion of six (6) graduate semester hours with grades of C or better in one of the following language sequences: FRE 501-502, SPA 501-502, or GER 501-502. These courses are specifically designed to meet The University of Southern Mississippi foreign language requirements.

B. Completion of nine (9) semester hours (undergraduate or graduate) with grades of C or better in an approved foreign language. The courses listed above in option A may not be included as part of these nine hours. The student may transfer these hours from an accredited institution upon admission, provided that the most advanced of the courses was taken within the last six (6) calendar years. After admission, courses taken to satisfy the foreign language requirement by this option must be taken at The University of Southern Mississippi or at another accredited institution if written approval to take the specific courses at the institution is obtained from the student’s advisory committee, the chair of the Department of Foreign Languages and Literatures, and the Office of Graduate Studies.

C. Students may successfully complete the College-Level Examination Program (CLEP) test in French, Spanish, or German. The CLEP can be taken at many sites. Students must obtain a minimum score of 50 on the total test in one of the languages as follows: French 43; German 39; Spanish 48.

D. Students whose first language is not English may use English to fulfill the proficiency requirement for one language by scoring in the 65th percentile (scaled score = 560 or higher) on the Test of English as a Foreign Language.

E. Students fulfill the proficiency requirement for one language if they have completed an undergraduate major or a master’s degree in a foreign language at any time. Use of another method for demonstrating proficiencies must be recommended and approved by the student’s advisory committee, the chair of the Department of Foreign Languages and Literatures, and the Office of Graduate Studies.
X. Comprehensive Exam

In addition to regular examinations, final comprehensive examinations are required for master’s degrees. The major department will determine whether the comprehensive examination will be written or oral or both. The written comprehensive, if required, will be prepared by the student’s committee and will cover the area of the major field. If an oral examination is required, the chair of the student’s committee will send written notices of the time and place of the examination.

Comprehensive examinations, whether written or oral, will be administered no later than the last academic week of the semester/term in which the student expects to receive the degree and the results reported by the department chair to the Office of Graduate Studies no later than the last day for presenting signed theses to the Office of Graduate Studies. The examination may be administered earlier in the semester/term if the department so desires. A student who fails the comprehensive examination may not retake the examination until its next regular administration and may repeat the examination only once.

XI. Application for Degree and Audit

Students should submit to the graduate degree auditor a signed, completed application for degree by the specified deadline the semester before they wish to graduate. The graduate degree auditor will check the application and notify the student and his or her adviser of any problems. (See thesis-dissertation deadline schedule in the Bulletin.) See www.usm.edu/graduatestudies for specific directions. Students who do not graduate the semester for which they applied should contact the graduate degree auditor.

Specialist’s Degree Requirements

I. Credit Hours

A minimum of thirty-three (33) semester hours credit beyond the master’s degree is required for any specialist’s degree. Students must also meet all degree requirements relating to the master’s degree. A 3.0 GPA in the specialist program is required for graduation.

II. Plan Of Study Form

Students must submit a “plan of study” form to the Office of Graduate Studies by their second semester of enrollment. See www.usm.edu/graduatestudies for specific directions.

III. Time Limitation

The student must complete the specialist’s degree within six calendar years from the date of initial enrollment in a graduate program. Six years is the maximum age allowed for graduate credits toward a specialist’s degree. The Office of Graduate Studies, under extenuating circumstances, and special petition, may approve revalidation of over-age credit hours if the original credit was earned at The University of Southern Mississippi and if the department chair approves the revalidation. The revalidation is secured by the student’s successfully passing a special examination on the course. However, any student who fails to complete the specialist’s degree program within the six-year time period becomes subject to any changes in degree requirements made at any date six years prior to graduation. The fee charged for the special revalidation examination is $30 per course. The fee is to be paid before the revalidation examination is taken. Over-age extension courses cannot be revalidated. Revalidation forms are available in the Office of Graduate Studies.

IV. Credit Hours Limitations

A. A minimum of 50 percent of the credit earned at The University of Southern Mississippi must be taken on the Southern Miss campus from which the degree is awarded.

B. A total of no more than nine (9) semester hours of work earned as a non-degree student may be applied toward a specialist’s degree. Please note D below.

C. As many as six (6) semester hours of graduate credit from other accredited institutions may be transferred to the student’s program with the approval of the appropriate department chair and the dean provided that the course work transferred falls within the six-year period allowed for the degree. This course work must carry a letter or numeric grade and cannot be a pass/fail course.

D. A total sum of no more than nine (9) semester hours of transfer work and non-degree work may be applied toward a specialist’s degree.

V. Residency

The purposes of residency are to provide specialist students with significant time for extensive involvement with faculty, professional colleagues, and peers and to provide a period of time for concentrated study and course work. It is structured as a full-time experience. The minimum residency requirements for the specialist’s degree can be fulfilled by the completion of one full-time semester of nine (9) semester hours of graduate study on campus.

VI. The Specialist’s Committee

The student’s work toward the specialist’s degree is supervised by a departmental committee composed of a chair and at least two members recommended by the department chair and appointed by the Office of Graduate Studies. Committee appointment forms should be sent to the Office of Graduate Studies.
VII. The Minor Field
If a minor field is required in the specialist’s program, it shall consist of a minimum of nine (9) semester hours of graduate course work.

VIII. Continuous Enrollment
Students are expected to enroll continuously after they have taken required course work until they complete their degree using the guidelines listed below.

A. Students must enroll for one (1) hour in the summer term if they are using university services, e.g., library and/or technology services.

B. Students must register for three (3) hours of 798 or project hours during the semester/term they expect to defend and complete the thesis or project. All required course work must be completed before the semester in which the student defends the thesis. The thesis must be deposited in the Office of Graduate Studies or the final project given to the major professor.

C. Students must register for one (1) hour of 797 or project hour the next semester/term if they have not deposited the thesis in the dean’s office or submitted the final project to their department.

Failure to enroll for the appropriate hours will result in the student being discontinued from Southern Miss and will require that the student reapply for admission to the program.

D. Leave of Absence
Under special circumstances such as illness, family hardship, or military service a student may request a leave of absence. Leaves of absence will be granted for one semester or longer as circumstances warrant. Requests for a leave of absence should be submitted in writing to the department chair or director. The chair or director will then forward his or her recommendation to the Office of Graduate Studies for consideration. The graduate studies office will notify the student and chair or director of the decision. Normally, requests should be submitted at least one semester before the leave of absence.

IX. The Specialist’s Thesis or Project

A. The specialist’s degree entails the writing of a thesis (798. Thesis, 6 hrs.) or completion of a field-based project.

B. As appropriate, the Human Subjects Protection Review Committee and/or the Institutional Animal Care and Use Committee must approve the thesis method before the thesis is begun. The signed approval forms and approval letter must be included in an appendix. (See The Use of Human Subjects in Research section of the Bulletin.)

C. A separate bulletin outlining university requirements concerning the preparation of theses is available in the Graduate Office or on the Web at www.usm.edu/graduates studies.

After the thesis has been accepted and after all required course work has been completed, a final oral examination on the thesis and related fields will be conducted by the student’s thesis committee and any other faculty members designated by the dean. The examination will be open to any member of the graduate faculty. The committee chair should submit the results of the oral defense of thesis form to the Office of Graduate Studies immediately following the defense. A copy of the thesis title page should also be submitted.

E. Students are responsible for meeting the thesis deadlines that are listed on the thesis-dissertation deadline schedule in the Bulletin. If a student fails to meet the final deposit deadline, his/her degree will be awarded the next semester. The thesis must be deposited in the Office of Graduate Studies.

X. Comprehensive Exam
In addition to regular examinations, final comprehensive examinations are required for specialist’s degrees. The major department will determine whether the comprehensive examination will be written or oral or both. The written comprehensive, if required, will be prepared by the student’s committee and will cover the area of the major field. If an oral examination is required, the chair of the student’s committee will send written notices of the time and place of the examination. Comprehensive examinations, whether written or oral, will be administered no later than the last academic week of the semester/term in which the student expects to receive the degree and the results reported by the department chair to the Office of Graduate Studies no later than the last day for presenting signed theses to the Office of Graduate Studies. The examination may be administered earlier in the semester/term if the department so desires. A student who fails the comprehensive examination may not retake the examination until its next regular administration and may repeat the examination only once. The committee chair should send the results of the comprehensive exam form to the Office of Graduate Studies no later than final exam week.

XI. Application for Degree and Audit.
Students should submit to the graduate degree auditor a signed, completed application for degree by the specified deadline the semester before they wish to graduate. The graduate degree auditor will check the application and notify the student and his/her adviser of any problems. See www.usm.edu/graduates studies for specific directions. Students who do not graduate the semester they applied for should contact the graduate degree auditor.
Doctoral Degree Requirements

I. Credit Hours
All doctoral degrees entail a minimum of eighty-four (84) semester hours of course work beyond the bachelor’s degree or fifty-four (54) semester hours of course work beyond the master’s degree. The research tool hours are not included in these hours. A 3.0 GPA is required for graduation.

II. Plan Of Study Form
Students must submit a “plan of study” form to the Office of Graduate Studies by their second semester of enrollment. See www.usm.edu/graduatestudies for specific directions.

III. Time Limitations
The student must complete the doctoral degree within eight (8) calendar years from the date of initial enrollment in a doctoral program. Six years is the maximum age allowed for course work and the final comprehensive exam, other than dissertation and research hours toward a graduate degree. The Office of Graduate Studies, under extenuating circumstances and special petition, may approve revalidation of over-age credit hours if the original credit was earned at The University of Southern Mississippi and if the department chair approves the revalidation. The revalidation is secured by the student’s successfully passing a special examination on the course. However, any student who fails to complete the doctoral degree program within the eight-year time period becomes subject to any changes in degree requirements made at any date eight years prior to graduation. The fee charged for the special revalidation examination is $30 per course. The fee is to be paid before the revalidation examination is taken. Over-age extension courses cannot be revalidated. Revalidation forms are available in the Office of Graduate Studies.

IV. Credit Hour Limitations
A. Transfer of credit for graduate work done at other institutions must be approved by the department chair and dean. Final evaluation of and acceptance of transfer credit will not be made until the student has been in residence for one semester/term. Coursework accepted for transfer must carry with it a letter or numeric grade and cannot have been graded pass/fail. Transfer of credit for doctoral degree programs is limited to not more than six (6) semester hours or nine (9) quarter hours beyond the master’s degree. Exceptions to this restriction may be made only with the approval of the department chair and the Office of Graduate Studies.

B. Credit earned as a non-degree graduate student cannot be applied toward a doctoral degree.

V. Residency
The purposes of residency are to provide doctoral students with significant time for extensive involvement with faculty, professional colleagues, and peers and to provide a period of time for concentrated study and course work. It is structured as a full-time experience. The following are options for satisfying the residence requirement: (a) two consecutive terms of 12 hours each, (b) two consecutive summer terms of 12 hours each with continuous enrollment during intervening terms, or (c) three consecutive full-time terms. Students must consult with individual departments regarding which of these options are approved and whether online or off-campus courses can be used to establish residency.

VI. The Doctoral Committee
The student’s work toward the doctoral degree is supervised by a departmental committee composed of a chair and at least four members recommended by the department chair and appointed by the Office of Graduate Studies. Qualified individuals from outside the university may serve if they have specialized knowledge needed by the student and are approved by the Graduate Council.

VII. The Minor Field
If a minor field is required in the doctoral program, it shall consist of twelve (12) semester hours of graduate course work and may consist of courses from a number of related areas. Some disciplines define their own minor and may require more than twelve (12) semester hours to complete the minor.

VIII. Qualifying Exam
At or near the beginning of the student’s work beyond the master’s level, the department or school may require a preliminary examination to determine the student’s qualifications to pursue a doctoral degree and to assist the student’s advisory committee in planning the degree program. The details of the qualifying examination, including the time, date, and place of administration, will be determined by the particular department. The results of the qualifying examination form should be submitted to the graduate degree auditor.

IX. Research Tools
Each doctoral degree program has a research tool requirement that is determined by the department. Consult the department for the specific requirements. Credit hours in the research tools area do not count toward the minimum hours for degree completion (see Doctoral Degree Requirements - I. Credit Hours in the Bulletin). Verification of necessary research tools requirement occurs on the application for degree.
X. Comprehensive Exam
At the completion of specified required course work and other examinations, the doctoral student is required to take a written and/or oral comprehensive examination in his or her major and minor field. A student who does unsatisfactory work on the comprehensive examination may be granted a second examination at the next regularly scheduled time or later. The student’s doctoral committee will recommend the conditions to be met before the examination may be repeated. The comprehensive examinations may be retaken only once. The comprehensive examination should be successfully completed either before the first formal prospectus meeting or before substantial research is completed for the dissertation are within six years from initial enrollment.

XI. Continuous Enrollment
Students must register for three (3) hours of coursework during the semester in which they take their comprehensive examinations. After a doctoral student completes his or her comprehensive examination, continuous enrollment in at least one (1) semester hour must be maintained during each fall and spring semester until the student successfully defends the dissertation.

A student may petition the Office of Graduate Studies for an exemption from the continuous enrollment policy, provided that the student has the written endorsement of his or her advisory committee and the chair of the department. Students may petition the office only if they are in absentia from the University and not utilizing resources of the University. Exemptions will be granted if the student is absent from the University in order to conduct fieldwork, including work in archives and libraries, or who are absent to assume pre-doctoral fellowships; exemptions will not be granted to students who discontinue their enrollment to assume or to continue positions in business, industry, or education.

Students who fail to enroll continuously must reapply for admission. Once readmitted they will be assessed a fee equal to two (2) semester hours of tuition for each semester they were not continuously enrolled. The rate of tuition shall be calculated in accordance with the schedule established for the semester or term in which the student reapplies for admission. The fee shall not be discounted; and all additional fees, including revalidation and application fees, will be assessed. Students must register for three (3) hours of 898 during the semester or term they defend the dissertation. All required coursework must be completed before the semester in which the dissertation is defended.

If a student does not submit copies of his or her dissertation in a form acceptable to the Graduate Reader prior to the deadlines established in a given semester or term, then the student must register for one (1) hour of 797 or 898 during the semester or term in which the degree will be awarded.

D. Leave of Absence
Under special circumstances such as illness, family hardship, or military service a student may request a leave of absence. Leaves of absence will be granted for one semester or longer as circumstances warrant. Requests for a leave of absence should be submitted in writing to the department chair or director. The chair or director will then forward his or her recommendation to the dean for consideration. The dean will notify the Office of Graduate Admissions, the student and chair or director of the decision. Normally, requests should be submitted at least one semester before the leave of absence.

XII. Application for Degree and Audit
Students should submit to the graduate degree auditor a signed, completed application for degree by the specified deadline the semester before they wish to graduate. The graduate degree auditor will check the application and notify the student and his or her adviser of any problems. See www.usm.edu/graduates for specific directions.

XIII. The Dissertation
A. The dissertation topic must be approved by the student’s major professor and advisory committee and must be an original and significant contribution to knowledge in the chosen field. As appropriate, the Human Subjects Protection Review Committee and/or the Institutional Animal Care and Use Committee must approve the method before the study is begun. The signed approval forms and the approval letter must be included in an appendix of the dissertation. (See Human Subjects Protection Review Committee section of the Bulletin.)

B. The guidelines for the preparation of dissertations is available on the Web at www.usm.edu/graduates.

C. The student must complete a total of twelve (12) hours of 898 - Dissertation.

D. The graduate reader ensures that dissertations meet the university requirements. Students should check the graduate studies Web page for important deadlines and should make appointments with the graduate reader. They should allow ample time for revisions.

E. Students are responsible for meeting the dissertation deadlines that are listed on the thesis-dissertation deadline schedule in the Bulletin. If a student fails to meet the final deposit deadline, his or her degree will be awarded the next semester. The student must enroll for one (1) hour of 797 that semester. The dissertation must be deposited in the Office of Graduate Studies.
F. The Dissertation Oral Defense. After the dissertation has been accepted and at least six weeks before the candidate is scheduled to receive the degree, a final oral examination of the dissertation and related fields will be conducted by the student’s doctoral committee and any other faculty members designated by the Office of Graduate Studies. The examination will be open to any member of the graduate faculty. The results of the oral defense form should be submitted to the dean’s office immediately following the defense. After the doctoral committee members have been adequately consulted about the results of the student’s research as well as the form and condition of the dissertation, the committee chair will schedule the defense with the Office of Graduate Studies and other appropriate offices at least ten (10) working days in advance of the defense. The meeting will be open to any member of the faculty and, at the discretion of the chair, may be opened to the public.

The committee chair, with advice from the committee, has complete authority for the conduct of the defense. The chair may recognize those wishing to ask questions about the candidate’s research. Questions and resulting discussion should be appropriate. The committee chair may end the open part of the defense by restricting the meeting to the committee after an appropriate time. Discussion of the results of the defense must be limited to the committee members. A majority vote will determine the result of the defense and shall be reported to the Office of Graduate Studies at the close of the meeting by the chair of the doctoral committee.

XIV. Documents
The doctoral student must have the documents listed below on file with the Office of Graduate Studies. Students are advised to check their files in the graduate studies office for completeness of documentation.

A. Plan Of Study Form. Students must submit a "plan of study" form to the Office of Graduate Studies by their second semester of enrollment. See www.usm.edu/graduatestudies for specific directions.

B. Qualifying Exam Results Form. The department chair or director of graduate studies should submit the form to the graduate degree auditor indicating that the student has completed the qualifying exam if it is required.

C. Doctoral Committee Appointment Form. The department chair or director of graduate studies should submit the form to the graduate studies office indicating who will serve on the student’s committee. A letter of appointment will be sent to the committee members and adviser.

D. Comprehensive Exam Results Letter. The doctoral committee chair should submit the results of the comprehensive exam form to the graduate degree auditor.

E. Application for Candidacy. After completing all the requirements for the doctoral degree other than the dissertation and at least one semester prior to graduation, the student must file two copies of the application for candidacy form with the graduate degree auditor and one copy with the adviser, before or at the time the application for degree is filed. Verification of completion of the research tools should accompany the application for candidacy.

F. Application for Degree. The student should present two copies of the Application for Degree form, stamped by the Business Office to verify payment of fees during the semester preceding that of graduation. See www.usm.edu/graduatestudies for details. Students not graduating in the semester for which they applied should contact the graduate degree auditor.

G. Dissertation Prospectus Approval Letter. A letter should be sent to the graduate degree auditor when the student’s prospectus is approved. Students are reminded to secure approval of the Human Subjects Review Committee or the Institutional Animal Care and Use Committee if necessary.

H. Dissertation Defense Results Form. The doctoral committee chair should submit the results of the oral defense of the dissertation form to the graduate reader immediately following the defense. A copy of the dissertation title page should also be submitted. Final copies of the dissertation must be deposited in the Office of Graduate Studies.
Thesis/Dissertation Deadline Schedule

This schedule replaces all previous documents concerning deadlines for candidates, major professors, and their committees.

Reed Green Coliseum
General Academic Information

Registration
A graduate student is responsible for knowing the policies and regulations and the departmental requirements relevant to his or her individual degree program. Only the general academic regulations and requirements governing all graduate programs are given below. Specific requirements pertaining to individual degree programs are outlined within the department sections.

Students should pre-register each semester at the designated time using SOAR on the web. Specific directions are published in the Class Schedule Guide. By registering for classes, students are contracting to pay their tuition and fees. Students who pre-register must pay minimum payment (if applicable) by the due date or there will be an additional pre-registration fee of $100 added to their accounts. Classes will be dropped at a later date for nonpayment.

Registration will continue after the close of the scheduled registration period (see calendar) for five class days. A late registration fee will be charged to all students registering after the scheduled registration period. The fee is $50.

Add/Drop/Withdrawal
A student is permitted to drop a course without academic penalty up to the date published in the Class Schedule Guide. After the deadline, a student may drop a course only in the event of extenuating circumstances and with permission of the instructor, department chair, and dean of the college offering the course, at which time the student will receive a grade of “WP” or “WF.”

A student is permitted to add a course after the fifth class day with the permission of the instructor, department chair, and dean of the college offering the course. However, a student will not be allowed to add a course after the last day to drop without academic penalty as published in the Class Schedule Guide. Adding classes after the 100 percent refund period could result in additional tuition charges.

A student withdrawing from the university prior to the deadline for dropping classes will not receive any grades. His or her record will show the date of withdrawal only. A student withdrawing after the deadline for dropping courses will receive a grade of “WP” or “WF.”

Withdrawal Procedures
A student finding it necessary to withdraw from the university must begin the process with the dean of his or her college who shall complete the withdrawal and refund authorization form. A non-degree student must begin the process in the dean’s office of the college in which he or she is taking courses. The Web may not be utilized to withdraw.

Refund Policy
The withdrawal deadline for receipt of a grade has nothing to do with the refund schedule for fees. A student who officially withdraws after enrollment may obtain a refund in accordance with the refund policy. Upon notification to the registrar and business services offices, a review will be made on a case-by-case basis for withdrawals that did not follow official withdrawal policy.

Appeals for refunds due to extenuating circumstances may be made in writing to
The University of Southern Mississippi
Business Services
118 College Drive #5133
Hattiesburg, MS 39406-0001

Course Work
Courses open to graduate students for graduate credit are those numbered 500 or above. All graduate course work, including 500-level courses, shall have a research component that is included in the final grade.

Many courses have certain prerequisites. A student who wishes to register for a particular course must satisfy the department concerned that he or she has had preparation adequate for admission to the course.
The general regulation that degree work must be completed within a six-year period applies to all course work. A grade-point average of “B” or better must be maintained to be in good standing. Students whose grade point average falls below a 3.0 will be placed on probation (see Probation section of the Bulletin). The use of the pass/fail option at the graduate level for any course must be approved by the Graduate Council. On the recommendation of the student’s committee or major professor, a student may retake one graduate level course in order to improve his/her grade point average.

**Academic Honesty**

When cheating is discovered, the faculty member may give the student an “F” on the work involved or in the course. If further disciplinary action is deemed appropriate, the student should be reported to the dean of students.

In addition to being a violation of academic honesty, cheating violates the Code of Student Conduct, as published in the Student Handbook and may be grounds for probation, suspension, and/or expulsion.

Students on disciplinary suspension may not enroll in any courses offered by The University of Southern Mississippi.

**Plagiarism***

Plagiarism is scholarly theft, and it is defined as the unacknowledged use of others’ work. More specifically, any written or oral presentation in which the writer or speaker does not distinguish clearly between original and borrowed material constitutes plagiarism.

Because students, as scholars, must make frequent use of the concepts and facts developed by other scholars, plagiarism is not the mere use of another’s facts and ideas. However, it is plagiarism when students present the work of other scholars as if it were their own work.

Plagiarism is committed in a number of ways:

1. Reproducing another author’s writing as if it were one’s own.
2. Paraphrasing another author’s work without citing the original.
3. Borrowing from another author’s ideas, even though those ideas are reworded, without giving credit.
4. Copying another author’s organization without giving credit.

Plagiarism is a serious offense. An act of plagiarism may lead to a failing grade on the paper and in the course, as well as sanctions that may be imposed by the student judicial system.

*Taken from Student Handbook

**Final Examinations**

Examinations will be held as published in the Class Schedule Guide. No final examinations are permitted prior to the scheduled examination period (see calendar). A student who is absent from the final examination without valid reason approved by the Office of the Provost forfeits credit for the semester.

**Course Loads**

I. Although the maximum load of a full-time graduate student for the fall and spring semesters is sixteen (16) semester hours with permission of the Office of Graduate Studies, the normal load for a full-time graduate student is generally considered to be twelve (12) semester hours.

II. The minimum load for a full-time graduate student is nine (9) semester hours for students living in Pine Haven, using the services of the clinic, using the services of veteran’s affairs, or using other similar services of the university (spring and/or fall).

III. The minimum load for a graduate assistant teaching one undergraduate class or its equivalent is twelve (12) hours. The student should receive a tuition waiver in the fall or spring semester. The maximum load for a graduate assistant is thirteen (13) hours.
IV. In no case may the total hours involved in a student’s program, including both the course work and the assistantship assignment, exceed eighteen (18) hours.

V. The maximum load for any graduate student in the summer session is twelve (12) hours. In the summer term, the minimum load for a student who receives a tuition waiver is nine (9) hours.

VI. The courses numbered 697 and 797—Independent Study and Research—may be taken for any amount of credit (up to a maximum of sixteen (16) hours in any one semester). Students who are not in residence but who are actively working on a thesis, research problem, or dissertation, and consulting with the major professor or making use of the library or other University facilities must enroll for at least one (1) hour each semester (see Continuous Enrollment sections).

VII. Students enrolling only for 698, 798, or 898 or courses entitled “Internship,” should enroll for a minimum of three hours, or PSY796 for a minimum of four hours.

VIII. Students enrolling only for 691, 791, or 891 (or other courses titled “Research in...”) should enroll for a minimum of three hours.

Grading System

A — indicates excellent work and carries 4.0 quality points per semester hour.
A- — indicates excellent work and carries 3.7 quality points per semester hour.
B+ — indicates good work and carries 3.3 quality points per semester hour.
B — indicates good work and carries 3.0 quality points per semester hour.
B- — indicates good work and carries 2.7 quality points per semester hour.
C+ — indicates average work and carries 2.3 quality points per semester hour.
C — indicates average work and carries 2.0 quality points per semester hour.
C- — indicates average work and carries 1.7 quality points per semester hour.
D+ — indicates inferior work and carries 1.3 quality points per semester hour.
D — indicates inferior work and carries 1.0 quality point per semester hour.
E — indicates a course in progress. Not included in the grade point average, a grade of E shall be awarded for graduate thesis, recital and dissertation courses and for such self-paced or skill courses as the Graduate Council may designate. An E shall be changed to a P only in the case of credit for thesis and dissertation and then only for the last recorded credit for these courses. Otherwise, the E remains on the record indicating that to receive credit the student must re-register for the course, repeating it on a regular basis until completing it. Upon completion, the appropriate grade, whether P or valuative, shall be assigned.
F — indicates failure and carries no quality points.
I — indicates that a student was unable to complete course requirements by the end of the term because of extraordinary circumstances beyond his or her control. Poor performance or unexplained absences are not justification for the assignment of an I. If an I has not been removed by the end of the next semester (excluding summer term), it automatically becomes an F. Students are prohibited from enrolling in any course for which the current grade is I.

AW—indicates administrative withdrawal.
WP—indicates withdrawal from a course passing after the deadline for dropping courses.
WF—indicates withdrawal from a course failing after the deadline for dropping courses. (This grade is computed in the GPA as F.)
P — indicates a passing grade in courses taken on a pass-fail basis (does not count in computing GPA).

Probation

A student whose cumulative graduate grade point average (GPA) or whose program grade point average falls below 3.0 will be placed on probation. That student must attain a cumulative 3.0 GPA by the end of the following (probationary) semester including summer, if the student is enrolled summer term. A student who fails to achieve a 3.0 at the end of the probationary semester can be reclassified as a discontinued student. Departments may set more stringent probationary conditions. A new application is required for consideration to reenter the program.

Students may request an appeal of reclassification by writing to the dean of their college and requesting an appeals hearing.
Grade Review Policy

The instructor (defined as one who has the responsibility for a class, special problem, thesis, or dissertation) has the authority in his or her class over all matters affecting the conduct of the class, including the assignment of grades. Student performance should be evaluated according to academic criteria made available to all students within the first two weeks of each semester. Grades should not be determined in an arbitrary or capricious manner.

When a student disagrees with the final grade given by an instructor, fair play requires the opportunity for an orderly appellate procedure. A student must initiate the appeal procedure within 30 school days (excluding Saturday, Sunday, and official student holidays) of the beginning of the semester subsequent to the one in which the grade was awarded, or 120 calendar days after the issuance of Spring semester grades, should the student not be enrolled during the summer term. The procedure assures due process for both the instructor and student. For policies and procedures governing grade review, contact the Office of the Provost.

Administrative Withdrawal

A university transcript is a legal document that provides a true and accurate account of academic performance. Any alteration of the history of academic performance as reported by a university transcript should be done only if there is an obvious rationale for doing so.

On rare occasions, academic performance is severely affected by some emotional or personal disaster beyond the control of the student. If a timely withdrawal was impossible or overlooked, a procedure known as administrative withdrawal may offer a remedy.

A student who wishes to petition for an administrative withdrawal should be aware of the following criteria in considering the request:

a. The student’s academic record under review indicates a clear and consistent pattern of good academic performance prior to and subsequent to the semester in question if he or she is currently enrolled.
b. The problem encountered by the student was debilitating and beyond his or her control.
c. The student is able to document the nature and extent of the problem

The following guidelines pertain to a petition for administrative withdrawal:

a. A petition for administrative withdrawal will be considered only if it is filed prior to graduation.
b. Relief by administrative withdrawal will be limited to one semester.
c. The grade of administrative withdrawal (“AW”) will be assigned to all courses taken during the semester in question.
d. Administrative withdrawal must be approved by the dean of the college in which the student was enrolled during the semester in question and by the provost. A student may request administrative withdrawal only once during his or her academic career, and that request must be limited to one particular semester.

A petition for administrative withdrawal must contain the following:

a. A concise but thorough statement of the circumstances responsible for the poor academic performance:
b. Evidence (e.g., a medical diagnosis) supporting claims made in the statement; and
  c. A complete set of official transcripts exhibiting all college-level course work.

Petitions for administrative withdrawal will be acted on within five working days after receipt by the dean of the college.

Transcripts

An official transcript is the reproduction of a complete, unabridged permanent academic record validated with the university seal, facsimile signature of the registrar, and date of issue. A Key to Transcript is included, which contains a full statement of pertinent definitions. Currently enrolled as well as former undergraduate and graduate students may obtain an official transcript by writing The University of Southern Mississippi, Office of the University Registrar, 118 College Drive #5006, Hattiesburg, Mississippi 39406-0001. Transcripts are not released when there is an indebtedness to the university.
Research Policies

The Use of Human Subjects in Research
(Institutional Review Board)

The University of Southern Mississippi and the U.S. Department of Health and Human Services have established standards and guidelines to protect individuals from risks associated with participation as subjects in research studies. The university’s Institutional Review Board (IRB) is responsible for ensuring that adequate safeguards are in place to minimize the risk to individuals involved in such studies. The IRB, through an appointed chairperson, reports directly to the vice president for research and economic development. The IRB acts as a monitor to ensure that the university’s research using people as participants is in compliance with the U.S. DHHS policies and other procedures.

All investigations, experiments, surveys, or demonstrations involving human subjects, regardless of funding or the source of the funds, must be reviewed and approved by the Institutional Review Board before the activity is begun. This includes activities in which a faculty member is supervising research activities, including class projects, master’s theses, specialist’s theses and projects, and doctoral dissertations.

Application forms for submission of protocols for review by the Institutional Review Board are available from each college’s representative and in the Office of Graduate Studies. Prior to submitting the required copies of an application for approval by the IRB, students should do the following: (1) have the application approved by their thesis, project, or dissertation director or professor teaching a course, (2) secure the appropriate signatures, and (3) have the application reviewed by their college representative to the Institutional Review Board (IRB).

The signed and approved IRB application forms and approval letter should be included in an appendix of the thesis, project, and/or dissertation. The names of the college representatives to the IRB may be obtained from the college dean’s office and the Office of Graduate Studies.

Institutional Animal Care and Use Committee

The Institutional Animal Care and Use Committee (IACUC) is a standing committee of the university. The IACUC is qualified through the experience and expertise of its members to oversee the university’s animal program, facilities, and procedures. The IACUC consists of eight members (six regular and two ex officio) and its membership meets the compositional requirements set forth in the Public Health Service Policy. The IACUC, through an appointed chairperson, reports directly to the vice president for research. The IACUC acts as a monitor to ensure the university’s facilities are operated in compliance with the Public Health Service Policy and other federal policies.

Federal law requires that any university activity (whether research or instructional in nature) involving the use of vertebrate animals be reviewed by the IACUC and approved by that body before the activity may proceed. The original completed form, signed by the project director (a faculty member, not a student), the appropriate departmental chair and dean, and nine (9) copies should be forwarded to the chair of the IACUC for processing. Review of applications requires approximately two to six weeks. The approved IACUC protocol application form should be included in an appendix of the thesis, project, and/or dissertation. IACUC review applications may be obtained from the IACUC Chairperson (presently Dr. John G. McCoy), Department of Psychology, 118 College Drive # 5025, Hattiesburg, MS 39406-0001, (601) 266-4617.
Student Expenses and Financial Aid

The University of Southern Mississippi is supported chiefly by legislative appropriations. Increases in student fees are put into effect only when public support funds are inadequate and no other recourse is available. Increases are made only for support of the institution or improvement of the activity program of the students; therefore, the university must reserve the right to increase or modify fees and expenses without prior notice but with approval of the Board of Trustees of State Institutions of Higher Learning.

Fees and expenses are in the form of general tuition, room and board, and special fees.

General Tuition

This fee, together with the allocation from the legislative appropriation, is used for general support of the university. Athletic activities and UAC programs are not included for part-time students.

Full-time students for purposes of assessing fees are those who take nine (9) or more semester hours during fall and spring semesters and seven (7) semester hours during summer term. Graduate students enrolled for more than thirteen (13) semester hours during fall and spring semesters and for more than twelve (12) semester hours during the summer term will be assessed the applicable fee for each additional semester hour.

Clinical and hospital services covered by the health service charge included in the general tuition fee are limited to cases of ordinary illness. Services are provided within the limits of the professional, technical, and physical resources of the clinic. The university does not assume responsibility in cases of extended illness or for treatment of chronic diseases. Cases requiring surgery must be handled by a physician and hospital of the student’s choice and at the student’s expense.

Board

Board fees are assessed to all students living in the residence halls and fraternity houses. Board is available to all other students on an optional basis. Students may choose from a basic seven-day or five-day meal plan. Students with a basic meal plan may dine at the Commons, Elam Arms, Hillcrest, and occasionally at Seymour’s.

Telephone Service

Telephone service in residence halls and family student housing is provided through iTech. The cost of local telephone service is included as a part of housing rent. To access the campus long distance service, students are issued a personal long distance code, which may be obtained at iTech in the Hub, Room 104. Long distance calls are billed to the student at the end of each month, to be paid no later than the 15th of the following month. If the previous month’s charges are not paid by the 15th, service will be suspended until payment is made. Accounts over 60 days past due will be sent to the Business Office for collection. After that time, the account will be administered on a prepay status. Students are responsible for payment for any calls charged to their long distance access codes. All charges must be settled before the student leaves the university for a semester break or upon graduation or withdrawal.

iTech offers a wide range of other services, such as automatic callback, wake-up calls, voice mail, three-way calling, hold, call transfer, call waiting, Internet service, and fax service. These services are available at additional charges in the Hub, Room 104.
Post Office Box

The post office box rental fee is assessed to all students living in university-controlled housing. Fees are assessed on an academic year basis and are calculated on time remaining in the academic year. The fee covers box rental for the remainder of the academic year provided the student remains enrolled. Those students living off campus may rent a post office box if they so desire.

Student ID Cards

The ID card is a PERMANENT card for each student. The same card must be kept and used even when returning from a previous year or semester. Do not destroy, lose, bend or tamper with an ID card. Only one card will be issued at no charge during a five (5)-year period. A fee of $10 will be charged at the time a replacement card is made.

Department of Residence Life

The Department of Residence Life feels very strongly that the educational benefits for residence hall students extend far beyond the classroom experience. Every effort is made to offer on-campus students the opportunity to take part in cultural, scholastic, athletic, and social programs developed by the residence hall staff. In addition, residence hall students experience cross-cultural living experiences which help promote open-mindedness, tolerance, and leadership—a philosophical goal of Residence Life.

All residence halls are fully air conditioned with the capacity of offering diversified housing options to an on-campus population of 3,488 students. Each room in McCarty Men and McCarty Women has its own bathroom. Hillcrest and Mississippi for women, and Elam, Hattiesburg, and Vann for men are arranged in suite fashion with 4-6 students sharing a bath. Bolton, Jones, Pulley, Roberts, Scott, and Wilber (Panhellenic) for women, and Bond for men are arranged with baths conveniently located on each floor.

Application for campus housing should be made at the time of application to the university. The priority deadline for residence hall space is February 1. Applications, prepayment and signed rental agreements received after February 1 will be processed based on space availability. Assignment of a student to a residence hall is contingent upon receiving prepayment and a signed rental agreement at the time of application to housing. Although preferences are honored when possible, the application is for accommodation in a residence hall and not for a specific roommate or specific hall. Upperclass assignments are made based on date of application. Freshmen are assigned randomly into freshman residence halls. Students signing a rental agreement are obligated to both fall and spring semesters. Cancellation of the rental agreement can be made in cases of marriage, graduation, withdrawal, co-oping, student teaching, or interning. Notification of cancellation must be made in writing by the designated deadlines. Cancellations received after the deadlines will result in forfeiture of the entire prepayment amount. Students who have not cancelled by their designated deadline and are planning to enroll at the university with paid prepayment and signed contracts will be held to the terms and conditions of the academic year residence hall rental agreement.

Applications for campus housing should be mailed to
The University of Southern Mississippi
Department of Residence Life
118 College Drive #5064
Hattiesburg, MS 39406-0001

The Department of Residence Life accepts applications for housing assignments regardless of age, race, creed, color, or national origin. In compliance with the Civil Rights Act of 1964 and University policy, housing assignments will not be made on a segregated basis.

Family Housing

Pine Haven Apartments, consisting of two hundred ninety-six (296) one-, two- and three-bedroom unfurnished units, are available for married students and single and married students with custody of children. Additionally, one apartment building is designated for single graduate students. Apartment priority is based on the date of application and/or occupancy.

The rent is due and payable at registration. Students oblige themselves to the full fee for each semester’s rent when they move in, unless they withdraw from the university. A deposit of $75 is required at the time of application. Refund of rent due to withdrawal from the university is on a prorated basis plus $100. Cancellation of the rental agreement must be made forty-five (45) days prior
to the semester of cancellation. Notification of cancellation after the deadline obligates students to payment of rent for the following semester if enrolled, or forfeiture of deposit if not enrolled. Applications and brochures may be secured at the Pine Haven Office or by writing the Department of Residence Life.

**Dining Services**

The Department of Dining Services serves tasty and nutritious meals seven days a week during all school terms. Choices include: two entrees, assorted vegetables and desserts, and self-service salad and drink bars. In addition, a lite line, a deli line, and a variety line are offered in the University Commons. Dining services are also available in Hilkrest and Elam Arms. Students on a 5-day or 7-day basic meal plan may choose where to dine on a meal-to-meal basis.

All students living in a residence hall or a fraternity house are required to purchase a 5-day or a 7-day basic meal plan.

A snack plan may be added to a basic meal plan. It may be used at Seymour’s, Columbo Yogurt and Java Coast Coffees, PlazaToo, Seymour’s Atrium Cafe, and A Stone’s Throw. The snack plan may also be used to supplement a 5-day basic plan and allows for occasional weekend meals in the Commons.

Seymour’s, Columbo Yogurt and Java Coast Coffees, PlazaToo, and Seymour’s Atrium Cafe offer a variety of snacks, short orders, and beverages. Purchases at these establishments are a la carte.

A commuter plan is available for off-campus students. This plan operates much like a checking account. Each time a purchase is made, the amount of the purchase is deducted from the balance. With a commuter plan, meals at the Commons, Elam Arms, and Hilkrest are purchased at a discounted price. The commuter plan may be used in all the dining facilities on campus.

All meal plans may be purchased during registration or at the Dining Services Office located in the Commons.

**Meal Ticket Exemptions**

Meal ticket exemptions are allowed only for those students with modified diets which cannot be prepared by the university Dining Services and for those students with internships which conflict with cafeteria serving hours. Those students who may qualify for an exemption should make arrangements for an evaluation prior to registration. However, those not arranging for an evaluation prior to registration should go to the Dining Services Office in the University Commons after registering for classes. Those students who have not completed the requirements for a meal ticket exemption prior to registration will be charged for a meal ticket during the registration process. As a result of the extensive serving hours in the University Commons, work-related exemptions will not be permitted.

**Medical Exemptions**

Those students with a medical problem requiring a modified diet who feel their needs cannot be met by the University Dining Services should make arrangements to have their diet evaluated by the registered dietitian before registration. Documentation required for this evaluation includes a prescription signed by a physician which specifies the student’s modified diet and a copy of the modified diet. The University Commons offers a special diet program or Weight Watchers. The line caters to Weight Watchers as well as to those students with medical problems which require special diets.

**Academic Related Exemptions**

**Requirements:**

A student must miss a minimum of 50 percent of meals served per week. The meals missed must be due to an internship.

**Documentation Required:**

1. A statement, on letterhead stationery, signed by the student’s adviser, giving the student’s hours, on a daily basis, Monday through Friday.
2. A copy of the student’s advisement and registration appointment form which shows the student’s class schedule.

**Work-Related Exemptions**

University policy does not allow for meal ticket exemptions for students holding part-time or full-time employment.
Other Financial Information

Payment of Fees

One-half of a student’s total fees are due and payable at time of registration. Students with university loans, grants, or scholarships may use those funds as payment for the first half of total fees. Loans, grants, scholarships and checks made payable to the university must be applied to fees in full before a refund or change can be given. These loans, grants, and scholarships may not be used to pay prior semester outstanding balances. Fees deferred past the last day to register each term will be billed monthly. A monthly service charge of 1.5 percent will be applied to the unpaid balance. Students who pre-register must pay minimum payment (if applicable) by the due date or there will be an additional pre-registration fee of $100 added to their accounts. Classes will be dropped at a later date for nonpayment.

The university accepts payment by check, money order, cash, and all major credit cards. The university reserves the right to refuse payment by check where an individual has previously given a check that has been returned. The university reserves the right to withhold readmission of a student until all delinquent accounts have been paid. In fact, all past due accounts will be included on registration fee invoices and monthly bills. Transcripts of credits will not be released for students whose accounts are delinquent. All fees must be paid before a degree will be awarded. Payments by personal check on delinquent accounts will be sent for collection before transcripts or degrees will be released. To avoid any delay in receiving these documents, payments can be made by cash, cashier’s check, or money order.

Fines accumulated as a result of failure to adhere to the established procedures of the university, such as library and public safety regulations, or any other policy establishing regulations for the protection of university property, shall become collectable by the Business Office, and, if not collected, shall constitute a delinquent account.

Late Registration

A fee of $50 will be assessed students who register during the late registration period.

Students whose checks for registration fees are returned will be assessed the late registration fee of $50 in addition to the $30 returned check handling fee. Returned checks not promptly paid may result in dismissal from the university.

Courses requiring special fees and music fees are shown in the Special Fee listing and are indicated by a plus sign in the Course Description Section of the Bulletin.

Financial Assistance for Graduate Students

At present, the university has available about 500 university assistantships in all areas as well as fellowships provided by federal and private agencies. Amounts of assistantships vary from department to department. Contact the specific department for information regarding stipend levels available. Assistantships entail one half time of teaching or research assignment. To maintain an assistantship a student must have an average of "B" or better each semester. General tuition and the non-resident fee are waived for graduate assistantship holders. To qualify for this waiver, students on assistantships must be registered for courses totaling twelve (12) hours each semester (nine hours during Summer term). Courses taken as audit do not count toward these hours. The university also currently waives out-of-state tuition for students on sabbatical leave with pay from schools and colleges.

Inquiries regarding assistantships should be directed to the chair of the department to which the student is applying. Applications for assistantships must be filed by the department’s deadline. Check with the department chair for the deadline.

The Perkins Loan Program (formerly NDSL) and the Federal Work-Study Program are also available to graduate students. Applicants for Perkins Loans and Federal Work-Study Program should apply by March 15 (priority date) for loans and work to begin the fall term. Applications for the Perkins Loan Program, and the Federal Work-Study Program may be secured by writing the Office of Financial Aid.

Students receiving financial aid must complete a minimum number of credits each semester or term. Graduate students must attempt at least four (4) graduate hours each semester in order to receive financial aid. Graduate students enrolled during a summer term must attempt at least three (3) graduate hours. Passing grades include A, A-, B+, B, B-, C+, C, C-, D+, D, E, and P. Grades of I, F, Audit, and W will not be accepted as passing grades. Students failing to meet this quantitative measure of academic progress after the summer and fall semester will receive a warning letter. Students failing to complete the minimum number of hours after the spring semester will be placed on financial aid suspension and will be ineligible for federal financial assistance.
Graduate students will be deemed in good standing and eligible to receive federal financial assistance until they have attempted twice the number of hours normally required to complete their program of study leading to a master’s or doctoral degree. Attempted hours will include all courses on the academic transcript including grades of A, A-, B+, B, B-, C+, C, C-, D+, D, E, F, P, W, and I.

Graduate students pursuing an additional master’s degree will be limited to a maximum of 120 graduate hours. This total includes all graduate hours accumulated. Once a student earns a specialist’s degree, he or she will be eligible for additional financial assistance only at the doctoral level; once a student earns a doctoral degree, he or she will be ineligible for additional federal financial assistance.

Other Fees When Applicable
Non-Resident Fee (This fee is in addition to the tuition fee above)                      | $2,439
Post office box rental fees are non-refundable and are assessed as follows:
- Rented beginning fall semester                               | $50
- Rented beginning spring semester                             | $30
- Rented beginning summer semester                             | $10

Optional at same rates to students living off campus.

PART-TIME STUDENTS—Each semester hour
General Tuition—graduate student                                      | $216
Non-resident fee (In addition to general tuition):                     | $271
Graduate student                                                      | $271

General tuition, room, board, and post office, if applicable, are payable each semester/session.

Special Fees and Expenses

Departmental Fees:
- ART551-653, 661-663, 671-673, 751-753, 761-763, 771-773, 799 $60 per course
- ART570, THE603, 661 $50 per course
- THE561, 533 $20 per course
- THE534 $15 per course
- THE626, 635 $10 per course
Student Expenses and Financial Aid

Education and Psychology
- BTE 561, 563, 565, 567; IT567, 569, 636, 644, 645, 648, 655, 666; TOE 544, 565, 567, 569; PSY 614: $15 per course
- PSY 652, 762, 786, 835: $40 per course

Human Performance and Recreation
- HPR 602, 701L, 805L: $25 per course

Library and Information Science
- LIS 501, 508, 511, 517, 518, 525, 533, 545, 591, 605, 631, 634, 636, 638, 640-642, 646, 647, 649, 653-656, 664, 666, 668, 670, 675: $20 per course
- LIS 505, 506, 516, 540, 557, 558, 560, 580, 585, 586, 588, 589: $50 per course

NOTE: When above courses are offered online, there is an additional $30 fee.

Science and Technology
- Labs as well as the following courses are subject to a usage fee:
  - EET 561, 603; CET620, 687; SCE 532;
  - SET 530, 531, 532, 533, 553, 555, 583, 585, 586, 588, 589;
  - SME 532, 561, 595: $30 usage fee

Student Malpractice Liability Insurance Fee
- Courses requiring students to deal with human subjects require students to be covered by malpractice liability insurance. An user fee of $10 per applicable course is assessed to cover the cost of this insurance. As with other courses requiring special fees, a + sign by the course number listed in the course description section of the Undergraduate and Graduate Bulletins identifies courses subject to this charge: $10 usage fee

Music Fees
- Private lessons for music majors: $10 per semester hour
- Private lessons for other than full-time music majors and for music majors taking private lessons not required for the degree being pursued: $35 per semester hour
- Orchestral or band instrument rental: $15 per semester
- Locker rental: $5 per semester

Reading Center, Individual Remedial Instructions
- Special Students (noncredit): $40 per semester
- Complete Reading Diagnosis: $50 with written report
- Re-evaluation: $5

Examinations and Graduation
- Revalidation Examination: $30 per course for graduate

Registration and Records
- Cooperative Education Program: $25 when applicable
- Late Registration: $50
- Evaluation Fee for Foreign Students (Nonrefundable): $25 with application
- ID Replacement: $10

Doctoral Fee
- (includes dissertation binding fee for three university copies): $225
Master’s and Specialist’s Fees
- Thesis (includes thesis binding fee for three university copies) ... $100
- Non-Thesis ........................................... $50

Deferred Graduation Fee ........................................... $50
(graduate students who request their application for graduation be moved to the next semester)

Continuing Education and Off-Campus Centers

Off-Campus Centers
- Graduate Course ................................. $216 per semester hour

Extension (Additional fees may be assessed)
- Graduate Course ................................. $216 per semester hour
- Mandatory 1st Class Mailing Fee ........ $15

Special fees are not normally refundable. However, requests for refunds of special fees will be based on circumstances existing at the times of requests.

Refund Policy

Students who find it necessary to withdraw from the university must submit written requests to the deans, who will initiate the Withdrawal and Refund Form.

Refunds are based on the following (applies to withdrawals and dropped classes):

Withdrawal prior to the first day of classes of any term ........ 100 percent less a $30 withdrawal fee

Fall and Spring Semesters
- The first through the 10th working day ........ 100 percent less a $30 withdrawal fee
- After the 10th working day ......................... None

8W1 and 8W2 Fall and Spring Semesters
- The first through the fifth working day ........ 100 percent less a $30 withdrawal fee
- After the fifth working day ......................... None

Summer Term
- The first through the 10th working day ........ 100 percent less a $30 withdrawal fee
- After the 10th working day ......................... None

8W1 and 8W2 Summer Term
- The first through the fifth working day ........ 100 percent less a $30 withdrawal fee
- After the fifth working day ......................... None

These schedule dates are posted in the Business Office.

Refunds are based on the assessment, not upon the amount paid by the student.

Appeals for refunds due to extenuating circumstances may be made in writing to The University of Southern Mississippi, Business Services, 118 College Drive #5133, Hattiesburg, MS 39406-0001. Appeals must be received prior to the end of the academic year.

Refunds/returns of Title IV funds for students who participate in SFA (Student Financial Assistance) programs are calculated based on federal regulations. The processing steps for determining refunds/returns are available in Business Services, Forrest County Hall, Room 101.
Residency Regulations

Petitions for Change of Residence: Petitions for change of residency must be made on or before the last day of late registration. Forms are available in the Office of the University Registrar.

Legal Residence of Students: The definitions and conditions stated here are as required by state law in the classification of students as residents or nonresidents for the assessment of fees. Requests for a review of residency classification should be submitted to the university registrar; forms for this purpose are available from the Office of the University Registrar.

A Minor: The residence of a person less than 21 years of age is that of the father. After the death of the father, the residence of the minor is that of the mother. If the parents are divorced, the residence of the minor is that of the parent who was granted custody by the court; or, if custody was not granted, the residence continues to be that of the father. If both parents are dead, the residence of the minor is that of the last surviving parent at the time of that parent’s death, unless the minor lives with a legal guardian of his or her person duly appointed by a proper court of Mississippi, in which case his or her residence becomes that of the guardian.

An Adult: The residence of an adult is that place where he or she is domiciled; that is, the place where he or she actually physically resides with the intention of remaining there indefinitely or of returning there permanently when temporarily absent. Adult students who are residing outside of the state of Mississippi, but whose parents have moved to this state and have become residents, must establish residence in their own right. In determining residence for tuition purposes of persons who return to Mississippi after temporary departures such as school attendance, work elsewhere, or military service, cognizance is taken for evidence showing continuity of state residence and demonstrated intent to return to the state.

Removal of Parents from Mississippi: If the parents of a minor who is enrolled as a student in an institution of higher learning move their legal residence from the state of Mississippi, the minor is immediately classified as a nonresident student.

Required 12 Months of Residence: No student may be admitted to the university as a resident of Mississippi unless his/her residence, as defined herein above, has been in the state of Mississippi for a continuous period of at least 12 months immediately preceding his or her admission.

A student who has lived within the state for 12 months following his or her 21st birthday may establish residence in his or her own right by showing that he or she is living in the state with the intention of abandoning his or her former domicile and remaining in the state of Mississippi permanently or for an indefinite length of time. Intent may be demonstrated or disproved by factors including, but not limited to, filing of Mississippi income tax returns, eligibility to vote in Mississippi, motor vehicle registration in Mississippi, possession of a Mississippi operator’s license, place of employment, and self support.

Residence Status of a Married Person: A married person may claim the residence of his or her spouse. (Foreign students refer to Legal Residence of a Foreign Student.)

Children of Parents Who Are Employed by the University: Children of parents who are members of the faculty or staff of the university may be classified as residents without regard to the residence requirement of 12 months.

Military Personnel Assigned on Active Duty Stationed in Mississippi: Members of the armed forces on extended active duty and stationed within the state of Mississippi may be classified as residents, without regard to the residence requirement of 12 months, for the purpose of attendance at the university. Resident status of such military personnel who are not legal residents of Mississippi, as defined above under legal residence of an adult, shall terminate upon their reassignment for duty in the continental United States outside the state of Mississippi.

Children of Military Personnel: Resident status of children of members of the armed forces on extended active duty shall be that of the military parent for the purpose of attending the university during the time that their military parents are stationed within the state of Mississippi and shall be continued through the time that military parents are stationed in an overseas area with last duty assignment within the state of Mississippi, excepting temporary training assignments en route from Mississippi. Resident status of minor children shall terminate upon reassignment under permanent change of station orders of their military parents for duty in the continental United States outside the state of Mississippi, excepting temporary training assignments en route from Mississippi.

Certification of Residence of Military Personnel: An active duty stationed military member who wishes to be classified as a resident must submit a certificate from his or her military organization showing the name of the military member, the name of the dependent (if for a
dependent) the name of the organization of assignment and its address (may be in the letterhead), that the military member will be on active duty stationed in Mississippi on the date of registration at the university; that the military member is not on transfer orders; and the signature of the commanding officer, the adjutant, or the personnel officer of the unit of assignment with signer’s rank and title. A military certificate must be presented to the registrar of the university each semester at (or within 10 days prior to) registration for the provisions of the paragraph “Military Personnel Assigned on Active Duty Stationed in Mississippi”, named above, to be effective.

**Legal Residence of a Foreign Student:** Students with permanent immigrant status or refugee status can establish residence in the state by meeting the provisions of the Mississippi Statute.
University Facilities and Student Services

Automobiles on Campus

The university requires the purchase of parking permits for student, employee, and contractor/vendor vehicles on campus. Hang tags, decals, and temporary permits (for vehicles on campus for less than 14 days) are available at the University Transportation Department in the Industrial Arts Building, (601) 266-5447. The department offers a brochure detailing parking zones and other traffic regulations. Penalties are assessed for regulation violations.

Career Services

Career Services, located on the first floor of McLeod Hall, offers the student three types of employment assistance while attending the university: part-time employment, cooperative education employment, and career employment upon graduation.

The Student Employment Division offers the student an opportunity to obtain part-time employment while enrolled as a regular student at Southern Miss. The service is comprehensive in that it will involve jobs for work-study as well as non-work-study, both on and off campus.

The Cooperative Education Program affords the student the opportunity to gain a complete education with periods of work related to the student’s major. The Cooperative Education Office assists in finding meaningful jobs that will give the student practical work experience and financial support to aid in his or her education. The basic qualifications for the graduate co-op programs are as follows:

1. admission to a graduate program;
2. the maintenance of at least a 3.00 overall GPA; and
3. the student must attend Southern Miss at least one semester prior to placement.

Students are eligible to enter the program at any time during their career at Southern Miss after the first semester. Salaries of co-op students vary depending on the type of degree they are pursuing and the amount of co-op experience they have. The Office of Cooperative Education will determine the eligibility of the student to participate in the program. Once an active participant, each student’s record of performance will be periodically reviewed, and a student may be placed on probation or removed from the program if not meeting minimum requirements.

The Career Center in McLeod Hall, Room 112, is Southern Miss’ professionally staffed resource center specializing in career and job search advising. A variety of services to assist students in pursuing a career include individual counseling appointments; on-campus interviews; the Career Resource Center; credential services; job search consultations; employment listings on the Career Services Web site (www.usm.edu/cs), and resume referrals to job openings. Students are encouraged to register with this office at least three semesters prior to their anticipated graduation date. Services are available for all Southern Miss students and alumni. Comprehensive information describing services is located on the Career Services Web site.

Health Services

The Southern Miss Student Health Services (clinic) can provide the students, faculty, and staff with the same services available at a family doctor’s office. The Student Health Services provides a wide range of services, including laboratory testing, x-ray, pharmacy, dietary counseling and educational services. The Student Health Services is staffed by several competent physicians and nurse practitioners. The Student Health Services is located on the west side of Kennard-Washington Hall. During the fall and spring semesters, the Student Health Services hours are 8 a.m. to 5 p.m., Monday through Thursday and 8:00 a.m. - 4:30 p.m. on Friday.

The Southern Miss Student Health Services is accredited by the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC) and is a member of the American College Health Association. For more information, please call (601) 266-5390, or visit our Web site at www.usm.edu/healthservices.

Office for Disability Accommodations (ODA)

In accordance with the Rehabilitation Act of 1973 and the Americans with Disabilities Act (1990), The University of Southern Mississippi provides reasonable accommodations for students with disabilities through the Office for Disability Accommodations (ODA). ODA verifies eligibility for accommodations and works with eligible students to develop and coordinate plans for the provision of accommodations. Eligible students include those who are enrolled in degree and nondegree programs offered by The University of Southern Mississippi, are considered qualified to meet all university program requirements despite a disability, and meet the definition of disability as defined by the Rehabilitation Act of 1973 and the ADA. To receive accommodations, students must self-identify with the ODA.

Accommodations available include test-taking accommodations, interpreters, note-takers, and readers. In order to receive appropriate and timely accommodations, eligible students should contact the ODA before the semester begins to file an application and submit documentation of the disability for review. The ODA is committed to creating a positive campus environment where students with disabilities are encouraged to pursue careers on the basis of personal interest and ability.

For an application and guidelines for documentation of disability, write The University of Southern Mississippi, Office for Disability Accommodations, 118 College Drive #8586, Hattiesburg, MS 39406-0001; call (601) 266-5024 or TTY (601) 266-6837; FAX (601) 266-6035; or visit www.ids.usm.edu/ODA.

R.C. Cook University Union

The center of student activities at The University of Southern Mississippi is the R.C. Cook University Union, which houses administrative offices, the student organization offices, Seymour’s, a recreational area, and meeting rooms. Students use the facilities of the University Union for recreational, social, religious, and organizational activities. The Union holds membership in the Association of College Unions—International.

Recreational Sports

For students, faculty and staff who wish to participate in leisure, fitness, or competitive programs, the Division of Recreational Sports offers “Something for Everyone.” Housed in the Payne Center, the division and its staff work to provide an opportunity for the campus to take advantage of a variety of recreational and fitness-related services which include personal fitness instruction, intramural sports, aquatics, fitness, employee wellness, sport clubs, and informal recreation activities. The Payne Center is one of the few multi-purpose facilities in the nation integrating the concepts of fitness and recreational sports. It offers accessibility to the disabled and contains many indoor recreational facilities. These include four basketball/volleyball courts, six badminton courts, four championship racquetball courts, an international-size squash court, a six-lane indoor pool (M.C. Johnson Natatorium), a 1/4-mile indoor exercise track, the Bruce & Virginia Wilgus Fitness Trail, outdoor volleyball courts, the Atrium Cafe, a sauna, a free weight and circuit training room, and a cardiovascular workout room. The Payne Center also has conference, meeting, seminar, and banquet facilities where students, faculty, staff, and alumni can attend wellness-related workshops and events. These facilities are also available for reservations for events sponsored by university organizations.
Recreational Sports also offers outdoor facilities such as the Lake Sehoy Park, the Rails-to-Trail Gateway at Southern Miss, and the Intramural and Sports Arena Fields. Outdoor activities and programs available include over 40 intramural sports events from flag football to putt-putt golf, and sport clubs such as shotokan karate, taekwondo, Table Tennis Club, martial arts, Budo Club, badminton, men’s soccer, Sports Officials Association, men’s rugby, and women’s rugby. Lake Sehoy offers picnic areas, boating, fishing, putt-putt golf, frisbee golf, and a pavilion and log cabin for retreats and other special events. The Sports Arena is located on campus and contains two high school regulation-size basketball courts. All indoor and outdoor facilities, activities, and programs are supervised by First Aid/CPRO-trained personnel to promote a safe recreational environment for participants. The Fitness Assessment Center and Fitness Counseling staff also provide services which include fitness assessment, and exercise prescription for the university community at a nominal fee. For more information regarding Recreational Sports programs and services, please call (601) 266-5405.

University Counseling Center

The University Counseling Center provides individual, group and couples counseling for students, faculty, and staff. The general goal of the center is to provide growth experiences that enhance individuals functioning and improve their ability to communicate in interpersonal relationships. The counselors assist members of the university community in developing their full potential and in coping with various life stressors. Individuals seek our services for a wide variety of reasons, including depression, anxiety, relationship concerns, low self-esteem, substance use/abuse, sexual orientation concerns, difficulties coping with past or recent trauma, eating behaviors, and difficulties adjusting to university life. All counseling services are provided at no charge. Contacts with counselors at the center are confidential.

The center’s current professional staff consists of two doctoral psychologists, three master’s-level counselors, and one predoctoral psychology intern.

Services provided by the center to the larger university community include outreach and consultation. These services often include providing education and prevention programs to student groups, academic departments, and other campus organizations, serving on panel discussions, and advising student groups.

Other programs administered by the Counseling Center include the Program of Assistance, Counseling, Education, and Resources for Students (P.A.C.E.R.S.), the Eating Disorders Treatment Team, the Faculty Staff Assistance Program, and the Southern Mississippi Psychology Internship Consortium (a predoctoral internship program accredited by the American Psychological Association). A Counseling Center staff member teaches Alcohol Reduction and Social Issues.

The University Counseling Center is located in 200 Kennard-Washington Hall. To find out more about any services provided by the center or to arrange for counseling, call (601) 266-4829, 8 a.m. - noon and 1 p.m. - 5 p.m., Monday-Friday. Students may walk in for assessments Monday-Friday from 8:30 a.m. - 10 a.m. and from 1:30 p.m. - 3 p.m (1:30 p.m. - 2 p.m. on Fridays). The center also provides after-hours emergency services for the University community. To use these services, individuals can call 911, ask for Southern Miss campus police, who will page the on call counselor. You can also access our Web site at www.usm.edu/counseling.

University Testing Center

The Counseling Center is also responsible for the administration of the University Testing Center. The Testing Center is located in 213 Walker Science Building and is responsible for coordinating the following paper pencil-based standardized tests: the ACT, the GRE Subject Tests, the LSAT, the MCAT, and the PRAXIS I and II. The Testing Center also provides computer-based testing services for the following tests: the TOEFL, the PRAXIS I, the GMAT, and the GRE General Test. To register for any of the aforementioned tests, contact the Testing Center at (601) 266-6123.

Veterans Affairs

Veterans Affairs are administered through the Office of the University Registrar. Assistance is given to veterans and dependents of eligible veterans to enable them to derive the maximum benefit from their veterans’ educational entitlement.

College of Arts and Letters

Elliott Poole, Dean
Denise Von Hermann, Associate Dean
118 College Drive #5004
Hattiesburg, MS 39406-0001
(601) 266-4315

Mission
The primary purpose of the College of Arts and Letters is to provide its students with the highest quality education and preparation for professional fields in the arts, liberal arts, the humanities, and the social sciences. In addition, the college provides opportunities for students in all departments of the university to participate in artistic and liberal arts activities and education, and to develop an awareness of cultural values and diversity. Descriptions of these programs can be located in the respective departmental sections.

Deficiencies
The College of Arts and Letters retains the right to determine deficiencies in the preparation of any graduate student, regardless of the number of course credits accumulated. The college will recommend appropriate means of removing such deficiencies.

Examinations and Performance Evaluations
Some degree programs require entrance examinations or performance evaluations. Regular admission to any graduate program requires submission of test scores from the Graduate Record Examination. The departmental sections following in this Bulletin list general requirements for each degree program. Prospective students should confer with the department chair for full details.

Final comprehensive examinations at or near the completion of the course work are required for all graduate degrees. The type, scope, and dates of the examinations vary, since they are matters of individual departmental policy. Each student pursuing a graduate degree should confer with his or her major professor and department chair for full particulars.

Degree Programs
The departmental sections following in this Bulletin list specific requirements for each degree program. Some provide substantial latitude and flexibility. In many programs – with approval of the major professor and department chair – the student may choose a graduate minor in a cognate field. Students are responsible for following all general and departmental regulations, and are encouraged to consult frequently with their department.

Department of Anthropology and Sociology

James G. Flanagan, Chair
118 College Drive #5074
Hattiesburg, MS 39406-0001
(601) 266-4306

Danforth, Flanagan, Glamser, Hunt, Jackson, Kaufmann, Kinnell, Miller, Turner*, Young
*Associate Graduate Faculty

The Department of Anthropology and Sociology offers graduate work leading to the master’s degree in anthropology and a minor in the master’s and doctoral degree programs of other departments. The Department of Anthropology and Sociology also offers a graduate minor in sociology for students in the master’s and doctoral degree programs of other departments.

Master’s Program in Anthropology
The Department of Anthropology and Sociology offers programs within the College of Arts and Letters leading to the master of arts degree in anthropology.

General academic and admission requirements for all graduate degrees are set forth in another section of the Bulletin. The Anthropology Graduate Admissions Committee will review the
following materials in determining an applicant’s eligibility for admission as a regular student in the
program: (1) three letters of recommendation from persons familiar with the applicant’s academic
background and qualified to assess the applicant’s readiness for graduate study; (2) a statement
of purpose which describes the applicant’s reasons for wishing to pursue a graduate degree in
anthropology and the subfield of specialization which he/she intends to pursue; (3) undergraduate
transcript (successful applicants in the past have had an undergraduate GPA of 2.75 or above on the
last 60 hours); and (4) official GRE scores. Students who fail to meet the entrance criteria on one of
the four dimensions but who show considerable promise based on the other criteria will be
considered for conditional admission. Members of all underrepresented groups are strongly
couraged to apply.

Master of Arts
A minimum of thirty-three (33) semester hours, eighteen (18) of which must be earned at the 600
level or above; and completion of four seminars in anthropology (ANT 621, 631, 641, 651) with a
3.0 GPA in these courses. No more than six (6) hours of field methods courses (ANT 516, 536) and
no more than nine (9) hours of independent study courses (ANT 692, 792) will be applied toward
the degree. Also required is proficiency in one foreign language or quantitative research methods;
successful completion of a comprehensive examination; and submission of an approved thesis. A
3.0 GPA is required for graduation.

Dual Master’s Degrees Program in Anthropology and History

Description of Program:
This program, leading to master’s degrees in anthropology and history, emphasizes applied aspects
of cultural and heritage studies to prepare graduates to work in public settings such as museums,
archives, historic preservation, oral history programs, or in government or private sector heritage
resource management.

Students must apply to and be accepted by both master’s programs. Students pursue the two degrees
simultaneously, and neither degree is awarded until the entire program is completed. Students who
withdraw from the dual master’s programs in favor of one of the two disciplines will be bound by
the degree requirements of that discipline.

A. Course Work:
   Anthropology
   I. Required
      ANT 621 Seminar in Ethnology (3 hours)
      ANT 631 Seminar in Archaeology (3 hours)
      ANT 641 Seminar in Physical Anthropology (3 hours)
      ANT 651 Seminar in Linguistics (3 hours)
      ANT 537 Heritage Resources and Public Policy (3 hours)
      ANT 691 Internship (6 hours)
      ANT 698 Thesis (3 hours)
   II. Electives (6 hours)
      ANT 526 American Folklore
      ANT 533 Prehistory of the Southeastern U.S.
      ANT 534 Historical Archaeology
   History
   I. Required
      HIS 710 (3 hours) Philosophy and Methods of History
      HIS 711 (3 hours) Research Seminar in American History
      HIS 698 (3 hours) Thesis
      HIS 695 (6 hours) Internship in Public History
   II. Choose One (3 hours)
      HIS 725 Interpretations and Themes in American History to 1865
      HIS 726 Interpretations and Themes in American History since 1865
   III. History Electives (6-9 hours)
History or Anthropology

I. Required

ANT 605/HIS 605 Presenting Heritage I (3 hours)
ANT 606/HIS 606 Presenting Heritage II (3 hours)

B. Comprehensive Examination in Anthropology

C. Comprehensive Examination in History

D. Proficiency in One Foreign Language or Quantitative Methods

E. Thesis

Dual Master’s Degrees Program in Anthropology and Library Science

General Provisions

Students must apply and be accepted to both master’s programs. Students pursue the two degrees simultaneously and neither degree is awarded until the entire program is completed. Students who withdraw from the dual master’s program in favor of one of the two disciplines will be bound by the degree requirements of that discipline. In the event that either one of the two programs should change their master’s requirements, incoming students will be held to the new requirement(s) and currently enrolled students will be “grandfathered.” Students must gain approval for their thesis topics from both programs. The successful thesis must also be approved by both programs. This means that students must have a thesis committee on which faculty from both programs serve.

A. Coursework:

1. Required: A total of 60 hours (30 hours each) in LIS and ANT (not including Graduate School mandated foreign language/quantitative research requirements). Students must take 18 hours at the 600 level in each program.

   a. Library Science (24 hours)
      LIS 501 Introduction to Reference Resources and Services
      LIS 505 Cataloging and Classification
      LIS 511 Development of Library Collections
      LIS 605 Library Management
      LIS 636 The Library in American Society
      LIS 651 Introduction to Information Science
      LIS 666 Social Science Resources
      LIS 691 Thesis (3 credits)

   b. Anthropology (12-15 hours)
      (a minimum of three of the following four seminars)
      Students must take the seminar in their subfield of specialization.
      ANT 621 Seminar in Ethnology
      ANT 631 Seminar in Archaeology
      ANT 641 Seminar in Physical Anthropology
      ANT 651 Seminar in Linguistic Anthropology
      ANT 698 Thesis (3 hours)

2. Electives

   a. Library Science (6 hours)
      LIS 533 History of the Book
      LIS 646 Special Collections and Archives
      LIS 647 Introduction to Archival Administration
      LIS 679 Preservation of Documentary Materials

   b. Anthropology (15-18 hours)
      *No more than 6 hours of field methods courses (ANT 516 and 536); no more than 9 hours of independent study (ANT 692/792)

   *Number of anthropology hours must total 30.

B. Proficiency in one foreign language (see Graduate Bulletin) or two semesters (6 hours) of graduate level quantitative research methods. (0-9 hours)
Master of Art Education Degree

The University of Southern Mississippi is a fully accredited institutional member of the National Association of Schools of Arts and Design (NASAD) and the National Council for Accreditation of Teacher Education (NCATE). The Department of Art offers a program leading to the master of art education degree. Regular admission to the program is based on an evaluation of multiple criteria, which includes a minimum undergraduate grade point average of 3.0 in the applicant’s major field of study, submission of test scores from the Graduate Record Examination (GRE), a portfolio review, and three letters of recommendation from people qualified to assess the applicant’s readiness for graduate study. The portfolio portion of the application materials needs to be a comprehensive overview of the depth and breadth of the candidate’s visual arts skills. Conditional admission may be granted if the regular admission criteria are not met. Students must achieve regular admission before becoming candidates for the degree as well as for eligibility for assistantships. Undergraduate prerequisites for the master of art education degree in the Department of Art are: (1) completion of a bachelor’s degree in art education at The University of Southern Mississippi or an equivalent program, or (2) completion of any degree in the visual arts, or (3) satisfaction of Mississippi Class A teacher certification requirements in art.

Each student must demonstrate a studio proficiency appropriate for entry into graduate study by presenting a portfolio for review by the art education faculty, the studio faculty in the student’s particular studio area, and the chair of the Department of Art. Deficiencies which are identified may be removed with the successful completion of one or more of the nondegree credit courses (ARE 600 and/or ART 600) with a grade of no lower than “B” and/or by taking undergraduate course work as prescribed by the student’s major professor and graduate advisory committee.

There are two tracks for the master of art education degree. Track 1 is for students who wish to pursue a practice-oriented degree with 18 semester hours in art studio courses. Track 2 is designed for students who prefer a research-oriented degree, which includes 9 semester hours in studio work, a six-hour thesis, or a nonthesis option (6 hours of ARE 691 or ARE 692). All students will culminate their program of studies with a written comprehensive exam. At least 18 hours of course work must be at the 600 level or higher. A 3.0 GPA is required for graduation.

Continuous Enrollment Requirement: Students must meet the requirement specified in the front section of this Bulletin.

Departmental Admissions

Deadlines for submission of application material (comprehensive portfolio, proposal, three letters of recommendation, official transcripts, and GRE scores) are as follows:

- For Summer Semester 2004: Deadline – April 1, 2004
- For Fall Semester 2004: Deadline – April 1, 2004
- For Spring Semester 2005: Deadline – November 1, 2004

Applicants must satisfy university admission requirements before becoming candidates for the degree or becoming eligible for assistantships.

Requirements for a master of art education degree are as follows:

Track 1 (Practice-Oriented)

- 9 hours of Art Education (ARE 601, 603, 606).
- 18 hours of Art Studio (from graduate drawing, painting, ceramics, printmaking, and sculpture).
- 9 hours in Art History (Elect from ART 500, 531, 532, 533, 534, 535, 536, 538).
- Total hours (42, if option is chosen to take REF 601, 607 in order to acquire state certification).
Track 2 (Research-Oriented)
- 12 hours of Art Education (ARE 601, 603, 606, 626).
- 9 hours of Art Studio (ARE 607 which may be repeated or ART 550 which may be repeated).
- 6 hours of Art Education Research (ARE 698, thesis), or (ARE 691 which may be repeated), or (ARE 692 which may be repeated).
- 3 hours of Art History (Elect from ART 500, 531, 532, 533, 534, 535, 536, 598).
- Total: 30 hours

Six additional hours of Research and Foundations (REF 601, 607) are required for Mississippi Class AA certification and can be taken with either track (students must already have Class A certification). These hours are optional.

Candidates in Track 1 must culminate their studies with an exhibition indicating achievements within their specialized studio areas. Candidates in Track 2 may elect to exhibit work from their specialized area of study.

Master of Fine Arts Degree

Major: Studio Art (Drawing and Painting)

The objective of the master of fine arts program (emphasis painting/drawing) is to develop in students the skill and discipline required for sustained, self-directed, and creative art-making based on professional standards and within a context of intense studio criticism and the study of aesthetics.

Regular admission to the MFA program is based on the evaluation of multiple criteria, which includes 1) meeting the requirements for admission to graduate study at The University of Southern Mississippi (details can be found in the appropriate section of the Graduate Bulletin); 2) holding a bachelor of fine arts degree with emphasis in drawing and painting from The University of Southern Mississippi or a baccalaureate from an equivalent drawing and painting program; 3) submitting a portfolio which should demonstrate proficiency and preparation for graduate study in the proposed area of visual investigation and the delimited aesthetic visual problem area in which the applicant intends to work as stated in the written proposal; it should consist of a minimum of 20 slides, half of which should be painting and the other half drawing; 4) submitting a written proposal which should definitively state the area of visual search and the delimited aesthetic visual problem area in which the applicant intends to work; 5) submitting three letters of recommendation which should address the applicant’s academic preparation in the area of drawing and painting; and 6) submitting GRE scores to the Graduate School. Letters of recommendation should be sent to the department.

Departmental Admissions

Deadlines for submission of application material (portfolio, proposal, letters of recommendation, official transcripts, and GRE scores) are as follows:
- Summer Term: Deadline – April 1
- Fall Semester: Deadline – April 1
- Spring Semester: Deadline – November 1

Applicants must satisfy university admission requirements before becoming candidates for the degree or becoming eligible for assistantships.

Requirements for a master of fine arts degree in studio art (drawing and painting) are as follows:
- 18 hours of Drawing Studio (ART 601, ART 602, ART 603, ART 701, ART 702, ART 703)
- 18 hours of Painting Studio (ART 621, ART 622, ART 623, ART 721, ART 722, ART 723)
- 6 hours of Art History (selected from graduate Art History offerings)
- 3 hours of Seminar (ART 731, ART 732, ART 733)
- 12 hours of ART electives
- 6 hours of Creative Project (ART 799)
- Total: 63 hours
Department of English

Angela Ball, Chair
118 College Drive #5037
Hattiesburg, MS 39406-0001
(601) 266-4319

*Associate Graduate Faculty

The Department of English offers programs leading to the doctor of philosophy and master of arts degrees. Within the framework of these degree programs, students may specialize in English or American literature or in creative writing.

General academic and admission requirements for all graduate degrees are set forth in the front section of this Bulletin and general departmental requirements are listed below. Specific requirements for the various specializations (e.g., creative writing, etc.) are described in information sheets available from the Department of English, Box 5037. Students interested in applying for assistantships should contact the Department of English.

The Master of Arts

Departmental criteria for admission include the GRE, GPA, and letters of recommendation. Successful applicants for regular admission to the M.A. program usually have a GPA of 3.5 or higher in undergraduate English courses. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department. Conditional admission is sometimes possible for applicants who do not meet all the criteria for regular admission. Members of all underrepresented groups are strongly encouraged to apply. Requirements for the master of arts degree include the following:*  
1. A minimum of thirty (30) semester hours of graduate credit including at least twelve (12) hours in an emphasis area such as English Literature, American Literature, Composition and Rhetoric, or Creative Writing. A minimum of 18 of the 30 hours must be taken at the 600-level or above with six in the emphasis area; however, English 714 and 791 may not be used to satisfy this requirement. A 3.0 GPA is required for graduation.
2. ENG 506 (with approval, another linguistics course may be substituted) and ENG 640 are required for candidates in literature and composition and rhetoric.
3. Foreign language proficiency. (See the appropriate section of the Bulletin.)
4. Thesis (six hours credit).
5. A comprehensive oral examination on the thesis and the related emphasis area.

*Candidates desiring AA certification must include, in addition, REF 601 and REF 607.

The Doctor of Philosophy

The doctor of philosophy degree offered by the Department of English is designed to prepare students for careers as scholars and teachers. This degree is taken after the candidate has earned an appropriate master’s degree and has met all university and departmental admission requirements. The department has several criteria for admission, including the GRE, letters of recommendation, and GPA. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department. Successful applicants for regular admission to the Ph.D. program must have a GPA of 3.5 or higher in master’s coursework. Conditional admission is sometimes possible for applicants who do not meet all the criteria for regular admission. Members of all underrepresented groups are strongly encouraged to apply. Other departmental requirements follow.*  
1. A minimum of fifty-four (54) semester hours beyond the master’s degree including courses in bibliography and methods and literary criticism. No more than 6 hours at the 500 level can count toward the degree. A 3.0 GPA is required for graduation.
2. A qualifying examination
3. Research Tool(s). Proficiency in two foreign languages or one foreign language and twelve graduate hours in an approved area other than English. Details are available from the English department.
4. A written comprehensive examination
5. Presentation and oral defense of dissertation
6. Residency. Students must meet the residency requirements specified in this Bulletin.
Precise details of the doctoral program and admission procedures are available from the Department of English.

Department of Foreign Languages and Literatures

Rafael Sánchez-Alonso, Chair
118 College Drive #5038
Hattiesburg, MS 39406-0001
(601) 266-4964

*Associate Graduate Faculty

The Department of Foreign Languages and Literatures offers a program leading to the master of arts in the teaching of languages (MATL) degree. Within the MATL, students usually concentrate on one of three emphasis areas: French, Spanish, or Teaching English to Speakers of Other Languages (TESOL). The focus of the MATL is on developing and enhancing the knowledge and skills in language, language acquisition, and language instruction that are essential for both effective teaching and successful learning. The MATL is offered year-round, with the option of completing the program through summer only registration. For more information on the MATL, please consult http://www.usm.edu/matl.

The MATL, with extensions in France, Mexico, and Spain, brings together foreign language teachers and teachers-to-be from all parts of the United States and from several countries to share their experiences and significantly enhance their professional and academic training in an enriching, multicultural environment. More than 30 professors from The University of Southern Mississippi and from other universities in the United States and abroad contribute their expertise through interactive, application-oriented instruction in the MATL program.

MATL Philosophy

The master of arts in the teaching of languages is a unique program of professional preparation specifically designed to meet the needs of teachers from elementary and secondary education through the junior and community college levels. The MATL is not a literature degree; instead our purpose is to provide students with courses that meet their needs as foreign language teachers. Designed to integrate theory and practice, the MATL program focuses on the enhancement of language teaching skills and knowledge about language and language learning.

The MATL program, with the addition of REF 601 and 607, meets the NCATE requirements for AA licensure for those holding a current Mississippi teaching license in French or Spanish (the MATL is not designed for initial teacher certification or licensure). Applicants from other states should check with their respective state departments of education for specific requirements concerning certification or licensure. The department also offers a program of study for the ESL endorsement to a current Mississippi teaching license in any area. Please contact the coordinator of the MATL program for details.

Admission Requirements

Members of all underrepresented groups are strongly encouraged to apply for admission to the MATL program. The following materials are reviewed in the admission process:

1. Official scores for the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT).
2. Official transcripts for all previous undergraduate and graduate studies. Successful applicants in the past have had undergraduate grade point averages over the last 60 hours of undergraduate study that range from 2.75 to 4.0 on a 4.0 scale.
3. For international students whose native language is not English, official scores on the Test of English as a Foreign Language (TOEFL). Successful applicants in the past have had a total TOEFL score of 220 or above, with no section score lower than 21.
4. Applicants to the Spanish and French emphases of the MATL should have an undergraduate degree in the language or present evidence of equivalent language experience.
5. Three letters of recommendation from professionals in the field qualified to assess the readiness of the applicant for graduate work. The letters should be sent to the department.
See the “Academic Requirements” section of the Graduate Bulletin for other general requirements. Conditional admission may be considered for applicants who do not meet all the criteria but show promise for success in graduate studies. The requirements for a change to regular admission will be stated at the time of acceptance into the program.

General Program Academic Requirements

All students are expected to complete the following requirements:

1. A total of thirty-three (33) hours of graduate level courses, including eighteen (18) hours in courses numbered 600 or above. At least six (6) credit hours of emphasis course work must be completed on site in Hattiesburg, or at Southern Miss-directed sessions in Mexico, Spain, or France. A 3.0 GPA is required for graduation.
2. FL 561, FL 663, FL 664, and FL 665
3. A practicum tailored to the teaching experience of each student (FL 694)
4. For students in the TESOL emphasis, a minimum of 9 hours of courses with a TSL prefix, including the required TSL 612
5. For students in the Spanish or French emphasis areas, a minimum of 15 hours of graduate-level courses in the specific language
6. A language proficiency requirement, as determined by departmental policy, within the specific emphasis area. In addition, students in the TESOL emphasis whose first language is English must also meet a foreign language requirement by completing nine (9) hours of undergraduate conversational foreign language study (i.e., through Southern Miss 201 level) or equivalent with an average of “B” or better.
7. Comprehensive examination which consists of a successful defense of a portfolio

All students are required to prepare an individualized Program Plan with an adviser.

Department of History

Charles C. Bolton, Chair
118 College Drive #5047
Hattiesburg, MS 39406-0001
(601) 266-4333

*Associate Graduate Faculty

The Department of History participates in programs leading to the degrees of master of arts, master of science, and doctor of philosophy.

General Regulations

The student is held responsible for following all graduate regulations. The student’s major professor will help in any way possible, but the student is expected to know what is required and to take full responsibility. General academic and admission requirements for all graduate degrees are set forth in another section of this Bulletin, and general departmental requirements are listed below.

Master’s Programs

Admission Requirements

For admission to the master’s program, the department requires a 3.0 minimum grade point average on the last two years of undergraduate study, GRE general test scores, transcripts, three letters of recommendation, a statement of career objectives (250 to 500 words), and an example of written work (up to 20 pages). Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department. Normally, applicants will have taken a variety of upper-division history courses.

Students with perceived academic deficiencies may be admitted conditionally. To remove the conditional status, students must meet Graduate School requirements, which are described in the Admission Requirements section of the Bulletin, and they must satisfy all additional requirements stipulated by the chair and director of Graduate Studies.
In addition to the Graduate School criteria for regular admission, students whose native language is not English must score at least 550 on the TOEFL Examination. The department presumes that applicants who have fulfilled these requirements possess an adequate knowledge of English. If, upon their arrival at the university, it is determined that they do not possess an adequate command of English, the department reserves the right to require appropriate remedial courses.

Members of all underrepresented groups are strongly encouraged to apply.

Retention Policy

The Department of History has a retention policy more stringent than the general policy of the graduate school. The department’s policy is published in its Handbook. Students should consult the Handbook for a description of the policy.

Master of Arts

All students are expected to complete the following requirements:

1. A total of thirty (30) semester hours in history with twenty-one (21) hours in courses numbered over 600. A 3.0 GPA is required for graduation.
2. HIS 710 at its first offering by the department
3. HIS 725 and HIS 726 for those concentrating in United States History; HIS 720 and an additional seminar for those in European History; HIS 781 and HIS 782 for those in Latin American History
4. HIS 711 or HIS 712 depending on the emphasis area. Students whose major field is in Latin American History will take HIS 711 unless otherwise advised by the director of Graduate Studies.
5. A reading knowledge of one foreign language. Students in Latin American History must have a reading knowledge of either Spanish or Portuguese.
6. A thesis which will confer six (6) hours credit within the minimum hourly requirements
7. During the spring semester of the second year, the student will take a comprehensive written examination.
8. A thesis defense is required.

Master of Science

All students are expected to complete the following requirements:

1. A total of thirty (30) semester hours with twenty-one (21) hours in courses numbered above 600. A 3.0 GPA is required for graduation.
2. HIS 710 at its first offering by the department
3. HIS 725 and HIS 726 for those concentrating in United States History; HIS 720 and an additional seminar for those in European History; HIS 781 and HIS 782 for those in Latin American History
4. HIS 711 or HIS 712 depending on the emphasis area. Students whose major field is in Latin American History will take HIS 711 unless otherwise advised by the director of Graduate Studies.
5. During the spring semester of the second year, the student will take a comprehensive written examination.
The Department of History offers the following areas of emphasis for the master of arts and master of science degrees:

I. United States History
II. European History
III. Latin American History
IV. Asian or African History

On the comprehensive examination, all master’s students must demonstrate proficiency in one primary area of emphasis and one secondary area. Two members of the examining committee will represent the primary area, and one member will represent the secondary area. United States History, European History, and Latin American History may be selected as either primary or secondary areas. Asian History or African history may be selected only as a secondary area. The nature and scope of the material to be included from each area will be determined by the graduate committee.

The M.A. student should successfully complete fifteen (15) hours of course work in the primary area and six (6) hours in the secondary area in addition to History 710 and the 6 hours of thesis work.

The M.A. thesis must be written in the primary emphasis area. A student may write a thesis in Asian History if permission to do so is granted by the department.

The M.S. student should take eighteen (18) hours of course work in the primary area and nine (9) hours in the secondary area in addition to History 710.

Students planning to pursue a doctoral degree must write a thesis and should enroll in the M.A. program.

**Master of Arts or Master of Science, International Studies Emphasis**

This program is intended for graduate students in history with an international studies orientation. Students must complete the following requirements:

1. Successful completion of thirty-six (36) semester hours with eighteen (18) hours in history and eighteen (18) in political science (18 hours must be 600 level or higher), as follows:
   a. Twelve (12) hours of core courses: HIS 710, HIS 720, HIS 725, HIS 726, HIS 781, or HIS782; PS 730; PS731; and PS 750
   b. The remainder of course work selected from the following: HIS 711 or 712, HIS 732, HIS 733, HIS 734, HIS 736, HIS 740, HIS 745, HIS 772, HIS 774, HIS782, PS 504, PS 508, PS 521, PS 531, PS 532, PS535, PS 550, PS 551, PS552, PS 556, PS 558, PS 585, PS 721, and PS750
   c. With the approval of the director of Graduate Studies, students may earn up to nine (9) hours in relevant 500-level history courses and may earn six (6) hours through study-abroad programs.
2. Students seeking a Master of Arts degree must write and defend a thesis, which will confer six (6) hours of credit within the minimum hourly requirements.
3. A reading knowledge of one foreign language
4. The student’s graduate committee will consist of two members from the history department and one member from the political science department.
5. During the spring semester of the second year, the student will take a comprehensive written examination.
6. A 3.0 GPA is required for graduation.

**Master of Arts or Master of Science, Military History Emphasis**

This program is intended for graduate students in history with a military history orientation. Students must complete the following requirements:

1. Successful completion of thirty (30) semester hours (18 hours of 600 level or higher) as follows:
   a. Nine (9) hours of core courses: HIS 710, HIS 711 or HIS 712; HIS 720; HIS 725 and/or HIS 726; or HIS 782
The remainder of course work selected from the following: HIS 510, HIS 511, HIS 512, HIS 513, HIS 515, HIS 516, HIS 517, HIS 530, HIS 531, HIS 532, HIS 533, HIS 534, HIS 537, HIS 541, HIS 543, HIS 544, HIS 556, HIS 558, HIS 561, HIS 563, HIS 566, HIS 573, HIS 583, HIS 734, HIS 736, HIS 745, and HIS 782

2. Students seeking a master of arts degree must write and defend a thesis, which will confer six (6) hours of credit within the minimum hourly requirements.

3. A reading knowledge of one foreign language

4. During the spring semester of the second year, the student will take a comprehensive written examination.

5. A 3.0 GPA is required for graduation.

**Dual Master’s Degrees in History and Library and Information Science**

In cooperation with the School of Library and Information Science, the Department of History offers a combined program leading to two master’s degrees: master in library and information science and master of arts in history. Students will pursue both degrees simultaneously, and neither degree will be awarded until the entire program is completed. Students who withdraw from the dual master’s program in favor of one of the two disciplines will be bound by the degree requirements of that discipline. The combined program includes thirty (30) hours in library and information science and thirty (30) hours in history for a total of sixty (60) hours. Students in the combined program must complete the following requirements:

1. Thirty (30) hours in library and information science (18 hours at the 600 level or above)
2. Thirty (30) hours in history (18 hours at the 600 level or above)
3. HIS 710 at its first offering by the department
4. HIS 720, HIS 725, HIS 726, HIS 781, or HIS 782
5. One of the following seminars: HIS 711, 712, 732, or 745
6. Six (6) hours of internship
7. A reading knowledge of one foreign language
8. A thesis which will confer six (6) hours credit, three in history and three in library and information science; thesis defense is required
9. A comprehensive written examination administered by a three-member committee representing both disciplines and given after satisfactory completion of the course work
10. A 3.0 GPA is required for graduation.

Students should refer to the Library and Information Science section of this Bulletin for further details.

**Dual Master’s Degrees in History and Anthropology**

In cooperation with the Department of Anthropology, the Department of History offers a combined program leading to two master’s degrees: master of arts in anthropology and master of arts in history. Students will pursue both degrees simultaneously, and neither degree will be awarded until the entire program is completed. Students who withdraw from the dual master’s program in favor of one of the two disciplines will be bound by the degree requirements of that discipline. The combined program includes thirty (30) hours in anthropology and thirty (30) hours in history for a total of sixty (60) hours. Students in the combined program must complete the following requirements:

1. Thirty (30) hours in anthropology (18 hours at the 600 level or above)
2. Thirty (30) hours in history (18 hours at the 600 level or above)
3. HIS 710 at its first offering by the department
4. HIS 720, HIS 725, HIS 726, HIS 781, or HIS 782
5. One of the following seminars: HIS 711, 712, 732, or 745
6. Six (6) hours of internship
7. Three (3) or six (6) hours of the following: HIS 605, HIS 606
8. ANT 537
9. A reading knowledge of one foreign language
10. A thesis which will confer six (6) hours credit, three in history and three in anthropology; thesis defense is required
11. A comprehensive written examination administered by a three-member committee representing both disciplines and given after satisfactory completion of the course work.
12. A 3.0 GPA is required for graduation.

Students should refer to the Anthropology section of this Bulletin for further details.

Doctoral Program

Admission Requirements

For admission to the doctoral program, the department requires a minimum grade point average of 3.5 on all graduate work, GRE general test scores, transcripts, three letters of recommendation, a statement of career objectives (500 to 1,000 words), and an example of written work (up to 20 pages). Letters of recommendation should be from people qualified to assess the applicant’s readiness for graduate study and should be sent to the department or school. Normally, applicants will have completed an M.A. in history and written a thesis. General requirements for admission can be found in the “Academic Requirements” section of the Bulletin.

Exceptions to the above-listed requirements may be made. Students so accepted will be classified “conditional,” which is removed by achieving a 3.5 grade point average on twelve (12) hours of course work during the first two semesters.

Members of all underrepresented groups are strongly encouraged to apply.

A minimum of eighty-four (84) semester hours of course credit beyond the baccalaureate degree, which includes historiography courses (HIS720, HIS 725, HIS 726, HIS 781, HIS 782) relevant to the student’s major and minor fields, an additional 700-level course in the student’s major area, two additional courses at the 600-level or higher, and twelve hours of dissertation research. All doctoral students will take a qualifying examination. A 3.0 GPA is required for graduation.

Retention Policy

The Department of History has a retention policy more stringent than the general policy of the graduate school. The department’s policy is published in its Handbook. Students should consult the Handbook for a description of the policy.

Major and Minor Requirements

The department offers the doctor of philosophy degree in United States History, in European History since 1789, and in History of the Americas. Candidates seeking a doctorate in United States History must demonstrate proficiency in United States History to 1877 and United States History since 1877. In addition, they must develop a minor field in Early Modern Europe, Europe 1789-1870, Europe since 1870, Latin American History to 1830, or Latin American History since 1830. Doctoral candidates in United States History must also demonstrate proficiency in one of the fields not selected above or in a specialized field such as Mexican or British History. For the second minor field, they may also develop an outside minor of twelve (12) semester hours in one of the social sciences or humanities.

Candidates seeking a doctorate in European History must demonstrate proficiency in Europe 1789-1870 and Europe since 1870. They must develop a minor field in United States History to 1877, United States History since 1877, Latin American History to 1830, or Latin American History since 1830. Doctoral candidates in European History are also required to demonstrate proficiency in one of the fields not selected above, or a specialized field such as Mexican or Southern History. For the second minor field, they may also develop an outside minor of twelve (12) semester hours in one of the social sciences or humanities.

Candidates seeking a doctorate in History of the Americas must demonstrate proficiency in Latin American History to 1830, Latin American History since 1830, as well as United States History to 1877 or United States History since 1877. Courses taken to fulfill these requirements must include HIS 513 or HIS 573, HIS 725 or HIS 726, HIS 745, HIS 781, and HIS 782. Doctoral candidates in History of the Americas must also demonstrate proficiency in one minor field appropriate to the subject of their dissertation, which may be an outside minor of twelve (12) semester hours in one of the social sciences or humanities.

Minor fields are selected after consultation with the candidate’s major professor and graduate committee.
Qualifying Exam
Students are required to take a qualifying exam and should consult with the graduate coordinator.

Research Tool(s)
Each prospective candidate for the doctoral degree must demonstrate proficiency in at least one foreign language. Candidates in History of the Americas must demonstrate proficiency in Spanish or Portuguese. They may also demonstrate proficiency in an appropriate second language, or in consultation with the director of Graduate Studies and their major professor, they may develop a research tool, consisting of training in an appropriate discipline or research skill. Candidates in United States history must demonstrate proficiency in at least one foreign language, and they must demonstrate proficiency in a second language or develop a research tool. Candidates in European History must demonstrate a reading knowledge in two appropriate foreign languages.

Residency
Students must meet the residency requirements specified in this Bulletin.

Doctoral Committee
The student’s program will be directed by a five-member graduate committee, consisting of three persons from the major field and two from the minor fields. This committee will approve the dissertation prospectus and conduct the comprehensive examination, which will be administered during the third year of study. Additional details are available from the Department of History.

Dissertation
A dissertation is expected to be a mature and competent piece of writing, embodying the result of significant and original research on a subject chosen by the candidate and approved by the major professor and the graduate committee. Candidates in the History of the Americas are expected to choose a dissertation topic that details both North American and Latin American perspectives and which requires multidimensional research. Upon completion and approval of the dissertation, the candidate is expected to stand satisfactorily an examination on the dissertation and the field in which the dissertation lies.

School of Mass Communication and Journalism
David H. Goff, Director
118 College Drive #5121
Hattiesburg, MS 39406-0001
(601) 266-4258

Gene Wiggins, Graduate Coordinator
118 College Drive #5158
Hattiesburg, MS 39406-0001
(601) 266-5650

The School of Mass Communication and Journalism provides graduate curricula in mass communication as part of a graduate program in communication that is shared with the Department of Speech Communication. Master of arts, master of science, and doctor of philosophy degrees in communication with an emphasis in mass communication are offered. In addition, a master of science in public relations degree is available.

Master’s degree students emphasizing mass communication or majoring in public relations are required to have prior academic training or professional experience in the mass media or public relations practice. Those not meeting the requirement can be admitted into the program but will be required to correct the deficiency without receiving graduate credit for the additional work. For doctoral students the degree program is structured in consultation with a student’s doctoral committee. Students entering doctoral study in mass communication from other disciplines may be required to take additional course work at lower levels to make up for background deficiencies.
62 | College of Arts and Letters

**Deadlines for admission are as follows:**

All admission materials for doctoral students seeking to enroll in spring, summer, and fall terms must be received by November 1, March 1, and July 1, respectively. Students seeking assistantships for the fall semester are strongly encouraged to apply prior to the March 1 deadline.

Admission deadlines for master’s students are the same as those published by the Graduate School.

**Admission requirements are the same as those of the university, with the following additions:**

**Applicants for the Master’s Program**

**Regular Admission**

Undergraduate Record—A cumulative GPA on the last 60 hours from all institutions of our applicants has ranged from 3.0 to 4.0. A 3.0 GPA is required; a 3.0 major GPA is also required.

Graduate Record Examination—Scores from the GRE must be submitted.

Test of English as a Foreign Language—Applicants whose native language is not English must attain a TOEFL score of 550.

Letters of Recommendation—Three current letters of recommendation are required and should address the applicant’s readiness for graduate study. Ordinarily such letters should be requested by applicants from faculty in their major field of study who are well-acquainted with the applicant’s academic abilities. For master’s level admission, it is acceptable for one of the letters to be submitted by a media or public relations professional who is familiar with the applicant’s work and his or her suitability for graduate study.

Applicants with professional experience in media-related fields are encouraged to submit a resume of their professional experience and accomplishments.

**Conditional Admission**

Undergraduate Record—The cumulative GPA of the last 60 hours from all institutions is usually 2.75 or better.

Graduate Record Examination—GRE scores must be submitted.

Test of English as a Foreign Language—Applicants whose native language is not English must attain a TOEFL score of 550.

Letters of Recommendation—Three current letters of recommendation are required and should address the applicant’s readiness for graduate study. Ordinarily such letters should be requested by applicants from faculty in their major field of study who are well-acquainted with the applicant’s academic abilities. For master’s level admission, it is acceptable for one of the letters to be submitted by a media or public relations professional who is familiar with the applicant’s work and his or her suitability for graduate study.

Applicants with professional experience in media-related fields are encouraged to submit a resume of their professional experience and accomplishments.

To remove conditional admission status, doctoral students must earn a 3.0 on the first nine (9) semester hours of course work numbered 500 or above or on all course work taken while completing this nine (9)-hour requirement. The courses must be taken in the School of Mass Communication and Journalism.

**Applicants for the Doctoral Program**

**Regular Admission**

Master’s Record—A cumulative GPA of 3.5 or better is required.

Graduate Record Examination—Scores from the GRE must be submitted.

Test of English as a Foreign Language—Applicants whose native language is not English must attain a TOEFL score of 550.

Letters of Recommendation—Three current letters of recommendation are required and should address the applicant’s readiness for graduate study. Ordinarily such letters should be requested by applicants from faculty in their major field of study who are well-acquainted with the applicant’s academic abilities.
Applicants with professional experience in media-related fields are encouraged to submit a resume of their professional experience and accomplishments.

Statement of Goals—Applicants must submit a written statement of goals (500-750 words). This statement enables the applicant to discuss career plans, and to supply additional information that will assist in selecting those individuals who can most benefit from and contribute to the graduate communication programs.

Conditional Admission

Students who do not meet the requirements for regular admission may be considered for conditional admission. The requirements for letters of recommendation and statement of goals are the same as for regular admission.

To remove conditional admission status, doctoral students must earn a 3.50 on the first nine (9) semester hours of course work numbered 600 or above or on all course work taken while completing this nine (9)-hour requirement. The courses must be in the School of Mass Communication and Journalism.

**Master of Arts/Master of Science Major: Communication**

**Thesis Option Emphasis: Mass Communication**

All students pursuing this program in communication must complete the following requirements:

<table>
<thead>
<tr>
<th>Hours</th>
<th>Substantive Core</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MC 607, MC 625</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Hours</th>
<th>Research Methods</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MC 720</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Hours</th>
<th>Electives in Mass Communication</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MC 722, RTF 525, Statistics (any two)</td>
</tr>
</tbody>
</table>

A minimum of thirty (30) semester hours must be completed, including thesis credit. At least eighteen (18) of these hours must be numbered 600 or above. All candidates must pass a comprehensive written examination, submit a scholarly thesis, and defend the thesis. In addition to minimum credit and thesis requirements, the candidate for the master of arts degree must demonstrate proficiency in an approved foreign language not to be counted toward the credit hours requirement. A 3.0 GPA is required for graduation.

Continuous Enrollment Requirement. Students are expected to enroll continuously after they have taken required coursework until they complete their degree following guidelines published under the General Degree Requirements section of this Graduate Bulletin.

**Master of Science Major: Communication**

**Non-Thesis Option Emphasis: Mass Communication**

All students pursuing this program in Communication must complete the following requirements:

<table>
<thead>
<tr>
<th>Hours</th>
<th>Substantive Core</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MC 607, MC 625</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Hours</th>
<th>Research Methods</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MC 720</td>

</tbody>
</table>

<table>
<thead>
<tr>
<th>Hours</th>
<th>Electives in Mass Communication</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MC 722, RTF 525, Statistics (any two)</td>
</tr>
</tbody>
</table>

A minimum of thirty-three (33) semester hours must be completed. At least eighteen (18) of these hours must be numbered 600 or above. All candidates must pass a comprehensive written examination. A 3.0 GPA is required for graduation.

Continuous Enrollment Requirement. Students are expected to enroll continuously after they have taken required coursework until they complete their degree following guidelines published under the General Degree Requirements section of this Graduate Bulletin.
**Master of Science Major: Public Relations**

All students pursuing a major in public relations must complete the following requirements:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Substantive Core</strong></td>
<td></td>
</tr>
<tr>
<td>MC 607, MC 620, MC 621, MC 625</td>
<td>12</td>
</tr>
<tr>
<td><strong>Research Methods</strong></td>
<td></td>
</tr>
<tr>
<td>MC 720</td>
<td>3</td>
</tr>
<tr>
<td>MC 722, or RTF 525, or JOU 526, or Statistics</td>
<td>3</td>
</tr>
<tr>
<td>Thesis, major project, or internship*</td>
<td>3-6</td>
</tr>
<tr>
<td><strong>Speech Communication/Mass Communication Electives</strong></td>
<td>6-9</td>
</tr>
</tbody>
</table>

*Students seeking the master of science degree with a major in public relations may choose between a thesis and a nonthesis option. Six hours credit is given for a thesis and three hours for a major project or internship.

**Students who did not have undergraduate public relations courses must take JOU 521, 522, and 526.**

A minimum of thirty (30) semester hours must be completed, including thesis, major project, or internship. At least eighteen (18) of these hours must be numbered 600 or above. All candidates for the master of science degree with a major in public relations must pass comprehensive written examinations, and either submit and defend a scholarly thesis, or complete a major project, or serve an approved internship. A 3.0 GPA is required for graduation.

Candidates with undergraduate deficiencies must take undergraduate courses to correct the deficiency without receiving graduate credit for the additional coursework. Candidates with few undergraduate deficiencies may be permitted by their academic committees to complete a graduate minor pertinent to their area of specialized practice, e.g., social work, public administration, business administration, and criminal justice.

Continuous Enrollment Requirement. Students are expected to enroll continuously after they have taken required coursework until they complete their degree following guidelines published under the General Degree Requirements section of this Graduate Bulletin.

**Doctor of Philosophy**

The doctor of philosophy degree program is structured in consultation with each student’s doctoral committee. The program involves study of advanced theory and research in mass communication.

A four-course sequence in research design and methodology is required of all doctoral students. The four courses include: MC 625 - Process and Effects of Mass Communication or SCM 735 - Rhetorical Theory; MC/SCM 720 - Introduction to Graduate Research in Communication; MC/SCM 722 - Communication Research Methods; and MC 607 - Theories of Mass Communication. Equivalent courses taken at another institution will be accepted, pending approval of the director, the major professor, and the instructor of the course.

The minimum credit requirement for the doctoral degree is fifty-four (54) hours beyond the master’s degree or eighty-four (84) hours beyond the baccalaureate degree. The student takes rigorous written and oral examinations and submits and defends a scholarly dissertation pertaining to the area he or she elects to emphasize (see section on General Requirements and Regulations). A 3.0 GPA is required for graduation.

**Residency**

Students must meet the residency requirements specified in this Bulletin.

Doctoral students may elect an outside minor consisting of twelve (12) hours approved by the major professor and academic committee members. Doctoral students must demonstrate proficiency in basic communication research design and methodology, as well as competency in basic statistics.

Continuous Enrollment Requirement. Students are expected to enroll continuously after they have taken required coursework until they complete their degree following guidelines published under the General Degree Requirements section of this Graduate Bulletin.
School of Music

Charles Elliott, Director
118 College Drive #5081
Hattiesburg, MS 39406-0001
(601) 266-5543

Each student has the final responsibility to ascertain that he or she has complied with all applicable catalogue requirements for graduation. Faculty and advisers assist students in developing their programs, but they cannot waive or vary degree requirements as they appear in the university Bulletin.

Continuous Enrollment Requirement. Students must meet the requirement specified in the front section of this Bulletin.

Master’s Degrees

There are two master’s degrees available in the School of Music, one with a major in music leading to the master of music degree, the other with a major in music education leading to the master of music education degree. Emphasis areas in the Master of Music degree are: Performance, Church Music, Conducting, Music History and Literature, Theory and Composition, and Woodwind Performance and Pedagogy.

Regular admission procedures governing graduate entrance into The University of Southern Mississippi will be required. Details can be found in another section of this Bulletin.

Admission Requirements: Master’s Degrees

In addition to acceptable grades and test scores, successful applicants to the master’s program usually have an appropriate baccalaureate degree with a major in music, an acceptable candidacy audition (for performance degrees), strong letters of recommendation, and successful personal interviews. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the school.

Members of all underrepresented groups are strongly encouraged to apply. Acceptance to the School of Music requires students to meet expectations beyond these requirements; see “Degree Candidacy.”

Students who are unable to meet regular admission standards may be considered for conditional admission.

The Graduate Record Examination is required for both conditional and regular admission.

Degree Candidacy: Master’s Degrees

Degree Candidacy: Admission to graduate study does not imply admission to candidacy for a master’s degree. A maximum of nine (9) hours of graduate work earned before one has gained admission to the School of Music can be applied toward a degree. To gain degree candidacy (i.e., admission), one must:

a) take Diagnostic Entrance Examinations the Friday before school begins;
b) pass a candidacy audition (master of music degrees only) during the first term of full-time residence or before completing nine (9) hours of coursework; see pages 49 through 52, this Bulletin;
c) pass all special examinations (see specific areas in which the degree may be earned);
d) consult with the academic adviser, have an advisory committee appointed, and begin planning the total degree program early in the first term of attendance. This process must be completed before nine (9) hours have been earned;
e) complete at least nine (9) hours of graduate coursework relevant to one’s degree plan with a cumulative grade point average of 3.0;
f) complete a degree plan, approved by the advisory committee and the academic adviser, before earning nine (9) semester hours. If the degree plan is not on file with the coordinator before that point, credit hours earned above nine (9) semester hours will not be counted toward the degree.

Students who have not done the above will be asked to withdraw from the graduate music program.
Diagnostic Examinations and Auditions: Master’s Degrees

Before the first term of full-time enrollment, all graduate students must take diagnostic examinations in music theory and in music history and literature. Students who do not pass the theory diagnostic exam must enroll in MUS 620, Music Theory Survey. Students who do not pass the history diagnostic exam must enroll in MUS 630, Music History Survey. Many entering students find that they do need to take these courses. MUS 620 and 630 must be taken in the first semester of graduate work. Exceptions to this requirement may be granted for the spring semester only and will be considered on a case-by-case basis. Part-time students must complete both courses before earning nine semester hours. A student with deficiencies may be required to take additional course work beyond the minimum required in the degree program.

Diagnostic examinations are administered on campus each Friday preceding the first day of classes in fall, spring, and summer in Fine Arts building, Room 212.

9 a.m. - Theory
10:30 a.m. - Music History and Literature
1-5 p.m. - Advisement/Registration/Fee Payment

Diagnostic examinations are also administered through the mail. To make the testing process feasible, please find a proctor, preferably a teacher in a nearby college or university, to whom we can send copies of your examination. Send the name and address to the coordinator of Graduate Studies.

Entrance auditions are also required for some degrees. These are:

- Master of Music in Performance
- Master of Music in Church Music
- Master of Music in Conducting
- Master of Music in Woodwind Performance and Pedagogy

The master of music in theory and composition and the doctor of musical arts in composition require submission of representative scores of the prospective student’s compositions.

All graduate students should consult the academic adviser for current, specific policies governing the advisement of students, the presentation of recitals, and the administration of comprehensive examinations.

Ensemble Participation: Master’s Degrees

All full-time master’s-level students majoring in music or music education are required to participate in a major ensemble during each term of residence. A maximum of two (2) hours of graduate credit earned from ensemble work may be counted toward the degree. The ensemble in which one participates will be determined by the student’s major applied area and area of interest. The following are considered to be appropriate major ensembles to fulfill this requirement: Orchestra, Band, Southern Chorale, Jazz Lab Band, Hattiesburg Choral Union, University Singers, and Opera/Music Theatre. Exceptions may be granted to master’s students in residence during summer semesters.

For master’s students whose major instrument is piano, the following would constitute ensemble participation: performing as a pianist with the Orchestra, Band, Southern Chorale, Jazz Lab Band, Hattiesburg Choral Union, University Singers, Opera/Music Theatre, Chamber Music, Collegium Musicum, or other appropriate major ensemble. Studio accompanying may fulfill the ensemble requirement if approved by the piano faculty. (These students should register for their own teacher’s section of MUS 692, Special Problems.)

Special Examinations and Auditions: Master’s Degrees

All special examinations and auditions must be passed before one can gain degree candidacy.

Jury Requirements/Final Examinations: Master’s Degrees

Students who are enrolled in MUP private lessons in their principal applied area and who are seeking the master of music degree (with emphasis in Performance, Piano Accompanying, Church Music, or Woodwind Performance and Pedagogy) must perform a jury for the appropriate applied faculty. All others enrolled in MUP private lessons must perform a final examination for the applied teacher. At the finish of each semester and summer term, the applied teacher must complete a Final Jury/Examination Form for each student and file it with the graduate adviser. Students enrolled in applied music who do not take a final examination or a jury will receive the grade “I” or “F.” All grades of I must be completed by the end of the next semester (excluding summer term). See Grading System in this Bulletin.

The applied teacher must record and submit any exception to this policy to the graduate adviser; signatures of all appropriate area faculty must be included on this form.
Comprehensive Examinations: Master’s Degrees

Comprehensive examinations are required for all master’s degrees. The test will be prepared by the student’s graduate advisory committee; it will cover the area of the major field. As a general rule, the comprehensive examination will be written.

The School of Music master’s comprehensive examinations are offered each semester at the same time:

- **Fall:** the first full week in November
- **Spring:** the first full week in April
- **Summer:** the first Saturday following July 4

Exact dates and times are determined by the graduate adviser and are publicized as soon as possible.

Students must register for the exam two months (minimum) prior to taking the exam by calling (601) 266-5543.

The coordinator of Graduate Studies must receive results of the comprehensive examination in time to notify the college dean no later than the last day for presenting signed theses to the dean’s office.

A student who fails the comprehensive examination may repeat the exam once; the test must be repeated within one year of the first comprehensive examination.

Advisory committee

During the first term of full-time residence or before nine (9) hours of graduate credit have been earned, the student and the student’s major professor select those faculty who will serve as the student’s advisory committee.

The major professor and the student shall develop a degree plan. In those cases where a student is required to take additional coursework beyond the minimum required by the degree, the advisory committee will counsel the student and plan the program of studies.

This committee will submit questions for the comprehensive examination and grade it.

The advisory committee will approve the recital repertoire, will attend the recital,* and will grade the performance as satisfactory (S) or unsatisfactory (U); this grade, indicating the majority opinion of the advisory committee, must be recorded on the recital program and submitted to the academic adviser.

Should a recital be judged unsatisfactory by a majority of the committee, another recital, at a date determined by the advisory committee, must take place. Should a recital be canceled or postponed until a succeeding semester, the recital will be graded “E” (course in progress). When the grade of E is given, the student must re-register for the course and receive a letter grade for that course.

In degree plans that provide flexibility and in those cases where a student is required to take additional coursework beyond the minimum required by the degree, the advisory committee will counsel the student and plan the program of study.

Master of Music Degree—Performance (32 hours)

Candidacy Audition

All students must audition for an appropriate faculty jury. Unless stipulated otherwise (i.e., Brass Performance, Percussion Performance, Piano Performance, Voice Performance), an audition tape will suffice. This audition must be deemed satisfactory before one can be declared a candidate for the master’s degree (i.e., before one completes nine (9) hours of graduate work; see Degree Candidacy). Early auditions are encouraged. At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation.

In all instances other than those in bold-face below, the audition must be at least 30 minutes in length and must include three works of contrasting style, preferably representing three different periods in music. (Repertory lists with representative works are available upon request. Write: [Name of Instrument] Professor, School of Music, The University of Southern Mississippi, 118 College Drive #5081, Hattiesburg, MS 39406-0001.)

**Brass Performance:** For those majoring in brass performance a tape will not suffice; the candidacy audition must be a full recital for the Southern Miss brass faculty.

**Percussion Performance:** For those majoring in percussion performance, the candidacy audition may be on cassette; the applicant should demonstrate proficiency on timpani and mallet keyboards and should include a multiple-percussion performance.

**Piano Performance:** For those majoring in piano performance, the audition must be memorized, be at least 30 minutes in length, and be performed before the piano faculty; it must include works from at least three different periods in music (e.g., Baroque, Classical, Romantic, Impressionist, or Contemporary).
Voice Performance: An audition cassette will satisfy preliminary expectations, but before completing nine (9) hours of graduate work, the student must also sing for a faculty committee and fulfill the requirements below.

Voice performance majors must demonstrate, by audition (1) advanced vocal technique; (2) good diction in Italian, French, German, and English; and (3) good vocal quality and musicianship. The repertoire must be memorized and include (1) an aria from opera or oratorio; (2) a 17th- or 18th-century Italian song or aria; (3) a German Lied; (4) a French Melodie; and (5) a song in English.

Further, the student’s transcript(s) must show grades of C or better in two years of foreign language (any combination of two of the following: German, French, and Italian) and at least one course in diction for singers. Students lacking these will be required to pass these courses in addition to the requirements for the degree. In lieu of coursework, satisfactory performance on language exams, administered by the Southern Miss Department of Foreign Languages and Literatures, is acceptable.

Specific areas in which this degree may be earned are:

- Bassoon
- Oboe
- Trombone
- Clarinet
- Organ
- Trumpet
- Euphonium
- Percussion
- Tuba
- Flute
- Piano
- Vaola
- Guitar
- Piano Accompanying
- Violin
- Harpsichord
- Saxophone
- Violoncello
- Horn
- String Bass
- Voice

*Before scheduling a recital, the student must ascertain that all members of the advisory committee can attend. At least 14 days before the recital, the student should issue a written invitation to each member of his or her committee.

Music History and Literature Electives: .................................................................6
(Mus 630 History Survey (3) may be required)
Music Theory Electives: .........................................................................................6
(MUS 620 Theory Survey (3) may be required)
Literature (primary performance medium): ..........................................................2
(MUS 692, or MUS 546 (instrumental) or MUS 540 or 541 (vocal)
Pedagogy (primary performance medium): ...........................................................2
MED 692, or MED 550 (vocal)
Applied Music (primary performance medium): ....................................................8
MUS 715 Recital: ......................................................................................................3
Electives*: ................................................................................................................5

*May be in appropriate related fields.

Performance-Piano Accompanying (32 hours)
Candidacy Audition:

Perform two contrasting selections from the standard piano repertoire. Additionally, present three chamber works representing three different periods in music; single movements are acceptable. One of these movements must be with at least three instruments including piano. The remaining two works should include a sonata with an instrument and piano and a work with voice and piano. The audition may be on videotape (VHS) or cassette recording. At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation.

MUS 540 or MUS 541 Vocal Literature: .................................................................2
*MUS 539 Diction (French, German, or Italian): ....................................................6
MUS 531 History of Opera: .......................................................................................3
MUS 551 Chamber Music: .......................................................................................3
Music Theory Electives (MUS 620 Theory Survey may be required): ......................6
Applied Music: ...........................................................................................................8
Electives (MUS 630 History Survey (3) may be required): .......................................2

Special Requirement: Accompany at least four full recitals; at least one must involve piano and two or more instruments. Students must register for MUS 797, Independent Study (1 credit hour minimum) the semester these accompanying requirements are met. This course, MUS 797, does not apply towards the degree.

*Appropriate substitutes: GER 505 and FRE 505.
Master of Music Degree—Church Music (32 Hours)

Undergraduate Prerequisite
Bachelor’s degree with a major in church music in a program equivalent to that at The University of Southern Mississippi.

Candidacy Audition
Pass a piano proficiency examination comprised of simple accompaniments and hymns. Audition in one of the following major performance areas (see below):

a) Organists must play a major work of Bach and at least one work from the 19th century and one work from the 20th century. A cassette tape is acceptable.

b) Singers must sing one oratorio aria and one of the following: German, Italian or French art song. A cassette tape is acceptable.

c) Conductors must demonstrate conducting competency by directing an audition/ rehearsal with one of the university choral ensembles. This must be accomplished by auditioning during the initial semester of one’s graduate work or by scheduling an appointment before seeking admission.

At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation.

MUS 553 Church Literature and Materials.....................................................................................................3
MUS 560 Administration of Church Music....................................................................................................3
MUS 562 Hymnology.....................................................................................................................................3
Music History and Literature (MUS 630 History Survey (3)

Music Theory (MUS 620 Theory Survey may be required)...........................................................................6
MUS 715 Recital.............................................................................................................................................1
Electives..........................................................................................................................................................3

Master of Music Degree—Conducting (35 Hours)

Candidacy Audition
Demonstrate advanced conducting competency by directing an audition rehearsal with a university performing ensemble. Play a full band or orchestral score at the keyboard. (Request audition repertory list by writing to the band, choir, or orchestra office.)

Three year’s experience as a conductor and considerable experience as a member of a performing ensemble are expected. Students are encouraged to submit a videotape of their conducting.

In some cases, students with minimal deficiencies will be admitted into the program on a conditional basis and will be required to complete undergraduate courses (not for graduate credit) before proceeding as a degree candidate. At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation.

MUS 548 or Choral Literature I (3)
or
MED 538 Band Literature I (3).......................................................................................................................3
MUS 549 Choral Literature II
or
MUS 550 Symphonic Literature .....................................................................................................................3
MED 731 Graduate Conducting I ..................................................................................................................3
MED 732 Graduate Conducting II ..................................................................................................................3
Conducting Elective (individual study with conductor of major ensemble)...................................................3

or
MUS 722 Analytical Techniques II ................................................................................................................3
MUS 723 20th Century Compositional Techniques.......................................................................................3
MUS 731 Performance Practices I ................................................................................................................3
MUS 732 Performance Practices II...............................................................................................................3
Music History and Literature (MUS 630 History Survey may be required)..................................................3
MUS 692 Special Problems in Scoring/Arranging (individual study with conductor).................................3
Applied Music.................................................................................................................................................3

NOTE: Knowledge of musical terms in French, Italian, and German must be demonstrated. Candidate must prepare and conduct at least one full-length concert with a major performing organization.
Master of Music Degree-Music History and Literature (34 Hours)

Undergraduate Prerequisites

Baccalaureate degree with a major in music and at least one course in each of the following: 16th century counterpoint, 18th century counterpoint, orchestration.

Special Examination

Demonstrate for the music history faculty the ability to translate excerpts in at least one foreign language (i.e., French, German, Italian, or Spanish) before completing nine (9) hours of graduate coursework. Prior to the first registration, demonstrate writing ability by submitting a research paper, preferably in music. At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation.

Select 9 hours from:

- MUS 533 20th Century Music (3)
- MUS 534 Ancient, Medieval, Renaissance Music (3)
- MUS 535 Baroque Music (3)
- MUS 536 18th Century Music (3)
- MUS 537 19th Century Music (3)

Select 6 hours from:

- MUS 711 Pedagogy of Theory (3)
- MUS 721 Analytical Techniques I (3) or
- MUS 722 Analytical Techniques II (3) or
- MUS 723 Seminar in 20th Century Compositional Techniques

Select 2 hours, any MUP prefix course.

Research courses: In addition to requirements above, the major professor and the advisory committee may specify that the student pass REF 601, Educational Research (3).

Master of Music Degree-Theory and Composition (32 Hours)

Undergraduate Prerequisite

Completion of a bachelor’s degree that included counterpoint and orchestration.

Candidacy Audition

Take and pass a keyboard skills examination by performing selections from R. Schumann, Album for the Young, Op. 68, and J. S. Bach, 371 Four-Part Chorales. Submit, prior to the first registration, the score (and tape, if available) of a three-movement sonata, 10 to 15 minutes in length, for one or more instruments. One may send additional scores. At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation.

Advanced Composition (6)

MUS 711 Pedagogy of Theory (3)

Analytical Techniques (6)

MUS 721 Analytical Techniques I (3) or
MUS 722 Analytical Techniques II (3) or
MUS 723 Analytical Techniques III (3)

Applied Music (3)

Music History and Literature Electives (MUS 630, History Survey (3) may be required) (6)

MUS 698 Thesis or
MUS 714 Composition Project (6)

Electives (Cannot be MUS 620, Theory Survey) (2)

NOTE: Contact the coordinator of Graduate Studies for details on an emphasis in theory or composition.

Master of Music Degree-Woodwind Performance and Pedagogy (32 Hours)

Candidacy Audition

Audition for the appropriate jury (tapes are acceptable), showing performance ability on at least two woodwind instruments: flute, oboe, clarinet, saxophone, bassoon. A 3.0 GPA is required for graduation.

Primary Woodwind Instrument (6)
Secondary Woodwind Instrument...................................................................................................................4
Three Remaining Woodwind Instruments.................................................................................................6
MUS 715 Recital (two recitals)......................................................................................................................2
MED 734 Woodwind Techniques and Materials............................................................................................2
MUS 692 Special Problems: Woodwind Literature........................................................................................2
Music History and Literature Elective (MUS 630, History Survey (3) may be required)..............................3
Music Theory Elective (MUS 620, Theory Survey (3) may be required).......................................................3
Electives (3 hours must be at 600 level or higher)..........................................................................................4

NOTE: Selection of specific primary, secondary, and minor instruments is at the option of the student in consultation with his or her graduate advisory committee and with approval of the auditioning committee. Normally, the student will be expected to select a primary/secondary combination from one of the following: single reed/double reed, single reed/flute, double reed/flute. Study of the primary and secondary instruments must embrace at least two semesters. Requirements for MUS 715 under this degree program will include two recitals, each receiving one semester hour credit. These recitals may consist of one chamber music program and one solo program, or a combination of chamber and solo music within both recitals. The primary and secondary instruments must be performed in each recital; the remaining instruments must be performed at least once, with a minimum of one minor instrument represented on each program.

Master of Music Education Degree (30 Hours)

Undergraduate prerequisite
Completion of a bachelor’s degree in music education at The University of Southern Mississippi or an equivalent program that included student teaching and state licensure. At least 18 hours of coursework must be at the 600 level or higher. A 3.0 GPA is required for graduation. The master of music education degree can be earned in two summers (12 hours each) plus two transfer classes (six hours). Contact the Summer Program in Graduate Education for additional information, (601) 266-4477.

Doctoral Degrees

Each student has final responsibility to ascertain that he or she has complied with all applicable catalogue requirements for graduation. Faculty and advisors assist students in developing their programs, but they cannot waive or vary degree requirements as these appear in the University Bulletin. Students must read the “Doctoral Degree Requirements” section of this Bulletin; that which follows pertains to School of Music practices and policies and it amplifies Bulletin statements.

Three doctoral degrees are available in the School of Music: the doctor of music education, the doctor of philosophy in music education, and the doctor of musical arts. A 3.0 GPA is required for graduation.

Students pursuing the doctor of musical arts degree do so with an emphasis in performance and pedagogy. Specific areas in which the DMA may be earned are:

- Bassoon
- Clarinet
- Composition
- Conducting
- Euphonium
- Flute
- Guitar
- Harpsichord
- Horn
- Oboe
- Organ
- Percussion
- Piano
- Saxophone
- String Bass
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Violin cello
- Voice

Admission Requirements: Doctoral Degrees

In addition to acceptable grades (see general admission requirements) and GRE scores, successful applicants to the doctoral program must have an appropriate baccalaureate or master’s degree with a major in music, an acceptable candidacy audition (for DMA degrees), strong letters of recommendation, and successful personal interviews. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the School of Music. Members of all underrepresented groups are strongly encouraged to apply.
Acceptance to the School of Music requires students to meet expectations beyond these requirements; see “Degree Candidacy.”

Students who are unable to meet regular admissions standards may be considered for conditional admission. (For details concerning conditional admission, see “Admission Requirements and Procedures” in this Bulletin.) Please note: The Graduate Record Examination is required for both conditional and regular admission.

Important Note: Acceptance into the doctoral degree programs of the School of Music requires that students meet expectations beyond those stipulated in the Bulletin; see “Acceptance into the School of Music,” in this Bulletin.

Ensemble Participation: Doctoral Degrees
All full-time doctoral students majoring in music or music education are required to participate in a major ensemble during their first four terms of residence. A maximum of two (2) hours of graduate credit earned from ensemble work may be counted toward a degree. The ensemble in which one participates will be determined by the student’s major applied area and area of interest. The following are considered to be appropriate major ensembles to fulfill this requirement: Orchestra, Band, Southern Chorale, Jazz Lab Band, Hattiesburg Choral Union, University Singers, and Opera/Music Theatre. Exceptions may be granted to doctoral students in residence during summer semesters.

For doctoral students whose major instrument is piano, the following would constitute ensemble participation: performing as a pianist with the Orchestra, Band, Southern Chorale, Jazz Lab Band, Hattiesburg Choral Union, University Singers, Opera/Music Theatre, Chamber Music, Collegium Musicum, or other appropriate major ensemble. Studio accompanying may fulfill the ensemble requirement if approved by the piano faculty. (These students should register for their own studio teacher’s section of MUS 792, Special Problems.)

Doctoral Exception: On rare occasions a doctoral student may be excused from ensemble participation for one semester of residence if there is a bona fide academic reason for such. This ensemble participation waiver must be requested in writing and approved by the student’s advisory committee.

Acceptance into the School of Music: Doctoral Degrees
Acceptance: Admission to graduate study does not imply acceptance into the School of Music for doctoral-level study. A maximum of nine (9) hours of graduate work earned before one has gained admission to the School of Music can be applied towards a degree. To gain acceptance, one must:

a) Performance and Pedagogy: possess a master’s degree; Music Education: possess a master’s degree in music with state licensure and at least three years of successful teaching experience (K-12);
b) take diagnostic entrance examinations the Friday before school begins;
c) pass a candidacy audition (DMA in performance and pedagogy, applied areas only) prior to or during the first term of full-time residence or before completing nine (9) hours of course work;
d) pass a candidacy audition (DMA in performance and pedagogy, conducting area only) prior to the first term of enrollment;
e) submit and gain approval for a portfolio of one’s representative scores or recordings prior to the first term of enrollment (DMA in performance and pedagogy, composition area only);
f) pass all entrance examinations, DMA special examinations (see specific areas in which the DMA may be earned);
g) consult with the academic adviser, have a major professor and an advisory committee appointed, and begin planning the total degree program early in the first term of attendance or before nine (9) semester hours have been earned;
h) complete at least nine (9) hours of graduate course work relevant to one’s degree plan with a cumulative grade-point average of 3.5;
i) by the end of the second semester, all doctoral students must complete a Degree Planning Sheet, approved by the advisory committee. (Doctoral students should be counseled by their advisory committee before registering for courses); pass qualifying exams.

Diagnostic Entrance Examinations: Doctoral Degrees
All entering doctoral students are required to take a Diagnostic Entrance Examination consisting of three parts: music theory, music history, and expository writing. The purposes of this examination are (1) to determine if the student has foundation-level deficiencies that need to be addressed in order for him/her to be successful in doctoral-level courses, on the qualifying examinations and on the comprehensive examinations; and (2) to provide information that will guide the student and his/her adviser in selecting useful and appropriate academic courses.
Students who fail either or both of the theory and history sections of the diagnostic examination will be required to enroll in the appropriate review courses (MUS 620 and/or MUS 630) during their first semester of full-time study. Exceptions to this requirement may be granted for the spring semester only and will be considered on a case-by-case basis. Students are required to earn a grade of “B” or better in that/those course(s). Students who fail either the theory or history sections (or both) and intend to pursue graduate study part time must complete the appropriate review course(s) before completing 12 credit hours. In some instances a student may be required to enroll in one or more appropriate undergraduate courses. Credits earned in these courses (both the review courses and any required undergraduate course) are not counted toward the doctoral degree.

Students who do not pass the expository writing section of the diagnostic examination may be advised to take an appropriate writing course in the English department and will be required to take MUS 500 (“Writing about Music”), even if it is not one of their degree requirements.

All diagnostic examination results will be sent to the student’s major professor so that the major professor and the student can plan an initial program of study. This program of study may be amended after the student’s advisory committee is appointed or upon completion of the qualifying examination.

The diagnostic entrance examinations are administered on campus each Friday preceding the first day of classes in fall, spring, and summer.

9 a.m. - Theory
10:30 a.m. - Music History and Literature and Expository Writing
1-5 p.m. - Advisement/Registration/Fee Payment

These examinations are also administered through the mail. To make the testing process feasible, a proctor, preferably a teacher in a nearby college or university, may administer the examination. Submit the name and address of the proctor to the coordinator of graduate studies.

### Qualifying Examinations: Doctoral Degrees

All doctoral students are required to complete a qualifying examination consisting of three written components (music theory, music history, and the student’s major area) and an interview with the student’s advisory committee. This examination must be completed at the end of the second semester of full-time doctoral study. Part-time students must complete this examination at the end of the third semester of enrollment. The purpose of the qualifying examination is to determine if, after a year of doctoral coursework (which may include review courses) and of independent study, the student is academically qualified to proceed with doctoral study. In order to be successful on the written portions of this examination, the student must be able to think critically and be able to synthesize material from a variety of sources. Sample examinations may be available to students in some areas. The interview will occur after the written parts of the examination are completed and may include questions about the written portions of the examination, about material not covered on the written portions, and about the student’s background and future plans. The qualifying examination is not complete until the interview has taken place. Doctoral students should consult their major professor and the coordinator of graduate studies regarding examination policies beyond those listed in the Bulletin.

The emphasis area portion of the qualifying examination (e.g., music education, conducting, music performance, etc.) will be graded by those members of the student’s committee representing the emphasis area. The music theory and history portions will be graded by theory and history faculty, respectively.

A scale of one to five will be used in grading qualifying examinations, with grades of one-two indicating a failure and grades three-five indicating passing. A student who fails any part of the qualifying examination may, with the permission of his or her committee, repeat it. However, any coursework (in the area of the exam which the student failed) enrolled in after that initial failure and before the qualifying examination is passed in its entirety will be considered to be remedial and will not count as doctoral coursework.

For example, if a student should fail all sections of the qualifying examination in November, the courses taken during the fall semester will count toward the degree. However, courses taken during the following spring semester would not, even if the student passes the qualifying examination before the end of that spring semester (i.e., in April). As well, if a student should fail one portion (e.g., theory) of the qualifying examination in November, the courses taken in said area during the fall will count toward the degree. However, courses in said area taken during the following spring semester would not, even if the student passes the qualifying examination in that area before the end of that spring semester (i.e., in April). After an initial failure (in whole or part), if permission for a retake is granted, the qualifying examination must be retaken at the end of the next regular semester of full-time enrollment, but not later than two semesters after the failure (including the summer semester).
The School of Music doctoral qualifying examinations are offered each semester at the same time:

- **Fall:** the first full week in November
- **Spring:** the first full week in April
- **Summer:** the three successive Saturdays following July 4

Exact dates and times are determined by the graduate adviser and are publicized as soon as possible. **Students must register for the exam two months (minimum) prior to taking the exam by calling (601) 266-5543.**

**Jury Requirements/Final Examinations: Doctoral Degrees**

Students who are enrolled in MUP private lessons in their principal applied area and who are seeking the doctor of musical arts degree with emphasis in performance must perform a jury for the appropriate applied faculty. All other doctoral students enrolled in MUP private lessons must perform a final examination for the applied teacher. At the finish of each semester and summer term, the applied teacher must complete a Final Jury/Examination Form for each student and file it with the academic adviser. Students enrolled in applied music who do not take a final examination or perform for a jury will receive the grade “I” or “F.” All grades of “I” must be completed by the end of the next semester (excluding summer term). See Grading System in this Bulletin.

The applied teacher must record and submit any exception to this policy to the coordinator of graduate studies; signatures of all appropriate area faculty must be included on this form.

**Comprehensive Examinations: Doctoral Degrees**

At the completion of all coursework and other required examinations, the doctoral student is required to successfully complete a written comprehensive examination in the student’s area of specialization, music theory, and music history. The examination in the student’s area of specialization will be prepared and graded by the student’s committee members from that area. The examinations in music theory and history will be prepared and graded by the appropriate area faculty. The candidate’s committee members representing music history and theory will deliver the recommendation of each of those areas to the full committee. The full committee will meet to discuss the examination and recommend a grade of “pass” or “fail” for each area (specialization, music theory, music history). This meeting will be held during (or before) the week of final examinations for the fall and spring semesters. In those instances where the comprehensive examination is taken during the summer semester, this meeting will be held within the first three weeks of the fall semester. In any case, the coordinator of graduate studies must receive results of the comprehensive examination in time to notify the university registrar and the dean no later than the last day for presenting signed dissertations to the dean’s office.

When it is determined that the comprehensive examination is unsatisfactory, in whole or in part, the student may be granted a second examination. The examination must be retaken within one year of the first, and the student will be required to repeat only those sections of the examination judged to be unsatisfactory. It is strongly recommended that the student confer with his/her committee members and other appropriate area faculty for suggestions or assistance in preparation for this repeat examination. If the second examination is determined to be unsatisfactory, in whole or in part, the student cannot earn a doctoral degree in music or music education at The University of Southern Mississippi.

The purpose of this comprehensive examination is to evaluate the student’s ability to analyze and synthesize material from a variety of sources and to communicate that knowledge in written form. **Success in coursework does not guarantee success on the comprehensive examination.** Most students will need to undertake a serious program of independent study and preparation in addition to any or all required coursework in order to complete the comprehensive examination successfully. Doctoral students should consult their major professor and the coordinator of graduate studies regarding examination policies beyond those listed in the Bulletin.

The School of Music doctoral comprehensive examinations are offered each semester at the same time:

- **Fall:** the first full week in November
- **Spring:** the first full week in April
- **Summer:** the three successive Saturdays following July 4

Exact dates and times are determined by the graduate adviser and are publicized as soon as possible. **Students must register for the exam two months (minimum) prior to taking the exam by calling (601) 266-5543.**
Oral Defense: Doctoral Degrees
After the dissertation has been accepted and after all required coursework has been completed, but at least four weeks before the candidate is scheduled to receive the degree, a final oral defense of the dissertation and related fields will be conducted by the student’s advisory committee and any other faculty members designated by the dean. The examination will be open to any member of the graduate faculty.

Advisory Committee: Doctoral Degrees
Early in the first term of full-time residency or before nine (9) hours of graduate credit have been earned, the student, and the student’s major professor select those faculty who will serve as the student’s advisory committee. The advisory committee must be appointed before one takes the qualifying examination.

The major professor and the student shall develop a planning sheet of coursework based upon qualifying examination information together with course requirements. In those cases where a student is required to take additional coursework beyond the minimum required by the degree, the advisory committee will counsel the student and plan the program of studies.

Recital Requirements:
The student must ascertain that all members of the advisory committee can attend before scheduling a recital.* At least 14 days before the recital, the student should remind the members of the committee by issuing a written invitation to each. Doctoral recitals shall not be scheduled to occur during the week of final examinations.

If recitals are required by the student’s degree plan, the advisory committee must:
1) Approve the repertoire, attend the recital, and grade the performance as “satisfactory” (S) or “unsatisfactory” (U).
2) This grade, indicating the majority opinion of the advisory committee, must be recorded on the Graduate Examination Report and submitted to the academic adviser.
3) Should a recital be canceled or postponed until a succeeding semester, the recital will be graded “E” (course in progress). When the grade of “E” is given, the student must re-register for the course and receive a letter grade for that course.
4) Should a recital be judged “unsatisfactory”, another recital, at a date determined by the advisory committee, must take place.
5) A student who receives two grades of “unsatisfactory” in meeting degree recital requirements will not be allowed to continue as a candidate.

*When all members of a committee cannot attend a conducting degree recital, the concert will be videotaped. At a date following the concert, committee members will meet as a group. At that time, the committee will view the tape and evaluate the degree recital. The chairperson of the advisory committee must be present at both the concert and the video viewing.

Dissertation
A. The dissertation topic must be approved by the student’s major professor and advisory committee and must be an original and significant contribution to knowledge in the chosen field. The Human Subjects Protection Review Committee must also approve the topic.

B. Once a topic has been approved, the student must enroll in MUS 797, MED 797, MUS 898, or MED 898 in each semester/term until the degree is completed.

C. A separate publication outlining university requirements concerning the preparation of dissertations is available.

D. Additionally, instructions specific to the development of an approved topic in Music (see required pamphlet “Prospectus Guide for the Doctor of Musical Arts Degree”) or Music Education must be followed. These may be obtained from the graduate adviser.

Documents
The doctoral student must be sure that a number of documents are filed with the dean’s office. Please see “Documents-Doctoral Degree Requirements,” this Bulletin.

Residency
Students must meet the residency requirements specified in this Bulletin.
Degree Plans

Doctor of Musical Arts Degree

Performance and Pedagogy (all areas except Conducting and Composition)

Candidacy Audition*

All students must audition for the appropriate area faculty (generally, taped auditions are not acceptable.) This audition must be deemed “satisfactory” before one can be accepted into the School of Music (i.e., before completing nine (9) hours of graduate work). Early auditions are encouraged, and a high level of performance proficiency is expected.

*In lieu of a candidacy audition, with the approval of the School of Music Graduate Committee, students who will complete the master of music degree in performance at Southern Miss may use their graduate recital. The appropriate faculty must attend the recital, and the printed program must state the total purpose of the concert, (e.g., “This recital is given in partial fulfillment of the requirements for the degree master of music in performance, and it also serves as an audition for acceptance into the doctor of musical arts curriculum in the School of Music.”) The student must begin doctoral study within one year of this audition.

In all instances other than those in bold-face below, the audition must be at least 30 minutes in length and must include three works of contrasting style, preferably representing three different periods in music.

(Repertory lists with representative works are available upon request. Write: [instrument] professor, School of Music, The University of Southern Mississippi, 118 College Drive #5081, Hattiesburg, MS 39406-0001.)

Brass Performance: For those majoring in brass performance, the candidacy audition must be a full recital for the Southern Miss brass faculty.

Percussion Performance: For those majoring in percussion performance, the applicant should demonstrate proficiency on timpani, on mallet keyboards, and should perform a multiple-percussion performance.

Piano Performance: For those majoring in piano performance, the audition must be a full recital, memorized, performed before the piano faculty; it must include works from at least three different periods in music (e.g., Baroque, Classical, Romantic, Impressionist, Contemporary). The faculty may select portions from the repertoire submitted.

Voice Performance: Voice performance majors must demonstrate, by audition, (1) advanced vocal technique; (2) good diction in Italian, French, German, and English; and (3) good vocal quality and musicianship. The repertoire must be memorized and include (1) an aria from opera or oratorio; (2) a 17th- or 18th-century Italian song or aria; (3) a German Lied; (4) a French Melodie; and (5) a song in English.

Special requirement, Voice Performance: The student’s transcript(s) must show grades of C or better in at least one course in diction for singers and in two years of foreign language, German, French, or Italian (may include any combination of those languages). Students lacking these will be required to pass such courses in addition to the requirements for the degree. In lieu of coursework, satisfactory performance on language exams, administered by the Southern Miss Department of Foreign Languages and Literatures, is acceptable.

All D.M.A. Areas Except Conducting and Composition

The DMA student will be required to take MUS 500, 702, 731, 732, and 898. The remainder of the coursework will be determined in light of the student’s qualifying examination, entrance audition, his or her interests or professional goals, and the counsel of the major professor and graduate advisory committee. In planning this program, the following minimum distribution of graduate courses (including master’s degree work) is required: thirty (30) semester hours in performance, music studio study and recitals, fifteen (15) semester hours in music history and literature, nine (9) semester hours in music theory, and the remainder of the program in approved electives which may include six (6) semester hours in a cognate field of study. A 3.0 GPA is required for graduation.

Three recitals will be required in addition to the entrance audition. One must be a solo recital, one a lecture recital, and the third chosen from the following options: (a) performance of a concerto with orchestra, (b) performance of a major role in an opera, (c) performance of a major role in an oratorio, (d) a full-length recital of chamber music, or (e) a second solo recital. (Note: To use options “a” through “d,” permission of the student’s advisory committee must be received before the semester in which the event will occur.) As a general rule, not more than one doctoral recital may be presented by a candidate during any academic term, nor more than two during any nine-month period. Rare exceptions will be permitted, but under rigidly controlled procedures. See the graduate adviser for details.
Research Tools
One language will be required in the degree. (For specifics, see General Degree Requirements, Foreign Language, in this Bulletin.) Others may be required by the major professor and graduate advisory committee.

The D.M.A. dissertation, required for completion of the degree, consists of two parts. Part I must be a written thesis giving evidence of the candidate’s ability to make a scholarly investigation of limited scope. Part II must include all recital programs, concert programs, and program notes presented during the student’s residency. D.M.A. students, performance and pedagogy (all areas except Conducting and Composition) may choose an alternative to the traditional dissertation requirement. This “Track 2” option is only available with the major professor’s and advisory committee’s approval. See the graduate adviser for further information.

Conducting Area
Acceptance of a prospective student into the D.M.A. program in the conducting area requires a previously earned master’s degree in music or music education. The conducting faculty must be satisfied that the student is qualified to pursue the D.M.A. at The University of Southern Mississippi.

Students applying for entrance into the D.M.A. program in the conducting area must:

a) provide an application that includes a current resume; a repertoire list specifying works conducted in performance; three letters of recommendation which center on the applicant’s conducting abilities; a videotape of a rehearsal conducted by the applicant; and a video or audio tape of a performance conducted by the applicant.
b) complete an interview and an audition. After review of the application by the conducting faculty, the applicant may be invited to an interview-audition on campus. It will include 1) a session with the conducting faculty to assess one’s musical proficiencies and 2) a rehearsal of an appropriate university ensemble to assess one’s rehearsal technique.

In the interview, the applicant will demonstrate the following:

a) musicality, preferably by showing proficiency as a performer on a standard orchestral or band instrument, on a standard keyboard instrument, or as a singer
b) keyboard proficiency above the basic level in technique, musicianship, and open-score reading;
c) a high degree of competence in ear-training and sight-singing
d) thorough knowledge of the traditional orchestral and band instruments and their transpositions;
e) acquaintance with a broad range of appropriate repertoire from various periods
f) detailed knowledge of works from the applicant’s repertoire list

The audition, a rehearsal, will use repertoire selected in consultation with the appropriate faculty and will last for approximately 30 minutes. The applicant’s competence in effective gestural and verbal communication will be assessed. For applicants admitted to the program with deficiencies in any of the above, no degree credit will be granted for any required remedial work.

The D.M.A. student will be required to take either MUS 500 or MED 825. Also required are MUS 702, 731, 732, and 898; MED 731, 732, 733; MUP 896 and 897. The remainder of the coursework will be determined in light of the student’s qualifying examination, entrance interview-audition, interests or professional goals, and the counsel of the major professor and graduate advisory committee. In planning this program, the following minimum distribution of graduate courses (including master’s degree work) is required: thirty (30) semester hours in performance, conducting, and recitals, fifteen (15) semester hours in music history and literature, nine (9) semester hours in music theory, and six (6) hours of approved electives which may include a cognate field of study (a course in foundations of music education is recommended).

Recitals: Two concerts and a lecture recital will be required. Repertoire for these concerts must be approved in advance by the student’s advisory committee. When practical, the repertoire will include works for both vocal and instrumental components. As a general rule, not more than one doctoral concert/recital may be presented by a candidate during any semester nor more than two during any nine-month period. Rare exceptions will be permitted, but only under rigidly controlled procedures. See your advisory committee for details.

Satisfactory competence in English and German, French, or Italian is required for candidacy. Competence in a foreign language can be demonstrated by:

a) completing three semesters of an undergraduate-level language course with a grade of B or higher;
b) completing two semesters of a graduate-level course in German or French in reading for research with a grade of C or higher.

Note: Credit for graduate courses in foreign languages will not be granted toward the degree.
The D.M.A. dissertation, required for completion of the degree, consists of two parts.

Part I must be a written thesis that is an original and significant contribution to the knowledge of the field; it must give evidence of the candidate’s ability to make a scholarly investigation of limited scope. Part II must include all recital programs, concert programs, and program notes presented during the student’s residency.

**Composition Area**

Acceptance of a prospective student into the D.M.A. program in the composition area assumes a previously earned master’s degree in composition or the equivalent, provided the composition faculty is satisfied that the student is qualified to pursue the D.M.A. at The University of Southern Mississippi. A high level of proficiency in composition and extensive knowledge of literature are expected.

Students applying for entrance into the D.M.A. program in the composition area must submit a portfolio containing representative scores or recordings of their compositions prior to the first term of enrollment at The University of Southern Mississippi.

The D.M.A. student will be required to take MUS 500, 702, 731, 732, and 898. The remainder of the program will be determined in the light of the student’s portfolio evaluation, his or her qualifying examination, his or her interests or professional goals, and the counsel of the major professor and graduate advisory committee. In planning this program, the following minimum distribution of graduate courses (including master’s degree work) is required: Thirty-nine (39) semester hours in composition and music theory, fifteen (15) semester hours in music history and literature, six (6) semester hours in a related field of study, and the remainder of the program in approved electives.

The student will write compositions totaling at least two (2) hours performing time. Up to thirty (30) minutes of previously written compositions may be accepted as part of these two hours. Compositions will be for orchestra, band, chorus, ensembles, and soloists demonstrating competence in writing for all orchestral and band instruments as well as for the solo voice. The music should encompass levels of difficulty from junior high school to professional standards. The composer will write commentaries for each work, including program notes and rehearsal suggestions. All works, including parts, must be in duplicative format.

One recital of the composer’s works will be given, with the composer commenting on each composition.

One language will be required, chosen from French, German, or Italian.

The D.M.A. dissertation, required for completion of the degree, will consist of the commentaries, program notes, and a full score of a work composed during the student’s doctoral study.

**Doctor of Music Education Degree**

**Doctor of Philosophy in Music Education Degree**

General requirements for the Doctor of Philosophy and Doctor of Music Education (the Doctor of Music Education general requirements are the same as the Doctor of Education degree) are found in another section of this Bulletin. The College of Arts and Letters further stipulates the following requirements.

**Admission:** See “Admission Requirements” and “Acceptance,” a, b, c, f, g, and h (in this Bulletin). One must possess a master’s degree in music with state licensure and at least three years of successful teaching experience (K-12).

**Research Tools:** A candidate for the Doctor of Music Education degree is required to demonstrate proficiency in statistics or computer science; at the discretion of the student’s graduate advisory committee, the candidate may be required to demonstrate a reading knowledge of one modern foreign language. The School of Music prescribes the following sequence for the statistics requirement: REF 602, REF 761, REF 762. Candidates for the Doctor of Philosophy degree in music education must comply with the language requirements as specified in the School of Music Doctoral Handbook. Further research tools for Ph.D. candidates will be determined by the candidate’s advisory committee.

**Degree Requirements**

The following courses are required: REF 601 (or equivalent), MUS 702 (or equivalent), MED 755, 825, 826, and 898. The remaining coursework will be determined by the candidate’s qualifying
examination, his or her interests, and the counsel of the major professor and graduate advisory committee. In planning this program, the following minimum distribution of graduate courses (including master’s degree work) is required:

Thirty (30) semester hours in music education, nine (9) semester hours in music history and literature, nine (9) semester hours in music theory, nine (9) semester hours in professional education, three (3) semesters in studio performance study, and the remainder of the program in approved electives. A 3.0 GPA is required for graduation. Although this Bulletin states that eighty-four (84) semester hours are required for doctoral degrees, it should be clearly understood that some candidates will be unable to receive a degree on the basis of this minimum. The distinction implied by the degree and the traditions related to it require comprehensive knowledge and demonstration of a high degree of proficiency in the major field and related areas of study as well as the ability to conduct advanced research.

Department of Philosophy and Religion

David M. Holley, Chair
118 College Drive #5015
Hattiesburg, MS 39406-0001
(601) 266-4518

The Department of Philosophy and Religion offers a course of study leading to the Master of Arts degree with a major in Philosophy, and a graduate minor in either Philosophy or Religion.

Master’s Degree Program

Requirements for Regular Admission to the Master’s Program

In evaluating applications, the department utilizes the following criteria: (a) submission of scores from the Graduate Record Examination, (b) undergraduate record, and (c) three letters of recommendation. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department. Generally, applicants have above a 3.0 on their grade point average. The department considers the trends of the grades and specifically the grades in philosophy. Applicants are encouraged (but not required) to submit a writing sample.

In addition to the criteria for regular admission, students whose native language is not English must also score at least 550 on the TOEFL examination. The department presumes that applicants who have fulfilled these requirements possess an adequate knowledge of English. If, upon the student’s arrival at the university, it is determined that he or she does not possess an adequate command of English, the department reserves the right to require appropriate remedial courses.

Students determined to have deficiencies in their undergraduate program will be required to remedy the deficiencies.

Members of all underrepresented groups are strongly encouraged to apply.

Requirements for Conditional Admission to the Master’s Program

In exceptional cases, students may be admitted conditionally. To remove conditional admission status, master’s students must earn a 3.0 on the first nine (9) semester hours of coursework numbered 500 or above or on all coursework taken while completing this nine (9)-hour requirement.

Curriculum Requirements

In addition to the general admission and academic requirements for all graduate programs as set forth in this Bulletin, candidates for the Master of Arts degree with a major in Philosophy may choose either the research thesis option or the applied thesis option:

A. Research Thesis Option

1. A total of thirty (30) semester hours of credit, with at least eighteen (18) hours of that work in courses numbered 600 and above. A 3.0 GPA is required for graduation.
2. A research thesis, for which the student receives six (6) hours credit toward the thirty (30) total required hours.

3. A comprehensive examination, normally taken after the completion of all formal coursework but before the thesis is officially begun. The comprehensive examination is intended to test the student’s general competence in philosophy.

4. An oral examination on the completed thesis. During the oral examination, the student will be expected to be able to explain and defend the ideas presented in the thesis.

5. A reading knowledge of one foreign language

6. Optional minor: With the approval of the director of graduate studies, a student may have a minor (including religion), consisting of nine (9) semester hours in a (single) field which is related to the student’s philosophical interests. Three (3) semester hours of that minor may then be counted toward the thirty (30) total required hours.

B. Applied Thesis Option

1. A total of thirty-three (33) semester hours of credit with at least eighteen (18) hours in courses numbered 600 and above. A 3.0 GPA is required for graduation.

2. An applied thesis which demonstrates the application of philosophical thought to a specific issue, problem or debate. The student will receive six (6) hours of credit for this applied thesis.

3. After satisfactory completion of the coursework, the student must take a comprehensive examination.

4. An oral exam must be taken on the completed applied thesis.

5. A reading knowledge of one foreign language

6. Optional minor: With the approval of the director of graduate studies, a student may have a minor (including religion), consisting of nine (9) semester hours in a (single) field which is related to the student’s philosophical interests. Three (3) semester hours of that minor may then be counted toward the thirty (33) total required hours.

Department of Political Science

Allan B. McBride, Chair
118 College Drive #5108
Hattiesburg, MS 39406-0001
(601) 266-4310

Davis, Greene, Lea, Lansford, McBride, Parker, von Herrmann, Wolfe

Master’s Degree Program

Requirements for Regular Admission to the Master’s Program

The Department of Political Science utilizes the following criteria for evaluating applicants to the master’s program:

1. The department prefers that applicants to the program have an undergraduate degree in political science. However, the applications of students who have an undergraduate degree in another discipline and who have nine or more hours of undergraduate coursework in political science with an average on those courses of at least 3.0 (on a 4.0 scale) will be considered.

2. The cumulative undergraduate grade point average (GPA) from all institutions attended as well as the trend of grades over the course of the undergraduate degree program is considered. The department looks especially at the final two years of an applicant’s undergraduate program. An overall GPA of at least 3.0 during the final two years of undergraduate study is preferred.

3. Applicants must take the Graduate Record Examination (GRE) before they can be admitted to the master’s program. The department looks for applicants who have a good balance among the parts of the GRE.

4. Applicants must submit two letters of recommendation. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department.
5. Members of underrepresented groups are encouraged to apply.

6. Applicants who do not meet the criteria for regular admission may, at the department’s discretion, be given conditional admission to the program. The requirements for removing the conditional status will be stated at the time of admission.

Master of Arts

Requirements for the Master of Arts degree include thirty (30) semester hours of coursework (18 hours of 600 level or higher), including a thesis, oral examination and thesis defense. A 3.0 GPA is required for graduation. Students are urged to take PS 511.

Master of Science

Requirements for the Master of Science degree include thirty-six (36) hours of coursework (18 hours of 600 level or higher), including PS 511 and PS 512. A thesis is optional. Passage of a comprehensive exam in three fields of political science and a 3.0 GPA are required for graduation. M.S. graduate students may select an outside minor of nine (9) hours which will count towards their thirty-six (36) hour total.

Dual Master’s Degree in Political Science and Library and Information Science

The Department of Political Science and the School of Library and Information Science offer a dual master’s program leading to the Master of Arts in Political Science and the Master of Library and Information Science degrees. Students must be admitted separately to each program. The total number of hours required for both programs is 60, including 3 hours of thesis in each program - 30 hours for the M.L.I.S. and 30 hours for the M.A. in Political Science. Students must satisfy the requirements of both degrees before the degrees will be awarded.

Students in the combined program must complete the following requirements:

**Political Science**
- PS 511 Research in Political Science (3 hrs)
- PS 698 Thesis (3 hrs)
- 24 hours in political science, chosen in consultation with the director of graduate studies in three of the following areas:
  - Public Administration- PS 571, 572, 573, 574, 770
  - Public Law- PS 580, 581, 582, 584, 585, 588, 589, 781
  - Political Theory and Methodology- PS 511, 512, 520, 521, 526, 721
  - International Relations- PS 531, 532, 535, 730, 731
  - Comparative Government and Politics- PS 550, 552, 555, 556, 557, 750

**Library and Information Science**

Required:
- LIS 501 Reference Resources and Services (3 hrs)
- LIS 505 Cataloging and Classification (3 hrs)
- LIS 511 Collection Development and Management (3 hrs)
- LIS 540 Information Ethics (3 hrs)
- LIS 605 Library Management (3 hrs)
- LIS 636 Information: The Library and Society (3 hrs)
- LIS 651 Introduction to Information Science (3 hrs)
- LIS 691 Thesis - Research in Library Science (3 hrs)

Electives: Two courses in LIS, 3 hours each, chosen in consultation with an academic adviser. Strongly recommended is at least one practicum (LIS 689, 3 hours).
Fields of political science

Political Theory and Methodology
511, 512, 520, 521, 526, 721

American Government and Politics
501, 502, 503, 504, 505, 506, 507, 508, 509, 700

International Relations
531, 532, 535, 730, 731

Comparative Government and Politics
550, 551, 552, 556, 557, 558, 597, 750

Public Administration
571, 572, 573, 574, 770

Public Law
580, 581, 582, 584, 585, 588, 589, 781

Students who plan to pursue doctoral studies are urged to take PS 511 or 512.

Comprehensive Examination

A comprehensive examination will be given at or near the end of the coursework in three of the fields of political science listed above.

Department of Speech Communication

Charles H. Tardy, Chair
118 College Drive #5131
Hattiesburg, MS 39406-0001
(601)266-4271

Convile, Erikson, L. Goff, Hosman, Meyer, Pood, Silanen, Tardy

The Department of Speech Communication offers the Master of Arts, Master of Science, and the Doctor of Philosophy degrees in Communication with a speech communication emphasis. These degrees are offered in cooperation with the School of Mass Communication and Journalism, which provides an emphasis in mass communication.

Admission

Admission deadlines for master’s students are the same as those published by the Graduate School. All admission materials for doctoral students seeking to enroll in spring, summer, and fall terms must be received by November 1, March 1, and July 1, respectively. Students seeking assistantships for the fall semester are strongly encouraged to apply prior to the March 1 deadline.

Admission requirements are the same as those of the university, with the following additions:

Applicants for the Master’s Program

Regular Admission:

Undergraduate Record—A cumulative GPA on the last 60 hours from all institutions of our applicants has ranged from 3.0 to 4.0. A 3.0 GPA is required; 3.0 GPA major is also required.

Graduate Record Examination—Scores from the GRE must be submitted.

Test of English as a Foreign Language—Applicants whose native language is not English must attain a TOEFL score of 550.

Letters of Recommendation—Three current letters of recommendation that refer to the student’s academic ability and preparation to pursue graduate study must be submitted. Normally these will be requested from faculty who have taught or supervised the student. The letters should be sent to the Department of Speech Communication.
Conditional Admission:

Undergraduate Record—The cumulative GPA of the last 60 hours from all institutions is usually 2.75 or better.

Graduate Record Examination—GRE scores must be submitted.

Test of English as a Foreign Language—Applicants whose native language is not English must attain a TOEFL score of 550.

Letters of Recommendation—Three current letters of recommendation that refer to the student’s academic ability and preparation to pursue graduate study must be submitted. Normally these will be requested from faculty who have taught or supervised the student. The letters should be sent to the Department of Speech Communication.

To remove conditional admission status, master’s students must earn a 3.00 on the first nine (9) semester hours of coursework numbered 500 or above or on all coursework taken while completing this nine (9) hour requirement. The courses must be taken in the School of Communication.

Applicants for the Doctoral Program

Regular Admission:

Master’s Record—A cumulative GPA of 3.5 or better is required.

Graduate Record Examination—Scores from the GRE must be submitted.

Test of English as a Foreign Language—Applicants whose native language is not English must attain a TOEFL score of 550.

Letters of Recommendation—Three current letters of recommendation that refer to the student’s academic ability and preparation to pursue graduate study must be submitted. Normally these will be requested from faculty who have taught or supervised the student. The letters should be sent to the Department of Speech Communication.

Statement of Goals—Applicants must submit a written statement of goals (500-750 words). This statement enables the applicant to discuss career plans, and to supply additional information that will assist in selecting those individuals who can most benefit from and contribute to the graduate communication programs.

Conditional Admission:

Students who do not meet the requirements for regular admission may be considered for conditional admission. The requirements for letters of recommendation and statement of goals are the same as for regular admission.

To remove conditional admission status, doctoral students must earn a 3.5 on the first nine (9) semester hours of coursework numbered 600 or above or on all coursework taken while completing this nine (9) hour requirement. The courses must be in Speech Communication.

International students must score at least 550 on the TOEFL examination before they can be admitted into any graduate program in the school. Members of all underrepresented groups are strongly encouraged to apply.

Master of Arts/Master of Science Major: Communication

Thesis Option Emphasis: Speech Communication

All students pursuing this program in Communication must complete the following requirements:

<table>
<thead>
<tr>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Substantive Core</td>
</tr>
<tr>
<td>SCM 600, SCM 735.</td>
</tr>
<tr>
<td>Research Methods</td>
</tr>
<tr>
<td>SCM 720, Electives*</td>
</tr>
<tr>
<td>SCM Electives**</td>
</tr>
<tr>
<td>Thesis</td>
</tr>
</tbody>
</table>

*The research methods electives will be chosen from SCM 721, SCM 722, REF 602, REF 761.
A minimum of thirty (30) semester hours must be completed, including thesis credit. Students may focus on organizational communication, interpersonal communication, or persuasion and social influence. At least eighteen (18) of these hours must be numbered 600 and above. All candidates must take a comprehensive written examination, submit a scholarly thesis, and defend the thesis. In addition to minimum credit and thesis requirements, the candidate for the Master of Arts degree must demonstrate proficiency in an approved foreign language not to be counted toward the credit hours requirement. A 3.0 GPA is required for graduation.

Master of Science Major: Communication

Non-Thesis Option Emphasis: Speech Communication

All students pursuing this program in Communication must complete the following requirements:

<table>
<thead>
<tr>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Substantive Core</td>
</tr>
<tr>
<td>SCM 600, SCM 735</td>
</tr>
<tr>
<td>Research Methods</td>
</tr>
<tr>
<td>SCM 720, Electives*</td>
</tr>
<tr>
<td>SCM Electives</td>
</tr>
</tbody>
</table>

*The research methods electives will be chosen from SCM 721, SCM 722, REF 602, REF 761.

A minimum of thirty-three (33) semester hours must be completed. Students may focus on organizational communication, interpersonal communication, or persuasion and social influence. At least eighteen (18) of these hours must be numbered 600 and above. All candidates must take a comprehensive written examination. A 3.0 GPA is required for graduation.

Doctor of Philosophy

A four-course core is required of all doctoral students: SCM 600 – Speech Communication Theory and Research; SCM 720 – Introduction to Graduate Research; SCM 722 – Communication Research Methods; and SCM 735 – Rhetorical Theory. Equivalent courses taken at another university may be accepted, pending approval of the student’s adviser, the instructor of the course, and the department chair. Additional coursework is selected in consultation with the doctoral committee.

Students take a minimum of 42 hours of substantive coursework, 12 hours of dissertation, and complete a sequence of courses in research methods, generally statistics. The student takes rigorous written and oral examinations and submits and defends a scholarly dissertation pertaining to the area he or she elects to emphasize (see section on General Requirements and Regulations). A 3.0 GPA is required for graduation.

Residency

Students must meet the residency requirements specified in this Bulletin.

Doctoral students may elect an outside minor consisting of twelve (12) hours approved by the major professor and academic committee members. Doctoral students must demonstrate proficiency in basic communication research design and methodology, as well as competency in basic statistics.

Department of Theatre and Dance

Francis X. Kuhn, Chair
118 College Drive #5052
Hattiesburg, MS 39406-0001
(601) 266-4994

Amacker, Aronsen, Dyer, Hapeic, Hayes, Judd, Kuhn, Mann, Mullican, Nielsen, Prieur, Reischman

The University of Southern Mississippi Department of Theatre and Dance is an accredited member of the National Association of Schools of Theatre. Theatre requirements are in accordance with the published regulations of this association.

The Department of Theatre and Dance offers programs leading to the Master of Fine Arts degree. To be eligible for admission, a student must have a bachelor’s degree and have completed a minimum of twenty-one (21) semester hours of undergraduate coursework in theatre or theatre-related areas. Those who do not meet the minimum entrance requirements may be admitted but will be expected to take undergraduate courses to cover deficiencies. It should be emphasized that
admission to the Graduate School does not imply acceptance of the student as a candidate for a graduate degree. (See general admission requirements and procedures as set forth in this Bulletin.)

Upon being admitted into a graduate program, the student will be assisted by the department graduate coordinator in selecting an appropriate graduate advisory committee composed of three faculty members, one of whom will serve as major professor.

Before the end of the first week of classes, an entrance interview and audition/portfolio review is required of all students entering a master’s program.

**Master of Fine Arts Degree in Theatre**

The objective of the Master of Fine Arts curriculum is to develop the educated performer by offering sound theory and intensive practical training simultaneously. Students in the Master of Fine Arts programs will elect a plan of study with specialization in one of the following areas:

1. directing
2. performance
3. design and technical theatre.

Regular admission to a Master of Fine Arts program requires:
1. the submission of Graduate Record Examination scores;
2. an undergraduate grade point average of at least 3.0 in the undergraduate major area or on the last 60 hours attempted;
3. acceptable performance audition or portfolio evaluations;
4. three strong letters of recommendation, which should address the applicant’s academic preparation in the area of theatre; and
5. successful personal interviews. The letters of recommendation should be sent to the department. Members of all underrepresented groups are strongly encouraged to apply. Performance students will be required to demonstrate their proficiency in a “showcase” performance during the first semester in residence. Design emphasis students must present a portfolio for review by the faculty prior to the initial registration. If no portfolio is available, a student may be admitted on a conditional basis until an acceptable minimum proficiency is determined.

Proficiency reviews will be required of all M.F.A. candidates at the conclusion of their second semester in residence.

The Master of Fine Arts program normally requires three years of full-time graduate study and the completion of a minimum approved program of sixty (60) hours with at least 18 hours of coursework at the 600 level or higher. A 3.0 GPA is required for graduation. It is recommended that the M.F.A. student spend at least one summer as a member of the Repertory Theatre program. The candidate will satisfactorily complete a creative project in his major area of emphasis and defend it orally before the Theatre faculty.
Women’s Studies Program Minor

Ellen Weinauer, Director
118 College Drive #5004
Hattiesburg, MS 39406-0001
(601) 266-6891

The Women’s Studies Program offers an interdisciplinary minor to students in any Southern Miss graduate degree program. The minor develops the student’s proficiency in a variety of feminist theories and research methodologies at an advanced level.

Requirements

1. a minimum nine (9) hours for the master’s-level minor, or a minimum of 12 hours for the doctoral minor
2. WS 601, “Theories and Methods of Research in Women’s Studies,” OR, by the director of Women’s Studies, approval of previous coursework in Women’s Studies as equivalent to WS 601
3. the remaining hours fulfilled in electives from approved courses numbered 500 or above, and distributed across at least two disciplines in addition to the discipline of Women’s Studies. These courses are:
   a. regularly-taught courses approved for the minor:
      ANT 552, Language, Gender, and Culture
      CJ 563, Family Law cross-listed as WS 527
      CJ 564, Family Violence cross-listed as WS 528
      ENG 568, British Women Writers cross-listed as WS 503
      ENG 578, American Women Writers
      ENG 678, Topics in Writing by Women cross-listed as WS 602
      HIS 577, Women in American Society cross-listed as WS 510
      NSG 692, Special Problems in Women’s Health (online)
      PS 505, Women and Politics cross-listed as WS 520
      SOC 515, Sociology of Gender; cross-listed as WS 525
   b. WS 692, Special Problems in Women’s Studies
   c. special topics courses in various disciplines which are being offered for one semester only, as approved by the director.
4. a minimum 3.0 GPA in all courses counting toward the minor

Since new courses may become available for Women’s Studies credit in any given semester, the candidate should be advised by the director of Women’s Studies as well as by the candidate’s major professor.

College of Business and Economic Development

Harold Doty, Dean
Farhang Niroomand, Associate Dean
118 College Drive #5021
Hattiesburg, MS 39406-0001
(601) 266-4659

Mission
The College of Business and Economic Development at The University of Southern Mississippi is committed to preparing our students for careers in business and to assisting organizations in South Mississippi. Accordingly, our programs emphasize

• values conducive to personal and career development
• the functions and environment of business
• communication and critical thinking
• the global dimensions of business
• ethical decision-making

To fulfill our mission, the college seeks a balanced and synergistic agenda of instruction, scholarly activity, and professional service.

Graduate Degree Programs
The following graduate degree programs are available on the Hattiesburg campus: a Master of Business Administration (M.B.A.) and a Master of Professional Accountancy (M.P.A.). These programs are accredited by the Association to Advance Collegiate Schools of Business. The College of Business and Economic Development also offers a Master of Science in Workforce Training and Development, a Master of Science in Economic Development, and a Doctor of Philosophy in International Development.

Graduate assistantships are available for all CBED graduate degrees. Students with good undergraduate records are encouraged to apply at the time they request admission.

Degree Requirements

Master of Business Administration

William Smith, Director
Dianna Ladnier, Assistant Director
Graduate Business Programs
118 College Drive #5096
Hattiesburg, MS 39406-0001
(601) 266-4653

Linda Jordan, Coordinator
Department of Business and Economic Development
730 E. Beach Blvd
Long Beach, MS 39560
(601) 867-2620

*Associate Graduate Faculty
Requests for application forms and other information may be addressed to the director of Graduate Business Programs, College of Business and Economic Development, The University of Southern Mississippi, 118 College Drive #5096, Hattiesburg, MS 39406-0001. Telephone inquiries may be made by calling (601) 266-4653.

A Master of Business Administration (M.B.A.) is also offered on the Gulf Coast. Requests for application forms and other information may be addressed as indicated above. Telephone inquiries can also be made by calling (601) 867-2620 at Gulf Park.

The M.B.A. program is available to students who have no previous coursework in business administration, as well as anyone whose background includes an undergraduate degree in a business discipline. Consequently, required M.B.A. coursework ranges from a minimum of 30 semester hours to a maximum of 48 semester hours. Specific degree requirements will be determined upon admission. Pre-program proficiency requirements include the ability to make use of word processing, spreadsheet, and database management software packages, as well as mathematical competence through managerial statistics and applied calculus.

The M.B.A. program is broad in nature and aimed at developing managerial competence from a general perspective. Specifically, the M.B.A. curriculum

- strengthens critical thinking skills that involve the ability to structure and analyze problems creatively and to process data to yield useful information
- fosters thinking that is global in scope and integrative of the economic, technical, political-legal, and social-cultural dimensions
- provides pragmatic managerial decision-making skills through instruction in the fundamentals of the functional areas of business (accounting, financial analysis, etc.)
- develops skills in dealing with behavioral issues including the ability to function effectively as a decision maker, motivator, and leader
- increases awareness of and appreciation for ethical values, human dignity, cultural diversity, social responsibilities, and the need for continuous self-development
- develops the ability to think strategically and to function effectively in an environment of rapid change
- enhances written and oral communication skills

Foundation course requirements are as follows:

<table>
<thead>
<tr>

<td>3</td>
<td>ELECTIVES</td>
<td>9</td>
</tr>
</tbody>
</table>

(total advanced coursework: 30 hours)

In some cases, pre-program courses should be taken prior to enrolling in M.B.A. classes.

Admission Standards

Admission to The University of Southern Mississippi’s M.B.A. and M.P.A. programs is selective. Regular admission is contingent on having graduated from a college or university accredited by a recognized regional accrediting agency. In addition, the Graduate Admissions committee of the College of Business and Economic Development recommends admittance only for those applicants whose academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in management and accounting.
In evaluating applications, the admission committee utilizes the following criteria:

**Undergraduate record** — The cumulative grade point average (GPA) from all institutions, the area(s) of concentration, the balance of verbal/communication and quantitative/analytical courses, and the trend of grades are considered.

**Graduate Management Admission Test (GMAT)** — The GMAT is sponsored and directed by the Graduate Management Admission Council, consisting of representatives from graduate schools of management. A candidate should strive to achieve a good balance of verbal- and quantitative-area scores.

**Test of English as a Foreign Language (TOEFL)** — Students whose native language is not English must achieve a TOEFL score of 550 or more.

**Work Experience** — While work experience is not required for admission, two or more years of relevant managerial responsibility strengthen the likelihood of admission to the program. Applicants are encouraged to submit resumes showing job responsibilities and accomplishments.

**Letters of Recommendation** — The admission committee reviews letters of recommendation to gain a more personal understanding of the applicant’s leadership ability in terms of communication and interpersonal skills. Each applicant should request three recommendation letters, at least one of which addresses the applicant’s academic preparation. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department or school.

**Essay** — The essay requirement provides the applicant an opportunity to demonstrate writing competency and communication skills. It also enables the applicant to provide specific examples of demonstrated leadership, to discuss career plans, and to supply additional information that will assist in selecting those individuals who can most benefit from and contribute to the graduate management or accounting programs.

Students may enroll in College of Business and Economic Development courses reserved exclusively for graduate students if they have regular admission to specific Southern Miss graduate programs and have taken the necessary prerequisites. In rare cases, students may be admitted conditionally. To remove conditional admission status, master’s students must earn a 3.0 on the first nine (9) semester hours of coursework numbered 500 or above or on all courses taken while completing this nine (9) hour requirement. Students with an undergraduate degree in business who have been accepted into the M.B.A. program may start on a full-time basis in the summer and fall semesters. Only part-time students will be allowed to start in the spring semester. Students who do not have an undergraduate degree in business but have been accepted into the M.B.A. program may start in the fall semester only as a full-time student.

Students transferring from other graduate schools must meet the admission requirements stated above. At the time of admission, transfer students may request that up to six (6) semester hours of approved credit be applied toward degree requirements. Once enrolled, transfer of credit between the Hattiesburg and the Gulf Coast campuses, as well as courses taken at other institutions, must be approved in advance.

**Academic Policies**

**Application of credits and dismissal** — Students who receive a grade of “C” in more than nine (9) hours of coursework will be dismissed from the program. Students may not apply hours toward a degree for courses in which there is a grade of “D”; students who receive grades of “D” in more than six (6) hours of coursework will be dismissed from the program. Students who receive grades of “F” in more than three hours of coursework will be dismissed from the program.

Upon approval by the director, students may repeat only one course to improve a cumulative grade point average. Students whose cumulative grade point average (GPA) or whose program GPA falls below 3.0 will be placed on probation. Students must attain a cumulative 3.0 GPA by the end of the following (probationary) semester or they may be dismissed from the program subject to review by a faculty committee and the program director.

**Graduation requirements** — Students must complete course requirements with at least a 3.0 GPA for all graduate courses taken. In addition, all general requirements of the Office of Graduate Studies must be met; this includes a comprehensive examination.
School of Accountancy and Information Systems

*Associate Graduate Faculty

Mission

The School of Accountancy and Information Systems (SAIS) is an academic unit within the College of Business and Economic Development (CBED) at The University of Southern Mississippi and is committed to the mission of the CBED. Within this framework, the SAIS has its own unique mission.

The primary objective of the SAIS is to be a quality provider of undergraduate- and master’s-level accounting education. The SAIS strives to produce technically competent, yet broadly educated, business and accounting graduates who have marketable skills, the ability to think critically, an understanding of the importance of ethics in decision making, and an appreciation of the necessity for lifelong learning. Therefore, as its first priority, the SAIS emphasizes excellent teaching in an environment of continuous curriculum development.

The SAIS also acknowledges its responsibilities to the university, the accounting profession, business and government enterprises, and taxpayers. The SAIS strives to meet these responsibilities by providing appropriate services and by engaging in the scholarly pursuits of research and writing. These activities complement the primary teaching mission. Emphasis is placed on the preparation for professional careers in both the public accounting and management accounting areas.

The objective of the graduate curriculum is to provide more depth and breadth in accounting and related subjects than can be accomplished in a four-year program. Enrollment in the school’s graduate program is limited to those students who show a high probability of success.

The school offers one degree—the Master of Professional Accountancy. The program leading to the M.P.A. is essentially the culmination of a five-year program. A student who earns the bachelor’s degree with a major in accounting may normally complete the M.P.A. program with one year’s additional work. A minimum of thirty (30) hours of graduate work is required.

Students with a variety of educational backgrounds may enter the program. Students who have a baccalaureate degree from an accredited college or university must either transfer or take the following business environment and tool courses:

<table>
<thead>
<tr>
<th>Course</th>

Professional-level courses for M.P.A.:

ACC 605 - Current Accounting Theory and Research
ACC 610 - Advanced Auditing
ACC 620 - Advanced Cost/Managerial Accounting
ACC 630 - Tax Seminar I
ACC 631 - Tax Seminar II
ACC 660 - Controllership

MBA 640 - Problems in Corporate Finance
MBA 645 - Communication Skills for Managers
MBA 6XX - Any 600-level MBA course
MBA 6XX - Any 600-level MBA course

A minimum of ten (10) courses must be taken at the graduate level with at least seven (7) courses numbered over 600 and at least three (3) MBA courses.

Admission to the Program

Admission requirements for the M.P.A. program are the same as those listed for the M.B.A. program. Admission forms and GMAT applications are available in the Graduate Business Programs Office, JGH Room 307. Members of all underrepresented groups are strongly encouraged to apply.

Graduation and Retention Standards

Graduation and retention standards for the M.P.A. program are the same as those listed above for the M.B.A. program.

Master of Science in Workforce Training and Development

The College of Business and Economic Development offers a program leading to the Master of Science in Workforce Training and Development. The program emphasizes both the research and theory framework as well as the practical application of workforce learning and performance. The goals of the Workforce Training and Development master’s program is to prepare students to improve human performance, balance individual and organizational needs, build knowledge capital within the organization, and determine the return on investment of training programs. Students learn to think strategically to design and develop interventions that will positively impact workplace learning and performance. This program is designed to expand instructional opportunities beyond traditional boundaries of on-campus class delivery. The Workforce Training and Development Executive Format program utilizes a distance-learning platform to maximize interaction and learning not only during in-person, weekend-class sessions, but also between sessions via online communication among students and professors.

Admission Requirements

See master’s admission requirements in this Bulletin.

Program Requirements

1. In addition to the degree requirements established by the Graduate School (30 hours with 18 hours at the 600 level), students earning the Master of Science in Workforce Training and Development must satisfy the degree requirements listed below.
2. Students must complete a project and develop a degree plan to be approved by a faculty adviser and the Workforce Training and Development coordinator prior to the completion of more than nine (9) hours of graduate work.
3. Students must satisfactorily complete 21 hours of core courses. These courses are determined after review of the student’s application materials.
4. During the first year of graduate study, students must select a graduate committee composed of three members of whom two must be members of the graduate faculty of the College of Business and Economic Development.
5. Students must perform satisfactorily on a comprehensive examination that is required for graduation. This exam is normally administered during the final semester of graduate work.
6. Students must maintain a cumulative GPA of 3.0 based on all graduate courses completed.
Department of Economic Development and Planning

FAX (601) 266-6219
Butler, Dvorak, Goodman, Hudson, Miller

The Department of Economic Development offers graduate work leading to a Master of Science in Economic Development and Doctor of Philosophy in International Development.

Master’s Program

The goal of the Economic Development program is to assist students in acquiring professional competency in the concepts, skills, working tools, and creative approaches essential to those involved in the field of economic development, whether at the community, state, regional, national, or international level.

Admission Requirements:

1. Have a 3.0 (4.0 scale) grade point average over the last two years of the student’s undergraduate studies.
2. Submit GRE scores. The Graduate Management Admissions Test (GMAT) may be submitted in place of the GRE. Students whose native language is not English must achieve a TOEFL score of 560 or more.
3. Provide three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study. The letters should be sent to the department.
4. In exceptional cases, students may be admitted conditionally. Such students must earn a 3.0 on the first nine (9) semester hours of coursework numbered 500 or above or on all coursework taken while completing this nine (9) hour requirement in order to qualify for regular admission.
5. Students may be required to take some prerequisite courses in geography or business.
6. Submit statement of purpose and goals, portfolio and resume.

Curriculum Requirements:

1. Successful completion of a minimum of thirty (30) hours in graduate-level courses as follows:
   a. Minimum of twenty (20) hours with the prefix ED.
   b. Demonstrated proficiency (through coursework and/or the comprehensive exam) in economic development research, finance, and marketing, equivalent to ED 722, 724, 761, 764, 765.
   c. At least four (4) hours of apprenticeship (ED 791).
2. Successful completion of a comprehensive written or oral examination.
3. Completion of one of two curriculum options as follows:
   a. Thesis option
      1) ED 698 (3 hours)
      2) Acceptance of valid thesis topic
      3) Formation of thesis committee prior to last semester of study
   b. Non-Thesis option
      1) ED 789 (3 hours)
4. A 3.0 GPA is required for graduation.

Residency

Students must meet the residency requirements specified in this Bulletin.
Doctoral Program in International Development

David Butler, Director
118 College Drive #5051
Hattiesburg, MS 39406-0001
(601) 266-6519
Fax (601) 266-6219

The purpose of this program is to prepare graduates for new careers in economic development practice, private-sector business and industry, import-export trade, government service, non-governmental organizations, and higher education. This program is also intended to serve professionals already engaged in such careers, to enhance their credentials, broaden their horizons, and sharpen their perspectives. In both cases, the program is intended to provide an active and productive learning experience that reflects a collegial relationship among a diverse body of students, as well as between faculty members and professional-caliber students.

Admission Requirements:

Applications for admission to the program will be accepted in the fall semester only. Students will be selected for admission to the program and financial support based on the following criteria:

1. written statement of (1) purpose for study and (2) proposed program of research
2. personal interview (in person, or by telephone as necessary) with program director, dean of the College, or other associated faculty member
3. master’s degree in the social sciences or business (or by petition on behalf of a master’s degree in another field), with a 3.5 GPA.
4. demonstration, by transcript or by petition, of basic core competencies in the following areas:
   a. economics (micro and macro)
   b. statistics
   c. computer applications
   d. foreign language (at least beginning level)
   e. area study of an international region, in disciplines such as geography, political science, urban and regional planning, anthropology, or history
   f. professional or international experience
5. satisfactory scores on the verbal, quantitative, and analytical sections of the Graduate Record Examination
6. three letters of reference, reflecting academic and professional endorsements, from people qualified to assess the applicant’s readiness for graduate study. Letters should be sent to the department.
7. For non-native English speakers, a satisfactory score on the TOEFL examination (currently a score of 550 is typical for Southern Miss graduate programs) and a demonstration of verbal communication skills through an examination administered by the Southern Miss English Language Institute.

Curriculum Requirements:

1. Successful completion of a minimum of sixty-six (66) semester hours in graduate-level courses with a 3.0 GPA as follows:

<table>
<thead>
<tr>

Minimum: 66
Research Tool(s)

The research tool requirement will be met by

1. demonstration of international competency through one of the following: oral language exam, approved international field experience, or by petition
2. demonstration of statistical proficiency, through one of the following: transcript, written exam, or by petition

Residency
Students must meet the residency requirements specified in this Bulletin.

The University of Southern Mississippi, through its College of Education and Psychology, holds membership in the American Association of Colleges for Teacher Education, the Teacher Education Council of State Colleges and Universities, and the Southern Regional Consortium of Colleges of Education. All programs in professional and teacher education are fully accredited by the National Council for Accreditation of Teacher Education (NCATE) and doctoral programs in clinical psychology, counseling psychology, and school psychology are accredited by the American Psychological Association (APA). The master’s degree in library and information science is accredited by the American Library Association (ALA). For degrees offered by each department, please see the previous page.

Mission

The mission of the College of Education and Psychology is to provide quality programs in psychology, professional education, instructional technology, library and information science, and child and family studies. The college develops individuals who possess critical thinking and problem-solving abilities; theoretical, practical, and technical competence; effective communication skills; an appreciation for diversity; a sensitivity to standards of ethical conduct; and a commitment to lifelong learning. The college fulfills its mission through programs characterized by excellence in instruction and supervised practice, research training, scholarly productivity, leadership, professional service, and collaborative activities.

CEC and Elementary Education Code of Ethics and Standards for Professional Practice: Each student will be given a copy of the Code of Ethics and the Standards for Professional Practices. Students are expected to abide by these standards at all times. Breaches of this code of the standards may result in disciplinary action through the department or the university.

The Department of Curriculum, Instruction, and Special Education offers graduate degrees in the areas of early childhood education, elementary education, reading instruction, secondary education, and special education.

Graduate degrees in the content areas of curriculum, instruction, and special education are contingent on satisfaction of lower-level program requirements. Students seeking a master’s degree in the content area of curriculum and instruction or in special education must have or be eligible for a Mississippi Class-A standard license, or its equivalent, in the area of study; applicants not meeting Class-A licensure standards in the proposed area of study will be required to take prescribed prerequisite coursework. Students entering the curriculum and instruction or the special education master’s program who desire AA-level Mississippi licensure must meet all A-level requirements prior to seeking advanced licensure. Individuals who are matriculating at Southern Miss should become aware of the licensure requirements of those states where they wish to be licensed and should work with an adviser to see that those requirements are met.

Teaching Experience Requirement
The department strongly recommends that a student gain at least one year of teaching experience before entering the master’s degree program. Students must have two (2) years of teaching experience prior to completion of the master’s degree.
Master's Programs for Curriculum and Instruction Content Area

The Department of Curriculum, Instruction, and Special Education offers a Master of Education degree with a major in curriculum and instruction and emphasis areas in early childhood education, elementary education, reading instruction, and secondary education. The Master of Science degree is offered with a major in curriculum and instruction with emphasis areas in early childhood education, elementary education, reading instruction, and secondary education. The program of study at the master’s degree level is designed to increase the professional competency of the classroom teacher and to provide the coursework necessary to meet standards of teaching licensure at this advanced level. The master’s degree programs require admission to a particular program, appointment of a graduate adviser, completion and submission of four copies of the application form for a master’s degree at least one semester in advance of the date of graduation, successful completion of the comprehensive examination, and completion of all coursework requirements.

Admission Requirements

Admission to master’s programs offered in the content area of curriculum and instruction is selective. To be considered for regular admission to a master’s degree program, an applicant must have:

(a) an academic record reflecting a superior undergraduate grade point average. Recently, students regularly admitted to master’s programs in curriculum and instruction have obtained average GPAs of 3.0 (4.0 scale) for the last two years of undergraduate study;

(b) results from a national standardized achievement/aptitude test predictive of the ability to complete a graduate program successfully. These include the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT);

(c) three letters of recommendation sent to the department from professionals in the field of education who are qualified to assess the applicant’s readiness for graduate study;

(d) a letter of intent (describe reasons for pursuing a master’s degree);

(e) a professional resume; and

(f) a copy of educator license.

Admission

The department reviews qualified applicants for graduate work throughout the academic year. Applications adhering to these dates will receive notification on the specified date as mentioned.

<table>

<td>First Monday in March</td>
<td>First Monday in April</td>
</tr>
</tbody>
</table>

Members of underrepresented groups are strongly encouraged to apply.

Admission to master’s programs is contingent on the approval of the Departmental Graduate Committee, department chair, and the dean of the college. An applicant who fails to meet the above criteria for regular admission may be considered for conditional admission on an individual basis. Students accepted on a conditional basis MUST obtain grades of B or better on the first nine (9) hours of specified coursework 500-level or higher or all coursework taken while completing this nine hour requirement. It is the responsibility of the student to inform the department chair or the graduate coordinator when conditional status is to be removed.

Applicants seeking a graduate degree in the content area of curriculum and instruction who do not have a bachelor's degree in education must first fulfill all requirements for a bachelor's degree in education. Applicants holding a bachelor's degree in education who are seeking a master's degree in an education area other than the area in which the education bachelor's degree was received must, in addition to the thirty (33 for thesis programs) hours required for a master's degree, complete an additional 12 hours of curriculum or methods coursework at the graduate or undergraduate level. This coursework shall be prescribed by the department chair or graduate coordinator. In the event that the applicant has not previously completed student teaching requirements, 14 hours of student teaching must be completed.

All graduate programs require a 3.0 GPA or better for graduation.

Substitutions for required courses must be approved in advance and in writing by the graduate coordinator or department chair. Transfer credit (see general master’s degree requirements) must have prior approval by the graduate coordinator or department chair. In addition to the above requirements, the individual must pass comprehensive examinations. Each student is allowed only two attempts to pass comprehensive examinations. Each student should register with the department's graduate secretary for comprehensive examinations one to three months prior to the examination.

CIS 700......................................................................................................................3
CIR 754.....................................................................................................................3
Specialization..........................................................................................................15
CIS 708.....................................................................................................................3

Hours 30
The course requirements of Plan I and Plan II require a specialization of at least fifteen (15) semester hours that must be taken in one of the following areas:

- Art
- Biology
- Chemistry
- English
- Foreign Language
- Mathematics
- Music Education
- Physical Education
- Physics
- Science
- Social Studies
- Speech Communication

*The student selecting mathematics as a specialization area may not use any mathematics course designated as a mathematics refresher course, and courses with MAT prefix must be approved by the mathematics department and the Department of Curriculum, Instruction, and Special Education.

**The student selecting science as a specialization area may use, with the approval of his or her adviser, a combination of biological and physical science courses; however, a minimum of nine (9) semester hours of graduate credit must be taken in an area of science for which the student holds a Class-A endorsement. A student who holds Class-A endorsements in two or more areas of science may qualify for Class-AA licensure in two areas by completing nine (9) semester hours of graduate credit in one of the endorsement areas and six (6) semester hours of graduate credit in the other endorsement area. No more than three (3) hours of science and mathematics education (SME) courses may be used. To be used in an endorsement area, the SME course must be in that area.

***The student selecting social studies as a specialization area may take courses in any one or a combination of the following disciplines: history, geography, political science, sociology, and economics.

**Master's Programs for Special Education Content Area**

The Department of Curriculum, Instruction, and Special Education offers several options to the student for a Master’s of Education degree program. This program is open only to teachers who have already obtained licensure.

Teachers who have gained special education licensure through alternative routes will be required to take a program of at least thirty-six (36) hours and may need to take additional courses to fulfill deficiencies. In all areas of emphasis, an additional practicum may be required for teachers with little or no experience in working with the specific population of students being emphasized. Licensure resulting from the master’s degree is the responsibility of the student obtaining the degree. Clarification of licensure outcomes should be confirmed prior to beginning the program.

**Continuous Enrollment Requirement:** Students must meet the requirement specified in the front section of this Bulletin.

**Master of Education in Special Education with Emphasis in Behavior Disorders**

For students who are presently certified in Mississippi at the bachelor’s level in special education, not by alternative route or add-on licensure:

- The student must provide evidence that the following prerequisites have been successfully completed: SPE 400 or equivalent coursework and appropriate professional experience with students with behavior disorders.

**Non-Thesis/Thesis Program**

<table>

</tr>
</tbody>
</table>

Minimum Hours 33

Students who wish to pursue a non-thesis track will prepare and defend a professional portfolio (i.e., comprehensive examination).

**Master of Education in Special Education with Emphasis in Gifted Education**

For students who are presently certified in Mississippi at the bachelor’s level in special education, not by alternative route or add-on licensure:

- The student must provide evidence that the following prerequisites have been successfully completed: SPE 400 or equivalent coursework and appropriate professional experience with students with gifted education.

SPE 709, 770.................................................................6
Severe/Profound Disabilities Emphasis Area
    Developmental Disabilities (SPE 578, 688)
    Mental Retardation (SPE 641, 643, 645)
    Behavior Management (SPE 651).................................18
Elective (Select one, three (3)-hour elective from the following: SPE 578, 597, 598, 640, 650)........3

Minimum Hours 33

Substitutions for required courses must be approved in advance and in writing by the graduate coordinator or the department chair. Transfer credit must have prior approval by the graduate coordinator or department chair. In addition to the above requirements, the individual must pass comprehensive examinations. Each student is allowed two attempts to pass comprehensive examinations, one to three months prior to the examination.

Master of Science in Early Intervention

The Master of Science degree in early intervention is an interdisciplinary program between the School of Family and Consumer Sciences and the Department of Curriculum, Instruction, and Special Education. This thirty-six (36)-hour degree program is designed to prepare students to work in state-and community-based service systems serving infants and toddlers with disabilities (ages birth through five (5) years).

Non-Thesis/Thesis Program
Prerequisite Courses: SPE 400/500 and CD 451/551 (does not count toward degree program)

Minimum Hours 36

Specialist Programs for Curriculum, Instruction, and Special Education

It is strongly recommended that students who anticipate eventually entering into a doctoral program at Southern Miss or any other institution NOT apply for admission to the specialist program. The specialist degree is considered by many institutions as a terminal degree, and as such could become an impediment to advanced study.
The Department of Curriculum, Instruction, and Special Education offers the Specialist in Education degree with a major in education: curriculum and instruction, with the option of the selection of an emphasis in early childhood education, elementary education, reading instruction, special education, or secondary education. Students pursuing a specialist’s degree with emphasis in secondary education may choose a specialization from a number of teaching (subject) areas.

Entrance into a particular specialist’s degree program presupposes that the student has completed, or is willing to complete, the coursework required for that program at the master’s degree level, and holds or will obtain a Class-AA Mississippi license or equivalent.

All specialist’s degree programs require a minimum of thirty-four (34) graduate semester hours beyond the master’s degree.

The specialist’s degree program requires admission to a particular program; submission of an approved program of studies; completion of all required coursework, to include the completion of one full-time semester/term of residence taking all nine (9) semester hours on either the Hattiesburg campus or the Gulf Park campus; successful completion of the specialist’s oral examination; or completion and defense of an approved thesis or field problem.

**Admission Requirements**

Admission to specialist’s programs offered in the Department of Curriculum, Instruction, and Special Education is selective. To be considered for regular admission to a specialist’s degree program, an applicant must have

(a) an academic record reflecting a superior grade point average on previous graduate work. Recently, students regularly admitted to specialist’s programs in curriculum, instruction, and special education have obtained average GPAs of 3.25 (4.0 scale) on previous graduate coursework;

(b) results from the Graduate Record Examination (GRE) a national standardized achievement/aptitude test predictive of the ability to complete a specialist’s program successfully;

(c) three letters of recommendation sent to the department from professionals in the field of education who are qualified to assess the applicant’s readiness for graduate study;

(d) a letter of intent (describe reasons for pursuing a specialist’s degree);

(e) a professional resume;

(f) a copy of educator license.

**Admission Deadlines**

The department reviews qualified applicants for graduate work throughout the academic year. Applications adhering to these dates will receive notification on the specified date as mentioned.

<table>

<tr>
<td>Spring</td>
<td>First Monday in September</td>
<td>First Monday in October</td>
</tr>
<tr>
<td>Summer</td>
<td>First Monday in March</td>
<td>First Monday in April</td>
</tr>
</tbody>
</table>

Members of underrepresented groups are strongly encouraged to apply.

Admission to specialist’s programs offered in the Department of Curriculum, Instruction, and Special Education is contingent on the approval of the Departmental Graduate Committee, department chair, and the dean of the college. An applicant who fails to meet the above criteria for regular admission may be considered for conditional admission on an individual basis.

Students accepted on a conditional basis MUST obtain a 3.25 GPA or better on their first nine (9) hours of specified coursework 600 level or higher or all coursework taken while completing this 9-hour requirement. It is the responsibility of the student to inform the department chair, or graduate coordinator when conditional status is to be removed.

**Teaching Experience Requirement**

No student will be eligible to receive a specialist’s or doctoral degree until he or she has completed at least three years of teaching experience at a grade or in the area of disability appropriate for the degree.

**Residency**

Students must meet the residency requirements specified in this *Bulletin*.

The comprehensive examination requirement for this degree will be met by presenting the results of the study to a committee of no less than three (3) faculty members in the department. A chair will be assigned to direct the research.

* The student selecting mathematics as a specialization area may not use any mathematics course designated as a mathematics refresher course, and courses with MAT prefix must be approved by the mathematics department and the Department of Curriculum, Instruction, and Special Education.

** The student selecting science as a specialization area may use, with the approval of his or her adviser, a combination of biological and physical science courses; however, a minimum of nine (9) semester hours of graduate credit must be taken in each area of science endorsement for which the individual holds a Class-AA endorsement. The student must meet the requirements for a Class AAA endorsement in at least one science area. No more than three (3) hours of science and mathematics education (SME) courses may be used. To be used in an endorsement area, the SME course must be in that area.

*** The student selecting social studies as a specialization area may take courses in any one or a combination of the following disciplines: history, geography, political science, sociology, and economics.

Specialist in Education with Emphasis in Special Education

The specialist’s degree is granted upon completion of a specifically planned program of study leading to competency in an area of special education. The purpose of this program is to train highly qualified personnel in the education of exceptional children and adults. The program consists of a minimum of thirty-three (33) semester hours in a planned sequence to include the major area, cognates, research, and practicum. A field study (SPE 794) or thesis (SPE 798) is required. A 3.0 GPA is required for graduation.

The specialist’s program in special education consists of a minimum of thirty-three (33) semester hours beyond the master’s degree. Substitutions for required courses must be approved in advance and in writing by the graduate coordinator or the department chair. Transfer credit must have prior approval by the graduate coordinator or department chair. In addition to the above requirements, the individual must plan, conduct, and report the results of a field problem. The comprehensive examination requirement for this degree will be met by presenting the results of the study to a committee of no fewer than three (3) faculty members in the department. A chair will be assigned to direct the research.

Doctoral Programs for Curriculum and Instruction Content Area

The Department of Curriculum, Instruction, and Special Education offers Doctor of Education and Doctor of Philosophy degrees with a major in education with an emphasis in elementary education or secondary education. If a student desires to receive a Doctor of Philosophy degree, he or she should follow one of the doctoral programs outlined in this section and, in addition, gain proficiency in a foreign language.
The doctoral program with an emphasis in elementary education provides for specialization in either early childhood education or in reading. A student choosing an emphasis in elementary education, with or without a specialization in either early childhood education or in reading, must complete the requisite coursework in that area prior to beginning doctoral study.

The doctoral program with an emphasis in secondary education provides for specialization in various teaching (subject) areas as well as in reading. A student specializing in a particular area must complete the requisite coursework in that area prior to beginning doctoral study.

All doctoral programs consist of a minimum of seventy-five (75) graduate semester hours beyond the master’s degree. More than seventy-five (75) hours may be required in order to satisfy deficiencies which may exist in the student’s background and preparation.

Students should consult the departmental guidelines and the Admission Requirements and Procedures section and the General Academic Requirements section of the Graduate Bulletin.

**Admission Requirements**

Admission to doctoral programs offered in the content areas of curriculum and instruction is selective. To be considered for regular admission to a doctoral degree program, an applicant must have:

(a) an academic record reflecting a superior undergraduate and graduate grade point average. Recently, students regularly admitted to master’s programs in Curriculum and Instruction have obtained average GPAs of 3.5 or better (4.0 scale) for the last two years of undergraduate study and GPAs of 3.5 on previous graduate work;

(b) results from the Graduate Record Examination (GRE), a national standardized achievement/aptitude test predictive of the ability to complete a graduate program successfully;

(c) three letters of recommendation sent to the department from professionals in the field of education who are qualified to assess the applicant’s readiness for graduate study;

(d) a letter of intent (describe reasons for pursuing a doctoral degree);

(e) a professional resume;

(f) a copy of educator license.

**Admission Deadlines**

The department reviews qualified applicants for graduate work throughout the academic year. Applications adhering to these dates will receive notification on the specified date as mentioned.

</tbody>
</table>

Individuals who have submitted applications which qualified for admission, but which were not received for enrollment in a given semester, are encouraged to request that their application remain active for future consideration.

Members of underrepresented groups are strongly encouraged to apply.

Admission to doctoral programs offered in the content area of curriculum and instruction is contingent on the approval of the Departmental Graduate Committee, the department chair, and the dean of the college. An applicant who fails to meet the above criteria for regular admission may be considered for conditional admission on an individual basis.

Students accepted on a conditional basis MUST obtain a 3.50 GPA or better on their first nine (9) hours of specified coursework 600 level or higher or all coursework taken while completing this 9-hour requirement. It is the responsibility of the student to inform the department chair or graduate coordinator when conditional status is to be removed.

All students must register for and complete the doctoral qualifying examination prior to the completion of their first twelve (12) hours of doctoral coursework.

**Research Tool(s)**

For the Doctor of Education degree, proficiency in one language is required. In all cases, that language requirement shall be satisfied by successful completion of REF 761 and REF 762. The 6 hours for REF 761 and REF 762 shall not be considered part of the 75-hour requirement for the doctorate.
For the Doctor of Philosophy degree, proficiency in two languages, other than English (except in the case of students for whom English is not their native language), is required. In all cases, satisfaction of one of the two language requirements shall be satisfied by successful completion of REF 761 and REF 762. An additional language proficiency must be demonstrated (see department graduate coordinator). The hours for REF 761 and REF 762 and other courses taken to satisfy the language proficiency requirement shall not be considered part of the 75-hour requirement for the doctorate.

Graduate Core

For the Doctor of Education and Doctor of Philosophy degrees, all candidates enrolled in doctoral degree programs in curriculum, instruction, and special education are required to enroll in twenty-four (24) hours of core graduate coursework during the first two years of graduate coursework. These courses are identified as follows: CISE 800, CISE 801, CISE 802, CISE 804, CISE 806, and CISE 807.

Teaching Experience Requirement

No student will be eligible to receive a doctoral degree until he or she has completed at least three years of teaching experience at a grade or in the area of disability appropriate for the degree.

Residency

Students must meet the residency requirements specified in this Bulletin. The doctoral residency requirement for curriculum and instruction content requires twenty-four (24) continuous hours of graduate study on campus within two consecutive semesters (fall, spring), excluding summer.

Doctoral Degrees

Doctor of Education and Doctor of Philosophy with Emphasis in Elementary Education

Graduate Core: CISE 800, 801, 802, 804, 806, 807

CIE 880................................................................................................................................. 3
CIE 898.................................................................................................................................. 12

*REF 761 and 762 are prerequisites for this course.

Emphasis Requirements:

In addition to the forty-five (45) semester hour core requirement listed above, students pursuing the doctoral degree with an emphasis in elementary education must complete at least twenty-one (21) hours beyond the master’s degree in elementary education and a minimum of nine (9) hours in a related field(s) outside the Department of Curriculum, Instruction, and Special Education.

Students desiring specialization in early childhood education must complete at least twenty-one (21) hours beyond the master’s degree in early childhood and elementary education and a minimum of nine (9) hours in a related field(s) outside the Department of Curriculum, Instruction, and Special Education.

Students desiring a specialization in reading must complete at least twenty-one (21) hours beyond the master’s degree in reading and a minimum of nine (9) hours in a related field(s) outside of the Department of Curriculum, Instruction, and Special Education.

Students seeking an emphasis in elementary education, with or without a specialization in either early childhood education or in reading, are to choose electives to complete a program consisting of a minimum of seventy-five (75) graduate semester hours beyond the master’s degree.

More than seventy-five (75) hours may be required in order to satisfy deficiencies which may exist in the student’s background and preparation.

</table>

Doctoral Programs for Special Education Content Area

The doctoral program is comprehensive and places emphasis on teacher education, administration, research, and community services (with an internship required in at least one of these areas). The candidate is expected to develop competency in each of the above areas; the program will be based upon these as well as experience, background, and information gathered from written and oral qualifying examinations. Individualized program plans are formalized by candidates and their advisers following the successful completion of the qualifying examinations.

The doctoral program requires a minimum of 54 hours past the master’s degree and a residency which requires 12 semester hours to be completed during each of two consecutive semesters of fall and spring.

Required courses include

| Teacher Education | SPE 801, 803, 880 |
| Administration | SPE 770, 772, 805 |
| Research | SPE 791, 800, 804 |
| Community Service | SPE 792, 802 |

Students should consult the departmental guidelines and the Admission Requirement Procedures section and the General Academic Requirements section of this Graduate Bulletin.

Admission Requirements

Admission to doctoral programs offered in the Department of Curriculum, Instruction, and Special Education is selective. To be considered for regular admission to a doctoral degree program, an applicant must have

(a) an academic record reflecting a superior graduate grade point average. Recently, students regularly admitted to master’s programs in Curriculum, Instruction, and Special Education have obtained average GPAs of 3.50 (4.0 scale) on previous graduate coursework;
(b) results from the Graduate Record Examination (GRE);
(c) a writing sample consisting of a major paper, article, report, etc.
(d) a letter of intent;
(e) three letters of recommendation sent to the department from professionals in the field of education who are qualified to assess the applicant’s readiness for graduate study;
(f) a professional resume; and
(g) a copy of license.
Admission Deadlines

The department reviews qualified applicants for graduate work prior to the inception of each semester. It is the policy of the department to accept or reject applications received prior to published deadline dates. Qualified applications will be reviewed at specified dates before each semester, and applicants will be notified of acceptance for the following semester.

<table>
<thead>
<tr>

<td>First Monday in April</td>
</tr>
</tbody>
</table>

Late applications, or applications submitted after the deadline, may result in a delay in notification.

Individuals who have submitted applications which qualified for admission, but who were not selected for enrollment in a given semester, are encouraged to request that their application remain active for future consideration.

Members of underrepresented groups are strongly encouraged to apply.

Admission to doctoral programs offered in the content area of curriculum, instruction, and special education is contingent on the approval of the Departmental Graduate Committee, the department chair, and the dean of the college. An applicant who fails to meet the above criteria for regular admission may be considered for conditional admission on an individual basis. Students accepted on a conditional basis MUST obtain a 3.50 GPA or better on their first nine (9) hours of specified coursework 600 level or higher or all coursework taken while completing this 9-hour requirement. It is the responsibility of the student to inform the department chair or graduate coordinator when conditional status is to be removed.

All students must register for and complete the doctoral qualifying examination.

Research Tool(s)

For the Doctor of Education degree, proficiency in one language is required. In all cases that language requirement shall be satisfied by successful completion of REF 761 and REF 762. The six hours for REF 761 and REF 762 shall not be considered part of the 54-hour requirement for the doctorate.

For the Doctor of Philosophy degree, proficiency in two languages, other than English (except in the case of students for whom English is not their native language), is required. In all cases, satisfaction of one of the two language requirements shall be satisfied by successful completion of REF 761 and REF 762. An additional language proficiency must be demonstrated (see department graduate coordinator). The hours for REF 761 and REF 762 and other courses taken to satisfy the language proficiency requirement shall not be considered part of the 54-hour requirement for the doctorate.

In addition, each candidate will be expected to include intensive study in their area of emphasis, and a minimum of six (6) semester hours of coursework from a department outside of curriculum, instruction, and special education. Twelve (12) hours of academic credit are designated for the dissertation (SPE 898).

Residency

Students must meet the residency requirements specified in this Bulletin. The doctoral residency requirement for special education content requires two (2) consecutive regular semesters (fall, spring) of graduate study on campus of (12) twelve hours each.
The Department of Educational Leadership and Research comprises courses and degree programs in educational administration and supervision, higher education, research and foundations, and adult education. The programs in educational administration and supervision encompass the full range of administrative positions and lead to the master’s degree, the specialist’s degree, and the doctorate in education with an emphasis in educational administration. Programs at the master’s degree level provide entry-level preparation in school principalship. Programs at the specialist’s and doctoral levels provide preparation for the superintendency, central administrative staff positions, and leadership roles in other institutional settings. In addition, the program at the doctoral level provides preparation for college teachers in educational administration and persons desiring to prepare for administration in higher education.

The research and foundations components of the Department of Educational Leadership and Research provide supportive services in teacher education. At the graduate level, these services are provided in the areas of educational foundations, educational media and technology, and educational research. Also offered are the specialist’s degree and the doctoral minor emphasizing educational research.

The adult education component of the Department of Educational Leadership and Research offers programs of study which lead to four degrees in adult education: Master of Education (M.Ed.), Specialist in Education (Ed.S.), Doctor of Education (Ed.D.), and Doctor of Philosophy (Ph.D.) Through the completion of courses and degrees in those programs, students may enhance their understanding of adults as learners as well as the many means by which educational services are developed and delivered to adults. Academic preparation in adult education is dependent not only upon knowledge of adult education theory and practice but also upon knowledge from related areas of study, such as psychology, sociology, administration, and management. Consequently, the courses and degree programs often follow an interdisciplinary approach in preparing persons for roles of professional service to adults. Adult education majors are encouraged to enroll in professionally relevant courses in cognate fields. Students from other departments frequently find adult education courses to be valuable as electives or academic minors.

The following course patterns for the different levels set forth only the minimum core requirements, and the electives selected to suit individual needs and objectives must be chosen with the advice and approval of the student’s major professor. Therefore, it is mandatory that the student consult early in his or her program, and frequently thereafter, with his or her major professor concerning the selection of courses and sequence in which these courses will be taken.

Department Policies

The following departmental policies are supplementary to the rules and regulations of the university and the Graduate School as set forth elsewhere in this Bulletin.

Programs and Courses in Educational Administration

Master’s Degree

Master of Education Degree in Educational Administration

The Master of Education program is a cohort structure beginning each summer.

Contact the chair of the Department of Educational Leadership and Research for further details.

Admission

Admission to The University of Southern Mississippi’s graduate programs in educational leadership and research is selective. Regular admission is contingent on having graduated from a college or university accredited by a recognized regional accrediting agency. In addition, the Graduate Admissions Committees of the department recommend admittance only for those applicants whose
academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in educational leadership and research. In evaluating applications, the admission committees utilize separate criteria in each degree program offered. Admission to the revised Master of Education program in educational administration is further limited by the minimum and maximum number of students who can be accommodated in each cohort.

Applications for admission to the master’s program will be considered on an annual basis. Students will be admitted at the beginning of each summer session. Courses are taken in sequence, and no additional people will be admitted to a particular cohort after the beginning of the first term of the required curriculum. Individuals who drop out of a cohort to which they have been admitted will be considered for admission at the beginning of the next new cohort cycle.

Prospective students are encouraged to apply as early as possible and are requested to apply prior to March 1.

Specialist’s Degrees

Specialist in Education with Emphasis in Educational Administration and Higher Education Administration

Admission

Admission to The University of Southern Mississippi’s graduate programs in educational leadership and research is selective. Regular admission is contingent on having graduated with a master’s degree from a college or university accredited by a recognized regional accrediting agency. In addition, the Graduate Admissions Committees of the department recommend admittance only for those applicants whose academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in educational leadership and research. In evaluating applications, the admission committees utilize separate criteria in each degree program offered.

<tr>
<td></td>
<td>professional experience</td>
</tr>
</tbody>
</table>

Members of underrepresented groups are strongly encouraged to apply.

*Supplementary materials may be submitted at the student’s discretion or may be requested by the admissions committee.

Application for Graduation

Graduation is based upon
1. completion of an approved program of studies as determined by the student’s committee which will consist of 36-39 semester hours of credit;
2. satisfactory completion of the comprehensive examination;
3. successful defense of the research project or completion of the field problem; and
4. a minimum 3.0 cumulative GPA.

Programs

The specialist’s degree students must complete the appropriate program depending on their certification in the K-12 program. If not certified in administration, the basic program must be followed. If certified in administration, the advanced program must be completed.

A minimum of nine (9) semester hours in cognate areas is required in some of the specialist’s degree programs. The department defines cognate areas as those courses which broaden and complement the student’s program. These courses and other electives will be chosen with the approval of the student’s major professor, and additional hours may be required to satisfy deficiencies in the student’s program.

Members of underrepresented groups are strongly encouraged to apply.

*Supplementary criteria may be submitted at the student’s discretion or may be requested by the admissions committee.

Planning Sheet

Planning sheets are completed and approved during the first or second semester in the program.

Research Tool(s)

Research tool(s) are required. Check with department chair for specific requirements.

Residency

Students must meet the residency requirements specified in this Bulletin or by the department.

Admission to Candidacy

Admission to candidacy should be submitted one semester prior to graduation and will be approved by the student’s graduate committee upon

1. completion of an approved program of studies;
2. satisfaction of the research tools/statistics requirement;
3. completion of an approved dissertation prospectus;
4. completion of the comprehensive examination; and
5. completion of the residency requirement.
Application for Graduation

Graduation is based upon:
1. meeting the departmental and college deadlines for receiving the completed dissertation;
2. successful defense of the completed dissertation;
3. a minimum 3.0 cumulative GPA; and
4. completion of residency requirement.

Programs

At the doctoral level, programs are provided in (1) educational administration and (2) higher education administration. The doctoral program requires a minimum of seventy-eight (78) semester hours beyond the master’s degree inclusive of the dissertation and proficiency in statistics. The student’s doctoral committee, appointed by the department, will approve the selection of required courses and electives and, in order to secure breadth and depth in the student’s preparation program, may require more than the minimum number of hours of graduate credit. Nine (9) hours of cognate area credit are normally required for the Doctor of Philosophy. The department defines cognate areas as those courses which broaden and complement the student’s program. Cognates, as well as other courses, will be chosen with the approval of the student’s major professor and committee. Additional EPA coursework will be required for students seeking initial administrative licensure. A strength of the doctoral program is its flexibility. A plan of study is based upon the student’s previous educational background and professional objectives. Each doctoral student will be required to participate in a variety of laboratory and field experiences.

Curriculum

Educational Administration Courses (Required/Recommended)
SPE 770
Plus Research/Statistics Courses and Cognates

Higher Education Administration Courses (Required/Recommended)
EDA 711, 712, 713, 714, 715, 716, 717, 719, 736, 738, 777, 800, 814, 816
REF 709
Plus Research/Statistics Courses and Cognates

Programs in Educational Research
Specialist’s Program in Educational Research

The program leading to the specialist’s degree in education (Ed.S.) is designed to meet those goals listed under the master’s degree program. The program is intended to serve as (1) a terminal program at the specialist’s level for individuals not pursuing the doctoral degree and as (2) an advanced research program for individuals desiring specialization in research in addition to their major areas at the doctoral level.

Admission

Admission to The University of Southern Mississippi’s graduate programs in Educational Leadership and Research is selective. Regular admission is contingent on having graduated from a college or university accredited by a recognized regional accrediting agency. In addition, the Graduate Admissions Committees of the department recommend admittance only for those applicants whose academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in educational leadership and research. In evaluating applications, the admission committees utilize separate criteria in each degree program offered.
Supplementary materials may be submitted at the student’s discretion or may be requested by the admissions committee.

Application for Graduation

Graduation is based upon

1. completion of required coursework;
2. satisfactory completion of written and/or comprehensive examination;
3. satisfactory completion of thesis or research problem;
4. a minimum 3.0 cumulative GPA; and
5. completion of residency requirement

Curriculum Requirements

A student desiring to obtain a specialist’s degree in educational research must possess a master’s degree, and complete either twenty-seven (27) or thirty (30) semester hours of course work. Twenty-seven (27) hours are required for the student who writes a thesis (REF 798) and thirty (30) hours for the student who conducts a field problem (REF 794). The student must have also completed, or be willing to complete, the following prerequisites or their equivalents: *REF 601 and *602.

The following five courses (fifteen (15) semester hours) are required of each student:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>REF 761, 762, 824, 830, 893</td>
<td>15</td>
</tr>
</tbody>
</table>

A student who chooses to write a thesis will complete one course (three (3) semester hours) from among the following. A student who conducts a field problem will complete two courses (six (6) semester hours).

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>REF 632, 770, 792</td>
<td>3 or 6</td>
</tr>
<tr>
<td>PSY 764</td>
<td>3 or 6</td>
</tr>
<tr>
<td>CSS 501, PSY 614</td>
<td>3 or 6</td>
</tr>
</tbody>
</table>

Each student must complete either REF 794 (Field Problems—3 semester hours) or REF 798 (Specialist Thesis—6 semester hours).

Students will take nine (9) semester hours of electives to complete the program.

*may be counted as electives in the specialist’s degree program

Doctoral Minor in Educational Research [Optional]

Students majoring in a particular field or area at the doctoral level may also wish to pursue a doctoral minor in educational research. The objectives of the doctoral minor are to prepare persons to

1. initiate or direct applied or institutional research in college, private or public agencies, and school systems;
2. teach applied statistics and research methodology in institutions of higher learning;
3. advise graduate and undergraduate students relative to the research process involved in theses, dissertations, and projects;
4. utilize available computer packages for statistical and informational processing;
5. serve as consultants to agencies involved in research or evaluation.

A minimum of twelve (12) semester hours is necessary in addition to REF 761 and REF 762 which are required for basic proficiency of all doctoral students in education.

The six (6) graduate courses (eighteen (18) semester hours) from the following represent the requirements for the doctoral minor:

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>PSY 764</td>
</tr>
<tr>
<td>REF 632, 770, 791, 792, 794</td>
</tr>
</tbody>
</table>

Residency

Students must meet the residency requirements specified in this Bulletin or by the department.
Programs in Adult Education

The adult education program, a component of the Department of Educational Leadership and Research, offers degrees in adult education at the master’s, specialist’s, and doctoral levels.

Adult education programs, by nature interdisciplinary and flexible, offer individuals from diverse backgrounds opportunities for upgrading and building on professional experience. Such agencies include vocational-technical centers, the armed forces, health services, criminal justice and law enforcement programs, public school systems, junior and senior colleges, human service agencies, the Cooperative Extension Service, business and industrial organizations, and others.

Admission to degree programs will be conducted in accordance with college and university policies (please refer to the Admissions Requirements and Procedures section of the Graduate Bulletin). In general, these procedures include the submission of application and credentials to the director of graduate admissions. Additionally, all degree applicants should send the program coordinator (a) a letter explaining the applicant’s interest in and reasons for pursuing the degree and (b) a resume of academic and job-related experiences. The Admissions Review Committee will review all applications and recommend the appropriate actions.

Admitted students will be assigned a temporary adviser until the student, with the concurrence of the program coordinator, selects a permanent adult education adviser. Doctoral students will also select a doctoral advisory committee composed of four additional faculty members, at least one of whom must be a member of the adult education faculty. Then, in accordance with departmental policy, students, in collaboration with their appointed advisers, will design programs of study which reflect their long term goals and interests. Basic admissions eligibility and graduation criteria are discussed in the sections which follow.

Public School Teacher Certification

The state of Mississippi does not offer certification for public school teachers in the area of adult education. Therefore, a Master of Education, Specialist in Education, Doctor of Education, or Doctor of Philosophy completed with a major in adult education will not result in meeting certification or recertification requirements for public school teaching at any level in Mississippi.

Master of Education in Adult Education

Admission

Admission to The University of Southern Mississippi’s graduate programs in educational leadership and research is selective. Regular admission is contingent on having graduated from a college or university accredited by a recognized regional accrediting agency. In addition, the graduate admissions committees of the department recommend admittance only for those applicants whose academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in educational leadership and research. In evaluating applications, the admission committees utilize separate criteria in each degree program offered.

Total 30

To graduate, students must complete an approved thirty (30)-hour program of study with a 3.0 GPA and successfully complete a written comprehensive examination.

Specialist in Education with Emphasis in Adult Education

Admission

Admission to The University of Southern Mississippi’s graduate programs in educational leadership and research is selective. Regular admission is contingent on having graduated from a college or university accredited by a recognized regional accrediting agency. In addition, the Graduate Admissions Committees of the department recommend admittance only for those applicants whose academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in educational leadership and research. In evaluating applications, the admission committees utilize separate criteria in each degree program offered.

**Required Criteria**
- letter of application
- GRE or MAT scores
- GPA on previous graduate work
- three letters of recommendation from people qualified to assess the applicant’s readiness for graduate study

**Supplementary Criteria***
- other standardized test scores
- interview
- vita/resumé
- writing sample
- GPA on last two years of undergraduate work
- professional experience

Members of underrepresented groups are strongly encouraged to apply.

*Supplementary material may be submitted at the student’s discretion or may be requested by the admissions committee.

Curriculum Requirements

The Specialist in Education degree requires thirty-three (33) semester hours of graduate work beyond the master’s degree. Adult education specialist students must complete all ADE and REF courses (or their equivalents) specified for the Master of Education in Adult Education. Students are also required to complete either a thesis (ADE 798) or an appropriate field study (ADE 794). Altogether, students should complete twenty-four (24) semester hours of adult education courses and nine (9) hours from relevant content areas or behavioral sciences related to the goals of the student. All courses must be approved by the student’s adviser. A 3.0 GPA is required for graduation.

To graduate, students must complete an approved thirty-three (33)-hour program of studies with an acceptable GPA, successfully complete a written comprehensive examination, and successfully complete and defend an acceptable thesis or field study.

Residency

Students must meet the residency requirements specified in this Bulletin or by the department.
Doctor of Education and Doctor of Philosophy
with Emphasis in Adult Education

Members of underrepresented groups are strongly encouraged to apply.

*Supplementary materials may be submitted at the student’s discretion or may be requested by the admissions committee.

Curriculum Requirements

Doctoral programs of study should be designed to provide competency in six areas: (1) history, philosophy, and contemporary practice; (2) the nature of the adult learner; (3) methods and strategies of adult learning; (4) program and curricular design and evaluation; (5) research design and statistics; and (6) specific abilities required for the student’s particular area of professional interest, including both major areas of study and cognate fields. As early in the program as possible, doctoral students should select an area of emphasis for dissertation research. Programs of study (including all course decisions, research topics, etc.) must be approved by each student’s advisory committee. During the student’s first term, the student should schedule a program planning meeting with the two adult education faculty.

Research Tool(s)

Research tool(s) are required. Specific requirements differ between the Doctor of Education and Doctor of Philosophy.

Residency

Doctoral students may pursue either the Doctor of Education or the Doctor of Philosophy. Both degrees require a minimum of 72 semester hours of coursework (including dissertation and statistics proficiency) beyond the master’s degree. Doctoral students must complete a residency requirement of either (a) two consecutive terms of 12 hours each, (b) three consecutive terms of 9 hours each, (c) four consecutive terms of 6 hours each, or (d) two non-consecutive terms of 12 hours each with 3 hours of classroom-based courses for each intervening term. Physical residence on campus or in Hattiesburg is recommended but not required during residency. A 3.0 GPA is required for graduation.

Departmental Program of Studies (minimum 72 credit hours)

Doctoral students in adult education will complete a number of required courses and electives, but the program is designed to allow intensive pursuit of other areas in which adult educators may have interest or professional goals. Accordingly, there are several possible tracks students may pursue in addition to the requirements common for all students. The minimum required program includes

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
Additional coursework:

Doctor of Education Electives......................................................................................................................12

or

Doctor of Philosophy research methodology..................................................................................................3

Doctor of Philosophy electives.......................................................................................................................9

Within this program, students may pursue related areas in which to specialize. Students are not required to be in a track; they are not prescriptive. They are, however, suggestive of possible plans for individual doctoral programs.

Administrative and Managerial: for those interested in public sector and private sector administration. In addition to ADE 602 and 603, recommended course areas would include business, management, marketing, and educational administration.

Adult Basic Education: for those interested in teaching and administering adult basic and secondary education. Recommended courses include ADE 541, 542, 545, 602, and related courses in reading and English composition.

Research: for those interested in conducting research at a professional level. Recommended course areas would include statistics, research design, grant writing, historical research methods, psychology, and computers.

Career Specialization: for those interested in using their elective courses to pursue specific career interests, such as nursing, criminal justice, fine arts, liberal arts, business, technical fields, library services, etc. Many people in this track might be teachers or trainers in post-secondary institutions, health-related organizations, or business organizations.

Gerontology: for those interested in the older adult. In addition to ADE 580 and 750, germane courses in psychology, sociology, social work, and counseling are recommended.

Dissertation (12 hours)

During the dissertation process, all students must complete twelve (12) hours of ADE 898, Dissertation. A minimum of three (3) credit hours of ADE 898 must be completed during the semester in which the dissertation is defended. The student submits three documents to a doctoral committee of five faculty: a pre-proposal, a proposal, and a completed dissertation. The last two are defended orally. A student applies for candidacy only after all degree requirements except the oral defense of the dissertation are completed.

Examinations

Comprehensive written examinations are prepared by doctoral committee members and are taken at or near the conclusion of coursework. They are based on material from the overall program, including the books on the doctoral reading list. The committee may require an additional oral examination at its discretion. Comprehensive examinations are taken by arrangement on an individual basis.

Any students who have been inactive, as determined by the committee chair or the department following the comprehensive examination, will take an additional examination in adult education to assure currency prior to beginning or continuing work on the dissertation.

Graduation

To complete either the Doctor of Education or Doctor of Philosophy degree in adult education, students must meet residency requirements, maintain a minimum 3.0 cumulative GPA, complete all coursework, complete necessary proficiencies, pass the comprehensive examination, and successfully complete and defend a dissertation.
School of Library and Information Science

Melanie J. Norton, Director
118 College Drive #5146
Hattiesburg, MS 39406-0001
(601) 266-4228

The School of Library and Information Science offers a course of study leading to a Master of Library and Information Science degree. Since the first master’s degree in library science was awarded in 1965, the program has continued to grow and develop into a truly comprehensive instructional program for all students who plan to become professional librarians in public, school, academic, or special libraries. For the general university graduate student, the school offers a variety of courses for acquiring skills in the scholarly use of library resources as research tools. Finally, the school performs a vital role in the continuing development and expansion of library services at all levels in the state of Mississippi as well as providing continuing education for state practicing librarians. The school provides various forms of instructional delivery in order to serve the entire state and students in other areas: face-to-face instruction, Internet-based courses, hybrid modes, and interactive video.

The graduate curriculum in library and information science provides instruction in the following areas of librarianship: information science; reference; cataloging and classification; selection and acquisition; administration; bibliography; nonprint media; history of the book, libraries, printing and publishing; and library programs for children and youth.

Providing prospective librarians with professional knowledge and skills for effective library service, however, is not the only objective of the school. The faculty believes that professional education should also be concerned with fostering those attitudes and understandings which will help students develop an appreciation of the changing role of the library in society. The library profession will flourish only as students are prepared to participate intelligently in the process of relating library services to the larger social and cultural needs of contemporary society.

Accreditation

The Master of Library and Information Science degree is accredited by the American Library Association. The school is also an institutional member of the American Library Association and the Association for Library and Information Science Education. The school is active in the Special Libraries Association, the Southeastern Library Association, the Mississippi Library Association, and the Society of Mississippi Archivists.

Academic Mission of the Master’s Program in Library and Information Science

The mission of the program of the School of Library and Information Science is to prepare qualified individuals for professional roles in libraries and other information environments. Preparation of such individuals involves two fundamental elements: (1) providing candidates with the appropriate perspective and (2) preparing candidates with the necessary intellectual and technical abilities to serve in the field of library and information science. Construing librarianship broadly to include work of information professionals in all types of settings, the program of library and information science has identified eight specific objectives for the Master of Library and Information Science program:

Objectives of the Graduate Program of Education in Library and Information Science

Objective 1.

To foster and promote among master’s degree candidates a commitment to freedom and an awareness that freedom is a necessary condition for the proper operation of libraries and other information centers.
As a result of this program, candidates will

A. communicate to others the concepts of the United States Constitution as it relates to freedom of speech, press and assembly, and discuss intelligently the various articles of the Library Bill of Rights;

B. identify situations in which the attempt to curtail people’s freedom to read and view is being promoted directly or indirectly, by patrons or by professionals, within the context of libraries and information centers;

C. deal effectively and fairly with persons who seek to censor materials in libraries and information centers through selection practice on the part of professionals and/or complaints about what materials and/or services are available or unavailable;

D. select materials and choose services for a library or information center that, particularly within the domain of controversial social and/or moral issues, will provide a variety of viewpoints, thus fostering the people’s right to read and think for themselves; and

E. respond to patron inquiries and serve the public in a way that enhances, rather than restricts, freedom of inquiry, e.g. using a variety of sources when this is appropriate.

Objective 2.

To cultivate among master’s degree candidates knowledge of the basic tenets of library and information science and to enable them to think critically and communicate effectively.

As a result of this program, candidates will

A. identify problems in particular situations in libraries and information centers in light of the general principles of librarianship as well as the mission of the particular library or information center and demonstrate creativity and initiative in their solution;

B. determine what professional responsibility demands in particular situations, especially in the light of the basic principles of information science and librarianship;

C. select from various possibilities materials and services that are most appropriate in a particular community being served by a library or information center, being conscious of the people’s right to know;

D. demonstrate the role of the library in the information process;

E. demonstrate the librarian’s role as mediator in the communication process; and

F. demonstrate a facility for appropriate oral and written communication.

Objective 3.

To create an environment for master’s degree candidates to know, understand, and appreciate the evolution of libraries, the library profession, and the various technologies of information-related technologies in the context of social and cultural diversities.

As a result of this program, candidates will

A. develop an historical perspective and a sense of tradition in regard to their chosen profession, and have some knowledge of the history of the various information technologies;

B. become aware of the role that libraries and other information centers, as well as books and other communication media, have played in the development of human culture;

C. be conscious of new and contemporary developments in information transfer, and especially the ways in which these extend or supplement and supplant the more traditional means of human communication; and

D. relate libraries and information centers creatively and meaningfully to salient trends in changing social environments so that those libraries and information centers may contribute to the positive enrichment and development of the human societies they serve.

Objective 4.

To enable master’s degree candidates to perform their duties and responsibilities in the work place skillfully, effectively, and professionally with a diverse public.
As a result of this program, candidates will
A. apply methods commonly associated with scientific social research and analysis, and draw appropriate inferences from the results of such studies to identify the salient characteristics of the communities served by the library or other information center;
B. select from available materials and services those that are appropriate for a particular community within the limits of financial capability and the goals of the institution; and
C. organize materials and services so that they may be readily accessible to the public served by a library or information center.

Objective 5.
To introduce master’s degree candidates to the theories and practices of modern management as it is accomplished in libraries and information centers.

As a result of this program, candidates will
A. evaluate, implement, and discuss the elements of management theory, including goal setting, collection management, program planning, implementation, and evaluation;
B. demonstrate an understanding of the processes and applications of organizing, directing and controlling systems as these are performed in libraries and information centers;
C. demonstrate knowledge and application of the planning processes involved in budgeting and fiscal management, including being able to identify necessary components for budget design, budgetary control, and evaluation;
D. recognize and be able to respond to issues of personnel management including staffing processes, disciplinary concerns, and continuing education; and
E. evaluate the effects of technology on management.

Objective 6.
To emphasize to master’s degree candidates the value of organizations related to librarianship and information work, to encourage candidates to participate in professional associations, and to promote later participation in continuing education activities.

As a result of this program, candidates will
A. participate in professional organizations concerned with library and information work;
B. explain how participation in professional organizations and publications advance the principles of librarianship; and
C. participate in continuing education and other professional development activities.

Objective 7.
To introduce master’s degree candidates to theoretical and applied professional research in all areas of librarianship; to develop cognizance of the role of scientific research in building a theoretical and practical knowledge base; and to provide opportunities for each student to conduct original research.

As a result of this program, candidates will
A. explain the role of scientific research and of a theoretical knowledge base in librarianship;
B. evaluate reports of theoretical and applied research;
C. identify research problems/situations and appropriate methodologies and data-gathering techniques; and
D. execute an original research activity as outlined in the research proposal.

Objective 8.
To prepare master’s degree candidates with opportunities to develop intellectual and technological skills appropriate to the current and future professional requirements and to develop an awareness of the effects of technology on all library and information centers operations.
As a result of this program, candidates will
A. utilize online databases and catalogs, search and use the Internet, as well as use standard bibliographic vendors;
B. employ various fundamental software programs in different computer system platforms;
C. articulate and demonstrate the mechanisms of information processing, collection, organization, and access;
D. demonstrate theoretical and practical knowledge relevant to planning, developing, implementing evaluating, and managing automation technology in library and information settings; and
E. evaluate the impact of the information age on society and its institutions; examine the issues, role and implications of computer technology in the library and information settings; and discuss information access, value, and services.

Admission Requirements
A graduate student in the School of Library and Information Science must meet the general requirements for admission to the university graduate program as outlined elsewhere in this Bulletin. Application forms for admission to the graduate program must be submitted to the Graduate Admissions Office of the university.

Applications for admission are evaluated by a combination of the following criteria:

Undergraduate Record - Recently, students qualifying for regular admission to the master’s program have had a 3.0 (4.0 scale) grade point average for the last two years of undergraduate study. For conditional admission, the School of Library and Information Science adheres to the policies of the Graduate School as stated in this Bulletin.

Graduate Record Examination - The student must submit GRE scores.

Letters of Recommendation - Three letters of recommendation by professionals in the field assessing the readiness of the applicant for graduate work must be submitted to the School of Library and Information Science.

Personal Questionnaire - The school requires the submission of a personal questionnaire which includes questions that require essay responses.

Personal Interviews - Personal interviews with applicants will be conducted whenever possible.

Letter of Application - Letter of application discussing the development of the student’s interest in library and information science, the types of libraries they are interested in and statements about the student’s potential contributions to the field.

Résumé
Forms for the letters of recommendation and the personal questionnaire may be obtained by request from the School of Library and Information Science and are available on the school’s Web site.

Master of Library and Information Science Degree Program
Candidates for the Master of Library and Information Science (M.L.I.S.) degree must earn a minimum of thirty-nine (39) semester hours of credit with a 3.0 cumulative GPA. Eighteen (18) of these hours must be at the 600 level of courses. As many as six (6) hours may be selected from the offerings of other departments within the university. A total of no more than six (6) semester hours of transfer work may be applied toward the degree. A total of no more than nine (9) semester hours of combined transfer work and nondegree work may be applied toward the degree. Students must pass a comprehensive exam by completing a master’s proposal and project (LIS 695).

The program of study for students will be individualized, taking into consideration previous academic backgrounds, experience, and career objectives. All programs of study must be planned with the counsel of a faculty adviser and approved by the director of the School of Library and Information Science.
I. Master of Library and Information Science Degree Requirements

Required courses (21 hours: LIS 501, 505, 511, 605, 636, 651, 668)

Electives (15 hours)

Master’s project (3 hours: LIS 695)

If near equivalences of any of the above required courses were taken on the graduate level at an accredited institution with a grade of B or above, other electives may be substituted with permission of the director.

II. Course Requirements for School Library-Media Specialist Licensure at the Master’s Level

Students who plan to use the master’s degree in library and information science for Class-AA licensure should complete the following courses in addition to the required courses and master’s project listed above:
LIS 508, 516, 517, 518, 525, 591

The following professional education courses must be completed to satisfy licensure requirements in the state of Mississippi: REF 601 and REF 607 (LIS 668 may be taken in lieu of REF 601).

Students seeking licensure at the master’s level are also advised that they will be required to complete more than 39 hours to meet all degree and licensure requirements, especially if they do not hold Class-A licensure in library and information science. Students should see their adviser or the director of the School of Library and Information Science for further information concerning licensure requirements.

III. Dual Master’s Degree in History and Library and Information Science

The History Department and the School of Library and Information Science offer a dual master’s degree program leading to the Master of Arts in History and the Master of Library and Information Science degrees. Students must be admitted separately to each program. The total number of hours required for both programs is 60 - 30 for the Master of Library and Information Science and 30 for the Master of Arts in History.

Students in the combined program must complete the following requirements:

1. thirty (30) hours in history (18 hours at the 600 level)
2. thirty (30) hours in library and information science (18 hours at the 600 level)

The following are required courses:
LIS 501, 505, 511, 605, and 636;
LIS 651 or LIS 647;
LIS 631 or 638 or 646 or 649 or 666;
LIS electives (6 hours); and
LIS 691 which will confer three (3) of the 6 hour thesis requirement

3. a reading knowledge of one foreign language
4. a thesis that confers six (6) hours of the minimum hourly requirement for the history component

A comprehensive oral examination, administered by a three-member committee representing both disciplines, is given after satisfactory completion of the coursework and thesis.

The history requirements in this program are covered in the Department of History section of this Bulletin.

IV. Dual Master’s Degree in Anthropology and Library and Information Science

The Department of Anthropology and Sociology and the School of Library and Information Science offer a dual master’s degree program leading to the Master of Arts in Anthropology and the Master of Library and Information Science degrees. Students must be admitted separately to each program. The total number of hours required for both programs is 60; 30 for the Master of Library and Information Science and 30 for the Master of Arts in Anthropology.
Students in the combined program must complete the following requirements:

1. thirty (30) hours in anthropology (18 hours at the 600 level)
2. thirty (30) hours in library and information science (18 hours at the 600 level); the following are required courses: LIS 501, 505, 511, 605, 636, 651, 666, and 691 (3 hours)
3. proficiency in one foreign language (see this Bulletin) or two semesters (6 hours) of graduate-level quantitative research methods
4. a comprehensive exam in anthropology
5. a thesis

The anthropology requirements in this program are covered in the Department of Anthropology and Sociology section of this Bulletin.

V. Dual Master's Degree in Political Science and Library and Information Science

The Department of Political Science and the School of Library and Information Science offer a dual master's program leading to the Master of Arts in Political Science and the Master of Library and Information Science degrees. Students must be admitted separately to each program. The total number of hours required for both programs is 60, including 3 hours of thesis in each program - 30 hours for the Master of Library and Information Science and 30 hours for the Master of Arts in Political Science. Students must satisfy the requirements of both degrees before the degrees will be awarded.

Students in the combined program must complete the following requirements:

**Library and Information Science**

- Required:
  - LIS 501 Reference Resources and Services (3 hrs)
  - LIS 505 Cataloging and Classification (3 hrs)
  - LIS 511 Collection Development and Management (3 hrs)
  - LIS 540 Information Ethics (3 hrs)
  - LIS 605 Library Management (3 hrs)
  - LIS 636 Information: The Library and Society (3 hrs)
  - LIS 651 Introduction to Information Science (3 hrs)
  - LIS 691 Thesis - Research in Library Science (3 hrs)

- Electives: 2 courses in LIS, 3 hours each, chosen in consultation with an academic adviser. Strongly recommended is at least one practicum (LIS 689, 3 hours).

**Political Science**

- PS 511 Research in Political Science (3 hrs)
- PS 698 Thesis (3 hrs)
- 24 hours in political science, chosen in consultation with the director of graduate studies in three of the following areas:
  - Public Administration- PS 571, 572, 573, 574, 770
  - Public Law- PS 580, 581, 582, 584, 585, 588, 589, 781
  - Political Theory and Methodology- PS 511, 512, 520, 521, 526, 721
  - International Relations- PS 531, 532, 535, 730, 731
  - Comparative Government and Politics- PS 530, 552, 556, 557, 558, 750

**Specialist in Library and Information Science Degree Program**

The Specialist in Library and Information Science (S.L.I.S.) advanced degree will provide the opportunity for practitioners to meet specific requirements in their professional areas, earn AAA school library media licensure, participate in continuing education activities, and specialize in particular areas of librarianship. Library and information science courses will include information technologies in a variety of information environments, advanced management seminars, and advanced research design. Specific courses of study are planned to meet the needs of individual students in consultation with faculty advisers and the director. All students in the Specialist in Library and Information Science program are required to complete a six-hour specialist field problem (LIS 794) or specialist thesis (LIS 798). All students must pass an oral defense of their field problem or thesis before a committee. Students completing the specialist thesis (LIS 798) must
present a thesis that conforms to the policies, format, and conventions described in the Graduate School’s Student Manual for Preparing Theses and Dissertations. Copies of the manual may be obtained in the Office of Graduate Studies or from the Graduate School Web site.

Summer term and transfer credit information that applies to the master’s program also applies to the specialist’s program.

Specialist in Library and Information Science Admission Requirements

Applicants must meet the general requirements for admission to the university’s specialist’s degree programs as outlined in this Bulletin. Eligibility requirements for applicants to the specialist’s degree program in library and information science are as follows:

Applicant must have a master’s degree in library and information science, a master’s degree in library and information science with an AA license, or a Master of Education degree with an AA license. (For students with a Master of Education degree with an AA license, additional coursework is required).

Applicant must have two (2) years of professional employment after earning the master’s degree. (This requirement will be considered for waiver under specific circumstances. Contact the director of the School of Library and Information Science.)

Applications for admission to the Specialist in Library and Information Science degree program are evaluated by a combination of the following factors:

Graduate record - minimum 3.25 GPA (on a 4.0 scale) on all graduate work
Graduate Record Examination scores
Letters of Recommendation - Three letters of recommendation by professionals in the field or from the applicant’s college instructors assessing the applicant’s readiness for advanced graduate work must be submitted to the School of Library and Information Science.
Personal Questionnaire - The school requires the submission of a personal questionnaire, which includes questions that require essay responses.
Letter of Application - Letter of application explaining interest in the program and area of focus for research
Personal Interviews - Personal interviews with applicants will be conducted whenever possible.
Resumé

The director of the School of Library and Information Science, the dean of the College of Arts and Letters and the Office of Graduate Studies must be satisfied that the applicant shows promise of satisfying advanced graduate degree requirements.

Specialist in Library and Information Science Degree Requirements

Students entering the specialist’s program with a Master of Library and Information Science degree must complete the following requirements:

1. Thirty-six (36) semester hours in library and information science, with the option to include twelve (12) hours from related departments, such as public administration, political science, educational leadership, communications, and marketing:

   Thirty (30) hours selected from the following recommended courses:
   LIS 506, 508, 516, 517, 518, 525, 540, 545, 557, 558, 560, 591, 641, 653, 654, 655, 656, 670, and 675

   Six (6) hours of a specialist field project (LIS 794) or thesis (LIS 798)

2. Oral defense of the specialist field project or thesis to a committee and comprehensive exam.

3. Students must meet the residency requirements specified in this Bulletin.
Specialist in Library and Information Science Degree Requirements with Emphasis in School Library Media Specialist Licensure at the AAA Level

Students entering the specialist’s program with a Master of Library and Information Science degree with an AA license must complete the following requirements:

1. Thirty-six (36) semester hours of coursework:
   - Eighteen (18) hours of elective courses in library and information science
   - Twelve (12) hours of recommended education courses (consult adviser)
   - Six (6) hours of a specialist field project (LIS794) or thesis (LIS 798)

2. Oral defense of the specialist field project or thesis to a committee

3. Students must meet the residency requirements specified in this Bulletin.

Students entering the specialist’s program with a Master of Education degree with an AA license must complete the following requirements:

1. Forty-five (45) semester hours of coursework:
   - Twenty-one (21) hours of prerequisite courses: LIS 501, 505, 511, 605, 636, 651, 668 (REF 601 may be substituted for LIS 668)
   - Eighteen (18) hours of elective courses in library and information science, with an option to substitute twelve (12) hours of education courses for the recommended LIS courses (consult adviser)
   - Six (6) hours of a specialist field project (LIS794) or thesis (LIS 798)

2. Oral defense of the specialist field project or thesis to a committee

3. Students must meet the residency requirements specified in this Bulletin.

Department of Psychology

Stan A. Kuczaj, II, Chair
118 College Drive #5025
Hattiesburg, MS 39406-0001
(601) 266-4177

*Associate Graduate Faculty

The Department of Psychology offers graduate programs at the master’s and doctoral level. Except for the master’s degrees in counseling psychology and counseling and personnel services (see below), the department admits to its graduate programs only those students interested in continuing through to the doctorate. Students desiring a master’s in psychology only need not apply as we do not offer a terminal master’s degree.

The master’s degrees in counseling psychology (M.S.) and counseling and personnel services (M.Ed.) prepare entry-level counselor personnel for service delivery roles in community agency and educational settings. The Master of Science program in counseling psychology also provides a track for students who wish to pursue advanced graduate study.

The department’s Doctor of Philosophy programs in clinical, counseling, industrial/organizational, and school psychology are based on the scientist-practitioner training model which integrates scientific and professional components at all stages of training, preparing graduates for teaching, research, and practice roles in health service, governmental, educational, business/industrial, and academic settings. The Doctor of Philosophy program in experimental psychology prepares graduates for teaching and research roles in academic institutions and specialized research programs.

At the doctoral level, programs in clinical, counseling, and school psychology are fully accredited by the American Psychological Association (APA). In addition, the doctoral program in school psychology is accredited by the National Association of School Psychologists (NASP). At the
Master’s Degree Programs

Students are admitted into one of four specialty tracks leading to the doctorate (clinical, counseling, experimental, school) based on an assessment of their potential to successfully complete a doctoral program. Hence, admissions requirements are essentially the same as those as listed for the Doctor of Philosophy in psychology (see description under Doctor of Philosophy in psychology). Some students initially seek a doctoral degree but may, at some point, opt to terminate with a master’s degree and typically complete a program leading to a Master of Science degree in psychology. Regardless, the completion of any master’s degree does not guarantee admission to advanced doctoral study in one of the Doctor of Philosophy programs offered by the department.

Students are admitted to the Master of Science in counseling psychology or Master of Education in counseling and personnel services based upon the student’s previous academic record, scores on admission tests, and recommendations. Admission is selective; the faculty selects the best candidates from the applicant pool. The following tests are required for the respective master’s programs:

- Master of Science in Counseling Psychology - Graduate Record Examination (GRE)
- Master of Education Non-Teacher Alternate Route Option - School Counseling - Miller Analogy Test or GRE
- Master of Education Teacher Option - School Counseling - GRE or Miller Analogies Test
- Master of Education College Counseling - GRE or Miller Analogies Test

The admissions committee takes into account factors such as test scores, undergraduate grade point average, and letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study in making admissions decisions.

Members of underrepresented groups are strongly encouraged to apply.

Curricula: Master of Arts and Master of Science in Psychology

Common Requirements for the Master of Arts and Master of Science Degrees with a Major in Psychology

Departmental Courses:

- Master’s Thesis: PSY 698 .................................................................................................................... 6

A 3.0 GPA is required for graduation.

Note: Students completing the Master of Science degree in preparation for doctoral study must complete a master’s thesis in addition to the requirements listed under Common Requirements for Master of Arts and Master of Science degrees. Completion of the Master of Arts or Master of Science degree with thesis does not guarantee admission to the doctoral degree program.

Curriculum: Master of Science in Counseling Psychology: Community Counseling Emphasis (Hattiesburg campus only)

The Master of Science in Counseling Psychology is designed to accommodate the needs of students who plan to seek employment in human services agencies. Research and statistics courses are
available for those students who may wish to prepare for doctoral study. The program is accredited under the Community Counseling area by the Council for Accreditation of Counseling and Related Educational Programs. The program is offered only on a full-time enrollment basis.

**Hours**

**Required Core Courses and Practica**
- Foundations: PSY 613 and 679 or 717 ........................................................................................................... 6
- PSY 614, 630, 650, 652, 710, 712, 713, 714, 720, 727, 738, 762 ................................................................ 36
- Research Tools: PSY 659 ............................................................................................................................... 3
- Internship: PSY 796 ........................................................................................................................................ 6
- Environmental/Specialized Studies ................................................................................................................ 9

**Total Requirements** .................................................................................................................................... 60 hours

**Note:** Course planning is undertaken with the backgrounds and needs of students in mind. The curriculum may be slightly modified to meet individual needs of students (with approval of adviser). Detailed curriculum guides are available upon request.

### Curriculum: Master of Education in Counseling and Personnel Services

The counseling and personnel services emphases in school counseling, college student personnel Services, and agency counseling are undergirded by a developmental and preventive philosophy, congruent with the model espoused by the national professional organizations for school counseling and college student personnel, respectively, as well as National Board for Certified Counselors.

#### A. College Student Personnel Services Emphasis (Hattiesburg campus only)

This emphasis prepares graduates for student personnel positions in community/junior colleges, colleges, and universities. Students may enter the college student personnel emphasis from any undergraduate major.

**Hours**

- **Required Courses:**
  - PSY 612, 613, 615, 639, 654, 739, 743, EDA 716, REF 601 ..................................................................... 27
  - Approved Electives ......................................................................................................................................... 6
  - **Total Requirements** .................................................................................................................................... 33 hours

#### B. School Counseling Emphasis (Gulf Park campus only)

1. **Non-teacher (Alternate Route) Option**

   This option of the school counseling emphasis is designed to meet the needs of non-teachers who wish to qualify for Class-AA school counselor licensure in Mississippi. Students may enter this option from any undergraduate major. It requires a minimum of one year of full-time graduate study on the Hattiesburg campus and one year of full-time internship.

   **Hours**
   - **Required Courses:**
     - PSY 610, 611, 612, 614, 650, 651, 653 (12 hours), 710, 711, REF 601 (or approved equivalent), 607 ........................................................................... 42
     - Professional Specialization Area................................................................................................................... 12
   - **Total Requirements** .................................................................................................................................... 54 hours

2. **Licensed or Certified Teacher Option (Hattiesburg and Gulf Park campuses)**

   This option of the school counseling emphasis is designed to meet the needs of teachers who wish to qualify for Class-AA school counselor licensure. A Class-A standard teaching license or equivalent is prerequisite for admission.

   It is essentially a summer program; some of the required courses are offered only during summer term.

   **Hours**
   - **Required Courses**
     - PSY 610, 611, 612, 614, 650, 651, 653 (6 hours), 710, 711, REF 601 (or approved equivalent).............. 33
     - Required for Mississippi Licensure only: REF 607 .................................................................................... 3
   - **Total Requirements** .................................................................................................................................... 33-36 hours

#### C. Agency Counseling Emphasis (Gulf Park campus only)

This option of agency counseling is available only at the Southern Miss Gulf Coast campus and is designed to meet the content area requirements for licensed professional counselor in the state of Mississippi as well as the National Board for Certified Counselors. This program emphasis is
intended primarily for bachelor’s graduates in psychology or closely related majors who wish to pursue a master’s degree and become professional counselors or supervisors in social service agencies.

**Required Courses:**

</tr>
</tbody>
</table>

**Total Requirements:**

| Hours | Total | 48 |

**Application for Graduation**

Graduation is based upon

1. completion of required coursework in respective program;
2. satisfactory completion of comprehensive examination;
3. satisfactory performance in the counseling practica; and
4. a 3.0 GPA.

**Doctoral Degree Programs**

**Doctor of Philosophy in Psychology**

The department offers the Doctor of Philosophy in psychology in five emphasis areas: clinical, counseling, experimental, school, and industrial/organizational psychology. These doctoral emphasis areas are designed to ensure that students receive strong preparation in the research and theoretical literature of psychology as an experimental behavioral science.

Students are admitted to one of these programs after completing a master’s degree (M.A.) in psychology as described in the section on master’s degrees. Students who apply to a doctoral program and have not completed such a master’s degree must do so at Southern Miss en route toward their doctorate. As stated in the master’s degree program section, completion of a master’s degree does not guarantee admission to one of the doctoral programs. Admission to a doctoral program requires completion of the master’s degree AND approval by the program faculty and the department chair. Applicants are judged on the basis of prior academic record, GRE scores, three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study, and evidence of creative scholarship. Applicants are expected to have completed appropriate undergraduate foundation courses in psychology (e.g., statistics, experimental, and history and systems). A student may be invited to come to campus for a personal interview as part of the application process. The department typically receives applications from a larger number of qualified applicants than it can enroll. Prospective students should specify their intended emphasis area at time of application. Brochures describing each of these are available from the department or online. New students are admitted only for fall semester. Applications received by February 15 will receive a full review. All students interested in applying for admission to the program are encouraged to contact the department prior to submitting their applications.

The Department of Psychology values diversity, and members of underrepresented groups are strongly encouraged to apply. Additionally, whereas participation in on-campus admissions seminars and interviews is highly recommended for applicants who enter the final selection pool, alternative arrangements may be requested through the director of training for those individuals who are unable to travel to Hattiesburg.

**Residency**

Students must meet the residency requirements specified in this *Bulletin*.

**Common Requirements for the Doctor of Philosophy in Psychology**

**Research Tool(s)**

Research tool(s) are required. Check with department chair for specific requirements.

**Doctoral qualifying and comprehensive exams are required. Check with training directors for information on these exams. A 3.0 GPA is required for graduation.**

<tr>
<td>642, 643, 671 (3 hours), 691 (9 hours), 693 (2 hours), 621 or 722 (choose the one not taken at master’s level),</td>
</tr>
<tr>
<td>750 or 655, 771 (24 hours), 791 (6 hours), 772, 773, 774, 775, 777, 793 (6 hours), 880 (8 hours).</td>
</tr>
<tr>
<td>Electives</td>
</tr>
</tbody>
</table>

NOTE: All electives must be approved by the student’s major adviser and the emphasis area director of training. The selection of an internship must conform to NASP and CDSPP standards.

Note: Students completing the doctoral degree program with an emphasis in School Psychology will be eligible to apply for Mississippi AAAA school psychologist licensure. Each student, in consultation with the major professor, should identify any additional requirements necessary for licensure in the state in which the student plans to work.

Department of Technology Education

Edward C. Mann, Chair
118 College Drive #5036
Hattiesburg MS 39406-0001
(601) 266-4446

Davis, Fisher, Hartsell, Juneau, Mann, Rouse, Shoemaker, Yuen

The Department of Technology Education offers graduate programs leading to the master of science degree: Master of Science in Technology Education with an emphasis in business technology education or technical and occupational education and a Master of Science in Instructional Technology.

The purpose of the master of science in technology education is to provide teachers of business, industrial, technical, and vocational subjects post-baccalaureate coursework designed to serve as a foundation for professional development, career advancement, or further graduate study.

The purpose of the master of science in instructional technology is to provide students with a strong theoretical base and practical hands-on experience in the design, development, implementation, management, and evaluation of leading-edge educational technologies.

Mississippi teachers holding the appropriate Class-A teaching license may qualify for a Class-AA license upon successful completion of one of these programs and approval of the Office of Educator Licensure, Mississippi Department of Education.

Master’s Programs

Admission Requirements

Regular admission to the master’s programs is contingent upon at least four factors: (1) submission of test scores on the Graduate Record Examination (GRE), or the Miller Analogies Test predictive of the ability to successfully complete the graduate program; (2) an undergraduate grade point average reflecting the ability to do graduate work; (3) submission of a minimum of three letters of recommendation from individuals qualified to assess applicant’s readiness to successfully complete the graduate program; and (4) approval of the department chair and dean of the college. The letters of recommendation should be sent to the department.

An applicant who fails to meet the criteria for regular admission may be considered for and gain conditional admission upon the recommendation of the department chair, and dean of the college. Such students must make grades of B or better on the first nine (9) hours of graduate coursework 500 level or higher or on all coursework taken while completing this requirement in order to qualify for regular admission. The appropriate master’s degree will be conferred upon candidates who (1) meet admission requirements listed above, (2) complete one of the special curriculum requirements outlined (3) pass the master’s comprehensive examination, and (4) acquire a 3.0 GPA which is required for graduation.

Members of all underrepresented groups are strongly encouraged to apply.
Master of Science Degree in Technology Education
with an Emphasis in Business Technology Education

All students pursuing an emphasis in business technology education must complete the following requirements:

Unit Description

The Center for Child and Family Studies offers the Master of Science degree in Early Intervention, Family and Consumer Studies, and Marriage and Family Therapy. These graduate programs are oriented toward meeting career objectives in the areas administered by the center and toward meeting the interests and personal goals of the student. All majors offer flexibility so that students can meet specific career goals or specialize in areas of interest to them.

Interdisciplinary Minor and Graduate Credit in Gerontology: The center participates in the interdisciplinary minor in gerontology and graduate certificate in gerontology.

Specific requirements and courses available for the minor and the certificate can be found under the Interdisciplinary Minor and Graduate Certificate in Gerontology headings in the College of Education and Psychology section of the Bulletin.

Requirements for Admission

Regular admission to the Graduate School for study in the master of science degree programs in the Center for Child and Family Studies requires a bachelor’s degree from an accredited institution, a grade point average (GPA) of at least 3.25 (on a 4.0 scale) in the last 64 hours of coursework, a 3.0 GPA in major, submission of test scores from the Graduate Record Examination (GRE), and three letters of recommendation from professionals familiar with the applicant’s work and qualified to assess the applicant’s readiness for graduate study. The letters of recommendation should offer clear support for the applicant’s ability and potential for success in the program and should be sent to the Center for Child and Family Studies. Performance in specific courses related to the desired major will also be evaluated. Graduate work in the major and minor fields of specialization must be preceded by coursework sufficient to satisfy undergraduate requirements or enough related work to indicate the student’s ability to do graduate work in the major and minor fields. Students may correct academic deficiencies by taking or auditing recommended undergraduate courses. Members of all underrepresented groups are encouraged to apply.

Requirements for Graduation

In the Center for Child and Family Studies, the minimum requirement for a master’s degree is 36 semester hours (18 hours of 600 level or higher). Thesis and non-thesis options are offered. All students will take oral comprehensive examinations. Non-thesis students will take written comprehensive exams. A 3.0 GPA is required for graduation.

Master of Science in Early Intervention

Overview of Major

The Master of Science degree in Early Intervention is an interdisciplinary program offered jointly by the Center for Child and Family Studies and the Department of Curriculum, Instruction, and Special Education. The program requires a minimum of 36 semester hours (with 18 hours of 600 level or higher). The program maintains active teaching, research, and service links to the Institute for Disability Studies, which offers application sites, graduate assistantships, and other support services to the program.
Career Opportunities

The Master of Science degree in Early Intervention is designed to prepare students for positions in state and community-based systems with children aged birth to five years who have special needs. Program graduates are prepared to work in a variety of positions within public schools, child care, mental health, and private and public health systems. Graduates are prepared for direct service roles as well as administrative/leadership positions.

Special Program Requirements

Students entering this program are expected to have an undergraduate background in related coursework, including the prerequisite courses SPE 440/500, The Psychology and Education of the Exceptional Individual, and CD 451/551 and 451L/551L, Infant Development (with laboratory) or an approved equivalent. Those prerequisites do not count toward the 36 semester hours required for the master’s degree.

Applicants must submit, in addition to other school admission requirements noted earlier, a letter of intent, which contains a clear statement of professional goals and philosophy of professionalism.

Students not previously holding a teaching license will be cleared for admission to teacher education (completion of a general core, 2.65 GPA on that core, and satisfaction of the Praxis I or equivalent) during entrance to Graduate School.

Students entering the Master of Science program without licensure must satisfy a 9-credit practicum in place of the standard 3-credit practicum. Only 3 hours of practicum will be included in the 36-hour program requirement.

Prior to taking written and oral comprehensive examinations, students must remove all grades of “I” (incomplete) from their records.

Professional presentations are required of all graduate students who complete the Master of Science in Early Intervention.

Master of Science in Family and Consumer Studies

Overview of Major

The Master of Science degree in Family and Consumer Studies is a program that focuses on theory and research associated with the developmental stages of children and families. It includes a foundation in family systems theory, family life cycle development theory, and interactions among individuals, groups, and societal forces. The program requires a minimum of 36 semester hours (with 18 hours of 600 level or higher). The program offers various electives to choose from for students interested in specific areas of family and consumer studies, such as family life education and early childhood development.

Career Opportunities

The thorough research-based developmental foundation prepares graduates to assist policy makers in assessing the intended and unintended consequences of policy on children and families. Graduates prepare for careers as parent educators, child care providers, or administrators within private, community, religious, agency, and educational settings. Program graduates are also prepared to pursue advanced graduate work at the specialist and doctoral levels in other colleges.
Special Program Requirements

Students seeking admission to this degree program must meet all admission criteria for the school, but should, in addition, have a minimum GPA of 3.25 (on a 4.0 scale) on the last 64 hours of undergraduate study to qualify for regular admission.

Students are expected to have completed PSY 360, Introduction to Statistics for the Behavioral Sciences, or an approved equivalent. This prerequisite does not count toward the 36 semester hours required for the master’s degree.

Applicants must submit, in addition to other school admission requirements noted earlier, a letter of intent, which contains a clear statement of professional goals and philosophy of professionalism.

Prior to taking written and oral comprehensive examinations, students must remove all grades of "I" (incomplete) from their records.

Professional presentations are required of all graduate students who complete the Master of Science in Family and Consumer Studies.

Requirements for a Master of Science in Family and Consumer Studies

(36 hours non-thesis option; 36 hours thesis option)

Students must take 18 hours of 600 level or higher courses.

Master of Science in Marriage and Family Therapy

Overview of Major

The Master of Science in Marriage and Family Therapy is an accredited program by the Commission on Accreditation for Marriage and Family Therapy Education of the American Association for Marriage and Family Therapy. The two-year program of study combines academic coursework with supervised clinical experiences involving couples, individuals, and families. The program is designed to focus on the integration of theory, research, and clinical practice throughout family life span development. The contextual and ecological aspects of systemic family treatment are emphasized. The program consists of (1) the conceptual study of the family dynamics, family systems and subsystems, communication processes, and developmental family life cycle changes; (2) the diagnosis/assessment and treatment process utilizing the specific techniques associated with the major models of system change; (3) the study of human development in the context of the interface of interpersonal, intrapersonal, and intergenerational issues, intimacy and gender issues, and ethnic minority issues; (4) instruction related to professional socialization, legal and ethical considerations; (5) the application of research methodology and data analysis to the field of marriage and family therapy; and (6) supervised clinical practice which consists of a minimum of 500 face-to-face contact hours with clients (conducted over a period of one calendar year). Of those 500 hours, 250 hours must be with couples or families, and 250 hours must be completed at the University Clinic for Family Therapy. Students will receive one hour of supervision for every five
hours of client contact for a minimum of 100 hours. Due to the professional nature of the marriage
and family therapy program, student performance is evaluated at the following major transition
points: (1) entry into the clinical component of the program, and (2) advancement through each step
of a four-level practicum program. Movement through each transition point requires an endorsement
by a majority of the marriage and family therapy faculty. Graduates of the program are prepared to
fill family therapy leadership roles in both public and private human services agencies, public and
private psychiatric hospitals, and in mental health services to industry.

Special Requirements
In addition to requirements for admission to the school, the marriage and family therapy program
requires a personal interview with the program director and the clinical faculty, and emotional
stability and maturity, as evidenced through at least three letters of recommendation from previous
professors or employers. Students wishing to apply to the marriage and family therapy program are
encouraged to turn in their application at any time prior to March 1 for priority consideration.
Interviews begin in March to select the 12 students to be admitted to the program.

*Minor offered through all units.

**Certificate offered through all units and the College of Nursing.
Mission
The College of Health demonstrates commitment to the health and well-being of individuals, families, organizations, and communities by offering education programs, conducting research, and engaging in community and professional service. To that end, the college offers academic programs and conducts research in community health sciences, human performance and recreation, medical technology, nursing, nutrition, social work, and speech and hearing sciences.

Vision
The College of Health will attain national distinction through activities in research, teaching, and service. Furthermore, the College of Health seeks to cultivate the social capital of the region and beyond, fulfilling a necessary prerequisite for sustainable economic and community development.

Requirements for Admission
Admission to the College of Health requires applicants to meet minimum grade point average (GPA) requirements as specified by the Office of Graduate Studies for master’s or doctoral study and submit acceptable scores on the Graduate Record Exam (GRE). A minimum TOEFL score of 550 is required of all non-English speaking applicants. Applicants must also have at least two (2) letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study sent to the department or school.

Applicants must also meet all additional requirements for admission to a particular program of study. See the program description for additional admission criteria. The College of Health adheres to the university policies with regard to admission of graduate students on a conditional basis. The university regulations concerning conditional admissions for full or part-time students are stated in this Bulletin under Admission Requirements and Procedures. Members of all underrepresented groups are encouraged to apply.

Requirements for Graduation
In the College of Health, the minimum requirements for the master’s and doctoral degrees are determined by the individual graduate programs within the seven units. Most programs offer both the thesis and nonthesis option, with the doctoral programs mandating a dissertation. All general requirements outlined earlier in this Bulletin must be satisfied for students to progress successfully toward degrees. While it is the student’s responsibility to know what the degree requirements are, the major professor may assist the student with requirements of the Office of Graduate Studies, department, or school. Comprehensive exams are required for graduate degrees. The specific degree program will determine whether the exam will be written or oral or both. Consult the specific degree programs for their requirements.

Certain programs require clinical experiences. Clinical experiences generally require a criminal background check. A felony conviction may disqualify a student from the clinical experience thereby making the student unable to complete the degree. For additional information, contact the academic unit that houses the program.

Interdisciplinary Minor in Gerontology
The college offers an interdisciplinary minor in gerontology through each unit within the college. More detailed information on specific program requirements and assistance with program planning is available from the designated faculty adviser in each of the college units. A student who has been admitted for graduate study may earn an interdisciplinary minor in gerontology by completing a minimum of twelve (12) semester hours of graduate-level courses selected from the course list below.
Graduate Certificate in Gerontology

The college offers a graduate certificate in gerontology for those who need additional or specialized training, but do not wish to pursue a master’s degree, or for current Southern Miss graduate students who wish to receive more than a minor degree. A graduate certificate in gerontology will provide students and professionals an opportunity to broaden their theoretical knowledge of aging, the aged, and the policy-making process; keep abreast of changes in the field; meet new educational requirements for their jobs; or prepare for a new position. More detailed information is available in the dean’s office.

Admission Requirements for the Certificate Program

All applications for the graduate certificate program must be submitted to the Office of Graduate Studies. In addition, all nondegree seeking students must submit the “Approval for Non-Degree Enrollment in a Graduate Course” form to the gerontology program coordinator.

The gerontology program coordinator and the Gerontology Faculty Advisory Committee make admission recommendations to the College of Health dean and Southern Miss Graduate School based on evidence of holding, at a minimum, a baccalaureate degree from an institution approved by a recognized accrediting agency, and being in good standing at the last institution attended.

Admission Deadline

Admission shall be on an ongoing basis.

Program Requirements

• The student shall complete at least 18 semester hours with B or better in each course from the approved course list (see below).
• The student may repeat a class only one time if he/she received less than a B.
• Curriculum requirements consist of one core three-hour course (Seminar in Critical Issues of the Aged) and three hours of a gerontology practicum or supervised research in an approved field of study (to be determined with the gerontology program coordinator), with the remaining 12 hours selected from the course list below.
• The student admitted within the College of Health or School of Nursing shall work with a designated gerontology adviser from the department of their discipline. If the student is from another college, the gerontology program coordinator will serve as the adviser for the certificate program.
• The student shall complete requirements within four years.
• The student may transfer as many as six (6) credit hours of graduate credit in gerontology from other accredited institutions with the approval of the gerontology program coordinator and the graduate dean, provided that the coursework falls within the four-year period allowed for the program.
• No more than nine credits from the certificate program may be used towards a subsequent master’s degree.

Interdisciplinary Minor in Gerontology

**Only practica placements in the field of gerontology can be used to satisfy requirements of this minor or the certificate.**

**Research or special problems must be related to gerontology.**

### Center for Community Health

**Joan L. Exline, Director**  
**James McGuire, Assistant Director**  
118 College Drive #5122  
Hattiesburg, MS 39406-0001  
(601) 266-5437

Ahua, Carver, Exline, Graham-Kresge, Hinton, Ibrahim, Khoury, McGuire, Mitra, Powell

**Unit Description**

The Center for Community Health was created as an organizational focus for expanded activities in community health. The center offers a Master of Public Health (MPH) degree and a MPH/MBA dual degree in conjunction with the College of Business and Economic Development. Emphasis areas include epidemiology and biostatistics, health education, health policy and administration, occupational health and safety, and public health nutrition. Faculty and staff are involved in interdisciplinary research and demonstration activities in areas such as health care access, health promotion, community health workers, impact studies, health care provider utilization, rural health, cancer control, and occupational health and safety. The MPH program is accredited by the Council on Education for Public Health.

### Interdisciplinary Minor in Gerontology

The center participates in the interdisciplinary minor in gerontology and the graduate certificate in gerontology. Specific requirements and courses available for the minor and certificate can be found under the Interdisciplinary Minor in Gerontology and Graduate Certificate in Gerontology headings in the College of Health section of this Bulletin.

### Offerings for Non-Majors

A number of courses offered within the Center for Community Health do not have prerequisites and are excellent choices for electives:

- CHS 601 Community Health Practice
- CHS 622 Epidemiology
- CHS 623 Biostatistics
- CHS 625 Health Administration
- CHS 655 Environmental Health
- CHS 656 Social and Behavioral Aspects of Health
- CHS 685 Contemporary Issues in Health

### Degree Descriptions

**Overview of Major:** The Master of Public Health program seeks to prepare students for leadership responsibilities in public and private health settings that focus on improving quality of life through instruction, research, and community service. The MPH program is accredited by the Council on Education for Public Health. Emphasis areas include epidemiology and biostatistics, health education, health policy and administration, occupational health and safety, and public health nutrition. A 3.0 GPA is required for graduation.

**Career Opportunities**

Epidemiology and Biostatistics: This emphasis area provides knowledge about the distribution and determinants of disease and other health-related conditions in human populations and develops methodological and analytical skills for study design and biostatistical analysis of data. Graduates are qualified for health service or research positions in local health departments, hospitals, nursing homes, academic institutions, industries, and government agencies such as the Centers for Disease Control and Prevention (CDC) and the National Institutes of Health (NIH).
Health Education: Health education is concerned with the health-related behaviors of people. It focuses on the forces that affect those behaviors and the role they play in the maintenance, promotion, and improvement of health. Health education majors are eligible to take a certifying examination for entry-level health educators, qualifying them as Certified Health Education Specialists (CHES).

Health Policy and Administration: Health administrators are charged with coordinating a wide variety of activities crucial to the effective and efficient delivery of health services and programs. The health administrator plans, organizes, coordinates, and supervises the delivery of services within health care organizations, including hospitals, mental health clinics, long-term care facilities, rehabilitation centers, insurance companies, and multidisciplinary physician groups. Students earning the MPH/MBA degree find positions in the above areas as well as with consulting firms.

Occupational Health and Safety: Admissions in this emphasis area are suspended for this academic year.

Public Health Nutrition: Admissions in this emphasis area are suspended for this academic year.

Internship
Students must complete a nine-credit hour (400 clock hours) internship at an approved site. Those with at least three years of experience or a terminal degree in a relevant area may apply for a waiver of the internship requirement.

Admission Requirements
Application for admission to the MPH program is made through the Graduate Office of the university and through the Center for Community Health.

Applications are reviewed three times a year and are due July 15 for fall semester, October 15 for spring semester, and April 15 for summer term.

A complete application consists of the Graduate Office application, the Center for Community Health application and essay, GRE or GMAT scores, transcripts and three letters of reference from persons qualified to assess the applicant’s readiness for graduate study. International applicants also must submit TOEFL scores.

Minimum GPA is 2.75 on the last 60 hours of coursework.

Minimum TOEFL score is 550 for international applicants.

Applications are evaluated by the center’s Graduate Admissions Committee. Enrollment is limited to 15 students per admission cycle with priority given to Mississippi residents. Other factors in the decision for admission include the GPA, GRE or GMAT scores, writing skills demonstrated in the essay, and the reference letters.

Students applying to the MPH/MBA program must also apply to the MBA program and take the GMAT exam.

School of Human Performance and Recreation

Susan Hubble, Interim Director
118 College Drive #5142
Hattiesburg, MS 39406-0001
(601) 266-5386

Gould, Green, Hubble, Kinney, Krebs, Maneval, Phillips, Scheett, Speed, Velasquez, Webster

Unit Description

The School of Human Performance and Recreation (HP&R) offers the Master of Science and the Doctor of Philosophy degrees. Program development is oriented toward supply and demand in the professional job market and academic disciplinary definition, and flexibility of program requirements allows for academic fulfillment of individual career interests.

Degree

The following degree programs are offered within the School of HP&R: Master of Science degree in Human Performance, Master of Science in Recreation, Master of Science in Sport Administration, and Doctor of Philosophy in Human Performance.

Emphases within the human performance master’s degree program include: exercise science and physical education. The human performance doctoral degree program includes two distinct emphases: administration and teaching, and exercise physiology. The administration and teaching emphasis (Ph.D.) is accredited as an Advanced NCATE/NASPE educational/administration studies program. The physical education emphasis (master’s) program is accredited by the National Association of Sport and Physical Education/National Council for Accreditation of Teacher Education (NASPE/NCATE).

Interdisciplinary Minor and Graduate Certificate in Gerontology

The school participates in the interdisciplinary minor in gerontology and the graduate certificate in gerontology. Specific requirements and courses available for the minor and the certificate can be found under the Interdisciplinary Minor and Graduate Certificate in Gerontology headings in the College of Health and Human Sciences section of this Bulletin.

Career Opportunities

The doctoral degree program in human performance: administration and teaching emphasis is designed for those who wish to pursue a further concentration in HP&R advanced teaching and research in administration or pedagogical areas.

The doctoral degree program in human performance: exercise physiology is designed to prepare students for advanced teaching and research careers in higher education and/or industry.

Program Requirements

The Master of Science degrees require a minimum of 36 semester hours beyond the bachelor’s degree (with 18 hours of 600 level or higher). Some emphasis areas may require greater minimum hours beyond the bachelor’s degree. The Doctor of Philosophy degree requires a minimum of seventy-two (72) semester hours beyond the master’s degree, including the dissertation, research tools, and program coursework. A 3.0 GPA is required for graduation.

Admission Standards

Admission to human performance and recreation degree programs is selective. Members of all underrepresented groups are strongly encouraged to apply. Regular admission is contingent on having graduated from a college or university with accreditation from appropriate, recognized national-level accrediting agencies. Admission to the program is contingent upon an applicant’s
academic background, work experience, demonstrated leadership, and communication skills meeting the challenging demands of graduate programs in the fields of sport administration, human performance, or recreation. The School of Human Performance and Recreation adheres to the university policies with regard to admission of graduate students on a conditional basis. In evaluating applications for program admission, the HP&R program admission committees utilize the following criteria:

a. Academic record. a) a cumulative grade point average (GPA) of 2.75 or higher based on 4.0 scale and calculated on the last 60 hours of the applicant’s bachelor’s degree program; b) bachelor’s level major/minor in an appropriately related field of study or evidence of foundational and professional coursework in major which are deemed necessary or prerequisite for graduate-level course enrollment. Lack of evidence of work completed in foundational areas specific to particular program emphasis requirements will result in either a) prerequisite satisfaction prior to regular admission into specific programs or b) additional degree requirements identified as undergraduate deficiencies to be satisfied during the graduate degree program. Doctoral applicants must have achieved a GPA of 3.50 on all previous graduate work in order to be admitted under regular status.

b. Graduate Record Examination. Applicants are required to submit the test results from the GRE as part of their application. The GMAT will also be acceptable for the Master of Science in Sport Administration degree only.

c. Test of English as a Foreign Language (TOEFL). Applicants whose native language is not English must achieve a TOEFL score of 550 or more on the paper test or 220 or more on the computer test.

d. Professional experience. While professional level work experience is not required for admission to the master’s level program, two to three years of relevant work responsibilities strengthens support for an applicant’s admission, particularly at the doctoral level. Doctoral applicants should submit a resume which indicates professional experiences and accomplishments as well as a one-to two-page description of research interests and how this degree will support their career plans. Doctoral students should arrange for either an in-person or telephone interview with program faculty during the application process.

e. Letters of recommendation. Each applicant should request a minimum of three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study, and these letters should be sent to the school. Two of the letters should address the applicant’s academic preparation and capabilities. At the doctoral level, at least one letter should address professional competence.

Academic Policies

Prior to completion of the 12th semester hour in the HP&R graduate program (master’s or doctoral), the student must request approval of an advisory committee through the director’s office. Upon approval of committee membership by the graduate dean, the student must submit a proposed plan of study for advisory committee approval. This plan should include all degree requirements and specification of planned electives and options within the degree program. The approved plan should be forwarded to the director’s office prior to the student’s enrollment in his/her 13th graduate hour.

Written and oral comprehensive examinations are required of all graduate students in the master’s and doctoral programs. Requests to take these examinations must be made in the director’s office. A 3.0 GPA is required for graduation.

The student’s graduate advisory committee shall be responsible for administration and evaluation of the student’s comprehensive examination. The chair of the advisory committee shall be responsible for reporting the results of the examination to the director. At least three HP&R graduate faculty members within the degree emphasis area must comprise master’s advisory committees. Doctoral advisory committees must include at least three eligible HP&R graduate faculty within the degree program area emphasized.

Chairs of all advisory committees must be eligible HP&R graduate faculty.

A student’s thesis or dissertation committee may be comprised of members of his/her advisory committee. It is expected that at least three (3) HP&R graduate faculty members from the advisory committee will be included on the student’s thesis/dissertation committee. Additionally, an eligible HP&R graduate faculty member must serve as chair of the thesis/dissertation committee. The student may request eligible members outside of the school to serve on the committee. All committee membership (advisory or thesis/dissertation) must be approved by the graduate dean. All committee membership requests are submitted to the college dean upon the approval of the director of the school.
Master of Science Programs

Human Performance

Course requirements for the Master of Science degree in Human Performance include a minimum of thirty-six (36) semester hours of graduate work plus any undergraduate courses deemed necessary to correct deficiencies in the student’s background. This degree program is designed to prepare professionals for leadership roles as physical educators or exercise specialists. This degree program prepares students for advanced graduate work or careers in the following emphasis areas: exercise science or physical education. A 3.0 GPA is required for graduation.

These degree program emphases provide concentrations of graduate level courses which are designed to facilitate preparation for attainment of professional certifications in human performance fields. These include: American College of Sports Medicine certifications (exercise specialist and health fitness instructor); National Strength and Conditioning Association certifications (strength and conditioning specialists, certified personal trainers), and state of Mississippi AA teachers licensure for physical education.

Requirements for an Emphasis in Exercise Science

Career Opportunities

This emphasis is specifically designed to prepare students as exercise physiologists or clinical exercise specialists. Career opportunities for the student choosing the exercise science emphasis exist in hospital, corporate, university, and wellness facilities.

Laboratories, Field Experiences, Internships, Practica

The exercise science emphasis offers several laboratory experiences designed to enhance the student’s knowledge of metabolic testing, electrocardiography, graded exercise testing, exercise prescription, and blood collection/analysis. Courses with laboratory content include HPR 601, 602, 735, and 701/701L. Each student may also enroll in six (6) hours of HPR 696 (Practicum). HPR 696 provides the master’s level student with opportunities for practical application of relevant theories in professional field setting.

Special Program Requirements

Students wishing to select the exercise science emphasis must have completed a baccalaureate degree in exercise science (or a related field), Chemistry I and one course from either Chemistry II or Biology I, and additional undergraduate work in anatomy, physiology, kinesiology, and nutrition.

Requirements for an Emphasis in Physical Education

Career Opportunities

Students wishing to pursue careers in the instruction of movement and fitness activities in school and nonschool settings should pursue this emphasis within the degree program.
Laboratories, Field Experiences, Internships, Practica

HPR 696 is designed to provide students with opportunities for practical applications of relevant theories in professional field settings. In this multihour course, each semester hour of credit requires 40 clock hours of practicum. The student plans the practicum project and the instructor of record works with the student to develop a contract. The contract, mutually agreed upon by the student, the cooperating teacher or administrator, and the instructor of record, specifies the methods of accountability.

Special Program Requirements

Students seeking Mississippi AA teacher licensure must presently have an A Mississippi standard teacher licensure and must select this emphasis within the human performance degree. An undergraduate degree in physical education or a recognized teaching field from an NCATE accredited institution is required in the AA licensure program.

*Courses must be taken in order to receive recommendation for Mississippi AA teacher licensure in physical education.

Master of Science in Recreation

All students pursuing a Master of Science in Recreation must fulfill the following program requirements as part of their degree program. The program is designed to provide students with additional academic preparation for work in the administration of municipal, therapeutic, or commercial programs. Depending on the applicant’s undergraduate preparation, the student may be required to take prerequisite courses in addition to the requirements of the graduate degree program. These prerequisites should be completed within the first semester of enrollment.

Career Opportunities

The program is designed to provide students with additional academic preparation for work in the administration of municipal and community centers, resource management, therapeutic, or commercial recreation programs.

Laboratories, Field Experiences, Internships, Practica

HPR 692 (Field Problems) and HPR 713 (Special Field Studies in Recreation) provide students with opportunities for reading and guided study in the application of theory and research to problem solving in the various recreational settings. HPR 696 (Practicum) affords the student the chance to apply academic knowledge in the professional field under the supervision of a recreation professional. The practicum is performed under the framework of a contract mutually agreed upon by the student, faculty supervisor, and agency personnel.

Special Program Requirements

The student has three options for the completion of the program requirements. The thesis option is designed for students who desire to complete an in-depth research study exploring a problem or trend in the recreation industry. The thesis is particularly helpful to those who desire to continue to work toward advanced graduate degrees. The internship option requires a six-hour practicum of 400 clock hours and a professional paper to study a current issue or trend in the professional field. The coursework option requires a professional paper and nine semester hours of elective coursework.
Course Requirements (37-hour minimum)

Students must select one of the following options:

**Thesis Option**
- HPR 698: Thesis ............................................................................ 6

**Internship Option**
- HPR 696: Practicum ...................................................................... 6
- HPR 691: Research (professional paper required) ..................... 3

**Coursework Option**
- Approved Electives ..................................................................... 9
- HPR 691: Research (professional paper required) ..................... 3

*Electives are to be designed for further specialization.

**Master of Science**

**Sport Administration**

The Master of Science in Sport Administration degree program is one of the fastest-growing academic areas and reflects the continual growth of the sports industry in the United States and abroad. Trained managers, coaches, and leaders in sport will continue to be necessary to ensure high quality and efficiency for participants and spectators alike as the business of sports continues to expand.

**Career Opportunities**

The degree program is designed to prepare students for a career in interscholastic or intercollegiate athletic administration and coaching. The academic curriculum also serves students interested in pursuing job opportunities within the sport business industry, including facility/arena management, club management, corporate sport operations, professional team management, and state and national governing agency administration.

**Laboratories, Field Experiences, Internships, Practica**

HPR 691 (Research) and HPR 694 (Field Problems) provide the student with an opportunity to perform applied research and problem solving under academic supervision in an area of career interest within the sport industry.

HPR 696 (Practicum) offers the student the opportunity to apply classroom knowledge in the actual work environment under the tutelage of an athletic administrator or sport industry professional. Each semester hour of academic credit requires a minimum of 40 clock hours of on-the-job training and is performed under the framework of a contract mutually agreed upon by the student, faculty supervisor, and agency personnel.

**Special Program Requirements**

A previous record of academic study in one of the areas of business administration is valuable and highly recommended in sport administration. Previous experience as a participant or coach is desirable for those interested in master coaching preparation.

**Doctoral Program**

**Human Performance**

**Career Opportunities**

The Doctor of Philosophy (Ph.D.) emphasis in administration and teaching is designed not only to provide strong didactic disciplinary based curriculum, but to also provide strong research experiences for future careers in academia.

The Doctor of Philosophy (Ph.D.) emphasis in exercise physiology is specifically designed to prepare students as exercise physiologists leading to career opportunities in teaching and research in higher education and/or industry.

**Laboratories, Field Experiences, Internships, Practica**

HPR 796 (Practicum) is designed to provide students with opportunities for practical applications of relevant theories in professional field settings. In this multihour course, each semester hour of credit requires 40 clock hours of practicum.

The student plans the practicum project and the instructor of record works with the student to develop a contract. The contract, mutually agreed upon by the student, the cooperating teacher or administrative supervisor, and the instructor of record, specifies the methods of accountability.

A strong laboratory research emphasis is additionally integrated into doctoral studies in exercise physiology. Several laboratory experiences are designed to enhance the student’s knowledge of metabolic testing, electrocardiography, graded exercise testing, exercise prescription, and blood collection/analysis. HPR 701/701L and HPR 805/805L are examples of courses with laboratory content.

**Special Program Requirements**

1. The student must complete a qualifying examination conducted by the student’s graduate advisory committee during the student’s first semester. Students should consult their program emphasis coordinator for the required examination process.
2. A graduate degree and appropriate bachelor’s preparation in the physical education, athletic training, or an appropriately related field is required for consideration for admission in the administration and teaching phases and exercise physiology of the doctoral programs.
3. Programs of study, including all course requirements, independent research or field-based projects, and additional requirements specified by the university for proficiency in statistics, computer science or foreign language must be approved by each student’s advisory committee. The general focus of dissertation research will be initially approved by the student’s advisory committee. The specific nature and foci of the research must be approved by the student’s dissertation committee.

**Research Tool(s)**

4. A Research tool(s) component is required of all doctoral students, and may be fulfilled in a variety of ways dependent upon the background, needs, and experience of the student.
The following guidelines apply:
The Doctor of Philosophy degree requires nine (9) hours of statistics and either
1) six (6) hours of a foreign language or
2) six (6) hours of research electives.
See program for specific course requirements.
5. Upon the acceptance of the dissertation by the candidate’s dissertation committee and at least six
weeks prior to graduation, a final oral examination in defense of the candidate’s dissertation will
be administered by the student’s dissertation committee.

**Residency**
Students must meet the residence requirements specified in this Bulletin.

Master of Science Program

The Master of Science in Medical Technology degree programs seek to provide the student with skills and knowledge for professional enhancement. Graduates of the programs may be candidates for positions as laboratory managers, education coordinators, hospital or college/university medical technology faculty members, researchers, departmental supervisors, etc. The program is structured to provide the student with an area of emphasis.

The Department of Medical Technology offers two programs leading to the master’s degree in medical technology. One program is for the individual who possesses certification as a medical technologist from a recognized national certifying agency. This certification is an entrance requirement.

The second program is for the individual who does not hold certification as a medical technologist from a recognized national certifying agency. This program includes a medical technology practicum that allows the individual to become eligible to take a national certification examination. To exit this program, the student must make a score on a nationally recognized certification examination that is deemed satisfactory by the graduate medical technology faculty.

Admission Requirements

For both programs, in addition to meeting the general requirements of the Graduate School and university as stated in this Bulletin, the applicant must submit scores from the GRE and two letters of recommendation. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department or school. Students admitted will receive either regular or conditional admission, as described earlier in this Bulletin. Students admitted on conditional basis must make a grade point average of at least 3.0 the first semester on specific courses designated by the department faculty (specifically on the first nine (9) hours of coursework numbered 500 or above or on all coursework taken while completing this nine (9)-hour requirement). Regardless of previous college experience, if English is not the native language of any student, evidence of English proficiency must be provided prior to admission into the graduate program. The MTELP (Michigan Test of English Language Proficiency) requirement is “Proficiency II” and is preferred by the department. Alternatively a TOEFL of 550 may be accepted. In addition, a score of 4 (“functional language skills”) must be earned on a fluency test administered by the English Language Institute. This fluency test is specifically designed to determine listening and speaking skills with respect to situations and language expected during the practicum phase of the program.

To receive maximum consideration, graduate applications for the fall semester should be received by the department by April 15, and applications for the spring semester should be received by November 1.

Program Requirements

A minimum of thirty (30) semester hours of coursework, excluding hours awarded for thesis, is required for the thesis option. A minimum of thirty-six (36) semester hours of coursework is required for the nonthesis option. In addition, individuals who do not hold certification at admission must complete a practicum of forty-seven (47) hours. If a student has a felony conviction, the student may not be able to complete this degree because the student may not be able to perform the clinical experience. A minimum of eighteen (18) semester hours must be in courses numbered 600 or above. The courses should interrelate and be directed toward an area of emphasis. An area of emphasis such as microbiology, chemistry, hematology, immunology, management, or education will be chosen by the student. All coursework will be designated and approved by the student’s graduate committee during the first semester of the program. Students selecting the thesis option are required to write a thesis under the direction of a medical technology department faculty member on a subject approved by the student’s graduate committee. The student’s graduate committee is composed of a chair and two members recommended by the department chair and appointed by the Office of Graduate Studies. Courses in which a student receives less than a C will not be counted toward the degree. A student may not have more than two practicum courses and two other courses with a grade of C or below. Upon completion of coursework, all students must pass oral and written
comprehensive examinations. Additionally, a student selecting the thesis option must successfully present an oral defense of the master’s thesis. Students must have at least a 3.0 GPA to graduate.

Nonmajor master’s students must obtain permission from the instructor to register for MTC 502, 502L, 504, 504L, 506, 506L, 515. Registration for practicum-level courses is limited as described in this Bulletin.

The Center for Science and Mathematics Education offers a program leading to the Doctor of Philosophy or Doctor of Education degree in Science Education with an emphasis in medical technology. Graduates of this program may be candidates for faculty positions in a variety of educational settings. See entry for Science and Mathematics Education for further information.

School of Nursing

Sharyn Janes, Chief Nursing Administrator
Wanda Dubuisson, Assistant Director of Undergraduate Programs
118 College Drive #5095
Hattiesburg, MS 39406-0001
(601) 266-5456

*Associate Graduate Faculty

Unit Description

The School of Nursing offers programs at three sites - Hattiesburg, the Gulf Coast, and Meridian. The chief nursing administrator is responsible for the implementation of programs on all sites. There are campus coordinators at Meridian and the Gulf Coast who coordinate scheduling and student admission and advisement at these sites. The assistant for graduate programs is responsible for admission and advisement of graduate students on the Hattiesburg campus.

Master of Science in Nursing Degree Program

The School of Nursing offers the Master of Science in Nursing (MSN) degree with specialization in adult health nursing, community health nursing, family nurse practitioner, nursing service administration, psychiatric nursing, and psychiatric nurse practitioner.

The purposes of the master's program in nursing are to provide study in advanced nursing practice and role development, and to provide a foundation for doctoral study.

Admission Requirements

The School of Nursing adheres to the university policies with regard to the admission of graduate students. In a limited number of cases, conditional admission may be granted to applicants who do not meet the minimum requirements. Members of all underrepresented groups are strongly encouraged to apply. In addition to meeting the university requirements for admission to graduate study, the master's program applicant must have:

1. graduated from a baccalaureate program accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education;
2. a 3.0 grade point average (GPA) in undergraduate nursing courses and a minimum 2.75 GPA on the last 60 hours;
3. completed an introductory course in statistics;
4. physical assessment skills;
5. submitted scores from the Graduate Record Examination (GRE);
6. unencumbered registered nurse (RN) license;
7. proof of immunization against the Hepatitis B virus;
8. current cardio-pulmonary resuscitation (CPR) certificate;
9. a yearly tuberculosis (TB) skin test;
10. proof of a recent health examination; and
11. submission of three letters of reference from employers, supervisors, teachers, or others who are qualified to assess the student’s academic ability and readiness for graduate study. The letters should be sent to Graduate Programs in the School of Nursing.

Exceptions to the above criteria must be approved by the assistant director for the Graduate Program, the chief nursing administrator of the School of Nursing, and the Office of Graduate Studies.

In addition to the above requirements, students who select the Family Nurse Practitioner Program must also submit a separate application to the School of Nursing Graduate Admissions Committee by March 1 for consideration for the fall class.

**Academic Progression**

A student must maintain a 3.0 grade point average each semester and may not earn more than one grade of C in one course in the program of study. Failure to meet this requirement will result in denial of progression in the graduate nursing program.

**Additional Requirements**

Students enrolled in any laboratory course must adhere to agency guidelines and must maintain their nursing license to practice throughout the program of study. Students must purchase liability insurance through the university. The insurance fee will be charged for each semester the student is enrolled in a clinical course at the time of registration. NP students will be expected to purchase physical assessment equipment.

Students must remain current in the Health Insurance Portability and Accountability Act (HIPPA) training.

**Program Requirements**

Forty-five (45) to fifty-four (54) credit hours are required to complete the program: 21 hours in the core and 24 to 33 hours in the area of emphasis, including clinical courses, guided electives, and support courses. A comprehensive exam is required.

Depending upon enrollment and resources, all nursing emphasis areas may not be available at the Hattiesburg, Gulf Park, and Meridian campuses. The master’s programs on the Gulf Park and Meridian campuses are offered on alternate weekends.

If a student has a felony conviction, the student may not be able to complete the degree because the student may not be able to perform the required clinical experience.

**Emphasis Areas**

Students may select from the following emphasis areas (required emphasis area courses are also listed):

- **Adult Health Nursing**
  - Required courses: NSG 646, 647, 648/648L, 640/640L, 641/641L, and electives
- **Community Health Nursing**
  - Required courses: NSG 621, 622/622L, 623/623L, and electives
- **Family Nurse Practitioner**
- **Nursing Service Administration**
  - Required courses: NSG 612, 618/618L, 619, 679L, and electives
- **Psychiatric Nursing**
- **Psychiatric Nurse Practitioner**

*Upon graduation, students are eligible to sit for the national certification examinations.

**Extra clinical experience may be built into these programs to meet eligibility requirements for national certification exams.**

Master of Science in Nursing for Graduates of Diploma and Associate Degree Programs

In keeping with its commitment to excellence and leadership in nursing, the School of Nursing offers a Master of Science in Nursing degree designed for nurses holding an Associate Degree (ADN) or a Diploma in Nursing. ADN or diploma nurses may complete the degree requirements in two to two-and-one-half (2-2 1/2) years of full-time study. With this plan, students do not receive the baccalaureate degree, but after completing prerequisites they may proceed with the graduate-level courses. Students may elect to pursue the program of study on a part time basis. Students select an emphasis area on admission.

Admission Requirements

1. an Associate Degree or Diploma in Nursing from a program accredited by the National League for Nursing Accreditation Commission
2. evidence of an unencumbered registered nurse license
3. an overall GPA of 2.75
4. a minimum of a C grade in each course applicable to the nursing curriculum (only one natural science course may be repeated once)
5. a GPA of 3.0 in all nursing courses
6. proof of immunization against the Hepatitis B virus
7. proof of recent health examination
8. tuberculous skin test yearly
9. current CPR certification
10. submission of scores from the Graduate Record Examination (GRE)
11. three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study sent to the School of Nursing

Program Requirements

The generic Master of Science in Nursing degree requires a minimum of 94 undergraduate credit hours that include 30 hours of credit for lower-division nursing courses. The student must complete 22 hours of upper division nursing courses with a GPA of 3.0 or better. Students declare their emphasis area at the time of admission to the program. All candidates for the degree must complete a minimum of 45 semester hours of coursework leading to the Master of Science in Nursing Degree. Students seeking admission to the Family Nurse Practitioner Program must meet the additional requirements for admission and complete a minimum of 52 semester hours of coursework. Psychiatric Nurse Practitioner students must complete a minimum of fifty-four (54) semester hours of coursework. Academic progression policies are the same for all master’s degree students. A comprehensive exam is required. The students must complete the entire program of study in order to receive a degree.

If a student has a felony conviction, the student may not be able to complete the degree because the student may not be able to perform the clinical experience.

Financial Assistance

Traineeships/scholarships may be available from federal and state funding sources depending on the selected area of study and availability of funding in any given year. Financial assistance also is available from the Financial Aid Office of the university. Funding resources are subject to change, and payback clauses may be part of the funding agreement.
Interdisciplinary Minor in Gerontology

The School of Nursing participates in the interdisciplinary gerontology minor offered with the College of Health. A designated faculty adviser in the school assists interested students in completing the requirements for that minor. Specific requirements and courses available for the minor can be found in the College of Health section of this Bulletin.

Graduate Certificate in Gerontology

The school collaborates with the College of Health offering a graduate certificate in gerontology for those who need additional or specialized training, but who do not wish to pursue a master’s degree, or for current Southern Miss graduate students who wish to receive more than a minor degree. A graduate certificate in gerontology will provide students and professionals an opportunity to broaden their theoretical knowledge of aging, the aged, and the policy-making process, keep abreast of changes in the field, meet new educational requirements for their jobs, or prepare for a new position. Specific requirements and courses available for the certificate are in the College of Health section of this Bulletin.

Doctor of Philosophy Degree

The purpose of the Doctor of Philosophy degree in Nursing is to prepare scholars with expertise in selected, substantive areas who will contribute to the science and practice of nursing through systematic inquiry and theory development. Graduates will be prepared to meet state, regional, and national needs for doctorally prepared faculty in schools of nursing and other leadership positions in health-related organizations.

The school has a collaborative program with the University of Mississippi Medical Center School of Nursing. Each university grants its own degree, but there are common admission requirements and a common core of courses that may be taken on either campus. Each institution has different selected fields of study.

Admission Criteria

Application for admission to the program must be completed by March 1 of the year students seek fall admission. Admission to the doctoral program depends upon sufficient enrollment, university resources, and qualifications of applicants. A select number of students will be admitted to the program based on the following criteria:

1. graduation from a master's program in nursing with a practice focus accredited by the National League for Nursing Accreditation Commission or the Commission on Collegiate Nursing Education
2. evidence of current unencumbered licensure to practice professional nursing
3. three letters of reference, including two from doctorally prepared nurses and one from a current or recent employer, that speak to the applicant's intellectual ability, academic potential, and professional achievement; the letters should be sent to the School of Nursing
4. evidence of communication skills (portfolio of scholarly work)
5. a 3.50 grade point average on all previous graduate work
6. satisfactory scores on the verbal, quantitative, and analytical sections of the Graduate Record Examination (GRE)
7. an interview (personal or telephone) with one or more faculty members
8. congruency between student goals and interests and faculty/program emphasis areas

Academic Progression

A series of examinations and procedures mark the student's progression in the Ph.D. program.

1. selection of a Doctoral Program Committee and filing academic program of study
2. a comprehensive examination administered after all major coursework has been completed
3. selection of a dissertation committee which will oversee the student's work toward the degree
4. a final oral examination (dissertation defense) which covers the dissertation research and related fields administered at the completion of the dissertation
5. fulfillment of the residency requirement, which may be met by continuous enrollment of 6 semester hours for each of 4 consecutive semesters, 9 semester hours for each of 3 consecutive semesters, or 12 semester hours for each of 2 consecutive semesters
6. fulfillment of Research Tool(s) requirements
7. a 3.0 GPA is required for graduation

Curriculum - A total of 65-66 semester hours are required for graduation

**Common Core — 14-15 Semester hours**

**Emphasis Areas and Support Courses — 21 semester hours**

Students may select one of the three major emphasis areas - ethics, leadership, or policy analysis - from which to complete 21 semester hours of study. Students will register for 9-12 semester hours in their fields of study, and 9-12 hours of courses that will support their emphasis areas from other schools and departments in the university (e.g. 12 hours of ethics and 9 hours of support courses to equal 21 semester hours).

**Emphasis Areas**

Students must take 9-12 semester hours in the selected emphasis area:

**Ethics**
- NSG 721, 722, 723, 724

**Leadership**
- NSG 741, 742, 743, 744, 745

**Policy Analysis**
- NSG 761, 762, 763, 764

**Dissertation**

A total of 12 semester hours is allotted for the dissertation research.

**Research Tools Requirement**

The following courses meet the research tools requirements for the college:

- NSG 710 - 3 hrs.
- NSG 711 - 3 hrs.
- NSG 712 - 3 hrs.
- Advanced Statistics - 3 hrs.
Center for Nutrition and Food Systems
Kathy Yadrick, Coordinator
118 College Drive #5172
Hattiesburg, MS 39406-0001
(601) 266-5377

Unit Description

Interdisciplinary Minor and Graduate Certificate in Gerontology: The center participates in the interdisciplinary minor in gerontology and graduate certificate in gerontology.

Specific requirements and courses available for the minor and the certificate can be found under the Interdisciplinary Minor and Graduate Certificate in Gerontology headings in the College of Health section of this Bulletin.

Requirements for Admission
Regular admission to the Center for Nutrition and Food Systems master of science degree programs requires a bachelor’s degree from an accredited institution, a grade point average (GPA) of at least 2.75 in the last 60 hours of coursework, a 3.0 GPA in major, submission of test scores from the Graduate Record Examination (GRE), and three letters of recommendation from professionals familiar with the applicant’s work and qualified to assess the applicant’s readiness for graduate study. The letters of recommendation should offer clear support for the applicant’s ability and potential for success in the program and should be sent to the Center for Nutrition and Food Systems. Performance in specific courses related to the desired major will also be evaluated. Graduate work in the major and minor fields of specialization must be preceded by coursework sufficient to satisfy undergraduate requirements or enough related work to indicate the student’s ability to do graduate work in the major and minor fields. Students may correct academic deficiencies by taking or auditing recommended undergraduate courses. Members of all underrepresented groups are encouraged to apply.

Requirements for Graduation
In the Center for Nutrition and Food Systems, the minimum requirement for a master’s degree is 36 semester hours (18 hours of 600 level or higher). Most majors offer thesis and nonthesis options; the requirements for these options differ. All students will take oral comprehensive examinations. Nonthesis students will take written comprehensive exams. A 3.0 GPA is required for graduation.

Master of Science in Human Nutrition
Overview of Major
The Master of Science degree in Human Nutrition offers graduates opportunities to pursue careers in clinical or community nutrition or basic nutrition science. The curriculum is designed to provide students with an in-depth understanding of basic nutrition, contemporary nutrition issues, and research design. Depending on the student’s background and interests, appropriate courses in community health, human performance, adult education, or biochemistry, as well as additional courses in clinical or community nutrition, can supplement the required coursework. Students have the opportunity to develop research interests in clinical or community nutrition with qualified faculty in each area. Students with appropriate prerequisites may also make application to complete requirements for credentialing as a registered dietitian through Southern Miss’ Didactic Program in Dietetics and Dietetic Internship, both of which are accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association.

Master of Science in Institution Management

Overview of Major
The graduate program in institution management is designed for individuals interested in careers in food service management, administrative dietetics, hotel management, school food service, restaurant management, or tourism. Students complete the core courses and a thesis or a minor in nutrition, business, recreation, or an approved area, and elect courses in their area of specialization with the adviser’s approval. Students with appropriate prerequisites may also make application to complete requirements for credentialing as a registered dietitian through Southern Miss’ Didactic Program in Dietetics and Dietetic Internship, both of which are accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association.

Doctor of Philosophy in Nutrition and Food Systems

The Doctor of Philosophy degree in Nutrition and Food Systems will prepare students for leadership and research positions in nutrition or food systems. Career choices upon completion of the Doctor of Philosophy include teaching/research positions in institutions of higher learning, administrative positions in large food service programs including schools and medical and military facilities, and research positions in public and private sectors. Depending on selection of classes, students may emphasize applied community or clinical nutrition, or food systems management in their program.

The curriculum requires 54 semester hours beyond the master’s degree and research tools proficiency.

Requirements for Admission

In addition to meeting the university requirements for admission to the Graduate School, the doctoral program applicant must meet the following requirements for admission to the Nutrition and Food Systems program:

1. Completion of a master’s degree and prerequisite courses for the area of major emphasis is required. Food service management prerequisites include food service management, quantity foods, management, general/nutritional food science, life cycle nutrition, and univariate statistics. Applied nutrition prerequisites include general, organic, and biochemistry, advanced nutrition, anatomy and physiology, food service management, and univariate statistics.
2. A minimum grade point average (GPA) of 3.5 on a 4.0 scale is required on previous graduate work.
3. Submission of acceptable GRE scores is required.
4. A minimum of two years of professional experience in nutrition, food service management, or a related area is recommended.
5. A current vita and a letter of application should be submitted to the coordinator of the Center for Nutrition and Food Systems. The letter of application should include career goals and reasons for pursuing the Doctor of Philosophy should state the intent to emphasize food service management, applied nutrition, or both, and should indicate how previous education and work experience have prepared the individual to pursue the Doctor of Philosophy.
6. Three letters of recommendation addressing professional competence and readiness for doctoral work should be sent directly to the Center for Nutrition and Food Systems.
7. An interview must be scheduled with the graduate faculty in Nutrition and Food Systems.
8. Applicants whose native language is not English must present a minimum TOEFL score of 550.
9. The application must be approved by the graduate faculty, the coordinator of the Center of Nutrition and Food Systems, and the dean of the College of Health.
NOTE: Students not meeting the requirements for regular admission may be considered for conditional admission.

Residency
Students must meet the residency requirements specified in this Bulletin.

Requirements for a Doctor of Philosophy in Nutrition and Food Systems

Qualifying Exam. Student must take a qualifying exam.

Research Tool(s). The student must demonstrate proficiency in statistical methods and one other research area.

Statistics Proficiency. The statistics requirement may be met by choosing three (3) of the following courses or by approval of the student’s advisory committee.
- CHS 623: Biostatistics
- CHS 723: Biostatistics II
- REF 761: Experimental Design
- REF 762: Advanced Regression Analysis
- REF 824: Advanced Experimental Design
- REF 830: Multivariate Analysis in Educational Research
- PSY 764: Factor Analysis

Second Research Tool Proficiency. To be determined in conjunction with student’s advisory committee.

NOTE: Hours earned satisfying the research tools do not count toward the degree.

Core Requirements (15 hours)
- NFS 810 Food and Nutrition and Public Policy
- NFS 774 Management of Nutrition Services: A Behavioral Approach
- NFS 703 Research Techniques for Nutrition and Food Systems
- NFS 811 Doctoral Seminar (total of 3 credit hours)
- COH 601 College Teaching in Health and Human Sciences

Dissertation (12 hours)
- NFS 898 Dissertation

Other Coursework (27 hours)
Includes coursework from nutrition and food systems and other disciplines. Specific courses must be approved by the student’s graduate committee. A minimum of six (6) hours must be taken from areas outside nutrition and food systems. A minimum of nine (9) hours must be taken from NFS courses:
- NFS 641 Advanced Clinical Nutrition
- NFS 662 Community Health and Nutrition
- NFS 663 The Nutrition of Children
- NFS 664 Seminar in Food and Nutrition
- NFS 667 Nutrition for Teachers
- NFS 673 Child Nutrition Program Management
- NFS 675 Production Management in Food Service Systems
- NFS 676 Seminar in Institution Management
- NFS 693 Readings in Nutrition and Food Systems
- NFS 694 Current Topics in Food Service Management
- NFS 704 Nutritional Aspects of Proteins
- NFS 705 Carbohydrates in Nutrition
- NFS 706 Lipids in Nutrition
- NFS 707 Minerals in Nutrition
- NFS 708 Vitamins in Nutrition
- NFS 713 Nutrition Education: Theory, Research, & Practice
- NFS 715 Recent Developments in Applied Nutrition
- NFS 720 Nutrition and Aging
- NFS 730 Digestion, Absorption, and Excretion of Nutrients
- NFS 740 Issues in Food Safety
- NFS 776 Development of Business Opportunities in Food & Nutrition Services
- NFS 777 Service Systems, Planning & Control
- NFS 792 Special Problems in Nutrition
- NFS 797 Independent Research
- NFS 813 Nutritional Metabolism
- NFS 815 Nutrition Support
- NFS 817 Advances in Nutrition & Food Service Management Education

A 3.0 GPA is required for graduation.
School of Social Work

Michael D. Forster, Director
Timothy Rehner, Assistant Director
K. Carolyn Brooks, Coordinator of Field Instruction
118 College Drive #5114
Hattiesburg, MS 39406-0001
(601) 266-4163

Belton, Bethel, Boatright*, Bohanon*, Brooks*, Davis, Forster, Hrostowski*, Kolbo, Rehner, Rowley, Scurfield, Velie*

*Associate Graduate Faculty

Unit Description

The primary purpose of the School of Social Work is to provide professional social work education to undergraduate and graduate students. The school offers the Bachelor of Social Work (BSW) degree and the Master of Social Work (MSW) degree.

The social work profession recognizes the BSW degree as preparing students for entry-level generalist social work practice in social service agency settings. The MSW degree prepares students for advanced practice in agency settings and in private practice. The school is accredited by the Council on Social Work Education.

Interdisciplinary Minor in Gerontology

The School of Social Work participates in the interdisciplinary minor in gerontology and the graduate certificate in gerontology. Specific requirements and courses available for the minor and the certificate can be found under the Interdisciplinary Minor and Graduate Certificate in Gerontology headings in the College of Health section of this Bulletin.

Offerings for Non-Majors

A number of courses offered within the School of Social Work do not have prerequisites and may be excellent choices for electives by non-majors. These courses include

- SWK 606 Social Justice and Social Policy
- SWK 663 Consultation and Supervision
- SWK 692 Special Problems (Grant Writing or Grief and Bereavement or Addictions or Social Development and Social Welfare in Jamaica)

Degree Description

Overview

The MSW program, established in 1974 and the oldest graduate social work program in the state of Mississippi, features a 30-credit-hour advanced generalist concentration that builds upon a 30-credit-hour generalist foundation. An advanced standing MSW degree program exempts qualified and admitted applicants from taking foundation courses.

Career Opportunities

Career opportunities for well-prepared master’s-level social workers are extensive. Social workers provide social services to more people in Mississippi and across the United States than any other professional group. Social work professionals use a wide variety of empirically based methods to help individuals, families, groups, organizations, and communities solve a broad range of problems. Social work professionals are in demand in many human service arenas, including

- Home Health and Hospice
- Child and Family Welfare
- Mental Health
- Substance Abuse
- Family Violence
- Vocational Rehabilitation
- Public Welfare
- Corrections and Court Systems
- Public Health
- School Systems
- Early Childhood
- Youth Services
- Armed Forces
- Gerontology
- Hospitals
- Employee Assistance
- Public Policy
Field Instruction

Quality hands-on field instruction experiences (practica) are vital to graduate social work education. Students in the 60-credit-hour MSW program complete a minimum of 900 hours of field instruction. Students admitted to the advanced standing program complete a minimum of 450 hours of field instruction. Field placements are available to students in more than 130 social service agencies, located primarily in South Mississippi. While in field placement, students receive direct guidance and supervision from experienced field instructors who hold the MSW degree.

Special Program Requirements

Program Options. The school is offering three MSW program models at the Hattiesburg campus in academic year 2004-2005 for qualified applicants: a full-time, two-year, 60-credit-hour model, and a part-time, three-year, 60-credit-hour model; and a full-time, one-year, 30-credit-hour minimum advanced standing model. The part-time program is designed primarily for employed practitioners. Part-time programs at Gulf Park and in Tupelo, Miss. will also admit students in 2004-2005.

Semester of Admission. Two-year and three-year program students will only be admitted for fall semesters. Advanced standing students may be admitted in the summer or fall semesters.

Application Deadline. Applications may be submitted any time. However, all admission requirements must be completed by March 15 to ensure application consideration for the following fall semester.

Admission Criteria

Applicants to the School of Social Work are evaluated and admitted without discrimination on the basis of age, gender, race, religion, color, creed, ethnic or national origin, disability, political, or sexual orientation.

All applicants to the MSW program are evaluated and admitted on the basis of the following criteria:

A. a bachelor's degree from an accredited college or university
B. a minimum of 12 semester hours of liberal arts coursework and a course in human biology
C. the grade point average (GPA) on the last 60 hours of undergraduate coursework required by the Graduate School
D. Graduate Record Examination (GRE) scores
E. a written personal statement
F. a written response to a case situation
G. three letters of recommendation from persons qualified to assess the applicant's readiness for graduate study

Applications to the advanced standing program are evaluated on the basis of the additional criteria below:

Advanced Standing. Qualified applicants to the MSW program who hold a BSW from an accredited program, or who have completed equivalent foundation curriculum coursework at an accredited school of social work, may be exempted from up to 30 credit hours of MSW foundation coursework.

Applicants holding the BSW degree and applying for advanced standing must meet the following criteria:

A. BSW degree from an accredited program conferred within the last five years
B. minimum GPA of 3.0 in the last 60 hours of baccalaureate education
C. minimum GPA of 3.5 in the undergraduate social work program overall, with a grade of B or better in all required social work courses
D. GRE scores
E. a passing score on a qualifying examination based on foundation curriculum content

Eligibility of an applicant for advanced standing admission based on MSW foundation coursework completed at an accredited program other than Southern Miss is determined by the following:

A. assessment of curriculum comparability by the MSW admissions committee
B. a grade of B or better in all courses considered toward advanced standing
C. a recommendation of the admissions committee and approval of the director
D. compliance with other standard criteria for admission to the MSW program
E. a passing score on the appropriate sections of a qualifying examination based on foundation curriculum content
Grade Point Average. For applicants to either the 60-credit-hour full-time or part-time MSW programs, the GPA on the last 60 hours of undergraduate coursework must be at least 2.5. For applicants to the 30-credit-hour advanced standing program, the GPA on the last 60 hours of undergraduate coursework must be at least 3.0 and the GPA for the undergraduate social work program must be at least 3.5.

Graduate Record Examination. The GRE is required for admission. Applicants should schedule the exam so as to allow sufficient time for submission of exam scores by March 15; call 1-(800)-473-2255, or access the GRE Web site at http://www.gre.org for details.

Conditional Admission. The school adheres to university policies with regard to admission of graduate students on a conditional basis. The university regulations concerning conditional admission for full-time or part-time students are stated in this Bulletin under Admission Requirements and Procedures.

Progression Requirements. Full-time, first-year students in the 60-credit-hour model will be enrolled in classroom courses in each semester and in concurrent field instruction (practicum) in the spring and summer semesters of the first year. In the fall semester of the second year, students will take classroom courses only and in the spring semester will be placed in an advanced field practicum for four days each week.

At least one classroom course will be taken during the spring semester concurrently with the advanced field practicum. All courses must be taken in accordance with a sequenced curriculum plan (see the model program below).

Full-time students in the 30-credit-hour advanced standing model will take classroom courses only during the fall semester. In the spring semester, students will be placed in an advanced field practicum for four days each week. Three classroom courses will be taken during the spring semester concurrently with the advanced field practicum. All courses must be taken in accordance with a sequenced curriculum plan (see model program below).

Part-time students are required to take nine hours each semester during the first year. All courses must be taken in accordance with a sequenced curriculum plan (see the model program below). A minimum of 60 credit hours is required for graduation.

Students must maintain a cumulative GPA of 3.0 and must achieve a grade of B or better in each field practicum. In compliance with university requirements, students are required to pass a written comprehensive examination in order to graduate; usually the examination is completed prior to taking advanced classes, and functions to qualify students for entrance to the advanced curriculum (second half of the program).

Two-Year Full-Time Program Model

Semester I Fall
SWK 601 Human Behavior I.................................3
SWK 605 Social Welfare Policy.............................3
SWK 608 Generalist Practice I...............................3

**Semester III Summer**  
Electives ............................................................................................ 6  

**Minimum Total Credit Hours: 30**
The Department of Speech and Hearing Sciences offers programs leading to the Master of Arts, the Master of Science, and the Doctor of Audiology degrees. Emphasis is possible in three principal areas: (1) speech-language pathology, (2) audiology, and (3) education of the deaf.

New students are accepted by the Department of Speech and Hearing Sciences for the master’s program in speech-language pathology or education of the deaf prior to each registration period. Students are accepted for the master’s program in audiology for the summer and fall semesters only. Students must have regular admission status to register for practicum courses.

Nondegree students are not permitted to register for courses in speech and hearing sciences without permission.

Potential graduate students should refer to other sections of the Bulletin for information regarding admission requirements as set forth by the Graduate School. Regular admission to the master’s and doctoral programs is based upon the previous academic records, submission of scores on the Graduate Record Examination, and three letters of recommendation. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department or school. The size of the graduate program is limited by accreditation standards, and admission is made on a competitive basis.

Students who do not qualify for regular admission may be admitted on conditional basis if space allows. Conditional students are required to take additional coursework for graduation. In addition, a student whose initial admission is on a conditional or nondegree basis may register for no more than one hour of clinical practicum during any semester of their graduate program. Conditional students whose grade point average is less than 3.0 after the first nine (9) hours or on all courses taken while meeting the nine (9) hour requirement will be dropped from the program.

A major in speech-language pathology at the master’s level requires a minimum of fifty-four (54) semester hours, while a major in audiology at the master’s level requires a minimum of forty-five (45) semester hours. The Master of Arts degree in Speech-Language Pathology requires a foreign language proficiency, thesis, four semester hours of clinical practicum, no less than 12 three-semester-hour courses, and the successful completion of a comprehensive examination. A 3.0 GPA is required for graduation. The master’s comprehensive examination is the National Examination in Speech-Language Pathology and Audiology; the passing score for this year is 600. The Master of Science degree in Speech-Language Pathology requires four semester hours of clinical practicum, no less than 15 three-semester-hour courses, and the successful completion of a comprehensive examination. The Master of Arts degree in Audiology requires a thesis, three semester hours of clinical practicum, no less than nine three-semester-hour courses, foreign language proficiency, and the successful completion of a comprehensive examination. The Master of Science degree in Audiology requires three semester hours of clinical practicum, no less than 11 three-semester-hour courses, and the successful completion of a comprehensive examination. A 3.0 GPA is required for graduation.

The Doctor of Audiology degree requires five semester hours of clinical practicum, a minimum of 21 three-semester-hour courses, completion of an extern residency, successful completion of a doctoral research project and the successful completion of the doctoral comprehensive examination.

Master’s Degree with Emphasis in Audiology

The master’s degree with an emphasis in audiology is a clinical degree designed to meet the academic and practicum requirements for the Certificate of Clinical Competency in Audiology awarded by the American Speech-Language-Hearing Association. The following courses are required: SHS 528, 601, 621, 623, 625, 688, 694, 696 or 692, 701, 722, 723, 724, 726. A 3.0 GPA is required for graduation.
Master’s Degree with Emphasis in Education of the Deaf

The program leading to the master’s degree with an emphasis in education of the deaf is individualized to the needs of the student. Specialization in education of the deaf may be pursued in a number of areas including pre-primary, elementary (grades 1-8), secondary, secondary special subject, or a specialty area. Selection of specialization areas is governed by the candidate’s background, interests, and employment objectives. A 3.0 GPA is required for graduation.

The master’s degree program enables a student to qualify academically for a master’s degree teaching certificate. However, some states may impose other requirements prior to an individual’s obtaining compensation at the master’s level. Mississippi requires a teacher to have two years of experience before being compensated at the master’s degree level; thus, a person holding a master’s degree but with no teaching experience must be paid at the bachelor’s level until two years’ experience has been obtained.

Requirements differ from state to state and it is the responsibility of the student to be aware of these differences.

Master’s Degree with Emphasis in Speech-Language Pathology

The master’s degree with emphasis in speech-language pathology is a clinical degree designed to meet the academic and practicum requirements for the Certificate of Clinical Competence in Speech-Language Pathology awarded by the American Speech-Language-Hearing Association. The following courses are to be taken by candidates for the master’s degree in this emphasis area: SHS 513, 516, 518, 519, 601, 642, 643, 644, 646, 648, 650, 687, 694, and/or 695, 702, 712, 716, 719. A 3.0 GPA is required for graduation.

Practicum Requirements

A student in speech-language pathology or audiology must complete practicum in three different settings. Off-campus sites must be approved by the faculty adviser, and students must have a minimum grade point average of 3.0 before beginning off-campus practicum.

Doctor of Audiology Degree

The Doctor of Audiology (Au.D.) degree is a clinical doctorate designed to meet the academic and practicum requirements for the Certificate of Clinical Competence in Audiology awarded by the American Speech-Language-Hearing Association. The following courses are to be taken by candidates for the Doctor of Audiology degree: SHS 528, 621, 625, 688, 722, 723, 724, 726, 710, 794, 896. Additional elective courses will be determined by the adviser and the department chair. A 3.0 GPA is required for graduation.

Accreditation

The master’s degree programs in speech-language pathology and audiology are accredited by the Council on Academic Accreditation, and the Southern Miss Speech and Hearing Clinic is accredited by the Professional Standards Board. Both accreditations are by the American Speech-Language-Hearing Association, and are recognized by the Council on Post-Secondary Accreditation and the United States Office of Education.

The master’s degree program with emphasis in education of the deaf is certified by the National Council for Accreditation of Teacher Education (NCATE). This certification is reciprocal among approximately 40 states.

Admission Requirements for International Students

In addition to meeting the requirements for admission stated in this Bulletin, international students are required to submit a TOEFL score of 560 and submission of scores from the GRE.

The College of Science and Technology offers degrees as outlined on the previous two pages. Please check each department/school section for specific admission, course, and graduation requirements as well as for descriptions of areas of specialization. In addition, present and prospective students should consult earlier sections of this Bulletin for the general Graduate School requirements and regulations that apply to all graduate programs and degrees.

The Center for Science and Mathematics Education, in cooperation with the Departments of Biological Sciences, Chemistry and Biochemistry, Coastal Sciences, Computer Science and Statistics, Geology, Marine Sciences, Mathematics, Medical Technology, and Physics and Astronomy offers the M.S., Ed.D., and Ph.D. degrees in science and mathematics education with areas of specialization as indicated in the college’s graduate degrees listing. These units also cooperate with the College of Education and Psychology to offer the coursework to support the M.Ed. and Ed.D. in secondary education with various science and mathematics specialization areas.

The college offers an interdisciplinary minor in environmental science. Interested students may obtain a listing of the available courses from the chair of their department or graduate committee.

The faculty members of the College of Science and Technology have organized numerous specialized centers and institutes, several of which address interdisciplinary issues. Brief descriptions of the principal ones follow.

**Gulf Coast Research Laboratory**

The Gulf Coast Research Laboratory (GCRL) in Ocean Springs has offered summer courses in the marine sciences since 1947. More than 160 researchers, technical and support personnel, and students work on this campus; research emphasis areas include aquatic animal health, marine aquaculture, aquatic biodiversity, coastal ecology, fate and effects of environmental pollutants, and fisheries science. The GCRL is home to the Department of Coastal Sciences and the Center for Fisheries Research and Development.

**J. L. Scott Marine Education Center and Aquarium**

The state’s window on the sea, the J. L. Scott Marine Education Center and Aquarium (MEC&A) in Biloxi, features 48 aquariums and a central 42,000-gallon Gulf of Mexico tank. Science education and a suite of hands-on marine education programs have earned the MEC&A an international, award-winning reputation.

**Stennis Space Center**

The Stennis Space Center (SSC) is home to more oceanographers than any other location in the world. Students, staff, and faculty have the opportunity to interact with more than 1,000 scientists, engineers, and technical personnel working at this site located near Bay St. Louis, Mississippi. Collaborations are possible with personnel at the Naval Research Laboratory, the Naval Oceanographic Office, the Naval Meteorology and Oceanography Command, the National Oceanic and Atmospheric Administration’s National Data Buoy Center, the National Marine Fisheries Service, the U.S. Environmental Protection Agency’s Gulf of Mexico Program, the U.S. Geological Survey, the National Aeronautics and Space Administration laboratories, and other agencies. SSC is home to the Department of Marine Science, Center for Ocean and Atmospheric Modeling, Center for Trace Analysis, and Hydrographic Science Research Center.
Center for Macromolecular Photochemistry and Photophysics

David Creed, Coordinator
118 College Drive #5043
Hattiesburg, MS 39406-0001
(601) 266-4714

This center was established in 1992 to promote closer cooperation and synergism among those faculty interested in the technologically important area of polymer photochemistry. The center has mainly a coordinating function, particularly in such activities as inviting visiting speakers to the campus, continuing a program of in-house seminars and research discussions, promoting ties with industry, facilitating cooperative research projects, and purchasing and maintaining common research equipment. In 1995, the center received funding from the National Science Foundation’s EPSCoR program for development activities including support of student research and visits by external seminar speakers and consultants. Faculty from the Departments of Chemistry and Biochemistry, Physics and Astronomy, and the School of Polymers and High Performance Materials currently participate in center activities.

Center for Molecular and Cellular Biosciences

Gordon Cannon, Coordinator
118 College Drive #5043
Hattiesburg, MS 39406-0001
(601) 266-4221

This center is composed of scientists with expertise in the disciplines of biochemistry, microbiology, molecular biology, and molecular genetics. The center facilitates research in these areas by means of a weekly Journal Club, which reviews the current literature, and the Distinguished Scientists Seminar Series, which brings world-renowned researchers to the Hattiesburg campus. In addition, the center provides a forum for interaction among graduate and undergraduate students working in the laboratories of the participating faculty. Faculty currently associated with the center are members of the Departments of Biological Sciences, Chemistry and Biochemistry, Polymer Science, and Psychology.

Innovation for Construction and Engineering Enhancement (ICEE) Center

Tulio Sulbaran, Director
118 College Drive #5137
Hattiesburg, MS 39406-0001
(601) 266-6419

The Innovation for Construction and Engineering Enhancement (ICEE) Center is a multi-disciplinary industrial, educational and research hub housed at The University of Southern Mississippi within the School of Engineering Technology. The mission of ICEE is twofold:

1) develop, implement and assess the latest educational technology for the architecture/engineering/construction community; and

2) enhance the economic development of the construction industry through the use of the latest technologies and management tools.

Individuals with background and/or interest in education, information technology or architecture/engineering/construction are encouraged to contact the center to explore possible opportunities.
Institute of Environmental Science

Eyler Coates, Director  
118 College Drive #5137  
Hattiesburg, MS 39406-0001  
(601) 266-4896

The Institute of Environmental Science assembles teams of researchers from all disciplines as needed to undertake applied research in the areas of environmental studies and renewable energy resources. Providing environmental expertise to the community is another major function of the institute.

Institute for Formulation Science

Robert Y. Lochhead, Director  
118 College Drive #10076  
Hattiesburg, MS 39406-0001  
(601) 266-4868

The Institute for Formulation Science supports and coordinates research in formulation science. The institute is an integral part of the College of Science and Technology and functions in concert with the School of Polymers and High Performance Materials.

Mississippi Polymer Institute

James Evans, Director  
118 College Drive #10003  
Hattiesburg, MS 39406-0001  
(601) 266-4607

The Mississippi Polymer Institute was authorized by the Mississippi Legislature in 1983. The purpose of the institute is to conduct research designed to support the rapidly growing polymer industry in Mississippi by building the infrastructure and providing technical assistance. The institute is an integral part of the College of Science and Technology and functions in concert with the School of Polymers and High Performance Materials.

School of Engineering Technology

Shelton Houston, Interim Director  
118 College Drive #5137  
Hattiesburg, MS 39406-0001  
(601) 266-4896  

Adams, Ali, Blessé, Coates, Endh, Fletcher, Hannon, Herrod, Houston, Johnsey, Kemp, Kohn, Ley, Leybourne, Lipscomb, Marchman, Neal, Sheybani, Vajpayee

Master of Science in Engineering Technology

The School of Engineering Technology offers a program leading to the Master of Science in Engineering Technology with specialization in construction, electronics/computer systems, industrial/manufacturing technology, advanced visualization, and environmental compliance and safety. The degree can be obtained through research thesis, significant project, or coursework options. Advanced study in industrial use of computers includes computer-aided drafting (CAD), computer-aided manufacturing (CAM), computer-integrated manufacturing (CIM), construction scheduling and estimating, robotics, and virtual reality design computing. Electronics and computer systems courses focus upon the introduction and implementation of state-of-the-art technology. Students are encouraged to develop degree plans that include technical electives in management, computer science, mathematics, environmental science, and related academic disciplines to prepare themselves for leadership roles in high technology industries.

Admission Requirements

For regular admission, students must have an undergraduate degree from an ABET accredited program or from a closely related program and a minimum 2.75 GPA. Students must submit test scores from the Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT) and two (2) letters of recommendation. Letters of recommendation should be from persons
qualified to assess the applicant’s readiness for graduate study and should be sent to the department or school. Students whose native language is not English must achieve a TOEFL score of 575 or higher.

Conditional admission may be granted to students who do not meet requirements for regular admission. Students admitted on a conditional basis may be required to complete additional coursework and must have a minimum GPA of 3.0 on the first nine hours of graduate courses 500 level or above or on all courses taken when meeting this nine (9) hour requirement in order to be granted regular admission.

Program Requirements

In addition to the degree requirements established by the Graduate School, students earning the Master of Science in Engineering Technology must satisfy the degree requirements listed below.

1. Students must select a degree option (thesis, project, or coursework) and develop a degree plan to be approved by a faculty adviser and the School of Engineering Technology graduate coordinator prior to the completion of more than nine (9) hours of graduate work.
   (a) Thesis Option: The thesis is intended to be a scholarly piece of research designed to expand the student’s education in an area of engineering technology. This research must be conducted and defended before the student’s graduate committee, and the final thesis report accepted by the Southern Miss graduate reader and the Southern Miss Graduate Studies Office. The thesis, when completed, receives six (6) graduate hours. The thesis option requires 30 hours total: six (6) hours of thesis, and 24 additional hours (18 hours must be at the 600 level or higher). Students who elect to prepare a thesis should enroll in ENT 691, ENT 697, and ENT 698. Students are strongly encouraged to publish their work in engineering technology journals.
   (b) Project Option: The project is also intended to be a scholarly piece of research. The project must be conducted, written, and defended before the student’s graduate committee. The project is worth three (3) graduate hours. The project option requires 33 hours total: three (3) hours of project and 30 additional hours (18 hours must be at the 600 level or higher). Students who select the project option should enroll in ENT 699 for project credit. Students are strongly encouraged to present their project work at engineering technology conferences.
   (c) Coursework Option: The coursework option requires 36 hours total of which 18 hours must be 600 level or higher.

2. During the first year of graduate study, students must select a graduate committee comprised of three members of whom two must be members of the graduate faculty of the School of Engineering Technology.

3. Students must perform satisfactorily on a comprehensive examination, which is required for graduation. This exam is normally administered during the final semester of graduate work.

4. Students must maintain a cumulative GPA of 3.0 based on all graduate courses completed.

Construction Engineering Technology

Master’s Degree and Certificate Program

Mission

The Construction Engineering Technology (BCT) graduate program at The University of Southern Mississippi is committed to preparing its students for careers in construction business and to assisting organizations in Mississippi. After completing this graduate program, students should be able to have the following managerial competence:

- estimate the cost of construction projects ranging in complexity level
- schedule construction projects using the latest methods
- prepare cost and schedule performance parameters
- model construction processes, flows, and crew balance
- document the flow of information of a construction project
- implement project control methods and procedures
- apply accounting techniques for construction projects
- implement quality standards
- prepare effective communication documents
- deliver construction-related information effectively
To fulfill our mission, the Construction Engineering Technology program seeks a balanced and synergistic agenda of instruction, scholarly activity and professional service and provides the opportunity to obtain either a Master of Science in Engineering Technology or construction management certificate.

This program is designed to expand instructional opportunities beyond traditional boundaries of on-campus class delivery. The BCT Graduate Executive Format program utilizes a distance-learning platform to maximize interaction and learning not only during in-person, weekend-class sessions, but also between sessions via online communication among students and professors.

**Graduate Degree Program**

Requests for application forms and other information may be addressed to the director of graduate admissions. Telephone inquiries may be made by calling (601)266-4896.

Graduate assistantships are available for the M.S. degree. Students with good undergraduate records are encouraged to apply at the time they request admission.

**Admission Standards**

Admission to The University of Southern Mississippi’s M.S. program is selective. Regular admission is contingent on having graduated from a college or university accredited by a recognized accrediting agency. In addition, the graduate admissions committee of BCT recommends admittance only for those applicants whose academic background, work experience, demonstrated leadership, and communication skills meet the challenging demands of graduate programs in construction.

In evaluating applications, the admission committee utilizes the following criteria.

**Undergraduate record**

The cumulative grade point average (GPA) from all institutions, the area(s) of concentration, the balance of verbal/communication and quantitative/analytical courses, and the trend of grades are considered.

**Graduate Admission Tests**

A candidate should strive to achieve good balanced scores in all areas of either the Graduate Management Admissions Test (GMAT) or Graduate Record Exam (GRE). For further information regarding taking these tests, contact the Graduate Admissions Office.

**Test of English as a Foreign Language (TOEFL)**

Students whose native language is not English must achieve a TOEFL score of 550 or higher.

**Work Experience**

While work experience is not required for admission, two or more years of relevant responsibility strengthens the likelihood of admission to the program. Applicants are encouraged to submit resumes showing job responsibilities and accomplishments.

**Letters of Recommendation**

The admission committee reviews letters of recommendation to gain a more personal understanding of the applicant’s leadership ability in terms of communication and interpersonal skills. Each applicant should request three recommendation letters, at least one of which addresses the applicant’s academic preparation. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the program coordinator.

**Essay**

The essay requirement provides the applicant an opportunity to demonstrate writing competency and communication skills. It also enables the applicant to provide specific examples of demonstrated leadership, to discuss career plans, and to supply additional information that will assist the admission committee in selecting those individuals who can most benefit from and contribute to the graduate construction program. The applicant should submit a two-page essay.
Students may enroll in BCT courses reserved exclusively for graduate students if they have regular admission to specific Southern Miss graduate programs and have taken the necessary prerequisites or if they have been admitted to the certificate program. In rare cases, students may be admitted conditionally. To remove conditional admission status, master’s students must earn a 3.0 on the first nine (9) semester hours of coursework numbered 500 or above or on all courses taken while completing this nine (9) hour requirement.

Students transferring from other graduate schools must meet the admission requirements stated above. At the time of admission, transfer students may request that up to six (6) semester hours of approval credit be applied toward degree requirements. Once enrolled, transfer of credit for courses taken at other institutions must be approved in advance.

Academic Policies

Application of credits and dismissal

Students who receive a grade of C in more than nine (9) hours of coursework will be dismissed from the program. Students may not apply hours toward a degree for courses in which there is a grade of D; students who receive grades of D in more than six (6) hours of coursework will be dismissed from the program. Students who receive grades of F in more than three (3) hours of coursework will be dismissed from the program.

Upon approval by the graduate committee, students may repeat one and only one course to improve a cumulative grade point average (GPA). Students whose cumulative GPA falls below 3.0 will be placed on probation. Students must attain a cumulative 3.0 GPA by the end of the following (probationary) semester or the graduate committee may dismiss them from the program subject to review.

Degree Requirements

Master of Science in Engineering Technology

The master of science (M.S.) program is available to individuals who have a construction-related undergraduate degree and/or practicing experience in construction, as well as to individuals who do not have construction background. The required M.S. coursework is 36 hours. However, due to the diversity of individual background, individuals with extensive construction experience could qualify to test out of up to six (6) hours of coursework. Individuals with no construction background should demonstrate competency in fundamental construction concepts (pre-master competency) or take leveling courses. It is also possible to enter the certificate program with credits leading to an M.S. degree. (Please refer to the Certificate Program section for further details).

M.S. Program Requirements

In addition to the degree requirements established by the Graduate School (minimum 30 hours with a minimum of 18 hours at the 600 level), students earning the Master of Science in Engineering Technology must satisfy the degree requirements listed below.

1. During the first semester of graduate study, students must select a graduate committee comprised of three members of whom two must be members of the graduate faculty of the Construction Engineering Technology program.
2. Students must develop a degree plan to be approved by a faculty adviser prior to the completion of more than nine (9) hours of graduate work. Contact graduate faculty in the Construction Engineering Technology program for suggested plan of study.
3. Students must complete the coursework including required foundation courses defined within the degree plan following guidelines established in the next section.
4. Students must complete a project. With approval of the student’s graduate committee, a thesis option may be selected.
   a. Thesis Option: The thesis is intended to be a scholarly piece of research designed to expand the student’s education in an area of engineering technology. This research must be conducted and defended before the student’s graduate committee, and the final thesis report accepted by the Southern Miss Graduate Reader and the Southern Miss Graduate School. The thesis option requires a minimum of 30 hours total (18 hours must be at the 600 level or higher). Additional hours may be required based on the student’s academic record and construction experience. Students are strongly encouraged to publish their work in engineering technology journals.
(b) Project Option: The project is also intended to be a scholarly piece of research. The project must be conducted, written, and defended before the student’s graduate committee. The project option requires 36 hours total (18 hours must be at the 600 level or higher). Additional hours may be required based on the student’s academic record and construction experience. Students are strongly encouraged to present their project work at engineering technology conferences.

5. Students must perform satisfactorily on a comprehensive examination, which is required for graduation. This exam is normally administered during the final semester of graduate work.

6. Students must maintain a cumulative GPA of 3.0 based on all graduate courses completed.

Certificate Requirements

Requirements for a Certificate in Construction Management

The certificate in construction management is a professional curriculum that is open to both resident degree candidates and practitioners who need to update and formalize their knowledge pertaining to construction management and who comply with either traditional or nontraditional admission requirements of the university as specified elsewhere in the Graduate Bulletin. Students may complete the certificate program with or without being admitted to a specific degree program. Students must declare their intent to complete the certificate program in a letter to the Construction Engineering Technology program before completing six (6) credit hours of the courses required for the Certificate. Students may complete the certificate curriculum by taking the courses in any combination of either physical or virtual classrooms.

To earn the certificate, students are required to complete

1. a minimum of 12 coursework hours, and
2. a directed individual project for one credit hour of BCT 692, all with grades of B or better.

Upon review and approval by the graduate committee, credit earned during certificate achievement may be applied toward the M.S. degree.

School of Mathematical Sciences

Elain N. Hendricks, Administrative Assistant
118 College Drive #5045
Hattiesburg, MS 39406-0001
(601) 266-4741

The School of Mathematical Sciences comprises the Departments of Computer Science and Statistics, Mathematics, and Physics and Astronomy. In addition to the degree programs offered by the departments separately, they cooperate through the School of Mathematical Sciences to offer master’s degrees with emphasis in computational science and the Doctor of Philosophy in Scientific Computing.

Master of Science Program—Emphasis in Computational Science

Students must be admitted to one of the three departments in the school according to their admission requirements. Students seeking this emphasis for an M.S. degree from any of the three participating departments will complete the common core by taking three of the four courses from each of the following departmental offerings.

Computer Science and Statistics

CSC 513 Algorithms
CSC 515 Mathematical Statistics I
CSC 625 Computer Graphics
CSC 636 Modeling and Simulation
MAT 610 Numerical Linear Algebra

Mathematics

MAT 560 Numerical Analysis
MAT 605 Ordinary Differential Equations
MAT 606 Partial Differential Equations

Physics and Astronomy

PHY 551 Physical Applications of the Fourier Transform
PHY 555 Fluid Dynamics
PHY 603 Statistical Physics
PHY 606 Methods of Mathematical Physics
The student must complete an additional nine (9) semester hours in the department that awards the degree as well as meet other requirements imposed by that department. To determine which nine (9) semester hours are needed and what other degree requirements must be met, the student should consult the department from which he or she wishes to receive the degree. The student must have a 3.0 GPA to graduate.

Doctor of Philosophy in Scientific Computing
Joseph Kolibal, Coordinator Program in Scientific Computing
118 College Drive #5049
Hattiesburg, MS 39406-0001
(601) 266-4301

Participating computational sciences faculty from the Departments of Mathematics, Computer Science, and Physics with associated faculty from the applied science at Southern Miss, doctoral advisers representing faculty participating in computational science research at Southern Miss, and research organizations such as Stennis Space Center.

Admission Requirements
Students expecting regular admission to the program should hold a bachelor’s or master’s degree in computer science, mathematics, physics, or a closely related field and possess a grade point average of at least 3.5 on all graduate work attempted. Prospective students should submit scores from the general section of the Graduate Record Examination and two letters of recommendation from persons qualified to assess the student’s readiness for doctoral study. Letters should be sent to the school.

Program Requirements
A minimum of eighty-four (84) graduate semester hours beyond the bachelor’s degree or fifty-four (54) graduate semester hours beyond the master’s is required for the degree. Students are expected to possess a reasonable proficiency at the undergraduate level in computer science, mathematics, and physics. Students not proficient may be required to take additional courses. All students in the program are required to complete a core curriculum consisting of the following courses:

- SC 710 Computational Methods for Physical Systems
- SC 720 Mathematics for Scientific Computing I
- SC 721 Mathematics for Scientific Computing II
- SC 730 Parallel Algorithms
- SC 740 Seminar (must be taken twice)

The program is designed to allow a student to select from among several fields of specialization in computational science allowing the student to develop a research topic emphasizing either computer science, numerical mathematics, computational physics, computational marine science, or ocean modeling. This list is not meant to be restrictive; however, these are emphasis areas that are currently actively supported. Because of this flexibility, the SC course requirements beyond the core curriculum are determined by the student’s adviser and doctoral committee, and the research topic that is chosen must satisfy programmatic requirements in computational science. To assure this, the student’s doctoral committee must contain at least two faculty members whose backgrounds are directly in computational science (e.g., mathematics, computer science, numerical modeling). Other members of the committee, including the chair, may be chosen from any other applied science.

Courses beyond the core curriculum have included specialized SC courses, and can also include graduate courses offered by other departments. Specialized SC courses that have been offered include:

- SC 712 Computational Studies on Phase Separation Kinetics
- SC 713 Liquid Crystals: A Computational Approach
- SC 726 Remote Sensing I
- SC 735 Scientific Numerical Modeling
- SC 736 Neural Networks
- SC 750 Introduction to Computational Fluid Dynamics
- SC 751 Finite Element Methods in Computational Fluid Dynamics
- SC 760 Underwater Acoustic System Analysis
- SC 762 Computational Ocean Acoustics
- SC 781 Topics in Scientific Computing
Other courses that can be used to meet graduate course requirements include courses offered by other departments that contain an appropriate analytical or computational component (please see the appropriate sections of the catalog for a full description). The following list is not meant to be exclusive, but to provide guidance to students in selecting courses with the advice of their committee:

- CSC 624 Computer Communication Networks and Distributed Processing
- CSC 625 Computer Graphics
- CSC 626 Advanced Computer Architecture Prerequisite
- CSC 629 Applied Combinatorics and Graph Theory Prerequisite
- CSC 630 Parallel Programming Technique Prerequisite
- CSC 632 Artificial Intelligence
- CSC 636 Modeling and Simulation Prerequisite
- CSC 638 Advanced Computer Algorithms Prerequisite
- CSC 640 Mathematical Programming Prerequisite
- CSC 644 Advanced Robotic Systems Prerequisite
- CSC 645 Expert Systems Prerequisite
- MAR 661 Introduction to Numerical Ocean Modeling
- MAR 662 Introduction to Dynamical Oceanography
- MAR 663 Ocean Dynamics
- MAR 664 Turbulence
- MAR 671 Introduction to Geophysical Fluid Dynamics
- MAT 605 Ordinary Differential Equations
- MAT 606 Partial Differential Equations
- MAT 660 Numerical Analysis I
- MAT 661 Numerical Analysis II
- MAT 641 Real Analysis
- MAT 684 Topics in Applied Mathematics
- MAT 685 Topics in Computational Mathematics
- PHY 601 Mechanics
- PHY 602 Electricity and Magnetism
- PHY 603 Statistical Physics
- PHY 606 Methods of Mathematical Physics
- PHY 650 Quantum Mechanics I
- PHY 651 Quantum Mechanics II

Further information about courses of study may be obtained from the Scientific Computing Program Web site at www.sc.usm.edu.

Research Tool(s)

SC 809 Research Tools for Scientific Computing

Residency

Students must meet the residency requirements specified in this Bulletin.

Other Requirements

Students must meet the requirements of the Graduate School of The University of Southern Mississippi. They are required, additionally, to pass a comprehensive examination covering the core curriculum, to submit a formal prospectus (research proposal) that has been approved by the doctoral committee, and to present an acceptable copy of the dissertation to the doctoral committee at least fourteen (14) calendar days prior to the defense of the dissertation. This defense will take place at an advertised research seminar, open to members of the university community. (See the Dissertation Deadline Schedule in the front section of this Bulletin.)

The Comprehensive and Qualifying Examinations

To remain in good standing in the program, each student, upon completion of the core curriculum, must take and pass a comprehensive examination. The examination, which is normally
administered in the spring and fall of each year, consists of three sections covering the three corresponding areas of the core curriculum and is prepared by a committee of scientific computing faculty. Students must register for the examination two months prior to the examination date and will have only one additional opportunity to pass the examination, retaking only those sections of the examination that they failed to pass at the first sitting. The opportunity to try the examination a second time must be exercised no later than the corresponding semester in the year immediately following the first attempt. Students failing to pass all sections of the examination after the second try will be dismissed from the program.

The qualifying examination is prepared by each student’s graduate committee and is designed to determine whether or not the student is qualified to embark on dissertation research.

Department of Biological Sciences

Frank R. Moore, Chair
118 College Drive #5018
Hattiesburg, MS 39406-0001
(601) 266-4748

G. Anderson, Beckett, Biesiot, Curry, Davis, Elasri, Ellender, Hairston, Howell, Kreiser, Luo, Middlebrooks, Moore, Pessoney, Qualls, Santangelo, Scheetz, Shearer, Wang, Williams

The Department of Biological Sciences offers graduate degrees with emphases in environmental biology, marine biology, microbiology, and molecular biology. BSC courses cross-listed as MAR courses are generally taught at the university’s Institute of Marine Sciences’ Gulf Coast Research Laboratory (GCRL) in the Department of Coastal Sciences (COA) at Ocean Springs, Miss. A COA faculty member may function as a student’s major professor.

Admission Requirements

Granting of regular admission to the graduate program in the Department of Biological Sciences is based on the following criteria:

1. suitability of the student to pursue research in the department. Applicants must submit a written letter or essay specifying their research interests and career goals. Acceptance of the applicant is dependent on the availability of a faculty member to direct the student’s research and to mentor the student through the program, and the availability of research facilities to carry out the student’s research. Because of the critical nature of the student-faculty mentor relationship, applicants are strongly encouraged to contact potential faculty advisers prior to application.

2. student records. Admission to the program is selective and specifications concerning grade point average in the front section of this Bulletin are used as a guideline in the selection process.

3. results from the general section of the Graduate Record Examination.

4. letters of recommendation. Three letters of recommendation should be sent to the department. The department will not begin its review of the application until the three letters of recommendation and essay of research interests (described above) have been received.

Because more qualified applicants are received than can be accepted, admission to the department’s program is very selective.

Conditional admission to departmental programs is considered only for students who meet Graduate School standards for conditional admission and who are sponsored by a member of the faculty of the department. The sponsor must provide a written statement indicating willingness to serve as the applicant’s major professor.

The target dates for receipt of applications for admission for the fall and spring semesters are February 15 and September 15, respectively. All applications received after these dates will be considered if space is available or will be considered for the next term. Applications for teaching assistantships will be considered beginning February 15 as well.
Master of Science Program

Program Requirements
A minimum of thirty (30) graduate hours with a 3.0 GPA is required for this degree (18 hours must be at the 600 level or higher). Students must meet the general requirements set forth by the Graduate School of The University of Southern Mississippi. The following are major additional requirements.

1. Arrange for a graduate adviser by the end of the second semester.
2. Gain approval of a written prospectus from a three-member graduate thesis committee by the end of the third semester.
3. Pass a comprehensive examination (oral and/or written) by the end of the fourth semester.
4. Gain approval of a written thesis and successfully defend the thesis at an advertised research seminar open to the public by the end of the third year.

Doctor of Philosophy Program

Program Requirements
A minimum of eighty-four (84) graduate hours beyond the bachelor’s degree or a minimum of fifty-four (54) graduate hours beyond the master’s degree with a 3.0 GPA is required. Students must meet the general requirements set forth by the Graduate School of The University of Southern Mississippi. The following are major additional requirements.

1. Arrange for a graduate adviser by the end of the second semester.
2. Gain approval of a written prospectus from a five-member doctoral committee by the end of the fourth semester.
3. Provide an annual research progress report to the doctoral committee after completion of prospectus.
4. Pass a comprehensive examination (oral and written) by the end of the sixth semester.
5. Fulfill the Research Tools requirement as specified by the student’s doctoral committee and approved by the chair of the department.
6. Gain approval of a dissertation and successfully defend the dissertation at an advertised research seminar open to the public by the end of the fifth year (for students with an M.S. degree) or sixth year (for students without an M.S. degree).

Department of Chemistry and Biochemistry

Robert C. Bateman, Chair
118 College Drive #5043
Hattiesburg, MS 39406-0001
(601) 266-4701
Bateman, A. Bedenbaugh*, Booth*, Butko, Cannon, Evans, Fawcett, Heinhorst, Huang, Lowe, Minn*, Pojman, Schanz, Wertz
*Associate Graduate Faculty

Admission Requirements
Applicants wishing to enter either the master of science degree program or the doctor of philosophy degree program within the department must satisfy the requirements of the Graduate School. Among those factors considered in the admission decision are the GPA, submission of test scores on the GRE, and two letters of recommendation from persons qualified to assess the candidate’s readiness for graduate study. Letters should be sent to the department. Students whose native language is not English must achieve a score of 590 or above on the TOEFL exam.

Master of Science Program
The Department of Chemistry and Biochemistry offers the master of science with specialization in analytical, inorganic, organic, physical, biochemistry, or chemistry education. The M.S. programs jointly emphasize area coursework and research/thesis.

Program Requirements
The master’s program requires a minimum of thirty (30) hours with a 3.0 GPA (18 hours must be at the 600 level or higher). Placement examinations to identify deficiencies and to indicate remedial studies to remedy these deficiencies, participation in the seminar program, and a familiarity with computer programming are required for the M.S. degrees, along with specific but flexible coursework programs. Completion of a comprehensive examination in the student’s area of specialization is also required.
Doctor of Philosophy Program

The Department of Chemistry and Biochemistry offers the doctor of philosophy with specialization in analytical, inorganic, organic, physical, biochemistry, and chemical education. The Ph.D. programs emphasize excellence in research. Qualified students holding a bachelor of science are encouraged to enter directly into the doctoral program. Individuals who are adequately prepared may take the qualifying examination at the beginning of their first semester of graduate work, but in no case can it be postponed beyond the second semester of graduate work.

Program Requirements

The Ph.D. programs require eighty-four (84) graduate hours beyond the bachelor’s degree or fifty-four (54) graduate hours beyond the master’s degree with a 3.0 GPA. Specific course requirements depend upon individual needs and are selected with the advice of the student’s research director and doctoral committee.

Among other requirements are

1. completion and oral defense of a research prospectus
2. completion of a Ph.D. comprehensive examination
3. Participation in the seminar program
4. Research Tool(s)
   The student’s research director and doctoral committee will determine the research tools requirement, which is to be based on the student’s background and goals.
5. completion of a substantial research project and successful oral defense of a dissertation
6. Residency. Students must meet the residency requirements specified in this Bulletin.

Department of Computer Science and Statistics

Adel Lotfy Ali, Chair
118 College Drive #5106
Hattiesburg, MS 39406-0001
(601) 266-4949

The Department of Computer Science and Statistics offers the Master of Science in Computer Science and the Master of Science in Computer Science with an emphasis in computational science. Requirements for the emphasis in computational science and the Doctor of Philosophy in Scientific Computing may be found in the School of Mathematical Sciences section of this Bulletin.

Master of Science Program in Computer Science

For the M.S. degree in computer science, a minimum of thirty-three (33) hours of graduate work is required. Of these hours, at least 21 must be computer science courses (non-thesis/project) numbered 600 or above. In addition, a student will complete either a thesis (6 hours) or a project (3 hours) in computer science. A 3.0 GPA is required for graduation.

The master’s program is designed to provide a fundamental understanding of theoretical and applied computer science that will allow the student to begin exploring special topics and state-of-the-art subjects. It will prepare a student for advanced applications, development, and research positions in industry or for doctoral-level studies.

Admission Requirements

In addition to meeting the entrance requirements set forth by the Graduate School of The University of Southern Mississippi, the student must be admitted by the departmental admissions committee on a regular or conditional basis. Students must submit scores on the Graduate Record Examination and transcripts of all undergraduate work. During the past year, successful applicants have had a mean GPA of 3.43. Applicants are required to submit three letters of recommendation by professionals in computer/computational science qualified to assess the student’s readiness for graduate study. Letters should be sent to the department. In addition, applicants are encouraged to submit additional information that documents their potential for doing graduate work in computer/computational science. This would include industrial work experience and training and graduate work already completed. Students with minor deficiencies may be granted conditional admission.

For students who do not come from an undergraduate program where the courses clearly equate with the Southern Miss courses, the graduate admissions committee will review a students’
transcripts and decide which, if any, requirements can be met with undergraduate courses. A student will not be granted regular admission to the computer/computational science graduate program until those requirements are met. See the general policies of the Graduate School for further requirements of conditional admission for students.

Credit will NOT be given toward the master’s degree for any course taken to absolve deficiencies, meet admission requirements, or fulfill undergraduate prerequisite courses.

The student must select a three-person advisory committee. The chair of this committee must be from the Department of Computer Science and Statistics (one member may be from outside the Department of Computer Science and Statistics).

**Program Requirements**

1. completion of prerequisites. A student applying for admission will normally have a B.S. degree from a computer science or closely related program. Minimum coursework required for admission includes the equivalent of CSC 101, 102, 203, 204, 205, 306, 307, 308, 414, and three courses from among the following: CSC 305, 410, 411, 412, 413, and 415 (see the Southern Miss Undergraduate and Graduate Bulletins for course descriptions) and mathematics through integral calculus, basic probability, discrete math, and linear algebra.
2. completion of CSC 513 if the student has not completed CSC 413
3. completion of 33 hours of graduate coursework to include a set of core courses (CSC 616, CSC 623, CSC 626), and three courses from among the following: CSC 620, CSC 624, CSC 632, CSC 633, and CSC 638. Students may substitute CSC 620 for CSC 616, in the set of core courses, if they have credit for the equivalent of CSC 415.
4. satisfactory completion of a thesis (6 hours’ credit) or a project (3 hours’ credit)
5. satisfactory completion of a final comprehensive examination
6. 3.0 GPA required for graduation

**Master of Science in Computer Science with an Emphasis in Computational Science**

The department also awards an M.S. degree with an emphasis in computational science. A degree plan for this emphasis area must include a common core of courses taken from the Departments of Computer Science and Statistics, Mathematics, and Physics. Details on the common core are specified in the Computational Science Emphasis area listed under the School of Mathematical Sciences. Nine (9) additional hours of computer science courses must be taken.

**Admission Requirements**

See admissions requirements in the above section.

**Program Requirements**

1. completion of prerequisites. A student applying for admission will normally have a B.S. degree from a computer science, mathematics, physics, or closely related program. Minimum coursework required for admission includes the equivalent of CSC 101, CSC 102, CSC 307, MAT 385, MAT 326, and PHY 351 or PHY 361.
2. completion of at least 36 hours of graduate work with a 3.0 GPA (18 hours must be at the 600 level or higher)
3. completion of the computational science core courses listed under the School of Mathematical Sciences in this Graduate Bulletin.
4. satisfactory completion of a comprehensive examination

**Department of Geography**

Clifton Dixon, Chair
118 College Drive #5051
Hattiesburg, MS 39406-0001
(601) 266-4729
Bass, Cochran, Dixon, Griffith, Panton, Raber, Reese

The Department of Geography offers a program of study and research leading to a Master of Science in Geography. The curriculum is designed to provide a thorough understanding of geography as a profession, as well as a solid foundation for continued work towards a Doctor of
Philosophy in Geography or a related field. The master’s degree provides students with a broad knowledge of the history, theory, content, and techniques of geography. Graduate students can design their course of study/research and concentrate in one of the subfields of geography that the faculty support. These areas include, but are not limited to, geospatial technologies (remote sensing, GIS, cartography), historical culture geography, coastal geography, environmental change, biogeography, landscape ecology, resource management, Latin America and the U.S. South.

Admission Requirements
The department encourages all interested candidates to apply. An undergraduate degree in geography is not a prerequisite.

1. Applicants must have a 3.0 (4.0 scale) grade point average over the last sixty (60) hours of undergraduate study.
2. Applicants must also submit a GRE score to the Office of Graduate Admissions. Students whose native language is not English must achieve a TOEFL score of 560 or higher.
3. Students with a non-geography degree may be required to take courses to cover their deficiencies. In exceptional cases, students may be admitted conditionally. Such students must earn a 3.0 on the first nine (9) semester hours of coursework numbered 500 or above or on all coursework taken while completing this nine (9) hour requirement in order to qualify for regular admission.
4. Applicants must also send two letters of recommendation to the Department of Geography, care of the graduate coordinator.
5. Applicants must also send a personal statement as to why they want to enter the program. This statement should be limited to 750 words and should also be sent to the graduate coordinator in the Department of Geography.

Curriculum Requirements
1. a minimum of thirty-six (36) semester hours in graduate-level geography courses with at least eighteen (18) hours of work in courses at the 600-level. With the approval of the major professor, the student has an option of taking (outside the department) up to twelve (12) semester hours of cognate courses within the minimum hourly requirements. Courses prefixed with GHY, ED, or LG may be used in any combination to satisfy the minimum required hours.
2. GHY 610 and 680. These courses are required of all students.
3. demonstrated proficiency in cartography and statistical/quantitative methods. Proficiency is generally established (on an individual basis) by evidence of satisfactory completion of coursework in these areas sometime in a student’s academic career, at either the graduate or undergraduate level.
4. a thesis or a paper of professional quality. The thesis will confer six (6) semester hours credit to be counted as part of the total minimum hourly requirement for the degree. The paper, which will normally be the end product of work begun in a seminar, will confer no credit hours toward the minimum required for the degree.
5. an oral examination on the student’s academic program. Students writing a thesis will take an oral defense of the thesis. Students choosing the option of preparing a paper of professional quality will have the paper reviewed by the department faculty and will present it orally before the combined faculty.
6. a 3.0 GPA required for graduation

Department of Geology

Gail S. Russell, Chair
118 College Drive #5044
Hattiesburg, MS 39406-0001
(601) 266-4526
Dunn, Meylan, Orsi*, Patrick, Pope, Russell, Ufnar
*Associate Graduate Faculty

The Department of Geology offers a program leading to the Master of Science in Geology. The curriculum is designed to provide both a thorough understanding of geology as preparation for employment as a professional geologist or for doctoral studies and to provide specialization in a selected area of research. The Department of Geology at The University of Southern Mississippi emphasizes both the importance of a field-based education and the application of new technologies to geologic investigations. The Department of Geology collaborates with the Center for Science and Mathematics Education in programs leading to the M.S., Ph.D., and Ed.D. with an emphasis in earth and environmental education.
Admission Requirements

Admission is based on grade point average (GPA), letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study (letters should be sent to the department), and submission of results on the Graduate Record Examination (GRE). Both the overall GPA and a GPA calculated for courses (excluding special problems courses) in geology and other sciences, mathematics, computer science, and statistics will be considered.

Applicants who do not have degrees in geology will be considered for admission but will be required to remedy any deficiencies, including geology field camp, compared to the courses required for the B.S. in geology at The University of Southern Mississippi. Students who are not admitted as regular graduate students may be considered for conditional admission (minimum GPA requirements are in the front section of this Bulletin).

Program Requirements

A minimum of thirty (30) graduate hours, including six (6) hours’ thesis credit, with a 3.0 GPA, is required. The remaining twenty-four (24) hours must be graduate geology courses, excluding GLY 692 (Special Problems in Geology) or similar arranged courses, and must include at least 12 hours at the 600 level, excluding thesis credit. Entering students are required to take two (2) hours of GLY 689 (Seminar).

During the first semester of full-time study, the student should identify a general area of thesis research and establish a thesis director and graduate committee. A thesis prospectus should be approved by the graduate committee no later than the end of the second semester. A comprehensive exam is required during the third semester. The student must complete an original research project and submit and defend a thesis to receive the M.S. degree in geology. Students who have not already passed the Association State Boards of Geology (ASBOG) exam are required to take it before completion of the degree program.

Department of Mathematics

Wallace Pye, Chair
118 College Drive #5045
Hattiesburg, MS 39406-0001
(601) 266-4289
Adan-Bante, Betounes, Contreras, Ding, Harris, Henry, Hornor, Kolibal, Lee, Piazza, Pye, Redfern

The Department of Mathematics offers the Master of Science in Mathematics with emphases in mathematics and computational science. It also offers the Doctor of Philosophy in Computational Science with an emphasis in computational mathematics and, through the Center for Science and Mathematics Education, the Doctor of Philosophy in Science Education with an emphasis in mathematics.

Admission Requirements

Regular admission to the M.S. programs in mathematics require that the applicant satisfy the general admission and academic requirements for all M.S. programs at the university as set forth in this Bulletin. In addition, in evaluating applications, the admission committee utilizes the following criteria.

1. The undergraduate record should indicate that the applicant satisfies the present undergraduate requirements for a major in mathematics at The University of Southern Mississippi.
2. Applicants must include scores from the general test of the Graduate Record Examination (GRE);
3. The application must include three letters of recommendation from persons qualified to assess an applicant’s readiness for graduate study (letters should be sent to the department) and a current résumé.
4. Applicants whose native language is not English must achieve a TOEFL score of 580 or higher.

The department chair can recommend conditional admission for an applicant whose credentials strongly meet all regular admission requirements except for one. This student must then meet all conditional admission requirements as set forth in this Bulletin as well as any additional requirements imposed by the chair.
Master of Science in Mathematics
Program Requirements

Before completing one semester of graduate work, the student should select a three-person advisory committee from the graduate faculty. The student, with the help of his or her academic adviser, should prepare an Application for Approval of Graduate Program form. The adviser will distribute copies to the graduate faculty, the student’s advisory committee, the department chair, the departmental file, and the student. Subsequent changes in the program must be approved by the department chair and all three committee members.

The student must enroll in the two-semester advanced calculus sequence at the graduate level at the beginning of the graduate program if the equivalent of this sequence was not included in the student’s undergraduate preparation. Neither course can be used to satisfy any part of the minimum hour requirement for the master’s degree, and a grade of B or above must be earned in each of the two courses.

The following minimal requirements must be included in the program:

1. 33 hours of graduate coursework beyond the equivalent of a Southern Miss undergraduate degree in mathematics;
2. 21 hours of courses numbered above 600;
3. 18 hours of mathematics courses numbered above 600, which includes MAT 689 I and II (Mathematics Seminar I and II);
4. 3.0 GPA for graduation; and
5. a comprehensive examination.

NOTE: Subject to approval of the department chair and the student’s advisory committee, an outside minor consisting of nine (9) semester hours may be used as a portion of the 33-hour program.

Courses offered by the department are grouped into seven areas. The student should select a suitable balance in at least three of the seven areas.

Seven Specialty Areas
1. Topology/Geometry: 572, 575, 601, 683
2. Analysis: 536, 636, 682
3. Algebra and Linear Algebra: 521, 523, 524, 526, 603, 610, 681
4. Optimization and Numerical Analysis: 518, 519, 560, 561, 610, 685
5. Real Analysis and Probability: 520, 641, 642
6. Combinatorics and Graph Theory: 537, 539, 629

Each candidate for the master’s degree will be expected to demonstrate mastery of subject matter on the master’s comprehensive examinations. These examinations consist of two parts, a written examination and an oral examination, which must be successfully completed two weeks prior to graduation. The written exam will cover the content of two courses (selected by the advisory committee in consultation with the student) from each of the student’s three areas of specialization. The oral examination may cover all coursework, including courses taken as an undergraduate.

The student whose thesis prospectus has been approved needs to select only two areas of specialization (other than the one in which the thesis is written). The written exam will cover the content of two courses from each of these two areas. The oral examination will then consist primarily of a defense of the thesis.

The student who desires to write a thesis must select a graduate faculty member who agrees to serve as thesis director. Prior to beginning the thesis, a student must submit (for approval to his or her advisory committee) a prospectus, the guidelines for which are available in the departmental office.

Master of Science in Mathematics with an Emphasis in Computational Science
Program Requirements

This multidisciplinary degree program requires that the student complete a 27-hour core (three courses from each of the three disciplines: computer science, mathematics, and physics) and an additional nine (9) hours in mathematics. The student must enroll in the two-semester advanced
calculus sequence at the graduate level at the beginning of the graduate program if the equivalent of
this sequence was not included in the student’s undergraduate preparation. Neither course can be
used to satisfy any part of the minimum hour requirement for the master’s degree, and a grade of B
or above must be earned in each of the two courses. The student who has been awarded an
assistantship must also include six (6) hours of mathematics seminar in his or her program. These
minimum requirements are as follows:

1. core (27 hours). Please see the School of Mathematical Sciences section of this Bulletin.
2. MAT 689 I and II (Mathematics Seminar I and II) required of those students who receive an
   assistantship
3. MAT 561 (Numerical Analysis II) plus six additional hours to be chosen from: MAT 629, 684,
   685, and the remaining MAT core course
4. 3.0 GPA to graduate
5. a comprehensive examination

The master’s comprehensive exam will cover the content from six courses: MAT 560, 561; two
courses from MAT 605, 606, and 685; and two courses from MAT 610, 629, and 684.

Department of Physics and Astronomy
Christopher Winstead, Interim Chair
118 College Drive #5046
Hattiesburg, MS 39406-0001
(601) 266-4934
Folse, Gandy, Hughes, Lee, Mead, Pandey, Rayborn, Sirochman, Whitehead

The Department of Physics and Astronomy offers a program leading to the Master of Science in
Physics. The curriculum is designed to provide students with knowledge of both the fundamental areas
of physics as well as selected applied physics topics. Research areas from which a thesis may be
chosen include digital signal processing, acoustics, viscous fluid flow, turbulence/chaos, mathematical
physics, statistical mechanics, many-body methods in nuclear and condensed matter, polymer physics,
liquid crystal physics, general quantum field theory, optics, and laser spectroscopy.

In addition to the traditional master’s program in physics, the department also offers emphasis areas
in polymer physics and computational science. The latter is a 36-semester-hour interdisciplinary
program offered in cooperation with the Department of Mathematics and the Department of
Computer Science and Statistics.

Admission Requirements
Admission to the master of science program is based upon several factors including a student’s
previous academic performance, recommendation letters (minimum of two), and scores on the
Graduate Record Examination (GRE). Letters of recommendation should be from persons qualified
to assess the applicant’s readiness for graduate study and should be sent to the department or school.
A minimum score of 540 on the TOEFL examination is required of those applicants for whom
English is not their native language. Prospective graduate students should have completed
mathematics through differential equations, and satisfactorily completed courses in introductory
physics, mechanics, electricity and magnetism, modern physics, and quantum mechanics at the
undergraduate level. Students with inadequate preparation may be admitted on a conditional basis but
will be required to complete makeup courses with a grade of B or better. To remove conditional
admission status, master’s students must earn a 3.0 on the first nine (9) semester hours of coursework
numbered 500 or above or on all coursework taken while completing this nine (9)-hour requirement.
It is recommended, but not required, that students applying for a stipend take the Advanced Physics
GRE.

Master of Science Program in Physics
Program Requirements

1. completion of a minimum of thirty (30) hours of graduate work with a 3.0 GPA (18 hours must be
   at the 600 level or higher)
2. completion of the physics core courses:
   PHY 601, 602, 603, 650............................................................12 hours
3. PHY 689 (I, II, III, IV): Physics Seminar...........................................................4 hours
4. satisfactory completion of a comprehensive examination
5. development and completion of an original research project, thesis, and oral defense:
   PHY 698: Thesis .................................................................6 hours
6. Electives......................................................................................8 hours
Master of Science in Physics with an Emphasis in Polymer Physics

Program Requirements
Students choosing this optional program to the M.S. in physics must have successfully completed at least one full year of general chemistry with laboratory and it is strongly recommended that one semester of organic chemistry be taken for credit. Attendance at relevant seminars in the School of Polymers and High Performance Materials is required.

1. completion of a minimum of thirty (30) hours of graduate work with a 3.0 GPA (18 hours must be at the 600 level or higher)
2. completion of the physics core for the polymer option:
   PHY 601, 602, 603, 650, 689 (I, II, III) ............................................................ 15 hours
3. polymer science coursework (at least 9 hours from the following):
   PSC 710, 711, 712, 730, 811, 812 ................................................................. 9+ hours
4. satisfactory completion of a comprehensive examination
5. development and completion of an original research project, thesis, and oral defense
   PHY 698: Thesis (in the area of polymer physics) .............................................. 6 hours

Master of Science in Physics with an Emphasis in Computational Science

Program Requirements
1. completion of at least thirty-six (36) semester hours of graduate work with a 3.0 GPA (18 hours must be at the 600 level or higher)
2. at least three (3) courses from each of the three supporting disciplinary areas that make up the Computational Science Program. (listed under the School of Mathematical Sciences in this Graduate Bulletin) ......................................................... 27 hours
3. additional hours of physics courses including
   PHY 601, 602, and 650 ......................................................................................... 9 hours
4. satisfactory completion of a comprehensive examination
5. attendance at seminars in the Department of Physics is strongly recommended.

School of Polymers and High Performance Materials

Douglas Wicks, Chair
118 College Drive #10076
Hattiesburg, MS 39406-0001
(601) 266-4868

Boyes, Hester, Hoyle, Lochhead, Mathias, Mauritz, McCormick, Moore, Morgan, Nazarenko, Otaigbe, Storey, Thames, Urban, Wicks

The School of Polymers and High Performance Materials offers programs at the master’s and doctoral levels. Curricula are designed to provide both a fundamental understanding of polymer chemistry and engineering and advanced courses dealing with special topics and state-of-the-art subjects. Both the M.S. and Ph.D. degrees require extensive research in areas involving basic investigations and developments applied to current and future problems of our society and world.

Master of Science Program

Admission Requirements
Admission to the master’s program is based upon previous academic performance and scores on the general section of the Graduate Record Examination. Requirements include the following: a minimum grade point average of 2.75 or better on the last 60 hours of undergraduate work, a 3.0 GPA in major, two letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study (letters should be sent to the school), and submission of scores on the GRE.
Program Requirements

Specific details of the admission and program requirements are outlined in a separate handbook provided by the School of Polymers and High Performance Materials.

Graduation is based upon

1. completion of 54 hours of graduate work including the 21 hours of PSC core courses with a GPA of 3.0 or better (18 hours must be at the 600 level or higher);
2. satisfactory development of an original research project and a thesis; and
3. satisfactory completion of the final comprehensive examination

Required Coursework

PSC 701, 702, 710, 720, 721, 730, and 703 or 712.................................................................21 hours
PSC 691, 698: Research in Polymer Science and Thesis.........................................................10-45 hours
PSC 789: Polymer Science Seminar.........................................................................................1-4 hours

Doctor of Philosophy Program

Admission Requirements

The school admits students only to the master’s program because of the diversity of entering students’ backgrounds. Demonstrated excellence is required in coursework and examinations before a student is allowed to enter the doctoral program. Admission of students with previous graduate coursework or master’s degrees from other institutions will be considered on an individual basis.

Regular admission to advanced standing requires (1) obtaining a minimum GPA of 3.0 on the 26 hours of core courses; (2) obtaining a minimum GPA of 3.5 in at least 30 hours of graduate courses taken at Southern Miss including the core courses and research; and (3) passing all three sections of the written comprehensive examination.

Additional requirements for the Ph.D. degree dealing with residency, the research tools, the committee, the dissertation, the dissertation defense, application for candidacy, and graduation are described elsewhere in this Bulletin.

Program Requirements

Specific details of the admission and program requirements are outlined in a separate handbook provided by the School of Polymers and High Performance Materials.

Minimum course requirements for the doctorate are eighty-four (84) semester hours of coursework beyond the bachelor’s degree. Fifty-four (54) semester hours are required beyond a master’s degree in polymer science or a related area. Doctoral students must take all core courses (PSC 701, 702, 703, 710, 711, 720, 721, 730, 740) as well as two 800-level courses that are offered. Graduate students must register for one hour of polymer science seminar (PSC 789) each semester that they are in residence. A 3.0 GPA is required for graduation.

Research Tool(s)

See department chair for specific requirements.

Residency

Students must meet the residency requirements specified in this Bulletin.

Comprehensive Examination

The written comprehensive examination serves as the qualifying examination for the Ph.D. program, and is given twice a year at the beginning of the summer term and at the beginning of the spring term. This three-part examination covers the areas of organic, physical, and practical polymer science.

A student who fails any part of the examination must retake and pass that part at the end of the summer term. Only one additional attempt is allowed.
Dissertation Prospectus

Within nine (9) months of completing the written comprehensive examination, a written dissertation prospectus that includes an annotated bibliography must be approved by the student’s committee. The prospectus summarizes the student’s work accomplished to date and gives an outline of research objectives for the dissertation project.

Proposition Presentation and Oral Defense

Within 18 months of completing the comprehensive examination, the student must submit an independently conceived and developed written proposal dealing with an original proposition unrelated to his or her dissertation research. This proposal is then presented orally and defended before the faculty. Oral evaluation of the student’s general knowledge of polymer science is carried out concomitant with his or her defense of the proposal.

Center for Science and Mathematics Education

Susan Ross, Director
118 College Drive #5087
Hattiesburg, MS 39406-0001
(601) 266-4739

*Associate Graduate Faculty

The Center for Science and Mathematics Education, recognizing the national goal of improving the delivery of science instruction and the accompanying demand for individuals with advanced degrees in science education, provides programs for the Master of Science, Doctor of Philosophy, and Doctor of Education in Science Education.

Master of Science Program

The program of study at the master’s degree level is designed to increase the professional competency of science teachers and to provide the coursework necessary to meet standards of teaching certification at this advanced level. The Master of Science Education degree is offered with an emphasis in biology, chemistry, coastal science, marine science, mathematics, earth and environmental sciences, or physics. The program outcomes expressed in terms of student learning include demonstration of (a) graduate-level mastery of knowledge in the student’s selected emphasis area; (b) the ability to integrate content knowledge into curricular, instructional, and assessment strategies for students at different educational levels; and (c) the ability to formulate, implement, and sustain changes in reforming science education to meet national standards at a school level.

Admission Requirements

In addition to the general admission and academic requirements for all graduate programs as set forth in this Bulletin, regular admission to the master’s program in science education requires a bachelor’s degree in any area of science (or combination of science and professional education) and a minimum grade point average of 3.0 in undergraduate study. A Mississippi Department of Education Class-A license is required if advancement to a Class-AA licensure is desired. Applicants are required to present to the center director for consideration verbal and quantitative scores on the Graduate Record Examination, three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study (letters should be sent to the center), and a one- to two-page statement of the applicant’s teaching philosophy in the areas of knowledge to be addressed, teaching methodology, and assessment.

Students who fail to meet the criteria for regular admission may be considered for conditional admission if the Program Admissions Committee, center director, dean of the college, and director of Graduate Studies are satisfied that the applicant shows promise of successfully completing graduate degree requirements. Regular admission will be granted with the completion of nine (9) semester hours of Southern Miss graduate work (500 level or higher) with a minimum of a B average on all courses taken while completing this nine (9)-hour requirement, the removal of deficiencies, and a positive recommendation from the student’s adviser.
Program Requirements
The master’s degree requires a minimum of thirty-four (34) semester hours of graduate work with a 3.0 GPA as specified below (18 hours must be 600 level or higher)

(a) Twenty-one (21) semester hours in a content area with a minimum of 12 hours in the emphasis area and a minimum of 3 hours in a related discipline
(b) Six (6) semester hours in professional education (REF 601 and REF 607 if seeking AA certification in the State of Mississippi)
(c) Seven (7) semester hours in science education (including SME 601 and limiting hours of special problems to 3 semester hours)

By the end of the second semester, the student should arrange through the center director for the appointment of a three-member graduate committee by the dean of the college. To graduate, students must complete an approved program of study with a 3.0 grade point average, complete written comprehensive exams or compile and submit a portfolio showing evidence of mastery of the program learning outcomes, and pass an oral comprehensive examination. The student’s graduate committee will be responsible for monitoring the student’s progress, administering the comprehensive examination, and determining if all criteria have been met for graduation.

Doctor of Philosophy and Doctor of Education Programs
The Center for Science and Mathematics Education offers programs leading to the Doctor of Philosophy and Doctor of Education in Science Education with emphasis in biology, chemistry, coastal science, computer science, earth and environmental sciences, marine science, mathematics, medical technology, or physics.

Within the framework of the overall curriculum requirements, programs are planned to accommodate the professional goals of the individual graduate student. For students holding Class-AA certification from the Mississippi State Department of Education, the doctoral program in each emphasis area can be planned to provide for Class-AAAA advanced certification if desired. Graduates of the program are prepared as candidates for teaching positions at the secondary school, community college, and senior college levels as well as positions in curriculum supervision, curriculum development, educational research, and the informal delivery of education in their chosen discipline.

Admission Requirements
In addition to the general admission and academic requirements for all graduate programs as set forth in this Bulletin, regular admission to the doctoral program in science education requires a master’s degree, a Class-AA teaching certificate in one of the emphasis areas if an advance in certification to Class-AAAA is desired, three years of teaching experience at the secondary or college level, and a minimum GPA of 3.5 for all previous graduate work. Applicants are required to present for consideration verbal and quantitative scores on the Graduate Record Examination, three letters of recommendation, and a letter of intent expressing academic, professional, and research goals to the center director. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the center.

Initial admission to the program will be conditional for all students. Students are expected to possess proficiency at the undergraduate level in the chosen emphasis for advanced study. Students not proficient may be required to take additional undergraduate courses. Regular status will be granted with the completion of 12 semester hours of Southern Miss graduate courses numbered 600 level or higher with a 3.25 GPA, a positive recommendation from the center director, the removal of any deficiencies, and acceptable performance on the qualifying examination.

Program Requirements
The doctoral degree in science education requires a minimum of fifty-seven (57) semester hours of graduate work beyond the master’s degree, excluding the hours for the dissertation and foreign language requirements, as specified below.

(a) Twenty-four (24) semester hours in a content area with a minimum of 15 hours in an emphasis discipline
(b) Twenty-four (24) semester hours in science education including three (3) semester hours of seminar, SME 691, SME 701, SME 703, SME 700 or SME 720, and SME 725 for students in the mathematics emphasis with a maximum of nine (9) semester hours of SME 791 and a maximum of three (3) semester hours of SME 792
Nine (9) semester hours of electives to be chosen from science education, emphasis discipline, or related discipline and with a minimum of three (3) hours in professional education.

Research Tool(s)
Additional requirements include demonstrated proficiency in two research tools, including educational statistics and one other tool to be identified by the doctoral committee, and independent research culminating in an acceptable dissertation. The research may focus on a problem in the student's emphasis area that is related to the teaching/learning of the discipline or a more general educational research problem.

Qualifying Exam
The department requires a written qualifying examination. This examination is designed to assess both the student's fitness to pursue doctoral work and to provide diagnostic information to the student's committee in planning a program. The student's program will be directed by a five-member graduate committee consisting of two faculty members affiliated with the Center for Science and Mathematics Education, one from the emphasis discipline, one from educational research, and one open for selection according to the student's research focus. The committee will approve the student's program plan and dissertation prospectus, and conduct the comprehensive examination, which is administered near the completion of the student's coursework. Upon acceptance of the dissertation by the student's committee and at least four weeks prior to graduation, a final oral examination in defense of the candidate's dissertation will be administered. Furthermore, it is required that a report presenting the candidate's research be prepared and submitted to a refereed journal for publication.

Department of Criminal Justice
Donald Cabana, Interim Chair
118 College Drive #5127
Hattiesburg, MS 39406-0001
(601) 266-4509

The Department of Criminal Justice offers courses leading to a master of arts degree, a master of science degree, a doctor of philosophy degree, and a graduate minor in the master’s and doctoral degree programs of other departments.

Graduate Degree Programs

Master of Arts Degree
The Master of Arts in Criminal Justice consists of a minimum of thirty-three (33) hours of criminal justice coursework, or a minimum of twenty-four (24) hours of criminal justice coursework with nine (9) hours of additional coursework in an approved minor (with 18 hours of 600 level or higher). Either sequence also requires six (6) hours of CJ 698, Thesis, for a total of thirty-nine (39) hours. The master of arts degree program is divided into the emphasis areas noted below. CJ 520 and CJ 625 are required in both emphasis areas. A student will be required normally to select a minimum of four courses from one group and a minimum of one course from each of two other groups in order to gain an appreciation of the interaction of criminal justice system components. A foreign language competency is required. A 3.0 GPA is required for graduation.

Master of Science Degree
The Master of Science in Criminal Justice consists of a minimum of thirty-nine (39) hours of criminal justice coursework, or a minimum of thirty (30) hours of criminal justice coursework with nine (9) hours of additional coursework in an approved minor area, plus successful completion of a written comprehensive examination (with 18 hours at the 600 level or higher). The degree is designed to provide specialization in a designated emphasis area to meet professional needs. CJ 520 and CJ 625 are required in each emphasis area.

General Requirements for Admission to the Master's Degrees/Programs
1. Admission decisions are based on a balancing of a variety of factors. These include scores on the verbal, quantitative, and analytical portions of the Graduate Record Examination’s General
Test and undergraduate grade point average (both overall and in criminal justice) and evidence of related field training and work experience. In addition, applicants are to submit for consideration three letters of recommendation from members of their undergraduate faculty and to have such faculty members forward examples of written work which they are able to identify as original work by the applicant submitted in their courses. The letters should be sent to the department.

2. Applicants granted regular admission who have an undergraduate major in criminal justice, including nondegree graduate students, must have achieved a grade point average of 3.0 overall and in their criminal justice courses.

3. Applicants may be granted conditional admission in cases where other than grade point averages indicate. In these cases the department may, at its discretion, grant conditional admission to undergraduate criminal justice majors and nondegree graduate students in criminal justice with a GPA of less than 3.0 but more than 2.75 overall and in criminal justice courses.

4. Applicants who are not criminal justice undergraduate majors, who meet all other criteria, may be granted conditional admission if the department is satisfied that their grade point average overall and in their particular major indicates the potential to perform acceptably in the program. Students should see the appropriate graduate adviser for requirements to achieve regular admission.

5. All prospective students with other than a criminal justice undergraduate major or strong professional training in criminal justice will be admitted conditionally until after completion of twelve (12) hours of undergraduate criminal justice courses with a B or better in each course. These course hours are CJ 325, CJ 330, CJ 352 and either CJ 341 or CJ 360. All such supplemental undergraduate work must be completed prior to beginning graduate coursework.

6. Students from all underrepresented groups are particularly encouraged to apply.

Required courses are listed below. Duplicated work is not permitted; except with special permission, a student may not take for graduate credit a similar course for which the student earlier received undergraduate credit of B or better.

Selection of the juvenile justice specialty entails completion of sixty (60) hours of coursework in order to comply with state policy and federal court orders governing state employees of the Department of Youth Services. An included minor of eighteen (18) hours of coursework is required in psychology, counseling psychology, or social work. Courses may be selected from the following:

Doctor of Philosophy Degree

The Doctor of Philosophy in Administration of Justice is designed to prepare students for productive careers as teachers and practitioners of justice administration and research. This doctoral degree is normally taken after a student has earned a master’s degree, but exceptional students who have earned only a baccalaureate degree are admitted at the discretion of the Doctoral Admissions Committee; and in both cases applicants must meet all university and departmental requirements for regular admission.

General requirements for admission

The Doctoral Admissions Committee consults a wide range of criteria, including scores on the GRE, grade point averages, letters of recommendation, experience in justice administration and related fields, the nature of proposed dissertation topics, and - in the case of applicants whose native language is not English - a score on the TOEFL examination indicating a high level of proficiency in English language. Letters of recommendation should be from persons qualified to assess the applicant’s readiness for graduate study and should be sent to the department.
General degree requirements include:

1. a minimum of eighty-four (84) semester hours beyond the bachelor’s degree or fifty-four (54) semester hours beyond the master’s degree, with a minimum of thirty (30) semester hours completed in specified 600- and 700-level coursework in administration of justice (AJ) and the remainder in approved cognates. A minimum grade of B is required in each course credited toward the degree.

2. a qualifying examination

3. research tool(s). A combination of coursework which may include proficiency in a foreign language, statistics, or computer science as determined by the department.

4. a written comprehensive examination

5. presentation and oral defense of dissertation

6. residency. Students must meet the residency requirements specified in this Bulletin.

Precise details of the standards for admission and of curricular matters are available from the director of doctoral studies in the Department of Criminal Justice.

Graduate Minor in Criminal Justice
The graduate minor in criminal justice consists of at least nine (9) hours of graduate coursework for the master’s and twelve (12) hours for the doctorate, at least six (6) hours of which must be taken at The University of Southern Mississippi for either master’s or doctorate. Approval of the minor and the courses is at the discretion of the major adviser.

Department of Coastal Sciences
Jeff Lotz, Chair
Kalin Butirich, Coordinator of Graduate Studies
P.O. Box 7000
Ocean Springs, MS 39566-7000
Jeff.Lotz@usm.edu
P.O. Box 7000
Ocean Springs, MS 39566-7000
(228) 872-4201
kalin.butirich@usm.edu

Brouwer, Comyns, Grimes, Hawkins, Heard, Lotz, J. Lytle, T. Lytle, Otvos, Overstreet, Perry*, Peterson, Rakocinski, Walker

*Associate Graduate Faculty
The Department of Coastal Sciences offers both the Master of Science and Doctor of Philosophy in Coastal Sciences. Given the interdisciplinary nature of this department, students interested in pursuing a degree in coastal sciences should develop a strong background and working knowledge in the basic sciences. Experience with computers and a basic background in statistics is recommended.

Master of Science Program
The Department of Coastal Sciences offers a Master of Science in Coastal Sciences with specialization in a wide range of subdisciplines including aquaculture, coastal ecology, biodiversity and systematics, coastal geology, environmental chemistry, estuarine and marine botany, fisheries ecology, geochemistry, parasites and diseases, and toxicology. Knowledge deficiencies will be corrected through completion of elective courses as determined by the student’s three-member graduate committee.

Admission Requirements
Granting of regular admission to the master of science degree program is based on several criteria, including but not limited to the following:

1) submission of complete undergraduate transcript(s). Regular admission to the master of science degree program requires a minimum grade point average (GPA) of 2.75 in the last two years of undergraduate credit, a minimum overall GPA of 3.0 in a science-based major, and an overall GPA of 3.0 or above;

2) submission of results of the general section of the Graduate Record Examination (GRE). Successful applicants have highly competitive scores;
3) a letter of intent stating interests and career goals as well as three letters of recommendation. The letters of recommendation should be from people qualified to assess the applicant’s readiness for graduate study and should be sent to the department. The department will not initiate its review of an application until the essay and letters of recommendation are provided. The essay is used as an example of the applicant’s writing and communication skills, and provides information concerning the compatibility of the applicant’s interests with departmental research interests. The essay and letters of recommendation should be sent to the Department of Coastal Sciences, coordinator of Graduate Studies; and

4) a minimum score of 560 on the paper test or 220 on the computer test is required on the Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English.

Because more qualified students apply to the Department of Coastal Sciences than can be accepted, admission is selective and a complete application must be submitted.

Conditional admission to the Department of Coastal Sciences is considered for students who meet Graduate School standards for conditional admission and who are sponsored by a member of the faculty of Coastal Sciences. The sponsor must provide a written statement indicating willingness to serve as the applicant’s major professor. Conditional students cannot obtain a departmental assistantship but can be awarded a research stipend from a major professor’s grant.

Conditionally admitted students must maintain a 3.0 GPA for the first nine (9) hours of formal coursework numbered 500 and above or on all coursework taken while meeting this nine (9)-hour requirement, not including research hours and only including up to three (3) hours of Special Problems. If this requirement is not met, the student is not allowed to remain in the program. Upon recommendation of the department chair and approval by the graduate dean, the conditionally admitted student may have his or her admission status changed to “regular admission.”

Students wishing to be considered for a limited number of graduate assistantships for the academic year beginning in the fall semester must have their completed application package to the Office of Graduate Studies no later than February 15. All applications for admission reviewed after this date will be considered if space is available, or will be placed in consideration for the next term.

Program Requirements

A minimum of thirty (30) graduate hours is required for this degree. Students must meet the general requirements of the Graduate School of The University of Southern Mississippi. Students advance to candidacy for the M.S. degree by completing the entire program of study (projection of coursework taken during tenure in Coastal Sciences; see below) developed in consultation with their graduate committee with a 3.0 average or above, completing an approved thesis prospectus, and successfully passing the oral or written thesis comprehensive examination or both.

The following list describes major additional requirements:

1. Choose a major professor and establish a three-member graduate thesis committee by the end of the second semester in residency;
2. Develop a program of study in consultation with a major professor and thesis committee by the end of the second semester of residency. Graduate students cannot accumulate more than two Cs;
3. Submit a research prospectus approved by the graduate thesis committee by the end of the third semester in residency;
4. Pass an oral or written comprehensive examination or both by the end of the third semester in residency (administered by the thesis committee); and
5. Present an acceptable copy of the thesis to the graduate thesis committee at least 10 days prior to a public defense of the thesis at a publicly announced meeting. (See Thesis Timetable in front section of this Bulletin.)

*Students can substitute another three-hour statistics course approved by the major adviser and department chair.
Doctor of Philosophy Program

The Department of Coastal Sciences offers a Doctor of Philosophy in Coastal Sciences with specialization in a wide range of subdisciplines including aquaculture, coastal ecology, biodiversity and systematics, coastal geology, environmental chemistry, estuarine and marine botany, fisheries ecology, geochemistry, parasites and diseases, and toxicology. The Ph.D. program emphasizes excellence in research. Knowledge deficiencies will be corrected through enrollment in elective courses as determined by the student’s five-member graduate committee.

Qualified students holding a bachelor’s degree (B.S./B.A.) or M.S. degree in a relevant field of science are encouraged to apply for admission.

Students with a bachelor’s degree but not an M.S. are normally only admitted to the master’s program and not directly to the Ph.D. program. However, students who wish to obtain only the Ph.D. degree may apply to the master’s program that can be rolled into a Ph.D. program without completion of the M.S. Specific requirements for the combination M.S.-Ph.D. program can be obtained from the chair of the Department of Coastal Sciences.

Admission Requirements

Granting of regular admission to the doctor of philosophy degree program is based on several criteria, including but not limited to the following:

1. Regular admission to the doctor of philosophy degree program requires consideration of the undergraduate overall GPA of 3.0 in a science-based major and a minimum GPA of 3.5 on all previous graduate work;
2. Submission of results of the general section of the Graduate Record Examination (GRE). Successful applicants have highly competitive scores;
3. A letter of intent stating interests and career goals as well as three letters of recommendation from people qualified to assess the applicant’s readiness for graduate study should be sent to the department or school. The department will not initiate its review of an application until the essay and letters of recommendation are provided. The essay is used as a sample of the applicant’s writing and communication skills, and provides information concerning the compatibility of the applicant’s interests with departmental research interests. These should be sent to the Department of Coastal Sciences coordinator of Graduate Studies; and
4. A minimum score of 560 on the paper test or 220 on the computer test is required on the Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English.

Because more qualified students apply to the Department of Coastal Sciences than can be accepted, admission is selective and a complete application must be submitted.

Conditional admission to the Department of Coastal Sciences is considered for students who meet Graduate School standards for conditional admission and who are sponsored by a member of the faculty of the Department of Coastal Sciences. The sponsor must provide a written statement indicating willingness to serve as the applicant’s major professor. Conditional students cannot obtain a departmental assistantship but can be awarded a research stipend from a major professor’s grant.

Conditionally admitted students must maintain a 3.25 GPA for the first nine (9) hours of formal coursework numbered 600 and above or on all coursework taken while meeting this requirement, not including research hours and only including up to three (3) hours of Special Problems. If this requirement is not met, the student is not allowed to remain in the program. Upon recommendation of the departmental chair and approval by the graduate dean, the conditionally admitted student may have their admission status changed to “regular admission.”

Students wishing to be considered for a limited number of graduate assistantships for the academic year beginning in the fall semester must have their completed application package to the Office of Graduate Studies no later than February 15. All applications for admission reviewed after this date will be considered if space is available, or will be placed in consideration for the next term.
Program Requirements

A minimum of eighty-four (84) hours beyond a B.S./B.A. degree or a minimum of fifty-four (54) graduate hours beyond the M.S. degree is required for this degree. Students must meet the general requirements of the Graduate School of The University of Southern Mississippi. Students advance to candidacy for the Ph.D. degree by completing the entire program of study (projection of coursework taken during tenure in coastal sciences; see below) developed in consultation with their graduate committee with a 3.0 average or above, completing an approved dissertation prospectus, and successfully passing the written and oral comprehensive examinations.

The following list describes major additional requirements:

1. Choose a major professor and establish a five-member graduate doctoral committee by the beginning of the third semester in residency;
2. Develop a program of study (projection of coursework taken during tenure in coastal sciences) in consultation with major professor and dissertation committee by the end of the third semester of residency. Graduate students cannot accumulate more than two Cs;
3. Research Tool(s). The Ph.D. program requires that the student’s Ph.D. committee will convene and examine the student’s academic background and progress to date and will together develop a set of research tools based on the student’s goals. These research tools will not exceed a total of 15 hours in addition to the core courses and other degree requirements.
4. The student will present a prospectus defense to his/her graduate committee to demonstrate an adequate depth of knowledge and ability to conduct research and pursue the Ph.D. program. For full-time students, this requirement will normally be fulfilled by the end of the second year of the student’s program;
5. Pass an oral and written comprehensive examination by the end of the sixth semester in residency, which is administered by the doctoral committee; and
6. Present an acceptable copy of the dissertation to the graduate doctoral committee at least 10 days prior to a public defense of the dissertation at a publicly announced meeting. (See Dissertation Timetable in front section of this Bulletin.)
7. A 3.0 GPA is required for graduation.

*Students can substitute another three-hour statistics course approved by the major adviser and department chair.

**COA 797 - Independent Study, COA 791 - Research, and COA 898 - Dissertation do not count toward the fifteen (15) hours of electives for the Ph.D. The above courses account for the minimum fifty-four (54) hours required for the Ph.D. for students entering with a M.S. degree. The additional thirty (30) hours of required electives for students entering with a B.S./B.A. degree are selected by the graduate student in consultation with the major adviser and the student’s advisory committee. The fifteen (15) hours of electives are the minimum requirement and additional courses may be required.

Department of Marine Science

Denis A. Wiesenburg, Chair
Department of Marine Science
John C. Stennis Space Center
Stennis Space Center, MS 39529
(228) 688-3177
denis.wiesenburg@usm.edu

Asper, Bontempi, Brunner, Caruthers, Dodd, Howden, Kamenkovich, Lohrenz, Nechaev, Redalje, Shiller, Wells, Wiesenburg
The Department of Marine Science offers both the Master of Science and Doctor of Philosophy in Marine Science and a Master of Science in Hydrographic Science. Graduate level education and research programs are offered in four emphasis areas of marine science (biological, geological, chemical, and physical). These areas include numerical ocean modeling, remote sensing, bathymetry and mapping, positioning, acoustics, and hydrographic surveying. The marine science faculty are drawn from its location at the Stennis Space Center (near Bay St. Louis), and from other departments in the College of Science and Technology (Hattiesburg). Scientists affiliated with the Naval Research Laboratory, Naval Oceanographic Office, National Oceanographic and Atmospheric Administration, National Aeronautics and Space Administration and other agencies at the Stennis Space Center and elsewhere provide additional state-of-the-art research and educational opportunities in marine science and hydrographic science.

The best preparation for students interested in pursuing a graduate degree in marine science or hydrographic science would be to develop a strong working knowledge in calculus, applied mathematics, statistics, the basic sciences (biology, chemistry, geology, physics) and engineering. Experience with computers is highly recommended. We realize that not all students will have gained the ideal background for pursuing a M.S. or Ph.D. in marine science or hydrographic science. Deficiencies will normally be made up during the student’s first year.

**Master of Science Programs**

**Admission Requirements**

In addition to the general admission and academic requirements for all graduate programs as set forth in this Bulletin, regular admission to the master’s program in marine science or in hydrographic science requires successful completion of the Graduate Record Examination and a high grade point average for the last two years of undergraduate study. Successful applicants have highly competitive scores and have grade point averages of 3.0 or above. Also required are three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study which should be sent to the department. A letter of intent should also be sent to the department chair expressing personal academic, research, and career goals. This letter is used in two ways in the admission process. It provides a sample of the applicant’s writing competency and communication skills, and provides information concerning the compatibility of the applicant’s interests with departmental research interests. A minimum score of 560 is required on the Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English. Applicants who are not eligible for regular admission may be considered for conditional admission. Conditionally admitted students must maintain a 3.0 GPA for the first nine (9) hours of coursework numbered 500 and above or on all coursework taken while completing this nine (9) hour requirement. If this requirement is not met, the student is not allowed to remain in the program. Upon recommendation by the department chair and approval by the dean, the conditionally admitted student may have his or her admission status changed to “regular admission.” For students wishing to be considered for graduate assistantships for the academic year beginning in the fall semester, application materials should be received no later than March 1.

**Program Requirements for Master of Science in Marine Science**

A total of 34 hours of graduate level courses (18 hours of 600 level or higher) with a minimum GPA of 3.0 must be completed in order to fulfill the master of science degree requirements. All entering graduate students must complete the four core courses, generally by the end of their first year in residence. Students advance to candidacy for the M.S. degree by completing all the core courses with a grade of B or better, successfully passing the department qualifying examination (administered after the core courses are completed), and completing a thesis prospectus. A graduate student can accumulate no more than two Cs. Other program course requirements include six (6) hours of Thesis and at least two (2) hours of Seminar in Marine Science. The required courses account for 24 of the total 34 hours; the remaining 10 hours (courses numbered 600 and above) must be chosen by the student (after consultation with the student’s adviser) from a list of elective courses approved by the department. In addition to the degree program requirements described in this Bulletin, all students in the master of science degree program must accumulate at least ten (10) days of appropriate field experience in order to successfully complete the degree program. Contact the department chair for information on appropriate types of field experience. More information on marine science degree requirements and additional course listings can be obtained by writing to the department chair.

Program Requirements for Master of Science in Hydrographic Science

The M.S. degree in hydrographic science is a nonthesis degree program. A total of 36 semester hours of graduate level courses (18 hours of 600 level or higher) with a minimum GPA of 3.0 must be completed to fulfill the Master of Science in Hydrographic Science degree requirements. Students must also take a comprehensive examination. A graduate student can accumulate no more than two Cs.

Students admitted to the M.S. in hydrographic science degree program are required to complete a set of core courses. There are a total of 27 semester hours of required core coursework. Each degree-seeking student must take at least one three-hour elective course. All students admitted to the M.S. degree program in hydrographic science must choose from one of two options at the time they are admitted to the program. Successful completion of either Option I or Option II, in addition to passing all the required and elective courses, will constitute the completion of degree requirements.

Option I is designed for those students who wish to complete a more practical field-oriented degree program. Option II is designed for students who wish to complete a more theoretical and classroom-oriented program and involves completion of a Capstone Review project, usually consisting of, but not limited to, an extended literature review of an appropriate hydrographic science topic.

Hours

HYD 696 Capstone Review ........................................................................... 3
HYD 601 Approved Elective ......................................................................... 3
Doctor of Philosophy Program

The Department of Marine Science offers a Doctor of Philosophy in Marine Science with specialization in a wide range of marine science fields, including biological, geological and physical oceanography, and marine chemistry. Other areas of specialization include numerical ocean modeling and hydrographic science. The Ph.D. program emphasizes excellence in research. Qualified students holding either a bachelor’s or master’s degree in a relevant field of science, mathematics, or computer science are encouraged to apply for admission to the Ph.D. program.

Students must meet the general requirements set forth in the Graduate Bulletin of The University of Southern Mississippi. The Ph.D. in marine science requires eighty-four (84) graduate hours beyond the bachelor’s degree or fifty-four (54) graduate hours beyond the master’s degree.

Admission Requirements

In addition to the general admission and academic requirements for all graduate programs as set forth in this Bulletin, regular admission to the Ph.D. program in marine science requires successful completion of the Graduate Record Examination and a high grade point average for the last two years of undergraduate study as well as a 3.50 GPA on previous graduate study. Successful applicants have highly competitive scores and have a grade point average of 3.0 or above for undergraduate work and 3.5 on previous graduate study. Also required are three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study which should be sent to the department chair. A letter of intent should also be sent to the department chair expressing personal academic and research goals. A minimum score of 560 is required on the Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English.

For students wishing to be considered for graduate assistantships for the academic year beginning in the fall semester, application materials should be received by the department no later than March 1.

*Approved Electives

Other Requirements

1. The student is required to pass an oral or written qualifying examination or both.
2. Research tool(s) requirement for marine science doctoral students is tailored to the specific tools and skills needed by the student for his/her dissertation research or future career. Contact the department for specific requirements.
3. Selection and approval of a suitable research problem.
4. The student is required to pass an oral or written comprehensive examination to determine the student’s comprehension of course material and the student’s ability to pursue the proposed research.
5. Completion and successful defense of a scholarly dissertation based on the student’s original research.
6. A 3.0 GPA is required for graduation.
8. In addition to the degree program requirements described in this Bulletin, all students in the Ph.D. degree program must accumulate at least ten (10) days of appropriate field experience in order to successfully complete the degree program. Contact the department chair for information on appropriate types of field experience.
The Center for International and Continuing Education coordinates programs and services that extend the university to our local and global communities. The center serves as a liaison between the university’s academic programs and the community at large through continuing education; provides intensive English language instruction to international students; administers the university’s extensive study-abroad programs; and coordinates international admissions and student services for international students and scholars.

The center is operationally divided into Continuing Education and Distributed Learning; the English Language Institute; International Programs; and International Student and Scholar Services.

Continuing Education and Distributed Learning

Sue Pace, Administrator
118 College Drive #5055
Hattiesburg, MS 39406-0001
(601) 266-4210
e-mail: sue.pace@usm.edu

Continuing Education and Distributed Learning (CEDL) functions to complement The University of Southern Mississippi’s overall mission of teaching, research and service. By serving as liaison between the university and the community at large, the department extends access to the educational programs of the institution through multiple delivery systems, to individuals at various stages of their lives and careers for intellectual, professional, social, and cultural advancement.

CEDL acts in partnership with the academic colleges to link faculty expertise and resources with the needs of the university’s clients and constituencies. In this role, continuing education serves as an agent for opportunity, innovation and quality.

CEDL accomplishes its mission by distributing educational opportunities in settings and formats that broaden the university’s traditional modes of delivery.

Credit and Distributed Education: The Office of Credit Programming and Distributed Education is responsible for coordinating and administering all credit-intensive, weekend, intersession, and extension courses. Included, too, are courses available on the Internet and select courses using compressed interactive video. Courses offered through this office are the result of collaborative relationships with the university’s academic departments. In addition, academic courses may be arranged in a format and location to meet the specific needs of governmental, business, industrial, and educational groups.

All students taking graduate courses must submit an application to the Office of Graduate Studies. Application forms are available in Graduate Admissions and on the Web at www.usm.edu/graduatestudies.

Independent Study: Through Independent Study (correspondence), a student may earn up to thirty-two (32) hours of undergraduate university credit or one complete unit of high school credit. Independent study allows the student to earn credit through the advantages of home study. These courses are particularly suited to the needs of the student who is unable to attend the university on a regular schedule.

Marketing and Professional Development: The Office of Marketing and Professional Development is responsible for a diversity of programming that serves to address the educational needs of the community. Through market research and awareness efforts, this office seeks to identify the educational needs of professionals, paraprofessionals, and those making career changes. This office coordinates and administers the logistical details for conferences, institutes, workshops,
and training programs whether on site or via the Internet. Additionally, this office provides convention and annual meeting coordination assistance to professional associations, fraternal organizations, and other education groups. The Listener’s License Program administered through this office enables individuals to utilize university resources by observation within the academic class setting on a nonparticipating basis. This office also oversees the approval and awarding of continuing education units (CEUs) offered by the university. The CEU is a nationally recognized unit of measure for noncredit continuing education programs. It is designed to document learning experiences that are valid in their own right, but differ from experiences for which academic credits are traditionally awarded.

**Institute for Learning in Retirement:** The Institute for Learning in Retirement is an association of active women and men 50 years of age or older who seek to explore stimulating learning experiences while developing new friendships.

In the world of change and complexity, the institute brings insight and perspective to interested – and interesting – adults who wish to pursue activities of the mind in an informal and supportive environment.

The institute’s program recognizes that a growing number of adults are adventuresome, active and intellectually curious. The cornerstone is peer-learning and shared responsibility. The strength of the program is that it is self-directed and run for and by the members. It draws on members’ talents and experiences as instructors, facilitators and leaders.

**English Language Institute**
Audrey D. Blackwell, Administrator
118 College Drive #5065
Hattiesburg, MS 39406-0001
U.S.A.
(601) 266-4337
Fax (601) 266-5723
e-mail: eli@usm.edu
Web site: www.usm.edu/cice/eli

The English Language Institute (ELI) delivers quality intensive English instruction for international students. The program, which accommodates students from beginning to advanced language proficiency, is administered by a professional, experienced faculty dedicated to providing ESL instruction via proven methodology.

The ELI fosters cross-cultural awareness within the university and the community by offering ELI students opportunities for interaction with native English speakers both on and off campus. Founded in 1947, it is among the oldest language institutes in the United States and is authorized under federal law to enroll nonimmigrant alien students.

International students accepted to the Graduate School of the university and those planning to apply for admission to the Graduate School often sharpen their language skills at the English Language Institute. For further information, contact the director of the English Language Institute at the above address.

**International Programs**
Susan Steen, Director
118 College Drive #10047
Hattiesburg, MS 39406-0001

International Programs administers a variety of programs providing Southern Miss students both long-term and short-term opportunities to study abroad for academic credit. Short-term programs offering regular Southern Miss academic credit include the following:

**The British Studies Program,** a summer term in London in which Southern Miss functions as the academic and logistical linchpin for a consortium comprised of the University of Memphis, Hinds Community College, Texas A&M University–Commerce, The University of Louisiana–Monroe,
Southeastern Louisiana University, Mississippi College, Henderson State University, Cameron University, the College of Charleston, and Lamar University.

The Austrian Studies Program in Vienna, Austria
The Australian Studies Program in Australia and New Zealand
The Canadian Forensics Program
The Caribbean Studies Program in Jamaica
The Cuban Studies Program in Havana and Varadero, Cuba
The French Studies Program at The Abbey
The Honduran Studies Program
The Irish Studies Program
The Spanish Language Program in Puebla, Mexico
The Spanish Language Program in Madrid, Spain
The Vietnam Studies Program

Other academic study-abroad programs coordinated by this office are
The Abbey at Pontlevoy, a semester-abroad program in France designed especially for freshmen and sophomores. Southern Miss leads a consortium of 11 U.S. universities for The Abbey program.

Semester- and year-abroad exchanges for undergraduate credit:
Ecole Supérieure du Commerce Extérieur, France
Exeter University, England
Universite de Perpignan, France
Universite d'Orleans, France
Keele University, Stoke-on-Trent, England
Macquarie University, Sydney, Australia
University of Alcalá de Henares, Madrid, Spain
University of Bonn, Germany
University of Victoria, Canada
University of Wales, Swansea
University of the Yucatán, Merida, Mexico

A student practice teaching program in England and Germany for education majors

Foreign Language Programs Abroad:
Variable locations

For further information, write to International Programs at the above address.

International Student and Scholar Services
Barbara Whitt Jackson, Administrator
118 College Drive #5151
Hattiesburg, MS 39406-0001
U.S.A.
(601) 266-4841
Fax (601) 266-5839
Web site: www.usm.edu/cice/iss
e-mail: iss@usm.edu

International Student and Scholar Services (ISSS) coordinates all facets of international admissions and student services. ISSS provides counseling on immigration regulations, personal matters, culture shock and adjustment, as well as some academic counseling in conjunction with the various departments. The office processes all international applications, evaluates foreign academic credentials and issues the appropriate immigration documents for the nonimmigrant foreign student. Multicultural programming for the international students and the community is also coordinated by ISSS.

ISSS disseminates Southern Miss information to foreign schools, U.S. embassies and consulates abroad, and nonprofit international organizations such as the Institute for International Education. This office also provides information to and immigration documents for research scholars invited by various Southern Miss departments to participate in limited research opportunities.

For further information, write to the administrator of ISSS at the above address.
The university enrolls graduate students from outside the United States. Assistance in academic and nonacademic matters before and during the international student’s stay at the university is provided by ISSS.

**English Language Proficiency:** Applicants whose native language is not English must present the results of the Test of English as a Foreign Language (TOEFL). Exceptions may be made if the applicant has earned a degree at an accredited U.S. college or university. TOEFL requirements vary from program to program, ranging from 525 to 590 (paper-based) or 197 to 214 (computer-based). See Admission Requirements for international students under the department listings for specific TOEFL requirements.

**Admission Requirements:** Graduate test scores (GRE or GMAT depending on department) are also required. Official transcripts with degrees posted must be submitted for each school attended. See front section of Bulletin for GPA requirements.

At least three letters of recommendation from persons qualified to assess the applicant’s readiness for graduate study are required; however, some departments/schools may require more (see specific department). Many departments require other application materials, such as a statement of purpose and a writing sample, so check the department for specific requirements.

**Financial Resources:** In order to meet requirements for entry into the United States for study, applicants are required by federal law to demonstrate sufficient financial resources. Students must be prepared to provide proof of sufficient funds to cover the first year of study. In addition, students must demonstrate financial solvency for future years of study to establish that he/she will not become a public charge. Applicants must provide documented evidence of their financial resources for university study since Southern Miss has no special fund for financial assistance to international students.

**Admission Procedure:**

1. Write to ISSS for information and application forms to the university’s graduate program.
2. Complete the forms properly and return with a $25 processing fee to the address above. The application and supporting documents must be received no later than two (2) months prior to the registration date desired.
3. Have all official transcripts and diplomas from all former institutions attended sent to ISSS. Please note unauthorized photo copies are NOT acceptable. Transcripts should be in the native language with a certified English translation.
4. Have all appropriate official test scores sent to ISSS.
5. Have all letters of recommendation sent to ISSS.

A Certificate of Eligibility for Exchange Visitor Status (Form DS2019 for a J-1 visa) or a Certificate of Eligibility for Student Status (Form I-20 for an F-1 visa) is issued only to those applicants who have been officially admitted to the university.
The University of Southern Mississippi Gulf Coast

D. Jay Grimes, Provost
730 East Beach Boulevard
Long Beach, MS 39560-2699
(228) 865-4500
Fax (228)-865-4587
www.usm.edu/gulfcoast

The University of Southern Mississippi Gulf Coast serves students at six locations: The Gulf Park Campus in Long Beach, the Southern Miss teaching sites at Keesler Air Force Base and Jackson County, John C. Stennis Space Center in Hancock County, Gulf Coast Research Laboratory in Ocean Springs, and Scott Aquarium in Biloxi.

Graduate Degree Programs

Southern Miss Gulf Coast provides a flexible delivery system designed to meet the educational needs of Mississippi Gulf Coast citizens. Consequently, new courses and programs are added as student demand warrants and resources permit. Normally, a sufficient number of courses is available so that Coast students may earn the graduate degrees that follow. Because certain courses are not offered every semester, students are encouraged to be in regular contact with the appropriate graduate program adviser.

- Elementary Education
- Secondary Education

DOCTORAL DEGREES

Division of Education and Psychology
- Educational Administration and Higher Education Administration

Division of Science and Technology
- Coastal Sciences
- Marine Sciences
* In selected programs it may be necessary to take some coursework on the Hattiesburg campus. Please consult the graduate program adviser for schedule information.

**Admission**

Southern Miss Gulf Coast graduate admission requirements and procedures are identical to those outlined elsewhere in this *Bulletin*. All students initiate procedures through the Gulf Coast Office of Admissions and Records. In order to facilitate proper advisement and predetermination of admission status, students must furnish transcripts and complete applications for admission prior to registration. Transcripts and completed applications should be sent to the Office of Admissions and Records, Southern Miss Gulf Coast, 730 East Beach Blvd., Long Beach, MS 39560-2699.

**Graduate Residency Requirements**

Specialist level students are reminded that graduate residency requires intensive full-time study of an individualized nature. In addition, some departments have options to meet specialized needs. These students must have their degree plans approved in writing in advance by their department chair prior to course enrollment.

**Course Load**

Course load requirements are identical for students at all campuses as described elsewhere in this *Bulletin*.

**Tuition**

*(All fees are subject to change without notice)*

One-half of a student’s fees are due and payable at the time of registration. Fees deferred past the last day to register each semester will be billed monthly. A monthly service charge of 1.5 percent will be applied to the unpaid balance. MasterCard® and VISA® credit cards will be accepted.

Financial aid may be used to satisfy the minimum payment with the following exceptions: Financial aid cannot be applied to prior balances, and work study or other forms of aid paid periodically to students may not be used to defer fees. All financial aid must be applied to fees before a refund can be made.

A general tuition level cap of $1,937 has been set for graduate students enrolled for 9-13 semester hours during the fall and spring semesters. Graduate students enrolled for more than thirteen (13) hours will be assessed tuition for each additional hour.

Students who are not residents of Mississippi will be assessed an additional fee of $204 per semester hour for undergraduates, $271 per semester hour for graduates, up to a maximum of $2,439.

**Full-Time Student Tuition**

The plus (+) sign in front of a course indicates that a special fee is charged for that course. (See SPECIAL FEES AND EXPENSES in this Bulletin.)
Accounting (ACC)

511. **Accounting for Decision-Making**. 3 hrs. Prerequisite: Computer literacy. A conceptual study of financial and managerial accounting principles designed to enable decision makers to properly use accounting information in making decisions. See also MBA 511.

512. **Seminar on Contemporary Accounting Topics**. 1.5 hrs. Selected readings and discussions of current accounting topics.

560. **Managerial Accounting**. 3 hrs. Prerequisite: ACC 511 or the equivalent. An analysis of the use of accounting information in managerial decision making.

598. **International Accounting Seminar Abroad**. 3 hrs. Prerequisite: Permission of program director. Conducted in London, England; a series of lectures and discussions involving authorities on international accounting issues and practices.

610. **Advanced Auditing**. 3 hrs. Prerequisites: 15 hours of accounting above accounting principles including ACC 409. A study of the professional practice of auditing and the role of theory, methodology, and technology.

620. **Advanced Cost/Managerial Accounting**. 3 hrs. Prerequisite: ACC 320. A study of the theory associated with, and systems and procedures designed to develop and integrate accounting data for management.

630. **Tax Seminar I**. 3 hrs. Prerequisite: ACC 330 or equivalent. Tax planning with emphasis on corporations, partnerships, tax option corporations, and tax administration and practice.

631. **Tax Seminar II**. 3 hrs. Prerequisite: ACC 330 or equivalent. Tax planning and research with emphasis on exempt entities, trusts and estates, transfer taxes, and the ethical responsibility of tax practice.

660. **Controllship**. 3 hrs. The interrelationship of the controller and modern information systems.

692. **Special Problems in Accounting**. 1-6 hrs. Individual study of specific topics in accounting.

699. **International Accounting Research Abroad**. 3 hrs. Prerequisite: Consent of program director. A research course in international accounting offered for students enrolled in ACC 598.

Adult Education (ADE)

540. **Methods and Materials in Adult Education**. 3 hrs. A course in method and format of instructional materials for adults with emphasis on self-instructional techniques.

541. **Foundations of Adult Literacy Instruction**. 3 hrs. This course involves an examination of the basis of reading instruction for the nonliterate adult.

542. **Methods and Materials for Adult Literacy Education**. 3 hrs. Instructional and diagnostic materials and methods for dealing with functionally illiterate adults.

545. **Teaching the Disadvantaged Adult**. 3 hrs. A study of the educational problems of culturally deprived and handicapped adults in terms of programs and procedures found to be successful.

576. **Learning in Adult Education**. 3 hrs. A study of learning in adulthood related to a range of educational programs.

578. **Specialized Studies in Developmental Disabilities**. 1-6 hrs. Specialized study and skill acquisition in the area of developmental disabilities. Topics vary.

580. **Applied Educational Gerontology**. 3 hrs. This course prepares individuals to design and implement educational programs for older adults.

590. **Special Problems in Adult Education**. 1-3 hrs. Special areas of interest arranged for an individual or a group with common interests.

597. **Professional Collaboration for Developmental Disability Services**. 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

602. **Organization and Administration of Adult Education**. 3 hrs. A survey of organizational and management theory as applied to adult education agencies. The case study approach is used.

603. **Human Resource Development as a Special Form of Adult Education**. 3 hrs. The course compares and contrasts human resource development in organizations to other more traditional forms of adult education.

607. **Program Planning and Curriculum Development in Adult Education**. 3 hrs. The design of programs and courses of study related to a wide variety of adult education agencies.

650. **Issues in Adult Education**. 3 hrs. Examination of contemporary issues related to the education and learning of adults in a seminar format.

<td>1-3</td>
<td>Arr. A project dealing with a specific problem in an adult education agency. Registration must be approved by student’s major professor and departmental chair.</td>
</tr>
<tr>
<td>797</td>
<td>Independent Study and Research</td>
<td>3</td>
<td>Arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.</td>
</tr>
<tr>
<td>798</td>
<td>Specialist Thesis</td>
<td>6</td>
<td>A field study or thesis-type research study representing the major research component of the specialist’s degree.</td>
</tr>
<tr>
<td>889</td>
<td>Seminar in Adult Education</td>
<td>3</td>
<td>Seminar required for adult education doctoral students in residence. The focus is on the dissertation research process.</td>
</tr>
<tr>
<td>898</td>
<td>Dissertation</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>700</td>
<td>Qualitative Research and Analysis</td>
<td>3-6</td>
<td>A tutorial examining qualitative research methods, the principal theoretical literature of justice, and the role of qualitative methods in the student’s area of study.</td>
</tr>
<tr>
<td>710</td>
<td>Research and Analysis in Legal Inquiry</td>
<td>3</td>
<td>A tutorial examining legal research methods, the major holdings of jurists pertaining to justice administration, and the role of legal research in the student’s area of study.</td>
</tr>
<tr>
<td>720</td>
<td>Quantitative Research and Analysis</td>
<td>3-12</td>
<td>A tutorial examining quantitative research methods, the leading studies in justice administration, and the role of quantitative methods in the student’s area of study.</td>
</tr>
<tr>
<td>721</td>
<td>Applied Regression analysis in Justice Administration</td>
<td>3</td>
<td>Prerequisites: CJ 520, 625, 629, AJ 700, and consent of instructor. Advanced analysis in regression and discriminant function in justice administration.</td>
</tr>
<tr>
<td>740</td>
<td>Administration of Justice</td>
<td>3</td>
<td>Prerequisite: CJ 535 or CJ 550. Survey of administration and management patterns in justice administration.</td>
</tr>
<tr>

<tr>
<td>599</td>
<td>British Studies: Anglo-American Studies</td>
<td>3-6</td>
<td>A seminar conducted in Great Britain under the auspices of the Center for International and Continuing Education.</td>
</tr>
<tr>
<td>516</td>
<td>Ethnographic Field Methods</td>
<td>1-6</td>
<td>Methods of ethnographic fieldwork through participation in organized field studies. Permission of instructor required.</td>
</tr>
</tbody>
</table>
520. **Culture and Ethnicity.** 3 hrs. An analysis of culture and ethnicity with special reference to the problem of modernization.

521. **Anthropological Theory.** 3 hrs. A general survey of historical anthropological thought and of the major contemporary schools of anthropological theory.

522. **Ecological Anthropology.** 3 hrs. An examination of human cultural strategies for adaptation to different environments.

523. **Economic Anthropology.** 3 hrs. The evolution of economic systems, cross-cultural analysis of economic systems, and the role of economic forces in cultural change.

524. **Religion and Healing.** 3 hrs. This course studies several examples of religious healing practices found in ethnographic literature creating a dialogue between indigenous and academic theories of healing.

525. **Kinship and Social Organization.** 3 hrs. A comparative study of kinship and social organization, and a survey of the major anthropological theories concerning organizational variability.

526. **American Folklore.** 3 hrs. An analysis of folklore, oral narratives, performance, and material culture with special reference to America and the American South.

527. **Psychological Anthropology.** 3 hrs. Cross-cultural analysis of personality formation, perception and cognition, and mental illness.

528. **Political Anthropology.** 3 hrs. A comparative survey of patterns of group decision-making, leadership, resolution of conflict, and social control in human societies.

529. **Topics in Cultural Anthropology.** 3 hrs. Variable content. May be repeated three times in separate topical offerings.

530. **Advanced Prehistoric Analysis.** 3 hrs. Corequisite: ANT 531L. Overview of analytical techniques and prehistoric technologies.

531L. **Advanced Prehistoric Analysis Laboratory.** 1 hr. Laboratory to accompany Advanced Prehistoric Analysis (ANT 531).

532. **Prehistory of Southeastern Indians.** 3 hrs. A survey of the prehistoric archaeology of the southeastern United States, especially Mississippi and adjoining states, from first inhabitants to the time of European contact.

533. **Historical Archaeology.** 3 hrs. A study of questions and techniques used on archaeological sites dating from the 15th century to the early 20th century.

536. **Archaeology Field Methods.** 3 hrs. Methods of fieldwork through participation in organized field projects.

537. **Heritage Resources and Public Policy.** 3 hrs. The history and present state of public policy issues related to archaeological and historic resources, in their role in the planning process.

539. **Topics in Archaeology.** 3 hrs. Variable content. May be repeated three times in separate topical offerings.

541. **Human Variation.** 3 hrs. An examination of human biological variation, including its sources, its classification, and its expression in different environments.

542. **Medical Anthropology.** 3 hrs. Introduction to the relationship between human culture and disease especially cross-cultural comparisons of perception and treatment of illness.

545. **Bioarchaeology.** 3 hrs. Methods and theories used in interpretation of skeletal and mortuary data in archaeological contexts.

549. **Topics in Physical Anthropology.** 3 hrs. Variable content. May be repeated three times in separate topical offerings.

551. **Language Planning, Culture, and Politics.** 3 hrs. Study of language planning, cultural identity, and politics around the world.

552. **Language, Gender, and Culture.** 3 hrs. Cross-cultural study of the social basis of gender differences in language.

559. **Topics in Linguistic Anthropology.** 3 hrs. Variable content. May be repeated three times in separate topical offerings.

563. **Irish Studies.** 4 hrs. Variable content. Lecture series and study in Ireland under the auspices of the Center for International and Continuing Education.

594. **Topics in Caribbean Anthropology.** 4 hrs. Variable content; lecture series, study, and fieldwork (archaeological and ethnographic) in the Caribbean under the auspices of the Center for International and Continuing Education.

599. **Topics in Caribbean Anthropology.** 4 hrs. Variable content; lecture series, study, and fieldwork (archaeological and ethnographic) in the Caribbean under the auspices of the Center for International and Continuing Education.

600. **Teaching Anthropology.** 1-3 hrs. An in-depth examination of the resources and techniques of introducing undergraduates to the discipline of anthropology. May be repeated three times.

602. **Researching Anthropology.** 3 hrs. This course covers research and writing for professional anthropologists. Formulating hypotheses, collecting and analyzing data, and reporting are stressed. May be repeated for up to six (6) credit hours.
Presenting Heritage I. 3 hrs. This course is the first of a two-part seminar (with 606) on public history, folklore, and anthropology. It emphasizes theory and method in public presentation to prepare students for public sector employment.

Presenting Heritage II. 3 hrs. This course is the second of a two-part seminar (with 605) on public history, folklore, and anthropology, emphasizing the development and management of public humanities programming.

Applied Anthropology. 3 hrs. The application of anthropology to the solution of contemporary social and cultural problems.

Seminar in Ethnology. 3 hrs. A comprehensive examination of method and theory in contemporary sociocultural anthropology, focusing particularly on the problems of ethnographic production and comparative analysis.

Seminar in Archaeology. 3 hrs. An in-depth examination of the method and theory of anthropological archaeology.

Seminar in Physical Anthropology. 3 hrs. A comprehensive examination of the method and theory of physical anthropology.

Seminar in Anthropological Linguistics. 3 hrs. An in-depth examination of the method and theory of anthropological linguistics.

Cooperative Internship. 3-9 hrs. Prerequisites: Faculty approval. Supervised experience in specific professional settings arranged by the department with public agencies.

Special Problems. 1-3 hrs.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Thesis. 1-6 hrs. for a total of 6 hrs.

Special Study Projects in Anthropology. 1-6 hrs. Special projects in reading, survey, or research in anthropology.

Architectural Engineering Technology (ACT)

Specifications. 3 hrs. Prerequisite: Permission of instructor. An introduction to development and writing of architectural project specifications.

Modeling and Animation Applications I. 3 hrs. Prerequisite: ACT 132 or demonstrated computer-aided design and drafting experience. Computer modeling and animation developed with AutoDesk Viz.

Modeling and Animation Applications II. 3 hrs. Prerequisite: ACT 548. Advanced topics in computer modeling and animation developed with AutoDesk Viz.

Virtual Reality Applications I. 3 hrs. Comprehensive study of virtual reality techniques for real-time visualization of engineering technology topics.

Virtual Reality Applications II. 3 hrs. Study of advanced virtual reality scenebuilding techniques.

Special Problems. 1-3 hrs. Prerequisite: Senior standing and approval of faculty adviser.

Digital Imaging. 3 hrs. Processing, manipulating, and analyzing images while they are in the form of virtual discrete digital quantity.

Art (ART)

The Art of Italy. 3 hrs. An examination of art in Italy. A travel/study course.

Crafts II. 3 hrs. The creation and design of jewelry.

Crafts III. 3 hrs. The creation of surface designs for fabrics.

Ancient Art History. 3 hrs. Art of the ancient world from the beginning of civilization to the fourth century.

Medieval Art History. 3 hrs. Art of Europe from the fourth through 14th centuries.

Northern Renaissance Art History. 3 hrs. Art of northern Europe during the 14th through 16th centuries.

Italian Renaissance Art History. 3 hrs. Art of Italy during the 14th through 16th centuries.

Baroque and Rococo Art History. 3 hrs. Art of Europe from the close of the 16th century through the 18th century.

Nineteenth Century Art History. 3 hrs.

Art 1900-1940. 3 hrs. Prerequisite: ART 334. An analysis of Fauvism, Expressionism, Cubism, Futurism, Dada, and Surrealism.

Art 1940-Present. 3 hrs. Prerequisite: ART 334. An analysis of the many trends in art in the post-World War II period.

Studio Art for M.A.E. Students. 3 hrs. With the permission of the studio instructor(s) students may choose from studio areas offered by the department. May be repeated.
+570. Individually Directed Problems in Printmaking. 3 hrs. Prerequisite: *Study of appropriate printmaking media for advanced problems. May not be utilized to fulfill graduate degree requirements. May be repeated.

598. British Studies, Art History. 3 or 6 hrs. Variable content. Lecture series and research offered abroad under the auspices of the Center for International and Continuing Education.

599. British Studies, Art Studio. 3 or 6 hrs. Variable content. Studio series offered abroad under the auspices of the Center for International and Continuing Education.

600. Studio Foundations. 3 hrs. A review, through studio problems, of some fundamental problems of plastic expression. Hours earned may not be used to fulfill degree requirements. Repetition may be required.

601. Drawing Studio. 3 hrs. Form problems in drawing. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

602. Drawing Studio. 3 hrs. Form problems in drawing. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

603. Drawing Studio. 3 hrs. Form problems in drawing. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

610. Crafts: Jewelry Design for Teachers. 3 hrs. The study of visual forms as pertaining to the jewelry crafts.

615. Trends in Current Plastic Expression. 3 hrs. A course designed to keep the student abreast of current trends in the plastic arts.

620. Adapting Selected Current Art Trends to School Practice. 3 hrs. Current art trends are identified and selections of them are developed in terms of philosophies, practitioners, background, and techniques.

621. Painting Studio. 3 hrs. Form problems in painting. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

622. Painting Studio. 3 hrs. Form problems in painting. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

623. Painting Studio. 3 hrs. Form problems in painting. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

631. Directed Museum and Gallery Tour. 1-3 hrs. Tour of museums and galleries for the purpose of viewing and studying original works.

+651. Ceramics Studio. 3 hrs. Permission of instructor and department chair required for admission.

+652. Ceramics Studio. 3 hrs. Permission of instructor and department chair required for admission.

+653. Ceramics Studio. 3 hrs. Permission of instructor and department chair required for admission.

+661. Sculpture Studio. 3 hrs. Permission of instructor and department chair required for admission.

+662. Sculpture Studio. 3 hrs. Permission of instructor and department chair required for admission.

+663. Sculpture Studio. 3 hrs. Permission of instructor and department chair required for admission.

+671. Printmaking Studio. 3 hrs. Prerequisite: * and **. Intensive graduate study and criticism in advanced printmaking problems.

+672. Printmaking Studio. 3 hrs. Prerequisite: * and **. Intensive graduate study and criticism in advanced printmaking problems.

+673. Printmaking Studio. 3 hrs. Prerequisite: * and **. Intensive graduate study and criticism in advanced printmaking problems.

680. Workshop in Art. 1-3 hrs. Art experiences with variable content. May be repeated.

701. Drawing Studio. 3 hrs. Form problems in drawing. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

702. Drawing Studio. 3 hrs. Form problems in drawing. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

703. Drawing Studio. 3 hrs. Form problems in drawing. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

721. Painting Studio. 3 hrs. Form problems in painting. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

722. Painting Studio. 3 hrs. Form problems in painting. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

723. Painting Studio. 3 hrs. Form problems in painting. Professional level of performance with intense criticism. Permission of instructor and department chair required for admission.

731. Seminar. 1 hr. Seminar in art issues.

732. Seminar. 1 hr. Seminar in art issues.

733. Seminar. 1 hr. Seminar in art issues.
212  |  Course Descriptions

739. Directed Study in Art History/Criticism. 1-6 hrs. for a total of six hours.
+751. Ceramics Studio. 3 hrs. Permission of instructor and department chair required for admission.
+752. Ceramics Studio. 3 hrs. Permission of instructor and department chair required for admission.
+753. Ceramics Studio. 3 hrs. Permission of instructor and department chair required for admission.
+761. Sculpture Studio. 3 hrs. Permission of instructor and department chair required for admission.
+762. Sculpture Studio. 3 hrs. Permission of instructor and department chair required for admission.
+763. Sculpture Studio. 3 hrs. Permission of instructor and department chair required for admission.
+771. Printmaking Studio. 3 hrs. Prerequisite: * and **. Intensive graduate study and criticism in advanced printmaking problems.
+772. Printmaking Studio. 3 hrs. Prerequisite: * and **. Intensive graduate study and criticism in advanced printmaking problems.
+773. Printmaking Studio. 3 hrs. Prerequisite: * and **. Intensive graduate study and criticism in advanced printmaking problems.
+799. Creative Project. 6 hrs. An individually motivated, sustained project of original art works demonstrating professional competence and stature, culminating in an exhibition. Oral and written proposal and defense required.

Art Education (ARE)

600. Art Education Theory. 2 hrs. A comprehensive survey of art education trends and philosophies.
601. Research in Art Education. 3 hrs. A lecture/study seminar of past and present art education research; emphasis on understanding the nature of educational research in art, various research methods, how research translates into practical classroom application; includes review, critique, application, and development of research topics.
602. Art Techniques and Materials for Teachers. 3 hrs. A comprehensive survey of teaching techniques emphasizing the pedagogical potential and limitation of plastic media.
603. Teaching the Visual Relationships. 3 hrs. A lecture/study seminar course dealing with the teaching of the visual characteristics and relationships, and integrating them with the current practice and procedures in art education, including studio-based art experiences for students of all ages and ability levels; emphasis on individual student’s studio strengths, augmented by curricula in two-dimensional and three-dimensional concepts, percepts, and materials.
604. Teaching the Exceptional Student Contemporary Processes. 3 hrs. A course devoted to the pedagogical potential of contemporary processes for use with exceptional students.
605. Techniques of Dissemination of Student Art Work. 3 hrs. Techniques of advanced pedagogy in the selection, display, and showing of student work.
606. History and Philosophy of Art Education. 3 hrs. A lecture/study seminar course. History of art education; emphasis on changing philosophies, theories of learning, subsequent goals, and objectives made apparent in curriculum development.
607. Teaching Studio Art. 3 hrs. Students will pursue studio endeavors while considering methods, philosophies, and historical and contemporary issues in art and education.
616. Advanced Art Education Seminar for Selected Topics. 3 hrs. Topics may include past and present approaches to curriculum development; special populations; aesthetics; art history, criticism; art and technology, art and society; critical analysis; philosophic reflections on art and art education; others. May be repeated for credit.
625. Supervision of Art Education Programs. 3 hrs. A lecture/study seminar course on the problems and solutions involved in the supervision of public school art programs in grades K-12.
626. Curriculum and Instruction in Art Education. 3 hrs. A lecture/study seminar course on past and present curriculum instruction; includes historical component as foundation for understanding current teaching strategies; various teaching approaches are analyzed and formalized into applicable classroom art experiences.
690. Supervised Teaching. 3 hrs. Graduate students who are teaching at Southern Miss will design and implement curricula while considering philosophies and current issues in art education.
691. Research Project in Art Education. 1-16 hrs. Prerequisite: Approval of the major professor.
692. Special Problems in Art Education I, II, III. 1-3 hrs. each.
697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

</table>
Course Descriptions

521. Marine Invertebrate Zoology. 3 hrs. Morphology, distribution and ecology of the phyla from Protozoa through Protocelomates. May be taken as COA 528 or MAR 503.

521L. Marine Invertebrate Zoology Laboratory. 3 hrs. Corequisite for BSC 521. May be taken as COA 528L or MAR 503L.

523. Science and Society: From Copernicus to the Bomb. 3 hrs. Traces the development of science and technology and their role in society from the Renaissance to the present. (May be taken as HIS 523 and PHY 523.)

524. Parasites of Marine Animals. 3 hrs. Prerequisite: Permission of instructor. Emphasis on morphology, taxonomy, life histories, and host-parasite relationships. May be taken as COA 553 or MAR 504.

524L. Parasites of Marine Animals Laboratory. 3 hrs. Corequisite for BSC 524. May be taken as COA 553L or MAR 504L.

525. Marine Phycology. 2 hrs. Prerequisites: General botany and plant taxonomy. A survey of the principal groups of marine algae. May be taken as COA 533 or MAR 520.

525L. Marine Phycology Laboratory. 2 hrs. Corequisite for BSC 525. May be taken as COA 533L or MAR 520L.

526. Introductory Mycology. 3 hrs. Systematics, morphology, physiology, and ecology of fungi.

526L. Introductory Mycology Laboratory. 1 hr. Corequisite for BSC 526.

527. Introductory Phycology. 2 hrs. Prerequisite: Consent of instructor. Taxonomy, physiology, and biochemistry of algae. May be taken as MAR 520.

527L. Introductory Phycology Laboratory. 1 hr. May be taken as MAR 520L.

528L. Plant Anatomy Laboratory. 1 hr.

529L. Comparative Morphology of Plants Laboratory. 1 hr. Corequisite: BSC 529.

530. Aquatic and Marsh Plants. 2 hrs. Collection, identification, and ecology of plants of fresh and brackish water.

530L. Aquatic and Marsh Plants Laboratory. 1 hr.

531. Plant Physiology. 3 hrs. Prerequisite: Organic chemistry. The basic physiological processes of green plants.

531L. Plant Physiology Laboratory. 1 hr.

532. Economic Botany. 2 hrs. Origin, distribution, and significance of plants most important to man.

532L. Economic Botany Laboratory. 1 hr.

533. Taxonomy of Local Flora. 2 hrs. The classification of local flora.

533L. Taxonomy of Local Flora Laboratory. 2 hrs.

534. Dendrology. 2 hrs. The taxonomic and ecological characteristics, and the distribution of trees.

534L. Dendrology Laboratory. 2 hrs.

535. Plant Ecology. 3 hrs. Prerequisite: Advanced standing in botany. Relationship of plants to their environment.

535L. Plant Ecology Laboratory. 1 hr.

536. Conservation Biology. 3 hrs. Prerequisite: Advanced standing in botany and zoology, or permission of instructor. The biology of plant and animal populations in human-generated environments, with emphasis on their long-term management.

536L. Conservation Biology Laboratory. 1 hr. Corequisite for BSC 536. Lab consists of six day-long field trips held on Saturdays.

537. Coastal Vegetation. 2 hrs. A study of general and specific aspects of coastal vegetation, with emphasis on local examples. May be taken as COA 534 or MAR 521.

537L. Coastal Vegetation Laboratory. 1 hr. Corequisite for BSC 537. May be taken as COA 534L or MAR 521L.

538. Salt Marsh Plant Ecology. 2 hrs. The botanical aspects of local marshes: includes plant identification, composition, and structure. May be taken as COA 535 or MAR 522.

538L. Salt Marsh Plant Ecology Laboratory. 2 hrs. Corequisite for BSC 538. May be taken as MAR COA 535L or 522L.

539. Marine Ecology. 3 hrs. The relationship of marine organisms to their environment. May be taken as COA 546 or MAR 505.

539L. Marine Ecology Laboratory. 2 hrs. Corequisite for BSC 539. May be taken as COA 546L or MAR 505L.

540. Ecology. 3 hrs. Prerequisite: Consent of instructor. The study of the relationships of organisms to their environment and to each other.
540L. Ecology Laboratory. 1 hr.

541L. Population and Community Ecology Laboratory. 1 hr.

542L. Behavioral Ecology Laboratory. 1 hr. Corequisite for BSC 542.

543. Freshwater Biology. 3 hrs. Prerequisite: Consent of instructor. The study of the biota of ponds, lakes, rivers, and streams.

543L. Freshwater Biology Laboratory. 1 hr.

544. Limnology. 2 hrs. Prerequisites: BSC 540 and consent of instructor. The physical, chemical, and biological dynamics of inland waters.

544L. Limnology Laboratory. 1 hr.

545. Introduction to Marine Biology. 3 hrs. Prerequisites: BSC 110, 111, 201. Marine biological regimes and the influence of geological, physical, and chemical oceanographic factors.

545L. Introduction to Marine Biology Laboratory. 1 hr. Corequisite for BSC 545.

546. Aquaculture. 2 hrs. Prerequisites: 12 hours of biology and 8 hours of chemistry. Production of aquatic organisms in natural and artificial environments.

546L. Aquaculture Laboratory. 1 hr.

547. Marine Fisheries Management. 2 hrs. Prerequisite: statistics recommended. A statistical review of the world fisheries. May be taken as COA 516 or MAR 510.

547L. Marine Fisheries Management Laboratory. 2 hrs. Corequisite for BSC 547. May be taken as COA 516L or MAR 510L.

548. Fauna and Faunistic Ecology and Tidal Marshes. 2 hrs. Taxonomy, distribution, trophic relationships, reproductive strategies, and adaptation of tidal marsh animals. May be taken as COA 547 or MAR 506.

548L. Fauna and Faunistic Ecology of Tidal Marshes Laboratory. 3 hrs. Corequisite for BSC 548. May be taken as COA 547L or MAR 506L.

549. Marine Ichthyology. 3 hrs. Prerequisite: 16 semester hours of biology, including comparative anatomy, or consent of instructor. Marine fishes including evolutionary relationships, morphology, physiology, and zoogeography. May be taken as COA 521 or MAR 508.

549L. Marine Ichthyology Laboratory. 3 hrs. Corequisite for BSC 549. May be taken as COA 521L or MAR 508L.

550. Comparative Animal Physiology. 3 hrs. Organismic function and the adaptations which characterize major animal groups.

551. Mammalian Physiology. 3 hrs. The functions of mammalian systems; interrelationships and regulation are emphasized.

552. Environmental Physiology. 3 hrs. Physiological adaptations enabling animals to meet environmental challenges.

553. Invertebrate Physiology. 3 hrs. A functional approach to the major invertebrate phyla.

554L. Pharmacology Laboratory. 2 hrs. Experimental techniques in physiology. To be taken once only, as an optional laboratory with BSC 550, BSC 551, BSC 552, or BSC 553.

555L. Animal Behavior Laboratory. 1 hr.

556L. Laboratory Techniques in Behavioral Neuroscience. 3 hrs. Prerequisite: Consent of instructor. Experimental techniques in neurophysiology, neuropharmacology, and behavioral research (cross-listed as PSY 527L).

557. Neurobiology. 3 hrs. Introduction to current understanding of the function of the brain, with emphasis on connections between molecular and behavioral studies of the nervous system.

558. Marine Ichthyology. 3 hrs. Prerequisite: 16 semester hours of biology, including comparative anatomy, or consent of instructor. Marine fishes including evolutionary relationships, morphology, physiology, and zoogeography. May be taken as COA 521 or MAR 508.

559. Marine Mammals. 3 hrs. Prerequisite: 12 semester hours of biology, including COA 301 or Marine Ichthyology, or permission of instructor. Natural history and population ecology of cetaceans. Will include life history, distribution, population dynamics, diet and feeding, social behavior, evolution, and zoogeography. May be taken as COA 543 or MAR 523.

559L. Marine Mammals Laboratory. 2 hrs. Corequisite for BSC 559. May be taken as COA 543L or MAR 523L.
216 | Course Descriptions

560. Pharmacology. 3 hrs. Prerequisites: Vertebrate biology and organic chemistry. The response of living organisms to drugs.

561. Histology. 4 hrs. Prerequisite: 12 hours of biology. Microscopic anatomy of mammalian organ systems.

561L. Histology Laboratory. Must be taken concurrently with BSC 561; no separate credit given for the laboratory.

562. Microtechnique. 1 hr. Techniques for sectioning, mounting, and staining tissue and making whole mounts.

562L. Microtechnique Laboratory. 2 hrs.

563. Pathobiology. 2 hrs. Prerequisite: BSC 461 or 561. Principles of histopathology in vertebrates and invertebrates.

563L. Pathobiology Laboratory. 1 hr.

565L. Embryology Laboratory. 2 hrs.

566. Human Embryology. 3 hrs. Prerequisite: BSC 465 or 565. Factors which activate and regulate developmental processes.

567L. Diseases of Aquatic Animals Laboratory. 2 hrs.

568. Comparative Histology of Marine Organisms. 3 hrs. Histology of marine organisms, including tissue processing techniques. May be taken as COA 556 or MAR 530.

568L. Comparative Histology of Marine Organisms Laboratory. 3 hrs. Corequisite for BSC 568. May be taken as COA 556L or MAR 530L.

569. Developmental Biology. 3 hrs. A comprehensive survey of the experimental, genetic, and molecular analysis of processes that occur during the development of complex organisms.

571. Advanced Genetics. 2 hrs. Prerequisite: BSC 370 or 475 or 575. A continuation of BSC 370.

571L. Advanced Genetics Laboratory. 2 hrs. Corequisite for BSC 571. Laboratory exercises to illustrate basic genetic principles.

572. Population Genetics. 3 hrs. Prerequisite: BSC 370 or consent of instructor. The process of evolutionary change.

573. Medical Genetics. 3 hrs. The basic principles of human genetics, with emphasis on the causation of abnormality and disease.

574. Molecular Biology. 3 hrs. Prerequisite: BSC 370 or 477. Molecular biology of viral, prokaryotic, and eukaryotic systems.

575. Microbial Genetics. 3 hrs. Prerequisites: BSC 370, 380. The genetics and molecular biology of microorganisms and viruses.

577L. Microbial Genetics Laboratory. 1 hr. Prerequisite: Permission of instructor. Laboratory exercises to demonstrate principles of bacterial and viral genetics. Must be taken concurrently with BSC 577.

578L. Molecular Biology Laboratory. 4 hrs. Prerequisite: BSC 576 or 577 or permission of instructor. The paradigms of molecular biology in a laboratory setting.

579. Applications of Biotechnology in Marine Biology. 3 hrs. Prerequisites: BSC 110, 111, 201, CHE 106, 107, 255, 256; CHE 420/520 or 421/521, 422/522 recommended or permission of instructor. Basic biochemical and molecular techniques used to conduct research in marine biology. May be taken as COA 565.

579L. Applications of Biotechnology in Marine Biology Laboratory. 3 hrs. Corequisite for BSC 579. May be taken as COA 565L.

581. Pathogenic Microbiology. 3 hrs. Prerequisites: BSC 370, BSC 380, and BSC 576 or BSC 577 or permission of instructor. The molecular mechanisms of microbial pathogenesis, emphasizing the major groups of disease-producing microorganisms.

581L. Pathogenic Microbiology Laboratory. 1 hrs.

582. Advanced Pathogenic Microbiology. 2 hrs. Continuation of BSC 581.

582L. Advanced Pathogenic Microbiology Laboratory. 2 hrs.

583. Viral Ecology. 3 hrs. The interactions between viruses and their hosting species over a wide range of taxonomic levels with emphasis on evolutionary ecology and principal types of transmission cycles.

584L. Virology and Tissue Culture Laboratory. 1 hr. Corequisite for BSC 584.

585. Viral Pathogenesis and Diagnosis. 3 hrs. Fundamental principles of medical virology.

585L. Viral Pathogenesis and Diagnosis Laboratory. 1 hr. Immunological, molecular, and histological techniques for diagnosis of viral diseases.

<tr>
<td>742</td>
<td>Advanced Biological Oceanography</td>
<td>3</td>
<td>Prerequisite: BSC 441 or 541 or permission of instructor. The sea as a biological environment.</td>
</tr>
<tr>
<td>745</td>
<td>Landscape Ecology</td>
<td>3</td>
<td>The ecology of spatially dynamic ecosystems. Fire, windstorms, land use, and the dilemmas they create for individual species.</td>
</tr>
<tr>
<td>745L</td>
<td>Landscape Ecology Laboratory</td>
<td>1</td>
<td>Corequisite of BSC 745. Spatial analysis in ecology.</td>
</tr>
<tr>
<td>746</td>
<td>Current Topics in Population and Community Ecology</td>
<td>3</td>
<td>Prerequisite: Upper-level ecology course or permission of instructor. The formation, organization, and control of biological populations and communities.</td>
</tr>
<tr>
<td>751</td>
<td>Seminar in Animal Behavior</td>
<td>3</td>
<td>Topics in the behavior and ecology of animals.</td>
</tr>
<tr>
<td>760</td>
<td>Cell Ultrastructure</td>
<td>3</td>
<td>Prerequisite: Permission of instructor. Structure and function of cells and cell organelles at the subcellular level.</td>
</tr>
</tbody>
</table>
Functional and Ecological Vertebrate Morphology. 3 hrs. Prerequisites: BSC 110, BSC 111, BSC 201, PHY 111, BSC 361, and BSC 361L recommended, or permission of instructor. An integrative, functional analysis of vertebrate structure related to ecological contexts.

Topics in Gene Regulation. 4 hrs. An intensive review of the recent primary literature in molecular genetics and molecular biology, as defined by the topic chosen each semester.

Principles of Immunology. 3 hrs. A study of the chemistry of antigens, antibodies and complement, and the mechanism of their interaction.

Principles of Immunology Laboratory. 1 hr.

Principles of Immunohematology. 3 hrs. A study of serological genetic, and anthropological aspects of human blood groups, isoantigens and antibodies.

Advanced Microbial Physiology. 4 hrs. Concepts of microbial nutrition, metabolism, adaptation, and genetics as related to growth and environment.

Principles of Animal and Plant Cell Culture Laboratory. 2 hrs. Basic and advanced tissue culture techniques.

Advanced Viral Pathogenesis. 3 hrs. Prerequisites: BSC 486 and BSC 484 or 485 or permission of instructor. Advanced consideration of host-viral interaction from a pathological and immunological perspective.

Comparative Immunology. 3 hrs. A comparative examination of the evolution development, functions, and mechanisms of natural and acquired immune defense in organisms throughout the phylogenetic spectrum.

Microbiology Seminar. 1 hr. The presentation and defense of current, classical concepts and principles of microbiology. May be repeated for credit.

Biology Seminar. 1 hr. The presentation of current concepts in special areas of individual interest.

Research in Biology. 1-16 hrs. Prerequisite: Approval of the major professor.

Special Problems. 2-6 hrs.

Research in Zoology. 1-6 hrs.

Research in Genetics. 1-9 hrs.

Research in Microbiology. 1-9 hrs.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Gross Anatomy. 3 hrs.

Electron Microscopy. 1 hr. Theory and use of the electron microscope, ultramicrotome, and associated specimen preparation. (May be taken as PSC 880 or 881)

Environmental Microbiology. 3 hrs.

Dissertation. 12 hrs.

Business Technology Education (BTE)

Production and Integrated Processes for Business Education. 3 hrs. Advanced production and editing of documents with emphasis on speed and accuracy; completion of integrated projects using industry-current software.

History and Philosophy of Vocational Education. 3 hrs. For business and distributive education teachers. History, concepts, trends, occupations, employment opportunities, procedures, and techniques.

Techniques of Coordination. 3 hrs. A study of the techniques, procedures, problems, etc., in the operation of cooperative education programs.

Methods and Materials in Teaching Distributive Education. 3 hrs. Principles, concepts, program plans, curricula, methods and materials, activities, research, and evaluation.

Organization and Administration of Distributive Education. 3 hrs. Basic problems, objectives, and characteristics of DE programs as applied in their development.

Administrative Office Management. 3 hrs. Principles of management; office organization, procedures, and supervision; layout, supplies, machines, personnel, forms, reports, and services.

577. Medical Transcription 3 hrs. Prerequisites: BTE 102 or equivalent and 108. Emphasis on medical terminology, records, and forms with transcription from tapes.

578. Advanced Medical Transcription 3 hrs. Prerequisite: BTE 577. Emphasis on additional medical terminology, with increased emphasis on transcription.

579. Review for the Certified Professional Secretary Examination. 3 hrs. Preparation for CPS Examination. Does not count as credit toward a degree.

592. Special Problems 1-6 hrs. Study approved and directed by the department chair.

602. Concepts and Practices in Word Processing 3 hrs. To acquaint business teachers with word processing equipment and provide an overview of evolving concepts and practices in word processing, including the use of computers in WP, with hands-on keyboarding application. Laboratory included.

608. Curricula in Business Education 3 hrs. Factors influencing curriculum construction; content organization, instructional materials, and techniques.

651. Principles of Business Education 3 hrs. Junior high through university programs; guidance; qualifications and professional activities of teachers; and public relations.

653. Improvement of Instruction in Nonskills Subjects 3 hrs. Methodology, instructional materials, evaluation, and review of significant research in the nonskill subjects of bookkeeping, basic business, and consumer economics.

655. Improvement of Instruction in Skills Subjects 3 hrs. Teaching procedures, instructional materials, measurement of skills, standards of achievement, and review of related research in typewriting, shorthand, and transcription.

669. Research and Evaluation in Business Education 3 hrs. Concept of evaluation; construction, selection, administration, and scoring of tests; review of related research.

680. Readings in Business Education 3 hrs. Readings in both periodical literature and research. Presentation of findings in a scholarly report. Approval of department chair required.

691. Research in Business Education 1-16 hrs.

692. Special Problems I, II, III 1 hr. each. Prerequisite: 9 semester hours of advanced courses in business education. Scholarly paper on approved problem.

694. Field Problems 3 hrs.

697. Independent Study and Research Hours arr. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis 1-6 hrs. for a total of 6 hrs.

750. Business Education in the Junior College 3 hrs. Forces affecting junior college business curricula; philosophy; programs; public relations; trends, and related research.

760. Administration and Supervision of Business Education 3 hrs. Principles of administration and supervision of business education in junior high, senior high, evening schools, and colleges.

780. Readings in Business Education 3 hrs. Readings in both periodical literature and research. Presentation of findings in a scholarly report.

791. Research in Business Education 1-16 hrs.

794. Field Problems 1-3 hrs.
220 | Course Descriptions

797. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using the other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

798. Specialist Thesis. 1-6 hrs.

Chemistry and Biochemistry (CHE)

500. Chemical Literature. 2 hrs. Prerequisites: CHE 256 and 311. The selection and use of the reference materials of chemistry: periodicals, journals, texts, patents, and other sources of information.

504. Spectral Elucidation of Structure. 3 hrs. Prerequisite: Permission of the instructor. Applications of vibrational, electronic, nuclear magnetic resonance, and mass spectroscopy to structure determination.

505. Problems in Chemistry. 3-6 hrs. Prerequisite: Undergraduate coursework in the area and permission of the instructor. An intensive review of specialized areas in chemistry.

506. Modern Chemical Problem Solving I. 3 hrs. Chemical reactivity in the gaseous state and aqueous state, thermochemistry of reactions, oxidation/reduction processes, electrochemistry, and modern atomic theory as it is applied to bonding concepts and reactivity, and nuclear chemistry.

507. Modern Chemical Problem Solving II. 3 hrs. Physical and chemical aspects of liquids and solutions, thermodynamics, kinetics, chemical equilibrium, acid/base equilibria, solubility and complex ion equilibria, and the transition metals.

509. Chemistry Laboratory Teaching. 1 hr. Prerequisite: Permission of the instructor. Instruction and practice for teaching assistants in the academic chemistry laboratory.

511. Instrumental Analysis. 3 hrs. Prerequisite: CHE 461, 461L. Pre- or Corequisite: CHE 462, 462L. Theory and practice of instrumental methods of analysis; absorption spectroscopy, magnetic resonance, mass spectroscopy, electrometric methods, and fundamental electronics.

511L. Instrumental Analysis Laboratory. 1 hr. Corequisite: CHE 511. A laboratory designed to accompany CHE 511.

520. Principles of Biochemistry. 3 hrs. Prerequisite: CHE 251 or equivalent. A one semester course surveying the fundamentals of biochemistry.

520L. Principles of Biochemistry Laboratory. 1 hr. Corequisite: CHE 520. A laboratory course to accompany CHE 520 with emphasis on using knowledge of biochemical techniques in the student’s profession.

521L. Biochemistry I Laboratory. 2 hrs. Corequisite: CHE 521. An optional laboratory course to accompany CHE 521.

522. Biochemistry II. 3 hrs. Prerequisite: 521. Major metabolic pathways with emphasis on energy considerations and inter-relationships of the pathways.

522L. Biochemistry II Laboratory. 2 hrs. Prerequisite: CHE 521L. Corequisite: CHE 522. A continuation of CHE 521L.

523. Analytical Biochemistry. 3 hrs. Prerequisite: CHE 521. A survey of methods used by biochemists to detect and characterize biologically important molecules.

531. Inorganic Chemistry. 3 hrs. Prerequisite: CHE 462. Electronic state transitions and spectra, coordination chemistry, reaction kinetics and mechanisms, special topics.

531L. Inorganic Chemistry Laboratory. 1 hr. Corequisite: CHE 531. A laboratory designed to accompany CHE 531.

561. Physical Chemistry. 3 hrs. Prerequisite: Permission of the instructor. Chemical thermodynamics.

561L. Laboratory for CHE 561. 1 hr. A laboratory designed to accompany CHE 561. Concurrent registration in CHE 561 is required.

562. Physical Chemistry. 3 hrs. Prerequisite: Permission of the instructor. Kinetics and quantum chemistry.

562L. Laboratory for CHE 562. 1 hr. A laboratory designed to accompany CHE 562. Concurrent registration in CHE 562 is required.

570. Toxicology. 3 hrs. Prerequisite: CHE 256. A one-semester survey course in toxicology.

600. Chemical Safety in the Teaching Laboratory. 3 hrs. Prerequisite: Permission of the instructor. Application of the principles of chemical safety to the creation of a safe environment in high school and college science laboratories.

601. Introductory Structural Chemistry. 3 hrs. Prerequisite: Permission of the instructor. A study of symmetry, including group theory and point group designation, stereochemistry, and the origin of spectra.

<th>Course Description</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chemical Analysis I</td>
<td>2 hrs.</td>
<td>CHE 311 and CHE 256. Separation methods including chromatography and centrifugation. Includes 3 hours of laboratory per week.</td>
</tr>
<tr>
<td>Chemical Analysis II</td>
<td>2 hrs.</td>
<td>CHE 311 and CHE 256. NMR, ESR, mass spectrometry, and X-ray diffraction. Includes 3 hours of laboratory per week.</td>
</tr>
<tr>
<td>Chemical Analysis III</td>
<td>2 hrs.</td>
<td>CHE 311 and CHE 256. IR, UV-visible, ORD, CD, AA spectroscopy, flame photometry, and fluorometry. Includes 3 hours of laboratory per week.</td>
</tr>
<tr>
<td>Chemical Analysis IV</td>
<td>2 hrs.</td>
<td>CHE 311 and CHE 256. Radiochemical, electrochemical, electrophoretic, and thermal analysis. Data handling. Includes 3 hours of laboratory per week.</td>
</tr>
<tr>
<td>Applied Descriptive Chemistry</td>
<td>3 hrs.</td>
<td>Prerequisite: Permission of the instructor. Principles of chemical periodicity applied to a laboratory based study of reactivity.</td>
</tr>
<tr>
<td>Advanced Analytical Chemistry</td>
<td>3 hrs.</td>
<td>Prerequisite: CHE 411 or permission of instructor. Sampling techniques, equilibria and activity, chemical and physical separations, and chemical methods of analysis.</td>
</tr>
<tr>
<td>Advanced Biochemistry</td>
<td>3 hrs.</td>
<td>Prerequisite: Permission of instructor. The interrelationships of metabolic pathways with emphasis on control mechanisms.</td>
</tr>
<tr>
<td>Advanced Organic Chemistry</td>
<td>3 hrs.</td>
<td>Prerequisite: Successful completion of Organic Qualifying Examination or in special instances, permission of the instructor. The structure of organic compounds and their relationship to chemical bonding, stereochemistry, resonance, and reactivity.</td>
</tr>
<tr>
<td>Advanced Synthetic Organic Chemistry I</td>
<td>3 hrs.</td>
<td>Prerequisite: CHE 651. The synthesis of organic compounds emphasizing modern reagents and methods.</td>
</tr>
<tr>
<td>Advanced Physical Chemistry</td>
<td>3 hrs.</td>
<td>Prerequisite: Successful completion of Physical Chemistry, qualifying examination, or in special instances, permission of the instructor. Molecular and thermodynamic basis for chemical phenomena. Emphasis: Applications of thermodynamics and statistical thermodynamics to chemical disciplines.</td>
</tr>
<tr>
<td>Chemistry Seminar</td>
<td>1 hr.</td>

</tbody>
</table>
222 | Course Descriptions

755. Chemistry of Liquid Crystals. 3 hrs. Prerequisite: CHE 651. Survey of the structure, synthesis, and properties of the liquid crystalline state.

759. Current Topics in Organic Chemistry. 3 hrs. Prerequisite: Permission of instructor. Topics of current interest in organic chemistry such as natural products, stereochemistry, and novel synthetic methodology.

761. Special Topics in Statistical Thermodynamics. 3 hrs. Prerequisite: CHE 661 or permission of instructor. Statistical mechanical theory and techniques applied to calculations of thermodynamics properties. Topics: theory of liquids, real gas behavior, etc.

763. Introduction to Quantum Chemistry. 3 hrs. Prerequisite: CHE 661 or permission of instructor. Development of quantum theory relating to energy levels and bonding in chemical systems.

764. Elements of Diffraction. 4 hrs. Scattering, phase relationships, and structural techniques via diffraction for gases, liquids, solutions, and solids. Includes 3 hours of laboratory per week.

769. Current Topics in Physical Chemistry. 3 hrs. Prerequisite: Permission of instructor. Topics of current interest in physical chemistry such as magnetic resonance, quantum theory, etc.

789. Chemistry Seminar. 1 hr.

791. Research in Chemistry. 1-15 hrs. Prerequisite: Approval of major instructor.

797. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

811. Analytical Electrochemistry. 3 hrs. Prerequisite: Permission of instructor. Thermodynamics of electrochemistry, theoretical derivation of electrochemical techniques, and applications thereof.

821. Biosynthetic Pathways. 3 hrs. Prerequisite: Permission of instructor. An in-depth study of selected metabolic pathways.

822. Nucleic Acid and Protein Synthesis. 3 hrs. Prerequisite: CHE 621 or permission of instructor. Protein and nucleic acid biosynthesis, with emphasis on biological control mechanisms.

831. Organometallic Compounds. 3 hrs. Prerequisites: CHE 631 and 651 or permission of instructor. The preparation, structure, physical properties and chemical reactions of compounds containing carbon-metal and carbon-metalloid bonds.

851. A Survey of Heterocyclic Chemistry. 3 hrs. Prerequisite: CHE 651. Nomenclature, synthesis, and reactions of the more common heterocyclic system.

861. Special Topics in Quantum Chemistry. 3 hrs. Prerequisite: CHE 661. Topics of current interest in quantum chemistry such as magnetic resonance, electron spectroscopy, etc.

862. Chemical Kinetics. 3 hrs. Experimental techniques of measuring chemical reaction rates and the mathematical treatment of rate data.

Child Development (CD)

550. Administration of Programs for Young Children. 3 hrs. Prerequisite: 3 hrs. in child development. Evaluation of policies and procedures; organizational structure; and management will be emphasized.

551. Infant Development. 2 hrs. Corequisite: CD 551L. Emphasis will be given to the development and behavior of the infant.

551L. Infant Development Laboratory. 1 hr. Corequisite: CD 551. A laboratory for studying the growth, development, and behavior of infants and toddlers.

552. Child Development Methods and Materials. 2 hrs. Prerequisite: Permission of instructor. Corequisite: 552L. Provisions are made to evaluate and select materials for use in developing teaching techniques and planning developmentally appropriate play activities for children.

552L. Child Development Methods and Materials Laboratory. 1 hr. Corequisite: CD 552. A laboratory for evaluating and selecting materials, developing teaching techniques, and planning developmentally appropriate programs for young children.

553. Creativity in Young Children. 2 hrs. Corequisite: CD 553L. A study of creative activities for preschool children.

553L. Creativity Activities for the Preschool Child Laboratory. 1 hr. Corequisite: CD 553. A laboratory for the study and application of developmentally appropriate creative activities for young children.

555. Supervised Participation. 6 hrs. Prerequisite: CD 452. Directed participation in programs for young children.

598. **Families of the Developmentally Disabled.** 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

628. **Assessment Procedures for Young Children with Disabilities.** 3 hrs. To familiarize students with current issues, theories, and practices regarding the assessment of young children who are at risk for or have manifest disabilities.

629. **Advanced Intervention Procedures for Young Children with Disabilities.** 3 hrs. To familiarize students with current issues, theories, intervention methods, and procedures for young children who are at risk for or have manifest disabilities.

654. **Seminar in Child Development.** 3 hrs. May be repeated for a total of 6 hours. Selected topics in child development.

655. **Practicum in Child Care Administration.** 3 hrs.

688. **Medical Aspects of Developmental Disabilities.** 3 hrs.

691. **Research in Child Development.** 1-16 hrs.

692. **Special Problems in Child Development.** 1-4 hrs.

697. **Independent Study and Research.** Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. **Thesis.** 1-6 hrs. for a total of 6 hrs.

**Coastal Sciences (COA)**

505. **Marine Chemistry.** 3 hrs. Prerequisites: Biology, chemistry, calculus, and analytic geometry, or permission of instructor. Corequisite: COA 505L. Sea water chemistry and cycles and their impact on the marine environment. May be taken as MAR 541.

505L. **Marine Chemistry Laboratory.** 1 hr. Corequisite for COA 505. A laboratory designed to accompany COA 505. May be taken as MAR 541L.

506. **Environmental Estuarine Chemistry.** 3 hrs. Prerequisites: Biology, organic chemistry, calculus, and analytic geometry, or permission of instructor. Corequisite: COA 506L. Sources, reactions, transport, fate, and effects of environmental chemical species in aquatic environments with special emphasis on estuaries. May be taken as MAR 543.

506L. **Environmental Estuarine Chemistry Laboratory.** 1 hr. Corequisite: COA 506. A laboratory designed to accompany COA 506. May be taken as MAR 543L.

509. **Coastal Marine Geology.** 3 hrs. Prerequisite: 12 hours in geology. A study of inshore and nearshore geological processes, sedimentation patterns, and landform development. May be taken as MAR 582.

516. **Marine Fisheries Management.** 2 hrs. Prerequisite: Statistics recommended. Corequisite: COA 516L. A statistical review of the world fisheries. May be taken as BSC 549 or MAR 510.

516L. **Marine Fisheries Management Laboratory.** 2 hrs. Corequisite: COA 516. May be taken as BSC 549L or MAR 510L.

517. **Field and Laboratory Techniques in Marine Fisheries Science.** 3 hrs. Prerequisite: Consent of instructor. Fishery survey design, field techniques, and lab procedures for graduate students. Includes research cruises in offshore and inshore waters.

521. **Marine Ichthyology.** 3 hrs. Corequisite: COA 521L. Marine fishes, including fish biology, ecology, evolution, and classification of marine and estuarine fishes. May be taken as BSC 558 or MAR 508.

521L. **Marine Ichthyology Laboratory.** 3 hrs. Corequisite: COA 521. May be taken as BSC 558L or MAR 508L.

524. **Marine Aquaculture.** 3 hrs. Corequisite: COA 524L. An introduction to principles and technologies applied to the culture of commercially important marine organisms. May be taken as BSC 547 or MAR 507.

524L. **Marine Aquaculture Laboratory.** 3 hrs. Corequisite: COA 524. May be taken as BSC 547L or MAR 507L.

528. **Marine Invertebrate Zoology.** 3 hrs. Corequisite: COA 528L. Morphology, distribution, and ecology of the phyla from Protozoa through Protostomes. May be taken as BSC 521 or MAR 503.

528L. **Marine Invertebrate Zoology Laboratory.** 3 hrs. Corequisite for COA 528. May be taken as BSC 521L or MAR 503L.
224 | Course Descriptions

533. Marine Phycology. 2 hrs. Prerequisites: General botany and plant taxonomy. Corequisite: COA 533L. A survey of the principal groups of marine algae. May be taken as BSC 525 or MAR 520.

533L. Marine Phycology Laboratory. 2 hrs. Corequisite for COA 533. May be taken as BSC 525L or MAR 520L.

534. Coastal Vegetation. 2 hrs. Corequisite: COA 534L. A study of general and specific aspects of coastal vegetation, with emphasis on local examples. May be taken as BSC 537 or MAR 521.

534L. Coastal Vegetation Laboratory. 1 hr. Corequisite for COA 534. May be taken as BSC 537L or MAR 521L.

535. Salt Marsh Plant Ecology. 2 hrs. Corequisite: COA 535L. The botanical aspects of local marshes; includes plant identification, composition, and structure. May be taken as BSC 538 or MAR 522.

535L. Salt Marsh Plant Ecology Laboratory. 2 hrs. Corequisite for COA 535. May be taken as BSC 538L or MAR 522L.

536. Marine Botany. 2 hrs. Prerequisite: General biology (BSC 110 and BSC 111), general botany (BSC226); consent of instructor. An overview, including local examples, of the principal groups of marine microalgae, macroalgae and submerged aquatic and emergent marine flowering plants, with a primary focus on their identification and ecology. The lecture and laboratory work for this course are interlaced so that, following the lecture material, laboratory examination of the algae are made. On three occasions, once per week, all-day field trips in the vicinity of the Mississippi Sound and to the barrier islands are made to observe algae and aquatic/emergent vegetations, the ecological relationships of these flora, and for collecting material for study in the laboratory.

543. Marine Mammals. 3 hrs. Prerequisites: 16 hours biological sciences or permission of instructor. Corequisite: COA 543L. Course will emphasize natural history and population ecology of cetaceans. Will include life history, distribution, population dynamics, diet and feeding, social behavior, evolution, and zoogeography. May be taken as BSC 559 or MAR 523.

543L. Marine Mammals Laboratory. 2 hrs. Corequisite for COA 543. May be taken as BSC 559L or MAR 523L.

546. Marine Ecology. 3 hrs. Corequisite: COA 546L. The relationship of marine organisms to their environment. May be taken as BSC 559 or MAR 505.

546L. Marine Ecology Laboratory. 2 hrs. Corequisite for COA 546. May be taken as BSC 559L or MAR 505L.

547. Fauna and Faunistic Ecology of Tidal Marshes. 2 hrs. Prerequisite: Consent of instructor. Corequisite: COA 547L. Taxonomy, distribution, trophic relationships, reproductive strategies, and adaptations of tidal marsh animals. May be taken as BSC 548 or MAR 506.

547L. Fauna and Faunistic Ecology of Tidal Marshes Laboratory. 3 hrs. Corequisite for COA 547. May be taken as BSC 548L or MAR 506L.

553. Parasites of Marine Animals. 3 hrs. Corequisite: COA 553L. Prerequisite: Permission of instructor. Emphasis on morphology, taxonomy, life histories, and host-parasite relationships. May be taken as BSC 524 or MAR 504.

553L. Parasites of Marine Animals Laboratory. 3 hrs. Corequisite for COA 553. May be taken as BSC 524L or MAR 504L.

556. Comparative Histology of Marine Organisms. 3 hrs. Corequisite: COA 556L. Histology of marine organisms, including tissue processing techniques. May be taken as BSC 568 or MAR 530.

556L. Comparative Histology of Marine Organisms Laboratory. 3 hrs. Corequisite for COA 556. May be taken as BSC 568L or MAR 530L.

565. Applications of Biotechnology in Marine Biology. 3 hrs. Prerequisites: 8 hrs. of zoology, general and organic chemistry; biochemistry recommended or permission of instructor. Corequisite: COA 565L. Basic biochemical and molecular techniques used to conduct research in marine biology. May be taken as BSC 579.

565L. Applications of Biotechnology in Marine Biology Laboratory. 3 hrs. Corequisite for COA 565. May be taken as BSC 579L.

571. Marine Microbiology. 3 hrs. Prerequisites: general microbiology. Corequisite: COA 571L. An introduction to the role of microorganisms in the overall ecology of the oceans and estuaries. May be taken as BSC 590 or MAR 509.

571L. Marine Microbiology Laboratory. 2 hrs. Corequisite for COA 571. May be taken as BSC 590L or MAR 509L.

585. Marine Science for Elementary Teachers. 3 hrs. Prerequisite: Consent of instructor. Designed to acquaint teachers with marine science concepts. May be taken as MAR 558 or SME 535.

586. Coastal Ecology for Teachers. 3 hrs. Prerequisite: Consent of instructor. Corequisite: COA 586L. Designed to provide teachers with a background in basic coastal ecology. May be taken as MAR 559 or SME 559.

586L. Coastal Ecology for Teachers Laboratory. 1 hr. Corequisite for COA 586. May be taken as MAR 559L or SME 559L.

587. Techniques in Marine Science Education. 3 hrs. Designed to acquaint teachers with the marine resources of the Mississippi coastal zone. May be taken as MAR 556 or SME 556.
Describe Species I.

Research in Coastal Sciences.

Parasite Ecology.

Coastal Processes I.

Thesis.

Independent Study and Research.

Coastal Water Quality.

Chemical Toxicology.

Marine Science for Teachers. 3 hrs. Prerequisites: Permission of instructor. Advanced topics in marine science. May be taken as MAR 557 or SME 557.

Special Topics in Coastal Sciences. 1-6 hrs. Prerequisite: Permission of instructor. An informal study of current topics in coastal sciences designed for nondegree graduate students. May be repeated.

Coastal Processes I. 3 hrs. Abiotic processes, including physical, chemical, and geological factors that influence coastal environments.

Coastal Processes II. 3 hrs. Biotic processes and interactions among pelagic, benthic, and land margin subsystems.

Professional Skills in Coastal Sciences. 2 hrs. Course will include lectures and workshops designed to improve scientific writing, grantsmanship, and platform/poster presentation skills.

Research Tools in Coastal Sciences. 2-3 hrs. Research techniques will be discussed in instructive lectures and discussion sessions by faculty and outside investigators. Attendance at all sessions is required. Course may be repeated for credit.

Chemical Toxicology. 3 hrs. Course covers general principles and concepts of toxicology, test procedures, data evaluation and interpretation of specific effect measurements used by environmental scientists.

Coastal Water Quality. 3 hrs. Prerequisite: CHE 107 or equivalent. Course covers water quality measures in estuarine waters. Major topics are lab methods, field measurements, analysis problems, quality control, and interpretation.

Sediments and Biota. 3 hrs. Course covers the vital influence of geology and sedimentation on marine habitats and environments.

Benthic Ecology. 3 hrs. Corequisite: COA 645L. Benthic processes, adaptations, recruitment, spacial patterns, trophic dynamics, and diversity.

Marine Symbiosis I. 4 hrs. Examines a variety of symbiotic relationships ranging from phoretic to parasitic found in the local area by using lectures, demonstrations, and individual research projects.

Marine Symbiosis II. 4 hrs. Examines a variety of symbiotic relationships ranging from phoretic to parasitic found in the local area by using lectures, demonstrations, and individual research projects.

Describe Species I. 3 hrs. Prerequisite: Consent of instructor. Explores necessary aspects of describing a parasitic species for publication.

Describe Species II. 3 hrs. Prerequisite: Consent of instructor. Explores necessary aspects of describing a parasitic species for publication.

Special Topics in Coastal Sciences. 1-6 hrs. May include lecture material, student presentations, and discussions moderated by instructor. May be repeated.

Research in Coastal Sciences. 1-16 hrs. Prerequisite: Permission of instructor.

Special Problems in Coastal Sciences. 2-6 hrs. Prerequisite: Permission of instructor.

Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit towards a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Thesis. 1-6 hrs for a total of 6 hours. Prerequisite: Permission of instructor.

Crustacean Taxonomy. 2 hrs. Corequisite: COA 728L. Morphology, taxonomy, and systematics of higher Crustacea emphasizing the major orders of the three Malacostracan subclasses.

Topics in Fisheries Ecology. 1-6 hrs. Prerequisite: Permission of the instructor. Review of primary literature in fisheries ecology as defined by the topic chosen each semester.

Ecology of Fishes. 3 hrs. Prerequisite: Permission of instructor. Topics range from reproduction to aspects of population and community ecology. Students complete six pre-proposals and lead discussions on topics in fish ecology.

Special Topics in Coastal Sciences. 1-6 hrs. Special topics in coastal sciences. May include lecture material; student presentations and discussions moderated by instructor. May be repeated.

Research in Coastal Sciences. 1-16 hrs. Prerequisite: Permission of instructor.

Special Problems in Coastal Sciences. 2-6 hrs. Prerequisite: Permission of instructor.
226 | Course Descriptions

797. **Independent Study and Research.** 1-9 hrs. arranged. Not to be counted as credit towards a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

898. **Dissertation.** 12 hours. Prerequisite: Permission of instructor.

**Community Health Sciences (CHS)**

508. **Health Education Methods.** 3 hrs. A survey of teaching methods that are appropriate for health education program delivery.

510. **School Health Education Planning.** 3 hrs. Diagnostic phases preceding program development, skills in planning, organization, and implementation of school health education programs.

511. **Health Education Curriculum Development.** 3 hrs. Coordination of curriculum development, content selection, and scope and sequence.

512. **Measurement and Evaluation in Health Education.** 3 hrs. Prerequisite: CHS 509 or CHS 510. An introduction to measurement techniques and methods for evaluating health programs.

514. **Consumer Health.** 3 hrs. The importance of consumer education as related to advertising theory and methods, health misconceptions, health services, medical quackery, and health products.

515. **School Health Program.** 3 hrs. Organization and operation of school health programs with emphasis on instruction, environment, and services.

522. **Drugs and the Whole Person.** 3 hrs. Psychosocial, medical, legal, and health aspects of drugs (including alcohol) and their abuse.

530. **Human Sexuality.** 3 hrs. Physical, emotional, and social aspects of human sexuality.

531. **Sexuality Education.** 3 hrs. Theory, methods, and materials for planning, organizing, and implementing sexuality in school and community settings.

537. **Health Education in Clinical Settings.** 3 hrs. Analysis of the role, methods, and technology of health education pertaining to health care clinics and patient education.

540. **Introduction to Biostatistics.** 3 hrs. Introduction to basic concepts of descriptive and inferential statistical methods in health sciences.

578. **Specialized Studies in Developmental Disabilities.** 1-6 hrs. Specialized study and skill acquisition in the area of developmental disabilities. Topics vary.

590. **Special Topics.** 1-3 hrs.

597. **Professional Collaboration for Developmental Disability Services.** 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

598. **Families of the Developmentally Disabled.** 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

599. **British Studies.** 3-6 hrs. Involves variable topics. Lectures and supervised research in England. Offered exclusively through the Southern Miss Center for International and Continuing Education.

601. **Introduction to Community Health Practice.** 3 hrs. An overview of the public health system, including mission, functions, infrastructure, and interventions and results.

609. **Community Health Education Planning.** 3 hrs. Diagnostic phases preceding program development, skills in planning, organization, and implementation of health education programs in the community.

611. **Internship in Community Health.** 3-9 hrs. Supervised professional experience in a selected community health setting.

620. **Chronic Disease Epidemiology.** 3 hrs. Concepts of methods of chronic disease epidemiology; epidemiological study design; prevention of control of chronic diseases.

625. **Health Administration.** 3 hrs. Application of management principles to health care organizations with a focus on governance and leadership, human resources, control systems, strategic planning, and accountability.
627. Health Policy. 3 hrs. Analysis of the role of federal and state institutions and other participants in health policy formulation, implementation, and evaluation.

628. Assessment Procedures for Young Children with Disabilities. 3 hrs. To familiarize students with current issues, theories, and practices regarding the assessment of young children who are at risk for or have manifest disabilities.

629. Advanced Intervention Procedures for Young Children with Disabilities. 3 hrs. To familiarize students with current issues, theories, intervention methods, and procedures for young children who are at risk for or have manifest disabilities.

638. Workplace Health Promotion. 3 hrs. Study of health education theory and practice as applied to occupational health.

656. Social and Behavioral Aspects of Health. 3 hrs. Social and behavior determinants of health, illness, and sick role.

660. Long-Term Care Policy and Administration. 3 hrs. A study of policy and administrative issues affecting the elderly and disabled populations.

665. Public Health Nutrition: Programs and Principles. 3 hrs. State, national, and international mechanisms of delivery of nutrition and health services; political and social issues in nutrition health policy formulation and implementation.

666. Nutrition Program Planning and Evaluation. 3 hrs. Principles and procedures to plan, implement, and evaluate nutrition program/disease presentation programs.

670. Health Law and Justice. 3 hrs. An examination of social and legal principles impacting health care delivery in the U.S.

680. Research Techniques. 3 hrs. Prerequisite: Graduate statistics course. Principles, evaluation, and types and techniques of research in health care.

685. Contemporary Issues in Health. 3 hrs. Comprehensive examination of a current health issue of contemporary importance.

688. Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

691. Research. 1-16 hrs. Prerequisite: Approval of major instructor.

692. Special Problems in Safety. 3 hrs. Prerequisite: Approval of instructor.

697. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

710. Seminar. 3 hrs. Advanced topics in health administration.

720. Community Organization for Health Education. 3 hrs. Communities and community organizations as they relate to health services and health education.

722. Infectious Disease Epidemiology. 3 hrs. This course will provide epidemiologic knowledge and skills required to diagnose common infectious diseases in humans, identify populations at risk, and apply measures to control the disease.

723. Biostatistics II. 3 hrs. Prerequisite: CHS 623 Biostatistics or an equivalent course. This course will provide knowledge and skills for the application of advanced statistical methods for analysis and interpretation of data.

744. Behavioral Problems in Safety Programs. 3 hrs. A study of behavioral, attitudinal, and motivational issues in a variety of safety programs.

746. Administration and Supervision of Safety Programs. 3 hrs. Administration and supervision of governmental, industrial, agency, and community safety programs.

792. Special Problems in Health. 3 hrs. Prerequisite: Approval of instructor and director.
Computer Engineering Technology (CET)

501. Microprocessor Architecture and Applications. 3 hrs. Corequisite: CET 501L. Microprocessor architecture and applications; I/O interfaces; memory organization.

501L. Microprocessor Laboratory. 1 hr. Corequisite: CET 501.

520. Embedded Microcomputer Design. 3 hrs. Prerequisite: CET 501. Corequisite: CET 520L. Embedded computer applications with microprocessor circuit design and commercial product development.

520L. Embedded Microcomputer Design Laboratory. 1 hr. Corequisite: CET 520.

571. Small Computer Systems. 3 hrs. Prerequisite: CET 501. A study of control units, arithmetic units, memories, and microprogramming concepts.

571L. Small Computer Systems Laboratory. 1 hr. Corequisite: CET 571.

572. Advanced Programmable Logic Circuits. 3 hrs. Corequisite: CET 572L. Fundamentals and applications of synchronous and asynchronous design through the use of advanced VLSI programmable logic devices.

572L. Programmable Logic Circuits Laboratory. 1 hr. Corequisite: CET 572.

574. Switching Circuits. 3 hrs. Prerequisite: Permission of instructor. The design and analysis of synchronous and asynchronous state machines and their implementation in PALs, GALs, FPGAAs, and other switching circuits.

577. Introduction to Control Systems Technology. 3 hrs. Prerequisites: CET 323 and EET 312. Corequisite: CET 577L. Fundamental control system theory and applications; servomechanisms; process control; controllers, measurements, and instrumentation.

577L. Introduction to Control Systems Technology Laboratory. 1 hr. Corequisite: CET 577.

578. Digital Control Systems. 2 hrs. Design of control systems incorporating a computer as an online element. Design of control algorithms and introduction to optimal control.

578L. Digital Control Systems Laboratory. 1 hr. Corequisite: CET 578.

592. Special Problems. 1-3 hrs. Supervised study in the area of computer engineering technology.

620. Advanced Microcontroller Applications. 3 hrs. Course covers advanced real-time programming and interfacing techniques. Applications will emphasize sensor interface circuits/systems for data acquisition, positioning, and control. Project management will include written proposals, budgets, verbal presentation, and project demonstrations.

672. Digital Systems III. 3 hrs. Prerequisite: CET 571. Fault detection in digital systems and fault tolerant computing.

687. Advanced VLSI Design. 4 hrs. Principles of CAD tools in design of digital VLSI systems: stick diagrams; design rules; and layout diagrams for CMOS technology. Design and implementation of custom VLSI integrated circuits.

692. Special Problems. 1-3 hrs. Supervised study in the area of computer engineering technology.

Computer Science (CSC)

510L. Operating Systems and Multiprocessing Laboratory.

512. Introduction to Artificial Intelligence. 3 hrs. Prerequisite: CSC 308. Concepts and techniques of intelligent systems. Survey of research literature.

514L. Software Design and Development Laboratory. 1 hr. A laboratory designed to support CSC 514.

515. Theory of Programming Languages. 3 hrs. Prerequisite: CSC 308. Formal treatment of programming language translation and compiler design concepts.

521. Relational Database Management Systems. 3 hrs. Prerequisite: CSC 511. Theory of relational systems, comparison of relational and conventional systems, use of state-of-the-art relational systems such as Oracle.

524. Software Engineering II. 3 hrs. Prerequisite: CSC 514. Programming languages and software design, modular/object oriented design, team programming, human factors, case studies.

544. Robotic Systems: Theory, Development, and Analysis. 3 hrs. Prerequisite: MAT 326 or permission of instructor. Robotic system development, direct kinematics, the arm equation, workspace analysis, trajectory planning, and robotic programming methodologies.

<thead>
<tr>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>585. <strong>Information Retrieval in the U.K.-Theory.</strong> 3 hrs. Prerequisite: Permission of instructor. Design of British information processing systems.</td>
</tr>
<tr>
<td>586. <strong>Information Retrieval in the U.K.-Applications.</strong> 3 hrs. Prerequisite: Permission of instructor. Design of information processing systems.</td>
</tr>
<tr>
<td>592. <strong>Computer Science Problems I.</strong> 3 hrs. Prerequisite: Solution of problems germane to a selected area of study.</td>
</tr>
<tr>
<td>616. <strong>Automata, Computability, and Formal Languages.</strong> 3 hrs. Prerequisite: CSC 415. Formal models of computation. Computability, complexity, languages.</td>
</tr>
<tr>
<td>623. <strong>Analytical Models for Computer Systems.</strong> 3 hrs. Prerequisite: CSC 410. Examination of the major models that have been used to study operating systems and the computer systems which they manage. Petri nets, data flow diagrams, and other models of parallel behavior. Fundamentals of queueing theory.</td>
</tr>
<tr>
<td>624. <strong>Computer Communication Networks and Distributed Processing.</strong> 3 hrs. Prerequisite: CSC 623. Study of networks of interacting computers. Problems, rationales, and possible solutions for both distributed processing and distributed databases. Major national and international communication protocols will be presented.</td>
</tr>
<tr>
<td>625. <strong>Computer Graphics.</strong> 3 hrs. Architecture of display systems, basic 2-D and 3-D mathematics, 3-D viewing and geometry, advanced surface mathematics, advanced architectures for raster and vector displays, hidden line and hidden surface problems, realistic imaging, software design for 3-D systems.</td>
</tr>
<tr>
<td>626. <strong>Advanced Computer Architecture.</strong> 3 hrs. Prerequisite: CSC 410. Introduction to various architectures and techniques which have been developed or are proposed in the literature. Pipelined architecture, dynamic system architecture, data flow architecture, array processing.</td>
</tr>
<tr>
<td>629. <strong>Applied Combinatorics and Graph Theory.</strong> 3 hrs. Prerequisite: CSC 616. Study of combinatorial and graphical techniques for complexity analysis including generating functions, recurrence relations, Polya's theory of counting, and NP complete problems.</td>
</tr>
<tr>
<td>630. <strong>Parallel Programming Techniques.</strong> 3 hrs. Prerequisites: CSC 306 and good knowledge of C and Unix. An application oriented course which will use a hands-on approach to teach methods for programming parallel applications on single and multi-cpu machines.</td>
</tr>
<tr>
<td>633. <strong>Distributed Database Systems.</strong> 3 hrs. Prerequisite: CSC 623. A consideration of the problems and opportunities inherent in distributed databases on a network computer system. Includes file allocation, directory systems, mutual exclusion, deadlock detection and prevention, synchronization, query optimization, and fault tolerance.</td>
</tr>
<tr>
<td>634. <strong>Information Storage and Access.</strong> 3 hrs. Prerequisites: CSC 411. Advanced data structures, file structures, and databases, with an emphasis on specialized problem areas. Access and maintenance issues.</td>
</tr>
<tr>
<td>636. <strong>Modeling and Simulation.</strong> 3 hrs. A study of the construction of models which simulate real systems. Includes probability and distribution theory, statistical estimation and inference, the use of random variates, and validation procedures. A simulation language is used for the solution of typical problems.</td>
</tr>
<tr>
<td>638. <strong>Advanced Computer Algorithms.</strong> 3 hrs. Prerequisite: CSC 413. Study of recent advances in algorithm design and analysis.</td>
</tr>
<tr>
<td>644. <strong>Advanced Robotic Systems.</strong> 3 hrs. To introduce students to advanced topics and prospective research areas in the field of robotics and its relation to AI, world modeling, and simulation.</td>
</tr>
<tr>
<td>690. <strong>Seminar in Computer Science.</strong> 1 hr.</td>
</tr>
<tr>
<td>691. <strong>Topics in Computer Science.</strong> 3 hrs. Special topics in computer science of current interest to faculty and students, e.g., robotics, neural networks, pattern recognition. May be repeated for credit at discretion of academic adviser.</td>
</tr>
<tr>
<td>695. <strong>Directed Study.</strong> 1-3 hrs. Individual study by a student on an area or problem approved by the student's academic adviser.</td>
</tr>
<tr>
<td>697. <strong>Independent Study and Research.</strong> 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.</td>
</tr>

698. Thesis. 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

699. Project. 1-3 hrs. for a total of 3 hrs.

**Computer Science (CS)**

*Offered only at Gulf Coast*

508. Programming Languages. 3 hrs. Prerequisite: CS 307. Formal study of programming languages, organization of programming languages, runtime behavior of programs, interpretative languages, lexical analysis, and parsing.

511. Relational Database Management Systems. 3 hrs. Prerequisite: CS 307. Introduction to RDBMSs. Includes database design using the entity relationship model, relational model theory, relational algebra, and the implementation of applications using SQL and a state-of-the-art relational system such as Oracle.

514. Software Engineering I. 3 hrs. Prerequisite: CS 307. Overview of software developments, projects management, programming style, testing, debugging, and other topics.

521. Advanced Topics in Relational Database Management Systems. 3 hrs. Prerequisite: CS 511. A selection of advanced topics representing current trends in RDBMSs. Topics include, but are not restricted to, concurrency, backup and recovery, embedded database calls, distributed RDBMSs, and object oriented RDBMSs.

524. Software Engineering II. 3 hrs. Prerequisite: CS 414/514. Programming languages and software design, modular/object oriented design, team programming, human factors, case studies.

585. Information Retrieval in the U.K.-Theory. 3 hrs. Prerequisites: CS 342 and permission of instructor. A study of British information processing systems.

586. Information Processing in the U.K.-Applications. 3 hrs. Prerequisites: CS 485 and permission of instructor. Design of information processing systems.

611. Artificial Neural Networks. 3 hrs. Prerequisite: CS 307. An in-depth study of the major neural network models. Emphasis is placed on architecture, implementation and applications. Students will use existing neural net software to design, implement, and test applications. Students will also test and implement a back propagation neural net.

615. Automata, Computability, and Formal Languages. 3 hrs. Prerequisite: CS 415 and formal models of computation, computability, complexity, and languages.

625. Computer Graphics. 3 hrs. Prerequisites: MAT 168 and CS 525. Hardware, software used in computer graphics; refresh, storage, and raster scan hardware; two-dimensional transformations, clipping, windowing, display files, and input devices.

626. Advanced Computer Architecture. 3 hrs. Prerequisites: CS 303, CET 370. Introduction to various architectures and techniques that have been developed or are proposed in the literature. Pipelined architecture, dynamic system architecture, data flow architecture, and array processing.

632. Artificial Intelligence. 3 hrs. Prerequisite: CS 412/512. Computer representation of knowledge, problem solving, automated deductive systems, computer learning, computer implementation of AI problems, and expert systems.

636. Statistical Simulation and Modeling. 3 hrs. Prerequisites: CS 307, CSS 515. Formulation of models and the design of simulation programs. Simulation languages such as GPSS, SIMSCRIPT II.5 and NDTTRAN.

638. Information Structures. 3 hrs. Prerequisite: CS 307. Analysis of algorithms, recurrence relations, directed and undirected graphs, application of techniques to analysis of algorithms in graph theory, and sorting and searching.

650. Computer Networks. 3 hrs. Prerequisite: CS 406/506 or permission of instructor. An in-depth study of local area/metropolitan and local haul networks including their use, topology, design, and various network protocols.

690. Seminar in Computer Science. 1 hr.

691. Topics in Computer Science. 3 hrs. Special topics in computer science of current interest to faculty and students, e.g., robotics, neural networks, and pattern recognition. May be repeated for credit at discretion of academic adviser.

695. Directed Study. 1-3 hrs. Individual study by a student on an area or problem approved by the student’s academic adviser.
697. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and who are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

699. Project. 3 hrs.

Computer Science and Statistics (CSS)

500. Introduction to Computer Education. 3 hrs. Introduction to concepts, techniques, materials, and resources for teaching computer science concepts, problem solving and programming relative to computer literacy. Research and presentations related to computer science education.

501. Computer Skills for Research. 3 hrs. Prerequisite: CSS 240. Editing of data files, computer system utilization, use of BMD, SPSS, MINITAB for processing research data. Cannot be used to satisfy Computer/Computational Science M.S. requirements.

502. Structured Basic Programming. 3 hrs. Prerequisite: CSS 500. Technical presentation of BASIC with scientific problem solving, algorithms and introduction to data structures. Cannot be used to satisfy Computer/Computational Science M.S. requirements.

503. Authoring Systems for Computer-based Learning. 3 hrs. Prerequisite: CSS 500. Developing computer-based instructional modules utilizing the authoring system approach. Cannot be used to satisfy Computer/Computational Science M.S. requirements.

504. Internet Concepts. 3 hrs. Prerequisite: Basic computer literacy. Introduction to the information superhighway via the Internet. Cannot be used to satisfy Computer/Computational Science M.S. requirements.

505. Advanced Internet: CGI Programming. 3 hrs. Prerequisites: Knowledge of the Internet, basic HTML, some high-level programming language. Basic review of WWW and HTML, forms and forms processing, CGI programming, Java programming, VRML, security, and privacy issues.

518. Sampling Methods. 3 hrs. Prerequisite: CSS 515. The planning, execution and evaluation of sample surveys. Simple random sampling, stratified random sampling, cluster sampling.

525. Virtual Reality. 3 hrs. Comprehensive study of virtual reality techniques.

560. Unix System and Network Administration. 3 hrs. Prerequisite: CSS 360. An introduction to implementing gateway services, firewalls, and providing simple network services. Survey of other implementation of the Linux Operating system.

630. Communications Engineering Fundamentals. 3 hrs. Prerequisite: Permission of instructor. Basic concepts of components and systems that provide electrical communications. Does not apply to Computer Science degree.

633. The Computer and Communications. 3 hrs. Prerequisite: CSS 632. The operation of and uses for digital computers in a communications context. Does not apply to Computer Science degree.

636. Stochastic Processes and Queuing Theory. 3 hrs. Prerequisite: MAT 385. Poisson process, Markov processes, and Queuing theory.

637. Least Squares Techniques. 3 hrs. Prerequisite: CSS 516. Regression analysis, curvilinear regression, discriminant and factor analysis.

Construction Engineering Technology (BCT)

508. Route Surveying. 2 hrs. Prerequisite: BCT 205. Corequisite: BCT 508L. Principles for the design and layout of routes. Coverage includes horizontal and vertical alignment, route location, earthwork, computation, ground photogrammetric survey methods, and special survey methods for highways, pipelines, transmission lines, and urban construction.

508L. Route Surveying Laboratory. 2 hrs. Corequisite: BCT 508.
Course Descriptions

509. Boundary Surveying. 2 hrs. Prerequisite: BCT 205. Corequisite: BCT 509L. The application of knowledge of the science of surveying measurement, the legal principles of boundary location, the laws related to boundaries and land use, the land planning and development concepts pertinent to subdivision of land and property surveys.

509L. Boundary Surveying Laboratory. 1 hr. Corequisite: BCT 509.

545. Soils and Foundations. 2 hrs. Theory and application of soil mechanics to foundation design and construction.

545L. Soils and Foundations Laboratory. 1 hr.

546. Hydraulics and Surface Drainage. 2 hrs. Prerequisite: BCT 544. Corequisite: BCT 546L. Hydraulic analysis and design of urban, highway, airport, and watershed drainage problems; discussion of overload and drainage channel flows; hydraulics of storm-drain systems and culverts; determination of design flow of runoff from drainage from highways, airports, and urban areas; design of drainage gutters, channels, sewer networks, and culverts.

546L. Hydraulics and Surface Drainage Laboratory. 1 hr. Corequisite: BCT 546.

554L. Estimating I Laboratory. 1 hr. Corequisite: BCT 554.

555L. Estimating II Laboratory. 1 hr. Corequisite: BCT 555.

556L. Highway Estimating Laboratory. 1 hr. Corequisite: BCT 556.

558. Construction Planning and Scheduling. 2 hrs. Prerequisite: Permission of instructor. Corequisite: BCT 558L. Critical Path Method (CPM) as a project planning, scheduling, and monitoring technique.

558L. Construction Planning and Scheduling Laboratory. 1 hr. Corequisite: BCT 558.

576. Construction Labor. 3 hrs. A study of construction labor resources, labor history, and governmental labor regulations.

577. Construction Project Management. 3 hrs. Duties and responsibilities of a construction manager. Services provided by CM firms.

578. Applications of Construction Law. 3 hrs. Analysis of construction law and the construction process; legal problems in the bidding process and in the performance of the contract.

586. Project Controls. 2 hrs. Prerequisite: BCT 555. Corequisite: BCT 586L. Determination of highway construction costs, bidding procedures, and analysis of job cost data.

586L. Project Controls Laboratory. 1 hr. Corequisite: BCT 586.

592. Special Problems. 1-3 hrs. Prerequisites: Senior standing and approval of faculty adviser.

692. Special Problems. 1-3 hrs.

696. Construction Internship. 3 hrs. Prerequisite: Admission to graduate program and completion of at least 9 hours of graduate credit.

Cooperative Education (CED)

+500. Cooperative Education Work Term. 0 hr.

Criminal Justice (CJ)

500. Graduate Practicum in Criminal Justice. 3-9 hrs. Prerequisite: Consent of chair. Blends theory and practice in a public or private criminal justice career field; it will not count toward course requirements for the degree.

520. Methods of Criminal Justice Research and Planning. 3 hrs. An in-depth study of criminal justice planning, evaluation, and research.

526. Comparative Criminal Justice Systems. 3 hrs. A study of foreign criminal justice systems, with emphasis on how they suggest possible reforms for the American system.

530. Criminal Procedure. 3 hrs. A survey of procedural criminal law. Due process, statute of limitation, venue, and double jeopardy are covered.

531. Environmental Law. 3 hrs. A study of environmental law emphasizing regulation, enforcement, and detection of unlawful practices damaging to the environment.

533. Evidence, Search, and Seizure. 3 hrs. An examination of laws of evidence and the procedures for obtaining it, with special emphasis on application in criminal court.

542. Advanced Criminal Investigation. 3 hrs. Specialized areas of investigation such as cybercrimes, interview and interrogation, statement analysis, serial crimes, and terrorism.

550. Administration of Criminal Corrections. 3 hrs. An in-depth study of administration of correctional systems, including management, the incarceration process, probation, and parole.

561. Juvenile Corrections. 3 hrs. Course provides the student interested in juvenile corrections with an in-depth perspective of the numerous treatment modalities currently in use.

563. Family Law. 3 hrs. An in-depth study of common law and statutory law relating to the family, emphasizing legal remedies to violence and its effects on the criminal justice system.

564. Family Violence, Investigation, and Deterrence. 3 hrs. A study of child and spousal abuse within the family, emphasizing detection, investigation, and deterrence.

571. Victims of Crime. 3 hrs. Provides an in-depth study of factors that affect the victims of crime. Specific crimes are studied and remedies explored.

572. Organized Crime. 3 hrs. A course to familiarize students with the evolution, typology, and etiology of organized crime in the United States.

575. Private Security: Law and Loss Prevention. 3 hrs. Basic concepts of the private security industry and the law that controls and directs the profession.

580. Seminar in Criminal Justice. 3 hrs. A seminar course dealing with all aspects of the criminal justice system, tying together the knowledge of criminal justice previously learned.

582. Criminal Justice Ethics. 3 hrs. An examination of the myriad of ethical dilemmas that arise in the criminal justice system, and of tools for nurturing an ethical life.

589. Caribbean Studies. 3 hrs. A comparative study of criminal law, courts, and corrections through lectures, field exercises, and research.

600. Seminar in Theory of Criminal Justice. 3 hrs. Prerequisites: CJ 325 or equivalent, and consent of instructor. An intensive examination of the theory of justice generally, and of corrective justice in particular, exploiting the published works of leading thinkers from Plato to the present.

620. Advanced Research Methods for Criminal Justice. 3 hrs. Prerequisite: CJ 520 or consent of instructor. Research theory and methodology in criminal justice, research designs, conceptual models, design and preparation of master’s thesis prospectus.

625. Seminar in Criminal Justice Planning and Research. 3 hrs. Prerequisites: A basic statistics course or its equivalent and consent of instructor. A study of criminal justice planning methodology and research requirements.

630. Seminar in Civil Liberties and Criminal Law. 3 hrs. A study of the legal and moral responsibility of the criminal justice system to individual rights.

631. Seminar in Anglo-American Criminal Law and Procedure. 3 hrs. A detailed study of topics in English criminal law and procedure oriented toward understanding the basis of American criminal justice and solutions to common problems.

640. Proseminar in Police Administration. 3 hrs. A study of legal issues involved in the administration of a modern police agency.

650. Proseminar in Corrections. 3 hrs. An analysis of comparative treatment methodologies utilized by correctional programs throughout the United States and in Europe.

660. Seminar in Juvenile Law. 3 hrs. Prerequisite: CJ 460/560 or approval of professor. An in-depth study of specific problems in the law pertaining to battered, neglected, and delinquent children and their families.

692. Special Problems. 1-3 hrs. Permission of instructor.
234  |  Course Descriptions

697. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs.

699. Seminar in Advanced Topics in Comparative Criminal Justice. 3 hrs. Prerequisite: CJ 426/526 or approval of professor. Study abroad of selected topics of foreign criminal justice systems. Emphasis is on theory.

Curriculum and Instruction: Elementary (CIE)

503. Kindergarten-Primary Education. 3 hrs. A practicum designed to give teaching experiences in understanding the social, emotional, and cognitive growth and development of children.

540. Supervision for Effective Student Teaching. 1 hr. Introduction to The University of Southern Mississippi’s student teaching program and the roles and responsibilities of associated personnel.

542. Computational Errors in Elementary Mathematics. 1 hr. The identification and remediation of pupil errors in addition, subtraction, multiplication, and division of whole numbers.

594. Learning Resources in Early Childhood Education. 3 hrs. Students will become acquainted with learning sources, selection, use, and production of multimedia materials for kindergarten and primary education.

598. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

600. Foundations of Multicultural Education. 3 hrs. Examines the affective and theoretical dimensions of pedagogy appropriate for culturally and linguistically diverse students, with emphases on research, current social and educational issues, and strategies for teaching tolerance.

602. Procedural Errors in Mathematics. 3 hrs. The identification and remediation of procedural errors in the basic operations of elementary school arithmetic.

605. The Process of National Board Teacher Certification. 3-6 hrs. Provides opportunities to analyze and apply National Board for Professional Teaching standards in the student’s content area using the reflective process. Three hours may be taken at the pre-candidate level or three hours may be taken at the candidate level.

606. Teaching Language Arts in the Elementary Grades. 3 hrs. The basic concepts of language teaching and learning with consideration of all the language arts and their interrelationships.

613. Student Discipline Techniques and Procedures for Teachers and Administrators. 3 hrs. Provides a comprehensive overview of strategies for disciplining students.

616. Teacher/Administrator Legal Rights and Responsibilities. 3 hrs. Provides a comprehensive overview of the legal rights and responsibilities of teachers and administrators.

688. Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

692. Special Problems I, II, III. 1 hr. each. A problem study to be approved by the department chairman to develop knowledge and facility in a field of interest of the student. Preparation of a scholarly paper is required.

694. Field Problems in Production I, II, III. 3 hrs. Prerequisite: Approval of the department chairman. This course provides students with an opportunity to study local school problems in a field setting under the supervision of a graduate professor.

697. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 3 hrs. Credit deferred until thesis is completed.
704. Multicultural Education: Curriculum Development and Pedagogy. 3 hrs. Prerequisite: CIES 600 or permission of instructor. Evaluates existing curricular materials and pedagogical practices against guidelines for teaching culturally and linguistically diverse students, with emphasis on making adaptations in curricular materials, using appropriate assessment, effective teaching strategies, and relevant research.

717. Professional Relationship in Improved Elementary Programs. 3 hrs. A course designed to investigate behavioral factors and individuals and groups as they affect elementary school environments.

720. Internship in Reading: Public School. 3-6 hrs. The student is assigned to a public school in a teaching or supervisory capacity under the direct supervision of a reading faculty member in order to develop competency in instruction, administration, or clinical skills.

724. Problems of Teaching Mathematics. 3 hrs. Prerequisite: Consent of instructor. A study of elementary school techniques, particularly those related to number concept, of teaching arithmetic based on research studies and current practices.

725. Social Studies Education in Elementary School. 3 hrs. A course which deals with programs, practices, trends, and investigation of criteria for evaluating, planning, organizing, and improving social studies programs.

726. The Development of the Latin Countries. 3 hrs. A seminar which deals with the historical, political, social, and economic development of the Latin American region.

727. Diagnostic Techniques in Elementary Mathematics. 3 hrs. Varied data sources that serve the diagnostic teaching cycle are investigated.

728. Curriculum in the Elementary School. 3 hrs. A course involving analysis and evaluation of curriculum elements and procedures in terms of the implications for the individual, the school, and the community. A major paper on a curriculum topic is required.

730. Practicum in Elementary Mathematics. 3 hrs. Prerequisite: CIE 724, or permission of the instructor. Provides experience in the diagnosis and developmental instruction of elementary pupils and explores related materials.

732. Instructional Management. 3 hrs. Designed to help school districts develop and manage their educational program through clear instructional objectives and matching test items.

754. Developing Community Education. 3 hrs. A course designed to acquaint teachers with the concept of community education and its impact on their role in the classroom through strengthening community ties.

755. Research in Elementary Education. 3 hrs. Prerequisite: Advanced graduate status or permission of chair of department. Designed to familiarize the student with the elements and methods of research, with the representative types of research, and with the major contributions of research to the field of elementary education.

756. Children’s Literature in the Curriculum for the Early Years: An Awareness, Criteria, and Evaluation. 3 hrs.

757. Practicum in Early Childhood Education. 3 hrs. Curriculum planning, administration, and supervision are stressed through research and practice in laboratory settings.

758. Practicum with Parents. 3 hrs. Parent-teacher-child intrapersonal and interpersonal relationships are investigated through research and practice in laboratory settings.

765. Seminar in Early Childhood Education. 3 hrs. Emphasis is on early childhood practice, theory, and research and their relatedness to psychological, sociological, and intellectual patterns.

777. Evaluation in Early Childhood Education. 3 hrs. An introduction to specific principles and practices relative to group and individual evaluation procedures for early childhood education.

778. Creative and Mental Growth. 3 hrs. Research in creative thinking and its relationship to mental growth is emphasized.

780. Research in Child Development. 3 hrs. A course concerning methods and research in child growth in social, emotional, psychological, and physiological development.

781. History and Philosophy of Early Childhood Education. 3 hrs. An investigation of Pestalozzi, Froebel, Montessori, and others representing philosophies influencing today’s curricula and programs.

790. Qualitative Research in Curriculum and Instruction. 3-6 hrs. Application of Qualitative Research Methodology in the context of investigations in curriculum and instruction.

791. Research in Elementary Education. 1-16 hrs. Prerequisite: Approval of major professor.

792. Special Problems. 3 hrs.

794. Field Problems. 3 hrs. Prerequisite: Approval of department chair. This course provides students with an opportunity to study local school problems in a field setting under the supervision of a graduate professor.

797. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.
236 | Course Descriptions

798. Specialist Thesis. 6 hrs. Specialist’s degree candidates are required to select a significant educational problem for investigation and to present the findings in a scholarly report under the guidance of a graduate committee.

862. Seminar in Elementary Education. 3 hrs. Prerequisite: Advanced graduate status or permission of the chair of the department. A course which is interdisciplinary in nature and focuses on contributions of research, philosophy, history, sociology, and educational psychology as they apply to the resolution of major issues in elementary education.

880. Advanced Graduate Seminar in Education. 1 hr. A series of in-depth discussions and analysis of significant educational problems and issues for students in advanced programs.

Curriculum and Instruction: Reading (CIR)

512. Diagnosis and Remediation of Reading Disability for the Classroom Teacher. 3 hrs. Prerequisites: CIE 306, CIE 309. Provides relevant practicum experiences in evaluation and gives extended opportunities in child tutoring appropriate to grades 2-8.

541. Foundations of Reading Instruction for the Adult. 3 hrs. This course involves an examination of the basis of reading instruction for the nonliterate adult.

591. The Reading Conference. 3 hrs. An intensive program consisting of lectures, group discussion, and demonstration lessons. Only three hours may be used for degree purposes.

622. Supervision and Curriculum in Reading. 3 hrs. The role of reading supervisors and school administrators in developing and implementing programs for improvement of reading instruction in schools.

691. Research in Reading. 1-16 hrs. Designed to provide the student with the opportunity to pursue an individual research project or to make an intensive review of reading research on a selected topic.

705. Modern Concepts in Reading Skill Development. 3 hrs. An intensive development of the skills required in classroom reading emphasizing methods and materials required to teach the skills.

706. Psychology of Reading. 3 hrs. Considers the components of the reading process, with emphasis on language and reading approached from a theoretical point of view.

713. Advanced Diagnosis and Remediation of Reading Disability for the Classroom Teacher. 3 hrs. Prerequisite: CIE 706. Deals with corrective and remedial reading in the elementary school covering causes of disability, procedures in diagnosis, and classroom remedial treatment.

715. Advanced Diagnosis and Remediation of Reading Disability for the Reading Specialist. 3 hrs. Prerequisite: CIE 706. Deals with the role of the reading specialist, reading clinic organization, diagnostic remedial materials and techniques, with limited testing-teaching and clinical observation experiences.

721. Practicum in Remedial Reading for the Reading Specialist. 3 hrs. Prerequisite: CIE 715. Provides supervisory experiences in diagnosis in prescribing materials for remediation and in directing remedial reading procedures for small groups of reading disability cases.

729. Reading in the Elementary School. 3 hrs. Provides for extensive study of recent trends in materials and methods in reading in the elementary school, including significant related research studies.

730. Reading and Study Improvement Techniques for the Junior and Senior College Teacher of Reading. 3 hrs. Summarizes research, methods, and techniques of college reading programs.

733. Practicum in Diagnosis and Remediation of Reading Disability for the Classroom Teacher. 3 hrs. Prerequisite: CIE 713. Develops the skills necessary in making a complete reading diagnosis including evaluations, interpretations, and recommendations.

736. Practicum in Reading Diagnosis. 3 hrs. Prerequisite: CIE 713. Enables the student to work with small groups of corrective reading cases diagnosing needs and teaching corrective lessons.

737. Practicum in Remedial Reading Instruction. 3 hrs. Provides the student experiences in secondary reading diagnosis and remediation, with emphases on techniques in a practicum setting.

754. Reading in the Secondary Schools. 3 hrs. A course providing for extensive study of trends in materials and methods in secondary school reading, including significant research studies which relate to these.

785. Seminar in Reading Instruction. 3 hrs. Prerequisites: CIE 705, CIE 706, CIE 729. Considers topics pertinent to current research in reading instruction. Topics announced in advance of registration.

Curriculum and Instruction: Secondary (CIS)

540. Supervision for Effective Student Teaching. 1 hr. Introduction to The University of Southern Mississippi’s student teaching program and the roles and responsibilities of associated personnel.

542. Methods and Materials for Teaching Adults to Read. 3 hrs. Instructional and diagnostic materials and methods for dealing with functionally illiterate adults.
Course Descriptions

570. **Curriculum in the Secondary School.** 2 hrs. A course which examines the present-day structure and nature of the secondary school curriculum.

578. **Specialized Studies in Developmental Disabilities.** 1-6 hrs. Specialized study and skill acquisition in the area of developmental disabilities. Topics vary.

598. **Families of the Developmentally Disabled.** 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

599. **British Studies: Studies in British Education.** 1-3 hrs.

600. **Foundations of Multicultural Education.** 3 hrs. Examines the affective and theoretical dimensions of pedagogy appropriate for culturally and linguistically diverse students, with emphases on research, current social, and educational issues, and strategies for teaching tolerance.

603. **Management and Organization of Diverse Classrooms.** 3 hrs. Develops knowledge, skills, and attitudes required for teaching students from diverse backgrounds, emphasizing classroom management, organization, and discipline.

605. **The Process of National Board Teacher Certification.** 3-6 hrs. Provides opportunities to analyze and apply National Board for Professional Teaching Standards in the student’s content area using the reflective process. Three hours may be taken at the pre-candidate level or three hours may be taken at the candidate level.

615. **Student Discipline Techniques and Procedures for Teachers and Administrators.** 3 hrs. Provides a comprehensive overview of strategies for disciplining students.

616. **Teacher/Administrator Legal Rights and Responsibilities.** 3 hrs. Provides a comprehensive overview of the legal rights and responsibilities for teachers and administrators.

617. **Medical Aspects of Developmental Disabilities.** 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

692. **Special Problems I, II, III.** 1 hr. each. A problem study to be approved by the department chair to develop knowledge and faculty in the field of interest of the student. Preparation of a scholarly paper is required.

694. **Field Problems.** 3 hrs. Prerequisite: Approval of the department chair. This course provides students with an opportunity to study local school problems in a field setting under the supervision of a graduate professor.

697. **Independent Study and Research.** 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. **Thesis.** 3 hrs. Credit deferred until thesis is completed.

700. **Seminar in Secondary Education.** 3 hrs. An investigation of the major trends and objectives of the secondary school, with emphasis upon the disciplinary areas of the curriculum.

701. **Algebra for Secondary Teachers.** 3 hrs. Consideration is given to the problems relating to the teaching of algebra and a new review of special algebraic principles.

705. **Professional Subject Matter in Mathematics.** 3 hrs. A study of ways to enrich the teaching of high school mathematics through the introduction of basic topics and concepts of college mathematics.

706. **Geometry for Secondary Teachers.** 3 hrs. Consideration is given to the problems pertaining to the teaching of high school geometry and a review of special geometric principles.

707. **Materials in the Teaching of Mathematics.** 3 hrs. A study of materials to be used in the teaching of secondary school mathematics, both in the classroom and in extracurricular activities.

708. **High School Curriculum.** 3 hrs. An overview of the field of curriculum and instruction at the secondary-school level with special emphasis upon contemporary trends.

710. **Mathematics for Junior High School Teachers.** 3 hrs. Prerequisite: To be teaching junior high school mathematics or have at least a minor in college mathematics. Consideration is given to the problems relative to the teaching of mathematics in grades 7, 8, and 9 and to the organization of mathematical subject matter for these grades.

718. **Research and Trends in English Education.** 3 hrs. Uses an action research paradigm to explore current research and trends in the English classroom from various theoretical perspectives.

723. **Research and Problems in Mathematics Education.** 3 hrs. A seminar for experienced teachers who wish to plan developmental programs of mathematics instruction in light of recent developments.

750. **Advanced Study of Problems and Issues in Teaching Secondary School Social Studies.** 3 hrs. Explores inquiry strategies for the social studies classroom and seeks to foster a firm understanding of basic analytical concepts and principles for the experienced social studies teacher.

753. **Instructional Management.** 3 hrs. Designed to help school districts develop and manage their educational program through clear instructional objectives and matching test items.
Developing Community Education. 3 hrs. A course designed to acquaint teachers with the concept of community education and its impact on their role in the classroom through strengthening community ties.

Qualitative Research in Curriculum and Instruction. 3-6 hrs. Application of qualitative research methodology in the contexts of investigations in curriculum and instruction.

Research in Secondary Education. 1-16 hrs. Prerequisite: Approval of the major professor.

Special Problems. 3 hrs.

Field Problems. 3 hrs. Prerequisite: Approval of department chair. This course provides students with an opportunity to study local school problems in a field setting under the supervision of a graduate professor.

Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Specialist Thesis. 6 hrs. Specialist’s degree candidates are required to select a significant educational problem for investigation and to present the findings in a scholarly paper under the guidance of a graduate committee.

Advanced Graduate Seminar in Education. 1 hr. A series of in-depth discussions and analysis of significant educational problems and issues for students in advanced programs.

Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Curriculum, Instruction, and Special Education (CISE)

Critical Review of Professional Literature. 3 hrs. Doctoral seminar focusing on the review of current literature in elementary, secondary, and special education.

Doctoral Seminar: Curriculum Theory. 3 hrs. Interpretive, normative, and critical perspectives of educational history, philosophy, sociology, and psychology. Understand and analyze theory for implementation in practice.

Problems in Educational Research: Design I. 3 hrs. Doctoral seminar focusing on research methods. Primary emphasis is placed on the review, development, and evaluation of research topics in the student’s area of specialization.

Problems in Educational Research: Design II. 3 hrs. Doctoral seminar focusing on research methods. Primary emphasis is placed on the review, development, and evaluation of research topics in the student’s area of specialization.

Seminar in Teacher Education. 3 hrs. Doctoral seminar focusing on exploration of issues and problems in education. Addresses development of programs, courses of study, and modules in higher education.

Grant Writing, Policy Analysis, and Program Evaluation. 3 hrs. Doctoral seminar focusing on grant writing, policy analysis, and program evaluation in elementary, secondary, and special education.

Dance (DAN)

Advanced Jazz Dance. 2 hrs. The study and application of the principles of jazz movement. May be repeated for a total of 6 hours.

Practicum in Movement. 1-2 hrs. May be taken for a total of 9 hrs.

Musical Theatre Dance. 2 hrs.

British Studies. 3-6 hrs. Studies in dance and movement sciences abroad (5 weeks).

Economic Development (ED)

Theories of Economic Location. 3 hrs. Principals of economic location analysis with emphasis on locational decision making and investment by different types of businesses. Relevance to economic development is stressed.

Economic Development Marketing. 1 hr. Examines the principles of strategic comprehensive marketing as applied to economic development practice.

Introduction to Economic Development Finance. 1 hr. Examines the fundamentals of economic development finance, including an overview of economic development finance, business credit analysis, fixed asset financing, real estate financing, grantsmanship, and sources of private and public finance.

Methods of Economic Development Research. 3 hrs. Prerequisite: Consent of instructor. Examines research methods for local, regional, and state economic development agencies.

Contemporary Issues in Economic Development. 1-3 hrs. variable credit. May be repeated for a total of 9 hrs. Examines critical issues facing economic developers with a focus on policy formulation in the southeastern United States.

Dynamics of Economic Development. 3 hrs. Theory and practice of spatial aspects of economic development as applied to local, regional, and national economies and to the world market economy.
654. **Preparing for Community Economic Development.** 3 hrs. Provides practical instruction in the operation of a local economic development agency, with emphasis on community preparation techniques and concepts.

655. **Economic Development Finance.** 3 hrs. Overview of financing principles for managing a local economic development organization, evaluating strategic development plans and specific projects, and coordinating industrial development incentive packages.

656. **Rural Economic Development.** 3 hrs. Focuses on rural development problems with emphasis on the southeastern U.S.; examines national and state policies and practices for stimulating nonmetropolitan development.

657. **Promoting Community Economic Development.** 3 hrs. Prerequisite: Consent of instructor. Provides practical instruction in concepts and techniques for promoting a community, region, or state for new and existing business investments.

658. **Applied Research Problems in Economic Development.** 3 hrs. This is a capstone course designed to challenge and synthesize the student’s proficiency in economic development. It consists of several research problems to be completed and successfully defended during the semester. Problems are assigned based on the student’s program of courses and specializations.

661. **Economic Development and the Environment.** 2 hrs. Focuses on environmental issues and practices in economic development. Includes a study of sustainable development, wetlands, resource conservation, hazardous and solid waste, environmental impact statements, and permitting.

662. **Introduction to Research Methods in Economic Development.** 1 hr. Introduction to data analysis, methods of measurement, survey techniques, and data presentation as applied to economic development. Emphasizes computer and Internet applications.

663. **Community Development I.** 1 hr. Examines techniques of community analysis and planning for community economic development, including strategic, land use, and transportation planning.

664. **Community Development II.** 2 hrs. Examines applied techniques for implementing a community economic development plan, including downtown development, industrial sites and buildings, workforce development, and infrastructure.

665. **Rural Development.** 1 hr. Focuses on rural development problems, with emphasis on the southeastern U.S. Examines national and state policies and practices for stimulating nonmetropolitan development.

666. **Economic Development and Tourism.** 2 hrs. Study of tourism as it relates to economic development. Focuses on methods for attracting tourism, hospitality, and gaming businesses as target sectors for economic development. Includes a study of ecotourism and the gaming industry.

667. **Introduction to Research Methods in Economic Development.** 1 hr. Introduction to data analysis, methods of measurement, survey techniques, and data presentation as applied to economic development. Emphasizes computer and Internet applications.

668. **Economic Development Finance.** 2 hrs. Prerequisite: ED 663 or equivalent. Credit analysis process, permanent working capital analysis, cash flow analysis, and projections and deal structuring as they are applied in economic development practice.

669. **Relational Skills in the E.D. Organization.** 2 hrs. Examines “relational” skills needed by professional economic developers, including oral and written communication skills, interpersonal skills, negotiation, business etiquette, and dealing with the media and constituents.
Managing an E.D. Agency. 2 hrs. Prerequisite: Introduction to Management or equivalent. Study of management theory and approaches specifically applied to economic development agencies. Includes personnel management and working with volunteers, community leaders, and board members.

Economic Development Promotion. 1 hr. Prerequisite: ED 646 or equivalent, ED 666 and 667 or equivalent. Techniques of internal and external advertising, promotion, and salesmanship in economic development, with emphasis on business retention, expansion, creation, and recruitment.

International Economic Development Methods. 1 hr. Prerequisite: ED 646 or equivalent. Examines methods of promoting foreign direct investment and export assistance for domestic producers.

Contemporary Issues in Economic Development. 1-3 hrs. Analysis of selected issues of current importance to the practice of economic development.

Economic Development Theory I. 2 hrs. Prerequisite: GHY 350 or equivalent or permission of instructor. Manufacturing, retail, service, and commercial location theory.

Economic Development Theory II. 2 hrs. Prerequisite: GHY 350 or equivalent or permission of instructor. Regional and local economic development theory, including growth centers, economic base theory, and multiplier analysis.

Best Practices in Economic Development. 1 hr. Prerequisite: Approval of adviser and instructor. Case studies of selected examples of best practices in economic development.

Applied Problems in Economic Development. 1 hr. Prerequisite: Approval of adviser and instructor. Placement in a mentoring environment in an economic development agency. 2 hours of credit for each academic term. 4 hours required.

Economics (ECO)

Economic Analysis for Managers. 3 hrs. Prerequisites: Computer literacy, calculus. Microeconomic and macroeconomic analysis as applied to managerial decision making. See also MBA 520.

International Economics Seminar Abroad. 3 hrs. Prerequisite: Consent of program director. Conducted in London, England; a series of lectures and discussions involving authorities on international economic issues and practices.

Microeconomic Analysis for Business. 3 hrs. Prerequisites: ECO 201-202 or ECO 520. A study of pricing and resource allocation with emphasis on applying microeconomic concepts.

International Trade and Finance. 3 hrs. Prerequisites: ECO 201-202, FIN 300, and consent of instructor. A study of international trade theory, balance of payments adjustment mechanisms, exchange rate determination, and the role of the MNC in the international economy.

Special Problems in Economics. 1-6 hrs. Prerequisite: Permission of department chair.

International Economics Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international economics offered for students enrolled in ECO 598.

Educational Administration (EDA)

Community Education and the Professional Educator. 1 hr. Introduction to the concept of community education and its importance in building a base of community support for schools.

British Studies: Studies in British Education. 3 hrs. Provides students with information on various topics related to British education and with field experiences related to British educational institutions.

British Studies: Research in British Education. 3-6 hrs. To provide students with supervised research study on British education that relates to their interests or educational specialty.

Introduction to Educational Leadership. 3 hrs. An introduction to leadership for student-centered schools.

Introduction to Community Education. 3 hrs. Designed to acquaint students with the historical development of community education and to review the basic components of the community school.

Student Discipline Techniques and Procedures for Teachers and Administrators. 3 hrs. Provides a comprehensive overview of strategies for disciplining students.

Legal Considerations for School Leadership. 3 hrs. Provides a comprehensive overview of the legal rights and responsibilities of students, teachers, and administrators.

Instructional Leadership - Supervision and Professional Development. 3 hrs. The role and functions of the instructional leader in the modern school setting.

Contextual Dimensions of the Principalship. 3 hrs. Focus is on skills essential for today’s school leaders in student-centered schools.
630. Organization and Administration of the Elementary School. 3 hrs. Emphasizes the role, responsibilities, and functions of the principal in the modern elementary school.

632. Organization and Administration of the Junior High and Middle Schools. 3 hrs. Examines the junior high-middle school function, objectives and program from the viewpoint of the administrator and supervisor.

636. Administrative Internship. 3-12 hrs. Intensive field experience under supervision of practitioner/mentor and university faculty coordinator.

650. Educational Resources Development and Management. 3 hrs. Emphasizes the relationship between effective management of financial resources and the instructional program. Includes attention to site-based budgeting.

691. Research. 1-16 hrs. arr.

692. Special Problems I, II, III. 1-3 hrs. A problem study to develop knowledge and facility in a field of interest for the student which requires preparation of a scholarly paper under the supervision of a graduate professor.

694. Field Problems in Production I and II. 3 hrs. Opportunity to study local school problems under careful supervision of a graduate professor.

697. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

700. Public School Finance. 3 hrs. Emphasizes principles of taxation; local, state, and federal financing of public education; equalization of education opportunity.

701. Analysis of Teaching Behavior. 3 hrs. Designed to analyze teaching behavior to determine competency, including interaction analysis and microteaching skills.

704. School Community Relations. 3 hrs. A study of school community relations purposes, principles, policies, and procedures.

706. Education Facilities Development and Management. 3 hrs. A comprehensive study of the administrative function in facilities, renovation, planning, maintenance, and management.

708. Developing and Managing Human Resources. 3 hrs. Emphasizes the relationship between effective management of human resources and the instructional program. Includes attention to licensed and support personnel.

710. School Law. 3 hrs. Legal aspects of such factors as school money, church-state relationships, injury to pupils, student and teacher rights, and related matters.

711. Higher Education in the United States. 3 hrs. This course provides an overview of the development, scope, philosophy, objectives, and recent innovations in colleges and universities.

712. The Community/Junior College. 3 hrs. This course treats the development, functions, programs, philosophy, issues, and research related to the two-year college.

713. Curricula in Higher Education. 3 hrs. A study of undergraduate, graduate, and professional education curriculum development in community/junior and senior colleges.

714. Higher Education Finance. 3 hrs. This course will explore the financing of higher education including the following: the theoretical bases for the use of taxation to support post-secondary education; students fees and tuition; public and private grants, gifts, and bequests; financing and planning for higher education needs; cost benefit and cost analysis; budgeting and accounting.

715. Administration and Supervision of College Teaching. 3 hrs. A study of the administration of college faculty personnel services and of techniques for faculty development.

716. Legal Issues in Higher Education. 3 hrs. Explore legal issues and their impact on post-secondary institutions. Covers such topics as academic freedom, facility employment, student legal issues, and tort liability.

717. Continuing Education and Community Service. 3 hrs. The role and scope of continuing education and community service in higher education, including the community college.

718. Human Resources in Higher Education. 3 hrs. The course will introduce the students to the legal regulations and policies surrounding today’s workforce in areas of employee relations, recruitment and selection, training, benefits, compensation, diversity, documentation, information systems and other related topics for public universities.

719. Organization and Administration of Occupational Education in the Community College. 3 hrs. Economic, social, educational and legal bases for occupational education; administration of secondary and community college programs.
720. Advanced Curriculum Development. 3 hrs. Designed for the school administrator who has or will have responsibility for curriculum development in a school system.

730. Media Skills for Successful School-Community Relations. 3 hrs. Designed to build communication skills needed for a successful school-community relations program.

736. Practicum in Educational Administration. 3 hrs. Seminar-experiences in administrative problems from the standpoint of the chief school officer and the central office staff.

738. Practicum in Supervision. 3 hrs. Prerequisite: EDA 620. An advanced seminar in supervisory services and current problems from a central office viewpoint.

740. Advanced Instructional Supervision. 3 hrs. Prerequisites: EDA 600 and EDA 620. Designed to develop a systematic approach to instructional improvement that will be of use to the generalist or specialist.

742. Consensus Decision Making in Education. 3 hrs. Designed to help school administrators improve their skills in using faculty and community groups in educational decision making.

750. Administrative Workshop I, II, III, and IV. 1-5 hrs. per week. (Course may be repeated, with only nine hours counting toward a degree.)

755. The Superintendency. 3 hrs. Analyzes roles, responsibilities, and relationships as well as problems and issues associated with the position of school superintendent.

756. Developing Community Education. 3 hrs. Designed to acquaint educators and agency representatives with the concept of community education and how it builds a strong base of community support for the schools.

777. The Professoriate. 3 hrs. An examination of historical and contemporary roles of the professoriate and discussion of forces that are shaping future roles for the profession.

780. Educational Leadership Seminar. 3 hrs. The nature and roles of leadership in educational settings with emphasis on self assessment and leadership style in educational decision making.

791. Research in Educational Administration, Supervision, and Curriculum. 1-16 hrs. Prerequisite: Approval of major professor.

793. Special Problems. 3 hrs.

794. Field Problems in Administration I, II, III. 1 hr. each A project dealing with a specific problem in school administration. An on-the-job training program with the work being done under the supervision of a graduate professor. This registration must be approved by the departmental chair upon the recommendation of the student’s major professor.

797. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

798. Specialist Thesis. 6 hrs. Selection of practical educational problems for solution by candidates for the specialist’s degree, using research and professional knowledge. A scholarly report is required.

800. Seminar: Theories in Educational Organization and Administration 3 hrs. This course deals with the theories and concepts underlying present-day school organization, administration, and supervision.

814. Organization and Administration of Higher Education. 3 hrs. A study of organizational and administrative roles of structure, governance, coordination, control, and finance of higher education.

816. Seminar in Problems in Higher Education. 3 hrs. Discussion of problems and topics in higher education to be determined by the students and the instructor.

889. Special Topics Seminar. 1 hr. (max. 3 hrs.) A seminar for in-residence doctoral students in educational administration, emphasizing current issues selected by students in consultation with faculty.

Electronics Engineering Technology (EET)

512. Advanced Circuit Analysis. 2 hrs. Prerequisite: Permission of instructor. Corequisite: EET 512L. Transfer functions; network analysis by Laplace transform methods. Not open to master’s of engineering technology candidates who have backgrounds in electrical or electronics engineering technology.

512L. Advanced Circuit Analysis Laboratory. 1 hr. Corequisite: EET 512.

550L. Microwave Technology Laboratory. 1 hr. Corequisite: EET 550.

592. Special Problems. 1-3 hrs. Supervised study in area of electronics engineering technology related to manufacturing.

563. Digital Signal Processing. 3 hrs. Theory and applications of processing discrete data. MATLAB will be used in the development of DSP algorithms to manipulate signals, reduce noise, and extract information.

564. Active and Digital Filtering. 3 hrs. Practical analog and digital filter design covering Butterworth, Chebyshev, and elliptic filters. Digital filter design to include IIR and FIR. Window function for FIR filters will also be covered.

592. Special Problems. 1-3 hrs. Supervised study in the area of electronics engineering technology.

**Engineering Technology (ENT)**

510. Foundations in Computer-aided Drafting and Design. 3 hrs. Fundamentals of computer use for drafting and design using commercial software.

520. Computer-aided Drafting and Design II. 3 hrs. Prerequisite: ENT 510. CADD applied to architectural and engineering drawing using AUTO/ACAD. Graphics programming in two and three dimensions.

521. Computer-aided Design and Drafting III. 3 hrs. Prerequisite: ENT 520 or CADD experience. Advanced CADD topics applied to architectural and engineering drawing using AutoLISP.

530L. Solar Heating and Cooling Laboratory. 1 hr. Corequisite: ENT 530.

544. Fire Safety. 3 hrs. Codes and technology used in fire prevention, detection, protection, and suppression.

545. Ergonomics. 3 hrs. Standards, statutes, and technology used in ergonomic analysis of worksites. Prevention and control of ergonomic risk conditions.

550. Safety Compliance. 3 hrs. Prerequisite: Graduate standing or permission of instructor. A comprehensive overview of safety standards, regulations, concepts, and processes relating to the modern industrial workplace.

570. Electronics for Scientists. 3 hrs. Corequisite: ENT 570L. Practical electronics needed for maximum utilization of scientific instrumentation, automation, and logic circuits.

570L. Electronics for Scientists Laboratory. 1 hr. Corequisite: ENT 570.

592. Special Problems. 1-6 hrs. Topics in Engineering Technology I.

593. Special Problems. 1-3 hrs. Topics in Engineering Technology II.

594. Cost Analysis and Control. 3 hrs. Prerequisite: ENT 390. Applied cost control methods and techniques to establish prices of products for their targeted market segment.

610. Advanced Quality Assurance. 3 hrs. Recent advances in quality assurance, customer focus, TQM, process capability, control charts, concurrent engineering, Taguchi’s method, product liability and reliability, ISO 9000, QS-9000, Deming and Baldrige awards.

640. Resources in Engineering Technology. 3 hrs. Operations management and technology, human and technical resources, forecasting, planning and control, project analysis, logistics and distribution, queuing systems.

680. Engineering Technology Seminar. 1-6 hrs. Presentation of engineering technology industrial applications, practices, and problem solutions. May be repeated for a total of 6 hrs.

691. Research. 1-6 hrs. Investigation of current research and literature in engineering technology; development of writing skills; a thesis/prospectus must be orally defended. A maximum of 3 hrs. can be applied toward a degree in engineering technology.

692. Topics in Engineering Technology. 1-6 hrs. Investigation of specific topics related to engineering technology. May be repeated for a total of 6 hrs.

697. Independent Study and Research. 1-12 hrs. arranged. Not to be counted as credit toward degree. Students actively working on a thesis or project, consulting with major professor, or using university resources and who are not in residence and are not enrolled in at least 3 hours. of thesis or project credit must enroll in this course for at least 3 hrs. each semester.

698. Thesis. 1-6 hrs. for a total of 6 hours. Credit deferred until thesis is complete.

699. Project. 1-3 hrs. for a total of 3 hours. Credit deferred until project is complete.

**English (ENG)**

501. Advanced Grammar. 3 hrs. Introduces structural and transformational grammar.

503. Introduction to Linguistics. 3 hrs. Introduces the principles of descriptive linguistics.
244 | Course Descriptions

506. History of the English Language. 3 hrs. Surveys the development of the English language from Old English to the present.

511. Studies in Postcolonial Literature. 3 hrs. Examines postcolonial literature from the 19th century to the present.

513. Survey of the Modern Novel. 3 hrs. Examines major British and Continental novels of the last 100 years.

515. Survey of Modern Poetry. 3 hrs. Acquaints students with the work of the significant modern poets, as well as the modern period's important poetic innovations and movements.

517. Survey of Modern Drama. 3 hrs. Surveys important British and Continental dramas of the 20th century.

518. Literature for the Adolescent. 3 hrs. Study of literature and pedagogical theory for use with secondary school students.

519. Studies in World Literature. 3 hrs. Focuses on Continental, British, and American writers of the 19th and 20th centuries. Repeatable to 9 hours.

521. Fiction Writing III. 3 hrs. Prerequisites: Graduate standing, permission of instructor, and enrollment in Center for Writers. Provides an opportunity to develop techniques of fiction writing. Repeatable to 9 hours.

522. Poetry Writing III. 3 hrs. Prerequisites: Graduate standing, permission of instructor, and enrollment in Center for Writers. Provides an opportunity to develop techniques of poetry writing. Repeatable to 9 hours.

523. Creative Nonfiction Writing. 3 hrs. Workshop in writing nonfiction prose: personal essay, reviews, opinion.

525. Readings in the Theory of Fiction. 3 hrs. Examines theories and forms of contemporary fiction. Repeatable to 6 hours.

526. Readings in the Theory of Poetry. 3 hrs. Examines theories and forms of contemporary poetry. Repeatable to 6 hours.

540. Literary Criticism. 3 hrs. Provides a historical approach to the study of literary criticism from the classical period to the present. Emphasis will be on major texts and major critics.

551. Chaucer. 3 hrs. Emphasizes a close reading of The Canterbury Tales.

552. Arthurian Literature. 3 hrs. Surveys the literature treating the legend of King Arthur.

554. Survey of Shakespeare. 3 hrs. Studies a selected group of Shakespeare’s work, including plays of several genres.

555. Studies in Shakespeare. 3 hrs. Studies a selected group of Shakespeare's work according to genre, theme, or special topic.

556. Survey of 16th-Century British Literature. 3 hrs. Studies the more important British writers of this period.

557. Survey of the Development of British Drama to 1642. 3 hrs. Studies British drama from its beginnings to 1642, exclusive of Shakespeare.

558. Survey of the 17th-Century British Prose and Poetry. 3 hrs. Surveys British literature of the period 1600 to 1660, with emphasis on the "schools" of Donne and Jonson.

559. Milton. 3 hrs. Studies the poetry and prose of Milton with emphasis on the major works.

560. Survey of British Literature, 1640-1740. 3 hrs. Surveys British literature from the Restoration to 1740.

562. Survey of British Literature, 1740-1798. 3 hrs. Surveys British literature from 1740 to 1798.

563. Victorian Fiction Prose. 3 hrs. Survey of British fiction and nonfiction prose in the period 1830-1900.

564. Survey of the British Novel to 1900. 3 hrs. Surveys the development of British fiction from Richardson through Hardy.

566. Victorian Poetry and Drama. 3 hrs. Survey of British poetry and drama of the period 1830-1900.

568. British Women Writers. 3 hrs. Literature written by British women writers. Variable content.

569. Studies in British Literature. 3 hrs. Examines various topics in British literature. Repeatable to 9 hours.

570. Survey of the American Literary Renaissance, 1820-1870. 3 hrs. Examines the writings of Emerson, Thoreau, Hawthorne, Melville, Whitman, and others.

571. Survey of the Rise of Realism in American Literature, 1870-1920. 3 hrs. Examines American literature after the Civil War, focusing on the terms realism and naturalism.

572. Survey of American Drama. 3 hrs. Studies American drama from its beginnings to the present, with emphasis on the 20th century.

573. Studies in African-American Literature. 3 hrs. Focuses on specific genres, topics, or writers of African-American Literature.

585. Literature of the South. 3 hrs. Emphasizes the fiction, poetry, and drama of Southern writers. Repeatable to 9 hours.

593. Irish Studies. 4 hrs. A three-week course taught in Ireland as part of the Southern Miss British Studies Program. Content will vary.

596. Caribbean Studies. 3 hrs. Variable content. Lecture series under the auspices of the Center for International and Continuing Education.

611. Topics in Contemporary Literature. 3 hrs. A critical examination of a theme or themes in contemporary literature. Repeatable to 6 hours.

612. Studies in Genre. 3 hrs. Provides a focused survey of a literary genre and its critical history. Repeatable to 6 hours.

626. Readings in Poetry. 3 hrs. Studies in contemporary poetry. Repeatable to 6 hours.

627. Introduction to Publishing. 3 hrs. A practical introduction to the business of publishing, concentrating on publishing and marketing.

630. Teaching Composition. 3 hrs. Introduces students to composition pedagogy.

631. Composition Research and Scholarship. 3 hrs. Examines resources and methods for research and scholarship; emphasizes empirical, rhetorical, and historical frameworks.

632. Contemporary Composition Theory. 3 hrs. Surveys contemporary theories of composition and considers their implications for teaching writing.

640. Bibliography and Methods of Research in English. 3 hrs. Instruction in the collection, evaluation, and presentation of research materials.

644. Topics in Literary Theory. 3 hrs. A critical examination of important trends, movements, or issues in literary theory. Repeatable to 6 hours.

650. Studies in Medieval Literature. 3 hrs. Provides a focused survey of world literature from the period 500-1500. Repeatable to 6 hours.

655. Studies in Shakespeare. 3 hrs. Provides a survey of a group of Shakespeare’s plays chosen on the basis of genre, period, or theme. Repeatable to 6 hours.

658. Studies in Renaissance Literature. 3 hrs. Provides a focused survey of literary works from the 16th and 17th centuries. Repeatable to 6 hours.

661. Studies in the Restoration and 18th-Century British Literature. 3 hrs. Provides a focused survey in the literature of the restoration period through the 18th century. Repeatable to 6 hours.

663. Studies in 19th-Century British Literature. 3 hrs. Provides a focused survey of the poetry or prose of the 19th century. Repeatable to 6 hours.

669. Topics in British Literature. 3 hrs. A critical examination of important trends, movements, and issues in British literature. Repeatable to 6 hours.

671. Studies in American Literature II. 3 hrs. Provides a focused survey of selected American writers and movements since 1900. Repeatable to 6 hours.
246 | Course Descriptions

672. Topics in American Literature. 3 hrs. A critical examination of a theme or themes in American literature. Repeatable to 6 hours.

673. Topics in African-American Literature. 3 hrs. A critical examination of genres, topics, or writers of African-American literature. Repeatable to 6 hours.

674. Topics in Writing by Women. 3 hrs. A critical examination of a genre, topic, or theme in women’s literature. Repeatable to 6 hours.

676. Teaching Freshman Composition. 1 hr. Paces English 101 and 102. Provides practical models for writing assignments, teaching techniques, and classroom management for teachers of Freshman Composition. Repeatable to 4 hours. Credit hours do not count toward degree.

678. Special Problems. 3 hrs. Prerequisite: Consent of instructor. Provides the opportunity to pursue a special topic or area of interest. Repeatable to 6 hours.

680. Studies in Basic Writing. 3 hrs. Examines theoretical, historical, and cultural issues in the teaching of basic writing.

683. Advanced Methods in English. 3 hrs. Analyzes recent theories and practices in the teaching of composition, literature, and language in postelementary institutions. Repeatable to 9 hours. Credit hours do not count toward English degree.

685. Studies in Technical and Professional Writing. 3 hrs. Examines the history and theory of scientific and technical discourse as well as pedagogical applications.

687. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

688. Thesis. 1-6 hrs. for a total of 6 hours.

702. Readings in Linguistics. 3 hrs. Examines varying topics, but usually treats practical aspects of classroom problems arising from widely varying dialects in the public schools. Repeatable to 9 hours.

703. Seminar in Teaching English as a Second Language. 3 hrs. Examines the practical application of linguistic principles to second language teaching.

706. Seminar in Postcolonial Literature. 3 hrs. Examines postcolonial literature from the 19th century to the present.

708. Seminar in Fiction Writing. 3 hrs. Prerequisites: Graduate standing, permission of instructor, and enrollment in Center for Writers. Workshop in fiction writing. Repeatable to 9 hours for M.A., to 18 hours for Ph.D.

709. Seminar in Poetry Writing. 3 hrs. Prerequisites: Graduate standing, permission of instructor, and enrollment in Center for Writers. Workshop in poetry writing. Repeatable to 9 hours.

712. Seminar in Nonfiction Writing. 3 hrs. Workshop in the writing of nonfiction prose, memoir, and personal essay. Repeatable to 9 hours.

715. Seminar in Literacy Theory. 3 hrs. Considers the role of writing in current conceptions of literacy and explores literacy practices from a cultural perspective.

717. Teaching/Administrative Internship in Writing. 1-3 hrs. Prerequisite: Completion of 15 hours of coursework in rhetoric and composition and permission of instructor. Provides doctoral-level students with supervised experience in teaching writing or directing writing programs.

718. Issues in Writing Program Administration. 3 hrs. Focuses on issues and research relating to writing program administration in post-secondary institutions.

721. Seminar in Literary Criticism. 3 hrs. Examines specific issues in critical theory. Repeatable to 9 hours.

730. Anglo-Saxon. 3 hrs. Examines the Old English language and representative English literature prior to 1066.

731. Beowulf. 3 hrs. Reading Beowulf in Anglo-Saxon.

732. Middle English. 3 hrs. Presents readings in Middle English literature exclusive of Chaucer, emphasizing the language and dialects of English from 1100 to 1500.

733. Seminar in Medieval Literature. 3 hrs. Focuses on the works of a major English medieval writer or group of writers. Repeatable to 9 hours.

734. Seminar in Renaissance Literature. 3 hrs. Studies the works of a major English Renaissance writer or group of writers. Repeatable to 9 hours.
Course Descriptions  |  247

760. Seminar in 17th-Century British Literature. 3 hrs. Provides extensive study of an author, topic, or genre in 17th-century British literature. Repeatable to 9 hours.

761. Seminar in 18th-Century British Literature. 3 hrs. Provides extensive study of an author, topic, or genre in 18th-century British literature. Repeatable to 9 hours.

762. Seminar in English Romanticism. 3 hrs. Provides extensive study of selected poets and topics from the Romantic Era (1790-1830). Repeatable to 9 hours.

763. Seminar in Victorianism. 3 hrs. Provides extensive study of selected authors and topics from the Victorian Era (1830-1910). Repeatable to 9 hours.

764. Seminar in Modern British Literature. 3 hrs. Offers an examination of important modern British figures and movements. Repeatable to 9 hours.

765. Seminar in American Literature I. 3 hrs. Presents a detailed study of selected American writers and movements before 1900. Repeatable to 9 hours.

766. Seminar in American Literature II. 3 hrs. Presents a detailed study of selected American writers and movements since 1900. Repeatable to 9 hours.

767. Readings in American Literature. 3 hrs. Presents a detailed study of selected American writers and movements. Repeatable to 9 hours.

768. Seminar in African-American Literature. 3 hrs. Provides a detailed study of selected genres, topics, or writers of African-American literature. Repeatable to 9 hours.

769. Seminar in Rhetoric and Composition. 3 hrs. Provides extensive study and research in a special topic (such as Writing Assessment, Feminist Perspectives on Language and Literacy, Discourse Analysis, Cultural Studies and Composition, Composition and the Postmodern). Repeatable to 9 hours.

790. Research in English. 1-16 hrs. Prerequisite: Approval of major professor. Must be taken pass/fail. Credit hours do not count toward degree.

791. Special Problems. 1-6 hrs. Prerequisite: Permission of instructor. Provides the opportunity to pursue a special topic or area of interest. Repeatable to 6 hours.

792. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

798. Environmental Science (ESC)

501. Environmental Sampling. 4 hrs. Methods for sampling and solids, liquids, and gases for environmental testing.

505. Environmental Impact Statements. 3 hrs. Preparation of environmental impact statements (EISs) for projects with significant environmental impact.

506. Environmental Remediation. 3 hrs. Study of the environmental remediation process and methods for contaminated soils, sludges, slurries, and water systems.

531. Environmental Safety. 3 hrs. Detection and control of harmful agents in working environments, such as vapors, gases, mists, radiation, and sound.

531L. Environmental Safety Laboratory. 1 hr.

550. Pollution Control. 3 hrs. Study of pollution, its origin and effects, and methods of pollution abatement. Emphasis on control mechanisms, industrial control equipment, operations, and regulations.

692. Special Problems. 1-6 hrs. Prerequisite: Graduate standing or permission of instructor. Topics and content related to current research and practice in environmental science.

692. Special Problems. 1-6 hrs. Prerequisite: Graduate standing or permission of instructor. Topics and content related to current research and practice in environmental science.

Family and Consumer Sciences (FCS)

501. Family Life Education. 3 hrs. General philosophy and broad principles of family life education with emphasis on planning, implementing, and evaluating such educational programs.

504. Consumer Economics. 3 hrs. Study of how consumers, business, and government interact in the exchange of goods and services in the marketplace.
509. Occupational Family and Consumer Sciences. 3 hrs. Developing and evaluating teaching units for family and consumer sciences-related occupational programs.

605. Supervision of Family and Consumer Sciences Education. 3 hrs. Practices and procedures in the supervision of vocational family and consumer sciences.

606. Selected Topics in Family and Consumer Sciences Education. 3 hrs. (may be repeated once) Prerequisite: Corresponding subject matter course. The development and application of units of work in selected areas in the secondary school program.

611. Evaluation in Family and Consumer Sciences. 3 hrs. Theory and practice of systematic evaluation of components of family and consumer sciences programs, including occupational family and consumer sciences.

612. Field Experience in Family and Consumer Sciences-Related Occupations. 6 hrs. Supervised work experience in approved family and consumer sciences occupations. Can only be counted toward occupational certification.

615. Methods, Materials, and Information Technology in Family and Consumer Sciences. 3 hrs. Emphasis on new developments in teaching family and consumer sciences, including computer technology.

630. Dimensions of Learning in Family and Consumer Sciences Education I. 3 hrs. The first of a two-semester course sequence providing a broad introduction to the concepts, contexts, and practices of teaching, as well as specific instruction in secondary family and consumer sciences methods. Enrollment is restricted to students admitted to the master of arts in teaching (MAT) degree program. This course includes a clinical supervision component.

631. Dimensions of Learning in Family and Consumer Sciences Education II. 3 hrs. Prerequisite: FCS 630. The second of a two-semester course sequence providing a broad introduction to the concepts, contexts, and practices of teaching, as well as specific instruction in secondary family and consumer sciences methods. Enrollment is restricted to students admitted to the master of arts in teaching (MAT) degree program. This course includes a clinical supervision component.

691. Research. 1-4 hrs.

692. Special Problems in Family and Consumer Sciences Education. 1-4 hrs.

697. Independent Study and Research. 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

Family Studies (FAM)

550. Sexuality in the Family. 3 hrs. Research and theory on the impact of family life cycle changes on sexuality, intimacy, and gender needs and the application of this for the helping professional.

551. Marriage Adjustment: Communication and Conflict. 3 hrs. Mate selection, marital adjustment, divorce, and remarriage are examined. Emphasis will be on communication, power struggles, and problem solving in relation to cybernetics theory.

553. The Family in Later Life. 3 hrs. An examination of family kinship patterns in later life; relationships with spouse, adult children, and siblings.

596. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

597. Professional Collaboration for Developmental Disability Services. 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

600. Prepracticum in Marriage and Family Therapy. 3 hrs. Prerequisites: FAM 650, FAM 655, and permission of the instructor. Students are expected to gain basic clinical competencies in preparation for working with families.

615. **Gender and Culture in the Family.** 3 hrs. Designed to help students integrate theoretical, research, and developmental applications of gender and cultural issues into their understanding of the family and in the practice of systems therapy.

628. **Assessment Procedures for Young Children with Disabilities.** 3 hrs. To familiarize students with current issues, theories, and practices regarding the assessment of young children who are at risk for or have manifest disabilities.

629. **Advanced Intervention Procedures for Young Children with Disabilities.** 3 hrs. To familiarize students with current issues, theories, intervention methods, and procedures for young children who are at risk for or have manifest disabilities.

645. **Financial Problems of Families.** 3 hrs. Study of family resource utilization emphasizing methods of assisting families in effective planning.

650. **Individual and Family Life Cycle Development.** 3 hrs. Content of human interactions and the process of change in family structures over time is assessed in light of systems theory and family life cycle development theory.

651. **Parents and Children: Problem Resolution.** 3 hrs. A study of both functional and dysfunctional relationship patterns between parents and children/adolescents. Focus is on the systematic intervention process.

652. **Aging and the Family.** 3 hrs. Family-oriented problem solving and its relation to major gerontological issues such as intergenerational struggles, independence, loneliness, alternative living arrangements, etc.

654. **Special Topics in Gerontology.** 1-3 hrs. Study of current issues in the field of aging. Topics will vary. May be repeated for a maximum of 9 hours with permission of adviser.

655. **Theories of Marriage and Family Therapy I: Survey of Major Models.** 3 hrs. A survey of the major models of family and systems theory including general systems, family systems, cybernetics, intergenerational, structural, strategic, experiential, and postmodern models.

656. **Theories of Marriage and Family Therapy II: Evidence-Based Treatment.** 3 hrs. A survey of treatment approaches with demonstrated effectiveness based on empirically validated research.

658. **Seminar in Family Relations.** 3 hrs. (may be repeated for a total of 6 hrs.) Current topics, trends, and issues which concern and affect families.

659. **Ethics and Professional Issues in Marriage and Family Therapy.** 3 hr. A consideration of the ethical foundations for the professional practice of marriage and family therapy. The American Association of Marriage and Family Therapy (AAMFT) Code of Ethics serves as a guide for the study of legal and personal roles and personal responsibilities in therapy, research, and professional development.

660. **Assessment in Marriage and Family Therapy.** 3 hrs. Assessment of dysfunctional relationship patterns using appropriate major mental health assessment instruments and structured techniques designed for systemic intervention.

663. **Professional Practice of Marriage and Family Therapy.** 3 hrs. A survey of non-normative family experiences as well as current trends in marriage and family therapy.

665. **Sex Therapy.** 3 hrs. Sexual development and attitudes towards sex are explored. Physical, psychological, emotional, and systemic processes in chronic sexual problems and specific intervention strategies are examined.

675. **Practice of Family Research.** 3 hrs. Provides conceptual background and application of research methods for the social disciplines.

688. **Medical Aspects of Developmental Disabilities.** 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

690. **Practicum in Family and Consumer Studies.** 3-9 hrs. Prerequisite: FCS 401 or 501 and permission of instructor. Supervised experiences in family and consumer studies.

691. **Research in Family and Consumer Studies.** 1-16 hrs.

692. **Special Problems in Family Relations.** 1-4 hrs.

697. **Independent Study and Research.** 1-9 hrs. arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. **Thesis.** 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

790. **Supervised Practicum in Marriage and Family Therapy.** 1-6 hrs. Prerequisites: FAM 656, FAM 660, FAM 600, and permission of the clinical faculty. Supervised clinical training with couples and families. May be repeated.

794. **Marriage and Family Supervision.** 3 hrs. Prerequisite: Permission of instructor. Major models of marriage and family therapy and supervision are examined.
Finance (FIN)

570. Managerial Finance. 3 hrs. Prerequisites: Computer literacy, MBA 511. A study of financial analysis in managerial decision making. See also MBA 570.

598. International Financial Seminar Abroad. 3 hrs. Prerequisite: Consent of program director. Conducted in London, England; a series of lectures and discussions involving authorities on international financial issues and practices.

640. Money and Capital Markets. 3 hrs. Prerequisite: FIN 300. Study of the operations of financial markets and financial institutions and their role in the economy.

652. Problems in Investment. 3 hrs. Prerequisite: FIN 300. Application of tested and experimental theories by investment managers to problems of short- and long-term decision making.

692. Special Problems in Finance. 1-6 hrs. Prerequisite: Consent of department chair. A supervised course in individual study and research.

699. International Finance Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international finance offered for students enrolled in FIN 598.

Foreign Languages (FL)

561. Teaching Second Languages: Theory into Practice. 3 hrs. Prerequisite: Consent of instructor. Familiarizes students with the major aspects of foreign/second language teaching theory and with the variety of instructional approaches and techniques pertinent to the foreign/second language teaching and learning situation.

562. Translation. 3 hrs. Prerequisite: Consent of instructor.

581. Advanced Credit for Study Abroad. 3-9 hrs. arr. Prerequisites: Advanced knowledge of the language to be studied; prior arrangements must be made for the evaluation and receipt of credit. Credit will be granted for systematic study of the language and culture or the language and literature of a foreign area. Study must be under the direction of a recognized teaching institution approved in advance by the Department of Foreign Languages and Literatures. The department will examine and grade the progress and achievement of the participants in this program before granting credit.

663. Applied Linguistics in Second and Foreign Languages. 3 hrs. Prerequisite: Consent of instructor. Study of fundamental aspects of linguistics with an emphasis on application to second and foreign language learning and instruction.

664. Second Language Acquisition Theory and Practice. 3 hrs. Prerequisite: Consent of instructor. Current trends in second language acquisition theory and research. Students will develop an awareness of how SLA theory and research apply to their specific second or foreign language learning and teaching practice.

665. Sociocultural and Sociolinguistic Perspectives in Language Teaching. 3 hrs. Prerequisite: Consent of instructor. Provides students with the knowledge of the relationship between language and its social context, with an emphasis on the application of that knowledge to an understanding of second and foreign language acquisition and to the instruction of second and foreign language learners.

690. Foreign Language Teaching Seminar. 1 hr. Ongoing supervision and professional development for TAs and adjuncts in the Department of Foreign Languages and Literatures. May be repeated for a total of 4 hours.

691. Research. 1-9 hrs. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.

692. Special Problems. 1-9 hrs. by prior arrangement only.

694. Practicum in Second or Foreign Language. 3 hrs. Prerequisite: FL 561. Provides students with opportunities to gain language teaching experience, to enhance their teaching skills, and to reflect on the nature and processes of second or foreign language teaching. These objectives will be reached through reflection, observation, and hands-on experience.

697. Independent Study. 1-9 hrs.

French (FRE)

501. French Reading for Research I. 3 hrs. Beginning study of fundamental structures and vocabulary to facilitate reading in French for research. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.

502. French Reading for Research II. 3 hrs. Prerequisite: FRE 501. A continuation of the study of language structures and vocabulary begun in French 501. Readings from a variety of disciplines will be examined. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.
505. **French Phonology.** 3 hrs. An introduction to French phonemics and phonetics with intensive practice in the pronunciation of French.

506. **Advanced Composition.** 3 hrs. Practice in descriptive, narrative, analytical, and research composition, with attention to style, vocabulary, and morphology, as well as methods of organization and presentation.

511. **Advanced Conversation.** 3 hrs. Prerequisite: Advanced knowledge of French. Intensive practice in formal and informal language use on topics drawn from print and electronic media.

531. **French Film.** 1-3 hrs. Prerequisite: Consent of instructor. Study of literary and linguistic aspects of French films.

534. **France in the Fifth Republic.** 3 hrs. Prerequisite: Consent of instructor. Contemporary French education, politics, social and intellectual attitudes, and urban and rural life.

535. **Modern France.** 3 hrs. Prerequisite: Consent of instructor. Overview of the period of French history from 1870 to 1970, including topics such as the formation of the Third Republic, the foundation of French Socialism, Modernism in art and literature, and colonial and postcolonial upheaval. May be repeated once.

536. **Francophone Civilization and Culture.** 3 hrs. Studies in the history, art, beliefs, behaviors, and values of French-speaking cultures. Topics will vary. May be repeated once.

537. **Topics in French Culture.** 3 hrs. Prerequisite: Consent of instructor. Variable topics in the study of French culture. May be repeated as content varies.

542. **Survey of French Literature.** 3 hrs. Prerequisite: Consent of instructor. May be taken for a total of 6 hours if contents vary.

545. **Topics in French Literature.** 3 hrs. May be taken for a total of 6 hours if topics vary.

461. **French Seminar.** 3 hrs. May be taken for a total of 9 hours.

692. **Special Problems in the Teaching of French.** 1-3 hrs. by prior arrangement only. May be repeated as content varies.

**German (GER)**

501. **German Reading for Research I.** 3 hrs. Beginning study of fundamental structures and vocabulary to facilitate reading in German for research. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.

502. **German Reading for Research II.** 3 hrs. Prerequisite: GER 501. A continuation of the study of language structures and vocabulary begun in German 501. Readings from a variety of disciplines will be examined. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.

505. **German Diction and Phonetics.** 3 hrs. Prerequisite: Consent of instructor.

506. **Advanced Grammar.** 3 hrs. Advanced study of German grammar; reading and stylistic analysis.

581. **Advanced Credit for Study Abroad.** 1-9 hrs. arr. Prerequisite: Advanced knowledge of German; prior arrangements must be made for the evaluation and receipt of credit. Credit will be granted for systematic study of the language and culture or the language and literature of a foreign area. Study must be under the direction of a recognized teaching institution approved in advance by the Department of Foreign Languages and Literatures. The department will examine and grade the progress and achievement of the participants in this program before granting credit.

591. **Advanced Studies in the German Language.** 3 hrs. Prerequisite: Consent of instructor. Content varies in response to students’ interests and needs. May be repeated once.

645. **German Seminar.** 3 hrs. May be taken for a total of 9 hours.

**Greek (GRK)**

545. **Reading in Greek Literature.** 3 hrs.

**Italian (ITA)**

581. **Advanced Credit for Study Abroad.** 3 hrs. Prerequisite: Advanced knowledge of Italian; prior arrangements must be made for the evaluation and receipt of credit. Credit will be granted for systematic study of the language and culture or the language and literature of a foreign area. Study must be under the direction of a recognized teaching institution approved in advance by the Department of Foreign Languages and Literatures. The department will examine and grade the progress and achievement of the participants in this program before granting credit.
Latin (LAT)

545. Reading in Latin Literature. 3 hrs. Prerequisite: Consent of instructor. May be taken for a total of 9 hours if topic varies.

Spanish (SPA)

501. Spanish Reading for Research I. 3 hrs. Beginning study of fundamental structures and vocabulary to facilitate reading in Spanish for research. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.

502. Spanish Reading for Research II. 3 hrs. Prerequisite: SPA 501. A continuation of the study of language structures and vocabulary begun in Spanish 501. Readings from a variety of disciplines will be examined. Credit hours may not count towards a degree in the Department of Foreign Languages and Literatures.

505. Spanish Phonetics. 3 hrs. Prerequisite: Consent of instructor. A contrastive study of the phonetic systems of English and Spanish with emphasis in production of speech sounds, correction of exercises in pronunciation, and problems in learning the sound system of a second language.

506. Advanced Composition and Grammar. 3 hrs. Prerequisite: Consent of instructor. Understanding of the grammatical concepts, forms and practice in descriptive, narrative, analytical, and research composition with attention to grammar and style, as well as methods of organization.

511. The Spanish Subjunctive. 3 hrs. Prerequisite: Consent of instructor. Understanding the mode of the subjunctive inner world. Discussion, comparison between the indicative and subjunctive moods and learning problems.

521. Advanced Conversation. 3 hrs. Prerequisite: SPA 421, equivalent, or consent of instructor. Development of oral skills and strategies through intensive practice in speaking and listening comprehension, using the ACTFL Oral Proficiency Guidelines, teaching as well as extensive research in Oral Language Proficiency.

533. Hispanic Film. 3 hrs. Prerequisite: Consent of instructor. Overview of Spanish and Spanish-American cinema. Discussions will emphasize cultural, sociohistorical, and pedagogical issues.

535. Spanish Culture and Civilization. 3 hrs. Prerequisite: Consent of instructor. Examines sociopolitical, cultural history, and construction of social values in the Spanish society as well as forms of regional, national, and gender identity.

536. Latin American Culture and Civilization. 3 hrs. Prerequisite: Consent of instructor. A chronological survey of Hispanic civilization and institutions.

542. Survey of Spanish Literature. 3 hrs. Prerequisite: Consent of instructor. May be taken for a total of 6 hours if topics vary.

545. Topics in Spanish Literature. 3 hrs. Prerequisite: Consent of instructor. May be taken for a total of 6 hours if topics vary.

546. Don Quijote. 3 hrs. Prerequisite: Consent of instructor. A study of the Cervantes novel, of its historical and literary background, and of the principal critical materials.

552. Topics in Latin American Literature. 3 hrs. Prerequisite: Consent of instructor. May be taken for a total of 6 hours if topics vary.

581. Advanced Credit for Study Abroad. 1-9 hrs. Prerequisite: Advanced knowledge of Spanish; prior arrangements for evaluation and receipt of credit. Credit will be granted for systematic study of the language and culture or the language and literature of an Hispanic area. Study must be under the direction of a recognized teaching institution approved in advance by the Department of Foreign Languages and Literatures. The department will examine and grade the progress and achievement of the participants in this program before granting credit.

591. Advanced Studies in the Spanish Language. 3 hrs. Prerequisite: Consent of instructor. Content varies in response to students’ interests and needs. Topics include syntax, lexicography, and etymology. May be repeated once.

609. Old Spanish. 3 hrs. Prerequisite: Consent of instructor.

609. Spanish Lexical Problems. 3 hrs. Prerequisite: Consent of instructor. A study of correct vocabulary usage, with composition practice.

612. Spanish Pedagogical Grammar. 3 hrs. Prerequisite: Consent of instructor. Exploration and development of ways of teaching concepts and techniques with a view of grammar as a coherent system, its internal logic, and the strategies to use in the classroom.

641. Spanish Seminar. 3 hrs. Prerequisite: Consent of instructor. May be taken for a total of 9 hours.

661. Spanish Reading. 3 hrs. Prerequisite: Consent of instructor. Development of reading skills and of suitable reading materials for the Spanish classroom.

685. Teaching Spanish for Special Purposes. 3 hrs. Prerequisite: Consent of instructor. Methods and materials for teaching such groups as law enforcement, health care, and business personnel. May be taken for a total of 6 hours if topics vary.

692. Special Problems in the Teaching of Spanish. 1-3 hrs. by prior arrangement only. May be repeated as content varies.
Teaching English to Speakers of Other Languages (TSL)

612. Options in the Teaching of Grammar in ESL/EFL. 3 hrs. An introduction to approaches to the acquisition and teaching of grammar in English as a second or foreign language.

641. TESOL Seminar. 3 hrs. May be repeated as content varies. Content varies in response to students’ interests and needs.

645. Reading in ESL/EFL Instruction. 3 hrs. An introduction to current reading theory, research, and techniques relevant to the teaching of English as a second or foreign language.

692. Special Problems in TESOL. 3 hrs. by prior arrangement only. May be repeated as content varies.

Forensic Science (FSC)

530. Survey of Forensic Toxicology. 3 hrs. Toxicology as applied to forensic investigations.

540. Drug Identification. 3 hrs. Lectures, demonstrations, and discussions covering all aspects of drug identification, emphasizing those related to law enforcement.

542. Arson and Explosives. 3 hrs. Introduction to the investigation of arson and bombings.

542L. Arson and Explosives Laboratory. 1 hr.

545. Crime Scene Documentation. 2 hrs. Prerequisite: Permission of instructor. Concurrent registration in FSC 545L is required. The processing of crime scene, including crime scene photography, sketching of the crime scene, and collecting and processing evidence.

545L. Crime Scene Documentation Laboratory. 2 hrs. Concurrent registration in FSC 545 is required.

580. Seminar in Forensic Science. 3 hrs. May be repeated for credit. Designed to cover areas of significance in the field of forensic science. Topics may include medical-death investigation, vehicle fire investigation, and forensic photography.

591. Special Projects in Forensic Science. 1 hr. Individual studies in forensic science principles.

591L. Laboratory for Forensic Science. 3 hrs. Hands-on experience with true forensic science situations.

597. Field Study in Forensic Science. 3 hrs. Prerequisite: Permission of director of forensic science. Field work offering research and practice in a forensic science setting.

599. British Studies. 1-6 hrs. Variable content. Lecture series and research abroad under the auspices of the Center for International and Continuing Education.

691. Research. 1-16 hrs.

General Studies (GS)

500. Orientation to Instructional Settings. 1 hr.

Geography (GHY)

500. Geography of Mississippi. 3 hrs. Survey of physical, economic and historical geography of state; emphasis on man-environment relations and problems.

501. Geography of the United States and Canada. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

502. Geography of Middle America and the Caribbean. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

503. Geography of South America. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

504. Geography of Europe. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

505. Geography of Russia. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

506. Geography of Africa. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

507. Geography of East and South Asia. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

508. Geography of Southwest Asia. 3 hrs. A geographical analysis of the physical and human characteristics of the region.

510L. 21st-Century Cartography Laboratory. 2 hrs. Corequisite: GHY 510. Use of mapping software to design and construct effective maps and techniques for obtaining maps and geographic data from the Internet and other sources.

511. Remote Sensing and Image Interpretation. 3 hrs. Corequisite: GHY 511L. Acquisition, analysis, and interpretation of aerial photographic products, digital remotely sensed imagery, and the analytic tools in current use by the public and private sectors.
Course Descriptions

511L. Remote Sensing and Image Interpretation Laboratory, 1 hr. Corequisite: GHY 511. Application of remote sensing and image interpretation principles using manual and automated analysis tools.

512. Environmental Remote Sensing, 3 hrs. Prerequisite: GHY 511 or permission of instructor. Corequisite: GHY 512L. Advanced image processing techniques using a variety of images and computer packages. Course focus is on environmental applications and integration with other spatial analysis tools.

512L. Environmental Remote Sensing Laboratory, 1 hr. Prerequisite: GHY 511L or permission of instructor. Corequisite: GHY 512. Students are exposed to a variety of advanced image processing techniques using digital remote sensing imagery.

516L. Computer Applications in Geography Laboratory, 1 hr. Corequisite: GHY 516. Operation of computerized geographic mapping, information, simulation, and analytic systems.

517L. Geographic Information Systems Laboratory, 1 hr. Corequisite: GHY 517. Operation of computerized geographic information systems for decision-making.

519. Managing Geographic Information Systems, 1 hr. Theory and practice of managing a geographic information system.

522. Biogeography, 3 hrs. Prerequisite: Consent of instructor. Study of plant and animal distributions, and human impacts on distributions, from a geographic, geological, and biological perspective. May be taken as BSC 506.

525. Environmental Climatology, 3 hrs. Acquisition, analysis, and interpretation of meteorological and climatological data. Particular emphasis is placed on understanding climatic anomalies at a variety of time scales, as well as on human-environmental interactions.

528. Severe Storms, 3 hrs. An examination of the causes, characteristics, and destructive nature of severe weather.

535. Historical Geography of the American Landscape, 3 hrs. Examines the nature and causes of change in the human landscape of the United States.

541. Contemporary Issues in Geography Seminar, 3 hrs. Prerequisite: 18 hours credit in geography. This discussion course focuses on analysis of the geographical background to topical issues.

551. Theories of Economic Location, 3 hrs. Principles of economic location analysis with emphasis on locational decision making and investment by different types of business. Relevance to economic development and planning is stressed.

589. Caribbean Studies, 1-6 hrs. Variable content. Lecture series, field exercises, and research offered abroad under the auspices of the Center for International and Continuing Education.

598. Study Abroad, 1-6 hrs. Students gain experience of foreign environments, both cultural and physical, through structured programs offered by the Center for International and Continuing Education.

599. British Studies: Geography of the British Isles, 3-6 hrs. An overview of the human and physical geography of the British Isles. Includes field trips and directed research.

610. Seminar in Research Techniques and Presentation of Geographic Data, 1-3 hrs. Required of all geography graduate students.

612. Seminar in Geographic Information Science, 3 hrs. May be repeated up to 6 hours with change in content to include cartographic, aerial photo interpretation, remote sensing, statistical, and geographic information systems.

615. Quantitative Methods in Spatial Analysis, 3 hrs. An advanced course in statistical and other quantitative techniques applied to problems of spatial analysis.

617. Geography for Teachers, 3 hrs. Current theories, practices, and techniques used in teaching geography at the elementary and secondary levels.

623. Seminar in Environmental Climatology, 3 hrs. May be repeated up to 6 hours with change in content.
## Course Descriptions

### Landscape Ecology (624)
3 hrs. Prerequisite: Consent of instructor. Principles of landscape ecology - the effects of patterns on processes - as a framework for landscape research, analysis, and management.

### Seminar in Cultural-Historical Geography (631)
3 hrs. May be repeated up to 6 hours with change in content.

### Seminar in Economic Geography (650)
3 hrs. May be repeated up to 6 hours with change in content.

### Seminar in History and Development of Geographic Thought (680)
3 hrs.

### Internship (691)
1-9 hrs. The internship gives the students credit for practical, supervised experience in the workplace. May be repeated to a maximum of 9 hours.

### Special Problems (692)
1-6 hrs.

### Internship in Geographic Information (693)
1-6 hrs. Prerequisite: Permission of instructor. Internship in GIS, remote sensing, and cartography. May be repeated for a total of 6 hours of credit.

### Independent Study and Research (697)
Hours arr. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

### Thesis (698)
1-6 hrs. for a total of 6 hrs.

## Geology (GLY)

### Principles of Stratigraphy (501)
3 hrs. Prerequisites: GLY 304, 308, 341, or permission of instructor. A study of the character and distribution of sedimentary rock units in space and time.

### Optical Mineralogy (503)
3 hrs. Pre- or Corequisite: GLY 304. Introduction to optical mineralogy and thin section study of rocks using polarizing microscope.

### Optical Mineralogy Laboratory (503L)
1 hr. Corequisite: GLY 503.

### Sedimentology (505)
3 hrs. Study of the character of sediments and sedimentary structures in the context of depositional environments.

### Sedimentology Laboratory (505L)
1 hr. Corequisite: GLY 505.

### Fundamentals of Crystallography (506)
1 hr. Prerequisite: MAT 103. An introduction to the concepts of crystal systems, morphology, Hermann-Mauguin symbols, Bravais lattice, unit cells, Miller indices, and X-ray diffraction.

### Fundamentals of Crystallography Laboratory (506L)
1 hr. Corequisite: GLY 506.

### Principles of X-ray Diffraction (507)
1 hr. Prerequisite: GLY 301 or permission of instructor. Introduction to principles, analytical techniques, and precautions involved in X-ray diffraction instrumentation.

### Principles of X-ray Diffraction Laboratory (507L)
Corequisite: GLY 507.

### Petrography (508)
3 hrs. Prerequisites: GLY 503 and GLY 503L. Characterization of rock composition and textures, classification, and petrogenesis with use of polarizing microscope and thin sections.

### Petrography Laboratory (508L)
1 hr. Corequisite: GLY 508.

### Elements of Geochemistry (510)
3 hrs. Prerequisite: GLY 304. Chemical principles governing the formation of minerals and rocks and their reactions with the lithosphere, hydrosphere, atmosphere, and biosphere.

### Applied Groundwater Geochemistry (511)
3 hrs. Prerequisites: GLY 410/510, GLY 476/576 recommended. Design and implementation of groundwater geochemistry monitoring programs for hydrogeological site assessment.

### Applied Geophysics I (520)
3 hrs. Prerequisites: GLY 308, MAT 168, and PHY 112 or 202 or permission of instructor. Introduction to seismic methods used in hydrocarbon and mineral exploration.

### Applied Geophysics I Laboratory (520L)
1 hr. Corequisite: GLY 520.

### Applied Geophysics II (521)
3 hrs. Prerequisites: GLY 308, MAT 168, and PHY 112 or 202 or permission of instructor. Introduction to gravity, magnetic, and electrical methods used in hydrocarbon and mineral exploration.

### Applied Geophysics II Laboratory (521L)
1 hr. Corequisite: GLY 521.

### Geophysical Well-Logging (522)
3 hrs. Prerequisites: GLY 101, MAT 103, and PHY 112 or 202. Pre- or Corequisite: GLY 505. Principles of obtaining data from bore hole instruments, and geological interpretation of data.

### Geophysical Well-Logging Laboratory (522L)
1 hr. Must be taken concurrently with GLY 522.

### Geological Remote Sensing and GIS (523)
256 Course Descriptions

530L. Principles of Geology for Science Teachers Laboratory. 1 hr. Must be taken concurrently with GLY 530.

543. Calcareous Micropaleontology. 3 hrs. Prerequisite: GLY 341. Taxonomy, morphology, and stratigraphic use of calcareous microfossils.

543L. Calcareous Micropaleontology Laboratory. 1 hr. Corequisite: GLY 543.

544. Siliceous Micropaleontology. 3 hrs. Prerequisite: GLY 341. Taxonomy, morphology, and stratigraphic use of siliceous and organic-walled microfossils.

544L. Siliceous Micropaleontology Laboratory. 1 hr. Corequisite: GLY 544.

550. Geological Marine Science. 3 hrs. Pre- or Corequisite: GLY 505 or permission of instructor. Study of the formation and deformation of the oceanic crust and the distribution and character of marine sediments.

550L. Geological Marine Science Laboratory. 1 hr. Corequisite: GLY 550. Examination and interpretation of marine geological samples and data.

565. Engineering Geology. 3 hrs. The integration of geologic and engineering principles and their application in the evaluation and utilization of earth resources and the mitigation of natural and human-induced hazards.

570. Petroleum Geology. 3 hrs. Pre- or Corequisite: GLY 401 or permission of instructor. The origin, occurrence, and accumulation of oil and natural gas.

570L. Petroleum Geology Laboratory. 1 hr. Corequisite: GLY 570.

574. Geological Excursion. 1-4 hrs. Field studies of geological phenomena in areas remote from the campus.

576. Hydrology. 3 hrs. An introduction to the origin, distribution, movement, and properties of the waters of the earth.

600. Paleoclimatology. 3 hrs. Past climatic conditions based on the rock, mineral, and biologic record.

601. Pleistocene Geology. 3 hrs. Earth history of the Pleistocene epoch, with emphasis on glacial phenomena.

603. Sedimentary Environments. 3 hrs. Comparison of modern environments of sedimentation with the evidence regarding paleoenvironments.

604. Tectonics. 3 hrs. Investigation of large-scale crustal deformation.

607. Sedimentary Petrology. 3 hrs. Prerequisite: GLY 403/503, 405/505, or permission of instructor. Origin, classification, composition and geochemistry of sedimentary rocks.

607L. Sedimentary Petrology Laboratory. 1 hr. Corequisite: GLY 607.

608. Gulf Coast Geology. 3 hrs. Stratigraphy, structural geology, and mineral resources of the Gulf Coastal Province of the United States.

612. Isotope Geology. 3 hrs. Theory and application of geochronology and the use of isotopes as tracers of geological processes.

615. Clay Mineralogy. 3 hrs. Origin, structure, and chemistry of clays, identification techniques, clay-water systems, soil formation, and engineering applications.

615L. Clay Mineralogy Laboratory. 1 hr. Corequisite: GLY 615.

641. Paleocology. 3 hrs. Prerequisite: GLY 341 or equivalent. A study of the relationship between ancient organisms and the environment in which they lived; field trips.

677. Advanced Groundwater Hydrology. 3 hrs. The advanced study of groundwater flow and seepage, well hydraulics, water quality, groundwater management, modeling techniques, and exploration methods pertaining to water resource investigations.

689. Seminar. 1 hr. Prerequisite: Permission of instructor. May be repeated once for a total of 2 hours credit.

691. Research in Geology. 1-16 hrs. Prerequisite: Approval of major instructor.

692. Special Problems in Geology. 1-3 hrs. Prerequisite: Approval of chair. Investigation of a specific problem not related to thesis research.

697. Independent Study and Research. Hours arr. Not to be counted as credit toward a degree. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs.
History (HIS)

501. Themes in the Non-Western World. 3 hrs. An analysis of economic, political, social, and cultural issues that have shaped relations between the Western and non-Western worlds.

503. Africa, History and Cinema. 3 hrs. This course will examine major themes in modern African history via texts and motion pictures.

504. History and Cinema. 3 hrs. This course will provide a multidimensional examination of the relations between the discipline of history, or more precisely the production of historical narratives and interpretations, and cinema.

506. Modern China. Survey of the historical processes that have transformed China into a modern Marxist society.

509. United States Relations with East Asia. An exploration of the dynamic interactions between the United States and Asia over the past 200 years.

510. History of Mexico and the Caribbean. 3 hrs. An analysis of the cultural, economic, political, and social features of Mexican history during the 19th and 20th centuries.

512. History of Brazil. 3 hrs. An examination of Brazilian history, with particular emphasis on the period since independence.

513. The United States and Latin America. 3 hrs. A detailed discussion of the relationship between the societies and governments of the United States and Latin America.

514. Social Revolutions and Violence in Modern Latin America. 3 hrs. Course will examine the leaders, causes, participants, and course of Latin American revolutions, as well as the broad consequences in the political, social, and economic realms.

515. World War I. 3 hrs. An exploration of the causes, conduct, and consequences of World War I.

516. World War II. 3 hrs. A study of causes, conduct, and consequences of World War II.

517. Vietnam War. 3 hrs. Discussion of military, social, political, and cultural consequences of the war.

520. Exploration and Discovery. 3 hrs. Examination of factors contributing to European exploration from the Renaissance to the 19th century.

522. The History of Medicine. 3 hrs. To provide students with an understanding of the ideas, practices, and institutions in the treatment of disease and the maintenance of health from ancient times to the present.

526. Renaissance Europe. 3 hrs. This course will examine the social, political, and intellectual changes emerging in Europe after the Black Death.

527. Reformation Europe. 3 hrs. This course will examine the setting, events, and implications of the religious Reformation in European history.

529. The Age of the Enlightenment. 3 hrs. A survey of the political, social, and cultural history of Europe from the Age of Absolutism to the French Revolution.

530. French Revolution and Napoleon. 3 hrs. A study of Revolutionary and Napoleonic France and its impact on Europe.

531. Europe 1815-1870. 3 hrs. A survey of early 19th-century Europe, with emphasis on nationalism and the quest for reform.

532. Europe 1870-1914. 3 hrs. A survey of late 19th- and early 20th-century Europe with emphasis on the growth of democracy, the expansion of empires, and the origins of World War I.

533. Europe 1914-1939. 3 hrs.

534. Europe since 1945. 3 hrs. A survey of European history since the end of World War II, covering such key developments as economic reconstruction, the Cold War, NATO, and the Common Market.

537. War in Premodern Europe. 3 hrs. Introduction to warfare in Ancient and Medieval Europe, exploring military technology, tactics, and the effects of war on society.

541. History of Nationalism. 3 hrs. This course is intended to give students a closer awareness and understanding of nationalism in the history of the 19th and 20th centuries.

543. Revolution, Reaction, and Fascism in Southern Europe. 3 hrs. A political, social, and cultural history of Spain, Italy, and Portugal during the 19th and 20th centuries.

544. Intellectual and Cultural History of Modern Europe. 3 hrs. Philosophy, social thought, and the arts from the Enlightenment to the present.

546. Tudor-Stuart Britain. 3 hrs.
<table>
<thead>
<tr>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>547. Social History of Victorian Britain.</strong> 3 hrs. This course explores the changing social conditions during the 70-year period of the Victorian era, including Victorian values, the position of women and children, popular protest, and trade unionism.</td>
</tr>
<tr>
<td><strong>548. Holocaust and Jews.</strong> 3 hrs. Presents a detailed picture of the Holocaust, its antecedents and aftermath, its meanings and its interpretations.</td>
</tr>
<tr>
<td><strong>549. History of Modern Spain.</strong> 3 hrs. Survey of the political, social, religious, and national history of Spain since the 18th century.</td>
</tr>
<tr>
<td><strong>551. Imperial France and Its Overseas Cultures.</strong> 3 hrs. Focuses on the colonial relationships between France and various areas of the world, with a particular emphasis on Africa, in order to understand their impact on France and on the related countries.</td>
</tr>
<tr>
<td><strong>553. Environmental History of the South.</strong> 3 hrs. This course examines the interaction of humans and nature in the American South from pre-European arrival to today.</td>
</tr>
<tr>
<td><strong>554. France, 1815-Present.</strong> 3 hrs. A survey of French history after Napoleon emphasizing the evolution of political and social structures.</td>
</tr>
<tr>
<td><strong>555. History of the German Lands since 1815.</strong> 3 hrs. This course covers the broad lines of political and social development in the German-speaking regions from the early 19th century to reunification in 1990.</td>
</tr>
<tr>
<td><strong>556. Nazi Germany.</strong> 3 hrs. A study of the political, diplomatic, economic, and social developments in Germany from 1919 through 1945.</td>
</tr>
<tr>
<td><strong>559. Eastern Europe in the 20th Century.</strong> 3 hrs. This course introduces students to the diversity of social, political, and cultural experience in the regions of East-Central Europe.</td>
</tr>
<tr>
<td><strong>561. The American Revolution.</strong> 3 hrs. A discussion course concerning the dispute between Great Britain and its American colonies, which led to the development of a new nation.</td>
</tr>
<tr>
<td><strong>562. The Emergence of American Democracy.</strong> 3 hrs. A study of political, social, and cultural changes in the United States from 1789 to 1848.</td>
</tr>
<tr>
<td><strong>563. The Sectional Controversy and the Civil War, 1848-1877.</strong> 3 hrs. An examination of sectional conflict, Civil War, and Reconstruction, with primary emphasis on political and military history.</td>
</tr>
<tr>
<td><strong>564. The Origins of Modern America, 1877-1919.</strong> 3 hrs. A survey of political, economic, diplomatic, and social developments in the United States from the close of the Civil War through the end of World War I.</td>
</tr>
<tr>
<td><strong>565. Twentieth-Century America, 1919-1945.</strong> 3 hrs. A detailed examination of the social, intellectual, political, and economic history of the interwar years.</td>
</tr>
<tr>
<td><strong>566. Our Times.</strong> 3 hrs. A detailed examination of social, intellectual, political, diplomatic, and economic history since World War II.</td>
</tr>
<tr>
<td><strong>567. The Colonial South.</strong> 3 hrs. Explores the interaction of Indian, European, and African people in the colonial South from about 1500 to 1800.</td>
</tr>
<tr>
<td><strong>568. The Old South.</strong> 3 hrs. The social, economic, and cultural history of the antebellum South, with particular emphasis on the plantation system and slavery.</td>
</tr>
<tr>
<td><strong>569. The New South.</strong> 3 hrs. An analysis of the peculiarities of the South’s social, economic, political, and intellectual development from 1877 to the present. Emphasis is placed on those factors making the South distinctive in American history.</td>
</tr>
<tr>
<td><strong>571. The American Frontier.</strong> 3 hrs. Examines the significance of frontier types west of the Mississippi, including explorers, mountain men, cowboys, farmers, miners, railroaders, and Indians.</td>
</tr>
<tr>
<td><strong>572. American Environmental History.</strong> 3 hrs. Examine the interaction of humans and nature in American history. The approach will be roughly chronological, with emphasis on selected issues, events, and persons.</td>
</tr>
<tr>
<td><strong>574. History of American Indians.</strong> 3 hrs. A survey of Native Americans from the period of European intrusion to the present.</td>
</tr>
</tbody>
</table>
575. The Ethnohistory of Southeastern Indians: Pre-Contact through the 20th-Century. 3 hrs. This course focuses on the Native Southeast, a distinctive culture area characterized traditionally by horticulture, chiefdoms, matrilineal kinship, and temple mounds.

576. Intellectual and Cultural History of the United States. 3 hrs. A survey of philosophy, social thought, and cultural developments from the 17th-century to the present.

577. Women in American Society. 3 hrs. A survey of the experience of American women from the colonial period to the present, with emphasis on the evolution of woman’s role in society in response to changing economic and social conditions.

578. Studies in Civil Rights. 3 hrs. Prerequisite: HIS 340 or permission of instructor. Intensive study (readings, discussion, research) of 20th-century African-American protest leadership and the freedom struggle.

579. Studies in United States History. 3 hrs. May be repeated for a total of 9 hours. Examines various topics in American history. Content of course may vary.

580. Topics in African History. 3 hrs. An examination of various topics in African history. The course may be repeated for up to 6 credit hours.

581. Topics in Early Modern European History. 3 hrs. This course will examine various topics in late medieval and early modern European history.

582. Studies in European History. 3 hrs. May be repeated for a total of 9 hrs.

583. Studies in South American History. 3 hrs. May be repeated for a total of 6 hours.

584. Topics in Mexican History. 3 hrs. Course offered in Mexico as part of the university’s study-abroad offerings.

585. Austrian Studies. 3-6 hrs. Variable topics in central European history. Offered abroad under the auspices of the Center for International and Continuing Education. No more than 3 hours to be counted as credit toward degree.

586. Topics in Modern French History. 3 hrs. Themes in French history, 18th-20th century.

587. Asian Cultures and Histories. 3 hrs. An introduction to traditional cultures and societies of East Asia.

588. British Studies: Seminar in European Studies. 3-6 hrs. Lecture series and research in European studies offered abroad under the auspices of the Center for International and Continuing Education. No more than 3 hours to be counted as credit toward degree.

605. Presenting Heritage I. 3 hrs. The first of a two-part seminar (with 606) on public history, folklore, and anthropology. It emphasizes theory and method in public presentation to prepare students for public sector employment.

606. Presenting Heritage II. 3 hrs. The second of a two-part seminar (with 605) on public history, folklore, and anthropology, emphasizing the development and management of public humanities programming.

695. Internship in Public History. 3 hrs. Supervised internship in a private, state, or federal facility dedicated to public history. May be repeated for 12 hours, only 6 of which may be applied to the degree.

696. Internship in Applied Historical Research. 3 hrs. A supervised internship in a private, state, or federal institution with an emphasis on historical administrative materials. May be repeated for 12 hours, only 6 of which may be applied to the degree.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 3 or 6 hrs. for a total of 6 hrs.

710. Philosophy and Methods of History. 3 hrs. Acquaints graduate students with the nature and methods of historical study. Topics include research and bibliographic techniques; topic selection and question-formation; data collection, analysis, and interpretation, including quantification.

711. Research Seminar in American History. 3 hrs. May be repeated for a total of 9 hours.

712. Research Seminar in European History. 3 hrs. May be repeated for a total of 9 hours.

720. Seminar in Modern European Historiography. 3 hrs. A course in historiography that will acquaint graduate students with influential historians and their conflicting interpretations of major historical issues.
Course Descriptions

725. Interpretations and Themes in American History to 1865. 3 hrs. Study of major historiographical trends in American history before the Civil War.

726. Interpretations and Themes in American History Since 1865. 3 hrs. Study of major historiographical trends in American history after the Civil War.

731. Seminar in Medieval History. 3 hrs. May be repeated for a total of 9 hours.

732. Seminar in British History. 3 hrs. May be repeated for a total of 9 hours.

733. Seminar in Central European History. 3 hrs. May be repeated for a total of 9 hours.

734. Seminar in Western European History. 3 hrs. May be repeated for a total of 9 hours.

735. Seminar in Early Modern European History. 3 hrs. May be repeated for a total of 9 hours.

736. Seminar in Modern Military History. 3 hrs. Discussion of themes in warfare and society from the Napoleonic era to the present.

740. Seminar in East Asian History. 3 hrs. May be repeated for a total of 9 hours.

745. Seminar in Latin American History. 3 hrs. May be repeated for a total of 9 hours.

771. Seminar in United States History to 1877. 3 hrs. May be repeated for a total of 9 hours.

772. Seminar in United States History Since 1877. 3 hrs. May be repeated for a total of 9 hours.

733. Seminar in African-American History. 3-6 hrs. as topics vary. Examination of selected topics in African-American history.

774. Seminar in American Diplomatic History. 3 hrs. May be repeated for a total of 9 hours.

775. Seminar in Southern History. 3 hrs. Variable topics in Southern history. May be repeated for a total of 9 hours.

776. Seminar in Women's History. 3 hrs. Variable topics in women's history. May be repeated for a total of 9 hours.

781. Themes and Interpretations in Latin America I. 3 hrs. Study of major themes and historiographical trends in pre-colonial and colonial Latin American history.

785. Oral History Seminar. 3 hrs. May be repeated for a total of 9 hours.

791. Research in History. 1-16 hrs. Prerequisite: Approval of major professor.

795. Development of the Professional Historian. 3 hrs. Seminar to develop skills necessary to succeed as a professional historian. Includes supervised teaching experience. May be repeated once.

796. Practicum in the Teaching of History in Colleges and Universities. 3 hrs. May be repeated for a total of 9 hours.

797. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

799. British Studies: Advanced Seminar in European Studies. 3-6 hrs. Lecture series and research in European studies offered abroad under the auspices of the Center for International and Continuing Education. No more than 3 hours to be counted as credit toward degree.

898. Dissertation. 1-12 hrs. for a total of 12 hours.

College of Health (COH)

601. College Teaching. 3 hrs. Examines issues and research related to successful college teaching. Provides supervised experience in planning and developing course materials and evaluating teaching methodology.

Hospitality Management (HM)

540. Food Service Operations Management. 3 hrs. Corequisite: HM 540L. Advanced application of systems used to manage food service operations.

540L. Food Service Operations Management Laboratory. 2 hrs. Prerequisite: HM 350, 350L. Corequisite: HM 540. Practical application of the management of food service operations.

541. Purchasing in the Hospitality Industry. 3 hrs. Prerequisite: HM 100. Principles of purchasing foods, beverages, non-food items, and equipment are examined.

542. Layout and Design. 3 hrs. Prerequisite: HM 100. Planning, designing, and layout of hospitality facilities.

545. Hospitality Financial Management. 3 hrs. Prerequisite: HM 380. Financial management techniques applied to the hospitality industry, including capital expenditure analysis, and evaluation.
582. **Hospitality Marketing.** 3 hrs. Prerequisite: HM 100. Application of marketing theories to hospitality organizations. Emphasis on marketing systems, consumer behavior, market definition, and the marketing mix.

583. **Dimensions of Tourism.** 3 hrs. Prerequisite: HM 100. To explore tourism’s supply/demand components. Emphasis on relationship between the components and functional areas of planning and marketing that manage them.

590. **International Studies in Hospitality Management.** 3 hrs. Prerequisite: HM 100 and permission of adviser. Acquaints students with visited destination’s tourism supply/demand components through field trips/meetings with industry leaders.

594. **Tourism Destination Development.** 3 hrs. Prerequisite: HM 583. Emphasis placed on nature/scope of tourism planning, planning approaches, markets, attractions, services, regional potential planning, and levels of planning.

692. **Special Problems in Hospitality Management.** 1-6 hrs. Prerequisite: Graduate standing and approval of faculty adviser. Supervised study in area not covered by available courses.

693. **Readings in Hospitality Management.** 1 hr. Prerequisite: Graduate standing and approval of faculty adviser. Recent developments in research related to the hospitality industry. May be repeated for a total of 3 hrs.

**Human Performance and Recreation (HPR)**

509. **Psychological and Sociological Aspects of Motor Performance.** 3 hrs. The analysis and study of human behavior patterns as they relate to sport-related performance.

511. **Adapted Activities and Techniques in Therapeutic Recreation.** 3 hrs. The principles and techniques for adapting recreation programs and activities to meet the needs of people with disabilities.

513. **Organization and Administration of Recreation.** 3 hrs. Designed to study the organization and administration of recreation agencies and their policies.

515. **Business Procedures for Parks and Recreation.** 3 hrs. A study of specific business procedures and administrative policies.

524. **Community Recreational Resource Services and Organizations.** 3 hrs. A study of the varied agencies which provide community recreation services and the operation of specialized recreation facilities.

533. **Advanced Management in Recreation.** 3 hrs. A study of advanced policy and procedures in recreation programs and services.

534. **Facility Design and Maintenance.** 3 hrs. The principles and applications of design and maintenance concepts as they apply to indoor and outdoor sport and recreation facilities.

536. **Park and Recreation Planning.** 3 hrs. Fundamental principles and methodologies dealing with proper identification, allocation, and use of recreational resources.

543. **Outdoor Education.** 3 hrs. A study of outdoor education, specifically its philosophy, programs, methods, and resources. Organization, programming, and conducting programs and activities in educational settings.

544. **Operational Administration of Commercial Recreation.** 3 hrs. Emphasizes appropriate management skills which are essential to the successful operation of a commercial recreational enterprise.

547. **Interpretation of Cultural and Natural Resources.** 3 hrs. The interpretive process as applied to natural and cultural resources.

550. **Procedures in Therapeutic Recreation.** 3 hrs. Prerequisite: HPR 350, or SPE 400 or 402. The study of theories guiding the delivery of therapeutic recreation services and the application of techniques in therapeutic recreation practice.

551. **Therapeutic Recreation Programming.** 3 hrs. Prerequisite: HPR 350, or SPE 400 or 402. Procedures for conducting and interpreting individual assessment, program plans, selection of interventions, and evaluation of programs.

552. **Gerontology and Therapeutic Recreation.** 3 hrs. Prerequisite: Graduate in recreation program, gerontology minor, or permission of instructor. An overview of the bio-psycho-social aspects of aging and the provision of recreation services for therapeutic recreation.

553. **Administration in Therapeutic Recreation.** 3 hrs. Prerequisite: HPR 350. Must be taken within two semesters of internship. Professional therapeutic recreation practice issues including certification, accreditation, ethics, and standards of practice, management and supervision, research and evaluation.

564. **Issues in Commercial Recreation.** 3 hrs. Insight into issues that cause problems and lead to trends for the commercial recreation service industry.
570. Development of Strength and Conditioning Programs. 3 hrs. The development and administration of strength, endurance, flexibility, speed, and agility programs.

575. Medical Aspects of Athletic Training. 3 hrs. Prerequisite: Instructor permission. Team physician and trainer relationships. Physical examination, emergency equipment, medical terminology, and problems related to the team doctor.

577. Seminar in Sports Medicine. 1-3 hrs. Prerequisite: HPR 575. A study of modern techniques used in sports medicine relevant to coaches, trainers, and team physicians.

580. Introduction to Driver Education. 3 hrs. Critical analysis of traffic accidents, attitudes, factors, essential knowledge of automobile operation, and traffic laws.

581. Traffic Safety Education. 3 hrs. An in-depth study of major traffic safety problems, including driver, pedestrian, engineering, and enforcement.

582. Laboratory Programs in Driver Education. 3 hrs. An examination of aims, objectives, and role of laboratory programs in driver education.

583. Methods of Driver and Traffic Safety Education. 3 hrs. Prerequisite: HPR 580. Concurrent enrollment in HPR 583L. Methods of teaching in driver education programs.

583L. Driver Education Laboratory. 1 hr. Concurrent enrollment in HPR 583. This course is designed to provide students with supervised practical experience in using instructional tools of driver education.

584. Simulation in Driver Education. 3 hrs. Prerequisites: HPR 580 and 583. Analysis of audiovisual instructional techniques used in driver education.

586. Innovative Programs in Driver Education. 3 hrs. New and unique teaching methods of driver and traffic safety education.

588. Motorcycle Safety Education. 3 hrs. Analysis of motorcycle traffic problems; methods of teaching classroom and laboratory phases of motorcycle education.

589. Driver Education for Special Students. 3 hrs. Curriculum development and teaching materials in traffic safety education for special education students.

597. Professional Collaboration for Developmental Disability Services. 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

598. Families of Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

599. British Studies. 3-6 hrs. Involves variable topics. Lectures and supervised research in England. Offered exclusively through the Southern Miss Center for International and Continuing Education.

601. Exercise Physiology. 3 hrs. The study of the physiological basis of muscular activity, with special attention to general effects on body functions.

602. Graded Exercise Testing. 3 hrs. Study and application of graded exercise testing safely and reproducibly so as to obtain valid and reliable data.

605. Policy and Governance in Sport. 3 hrs. The study of governing agency policy formation processes and administrative implementation in amateur and professional sport organizations.

612. Entrepreneurial Aspects in the Sport Industry. 3 hrs. Advanced principles and applications of finance and economics in the sport industry.

630. Sport Business in the Social Context. 3 hrs. Advanced study of such social issues as gender, race and ethnicity, aggression, politics, religion, and class and social mobility within the context of the sport industry.

670. Organizational Leadership in Sport Administration. 3 hrs. Special emphasis on problems of the athletic administrator and coach in organizing and directing the athletic programs and sport businesses.

674. Athletic Seminar. 3 hrs. An in-depth study and analysis of the athletic profession as it relates to trends and issues surrounding coaching and administrative decision making.

677. Legal Aspects of Sport. 3 hrs. Legal concepts and ethical issues impacting sport administration and coaching policy formation and practice.

679. Care and Treatment of Athletic Injuries. 3 hrs. Techniques and facilities for adequate prevention and treatment of athletic injuries.
680. Research Techniques. 3 hrs. Prerequisite: Graduate level statistics course or permission of instructor. Introduction to methods and design problems specific to research in human performance and recreation. Designed to promote an understanding of the theory, tools, and processes involved in designing human performance and recreation research studies.

688. Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

691. Research. 1-16 hrs. Prerequisite: Permission of school director. Topics and procedures must be approved by graduate advisory committee. For master’s level graduate students only.

694. Field Problems. 1-6 hrs. Prerequisite: Permission of instructor. Readings and guided experience dealing with problem situations in the field and related institutional settings.

696. Practicum. 1-6 hrs. Prerequisite: Permission of instructor. Designed to provide master’s level students opportunities for practical application of relevant theories in professional field settings.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. For a total of 6 hrs. Credit deferred until thesis completed.

701. Advanced Exercise Physiology I. 3 hrs. Prerequisite: HPR 601 or equivalent course. Concurrent enrollment in HPR 701L required. The study of the circulatory, respiratory, nervous, and muscular systems during and after physical activity.

701L. Advanced Exercise Physiology I Laboratory. 2 hrs. Corequisite: HPR 701. Use and care of exercise physiology laboratory equipment.

705. Motor Learning. 3 hrs. Physical and psychological variables essential to the acquisition of motor skills.

706. Cardiovascular Physiology. 3 hrs. Physiology of the heart with emphasis on normal versus abnormal conditions affecting human performance.

710. Problems and Emerging Trends in Recreation. 3 hrs. Problems and emerging trends related to recreation with emphasis on problem solving and evaluation.

711. Research and Evaluation in Recreation and Leisure. 3 hrs. Designed to develop knowledge and understanding relative to research methods most utilized in recreation.

712. Philosophical Foundations in Recreation. 3 hrs. Prevailing concepts, theories, and professional philosophies affecting recreation.

713. Special Field Studies in Recreation. 3 hrs. Encompasses the application of various theories to realistic field situations and pertinent areas of concern.

714. Ethics in the Sport Industry. 3 hrs. Advanced study of ethic history, theory, models, and application as they relate to the decision-making responsibilities of sport participants and management.

715. Advanced Sport Administration Processes. 3 hrs. Athletic promotion and fundraising, finance, economics, and marketing.

720. Administration of Human Performance Programs. 3 hrs. Personnel management, budgetary concerns, facilities management, program supervision, and other problems faced by administrators of professional preparation programs.

722. Administration of Intramural and Extramural Activities. 3 hrs. Planning and implementation of secondary-and collegiate-level recreational sport programs.

723. Advanced Methods of Teaching Physical Education. 3 hrs. Advanced teaching functions in the physical education contextual framework. Styles of teaching, reflective experience, and systematic observation techniques introduced.

725. Facilities Management in Human Performance and Recreation. 3 hrs. Prerequisite: HPR 434/534 or course equivalent. Management of instructional, recreational, and sport facilities including planning processes of facilities design and renovation, maintenance, program scheduling, special events, and funding resources.

730. Cardiac Rehabilitation. 3 hrs. Attention is given to components of myocardial infarction and cardiac rehabilitation programs.

735. Electrocardiography. 3 hrs. Prerequisite: HPR 706 or equivalent course. This course is designed to provide an understanding of resting and exercise electrocardiogram.

742. Program Design in Human Performance. 3 hrs. Fundamental principles and bases of curriculum construction for physical education programs in school and nonschool instructional settings.
Foundations and Trends in Human Performance and Recreation. 3 hrs. Historical trends and current issues surrounding the development of the subdisciplines within human performance and emerging professions.

Analysis of Teaching and Supervision in Physical Education. 3 hrs. Prerequisite: HPR 723 or instructor approval. Issues and techniques in supervision of teaching in physical education. Advanced methods in analysis of teacher/student behavior and content development.

Graduate Seminar. 1 hr. May be repeated for a total of 2 hours. Current trends and issues in human performance.

Seminar in Recreation. 3 hrs. A seminar course pertaining to selected current professional topics in all areas of recreational study.

Research. 1-16 hrs. Prerequisite: Permission of department head. Topics and procedures must be approved by graduate advisory committee. For doctoral students only.

Special Problems. 3 hrs.

Practicum. 2-6 hrs. Prerequisite: Permission of instructor. Designed to provide doctoral students with opportunities for practical applications of relevant theories in professional field settings.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Advanced Exercise Physiology II. 3 hrs. Prerequisite: HPR 701. Emphasis on systems of energy delivery and utilization, enhancement of energy capacity, and work performance. Concurrent enrollment in HPR 805L required.

Advanced Exercise Physiology II Laboratory. 2 hrs. Prerequisite: HPR 701. Corequisite: HPR 805. Application of advanced laboratory techniques in the study of human performance.

Advanced Administration of Human Performance Programs. 3 hrs. Prerequisite: HPR 720, HPR 670, or instructor permission. Analysis of leadership and supervision for effective management of collegiate human performance programs.

Nutrition and Human Performance. 3 hrs. The study of diets and dietary ingredients thought to increase physical capacity with special attention paid to ongoing research in nutrition and athletic performance.

Professional Preparation in Human Performance. 3 hrs. Prerequisite: Permission of instructor. This course is designed to develop understandings and skills in a prospective faculty member and is deemed most critical for success within HPERD professional preparation fields.

Research on Teaching Physical Education. 3 hrs. Prerequisite: HPR 745. The analysis, synthesis, and evaluation of past and present research concerning teaching effectiveness in psychomotor skill instruction.

Dissertation. 12 hrs. Credit deferred until dissertation completed.

Hydrographic Science (HYD)

Classical Geodesy. 4 hrs. Prerequisite: Permission of instructor. Introduction to determination of curvature, shape, and dimensions of the earth, and to positions of ocean bottom features and topography.

Hydrographic Data Management. 3 hrs. Prerequisite: Permission of instructor. The methods of data acquisition and control, capture, processing, and analysis applied to construction of navigational charts.

Marine Geology for Hydrographers. 1 hr. Prerequisite: Permission of instructor. Fundamental information on marine geological processes oriented towards application by hydrographers.

Law and Policy for Hydrographic Science. 1 hr. Prerequisite: Permission of instructor. The course focuses on law and ocean policy issues, in seminars and classroom discussions, which are relevant to hydrographic science.

Kinematic Positioning. 3 hrs. Prerequisite: Permission of instructor. The use of satellites in geodesy, positioning, navigation, and altimetry demonstrated through classroom lectures and practical exercises.

Applied Bathymetry. 3 hrs. Prerequisite: MAR 581 or MAR 668 or equivalent. An application of ocean acoustic and transducer principles to the methods of measuring and recording the shape of the sea bed.

Nautical Cartography and GIS. 3 hrs. Prerequisite: Permission of instructor. Skill in use of geographical information systems (GIS) is developed for application to nautical cartography.

Practical Hydrographic Science. 2 hrs. Prerequisite: HYD 601, 605, 606, and permission of instructor. Practical aspects of planning, conducting, and evaluating results of hydrographic projects.

Nautical Science. 1 hr. Prerequisite: Permission of instructor. This course will provide the student with a basic understanding of the principles of nautical science as applied to hydrographic science.

Hydrographic Science Field Project. 3 hrs. Prerequisite: HYD 601, 605, 606, and permission of instructor. Practical experience designing, conducting, and analyzing results of hydrographic field projects.
Remote Sensing for Hydrographers. 3 hrs. Prerequisite: Permission of instructor. Remote sensing principles and photogrammetry for coastline delineation, ice mapping, bathymetry, and water column and surface properties.

Water Levels. 2 hrs. Prerequisite: MAR 561 or permission of instructor. Theory and measurements of tidal and non-tidal water levels for hydrographic applications.

Math Concepts for Hydrographers. 1 hr. Prerequisite: Permission of instructor. Application of mathematical and statistical concepts for hydrographic science.

Special Topics in Hydrographic Science. 1-9 hrs. Prerequisite: Permission of instructor. Study of selected area of hydrographic science. May be repeated.

Directed Research in Hydrographic Science. 1-16 hrs. Prerequisite: Permission of instructor. Independent research conducted under the direction of a faculty member. May be repeated.

Capstone Review. 3 hrs. Prerequisite: Permission of instructor. A literature-based research project dealing with a specific problem or issue relevant to the field of hydrographic science.

Industrial Engineering Technology (IET)

Production and Inventory Control Systems. 3 hrs. Corequisite: IET 505L. Principles of production and inventory planning and control. Forecasting techniques, EOQ, MRP, production scheduling, line balancing, CPM/PERT.

Production and Inventory Control Systems. Corequisite: IET 505.

Industrial Automation. 3 hrs. Automation and its implications to industrial processes, economics, and interpersonal relations.

Personnel in Technology. 3 hrs. The procurement, development, and utilization of technical personnel.

Innovations in Technology. 3 hrs. Introduction to factors involved in technological change within an industrial operation.

Plant Layout and Material Handling. 3 hrs. Effectiveness of plant layout to the production activity involving personnel, materials, tools, and equipment.

Motion and Time Study. 3 hrs. Corequisite: IET 510L. A study of the optimization of the relationship between technology and personnel.

Motion and Time Study Laboratory. 1 hr. Corequisite: IET 510.

Design for Rapid Prototyping. 3 hrs. Prerequisite: ENT 520. Survey of applications of rapid automated prototyping, stereo-lithography systems, parametric design, and reverse engineering.

Alternate Energy Systems. 3 hrs. Study of alternative sources of energy and power.

Industrial Energy Management. 3 hrs. Technical and economic aspects of industrial energy management, energy conservation techniques, and alternate energy sources.

Manufacturing Engineering Technology Laboratory. 1 hr. Corequisite: IET 560.

Industrial Simulation and Modeling. 3 hrs. Prerequisite: CSS 240. Analysis of discrete-event systems in industry such as plant layouts, materials handling, production methods, and inventory control.

Special Problems. 1-3 hrs. Prerequisite: Senior standing and approval of adviser. Supervised study in selected areas of industrial engineering technology.

Instructional Technology (IT)

Desktop Publishing. 3 hrs. Prerequisite: Basic computer literacy or permission of instructor. Office-based microcomputer production of typeface/graphics enhanced media designed to be both pleasing in appearance and effective in communication.

Multimedia Design and Development. 3 hrs. Prerequisite: Basic computer literacy or permission of instructor. Introduction to multimedia concepts, design, and instructional applications.

Administration of Instructional Technologies. 3 hrs. Prerequisite: Basic computer literacy. Apply administrative practices and principles to implement effective instructional technology learning environments.

Foundations of Instructional Technology. 3 hrs. Prerequisite: Basic computer literacy. Survey of the historical aspects of instructional media. Application of research in the development of technology relating to libraries, classrooms, industry, and instruction.

Instructional Systems Design. 3 hrs. Prerequisite: Basic computer literacy. Translation of instructional specifications into prototype systems.
Research in Instructional Systems Technology. 3 hrs. Prerequisite: Basic computer literacy. Research in problems of formulating objectives, analyzing audiences, using media, and evaluating educational outcomes.

Advanced Hypermedia Development. 3 hrs. Prerequisite: Basic computer literacy. Survey of various instructional development models for the development, revision, or revitalization of educational programs.

Computers in Education. 3 hrs. Prerequisite: Basic computer literacy. Applications of current and emerging computer technology to instructional and administrative programs from the user's point of view.

Telecommunications in Education. 3 hrs. Prerequisite: Basic computer literacy. Examine hardware, software, implementation, and utilization of telecommunications technology as it applies to education.

Distance Learning Systems. 3 hrs. Prerequisite: IT 648. Survey of distance learning models, theoretical frameworks, historical development, and practical applications.

Web-Based Instruction. 3 hrs. Prerequisite: IT 648. Examine the World Wide Web as a means for delivering instruction. Design and develop a Web-based course.

Networks in Education. 3 hrs. Prerequisite: Basic computer literacy. Examine hardware, software, implementation, and utilization of network technology as it applies to education.

Special Problems in Instructional Technology. 3 hrs. Prerequisite: REF 601 and IT 642. Advanced individualized project relevant to the student's skill specialty. Scholarly paper and instructional on approved topic/problem.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis or capstone project, consulting with the major professor and/or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis or capstone project but who are actively working on a thesis or capstone project, consulting with the major professor and/or using other resources of the university, must enroll in this course for at least 3 hours each semester.

Thesis. 1-6 hrs. for a total of 6 hours. Prerequisites: REF 601 and IT 642. Credit deferred until thesis is completed.

Capstone Project. 3 hrs. Prerequisites: IT 636, IT 644 and IT 648. Credit deferred until capstone project is completed. Design, development, and presentation of practical instructional technology project.

Interior Design (ID)

British Housing and Interiors. 3-6 hrs. A series of lectures and tours by English authorities on interior design topics.

International Business (IB)

International Business Seminar Abroad. 3-6 hrs.

Special Problems in International Business. 1-6 hrs. Prerequisite: Permission of department chair.

International Development (IDV)

Grantsmanship for Development Research and Practice. 1-6 hrs. Provides students with the information resources and techniques for effective grant writing, to fund both research projects and development-related programs.

Special Problems. 1-6 hrs. No prerequisites.

Study Abroad. 1-6 hrs. May be repeated up to 12 hours. Field experience abroad in the study of international development issues.

International Development Theory. 1-6 hrs. May be repeated up to a total of 12 hours. The intellectual heritage and the contemporary global framework of research and practice in international development, including foundations in various disciplines and fields of study.

Research Methods in International Development. 1-6 hrs. May be repeated up to a total of 12 hours. Theory and techniques for scholarly research and practice in international development.

Statistical Methods in International Development Research. 2-6 hrs. Provides a basic foundation in statistical methods as applied in development-related research to assist students in their own research work and make them better critical consumers of development literature.

Field Research in International Development. 1-6 hrs. Prerequisite: IDV 720 or permission of instructor. May be repeated up to a total of 12 hours. Training in research methods conducted in a field setting, emphasizing international contexts.

Technologies and Techniques in International Development Research. 2-6 hrs. Provides a foundation in technologies for research in development, including remote sensing and geographic information systems, to assist students in their own research work and make them better critical consumers of development literature.

International Development Finance. 1-6 hrs. Provides a foundation of concepts and terminology in international economic and community development finance.
791. **Internship.** 1-6 hrs. May be repeated up to a total of 12 hours. Provides students with professional experience in private firms, government agencies, or nongovernmental organizations.

796. **Practicum in Higher and Professional Education.** 1-6 hrs. Provides students who have a career interest in teaching—either in higher education or in professional training—with pedagogical skills for their profession.

797. **Independent Study and Research.** 3-6 hrs. Hours arranged. Not to be counted as credit toward a degree. Students actively working on dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation, but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

850. **Seminar on Current Issues in International Development.** 1-6 hrs. Prerequisite: IDV 710 or permission of instructor. May be repeated up to a total of 12 hours. Case studies in current international development practices and leading international development research issues.

860. **Colloquium in International Development.** 1-6 hrs. May be repeated up to a total of 12 hours. Seminars involving scholars, practitioners, and student colleagues in international development.

898. **Dissertation.** 1-12 hrs. for a total of 12 hours.

**Journalism (JOU)**

505. **Problems in Newspaper Production.** 3 hrs. Practical training in the production of student newspapers and advising of staffs.

521. **Public Relations.** 3 hrs. Introduction to the professional practice of public relations, emphasizing its function and process, publics, tools and media of communications, and professional ethics.

526. **Public Relations Research.** 3 hrs. Prerequisite: JOU 421/521. Introduction to quantitative and qualitative methods of applied, basic, and evaluative research used in developing and managing public relations programs.

529. **Internship in Public Relations.** 3 hrs.

552. **Press and Society.** 3 hrs. Study of the relationship between the press and the culture and institutions of society.

555. **Media Ethics.** 3 hrs. Examination of major moral dilemmas, issues, and practices of mass media through lectures and case studies, with emphasis on moral decision making.

560. **Press Law and Ethics.** 3 hrs. Rights and constraints of the press, including libel, privacy, copyright, monopoly, contempt, regulation, and other aspects of mass media law.

570. **Newspaper Organization and Management.** 3 hrs. Study of the interrelationships of the various departments in newspaper organizations of varying circulation sizes and management techniques used to direct their activities.

580. **Seminar in Journalism.** 3 hrs. Examination of theoretical concepts in journalism and the setting for their application.

598. **British Studies in Photography.** 3-6 hrs. Lecture and research in British photography offered abroad under the auspices of the Center for International and Continuing Education.

599. **British Studies in Journalism.** 3-6 hrs. Lecture and research in British journalism offered abroad under the auspices of the Center for International and Continuing Education.

**Library and Information Science (LIS)**

+501. **Reference and Information Sources.** 3 hrs. An introduction to reference materials, services, activities and functions as well as methods for locating information.

+506. **Advanced Cataloging and Classification.** 3 hrs. Prerequisite: LIS 505. Advanced study of the principles and methods of descriptive and subject cataloging and classification with attention to nonprint materials.

+508. **School Library Media Centers.** 3 hrs. Study of the development and administration of the school library media center.
268 | Course Descriptions

+511. Collection Development and Management. 3 hrs. Philosophy and principles governing the selection and procurement of all types of library materials, including the use of selection aids and bibliographic sources for developing both print and nonprint collections.

+516. Media Utilization. 3 hrs. A survey of media resources and equipment, with an emphasis on utilization in libraries. Provides experience with equipment.

+517. Literature and Related Media for Children. 3 hrs. A survey of children’s literature, traditional and modern, and other related materials for use by and with children in grades 1-6.

+518. Literature and Related Media for Young Adults. 3 hrs. Study of adolescent literature and other related materials for use by and with young people in grades 7-12.

+525. Instruction and Assessment in Media Programs. 3 hrs. The assessment of individualized styles and models of instruction in media programs and media centers.

528. Storytelling. 3 hrs. Prerequisite: LIS 517 or 518. A study of oral tradition and folk literature, with emphasis upon selection of stories and the art and techniques of storytelling. Provides practice in storytelling.

+540. Information Ethics. 3 hrs. Introduces ethical issues specifically related to information professions and information technology.

+545. Sources of Information for a Multicultural Society. 3 hrs. Overview of the diversity of information resources available in print and other media for a multicultural society and the diversity of information utilization by that society.

+557. Computer Applications in Libraries. 3 hrs. Examine the various applications in which microcomputers are and will be utilized in different types of information centers and libraries.

+558. Internet Resources and Applications. 3 hrs. Introduce the practical and theoretical issues related to information collection, storage, access, and retrieval in a technologically oriented society, using the Internet as the underpinning for both discussion and practical exploration.

+560. System Analysis for Librarians. 3 hrs. Introduces basic concepts and methods of system analysis for library system evaluation, strategic planning, and decision making.

581. British Studies: Seminar in Children’s and Young Adult Literature. 3 hrs. Intensive study of specific topics of British interests in literature for children and adolescents.

587. British Studies: Research. 3 hrs. To provide the opportunity for in-depth research projects using the resources of metropolitan London.

+591. The Library Media Center and the School Curriculum. 3 hrs. Examines the relationship of the media center program in the school curriculum, with emphasis on the role of the media specialist.

+605. Library Management. 3 hrs. Analysis of administrative theory and principles of management in libraries.

+629. Studies in Children’s Literature. 1-3 hrs. Prerequisite: LIS 517 or 518. Advanced study and evaluation of children’s literature and publishing trends in the field.

+631. History of Libraries. 3 hrs. Development of libraries from ancient times to the present with special reference to the relationship of libraries to sociocultural, economic, and political trends.

+643. History of Children’s Literature. 3 hrs. Prerequisite: LIS 517 or 518. Traces the development of children’s literature in England and the United States to the early 20th century.

+636. Information: The Library and Society. 3 hrs. The library as a social institution, its background, and the forces that have shaped its development.

+637. Seminar in the Development of Information Transfer Devices. 3 hrs. Study of the diversity, development, and uses of information transfer devices from ancient times to the present.

+638. Contemporary Publishing. 3 hrs. Study of the history of the book and book trade from Renaissance Europe until present-day United States. Analogies between the printing and computer revolutions, and the impact of the computer on modern publishing are identified, developed, and discussed.

+640. Academic Libraries. 3 hrs. The development and administration of the academic library.

+641. Public Libraries. 3 hrs. The development and administration of the public library. Problems in public library services.
+642. Special Libraries. 3 hrs. The development and administration of the special libraries serving businesses, institutions, and government agencies.

+646. Special Collections and Archives. 3 hrs. Prerequisites: LIS 501 and 505. The acquiring, processing, servicing, and management of collections composed of rare books, manuscripts, archival papers, oral history files, and other special materials.

+647. Introduction to Archival Organization. 3 hrs. Basic instruction in handling materials of archival significance, and on the development of the archives-library relationship.

648. Archival Practicum. 2-4 hrs. Prerequisite: LIS 647. Provides an opportunity for supervised practice in special collections and archival operations.

+649. Preservation of Documentary Materials. 3 hrs. The care and preservation of documentary materials in their various formats, including techniques for conservation, preservation, and restoration.

+651. Introduction to Information Science. 3 hrs. Prerequisite: LIS 501, 505, or permission of instructor. Survey of information science as a field of study; examines the role of the library as an information transfer model and the associated implications to the profession and the future.

+653. Library and Information Database Systems. 3 hrs. Prerequisites: LIS 505 and LIS557. Foundations of constructing library and information databases, impacts of bibliographic standards, library functions and interconnectedness on these database applications, and evaluation and measurement.

+654. Library Automation. 3 hrs. Prerequisite: LIS 557 or permission of the instructor. Systems analysis, planning, and implementation of automation in various library and information settings.

+655. Online Technical Services. 3 hrs. Prerequisite: LIS 505. Coverage of the technical services aspects of bibliographic utilities, chiefly OCLC (an online computer library center), its subsystems, and the MARC formats.

+656. Online Database Services and Resources. 3 hrs. Prerequisites: LIS 501 and LIS 557 or permission of instructor. Applications and issues related to the online resources currently available.

+664. Government Publications. 3 hrs. Prerequisite: LIS 501. Study of the types of government publications and tools for their bibliographic organization.

+666. Social Science and Humanities Resources. 3 hrs. Prerequisite: LIS 501. Study, evaluation, and utilization of library and information resources in the social sciences.

+668. Research Methods in Library and Information Science. 3 hrs. Prerequisite: LIS 501, LIS 505. Survey of scientific research methods and their application to the field of library and information science.

+670. Topics in Services to Library Clientele. 3 hrs. The role of libraries in meeting informational and recreational needs of adults; lifelong learning, services to special groups, and popular culture collections.

+675. Seminar: Topics in Organization of Materials. 3 hrs. Prerequisites: LIS 505 and LIS 506. Alternating topics, including indexing, abstracting, advanced database tools, and other related topics.

689. Library Practicum. 2-4 hrs. Prerequisite: Permission of the practicum coordinator.

691. Research in Library Science. 1-16 hrs. Prerequisite: Permission of director.

692. Special Problems in Librarianship. 1-3 hrs. A problem study to be approved by the director.

694. Field Problems. 3 hrs. Prerequisite: Permission of director. Practical experiences in dealing with problem situations in the field and related institutional settings.

695. Master’s Project. 3 hrs. Prerequisite: LIS 668. A written project dealing with a specific problem or issue in the field of library and information studies under faculty supervision.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

702. Bibliography for Music Research. 3 hrs. Prerequisite: LIS 501. An extensive examination of research materials, including music and nonmusic reference works.

794. LIS Specialist Field Problem. 3 hrs. Prerequisites: Permission of director and completion of all other coursework. Field problem: Major practical research component of specialist’s degree, includes oral defense of project document to a committee.

798. LIS Specialist Thesis. 3 hrs. Prerequisites: Permission of director and completion of all other coursework. Thesis: Major theoretical research component of specialist’s degree, includes oral defense of thesis document before a committee.
Management (MGT)

500. Organizational Behavior. 3 hrs. A study of individual and group behavior in organizations, including motivation, leadership, and communication. See also MBA 500.

598. International Management Seminar Abroad. 3 hrs. Prerequisite: Consent of program director. Conducted in London, England; a series of lectures and discussions involving authorities on international management issues and practices.

620. Organizational Behavior and Practice. 3 hrs. Prerequisite: MBA 500 or the equivalent. Study and skill-building in interpersonal and small-group relationships as found in various organizations.

630. Seminar in Entrepreneurship and Technology Management. 3 hrs. Prerequisite: MBA 500 or the equivalent. A seminar class designed to explore the interface between technology and entrepreneurship. The focus of the course is on technology and new venture opportunity evaluation and creation.

640. Advanced Personnel Administration. 3 hrs. Prerequisite: MBA 500 or the equivalent. An in-depth study of United States and international human resource administration.

645. International Management. 3 hrs. Prerequisite: MBA 500 or the equivalent. A case course of comparisons of problems in management in the United States with those of other countries.

692. Special Problems in Management. 1-6 hrs. Prerequisite: Permission of department chair.

699. International Management Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international management offered for students enrolled in MGT 598.

Management Information Systems (MIS)

580. Management Information Systems. 3 hrs. Prerequisite: Computer literacy. An analysis of the impact of information systems and technology on organizations. See also MBA 580.

606. Business Data Communications. 3 hrs. Prerequisite: MBA 650. This course develops the knowledge and skills of a manager in the usage and management of business data communications systems.

688. Advanced Topics in Information Systems Management. 3 hrs. A comprehensive study of various aspects of contemporary information technologies and their uses for business decision support.

692. Special Problems in Management Information Systems. 3 hrs. Prerequisite: Permission of department chair.

Marine Science (MAR)

501. Biological Oceanography. 3 hrs. Marine biological regimes and the influence of geological, physical, and chemical oceanographic features.

501L. Biological Oceanography Laboratory. 1 hr. A laboratory for MAR 501.

502. Marine Environmental Science. 3 hrs. A study of the problems that affect the coastal and nearshore environments of the Gulf of Mexico.

503. Marine Invertebrate Zoology. 3 hrs. Morphology, distribution and ecology of the phyla from Protozoa through Phyla. May be taken as BSC 521 or COA 528.

503L. Marine Invertebrate Zoology Laboratory. 3 hrs. Corequisite: MAR 503. May be taken as BSC 521L or COA 528L.

504. Parasites of Marine Animals. 3 hrs. Prerequisite: Permission of instructor. Emphasis on morphology, taxonomy, life histories, and host-parasite relationships. May be taken as BSC 524 or COA 553.

504L. Parasites of Marine Animals Laboratory. 3 hrs. Corequisite: MAR 504. May be taken as BSC 524L or COA 553L.

505. Marine Ecology. 3 hrs. The relationship of marine organisms to their environment. May be taken as BSC 539 or COA 546.

505L. Marine Ecology Laboratory. 2 hrs. Corequisite: MAR 505. May be taken as BSC 539L or COA 546L.

506. Fauna and Faunistic Ecology of Tidal Marshes. 2 hrs. Taxonomy, distribution, trophic relationships, reproductive strategies, and adaptation of tidal marsh animals. May be taken as BSC 548 or COA 547.

506L. Fauna and Faunistic Ecology of Tidal Marshes Laboratory. 3 hrs. Corequisite: MAR 506. May be taken as BSC 548L or COA 547L.

507. Marine Aquaculture. 3 hrs. Problems and procedures relating to the culture of commercially important crustaceans, fish, and mollusks. May be taken as BSC 547 or COA 524.

507L. Marine Aquaculture Laboratory. 3 hrs. Corequisite: MAR 507. May be taken as BSC 547L or COA 524L.

508. Marine Ichthyology. 3 hrs. Lecture and laboratory survey of marine chordates, including fishes, reptiles, mammals, and shore birds. May be taken as COA 521.

508L. Marine Ichthyology Laboratory. 3 hrs. Corequisite: MAR 508. May be taken as COA 521L.
509. Marine Microbiology. 3 hrs. Prerequisite: General microbiology. An introduction to the role of microorganisms in the overall ecology of the oceans and estuaries. May be taken as BSC 509 or COA 571.

509L. Marine Microbiology Laboratory. 2 hrs. Corequisite: MAR 509. May be taken as BSC 590L or COA 571L.

510. Marine Fisheries Management. 2 hrs. Prerequisite: Statistics recommended. A statistical review of the world fisheries. May be taken as BSC 549 or COA 516.

510L. Marine Fisheries Management Laboratory. 2 hrs. Corequisite: MAR 510. May be taken as BSC 549L or COA 516L.

520. Marine Phycology. 2 hrs. Prerequisites: General botany and plant taxonomy. A survey of the principal groups of marine algae. May be taken as BSC 527 or COA 533.

520L. Marine Phycology Laboratory. 2 hrs. Corequisite: MAR 520. May be taken as BSC 527L or COA 533L.

521. Coastal Vegetation. 2 hrs. A study of general and specific aspects of coastal vegetation, with emphasis on local examples. May be taken as BSC 537 or COA 534.

521L. Coastal Vegetation Laboratory. 1 hr. Corequisite: MAR 521. May be taken as BSC 537L or COA 534L.

522. Salt Marsh Plant Ecology. 2 hrs. The botanical aspects of marshes; includes plant identification, composition, and structure. May be taken as BSC 538 or COA 535.

522L. Salt Marsh Plant Ecology Laboratory. 2 hrs. Corequisite: MAR 522. May be taken as BSC 538L or COA 535L.

523. Marine Mammals. 3 hrs. Prerequisite: 16 hrs. of biological science or permission of instructor. Corequisite: MAR 523L. Course will emphasize natural history and population ecology of cetaceans. Will include life history, distribution, population dynamics, diet and feeding, social behavior, evolution, and zoogeography. May be taken as COA 543.

523L. Marine Mammals Laboratory. 2 hr. Corequisite: MAR 523. A laboratory designed to accompany MAR 523. May be taken as COA 543L.

530. Comparative Histology of Marine Organisms. 3 hrs. Histology of marine organisms, including tissue processing techniques. May be taken as BSC 568 or COA 556.

530L. Comparative Histology of Marine Organisms Laboratory. 3 hrs. Corequisite: MAR 530. May be taken as BSC 568L or COA 556L.

541. Marine Chemistry. 3 hrs. Prerequisites: BSC 111, CHE 256, and MAT 179 or permission of instructor. Sea water chemistry and cycles and their impact on the marine environment.

541L. Marine Chemistry Laboratory. 1 hr. Corequisite: MAR 541. A laboratory designed to accompany MAR 541.

543. Environmental Estuarine Chemistry. 3 hrs. Prerequisites: BSC 111, CHE 256, and MAT 179 or permission of instructor. Corequisite: MAR 543L. Sources, reactions, transport, fate, and effects of environmental chemical species in aquatic environments, with special emphasis on estuaries. May be taken as COA 506.

543L. Environmental Estuarine Chemistry Laboratory. 1 hr. Corequisite: MAR 543. A laboratory designed to accompany MAR 543. May be taken as COA 543L.

556. Techniques in Marine Science Education. 3 hrs. Prerequisite: Permission of instructor. Designed to acquaint teachers with the marine resources of the Mississippi Coastal Zone. May be taken as SME 556 or COA 587.

557. Marine Science for Teachers. 3 hrs. Prerequisite: Permission of instructor. Emphasis will be placed on measurements and analysis of the marine habitat and ecological relationships. May be taken as SME 557 or COA 588.

558. Marine Science for Elementary Teachers. 3 hrs. Prerequisite: Permission of instructor. Designed to acquaint teachers with marine science concepts. May be taken as SME 535 or COA 585.

559. Coastal Ecology for Teachers. 3 hrs. Prerequisite: Permission of instructor. Corequisite: MAR 559L. Designed to provide teachers with a background in basic coastal ecology. May be taken as SME 559 or COA 586.

559L. Coastal Ecology for Teachers Laboratory. 1 hr. Corequisite: MAR 559. Permission of instructor. Corequisite: MAR 559. May be taken as SME 559L or COA 586L.

561. Physical Oceanography. 3 hrs. Prerequisites: PHY 112 or 202 and MAT 179 or permission of instructor. An introduction to the physical properties and processes of the oceans. May be taken as PHY 571.

561L. Physical Oceanography Laboratory. 1 hr. A laboratory designed to accompany MAR 561.

566. Acoustics. 3 hrs. Prerequisites: MAT 471 or permission of instructor. Principles of the generation, transmission, and reception of acoustic waves. May be taken as PHY 546.

581. Geological Oceanography. 3 hrs. Prerequisite: GLY 101, 103 or permission of instructor. Study of the formation and deformation of the oceanic crust and the distribution and character of marine sediments.

581L. Geological Oceanography Laboratory. 1 hr. Pre- or corequisite: MAR 581. Examination and interpretation of marine geological samples and data.

582. Coastal Marine Geology. 3 hrs. Prerequisite: 12 credit hours in geology. A study of the inshore and nearshore geological processes, sedimentation patterns, and landform development. May be taken as GLY 531 or COA 509.
Course Descriptions

585. Microcomputer Applications in Marine Science Instrumentation. 3 hrs. Introduction to programming and hardware concepts relevant for marine science applications.

590. Special Problems in Marine Science. 1-6 hrs. Prerequisite: Permission of instructor. Independent research.

591. Special Topics in Marine Science. 1-6 hrs. Prerequisite: Permission of instructor. Directed study in area for which no formal courses are offered.

601. The Marine Scientist and Public Policy. 3 hrs. Prerequisite: Permission of instructor. The examination of marine science and marine policy, marine policy in Mississippi, the law of the sea, and integrated coastal and ocean management.

602. Remote Sensing of the Ocean. 3 hrs. Prerequisite: MAR 501 and 561 or permission of the instructor. An introduction to remote sensing of the ocean with emphasis on biological applications.

603. Fisheries Oceanography. 3 hrs. Prerequisite: Permission of instructor. This course will provide the student with an understanding of the complex issues of the multidisciplinary field of fisheries oceanography.

604. Early Life History of Marine Fishes. 3 hrs. Prerequisite: MAR 501 or permission of instructor. This course will provide the student with an understanding of the complex issues of the multidisciplinary field of fisheries oceanography.

605. Marine Pollution. 3 hrs. An exploration of pollution in the marine environment, emphasizing geochemical aspects of the sources, transport, and fates of pollutants.

610. Estuaries. 3 hrs. Prerequisite: MAR core courses or permission of instructor. An introduction to estuary processes and ecology, with discussion of the impact of human activities.

611. Introduction to Numerical Ocean Modeling. 3 hrs. Prerequisite: MAT 385 or permission of instructor. This course explores basic concepts of numerical modeling in general oceanography available to students from different disciplines.

612. Introduction to Dynamical Oceanography. 3 hrs. Prerequisite: Permission of instructor. An introductory course that describes the different types of motions observed in the oceans and on its surface. It includes the study of ocean currents and waves starting with basic principles of physics. May be taken as PHY 510.

613. Ocean Dynamics. 3 hrs. Prerequisite: PHY 351, MAT 285 or permission of instructor. Intended to develop the first level understanding of the basic physical mechanisms controlling the ocean circulation.

614. Turbulence. 3 hrs. Prerequisite: PHY 351, MAT 285, or permission of the instructor. Mixing, boundary layers, energy and enstrophy, isotropic turbulence, statistical regime of small-scale components.

615. Oceanographic Data Analysis. 3 hrs. Prerequisite: MAR 561, MAR 562 or permission of instructor. Analysis techniques with applications to physical oceanographic time series data. Topics will include correlation, spectral, and principal component analysis.

616. Waves and Tides. 3 hrs. Prerequisite: MAR 561 and permission of instructor. Wind-generated surface gravity waves, tide-generating forces, observing water levels, and numerical simulation of ocean tides.

617. Applied Ocean Acoustics. 3 hrs. Prerequisite: Permission of instructor. Fundamentals of sound propagation in the sea as applied to bathymetric surveys for determining the shape of the ocean bottom.

618. Wave-Current Interactions with Applications to Remote Sensing. 3 hrs. An introductory study of different approaches to wave-current interactions, their underlying assumptions, and their effects on remote sensing and on upper ocean dynamics.

619. Coastal Physical Oceanography. 3 hrs. Prerequisites: MAR 561 and MAR 562 or permission of instructor. Dynamic circulation of continental shelves; includes steady and time-varying flows, pressure gradients, wind stress, bottom friction, and oceanic forcing.

621. Introduction to Geophysical Fluid Dynamics. 3 hrs. Prerequisites: MAT 385 and PHY 351 or permission of instructor. The course will provide basic concepts required to understand oceanic and atmospheric processes.

622. Advanced Ocean Dynamics. 3 hrs. Prerequisite: PHY 351, MAT 285, or permission of instructor. The physical mechanisms controlling ocean circulation, focusing on vertical ocean structure.

623. Special Topics in Biological Oceanography. 1-3 hrs. Prerequisite: Permission. Study of a selected area in biological marine science. May be repeated.
683. Special Topics in Marine Chemistry. 1-9 hrs. Prerequisite: Permission. Study of a selected area in chemical marine science. May be repeated.

684. Special Topics in Geological Oceanography. 1-9 hrs. Prerequisite: Permission. Study of a selected area in geological marine science. May be repeated.

685. Special Topics in Physical Oceanography. 1-9 hrs. Prerequisite: Permission. Study of a selected area in physical marine science.

686. Oceanography and Coastal Processes for Teachers. 2 hrs. Corequisite: MAR 686L. This course for K-8 teachers will encompass the following topics: physical processes, plate tectonics, marine and aquatic habitats and resources, deep-sea research and pollution.

686L. Oceanography and Coastal Processes for Teachers Laboratory. 1 hr. Corequisite: MAR 686. A laboratory designed to accompany MAR 687.

687. Global Environmental Education for Teachers. 3 hrs. Corequisite: MAR 687L. This course for 5-9 teachers will involve the following topics: sea level rise, acid rain, pollution, ozone depletion, biodiversity, population, deforestation, and greenhouse effects.

687L. Global Environmental Education for Teachers Laboratory. 1 hr. Corequisite: MAR 687. A laboratory designed to accompany MAR 687.

689. Seminar in Marine Science. 1 hr. Prerequisite: Permission of instructor. Current topics in marine science explored via student discussion and presentation. May be repeated.

691. Directed Research in Marine Science. 1-16 hrs. Prerequisite: Permission. Independent research conducted under the direction of a faculty member. May be repeated.

692. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Dissertation. 12 hrs. Prerequisite: Approval of major professor.

Marketing (MKT)

550. Marketing Foundations. 3 hrs. An analysis of marketing functions, concepts, and practices in managerial decision making. See also MBA 550.

595. International Marketing. 3 hrs. Prerequisites: MKT 300 and graduate status. Nonbusiness students only. The economic, political, and cultural aspects of international business operations.

598. International Marketing Seminar Abroad. 3 hrs. Prerequisite: Permission of program director. Conducted in London, England; a series of lectures and discussions involving authorities on international marketing issues and practices.

605. Problems in Marketing Management. 3 hrs. Prerequisite: MKT 550 or the equivalent. Applications of analytical and communication skills in solving complex marketing problems. See also MBA 605.

635. Seminar in Consumer Behavior. 3 hrs. Prerequisite: MKT 300. Application of behavioral science concepts to research and marketing decisions.

640. Marketing Planning. 3 hrs. Prerequisite: MKT 300. An applications-oriented approach to strategic and operational marketing problems.
Seminar in Marketing Research. 3 hrs. Prerequisites: BA 302 and MKT 300. A study of advanced research techniques used in market analysis.

Special Problems in Marketing. 1-6 hrs. Prerequisite: Permission of department chair.

International Marketing Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international marketing offered for students enrolled in MKT 598.

Mass Communication (MC)

Mass Communication Theory. 3 hrs. Examination of diverse theoretical approaches to the study of mass communication; theory building in mass communication.

Communication Seminar. 3 hrs. A rotating seminar that addresses topics in the areas of radio-TV-film and journalism.

Public Relations Theory. 3 hrs. Prerequisite: Undergraduate study of public relations or communication, or permission of instructor. Explores theories of excellent communication and public relations management appropriate for grounding the work with internal and external publics of an organization.

Public Relations Campaigns. 3 hrs. Prerequisite: MC 620 or permission of instructor. Examines issues affecting design and implementation of persuasive public communication campaigns for business organizations, nonprofit organizations, political or issue campaigns.

International Public Relations. 3 hrs. Prerequisite: MC 620 or permission of instructor. Explores theories of communication and culture in international business environments with the purpose of developing public relations theory and practice.

Seminar in Public Relations. 3 hrs. Prerequisite: MC 620 or permission of instructor. Analysis of problems and processes of public relations with special emphasis upon theories, principles, and research.

Process and Effects of Mass Communication. 3 hrs. A study of the major areas of mass communication research literature, emphasizing mass communication effects research.

Communication Internship. 3 hrs. Students will serve an internship during one semester with a professional media or public relations agency.

Research in Communication. 1-9 hrs. For independent reading projects of broad general nature. Normally limited to topics not covered in regular courses.

Special Problems. 3 hrs. For independent research projects designed to answer specific questions in applied or theoretical communication.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Thesis. 3-6 hrs. for a total of 6 hrs.

British Studies: Comparative National Media Systems. 3-6 hrs. To instruct students through lectures, research, and field trips about the similarities and differences between the American and British media systems.

Introduction to Graduate Research in Communication. 3 hrs. Analysis of types of problems, concepts, variables, definitions, designs measurement techniques, and interpretation of data prevalent in communication research. Involves elementary statistics and development of research proposals and designs. May also be taken as SCM 720.

Content Analysis of Communication. 3 hrs. Study of theory and methods of defining, categorizing, coding, and interpreting verbal and nonverbal elements of the communication process. Emphasizes source and message elements. Elementary statistical analysis, research report, and design of studies. May also be taken as SCM 721.

Communication Research Methods. 3 hrs. A study of the techniques and strategies used in conducting empirical studies of communication. Topics will include measurement, sampling, and content analysis. May also be taken as SCM 722.

Telecommunication Policy and Regulation. 3 hrs. A study of United States telecommunication policy and regulation as shaped by technology, industry, politics, government, and the public. Social and political implications of policy are evaluated.

Seminar in Mass Communication History. 3-6 hrs. Exploration of cultural, economic, intellectual, social and political trends in mass communication history, 1450 to present. May be repeated for a total of 6 hours credit.

Seminar in Advertising Theory. 3 hrs. Introduction to advertising theory, principles, practices, and law. Advertising’s role in American business and society will be explored.
771. Advertising and the Consumer. 3 hrs. Examination of major behavioral science contributions to the understanding of buyer behavior, with emphasis on advertising and marketing applications of these contributions.

772. Advertising Research. 3 hrs. Planning and conducting accurate, effective advertising research programs, including preparation of questionnaires, reports, and strategies. While focus is on quantitative research methodology, qualitative research is also explored.

773. Seminar in Advertising. 3-6 hrs. Analysis of problems and processes of advertising, exploring various current topics in the field. May be repeated for total of 6 hours credit.

780. Media, Culture and Society. 3-6 hrs. Critical analysis of cultural, economic, political, social and technological dimensions of contemporary mass media performance. May be repeated for total of 6 hours credit.

791. Research in Communication. 1-9 hrs. For independent reading projects of a broad general nature. Normally limited to topics not covered in regular courses.

792. Special Problems. 3 hrs. For independent research projects designed to answer specific questions in applied or theoretical communication.

793. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

809. Communication Seminar. 3 hrs. A rotating seminar that addresses topics in the areas of radio-TV-film and journalism.

862. Seminar in Mass Media Control and Ethics. 3 hrs. Alternate years. Problems and case studies concerned with regulation, deregulation, industry codes, and ethics.

898. Dissertation. 3-12 hrs for a total of 12 hours.

Master of Business Administration (MBA)

500. Organizational Behavior. 3 hrs. A study of individual and group behavior in organizations, including motivation, leadership, and communication. See also MGT 500.

511. Accounting for Decision Making. 3 hrs. Prerequisite: Computer literacy. A conceptual study of financial and managerial accounting principles designed to enable decision makers to properly use accounting information in making decisions.

520. Economic Analysis for Managers. 3 hrs. Prerequisites: Computer literacy, calculus. Microeconomic and macroeconomic analysis as applied to managerial decision making. See also ECO 520.

530. Operations Management. 3 hrs. An analysis of modern operations management in terms of efficiency, productivity, quality, and service to the customer.

546. Legal Environment of Management. 1.5 hrs. A survey of the major legal considerations affecting managerial decision making.

550. Marketing Foundations. 3 hrs. An analysis of marketing functions, concepts, and practices in managerial decision making. See also MKT 550.

570. Managerial Finance. 3 hrs. Prerequisites: Computer literacy; MBA 511 or the equivalent. A study of financial analysis in managerial decision making. See also FIN 570.

580. Management Information Systems. 3 hrs. Prerequisite: Computer literacy. An analysis of the impact of information systems and technology on organizations. See also MIS 580.

598. International Business Seminar Abroad. 3-6 hrs.

600. Business and Society. 3 hrs. Prerequisite: Admission to MBA or MPA program. An examination of internal and external factors influencing decision making with an emphasis on ethics, civic responsibility, social responsiveness, and professional values.

605. Problems in Marketing Management. 3 hrs. Prerequisite: MBA 550 or the equivalent. Applications of analytical and communication skills in solving complex marketing problems. See also MKT 605.

611. Managerial Accounting. 3 hrs. Prerequisite: MBA 511 or the equivalent. An analysis of the use of accounting information in managerial decision making.

620. Macroeconomic Analysis for Managers. 3 hrs. Prerequisites: MBA 520; MBA 530. An examination of the use of macroeconomic analysis and information in managerial decision making.

640. Problems in Corporate Finance. 3 hrs. Prerequisite: MBA 570. Applications of financial theory to complex financial problems.
276 | Course Descriptions

645. Communication Skills for Managers 3 hrs. Prerequisite: Admission to MBA or MPA program. A course designed to develop communication skills as they relate to managerial effectiveness.

650. Technology in Modern Organizations 3 hrs. Prerequisite: MBA 580 or the equivalent. Examination of the impact of information technology on the productivity, quality, service, and enhanced communication abilities of organizations.

660. Global Business Strategy 3 hrs. Prerequisite: Admission to MBA program. An analysis of strategic business planning and implementation from the perspective of top management.

692. Special Problems in Business Administration 1-6 hrs. Prerequisite: Permission of the program director.

Mathematics (MAT)

500. Mathematics Teaching Seminar 1 hr. In-depth topics related to preparing and presenting lessons, testing and grading, and classroom management, includes videotaping of practice teaching sessions. (Does not count as program credit for M.S. in mathematics.)

508. Mathematical Foundations for Inservice Elementary School Teachers 3 hrs. Numeration, place value, intuitive geometry, measurement, arithmetic algorithms. (Does not count as program credit for M.S. in mathematics.)

509. Mathematical Foundations for Inservice Middle School Teachers 3 hrs. Intuitive geometry, integers, rational numbers, probability, graphing, metric system, word problems. (Does not count as program credit for M.S. in mathematics.)

510. Mathematics for Teachers of Junior High School Mathematics 3 hrs. The real number system and major subsystems, introduction to algebra, informal geometry, consumer mathematics, and introduction to BASIC programming. (Open only to elementary and special education majors and does not count as program credit for M.S. in mathematics.)

517. Introduction to Partial Differential Equations 3 hrs. Prerequisite: MAT 285. Integrability conditions, quasilinear and linear equations, applications to physics, classification of second order equations and canonical forms, separation of variables.

518. Linear Programming 3 hrs. Prerequisite: MAT 326. Convex sets, linear inequalities, extreme-point solutions, simplex procedure, applications.

519. Optimization in Mathematical Programming 3 hrs. Prerequisites: MAT 280, and 418 or 518. Selected topics in optimization from linear and nonlinear programming.

523. Modern Algebra I 3 hrs. Prerequisite: MAT 340. Elementary notions in groups, Fundamental Theorem of Finitely Generated Groups, permutation groups, quotient groups, the isomorphism theorems, applications of transformation groups.

524. Modern Algebra II 3 hrs. Prerequisite: MAT 423 or 523. Survey of standard algebraic systems: rings, integral domains, fields, modules, polynomial rings, quotient rings, fields of quotients.

526. Linear Algebra II 3 hrs. Prerequisite: MAT 326. Determinants; polynomials; complex numbers; single linear transformations; orthogonal, unitary, and symmetric linear transformations.

537. Graph Theory 3 hrs. Prerequisite: MAT 340. An introduction to graphs and a sampling of their numerous and diverse applications.

539. Combinatorics 3 hrs. Prerequisites: MAT 326, 340, and 169. Counting and enumeration techniques, inversion formulas and their applications, and counting schemes relative to permutations of objects.

541. Advanced Calculus I 3 hrs. Prerequisites: MAT 280 and 340. Point set theory, sequences, continuity, uniform continuity, limits, mean value theorems, L’Hospital’s rule.

542. Advanced Calculus II 3 hrs. Prerequisite: MAT 441 or 541. Riemann integration, Taylor’s theorem, improper integrals, infinite series, uniform convergence.

560. Numerical Analysis I 3 hrs. Prerequisites: MAT 280, 326, and knowledge of a programming language. Methods of solving equations and systems of equations, error analysis, difference equations.
561. *Numerical Analysis II.* 3 hrs. Prerequisites: MAT 285, and 460 or 560. Interpolating polynomials, numerical differentiation and integration, numerical solutions of differential equations, roundoff error.

*Students will use university computers and appropriate software as a part of course requirements.*

572. Modern Geometry. 3 hrs. Prerequisite: MAT 280, 326, and 340. Heuristic and analytic treatment of a branch of modern geometry, such as projective or differential geometry.

581. History of Mathematics. 3 hrs. Prerequisite: MAT 167. The history of mathematics from antiquity through the 17th century. (Does not count as program credit for M.S. in mathematics.)

588. Mathematics for Inservice Secondary School Teachers I. 1-3 hrs. Prerequisites: 24 hours of mathematics, excluding pre-calculus courses, secondary mathematics teaching experience. Special mathematical topics for inservice secondary school mathematics teachers, to include algebra, number theory, graph theory, and combinatorics. (Does not count as program credit for M.S. in mathematics.)

589. Mathematics for Inservice Secondary School Teachers II. 1-3 hrs. Prerequisites: 24 hours of mathematics, excluding pre-calculus courses, secondary mathematics teaching experience. Special mathematical topics for inservice secondary school mathematics teachers, to include probability theory, analysis, applied mathematics, topology, geometry. (Does not count as program credit for M.S. in mathematics.)

592. Special Problems I, II, 1-3 hrs. each.

603. Modern Algebra. 3 hrs. Prerequisite: MAT 424 or 524. Simple groups, solvable groups, the Sylow theorems, presentations of groups, category terminology, introductory homological algebra.

605. Ordinary Differential Equations. 3 hrs. Prerequisite: MAT 285. Topics from the theory of ordinary differential equations. Specific topics to be selected by the instructor.

629. Applied Combinatorics and Graph Theory. 3 hrs. Prerequisite: CSC 616 or permission of instructor. Combinatorial/graphical techniques for complexity analysis, recurrence relations, Polya theory, NP complete problems. May also be taken as CSC 629.

636. Functions of a Complex Variable II. 3 hrs. Prerequisite: MAT 436 or 536. Taylor and Laurent series, residue calculus, conformal mapping with applications, integral formulas of the Poisson type, analytic continuation.

641. Functions of a Real Variable I. 3 hrs. Prerequisite: MAT 442 or 542. Foundations of real analysis and introduction to Lebesgue integration.

642. Functions of Real Variable II. 3 hrs. Prerequisite: MAT 641. Continuation of MAT 641.

650. Computer-Assisted Mathematics I. 3 hrs. Prerequisite: Permission of instructor. Applications of computer algebra software to mathematical modeling. Modeling projects and experiments employing both numeric and symbolic computation using software such as DERIVE, Maple, and Mathematica. The laboratory setting and project format will permit investigations of a deeper nature than would be possible due to time constraints in a typical 3-hour lecture course. May be repeated for a maximum of 6 hours credit.

651. Computer-Assisted Mathematics II. 3 hrs. Prerequisite: Permission of instructor. Application of computer algebra software to data analysis, partial differential equations, statistics, nonlinear regression, and linear algebra. May be repeated for a maximum of 6 hours credit.

657. Dimensions of Learning in Mathematics I. 3 hrs. Prerequisite: Admission to the Master of Arts in Teaching degree program. Broad introduction to the concepts, contexts, and practices of teaching, as well as specific instruction in secondary mathematics methods. This course includes a clinical supervision component.

681. Topics in Algebra I, II, III. 3 hrs. Prerequisites: MAT 423 or 523, and permission of instructor. May be repeated for a maximum of 9 hours credit.

682. Topics in Analysis I, II, III. 3 hrs. Prerequisite: Permission of instructor. May be repeated for a maximum of 9 hours credit.

683. Topics in Topology and Geometry I, II, III. 3 hrs. Prerequisite: Permission of instructor. May be repeated for a maximum of 9 hours credit.

684. Topics in Applied Mathematics I, II, III. 3 hrs. Prerequisite: Permission of instructor. May be repeated for a maximum of 9 hours credit.
685. **Topics in Computational Mathematics I, II, III.** 3 hrs. Prerequisite: Permission of instructor. May be repeated for a maximum of 9 hours credit.

689. **Mathematics Seminar I, II.** 3 hrs. Prerequisite: Permission of instructor. Six hours of seminar are required for the M.S. degree in mathematics.

691. **Research in Mathematics.** 1-16 hrs. (Does not count as program credit for M.S. in mathematics.)

698. **Thesis.** 1-6 hrs. for a total of 6 hrs.

**Mathematics Refresher and Enrichment Program (M-REP)**

584. **Calculus Review I.** 1-3 hrs. Prerequisite: Permission of instructor. A review of topics from single-variable calculus to include limits, continuity, derivatives, and integration, with applications relevant to the high school curriculum.

585. **Calculus Review II.** 1-3 hrs. Prerequisite: MAT 584 or permission of instructor. A review of topics from single-variable calculus to include methods of integration, L'Hôpital's rule, improper integrals, infinite series and vectors, with applications relevant to the high school curriculum.

586. **Geometry Review for High School Teachers.** 1-3 hrs. May be repeated for a maximum of 6 semester hours. Topics from Euclidean geometry, transformational geometry, plane analytic geometry, and topology.

587. **Problem Solving in School Mathematics.** 1-3 hrs. Prerequisite: MAT 585 or permission of instructor. May be repeated for a maximum of 6 semester hours. Includes strategies for solving both standard and nonstandard mathematical problems.

*None of the courses MAT 584 - 587 will count toward any degree in mathematics.*

**Medical Technology (MTC)**

501. **Body Fluids.** 1 hr. Prerequisite: Admission to the practicum or permission of department. Corequisite: MTC 501L. Analysis of the physical, chemical, and microscopic parameters of body fluids—research component.

501L. **Body Fluids Laboratory.** 1 hr. Prerequisite: Admission to the practicum. Corequisite: MTC 501.

502L. **Clinical Bacteriology I Laboratory.** 1 hr. Prerequisite: MTC 202, 203, BSC 380, 380L or permission of instructor. Corequisite: MTC 502.

503. **Clinical Mycology.** 1 hr. Prerequisite: Admission to the practicum or permission of department. Corequisite: MTC 503L. The study of pathogenic fungi; emphasis is placed on laboratory methods of isolation and identification of medically important fungi—research component.

503L. **Clinical Mycology Laboratory.** 1 hr. Prerequisite: Admission to practicum. Corequisite: MTC 503.

504. **Clinical Chemistry I.** 3 hrs. Prerequisite: BSC 110, 110L, CHE 420, 420L, or permission of instructor. Co- or prerequisites: MTC 202 and/or 203. Corequisite: MTC 504L. The chemical analysis of body fluids—research component.

504L. **Clinical Chemistry Laboratory.** 2 hrs. Prerequisite: CHE 420, 420L or permission of instructor. Co- or prerequisite: MTC 202, 203. Corequisite: MTC 504.

505. **Clinical Parasitology I.** 1 hr. Prerequisite: Admission to practicum or permission of department. Corequisite: MTC 505L. Study of medically significant protozoan and helminthic parasites and their vectors. Emphasis is placed on laboratory methods of detection and identification of these organisms—research component.

505L. **Clinical Parasitology Laboratory.** 1 hr. Prerequisite: Admission to practicum. Corequisite: MTC 505.

506. **Fundamentals of Hematology.** 3 hrs. Prerequisite: BSC 110, 110L, MTC 202, 203, or permission of instructor. Corequisite: MTC 506L. An introduction to the study of blood and blood-forming organs—research component.

506L. **Fundamentals of Hematology Laboratory.** 1 hr. Prerequisite: MTC 202, 203. Corequisite: MTC 506.

507. **Clinical Immunodiagnosiscs I Laboratory.** 2 hrs. Prerequisite: Admission to practicum or permission of department. Corequisite: MTC 507L. An introduction to immunodiagnostic testing, theory, and practical experience involving antigen-antibody reactions in relation to disease in humans—research component.

507L. **Clinical Immunodiagnosiscs I Laboratory.** 1 hr. Prerequisite: Admission to practicum. Corequisite: MTC 507.

508. **Clinical Immunohematology.** 3 hrs. Prerequisite: Admission to practicum or permission of department. Corequisite: MTC 508L. The theory and techniques of donor selection, processing blood for transfusion, and resolving incompatibilities—research component.

508L. **Clinical Immunohematology Laboratory.** 1 hr. Prerequisite: Admission to the practicum. Corequisite: MTC 508.

509. **Clinical Chemistry II.** 3 hrs. Prerequisite: Admission to practicum or permission of the department. Corequisite: MTC 509L. The chemical analysis of body fluids—research component.
509L. Clinical Chemistry II Laboratory. 1 hr. Prerequisite: Admission to the practicum. Corequisite: MTC 509.

510. Special Chemistry. 1 hr. Prerequisite: Admission to the practicum or permission of the department. Corequisite: MTC 510L. Introduction to therapeutic drug monitoring and clinical toxicology with special emphasis on pathophysiology and analyte measurement.

510L. Special Chemistry Laboratory. 1 hr. Prerequisite: Admission to the practicum. Corequisite: MTC 510.

511. Coagulation. 1 hr. Prerequisite: Admission to the practicum or permission of the department. Corequisite: MTC 511L. The study of hemostasis in the human and its application to clinical laboratory testing, normal and abnormal.

511L. Coagulation Laboratory. 1 hr. Prerequisite: Admission to practicum. Corequisite: MTC 511.

512. Principles of Clinical Administration and Education. 1 hr. Prerequisite: Admission to practicum or permission of department. Introduction of basic principles of clinical laboratory administration and education—research component.

515. Introduction to Clinical Immunology. 3 hrs. Prerequisites: MTC 202 and 203. Function of the immune system and its relationship to diagnostic methods.

522. Clinical Bacteriology II. 3 hrs. Prerequisite: Admission to the practicum or permission of department. Corequisite: MTC 522L. Laboratory methods of isolation, identification, and other testing of pathogenic bacteria and their etiologic role in disease—research component.

522L. Clinical Bacteriology II Laboratory. 1 hr. Prerequisite: Admission to practicum. Corequisite: MTC 522.

526. Hematology I. 3 hrs. Prerequisite: Admission to the practicum or permission of department. Corequisite: MTC 526L. The study of blood cells and their abnormalities with emphasis on procedures of laboratory examination—research component.

526L. Hematology I Laboratory. 1 hr. Prerequisite: Admission to the practicum. Corequisite: MTC 526.

551. Urinalysis. 1 hr. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

552. Clinical Microbiology. 4 hrs. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

554. Clinical Immunology. 4 hrs. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

556. Hematology II. 3 hrs. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

557. Clinical Immunodiagnoses II. 1 hr. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

558. Blood Bank. 3 hrs. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

559. Clinical Chemistry III. 4 hrs. Prerequisite: Successful completion of Phase I of practicum. Clinical education at one of the affiliated hospital laboratories—research component.

601. Laboratory Science for Nursing. 1 hr. Investigation of laboratory medicine topics relevant to nursing.

602. Comparative Diagnosis of Microbial Pathogens. 3 hrs. Prerequisites: BSC 380 and MTC 515 or BSC 586 or permission of instructor. Comparative diagnostic techniques including culture, microscopy, immunodiagnostic, and nucleic acid probes.

604. Clinical Oncology. 3 hrs. Prerequisite: Biochemistry, molecular biology, or permission of instructor. Introduction to the biological, clinical, and research aspects of cancer.

609. Clinical Endocrinology. 3 hrs. Prerequisite: Biochemistry, clinical chemistry or permission of instructor. Introduction to the biological, clinical, and pathological aspects of human endocrinology.

612. Clinical Laboratory Program Development. 3 hrs. Prerequisite: Clinical laboratory experience or permission of instructor. Concepts of program development unique to the clinical setting.

615. Clinical Laboratory Management. 3 hrs. Prerequisite: Clinical laboratory experience or permission of instructor. Concepts of management unique to the clinical laboratory setting.

689. Medical Technology Seminar. 1 hr. Presentation of current material related to clinical medicine.

691. Research. 1-6 hrs.

692. Special Problems in Medical Technology. 1-8 hrs. Individuals will be assigned some specific clinical problem in medical technology to investigate under faculty direction.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs.
Music (MUS)

500. **Writing About Music.** 3 hrs. The practices governing scholarly writing about music (i.e., research paper, thesis, prospectus, dissertation) along with an introduction to the style manuals that guide such writing.

531. **History of Opera.** 3 hrs. The history of musical theatre from Greek drama to present. Open to nonmusic majors with permission of instructor.

532. **Music in the United States.** 3 hrs. A study of the development of music in North America. Open to nonmusic majors with permission of instructor.

533. **20th Century Music.** 3 hrs. Examination of music trends since Debussy and Mahler. Open to nonmusic majors with permission of instructor.

534. **Ancient, Medieval, and Renaissance Music.** 3 hrs. A study of the rise of music in the ancient world, the beginning of western music and of polyphony. Open to nonmusic majors with permission of instructor.

535. **Baroque Music.** 3 hrs. The development of musical styles and forms from Monteverdi through J.S. Bach. Open to nonmusic majors with permission of instructor.

536. **18th-Century Music.** 3 hrs. The development of classical styles and forms, with emphasis on style galant, emfindamer Stil, and the Viennese classicists. Open to nonmusic majors with permission of instructor.

537. **19th-Century Music.** 3 hrs. The development of musical romanticism, with emphasis on the expansion of classical forms, and the appearance of new stylistic concepts. Open to nonmusic majors with permission of instructor.

539. **Diction.** 3 hrs. Introduction to phonetics of various foreign languages for singing. May be repeated once. Second registration permitted only when languages emphasized are different.

540. **Vocal Literature.** 2 hrs.

541. **Vocal Literature.** 2 hrs. A continuation of MUS 540.

542. **Keyboard History and Literature I.** 3 hrs. The history and literature of keyboard music from pre-Baroque times to the present.

544. **Organ Literature.** 2 hrs.

545. **Organ Literature.** 2 hrs. A continuation of MUS 544.

546. **Instrumental Literature.** 2 hrs.

548. **Choral Literature I.** 3 hrs. A survey of choral literature. Study will include materials suitable for school and church choirs as well as standard masterworks.

549. **Choral Literature II.** 3 hrs. Selected topics in choral literature, post-Baroque.

550. **Symphonic Literature.** 3 hrs. A history of and literature for the symphony orchestra from 1600 to the present. Open to nonmusic majors with permission of instructor.

551. **Chamber Music.** 3 hrs. A survey of music for small instrumental ensembles. Open to nonmusic majors with permission of instructor.

553. **Church Music Literature and Materials.** 3 hrs. Church music repertoire for all choirs and handbells. Supplementary materials such as teaching aids will be included.

560. **Administration of Church Music.** 3 hrs. Administrative procedures for total music program of the church, including basic philosophy, planning, budgeting, promotion, training music leaders, and developing program goals.

562. **Hymnology.** 3 hrs. The history of the Christian hymn from its roots to present-day form.

571. **Seminar in Masterpieces of Music.** 3 hrs. Prerequisite: MUS 232 or consent of instructor. A thorough exploration of major compositions from all musical media. May be taken two times. May be taken by nonmusic majors with the consent of instructor.

599. **British Studies: Music in Britain Today.** 3 to 6 hrs.

620. **Music Theory Survey.** 3 hrs. A survey of harmonic, melodic, and rhythmic elements of tonal music. Will not apply towards any doctoral degree or a degree with composition emphasis.

630. **Music History Survey.** 3 hrs. A survey of the major periods of the history of music with emphasis on significant works. Sources useful in the investigation of music are surveyed. Will not apply towards a doctoral degree.

692. **Special Problems.** 1-3 hrs. each. Investigation of specialized areas of interest. May be repeated.

697. **Independent Study and Research.** Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester. Grading is Pass/Fail.

698. **Thesis.** 1-6 hrs. for a total of 6 hrs.
Bibliography for Music Research. 3 hrs. An extensive examination of research materials, including music and nonmusic reference works.

Pedagogy of Theory. 3 hrs. A course in the teaching of music theory in the senior high school as well as at the college level.

Seminar in Music Theory. 2 hrs. For theory and composition majors; open to others with permission of instructor.

Composition Project. 6 hrs. Open to students with a major in theory and composition.

Recital. 1-3 hrs. Prerequisites: Permission of music performance studies instructor and approval by the major professor. Grade of E may be awarded.

Analytical Techniques. 3 hrs. A course designed to develop technique in analysis of music from the time of early polyphony through the Baroque period.

Analytical Techniques. 3 hrs. A course designed to develop techniques in analysis of music in the Classical and Romantic periods.

Seminar in 20th-Century Compositional Techniques. 3 hrs. A seminar in techniques utilized by composers in the 20th century. Emphasis will be placed on analysis of selected works.

Pre-Baroque Counterpoint. 2 hrs. Prerequisite: MUS 321 or permission of instructor. Contrapuntal writing up to eight parts.

Tonal Counterpoint. 2 hrs. Prerequisite: MUS 322 or permission of instructor. Contrapuntal writing culminating in the fugue.

Advanced Orchestration. 3 hrs. Prerequisites: MUS 401 or permission of instructor. May be taken three times.

Seminar in Performance Practices I. 3 hrs. A study of the conductor’s and performer’s problems in the interpretation and performance of vocal and instrumental music of the 17th and 18th centuries.

Seminar in Performance Practices II. 3 hrs. A study of the conductor’s and performer’s problems in the interpretation and performance of vocal and instrumental music of the 19th and 20th centuries.

Band Literature II. 3 hrs. A survey of band literature, grades 5 and above.

Topics in Music Literature. 3 hrs. A course designed to expand the student’s knowledge of music literature through a period, historical, or school approach. May be repeated.

Concert Band Arranging. 3 hrs. Prerequisite: MUS 401 or permission of instructor. Designed to provide the arranger with essential techniques of scoring for concert band, with special focus on existing concert band music.

Arranging for School Choruses. 3 hrs. Designed to focus on selected choral music and to provide the arranger with essential techniques of scoring for school chorus.

Research in Music. 1-16 hrs.

Special Problems. 1-3 hrs. each. Investigation of specialized areas of interest. May be repeated.

Major Solo Role in an Opera. 1 hr. Permission of instructor and simultaneous enrollment in Opera Theatre are required.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester. Grading is Pass/Fail.

Advanced Analytical Techniques. 3 hrs. Prerequisite: MUS 721 or permission of music theory faculty. An in-depth analysis of selected works prior to 1750.

Advanced Analytical Techniques. 3 hrs. Prerequisite: MUS 722 or permission of the music theory faculty. An in-depth analysis of selected works chosen from the Classical and Romantic periods.

Advanced Analytical Techniques. 3 hrs. Prerequisite: MUS 723 or permission of the music theory faculty. An in-depth analysis of selected works chosen from the 20th century.

First Doctoral Solo Recital. 3 hrs. Prerequisites: Permission of applied music instructor and approval of the major professor. Grade of E may be awarded.

Doctoral Lecture Recital. 3 hrs. Prerequisite: Permission of applied music instructor and approval of the major professor. A lecture delivered by the doctoral candidate that includes a performance in which the candidate is a principal performer. Grade of E may be awarded.

Second Doctoral Solo Recital. 1 hr. Prerequisites: Permission of applied music instructor and approval of the major professor. Grade of E may be awarded.

Concerto Performance with Band or Orchestra. 1 hr. Prerequisites: Permission of applied music instructor and approval of the major professor. Grade of E may be awarded.
Major Solo Role in an Opera. 1 hr. Prerequisites: Permission of applied music instructor and approval of the major professor. Grade of E may be awarded.

Major Solo Role in an Oratorio. 1 hr. Prerequisites: Permission of music performance studies instructor and approval of the major professor. Grade of E may be awarded.

Chamber Music Recital. 1 hr. Prerequisites: Permission of music performance studies instructor and approval of the major professor. Grade of E may be awarded.

Dissertation. 12 hrs.

Music Education (MED)

Marching Band Methods. 3 hrs. Techniques for developing marching band programs. Emphasis placed upon music selection, rehearsal organization, and drill charting techniques. Provides tools for administering and directing marching band programs.

Advanced Computer-Assisted Marching Band Drill Design. 3 hrs. Introduction to writing marching band drill design. Provides charting-proficient students with skills in developing form and flow. Includes computer lab time.

Instrument Repair. 3 hrs. Designed to give practical experience in preventive maintenance, minor repair, and adjustment of string, woodwind, brass, and percussion instruments.

Piano Tuning and Repair. 3 hrs. Study of basic techniques of tuning and repairing pianos.

Seminar in Band Literature I. 3 hrs. A study, based upon student needs, of selected masterworks for band. May be repeated.

Arranging for Marching Band. 3 hrs. Designed to provide the arranger with the essential techniques of scoring for the outdoor band. Course will focus on the study of existing arrangements.

Vocal Pedagogy. 2 hrs. Techniques, practices, and materials used in teaching voice; practical experience in teaching voice.

Advanced Vocal Pedagogy. 2 hrs. Advanced study of pedagogical materials.

Piano Workshop. 1-3 hrs. A course designed to meet the needs of the piano teacher, including a survey of standard materials together with a presentation of modern teaching methods. Cannot be applied toward a music degree. May be repeated.

Instrumental Workshop. 1-3 hrs. May be repeated. Cannot be applied toward a music degree.

Choral Workshop. 1-3 hrs. May be repeated. Cannot be applied toward a music degree.

Elementary Music Workshop. 1-3 hrs. Intensive examination of current problems, trends, and materials in the field of elementary music education. Cannot be applied toward a music degree. May be repeated.

Marching Band Workshop. 1-3 hrs. May be repeated. Cannot be applied toward a music degree.

Instrumental Conductors Conference. 2 hrs. May be repeated. Cannot be applied toward a music degree.

Choral Conductors Conference. 2 hrs. May be repeated. Cannot be applied toward a music degree.

Practicum in Music Education. 3 hrs. Examination of theory and research on teaching music to precollege and college age students with subsequent application in a real environment.

Special Problems. 1-3 hrs. Investigation of specialized areas of interest. May be repeated.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester. Grading is Pass/Fail.

Thesis. 1-6 hrs. for a total of 6 hrs. No thesis will be accepted unless accompanied by an abstract. Theses which employ questionnaires will not be accepted unless accompanied by summaries of the findings to be mailed to respondents.

Administration and Supervision of Elementary and Secondary School Music Programs. 3 hrs. The organization, supervision, and evaluation of the total music program, including program development, problems of finance, and selection of personnel and equipment.

Foundations and Principles of Music Education. 3 hrs. Historical and philosophical foundations of the total music education program, and principles of teaching, learning, organization, and administration.

Graduate Conducting I. 3 hrs. Development of conducting skill, rehearsal techniques, study and preparation of scores of standard band, choral, and orchestral repertoire. MED 731 and 732 may be repeated, but no more than a total of 6 hours of conducting may be used for a degree.

Graduate Conducting II. 3 hrs. A continuation of MED 731. MED 731 and 732 may be repeated but no more than a total of 6 hours of conducting may be used for a degree.
733. **Conducting Pedagogy.** 3 hrs. Techniques, practices, and materials used in teaching conducting. Includes study of various schools of conducting, identifying students’ physical, aural, and stylistic problems. Observation of undergraduate conducting classes required.

734. **Woodwind Techniques and Materials.** 2 hrs. A course dealing with the problems of teaching woodwind instruments and a comprehensive study of woodwind literature.

735. **Brass Techniques and Materials.** 2 hrs. A comprehensive survey of teaching techniques for the brasses with a survey of teaching materials emphasizing pedagogy textbooks and books designed for class instruction.

736. **Percussion Techniques and Materials.** 2 hrs. Performance techniques of all percussion instruments and a survey of teaching materials and literature for percussion.

737. **String Techniques and Materials.** 2 hrs. A comprehensive survey of teaching techniques for stringed instruments; survey of teaching materials emphasizing pedagogy textbooks and method books.

738. **Keyboard Techniques and Materials.** 2 hrs. An examination of keyboard literature as it relates to the techniques and practices of piano instruction.

739. **Vocal Techniques and Materials.** 2 hrs. Techniques and procedures for teaching correct vocal production habits; examination of choral literature for secondary school and collegiate levels.

750. **Music in General Education.** 3 hrs. An examination of the role of music in the general education of students throughout the educational system.

756. **Evaluation and Guidance in Music Education.** 3 hrs. The administration and interpretation of tests of musical talent and musical achievement.

792. **Special Problems.** 1-3 hrs. Investigation of specialized areas of interest. May be repeated.

797. **Independent Study and Research.** Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester. Grading is Pass/Fail.

826. **Doctoral Seminar in Music Education.** 3 hrs. Prerequisite: MED 825. Primary focus on advanced research methods, techniques, and procedures appropriate to the doctoral level of music education.

828. **Administration of College and University Music Programs.** 3 hrs. A practical course in the principles of administration, organization, and goals of music programs at the college or university level.

898. **Dissertation.** 12 hrs.

**Music Performance Studies (MUP)**

601, 602, +603. Piano. 1-4 hrs.

604, 605, +606. Harpsichord. 1-4 hrs.

611, 612, +613. Organ. 1-4 hrs.

614, 615, +616. Flute. 1-4 hrs.

617, 618, +619. Oboe. 1-4 hrs.

620, 621, +622. Clarinet. 1-4 hrs.

623, 624, +625. Saxophone. 1-4 hrs.

626, 627, +628. Bassoon. 1-4 hrs.

629, 630, +631. Horn. 1-4 hrs.

632, 633, +634. Trumpet. 1-4 hrs.

635, 636, +637. Trombone. 1-4 hrs.

638, 639, +640. Euphonium. 1-4 hrs.

641, 642, +643. Tuba. 1-4 hrs.

644, 645, +646. Violin. 1-4 hrs.

864, 865. Harp. 1-4 hrs.
867, 868. Guitar. 1-4 hrs.
891, 892, 893. Composition. 1-3 hrs.
896. Score Reading I. 3 hrs. The basics of score reading will be covered by reading chorales, canons, and score study exercises at the keyboard. The French system of multiple clef reading and transpositions of all orchestral and band instruments is included.
897. Score Reading II. 3 hrs. Continued improvement of score reading skills through a study of clef and transposition studies along with reading 18th- and 19th-century orchestral and wind symphony works. Individually and collectively, students will demonstrate ability to read scores.

**Nursing (NSG)**

510. Holistic Health: The Art and Science of Caring and Healing. 3 hrs. Introduction to a holistic nursing theoretical perspective. Assorted complementary health practice and research; focus on self-awareness as a holistic practitioner.
519. The Computer as a Nursing Tool. 3 hrs. Exposure to the computer and examination of nursing applications.
522. Professional Collaboration for Developmental Disability Services. 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.
536. Hospice: Concept and Application. 3 hrs. Explores concept and operationalization with emphasis on legislation, funding, referrals, and advocacy.
537. Abusive Behavior. 3 hrs. An interdisciplinary exploration of abusive behavior across the life span.
539. Legal-Ethical Issues. 3 hrs. Legal-ethical issues involved in nursing practice.
589. Caribbean Studies: Health Care Delivery Systems. 3 hrs. The course examines major issues relevant to the health care delivery system in the West Indies. The students will assess the level of health care delivery among various populations and groups.
591. Austrian Studies: Variable Topics. 3 hrs.
593. Health Care of the Elderly in England. 3 hrs. Resources for the elderly in United States and Great Britain. Attitudes and perceptions of elderly by British health care providers.
595. Management and Economics of Health Care. 3 or 6 hrs. United States and British health system, financing, administration, and nursing management.
286 | Course Descriptions

596. Nursing: The British Heritage. 3 or 6 hrs. Evolvement of modern nursing in England within the context of international, social, economic, and political events.

597. Emergency Nursing: A British View. 3 or 6 hrs. Introduction to the British health system and roles assumed by British emergency nurses.

598. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

599. British Studies: Hospice. 3 hrs. Introduction to hospice concept and symptom control in special units, hospitals, and homes in the United Kingdom.

600. Issues in Nursing and Health Care. 3 hrs. Seminar in contemporary problems and trends in nursing and health care.

603. Nursing Research I. 3 hrs. Prerequisite: Introductory course in statistics. Pre- or corequisite: NSG 601 and first course in emphasis area. Elements of the research process.

604. Nursing Research II. 3 hrs. Prerequisite: NSG 603. Continuation of NSG 603 with a focus on preparation of a research proposal.

606. Death and Bereavement. 3 hrs. An examination of research and theory related to death and bereavement.

607. Planning and Public Policy Formation for Health. 3 hrs. Prerequisite: Permission of instructor. An examination of issues in health/social planning and public policy at local, state, and national levels.

611. Curriculum and Teaching in Nursing. 3 hrs. Prerequisite: NSG 601. Curriculum development, selection, design, and evaluation of instructional systems for the teaching of nursing.

612. Concepts of Organizational Behavior in Nursing. 3 hrs. Prerequisite: NSG 601 or permission of instructor. Theories and research related to organizational behavior in the administration of nursing services.

613. Advanced Practice Nursing. 3 hrs. Seminar focused on theory and research pertaining to the clinical major for practice of advanced nursing.

614L. Practice of Clinical Nurse Specialization. 3 or 6 hrs. Prerequisites: NSG 613 and permission of instructor. Seminar and advanced practicum in area of nursing specialization as identified by clinical major. May be repeated for total of 6 hours.

621. Concepts and Theories for Community Health Nursing. 3 hrs. Prerequisite or corequisite: NSG 601 or permission of instructor. An analysis of concepts, theories, and research relevant to community health nursing.

622. Seminar in Community Health Nursing. 3 hrs. Prerequisite: NSG 621. Corequisite: NSG 622L. Assessment of communities and design of programs of community health nursing for specific populations. The epidemiological and health planning processes are included.

622L. Community Health Nursing Practicum. 3 hrs. Prerequisite: NSG 621. Corequisite: NSG 622. Implementation and evaluation of community health nursing programs for specific populations.

623. United States and World Community Health Nursing Issues. 3 hrs. Prerequisite: NSG 622. Corequisite: NSG 623L. Analysis of organizations and resources affecting health care and policy setting relevant to the practice of community health nursing.

623L. United States and World Community Health Nursing Practicum. 3 hrs. Corequisite: NSG 623. Synthesis and application of theories and research with regard to health care, health planning, and policy setting.

630. Psychobiological Theories and Assessment in Advanced Psychiatric Nursing. 3 hrs. Examination of biological, psychological, and pharmacological theory and research concerned with diagnosing and treating individuals experiencing mental health problems.

631. Psychiatric-Mental Health Nursing with Individuals. 3 hrs. Prerequisite: NSG 601 or permission of instructor. Analysis of theories and research relevant to mental health nursing.

631L. Psychiatric-Mental Health Nursing Practicum. 3 hrs. Prerequisite: NSG 630. Corequisite: NSG 631. Experience in the assessment, design, implementation, and evaluation of advanced psychiatric nursing intervention with individuals.

634L. **Pharmacotherapeutic Management of Psychiatric Clients.** 3 hrs. Pre- or corequisite: NSG 630, 631, 646, 647, 648/648L. Experience in diagnosis and pharmacotherapeutic management of persons who have a psychiatric disorder.

640. **Advanced Adult Health Nursing I.** 3 hrs. Prerequisite: Permission of instructor. Corequisite: NSG 640L. Theories and research related to adult health nursing practice.

641. **Advanced Adult Health Nursing II.** 3 hrs. Prerequisite: NSG 640. Corequisite: NSG 641L. Advanced theories and research related to adult health nursing practice.

646. **Advanced Pharmacotherapeutics.** 3 hrs. Prerequisite: Permission of instructor. Pharmacological actions of medications based on drug classifications and therapeutic response of clients to drug intervention by nurses.

647. **Advanced Pathophysiology.** 3 hrs. Prerequisite: Permission of instructor. Adaptations and alterations in body systems to multisystem trauma/illness and stressors. Analyze pathophysiologic states in response to body system alterations and nursing interventions based on adaptation theory.

648. **Advanced Health Assessment.** 2 hrs. Prerequisite: Permission of instructor. Corequisite: NSG 648L. Exploration of the role of the advanced practice nurse with an emphasis on family theory and primary care concepts.

648L. **Advanced Health Assessment Practicum.** 1 hrs. Prerequisite: Permission of instructor. Corequisite: NSG 648. Clinical opportunity to practice advanced nursing health assessment.

660. **Marriage and Family Studies.** 3 hrs. Prerequisite: Permission of instructor. Analysis and conceptualization of family structure and process utilizing systems theory and related research findings.

661. **Family Nurse Practitioner I.** 3 hrs. Prerequisites: NSG 648, NSG 648L. Pre- or corequisite: NSG 646, NSG 647, NSG 661L. Theory and research of the role of the nurse as a primary care provider with emphasis on management of individuals.

661L. **Family Nurse Practitioner I Practicum.** 3 hrs. Prerequisites: NSG 648, NSG 648L. Corequisite: NSG 661. Clinical opportunities to examine the role of the nurse as a primary care provider with emphasis on management of individuals.

662. **Family Nurse Practitioner II.** 3 hrs. Prerequisites: NSG 661, NSG 661L. Corequisite: NSG 662L. Theory and research of the role of the nurse as a primary care provider with emphasis on management of families.

662L. **Family Nurse Practitioner II Practicum.** 3 hrs. Prerequisites: NSG 661, NSG 661L. Corequisite: NSG 662. Clinical opportunities to examine the role of the nurse as a primary care provider with emphasis on management of families.

663. **Family Nurse Practitioner III.** 2 hrs. Prerequisites: NSG 662, NSG 662L. Corequisite: NSG 663L. Theory and research of the role of the nurse as a primary care provider with emphasis on the professional perspective of advanced nursing practice.

663L. **Family Nurse Practitioner III Practicum.** 4 hrs. Prerequisites: NSG 662, NSG 662L. Corequisite: NSG 663. Clinical opportunities to examine and practice the advanced role of the family nurse practitioner with a professional perspective of advanced nursing practice.

664L. **Family Nurse Practitioner Internship.** 3 hrs. Prerequisites: NSG 663, NSG 663L. Student family nurse practitioner will exemplify the role of the nurse practitioner.

678. **Role in Teaching.** 3 hrs. Prerequisite: NSG 611L. Role, change, and conflict theory; evaluation, legal aspects; university governance; student/faculty relations.

678L. **Teaching Practicum.** 3 hrs. Pre- or corequisite: NSG 611L. Application of theories in classroom/clinical teaching, evaluation process, and faculty role in schools of nursing.

679. **Nursing Administration Practicum.** 3 hrs. Prerequisites: NSG 618, 619. Required for majors. Clinical applications relative to the role of the nurse administrator with multidisciplinary interaction.

688. **Medical Aspects of Developmental Disabilities.** 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

691. **Research.** 1-3 hrs. Prerequisites: Graduate research course and approval of instructor. Student selects an area of interest in nursing for study. May repeat.
692. Special Problems. 1-3 hrs. Prerequisite: Approval of instructor. Student selects an area of interest in nursing for study. May repeat.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hours. Prerequisites: NSG 603, and either 612, 621, 631, 640, or 648. Credit deferred until thesis is completed.

701. Philosophy of Science and Nursing Science. 3 hrs. Study of epistemology, the nature of science and method; Positivism, phenomenology, pragmatism, classical and intuitive thought, and the development of nursing science.

702. Theory Development in Nursing. 3 hrs. Pre- or corequisite: NSG 701. Study of theory development process, knowledge generation and evaluation criteria for middle-range theories in nursing and health care.

703. Advanced Nursing Theory. 3 hrs. Prerequisite: NSG 702. Examines current grand and mid-range nursing theories within the context of the totality and simultaneity paradigms.

710. Qualitative Research Design. 3 hrs. Focus on multivariate research designs appropriate for nursing and health care national, international, or national level. Students contract with faculty based on individual learning needs.

711. Qualitative Research Design. 3 hrs. Exploration of qualitative research designs and methods in relation to the development of substantive knowledge in nursing and health care.

712. Research Instrument Development. 3 hrs. Prerequisite: NSG 710. Development of measurement instruments including establishing validity and reliability in relation to nursing and health care theory and practice.

720. Bioethics: Theory and Practice in Nursing. 3 hrs. Examination of contemporary ethical issues related to nursing and health care. Comparison of standard approaches to ethical principles and the feminist approach.

721. The Ethics of Professional Relationships. 3 hrs. Examination of the ethics of professional relationship issues; effects of unequal power balance such as researcher-subject, teacher-student, provider-client.

723. Virtues, Values, and Ethics in Professional Nursing. 3 hrs. Origins and changes in values, virtues, and ethics espoused by nurses. Comparison and analysis of codes of professional ethics. Ethical development in professional nurses.

724. Ethics Practicum. 3-6 hrs. Individually developed experiences in the health care or health education community. May include involvement in ethics committees, teaching/consultation, assessment/intervention.

740. Issues in Nursing and Health Care Leadership. 3 hrs. Focus on leadership issues in health care and higher education. Exploration of historical and governmental influences and review of research and ethics in leadership.

741. Organizational Dynamics in Health Care. 3 hrs. Focus on the complexity of organizations. Exploration of influences by structure, constituencies, communication patterns, and technology on health care and educational agencies.

742. Models for Organizational Leadership in Health Care. 3 hrs. Focus on leadership models and related administrative skills for health care agencies/educational units.

743. Strategic Planning for Service and Education. 3 hrs. Prerequisite: NSG 741. Focus on principles related to the development, implementation, and evaluation of strategic plans at various organizational levels.

744. Leadership Practicum. 3 hrs. Prerequisites: NSG 740, 741, 742 (may be concurrent). Application of leadership theory in a community/agency experience jointly designed by the instructor and student.

745. Critical Thinking in Nursing. 3 hrs. Prerequisites: NSG 701, 702, 703, 710, 711. Critical thinking as goal and process in nursing education and nursing practice. Analysis of research literature and application.

760. Introduction to Nursing and Health Care Policy. 3 hrs. Focus on the role of nurses in development and implementation of health care policy. Exploration of the impact of recent economic and organizational changes on health care delivery.

761. Economics of Health Care Delivery. 3 hrs. Prerequisite: NSG 760. Analysis of health care systems using economic and organizational theories. Includes managed care, capitation, and evolving prospective reimbursement.

762. Nursing and Public Policy Development. 3 hrs. Prerequisite: NSG 761. Study of American health care policy doctrines, formation, evaluation, and implementation. Addresses the role of research as a basis for policy development.

763. Health Care Policy Internship. 1-3 hrs. Prerequisite: NSG 761. Experiences in health policy agencies at state, national, or international level. Students contract with faculty based on individual learning needs.

764. Seminar in Policy Analysis. 3 hrs. Prerequisite: NSG 762. Advanced study in policy analysis in the student’s special area of interest. Includes historical analysis and political action planning.

792. Special Problems. 1-3 hrs. Prerequisite: Permission of the instructor. The student selects an area of interest in nursing for independent study.

891. Special Topics Seminar. 1-6 hrs. A seminar designed to integrate course content from nonnursing disciplines with the nursing emphasis area.
Course Descriptions | 289

898. Dissertation. 1-12 hrs. The design and implementation of a research study or other scholarly work appropriate to the student’s emphasis area, which will generate new nursing knowledge.

Nutrition and Food Systems (NFS)

530. Experimental Foods. 3 hrs. Prerequisites: NFS 320, 320L, 362, and CHE 251, 251L. Study of selected nutritional, chemical, physical, and sensory properties of foods in relation to preparation procedures.

553. Maternal and Child Nutrition. 3 hrs. Prerequisites: NFS 362 and BSC 250, 251L. An examination of the role of nutrition in health, growth, and development during pregnancy, lactation, and childhood.

563. Applied Community Nutrition. 3 or 5 hrs. Prerequisite: NFS 453. Study of nutrition assessment methodology and resources available within the community.

567L. Practicum in Dietetics. 1-9 hrs. Prerequisite: Permission of the instructor. Application of dietetics in selected health care settings.

568. Environmental Nutrition. 2 hrs. Prerequisite: NFS 362. Food safety principles, the Hazard Analysis Critical Control Point System, microbiology of food safety, and infection control.

570. The School Lunch. 3 hrs. An in-depth study of the history, legislation, regulations, philosophy, and need for child nutrition programs.

571. Marketing for the Dietetics Professional. 1 hr. Prerequisite: NFS 362. The application of marketing theories to food and nutrition services.

577. Administrative Dietetics. 3 or 6 hrs. Prerequisite: NFS 350. Study and application of management theory and techniques in the supervision of food service personnel.

585L. Medical Nutrition Therapy II Lab. 1 hr. Corequisite: NFS 585. An application of MNT II through field trips to hospitals, mock charts, case studies, role playing, and videotaping.

630. Food Systems Management. 3 hrs. Prerequisite: Permission of instructor. Organization and management of food service operations, cost control techniques, food production and delivery systems.

640. Advanced Medical Nutrition Therapy. 4 hrs. Prerequisites: NFS 485 and 486, and permission of instructor. Pathophysiology of disease and application of medical nutrition therapy to treatment.

662. Community Health and Nutrition. 3 hrs. Analysis of current public policy issues related to nutrition, including impact on health, quality of life, and productivity.

663. The Nutrition of Children. 3 hrs. Prerequisite: Minimum of one nutrition course approved by the instructor. Study of eating patterns and nutritional needs of children and the nutritional programs and services available to meet these needs.

664. Seminar in Food and Nutrition. 1-3 hrs. May be repeated for a total of 6 hours.

667. Nutrition for Teachers. 3 hrs. Prerequisite: Minimum of one nutrition course approved by the instructor. Programs, theories, methods, techniques, and equipment used for teaching nutrition in schools.

672. Quantity Food Preparation. 3 hrs. Prerequisite: Permission of instructor. Principles of quantity food purchasing, production, and service.

675. Production Management in Food Service Systems. 3 hrs. An in-depth exploration of production planning and control techniques including production scheduling, inventory management, and design and layout of food service systems.

676. Seminar in Institution Management. 3 hrs. May be repeated for a total of 6 hours.

691. Research in Food and Nutrition. 1-16 hrs.

692. Special Problems in Nutrition. 1-4 hrs.

693. Readings in Nutrition and Food Systems. 1 hr. Recent developments in research related to nutrition and food systems. May be repeated for a total of 3 hrs.
294. Current Topics in Food Service Management. 1–6 hrs. Prerequisite: Permission of instructor. Study of a current problem in foodservice management. May be repeated for credit.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1–6 hrs. for a total of 6 hrs. maximum. Credit deferred until thesis is completed.

703. Research Techniques for Nutrition and Food Systems. 3 hrs. Prerequisites: REF 601 and 602 or CHS 540 and 623. The research process in nutrition and foodservice management with an emphasis on designing research projects and interpreting findings.

704. Nutritional Aspects of Proteins. 2 hrs. Prerequisites: NFS 410, Biochemistry, Physiology. A study of digestion, absorption, and metabolism of proteins with emphasis on requirements, deficiencies, and physiological stresses.

705. Carbohydrates in Nutrition. 2 hrs. Prerequisites: NFS 410, Biochemistry, Physiology. A study of digestion, absorption, and metabolism of carbohydrates with emphasis on energy metabolism.

706. Lipids in Nutrition. 2 hrs. Prerequisites: NFS 410, Biochemistry, Physiology. An advanced study of the digestion, absorption, and metabolism of lipids with emphasis on cholesterol metabolism and energy.

707. Minerals in Nutrition. 2 hrs. Prerequisites: NFS 410, Biochemistry, Physiology. Biochemical and physiological aspects of mineral absorption, metabolism, and function; deficiencies and toxicities will be discussed.

708. Vitamins in Nutrition. 2 hrs. Prerequisites: NFS 410, Biochemistry, Physiology. Biochemical and physiological aspects of vitamin absorption, metabolism, and function; deficiencies and toxicities will be discussed.

710. Nutrition and Carcinogenesis. 2 hrs. Prerequisite: NFS 410. A study of carcinogenesis and the role of nutrition in its process.

713. Nutrition Education: Theory, Research, and Practice. 3 hrs. An analysis of nutrition education theory, research and practice, with emphasis on planning, implementation, and evaluation of nutrition education.

715. Recent Developments in Applied Nutrition. 3 hrs. A study of current trends in applied nutrition. Topics will vary each time the course is taught.

720. Nutrition and Aging. 3 hrs. Prerequisites: BSC 250, 251, and NFS 362. Nutritional issues in the aging population including nutrient requirements, food habits, and nutrition services.

730. Digestion, Absorption, and Excretion of Nutrients. 3 hrs. Prerequisites: NFS 410, Biochemistry, Physiology. An advanced study of the digestion, absorption, and excretion of nutrients with emphasis on macronutrients.

740. Issues in Food Safety. 3 hrs. A broad study of food safety issues including occurrence and prevention of food-borne illnesses using HACCP principles and the role of diet and dietary anticarcinogens in the development of cancer.

774. Management of Nutritional Services: A Behavioral Approach. 3 hrs. Study of individual and group behavior in the management of nutrition services.

776. Development of Business Opportunities in Food and Nutrition Services. 3 hrs. Prerequisites: NFS 774 and MKT 300 or 550. Analysis of opportunities to develop food and nutrition businesses targeted to specific markets. Strategies for creating FNS businesses.

777. Service Systems, Planning and Control. 3 hrs. Prerequisite: NFS 774. Analysis of service management, TQM and organizational management theories and concepts as applied to food and nutrition service systems.

791. Doctoral Research in Nutrition and Food Systems. 1–16 hrs. Prerequisite: Permission of instructor. Research in nutrition and food systems.

792. Special Problems in Nutrition and Food Systems. 1–6 hrs. Special problems in nutrition and food systems.

797. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

810. Food and Nutrition Public Policy. 3 hrs. An examination of United States public policy in food and nutrition, with emphasis on the role of the nutrition professional in influencing the public policy process.

811. Doctoral Seminar. 1–3 hrs. Repeatable up to three (3) total hours.

813. Nutritional Metabolism. 3 hrs. Prerequisite: NFS 704, 705, 706, 707, or 708. Study of nutrients and intermediary metabolism, including regulation of metabolic pathways.

817. Advances in Nutrition and Foodservice Management Education. 3 hrs. Analysis of the impact of societal and professional issues on nutrition and foodservice management education.

898. Dissertation. 1-12 hrs. for a total of 12 hours.

Philosophy (PHI)

506. Philosophy of Human Nature. 3 hrs. Philosophical consideration of the nature of human consciousness, including topics in philosophical anthropology, philosophical psychology, and cognitive science.

536. Aesthetics. 3 hrs. Philosophical analysis of theories of art and beauty.

550. Existentialism and Phenomenology. 3 hrs. An examination of the central themes in contemporary European existentialism and phenomenology.

551. Political Philosophy. 3 hrs. The major schools of political philosophy from classical to contemporary times.

552. Health Care Ethics. 3 hrs. An examination of various conceptual and ethical issues in the health care professions.

553. Philosophy of Law. 3 hrs. An inquiry into theories of law.

557. Environmental Ethics. 3 hrs. An examination of human responsibilities for nature; the impact of civilization on the natural world; formulation of ethical principles and policies.

558. Symbolic Logic. 3 hrs. The basic theory and operations of the sentential calculus, quantification, and the logic of relations.

560. Contemporary Philosophical Issues. 3 hrs. An examination of the central themes in contemporary philosophy.

592. Special Problems. 3 hrs. A study of a philosophical issue to be approved by the department chair. May be taken for a total of 9 hours.

599. British Studies: Comparative Business Ethics. 3-6 hrs.

610. Philosophy of Religion. 3 hrs. Seminar topics in philosophical theology.

620. Seminar in Metaphysics. 3 hrs. Classical and contemporary metaphysics will be examined. Modern criticism by logicians, analytic philosophers, and philosophers of science will be presented.

625. Seminar in Modern Philosophy. 3 hrs. A critical investigation of the writings of selected modern and contemporary philosophers.

630. Seminar in Epistemology. 3 hrs. Advanced study of issues concerning the theory of knowledge.

635. Ethics. 3 hrs. An advanced study of issues and problems in moral philosophy.

636. Major Philosopher. 3 hrs. An advanced study of the contributions of a selected philosopher.

640. Major Issues in Philosophy. 3-6 hrs. This course focuses on one or more major issues in philosophy in one or more historical periods of philosophy. The student may repeat this course one time if the course involves a different major issue.

656. Philosophy of Science. 3 hrs. An in-depth study of the scientific method, the nature of science, hypothesis development, and theory choice.

681. Departmental Seminar. 1 hr. Repeatable up to a total of 3 semester credit hours. Pass/fail only.

691. Research in Philosophy. 1-16 hrs. With the approval of the department and under the guidance of the student’s major professor, the student will begin research on his/her master’s thesis. Pass/Fail only.

692. Special Problems. 1-6 hrs. A study of a philosophical issue to be approved by the department chair.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs.

735. Research Ethics and Skills. 3 hrs. This course is an examination of the ethics and skills of academic research and professional practice, covering both general issues and concerns specific to particular disciplines.

Physics (PHY)

523. Science and Society: From Copernicus to the Bomb. 3 hrs. Traces the development of science and technology and their role in society from the Renaissance to the present. (Cross listed as BSC 523 and HIS 523.)
551. Physical Applications of the Fourier Transform. 3 hrs. Prerequisites: PHY 202 and MAT 280. The continuous Fourier transform and its symmetries together with its roles concerning measuring devices.

555. Fluid Dynamics. 3 hrs. Prerequisites: PHY 350, MAT 385. A mathematical development of the physical principles governing fluid flow.

564. Fundamentals of Solid State Physics. 3 hrs. Prerequisite: Permission of instructor. The basic physical processes which occur in solids and semiconductors.

565. Nuclear Physics. 3 hrs. Prerequisite: PHY 361. Nuclear binding forces, chain reaction, and the nonsteady state reactor, radiation detection.

585. History and Literature of Physics. 3 hrs. A survey of the history of physics from ancient times, stressing the rise and fall of concepts.

601. Mechanics. 3 hrs. Prerequisite: Permission of instructor. A formal mathematical development of graduate level mechanics.

602. Electricity and Magnetism. 3 hrs. Prerequisite: Permission of instructor. A graduate level formal mathematical development of electricity and magnetism.

604. Physics for High School Teachers. 3 hrs. Prerequisite: Permission of instructor. Principles of physics designed to update the teacher's effectiveness in teaching physics.

605. Special Topics in Theoretical or Experimental Physics. 3 hrs. Prerequisite: Permission of instructor. Subjects depend upon current interest of students and staff.

606. Methods of Mathematical Physics. 3 hrs. Permission of instructor. The application of advanced mathematical methods to the study of various physical systems.

610. Astronomy for Teachers. 3 hrs. Prerequisite: Permission of instructor. Solar-system and stellar astronomy.

640. Electron Optics and Its Applications. 3 hrs. Prerequisite: Permission of instructor. Electrostatic and magnetic lenses, electron microscopes.

650. Quantum Mechanics I. 3 hrs. Prerequisite: Permission of instructor. The Schroedinger equation, operators and eigenfunctions, spherically symmetric systems.

651. Quantum Mechanics II. 3 hrs. Prerequisite: Permission of instructor. Scattering theory, matrix mechanics, angular momentum, perturbation theory.

689. Seminar I. 1 hr. Prerequisite: Permission of instructor. Study of current literature in physics supplemented by laboratory research.

689. Seminar II. 1 hr. Prerequisite: Permission of instructor. Study of current literature in physics supplemented by laboratory research.

689. Seminar III. 1 hr. Prerequisite: Permission of instructor. Study of current literature in physics supplemented by laboratory research.

689. Seminar IV. 1 hr. Prerequisite: Permission of instructor. Study of current literature in physics supplemented by laboratory research.

691. Research in Physics. 1-16 hrs.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hours.

Planning (PLG)

550. Financing Economic and Community Development. 3 hrs. An examination of the theory and practice of public finance is provided in this course. Topics include fiscal impact assessment of development, capital budgeting, and current policy issues.

561. Planning and Development Law. 3 hrs. The legal context for planning and managing land use and development is provided in this course. The course also provides insight into environmental law as applied to planning.

562. Environmental Planning and Policy. 3 hrs. This course provides an introduction to the detailed study of environmental planning analysis and methodology as an element in land use decision-making systems.

563. Planning and Development Research Methods. 3 hrs. This course provides an introduction to research techniques for collection, organization, and analysis of information to aid in the planning and development decision-making process.
564. Physical Infrastructure for Planning and Development. 3 hrs. The relationships between physical infrastructure and planning and development are explored in this course. Provisions of physical infrastructure at the site and community levels are examined.

565. Land Use Planning and Policy. 3 hrs. This course will examine the planning and development procedures which impact the development market such as land suitability analysis and land use plans.

566. Economic Development Planning for Communities. 3 hrs. This course provides an introduction to the strategies, programs, and processes used at the community and regional levels to encourage investment and employment opportunities.

569. Studio Laboratory: Plan Preparation. 3 hrs. Preparation and presentation of a professional plan as a collaborative student/community effort. May be repeated with change of content for a total of 6 hours.

570. Current Issues Seminar. 3 hrs. This course is designed to allow flexibility in the topic, depending on student interests. The course will begin by an examination of the profession including its evolution, theory base, ethics, and requirements for professional certifications. A current topic will then be selected for exploration, such as transportation planning, sustainable development, or negotiation and conflict management.

599. Comparative Urban Planning. 3-6 hrs. This course focuses on urban planning and the development of the urban landscape in the British Isles. Includes lectures, field trips and directed research.

662. Seminar in Environmental Planning. 3 hrs. Prerequisite: PLG 462/562 or approval of instructor.

665. Seminar in Community and Regional Planning. 3 hrs. An overview of the development and fundamentals of community and regional planning.

667. Development Dispute Resolution. 3 hrs. Examines contemporary methods used to resolve urban development disputes.

668. The Context of Public Planning. 3 hrs. An examination of the political, social, economic and organizational context of public planning.

691. Internship. 1-9 hrs. May be repeated for a total of 9 hrs.

692. Special Problems. 1-6 hrs.

697. Independent Study and Research. Arr. Not to be counted as credit toward a degree. Students who are not in residence but are actively working on a thesis and consulting with the major professor or making use of the library or other university facilities must enroll in this course.

698. Thesis. 1-6 hrs. for a total of 6 hrs.

Political Science (PS)

501. Political Socialization. 3 hrs. How we learn and what we learn about politics.

502. Urban Politics. 3 hrs. An examination of political issues in America’s metropolitan areas.

503. Politics and Environment. 3 hrs. Course examines major political theories applied in environmental approaches. Second, the impact of these political theories on environmental policy is considered.

504. The Legislative Process. 3 hrs. An examination of American legislative institutions, with major emphasis on Congress.

505. Women and Politics. 3 hrs. An examination of the women’s movement, women in political theory with an emphasis on democratic theory, women and the law, and modern feminist thought.

506. Political Parties. 3 hrs. An examination of the role of political parties in the American political system.

507. Mississippi Government. 3 hrs. An examination of political institutions and processes in Mississippi.

508. The American Presidency. 3 hrs. An analysis of the selection, role, power, and performance of the presidency.

509. Southern Politics. 3 hrs. An examination of the politics and political culture of the southern states.

511. Research in Political Science. 3 hrs. An introduction to the theory and practice of political research.

512. Political Analysis. 3 hrs. An introduction to the theory and practice of political analysis.

520. Political Theory Plato to Machiavelli. 3 hrs. Examines major thinkers from 500 B.C. to 1500 A.D. Includes— in addition to Plato and Machiavelli—Aristotle, Augustine, and Aquinas, and topics such as feudal political thought.

521. Political Theory Hobbes to Nietzsche. 3 hrs. A study of modern political theory, focusing on selected theorists (e.g. Hobbes, Rousseau, Marx, and Nietzsche) and topics such as anarchism and socialism.

526. 20th-Century Political Theory. 3 hrs. Thinkers from V.I. Lenin to Hannah Arendt, Michel Foucault, and Vaclav Havel will be analyzed. The course includes schools of contemporary thought such as feminism and postmodernism.

531. International Law and Organization. 3 hrs. The study of the functions of intergovernmental organizations in the modern world system.
294  |  Course Descriptions

532. Foreign Policies of the Major Powers. 3 hrs. Case studies illustrating the behavior of states in world affairs.
535. Comparative Foreign Policy. 3 hrs. An examination of the foreign policies of other nations.
550. Comparative Studies in European Politics. 3 hrs. An examination of contemporary West European political systems, including the European Union.
551. Governments of Eastern Europe. 3 hrs.
552. The Political Systems of Great Britain and the Commonwealth. 3 hrs. An analysis of the politics of Great Britain, Canada, Australia, and New Zealand, stressing the dynamics of parliamentary government.
556. Latin American Governments and Politics. 3 hrs.
557. Political Development. 3 hrs. A comparative analysis of political change and modernization.
558. Latin American Political and Economic Development. 3 hrs.
570. Science, Technology and Politics. 3 hrs. The role of politics in science and technology is examined specifically in terms of the impact of elites, the public, and technocrats.
571. Public Personnel Administration. 3 hrs. Examines the United States Civil Service and Merit System and its impact on employees and government.
572. Organization and Management. 3 hrs. The "models" or "theories" of organization. Administrative management and alternative models are evaluated as to their potential for authentic public organization.
573. Public Policy. 3 hrs. Substantive areas of public policy are investigated in this course, including public health; medicine; energy; air and water pollution; land use, etc.
574. The Politics of Taxing and Spending. 3 hrs. This course is divided into two areas, budgeting models and their politics; issues such as taxing, fiscal policies, etc., are considered.
580. United States Constitutional Law. 3 hrs. An examination of the powers of the national government and the relationship between the national and state government using Supreme Court decisions.
581. The American Judicial Process. 3 hrs. This course examines the political aspects of the staffing, structure, and operation of the state and federal court systems.
584. Administrative Law. 3 hrs. An analysis of the procedures and powers of federal agencies.
585. International Law. 3 hrs. The development of the modern law of nations with emphasis on conventions and cases.
589. United States Supreme Court and Civil Liberties. 3 hrs. An analysis of the role of the United States Supreme Court in protecting individual rights. Primary focus is on litigation involving provisions of the Bill of Rights.
597. Government-Business Relations in Japan. 3 hrs. An on-site analysis of business and government linkage in Japan offered under the auspices of the Center for International and Continuing Education.
599. Seminar in British Politics. 3-6 hrs. A seminar conducted in Great Britain under the auspices of the Anglo-American Institute.
691. Research in Political Science. 1-16 hrs.
692. Special Problems. 1-3 hrs. arr. The student works individually on a paper in political science under the supervision of a graduate faculty member.
693. Internship in Political Science. Hours. arranged. Departmental approval required. Student will work with an employer acting in the public sector in order to form practical experience in political and public affairs.
697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.
698. Thesis. 1-6 hrs. for a total of 6 hrs.
700. Seminar in United States Government. 3 hrs. Prerequisite: Course in American national, state, and local government or consent of instructor. May be taken twice for credit.
721. Seminar in Political Theory. 3 hrs. May be taken twice for credit.
730. Seminar in United States Foreign Relations. 3 hrs. Prerequisite: Another course in United States foreign policy or history of United States foreign policy or permission of instructor. A survey of current United States foreign policies and problems. May be taken twice for credit.
731. Seminar in International Relations. 3 hrs. May be taken twice for credit. A survey and analysis of classical and modern world politics.
750. Seminar in Comparative Government and Politics. 3 hrs. Prerequisite: One or more courses in comparative government or permission of the instructor. A research-type course in which each student will perform an intensive study of the political institutions of one country, or of a group of countries having similar governments. May be taken twice for credit.
770. Seminar in Public Administration. 3 hrs. Course focuses on the modern liberal administrative state. This state is analyzed for its political-philosophical origins. May be taken twice for credit.

771. Seminar in Public Law. 3 hrs. Prerequisite: A course in constitutional law or consent of the instructor. A research course in which the students examine in-depth various aspects of the judicial system and its relationship to other elements in the political process. May be taken twice for credit.

779. British Studies: Advanced Seminar in British Politics. 3-6 hrs. Lecture series and research in British politics offered abroad under the auspices of the Center for International and Continuing Education.

**Polymer Science (PSC)**
(Please see Forensic Science-FSC)

550. Polymer Characterization. 3 hrs. Macromolecular chemical structure and morphological characterization using state-of-the-art spectroscopic techniques and methods.

550L Laboratory for PSC 550. 1 hr.

570. Surface Coatings. 4 hrs. Study of the physical and chemical properties of the pigments, binders, solvents, and additives employed in surface coatings formulations, paint formulation, dispersion techniques, surface preparation, paint testing, nonpolluting application techniques, and surface coatings formulations analysis.

570L Laboratory for PSC 570. 1 hr.

691. Research in Polymer Science. 1-16 hrs. May be repeated.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis, but who are actively working on a thesis, consulting with the major professor, or using other resources of the university, must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs.

703. Organic Polymer Chemistry III. 3 hrs. Methods of studying stereochemistry of polymers, anionic and cationic polymerization, and polymerization via homo- and heterogeneous catalysis.

710. Polymer Physical Chemistry I: Solution Properties. 3 hrs. A study of polymer chain conformation, solution thermodynamics, phase equilibria, and transport phenomena.

711. Polymer Physical Chemistry II: Characterization. 3 hrs. Polymer characterization to include light scattering, end group analysis, osmometry, fractionation, viscometry, gel permeation chromatography, and molecular weight distributions.

720, 721. Polymer Techniques I, II. 2 hrs., 2 hrs. Laboratory methods of polymer synthesis, structural determination, and characterization.

730. Polymer Rheology. 2 hrs. The elastic and viscosity properties of polymer solutions and melts will be studied from a molecular and engineering perspective.

740. Polymer Kinetics. 2 hrs. Introduction to polymerization kinetics.

789. Polymer Science Seminar. 1 hr. May be repeated each semester while in residence.

791. Research. Hrs. arr. 1-16 hrs. May be repeated.

797. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation, but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university, must enroll in this course for at least 3 hours each semester.

801. Structure and Elasticity of Polymer Networks. 2 hrs. Prerequisites: PSC 703 and 712, or permission of instructor. Study of the structure, elasticity, and mechanical properties of polymer networks.

803. Polymer Composite Blends and IPN. 2 hrs. Prerequisites: PSC 703 and 712, or permission of instructor. Deals with modern composites, with discussions of high performance fibers, matrices, and interphases with relevant material included from the areas of blends and interpenetrating networks.
296 Course Descriptions

804. Naturally Occurring Polymers. 2 hrs. Prerequisites: PSC 703 and 712, or permission of instructor. Study of the structure-property relationships of naturally occurring polymers, including polysaccharides, proteins, and nucleic acids.

805. Surface Coatings. 2 hrs. Prerequisites: PSC 703 and 712, or permission of instructor. Scientific principles underlying surface coatings science are studied in depth.

806. Industrial Monomer and Polymer Science. 2 hrs. Prerequisites: PSC 703 and 712, or permission of instructor. Industrial monomer and polymer science.

807. Testing of Polymers. 2 hrs. Prerequisites: PSC 703 and 712, or permission of instructor. Testing of polymers: adhesives, coatings, fibers, plastics, and elastomers.

808. Polymer Processing Principles. 2 hrs. Prerequisites: PSC 730 and 740, or permission of instructor. Use of transport phenomena to quantitatively describe mass, energy, and momentum changes involved in polymer processes such as mixing, extrusion, and molding.

810. Physical Properties of Macromolecular Solids. 2 hrs. Prerequisites: PSC 710 and 711, or permission of instructor. Advanced study of glassy and crystalline physical state of macromolecular solids emphasizing the influence of morphological structure.

811. Polymer Physics. 2 hrs. Prerequisites: PSC 710 and 711 or permission. Advanced study of polymer conformation, phenomenological and molecular theories of polymer relaxation, diffusion in polymers.

812. Conformational Analysis, Molecular Design of Polymers. 2 hrs. Prerequisites: PSC 710, 711, 712. Study of molecular interactions that control polymer conformation. Molecular modeling in material design.

880. Selected Topics I. 3 hrs. To include a survey of such topics as thermally stable polymers, silicone elastomers, emulsion polymers, controlled biocide release from polymers, water-soluble high molecular weight polymers, photochemistry.

881. Selected Topics II. 3 hrs. To include a survey of such topics as thermally stable polymers, silicone elastomers, emulsion polymers, controlled biocide release from polymers, water-soluble high molecular weight polymers, photochemistry.

898. Dissertation. 1-12 hrs. May be repeated for a maximum of 12 hrs.

Psychology (PSY)

511. Psychological Testing and Assessment. 3 hrs. Prerequisites: PSY 110 and 360 or equivalent. Introduction to theory and techniques of psychological testing and assessment.

513. Multicultural Counseling. 3 hrs. Examines cultural diversity in North American society with focus on implications for mental health service providers.

518. History and Systems of Psychology. 3 hrs. Prerequisite: Permission of instructor. Review of the history of psychology and intensive study of current systems of psychology.

520. Sensation and Perception. 3 hrs. Prerequisite: PSY 320. A survey of sensory and perceptual processes with emphasis on the visual system.

522. Psychology of Learning. 3 hrs. Prerequisite: PSY 320. Basic problems, theories, and research in the areas of human and animal learning.

523. Group Procedures. 3 hrs. The study of behavior in group settings with particular attention given to applications in mental health agencies and institutions.

524. Animal Behavior. 3 hrs. Prerequisite: PSY 320. The study of animal behavior with special emphasis on the comparison of psychological processes along the phylogenetic scale.

526. Behavioral Neurosciences. 3 hrs. Prerequisite: PSY 110. Relationship between physiological functions and behavior.

527L. Laboratory Techniques in Behavioral Neuroscience. 3 hrs. Prerequisite: Permission of instructor. Experimental techniques in neurophysiology, neuropharmacology, and behavioral research. (May be taken as BSC 556L.)

532. Behavioral Interventions. 3 hrs. An introduction to behavioral interventions as applied to normal and deviant behavior across different environmental settings.

536. Abnormal Psychology. 3 hrs. Prerequisite: Permission of the instructor. Study of the major psychoses, and psychoneuroses, and mental deficiency.

550. Social Psychology. 3 hrs. Prerequisite: PSY 110. Study of the individual in group situations, and the influence of the social environment on behavior and development.

552. Sleep and Behavior. 3 hrs. Prerequisite: Permission of instructor. A study of sleep and behavior from the perspective of the major disciplines within psychology.

554. Cetacean Behavior and Cognition. 3 hrs. A comprehensive review of the literature on the behavior, communication, and cognitive abilities of whales and dolphins.

555. Psychology of Personality. 3 hrs. A study of the factors involved in the development of the mature personality.
556. **Psychology of Aging and Death.** 3 hrs. Study of problems and attitudes concerning aging and death.

557. **Psychology of Religion.** 3 hrs. Prerequisite: PSY 110. An examination of modern psychological perspectives on religious beliefs, experiences, and practices.

560. **Advanced Data Analysis.** 3 hrs. Prerequisite: PSY 360. The conceptual foundations of statistical procedures commonly used in behavioral research will be extensively reviewed. Use of statistical packages will be a major focus.

578. **Specialized Studies in Developmental Disabilities.** 1-6 hrs. Specialized study and skill acquisition in the area of developmental disabilities. Topics vary.

582. **Moral Value Development in Childhood and Adolescence.** 3 hrs. A study of the major theories of moral development and techniques for facilitating moral growth.

596. **Families of the Developmentally Disabled.** 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

597. **Professional Collaboration for Developmental Disability Services.** 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

599. **British Studies.** 3-6 hrs. Lecture and research on variable topics. Offered in Great Britain through the Southern Miss Center for International and Continuing Education.

607. **Ethics and Current Issues in Psychology.** 3 hrs. Permission of instructor. Professional ethics and current issues and trends related to the teaching, research, and practice of psychology.

609. **Contemporary Topics in Psychology.** 3 hrs. May be repeated up to 12 hrs.

610. **Foundations, Organization, and Administration of Guidance.** 3 hrs. An introduction to counseling and guidance services at the elementary/secondary school levels. Attention is given to both the range of services typically offered and to principles for organizing and administering a program of guidance services.

611. **Career Development and Information Services.** 3 hrs. The introduction to theories of career development and an analysis of the world of work. Processes are identified through which occupational/educational and personal/social information may be integrated for career/life planning.

612. **Counseling Theory and Practice.** 3 hrs. Emphasizes theories and principles underlying the practical application of various helping techniques.

613. **Cultural Bases of Behavior.** 3 hrs. A foundations course designed to develop an understanding of and respect for cultural and individual differences. Generalizations will be made to psychological research and practice.

614. **Testing and Individual Analysis.** 3 hrs. Prerequisites: REF 602 or equivalent and instructor permission. The fundamental principles of psychological assessment including concepts necessary for the administration, scoring, interpretation, and use of test results. Attention is also given to ethics and issues involved in the appropriate use of psychological test results.

615. **The American College Student.** 3 hrs. An overview of the American college student, including historical background, demography, societal influences, issues, and trends.

616. **Proseminar in Clinical Psychology.** 1 hr. Prerequisite: Admission to the clinical training program. An overview of contemporary clinical psychology and an introduction to the scientist/practitioner model at Southern Miss.

621. **Theories of Learning.** 3 hrs. Basic concepts, problems, and research methodology in the studying of learning and motivation.

624. **Advanced Behavioral Neuroscience.** 3 hrs. Study of neurophysiological mechanisms in behavior and related problems.

630. **Introduction to Counseling in the Community.** 3 hrs. An introductory course that includes such topics as history of counseling as a professional field; counseling professional organizations, accreditation, and credentialing; ethical and legal principles; and introduction to the community environment.

635. **Psychoeducational Assessment I.** 3 hrs. Consideration of the major theories of personality, and research on the development and measurement of personality.

639. **Theory and Practice of Student Affairs.** 3 hrs. An introduction to student development services in higher education.

640. **Clinical Assessment I.** 3 hrs. Prerequisites: Admission to the clinical psychology training program and permission of instructor. Theory, administration, and interpretation logic of clinical assessment (intellectual, behavioral, social) from infancy to early childhood.

641. **Clinical Assessment II.** 3 hrs. Prerequisites: PSY 640 and permission of instructor. Clinical assessment techniques (psychometric and behavioral) from childhood through adulthood. Experience includes clinical assessments.

642. **Psychoeducational Assessment I.** 3 hrs. Each. Prerequisite: Permission of instructor. Theory and practice of psychometric and behavioral assessment, including individual intelligence testing; multicultural issues.

643. **Psychoeducational Assessment II.** 3 hrs. Prerequisite: PSY 642 or permission of instructor. A study of the various psychological tests used in the appraisal and evaluation of exceptional children.

650. **Microskills Laboratory.** 3 hrs. Seeks to develop the microskills which are foundational to helping relationships.
Course Descriptions

651. School Counseling Field Practicum. 3 hrs. Prerequisites: PSY 610, 612, 650. A basic counseling field practicum for school counselors.

652. Counseling Psychology Practicum I. 3 hrs. Prerequisites: PSY 612, 614, and prior arrangement with instructor. Beginning clinic practicum in counseling and psychological services. Students are expected to acquire basic competencies in counseling, testing and implementation of a systematic plan for behavior change.

653. Comprehensive Field Practicum for School Counselors. 3-12 hrs. Prerequisites: PSY 650, 651. A field practicum for students enrolled in the Counseling and Personnel Services program. Students may repeat for a maximum of 9 hours credit.

654. College Student Personnel Practicum. 3 hrs. A basic field practicum for college student personnel specialists.

655. Survey of Industrial and Organizational Psychology. 3 hrs. Examination of basic theories, concepts, and issues required for advanced graduate study in industrial and organizational psychology. Permission of instructor is required for non-I/O graduate students.

659. Research Design. 3 hrs. An overview of research design and methodology, with an emphasis on problems in applied settings.

660. Advanced Data Analysis. 3 hrs. Critical evaluation of a variety of analytic techniques.

661. Research Evaluation in the Behavioral Sciences. 3 hrs. Seeks to develop skills in evaluating the methodological soundness and usefulness of behavioral science research.

662. Quantitative Methods I. 3 hrs. Prerequisite: PSY 360 or permission of instructor. Theory and application of probability, Chi Square, simple and multiple correlation and regression, reliability, validity, and cross validation.

663. Quantitative Methods II. 3 hrs. Prerequisite: PSY 660 or permission of instructor. Concepts of measurement, sampling, variability, hypothesis testing, and power as applied to analysis of variance and covariance, including repeated measures.

670. Advanced Educational Psychology. 3 hrs. Theory and databases relating to the contributions of psychology to the schooling process.

671. Seminar in School Psychology. 3 hrs. Prerequisite: Admission to the school psychology training program or permission of instructor. Professional issues and standards; pre-practicum training and experience. May be repeated to limit of 6 hrs.

672. Social Processes in Classroom Learning. 3 hrs. Pupil-teacher interaction; instruction in developing goals, changing attitudes, resolving conflicts, and enhancing the individual’s sense of worth.

674. Advanced Child Psychology. 3 hrs. Mental, motor, social, and emotional development of children of elementary school age.

675. Advanced Adolescent Psychology. 3 hrs. Advanced study of the adolescent and his or her needs in the home, school, and community.

676. Psychology of Mental Retardation. 3 hrs. Prerequisite: Permission of instructor. Study of personality development, problems of adjustment, and abnormal behavior of the mentally retarded.

688. Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

690. Research in Psychology. 1-16 hrs.

692. Special Problems I, II, III. 1-3 hr. By prior arrangement only.

693. Research in School Psychology I, II, 1 hr. each. Prerequisite: Admission to the school psychology training program or permission of instructor. Introduction to scientific inquiry in school psychology.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

699. British Studies: Research in Psychology. 3 hrs.

701. Seminar in Teaching of Psychology. 1 hr. An analysis of the psychoeducational problems involved in the undergraduate and graduate teaching of psychology.

702. Practicum in Teaching Psychology. 3-6 hrs. Supervised teaching of courses in psychology.

710. Group Counseling and Psychotherapy. 3 hrs. Introduction to theory and practice of group counseling and psychotherapy. Requires participation in experimental quasi-group. Major theoretical models for group work are surveyed.
711. **Theory and Practice of Consultation.** 3 hrs. Introduction to the theory and process of consultation. Emphasis is placed on student acquisition of basic consulting skills/competencies.

712. **Assessment and Diagnosis.** 3 hrs. Prerequisites: PSY 614 and permission of instructor. An advanced course in psychological assessment and diagnosis. Attention is given to the selection and use of instruments commonly employed by counseling psychologists in clinical settings, and to diagnostic criteria of the DSM-IV.

713. **Intermediate Counseling Theory.** 3 hrs. Prerequisite: PSY 612 or equivalent. An intermediate-level course that provides a systematic analysis of major counseling theories, with an emphasis on the integration of theoretical constructs with practice and contemporary research.

714. **The Psychology of Vocational Development.** 3 hrs. An advanced study of vocational development as a life process. Concepts from the psychology of vocational development are examined as a basis for implementing the scientist-practitioner model through career counseling.

717. **Theory and Practice of Developmental Counseling.** 3 hrs. An overview of major developmental theories with emphasis upon school-based strategies for assisting children in meeting their developmental needs.

718. **History of Modern Psychology.** 3 hrs. Historical antecedents of modern psychology with emphasis on how developments occurring at various points in time form part of a historical pattern instead of simply a sequence of isolated events.

719. **Brain Damage and Behavior.** 3 hrs. Prerequisite: Permission of instructor. Causes of brain injury are studied and their effect on the mental and physical behavior of man are considered.

720. **Psychological Interventions with Families and Children.** 3 hrs. An introduction to specialized counseling interventions with children.

721. **Conditioning and Learning.** 3 hrs. An intensive study of the role of contemporary theories of learning and motivation in current research.

723. **Comparative Psychology.** 3 hrs. A detailed consideration of the capabilities of various species, including humans, with special emphasis on explanations of species’ similarities and differences.

724. **Psychopharmacology.** 3 hrs. Prerequisite: PSY 624 or equivalent. An introduction to psychopharmacology with a focus on features and characteristics of psychotropic drugs commonly used in applied settings of interest to psychologists.

725. **Motivation.** 3 hrs. Prerequisite: Permission of instructor. A study of the current theories and research in the area of human and animal motivation.

726. **Perception.** 3 hrs. Prerequisite: Permission of instructor. The development and nature of human perception.

727. **Workshop in Counseling Supervision.** 3 hrs. 30 contact hours of instruction in the clinical supervision of counseling; some instruction in mental health administration.

728. **Advanced Experimental Psychology I, II, III.** 3-9 hrs. For graduate students who wish to conduct publishable research not a part of a graduate thesis. Limit of 9 semester hours.

729. **Psychophysiology.** 3 hrs. Prerequisites: PSY 624 and permission of instructor. Study of psychophysiological principles as they apply to research and clinical problems.

730. **Proseminar in Psychophysiology.** 1-3 hrs. May be repeated to limit of 15 hrs. Prerequisite: Permission of instructor. Analysis of major topics in psychophysiology; laboratory techniques and experience.

731. **Field Research Project.** 1-3 hrs. To be taken after completion of data collection in an approved investigation.

732. **Marriage and Family Therapy.** 3 hrs. A survey of marital and family therapy models. Attention is given to the application of systems models.

733. **Applied Psychology Field Experience.** 1-3 hrs. Open only to psychology majors. Supervised applied experience in a variety of applied settings. Limit of 15 hours.

734. **Behavior Therapy.** 3 hrs. Prerequisites: Doctoral track and permission of instructor. Study of the principles of behavioral change and the evaluation of clinical research in behavior modification.

735. **Clinical Psychology Externship.** 3 hrs. Prerequisites: PSY 736, 782, and permission of the director of clinical training. Supervised clinical experience in community, residential, and hospital mental health settings.

736. **Pre-Practicum in Clinical Psychology.** 3 hrs. Prerequisites: Permission of the director of clinical training and doctoral status in clinical psychology. Procedures for the operation of the psychology clinic and basic interviewing.

737. **Administration and Supervision in Clinical Psychology.** 3 hrs. Prerequisites: Doctoral status in the clinical program and permission of instructor. Techniques of administration and supervision of clinical psychologists in mental health settings.

738. **Alcoholism and Drug Abuse.** 3 hrs. Advanced topics in alcoholism and drug abuse. Approximately one-half of the course is devoted to basic concepts, with the remainder devoted to design and implementation of intervention strategies.
739. Current Issues and Trends in Student Affairs. 3 hrs. Prerequisite: PSY 639 or permission of instructor. A topical study of current issues and trends in the design of student development services in higher education.

740. Objective Personality Assessment. 3 hrs. Prerequisites: PSY 780 or PSY 777, doctoral track, and permission of the instructor. The use and interpretation of objective personality tests.

741. Projective Personality Assessment. 3 hrs. Prerequisites: Completion of master's degree in counseling psychology, clinical psychology, or school psychology and permission of the instructor. The use and interpretation of the Rorschach Thematic Apperception Test, and other projective personality instruments.

742. Time-Limited Adult Psychotherapy. 3 hrs. Prerequisites: Doctoral track and permission of instructor. An overview of brief, empirically supported therapies for adult disorders.

743. Student Development Theory and Research. 3 hrs. A basic course in college student development theory and research.

748. Integration of Clinical Assessment. 3 hrs. Prerequisites: PSY 641, 740, 741, 782 and permission of the instructor. The use and integration of a battery of assessment devices in generating comprehensive psychodiagnostic evaluations.

750. Advanced Social Psychology. 3 hrs. Examination of contemporary theory and research of group influence on the individual.

751. Performance Appraisal. 3 hrs. Prerequisite: PSY 655 or permission of instructor. Examination of the development and applications of performance appraisal systems, including current issues, problems, and research.

752. Management Training and Development. 3 hrs. Prerequisite: PSY 655 or permission of instructor. Study of the principles and techniques, current issues, problems, and research in training and development.

753. Leadership. 3 hrs. Prerequisite: PSY 451 or 655. Examination of historical and contemporary leadership theories, concepts, applications and other issues.

754. Psychology of Organizational Development. 3 hrs. Prerequisite: PSY 655 or permission of instructor. Application of psychological principles to organizational problems.

755. Practicum in Industrial/Organizational Psychology. 3 hrs. Prerequisite: Permission of the I/O training director. May be repeated up to 15 semester hours. Supervised I/O training experiences.

756. Assessment Centers in I/O Psychology. 3 hrs. Prerequisites: PSY 655 or permission of instructor. AC practice, research, and related methodologies.

761. Multivariate Data Analysis. 3 hrs. Prerequisites: PSY 660, PSY 663, or permission of instructor. Problems with various experimental designs, with emphasis on complex designs requiring primarily multivariate statistical procedures.

762. Counseling Psychology Practicum II. 3 hrs. Prerequisites: PSY 652 and prior arrangement with instructor. An intermediate level clinic practicum in counseling and psychological services. Students are expected to acquire advanced competencies in counseling and case management and to demonstrate an integration of theory with practice.

763. Group Counseling Practicum. 3 hrs. Prerequisites: PSY 652 (or equivalent), 710 (or equivalent) and permission of instructor. A practicum in which students facilitate or co-facilitate groups under supervision. Weekly staffings are scheduled with the supervisor to provide feedback and to allow discussion of problems and issues.

764. Factor Analysis. 3 hrs. Prerequisites: PSY 660, 662, or permission of instructor. An introduction to modern factor analytic and clustering techniques with emphasis on computer applications and interpretation of results.

765. Personnel Selection. 3 hrs. Prerequisite: PSY 655 or permission of instructor. Examination of psychological methods in the selection and placement of job applicants.

766. Work Motivation. 3 hrs. Prerequisite: PSY 655 or permission of instructor. Examination of theories of work motivation, attitudes, and their application.

767. Attitudes in the Workplace. 3 hrs. Prerequisite: PSY 655 or permission of instructor. Examination of turnover, absenteeism, career development, conflict, occupational socialization, and social interactions in organizations.

768. Psychometric Theory. 3 hrs. Prerequisite: Permission of instructor. Examination of psychometric theory and its application in measurement of psychological variables.

770. Intelligence: Theories and Development. 3 hrs. Nature of intelligence and its development; critical evaluation of methods of measurement; relation of intelligence to social efficiency.

771. Practicum in School Psychology. 3 hrs. Prerequisite: Admission to the school psychology training program or permission of instructor. Supervised application of school psychological procedures. May be repeated to limit of 24 hours.

772. Applied Behavior Analysis in School Psychology. 3 hrs. Prerequisite: Admission to the school psychology program or permission of instructor. Fundamentals of applied behavior analysis and functional assessment.

773. Advanced Behavioral Interventions in School Psychology. 3 hrs. Prerequisite: PSY 772 or permission of instructor. The application of behavioral principles in the school setting to address needs of at-risk children.

774. Behavioral Consultation in School Psychology. 3 hrs. Prerequisite: Psy 772 or permission of instructor. A multisystemic approach to behavioral consultation. Individual and organizational variables are given consideration.
775. Interventions with Special Populations in School Psychology. 3 hrs. Prerequisite: PSY 772 or permission of instructor. Interventions addressing pediatric conditions and associated behavioral concerns.

777. Psychological Disorders of Childhood. 3 hrs. A comprehensive analysis of the major behavior disorders of childhood.

778. Experimental Child Psychology. 3 hrs. Prerequisite: Permission of the instructor. An intensive study of theory, methodology, and research in child psychology.

779. Seminar in Developmental Psychology. 3 hrs. Prerequisite: Permission of the instructor. Consideration of specific contemporary problems and issues in developmental psychology. May be taken for a total of 9 semester hours.

780. Advanced Psychopathology. 3 hrs. Prerequisites: Doctoral track and permission of the instructor. Current empirical work in adult psychopathology, including classification and diagnostic systems.

781. Neurological Bases of Behavior. 3 hrs. Prerequisites: PSY 624, doctoral status, and permission of instructor. An introduction to neuroanatomy and the behavioral consequences of neuropathology.

782. Clinical Psychology Practicum. 3 hrs. Prerequisites: PSY 736, five of the seven clinical core courses, and permission of the director of clinical training. May be repeated up to 15 semester hours. Supervised clinical training in the psychology clinic.

783. Systems of Psychotherapy. 3 hrs. Prerequisites: Doctoral clinical track and permission of the instructor. An analysis of the theories and techniques of current systems of psychotherapy.

784. Counseling Psychology Practicum III. 3 hrs. Prerequisite: Permission of instructor. An advanced practicum in which students develop applied competencies appropriate to their area of specialization under supervision.

785. Medical Aspects of Developmental Disabilities. 3 hrs. Prerequisites: PSY 624, doctoral status, and permission of the instructor. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

786. Field Problems. 3 hrs.

787. Research in Psychology. 1-16 hrs. Prerequisite: Permission of the instructor.

788. Special Problems. 1-16 hrs.

789. Research in School Psychology. 1 hr. Prerequisite: Admission to the school psychology training program or permission of instructor. Current research in school psychology. May be repeated up to limit of 8 hrs.

790. Psychology Research Apprenticeship. 3-9 hrs. Prerequisite: Permission of instructor. Research training through participation in programmatic research conducted within the Department of Psychology.

791. Field Internship. 3-12 hrs. Prerequisites: PSY 762 and prior arrangement with instructor. Affords opportunity for master's and specialist's students to receive supervised practice experiences in field settings.

792. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course for at least 3 hours each semester.

793. Health Psychology. 3 hrs. Designed to acquaint students with concepts in behavioral medicine and with the psychologist's role in health psychology.

794. Clinical Neuropsychology. 3 hrs. Prerequisites: PSY 624, 641, 736, 780, doctoral track, and permission of the instructor. An introduction to clinical neuropsychology.

795. Clinical Health Psychology Practicum. 3 hrs. Prerequisites: Enrollment in the clinical health psychology sub-specialty program, Hospital, clinic, and practicum experience in the methods and procedures of health psychology, neuropsychology, and clinical psychophysics. Limit of 9 semester hours.

796. Doctoral Integrative Seminar. 1 hr. A weekly seminar designed to integrate instructional experiences of doctoral students during their first year of residency.

797. Advanced Seminar in Psychotherapy. 3 hrs. Prerequisites: PSY 713 or PSY 784 and permission of instructor. An advanced study of the domain of psychotherapy with an emphasis on identifying central constructs and the development of synthesis. Students are expected to evaluate various psychotherapeutic approaches at philosophical, conceptual, and practical levels and continue to refine their own developing theoretical positions.

798. Advanced Practicum in Counseling Psychology. 1-3 hrs. Prerequisite: Permission of instructor. Supervised practice.

799. Proseminar in Counseling Psychology. 2 hrs. A professional issues seminar for advanced students. Topics include historical antecedents, training models, credentialing, accreditation, and current trends and issues in counseling psychology.

800. Externship. 3-6 hrs. Prerequisite: Permission of instructor. Supervised experience in an off-campus setting.

801. Advanced Research Seminar. 3 hrs. Prerequisite: Permission of instructor.

802. Counseling Psychology Practicum IV. 1-3 hrs. Prerequisites: PSY 786 and prior arrangement with instructor. An advanced clinic practicum in counseling and psychological services.
302 | Course Descriptions

870. Supervision: Theory and Practice. 3-6 hrs. Prerequisite: Permission of instructor. An advanced seminar in the supervision of others who deliver counseling and psychological services. Students enroll concurrently with the assignment of clinic supervision responsibilities.

880. Internship in School Psychology. 4 hrs. Prerequisite: Permission of training director. May be repeated up to 12 semester hours. Supervised, full-time practice of school psychology in an approved setting. Selection of internship must conform to NASP and CDSPP standards.

881. Internship in Clinical Psychology. 4 hrs. Prerequisites: Successful completion of PSY 782 and approval of the director of clinical training. To be repeated for 12 semester hours total.

882. Internship in Industrial/Organizational Psychology. 4 hrs. Prerequisite: Permission of the I/O training director. To be repeated for 12 semester hours total. Full-time practice of I/O psychology under supervision in an approved setting.

883. Internship. 4 hrs. Prerequisites: Approval by program faculty and permission of training director. Students receive 1,900-2,000 hours of supervised training in an off-campus APA-approved internship program in professional psychology. To be repeated for 9 semester hours total.

Radio-Television-Film (RTF)

507. Theories of Mass Communication. 3 hrs. An analysis of processes and effects of mass communication.

516. Telecommunication Media Management. 3 hrs. Examination of management responsibilities in broadcast radio and TV, cable TV, and other electronic media and media delivery systems.

525. Telecommunication Media Research. 3 hrs. Prepares students to utilize and evaluate professional telecommunication research services and to conduct elementary studies of media audiences.

531. Advertising Management and Sales. 3 hrs. Prerequisite: RTF 330. A continuation of RTF 330, with emphasis upon case studies in advertising management and sales.

536. Western Film. 3 hrs. The course examines the interaction of stylistic and thematic elements associated with the Western film genre.

540. Advanced Television Production. 3 hrs. Prerequisite: RTF 340 or permission of instructor. Advanced topics in video post-production theory and practice.

547. Television Production Workshop. 2 hrs. Prerequisites: RTF 340 and 440 or permission of instructor. A flexible format course designed to serve the career objectives and needs of advanced students. The workshop may involve large or small group productions, individual projects, or some combinations.

548. Seminar in Radio-TV. 3 hrs. Prerequisite: Permission of instructor. Examination of a telecommunication topic. May be repeated with a different topic or combined with RTF 578 for a total of 6 credit hours.

549. Television Criticism. 3 hrs. Examines major genres and historical trends in television programming with emphasis on television criticism. Selected examples of programs will serve as models for practical television criticism.

550. The Internet: The Online Electronic Medium. 3 hrs. Prerequisite: Consent of instructor.

560. Issues in Telecommunication. 3 hrs. Examination of structural, regulatory, policy, and social concerns related to the United States telecommunication industry.

571. Advanced Cinematography. 3 hrs. Prerequisite: Consent of instructor. Advanced instruction and practical production experience in 16mm motion picture cinematography. Repeatable for up to 6 hours.

573. The Documentary Film. 3 hrs. Evaluation of the documentary tradition in film through viewing and analysis of selected documentaries and review of pertinent literature.

574. Film Noir. 3 hrs. The course examines the interaction of stylistic and thematic elements associated with the Film Noir period and their impact on contemporary cinema.

575. Film Business Procedures and Management. 3 hrs. Prerequisite: Consent of instructor. Study of the business practices and problems involved in film production.

576. British Studies: The British Film. 3-6 hrs.

577. Advanced Film Production Workshop. 3 hrs. Prerequisite: Consent of instructor. Students enrolled in this course will serve as director, cinematographer, or film editor of a complete 16mm motion picture production.

578. Seminar in Film. 3 hrs. Prerequisite: Permission of instructor. Examination of a film topic. May be repeated with a different topic or combined with RTF 548 for a total of 6 hours.

579. Film Theory and Criticism. 3 hrs. Study of major film theories through study of the literature of film theory and the screening and discussion of selected films.

580. Comparative Media Systems. 3 hrs. Study of the structure, function, and historical/political features of the electronic media systems of selected nations.
581. International Broadcasting. 3 hrs. Prerequisite: Permission of instructor. An examination of the development, structure, functions, programming, and audiences of international broadcasting services.

585. Film Editing. 3 hrs. Prerequisite: RTF 571. Study of the theory and techniques of film editing. Repeatable for up to 6 hours.

589. Caribbean Mass Media Systems. 3 hrs. Prerequisite: Consent of instructor. Lecture and research on the media systems of the Caribbean Basin, with special attention given to coverage of Third World news.

692. Special Problems in Radio, Television, and Film. 1-3 hrs. Prerequisite: Consent of instructor. The student analyzes a problem area and proposes a special course arrangement with a faculty member. Problems range from television and film productions to writing scripts and extensive research papers.

Real Estate and Insurance (REI)

532. Real Estate Finance. 3 hrs. Prerequisite: FIN 300. A study of the sources of real estate funds and analytical techniques for investment decision making. Nonbusiness students only.

598. International Insurance Seminar Abroad. 3 hrs. Prerequisite: Consent of program director. Conducted in London, England; a series of lectures and discussions involving authorities on international insurance issues and practices.

692. Special Problems. 3 hrs. Prerequisite: Consent of department chair.

699. International Insurance Research Abroad. 3 hrs. Prerequisite: Consent of program director. A research course in international insurance offered for students enrolled in REI 598.

Religion (REL)

524. Religion and Healing. 3 hrs. This course studies several examples of religious healing practices found in ethnographic literature, creating a dialogue between indigenous and academic theories of healing.

530. Buddhism. 3 hrs. Prerequisite: REL 131. This course surveys Buddhist religions and cultures. Topics include Indian origins, philosophical schools, ritual practice, and historical development.

532. Mysticism. 3 hrs. This course explores mystical practices as found in ethnographic texts. Students pursue an interdisciplinary approach drawing on several models of mysticism.

535. Religions of the Near East. 3 hrs. A study of Judaism, Zoroastrian, and Islamic literature and thought.

551. Philosophical Issues in Religion and Science. 3 hrs. An examination of historical and contemporary philosophical issues arising in attempts to relate scientific accounts of the natural world and accounts derived from religious traditions.

590. Contemporary Religious Problems. 3 hrs. An examination of specific problems within the broad spectrum of contemporary religious concern.

599. Religious Studies Abroad. 3-6 hrs. The study of religious themes in various parts of the world. Offered abroad through the Center for International and Continuing Education.

692. Special Problems. 3 hrs. A study of a religious issue to be approved by the department chair. May be taken for a total of 9 hours.

Research and Foundations (REF)

516. Utilization of Audiovisual Media and Equipment. 3 hrs.

525. Instructional Styles and Models in Media Programs. 3 hrs.

526. Film and Television in Media Programs. 3 hrs.

536. Designing Educational Systems for Individualized Instruction. 3 hrs. Translation of instructional specifications into prototype systems.

550. Test Item Development. 3 hrs. Includes procedures for mastering test item development techniques through active participation.

591. School Media Center Administration Workshop. 3 hrs.

599. British Studies: Research in British Education. 3 hrs. To provide students with supervised research study on British education that relates to their own interests or educational specialty.

601. Educational Research: Interpretation and Applications. 3 hrs. An orientation to the information, skills, and competencies necessary to understanding research in education, along with a rudimentary introduction to conducting action research.
Introduction to Educational Statistics. 3 hrs. Basic concepts and computations in descriptive statistics. Introduction to sampling procedures and inferential processes in educational research.

Foundations in American Education. 3 hrs. A brief survey of the philosophical, psychological, sociological, and historical foundations of American education.

Cultural Influences on American Education and Society. 3 hrs. A study of European educational systems.

Developing a Student-Centered Curriculum. 3 hrs. A comprehensive study of planning and procedures for developing, structuring, implementing, and evaluating school curricula.

Administration of Media Centers. 3 hrs.

Student Discipline in the Schools. 3 hrs. Presentation of general principles, techniques, procedures, and legal aspects of discipline.

Instructional Graphics. 3 hrs.

Instructional Photography. 3 hrs.

Foundations of Instructional Technology. 3 hrs. Survey of the historical aspects of instructional media. Application of research in the development of technology relating to libraries, classrooms, industry, and instructional settings.

Selection and Organization of Media Resources. 3 hrs.

Design and Production of Media Materials. 3 hrs.

Advanced Media Productions Techniques. 3 hrs.

Instructional Video and Film Production. 3 hrs.

Instructional Development I. 3 hrs. Prerequisite: REF 516 or permission of the instructor. Survey of various instructional development models for the development, revision, or revitalization of educational programs.

Computers in Education. 3 hrs. Applications of computer technology to instructional, information, and administrative programs from the user’s point of view.

Economic Education for Teachers. 3 hrs. Emphasis on in-depth understanding of our economic system and integration of economic concepts into the social studies.

Direction and Supervision of Student Teaching. 3 hrs. Designed to guide supervising teachers in orienting and involving student teachers.

Special Problems. 1-3 hrs.

Thesis. 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

Analysis of Teaching Behavior. 3 hrs. Designed to analyze teacher behavior to determine competency, including interaction analysis and microteaching skills.

Social Foundations of Education. 3 hrs. A study of contrasting motivations and values of various cultural groups and their implications for education.

Computer Applications in Educational Research. 3 hrs. Prerequisites: REF 761, 762. Skills development course in computer analysis of behavioral science data, systems analysis, financial, and personnel accounting procedures.

Practicum in Educational Research. 3 hrs. Prerequisites: REF 761, 762. Application of appropriate research models, structure of research reports, critique of published research and of student’s research problem.

Measurement in Educational Research. 3 hrs. Prerequisites: REF 761, 762. Survey of the theory of measurement including true score theory, reliability, validity, item analysis, and item-selection techniques.

Programmed Instruction. 3 hrs. Theories and techniques in designing, producing, and evaluating programmed instructional materials.

Research in Instructional Systems Technology. 3 hrs. Research in problems of formulating objectives, analyzing audiences, using media, and evaluating education outcomes.

Experimental Design. 3 hrs. Prerequisite: REF 602 recommended. Probability theory and theoretical distributions in experimental design. Techniques including tests, simple and complex analysis of variance, analysis of covariance.

Advanced Regression Analysis. 3 hrs. Prerequisite: REF 761. Correlation and regression theory. Techniques associated with bivariate, partial, and multiple correlation and applied multiple linear regression.

Evaluation Design and Methodology. 3 hrs. The principles of evaluation. Involvement in a practical evaluation problem employing measurement techniques and statistical methodology.

Field Problems in Educational Research. 1-12 hrs. Prerequisites: Approval of major professor and Educational Research Staff.
Science and Mathematics Education (SME)

522. British Studies: History of Science. 3-6 hrs. Lecture series and research in the history of science offered abroad under the auspices of the Center for International and Continuing Education. (May be taken as BSC 522 or HIS 522.)

+532. Science for Elementary Teachers. 3 hrs. Prerequisite: 12 semester hours of science. Designed to provide experience in presenting scientific principles to the elementary school child.

535. Marine Science for Elementary Teachers. 3 hrs. Prerequisite: Permission of instructor. Designed to acquaint teachers with marine science concepts. (May be taken as MAR 538.)

541. Methods of Teaching the Metric System. 3 hrs. Lectures and exercises in measurements using the International System of Units.

553. Earth and Environmental Science for Intermediate School Teachers. 3 hrs. Prerequisite: Permission of instructor. To familiarize teachers with the materials, methods, and techniques of earth and environmental science.

554. Biological Sciences for Intermediate School Teachers. 3 hrs. An examination of the subject matter, techniques, and methods of teaching the life sciences.

555. Physical Science for Intermediate School Teachers. 3 hrs. An examination of the subject matter, techniques, and methods for teaching the physical sciences.

556. Techniques in Marine Science Education. 3 hrs. Prerequisite: Permission of instructor. Designed to acquaint teachers with the marine resources of the Mississippi Coastal Zone. (May be taken as MAR 556.)

557. Marine Science for Teachers. 3 hrs. Prerequisite: Permission of instructor. Emphasis will be placed on measurements and analysis of the marine habitat and ecological relationships. (May be taken as MAR 557.)

559. Coastal Ecology for Teachers. 3 hrs. Prerequisite: Permission of instructor. Corequisite: SME 559L. Designed to provide teachers with a background in basic coastal ecology. (May be taken as MAR 559.)

559L. Coastal Ecology for Teachers Laboratory. 1 hr. Prerequisite: Permission of instructor. Corequisite for SME 559. (May be taken as MAR 559L.)

561. Computers and Telecommunications in Science/Mathematics Teaching. 3 hrs. Prerequisite: An introductory computer science course. A course to develop competency in evaluation of discipline-specific software, utilization of hardware interfaces, and use of networks and the World Wide Web as teaching resources. (May be taken at the undergraduate level as SCE 461.)

571. Teaching Chemistry in the Secondary School. 3 hrs. Prerequisite: Admission to the graduate program or permission of instructor. Corequisite: SME 571L. Application of chemical knowledge to designing, developing, and assessing instruction. (May be taken at the undergraduate level as CHE 471.)

571L. Laboratory for Teaching Chemistry in the Secondary School. 1 hr. Prerequisite: Admission to the graduate program or permission of instructor. Corequisite: SME 571. Experience in developing and evaluating laboratory instruction and in establishing and maintaining safety. (May be taken at the undergraduate level as CHE 471L.)

<td>700. Science Curriculum in the Public Schools</td>
<td>3 hrs.</td>
<td>SME 703. An examination of elementary and secondary science curricula.</td>
<td></td>
</tr>
<tr>
<td>701. Issues in Science and Mathematics Education</td>
<td>3 hrs.</td>
<td>Permission of instructor.</td>
<td>Study of issues related to curriculum and associated research methodologies.</td>
</tr>
<tr>
<td>702. Field Techniques of Demonstrating and Experimenting with Scientific Principles</td>
<td>3 hrs.</td>
<td>For science teachers considering fundamental aspects of biology, chemistry, geology, and physics.</td>
<td></td>
</tr>
<tr>
<td>703. Foundations of Science and Mathematics Education</td>
<td>3 hrs.</td>
<td>Permission of instructor.</td>
<td>Study of philosophical premises related to the nature of science and mathematics and psychological and pedagogical theories.</td>
</tr>
<tr>
<td>720. Mathematics Curriculum</td>
<td>3 hrs.</td>
<td>Permission of instructor.</td>
<td>Exploration of the theoretical, empirical, and practical issues of the mathematics curriculum from kindergarten through college. Content and processes of curriculum will be explored.</td>
</tr>
<tr>
<td>725. Readings from Research in Mathematics Education</td>
<td>3 hrs.</td>
<td>Permission of instructor.</td>
<td>Focuses on current issues and methodologies in research in mathematics education.</td>
</tr>
<tr>
<td>730. Physics for Elementary School Teachers</td>
<td>3 hrs.</td>
<td>6 hours in physical science and 6 hours in biological science. Principles and general ideas that can be directly applied to the elementary grades.</td>
<td></td>
</tr>
<tr>
<td>731. Chemistry for Elementary School Teachers</td>
<td>3 hrs.</td>
<td>6 hours in physical science and 6 hours in biological science. Chemical principles that represent the changes in chemistry that have taken place over the last two decades.</td>
<td></td>
</tr>
<tr>
<td>732. Biology for Elementary School Teachers</td>
<td>3 hrs.</td>
<td>6 hours in physical science and 6 hours in biological science. A study of content, techniques, and methods of teaching life science concepts.</td>
<td></td>
</tr>
<tr>
<td>733. Earth Science for Elementary School Teachers</td>
<td>3 hrs.</td>
<td>6 hours in physical science and 6 hours in biological science. A study of techniques and methods of teaching earth science concepts.</td>
<td></td>

</table>
Scientific Computing (SC)

644. **Advanced Robotic Systems.** 3 hrs. To introduce students to advanced topics and prospective research areas in the field of robotics and its relation to AI, world modeling, and simulation.

710. **Computational Methods for Physical Systems.** 3 hrs. Prerequisite: High-level Fortran, familiarities with methods in statistical mechanics, and permission of instructor. Monte Carlo sampling and simulations, including multispin and cluster updating, percolation, molecular dynamics, finite size scaling, and optimizations in computing.

712. **Computational Studies on Phase Separation Kinetics.** 3 hrs. A study of phase separation processes from a computational approach. Knowledge of statistical mechanics at the level of PHY 603 and computational techniques at the level of SC 710 is required.

713. **Liquid Crystals: A Computational Approach.** 3 hrs. A computational approach to the modeling of liquid crystalline materials.

720. **Mathematics for Scientific Computing I.** 3 hrs. Prerequisite: Permission of instructor. Numerical methods for the solution of matrix equations and for eigenvector/value finding techniques, including criteria for selection among available algorithms are covered.

721. **Mathematics for Scientific Computing II.** 3 hrs. Prerequisite: SC 720 or permission of instructor. Techniques for interpolation and differentiation; computer simulations for the solution of ODEs and PDEs including Runge-Kutta, Adams/Bashforth, spectral, and shooting methods.

726. **Remote Sensing I.** 3 hrs. An advanced course emphasizing digital image processing of remotely sensed multispectral data, including use of applications software to process multispectral imaging.

730. **Parallel Algorithms.** 3 hrs. Prerequisites: Knowledge of sequential algorithm design and analysis, NP-completeness, proficiency in high-level language programming, including pointer manipulation. Topics include models of parallel computation, general techniques, graph algorithms, expression evaluation, parallel sorting, parallel string matching, and P-completeness.

735. **Scientific Numerical Modeling.** 3 hrs. Prerequisite: Permission of instructor. The physical, mathematical, and computational basis for modeling. Physical models are drawn from chemistry, biology, and fluid dynamics.

736. **Neural Networks.** 3 hrs. The purpose of this course is to provide an integrated and cohesive exploration of the fundamental concepts and applications of neural networks.

740. **Seminar I.** 1 hr. Study of current research techniques and results in scientific computing. Can be taken four times. The objective of this course is to acquaint students with techniques and applications of scientific computing. The students will study the literature in the field and hear presentations from practitioners in the field. Letter grades will be assigned on the basis of written or oral reports on assigned topics.

750. **Introduction to Computational Fluid Dynamics.** 3 hrs. Prerequisite: Knowledge of the solution of ordinary and partial differential equations. Development of the concepts, numerical methods, and algorithms of computational fluid dynamics in conjunction with modeling.

751. **Finite Element Methods in Computational Fluid Dynamics.** 3 hrs. Fundamentals of finite-element methods for obtaining numerical solutions to fluid flow and heat transfer problems. A suitable strong background numerical analysis, computational mathematics, and programming in Fortran or C.

760. **Underwater Acoustic System Analysis.** 3 hrs. Prerequisite: Knowledge of underwater acoustics and Fourier transforms. Underwater acoustic signal generation, propagation, and analysis including array shading, beam steering, correlation properties of ambient noise, and estimation of signal parameters.

762. **Computational Ocean Acoustics.** 3 hrs. Prerequisite: Understanding of the numerical solution of partial differential equations, the physics of waves, underwater acoustics, and computer programming. Development of the mathematical framework for underwater acoustic propagation models, with special emphasis on the parabolic equation and computer code for its implementation.

781. **Topics in Scientific Computing.** 3 hrs. Prerequisite: Permission of the instructor. Covers topic of interest to students and faculty.

Social Work (SWK)

Foundation

601. **Human Behavior and Social Environment I.** 3 hrs. Introduction to physiological, cognitive, intellectual, and emotional development of individuals; analysis of theoretical explanations of personality.
602. Human Behavior and Social Environment II. 3 hrs. Prerequisite: SWK 601. Introduction to general and ecological systems theory as applied to the analysis of individuals, families, small groups, organizations, and communities.

605. Social Welfare Policy. 3 hrs. History of social work and social welfare; values which influence policy; formation of policy and macro-policy analysis.

608. Social Work Generalist Practice I. 3 hrs. Systemic and problem-solving approaches to social work practice with individuals, families, organizations, communities, and groups; integrative framework for knowledge, values and skills.

610. Theoretical Bases for Social Work Practice. 3 hrs. Examination of major theories contributing to current social work practice.

617. Social Work Research I. 3 hrs. Introduction to the foundations of knowledge building through a careful analysis of philosophical premises and examination of new approaches to the scientific method. Covers research designs and other fundamental issues which have bearing on knowledge development in social work.

634. Social Work in a Diverse Society. 3 hrs. Comparative cross-cultural theories and concepts related to ethnic-minority groups and alternative life styles.

641. Field Education I. 3 hrs. The first practicum is designed to integrate and enhance values, knowledge, and skills at the foundation level with micro, mezzo, and macro experiences. Includes integrative seminar. A grade of “B” or better must be earned for this course.

642. Field Education II. 3 hrs. Prerequisite: SWK 641. The second practicum is designed to build on the integration and enhancement of values, knowledge, and skills developed in SWK 641, completing the foundation level of micro, mezzo, and macro experiences. Includes integrative seminar. A grade of “B” or better must be earned for this course.

Advanced Practice

635. Social Service Management and Administration. 3 hrs. Survey of principal management functions in a systems context; practice applications of key concepts such as leadership and organizational communication.

658. Advanced Interventive Methods. 3 hrs. Corequisite: SWK 673. Social work intervention focused on cognition, affect, and behavior with individuals, families, and groups. This course is integrated with field seminar SWK 673.

666. Community Development and Social Planning. 3 hrs. Theories and techniques of community development and planning with special attention to practice needs and proposal writing.

673. Field Education III. 3-6 hrs. Prerequisites: SWK 641, 642; a minimum B average in all social work courses. Corequisite: SWK 658. The third practicum is designed to build an advanced level integrated field experience on the prior learning in SWK 641 and 642. This practicum provides students with the opportunity to work with micro, mezzo, and macro systems.

674. Social Work Practice with Families. 3 hrs. Theories, intervention skills, and policy issues related to families and the social service delivery system.

696. Social Work Practice with Groups. 3 hrs. Design of preventive, developmental and remedial group services for at-risk populations.

Electives

Students must complete all courses in the foundation before enrolling in elective courses.

578. Specialized Studies in Developmental Disabilities. 1-6 hrs. The study and skill acquisition in the area of developmental disabilities. Topics vary.

606. Social Justice and Social Policy. 3 hrs. Examines the effects of social welfare policy, discrimination, and economic injustice and explores opportunities for advocacy and outgroup empowerment.

620. Computer Use for Human Service Workers. 3 hrs. Introductory course for social workers and other human service workers; focus is on information systems for social work. Includes hands-on computer experience.

637. Social Work Research II. 3 hrs. Prerequisite: SWK 617. Application of social work research methodologies to ongoing research projects. Attention to single-subject design and program evaluation.

651. Time-Limited Intervention. 3 hrs. Techniques of task-centered intervention and crisis intervention in social work practice.

663. Consultation and Supervision. 3 hrs. Concepts and skills related to consultation and supervision with application to a number of systems but emphasizing agency settings.

666. Social Work Practice with Persons in Middle and Late Life. 3 hrs. Psychosocial variables at critical life transition points and intervention skills with individuals, families, groups, communities, and organizations.

667. Social Work Practice in Health Systems. 3 hrs. Assessment and modification of conditions which affect an individual's physical and mental health through intervention skills with individuals, families, groups, communities, and organizations.

668. Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

691. Research Practicum. 1-3 hrs. Prerequisites: SWK 617, 637. Emphasis on the acquisition of more in-depth levels of knowledge and skills regarding evaluative research regarding practice effectiveness.

692. Special Problems. 1-6 hrs. Study of a problem in order to develop knowledge in an area of student interest. Approved study plan, paper and/or project required.

698. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

Sociology (SOC)

515. Sociology of Gender. 3 hrs. A study of the relationship between sex roles and broader cultural patterns in various societies.

521. Sociological Topics. 3 hrs. Variable content; can be repeated three times in separate topical offerings.

524. Sociology of Aging. 3 hrs. A survey of demographic, social, and cultural aspects of aging with particular emphasis upon American society and the types of problems encountered by older persons.

526. Sociology of Education. 3 hrs. A comprehensive study of the educational institution, and its relationship to the community and society.

530. Political Sociology. 3 hrs. A study of politics as a social institution, its relationship with other institutions, and its place in a changing society.

544. Juvenile Delinquency. 3 hrs. A study of causes and the nature of juvenile delinquency, the development of the juvenile court, probation, and other rehabilitative programs.

550. Social Psychology. 3 hrs. A study of how the thoughts and behaviors of individuals are influenced by the actual or implied presence of others.

560. Quantitative Methods. 3 hrs. A survey of quantitative research techniques, focusing on descriptive and inferential statistics and computer applications.

561. Population. 3 hrs. Prerequisite: SOC 460. An introduction to demography, analyzing significant changes in population composition.

562. Methods of Social Research. 3 hrs. A study of the production and interpretation of social research with an emphasis on the relationship of theory and method.

571. Social Institutions. 3 hrs. A study of selected American social institutions, focusing on class and power structures, the rise of post-industrial society, religious and moral divisions, and democratic individualism.

575. Social Inequality. 3 hrs. Research and theory in social differentiation, class, status, power, and mobility. Analysis of inequality and the effects of socioeconomic status upon behavior and social organization.

582. Sociological Theory. 3 hrs. A study of classical and contemporary social theory, focusing on selected theorists (e.g. Weber, Durkheim, Marx, Merton, and Goffman) and selected topics, including anomie and alienation, and the rise of capitalism, theories of crime, and concepts of self.

589. Caribbean Studies. 3 hrs. Variable content lecture series and study abroad under the auspices of the Center for International and Continuing Education. May be repeated up to 6 hours in different topical offerings.

593. Irish Studies. 4 hrs. Variable content lecture series and study in Ireland under the auspices of the Center for International and Continuing Education.

599. British Studies. 3 hrs. Variable content. Lecture series and research offered abroad under the auspices of the Center for International and Continuing Education.

692. Special Study Projects in Sociology. 1-6 hrs. Special projects in reading, survey, or research in sociology. Work will be under the direction of graduate faculty.
Software Engineering Technology (SET)

500. Intranetworking Project Planning. 3 hrs. A comprehensive examination of computer networking architectures and evolving technologies.

501. Microprocessor Architecture and Applications. 3 hrs. Instruction includes an introduction to the design and programming of microprocessor-based circuits and systems, the design programming tools necessary to create stand-alone microprocessor systems, and a comparison of different microprocessor architectures and applications.

522. Modeling and Animation I. 3 hrs. Prerequisite: ENT 510 or CADD experience. Computer modeling and animation developed with 3D Studio.

523. Advanced Modeling and Animation II. 3 hrs. Prerequisite: SET 522. Expand knowledge of modeling and animation using 3D Studio Max/Viz.

526. Virtual Reality II. 3 hrs. Prerequisite: SET 525. Study of advanced virtual reality programming techniques with VRML, JavaScript, and Java.

530. LAN Technologies. 3 hrs. Prerequisite: Permission of instructor. An analysis of routed local and wide area networking technologies emphasizing planning, design, installation, and management, including router configuration and management.

531. WAN Switching and Remote Access. 3 hrs. Prerequisites: SET 530 and permission of instructor. An examination of implementing routers and switches on internetworks to improve network QOS over packet-switched and circuit-switched connections.

532. Scalable Multilayer Networks. 3 hrs. Prerequisites: SET 531 and permission of instructor. Design, installation, and configuration of complex and scalable routed and switched networks using multilayer switching technologies over high-speed Ethernet.

533. Remote Access and Troubleshooting. 3 hrs. Prerequisites: SET 532 and permission of instructor. Building and troubleshooting remote access networks to interconnect central sites to branch offices/telecommuters.

535. Communications Server Administration. 3 hrs. Prerequisite: SET 585. A comprehensive examination of administering enterprise messaging and scheduling services in a client-server environment using currently available applications.

553. E-Commerce Server Administration. 3 hrs. Prerequisite: SET 585. A comprehensive examination of developing, implementing, and administering Web-based services for electronic commerce.

563. Satellite Communication Systems. 3 hrs. Prerequisite: Permission of instructor. An examination of communication satellite systems, subsystems, and technologies which support global communications.

583. Windows Networking. 3 hrs. Prerequisites: Computer literacy and two year’s experience using Windows-based operating system. A comprehensive examination of the Windows 95 networking architecture and capabilities.

585. NOS Server Administration. 3 hrs. A comprehensive examination of the Windows NT 4.0 installation and administration, one of today’s most popular network operating systems (NOS).

586. Intranetworking. 3 hrs. Prerequisite: SET 585 or permission of instructor. A continuation of SET 585 that will emphasize directory architecture, binding of network protocols, creation and management of user and group.

588. TCP/IP Networking. 3 hrs. Prerequisite: SET 583 or permission of instructor. A comprehensive examination of the Internet’s standard protocol suite TCP/IP.

589. Internet Information Server. 3 hrs. Prerequisites: SET 585, 588, or permission of instructor. Installation and configuration of a popular NOS as an Internet information server.

592. Special Problems. 1-3 hrs. Prerequisites: Graduate standing and approval of faculty adviser. Supervised study in area not covered by available courses.

620. Advanced Computer Applications in Engineering Technology. 3 hrs. Prerequisite: ENT 520 or permission of instructor. CADD techniques for 3D wireframe and solid modeling.

650. Advanced Design Systems in Engineering Technology. 3 hrs. Prerequisite: Permission of instructor. Application of advanced design tools and processes in engineering technology.

692. Special Problems. 1-3 hrs. Prerequisites: Graduate standing and approval of faculty adviser. Supervised study in area not covered by available courses.
Special Education (SPE)

500. The Psychology and Education of the Exceptional Individual. 3 hrs. An introduction to exceptional populations and procedures and policies relating to their education and citizenship.

560. Characteristics and Education of Gifted Students. 3 hrs. This course includes characteristics, educational options, assessment and referral procedures, and legal issues. Teacher attributes and competencies, family characteristics, and local, state, and national issues are also addressed.

597. Professional Collaboration for Developmental Disability Services. 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

598. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.

605. The Process of National Board Teacher Certification. 3-6 hrs. Provides opportunities to analyze and apply National Board for Professional Teaching standards in the student’s content area using the reflective process. Three hours may be taken at the pre-candidate level or 3 hours may be taken at the candidate level.

628. Assessment Procedures for Young Children with Disabilities. 3 hrs. To familiarize students with current issues, theories, and practices regarding the assessment of young children who are at risk for or have manifest disabilities.

629. Advanced Intervention Procedures for Young Children with Disabilities. 3 hrs. To familiarize students with current issues, theories, intervention methods, and procedures for young children who are at risk for or have manifest disabilities.

630. Advanced Studies in Learning Disabilities. 3 hrs. Advanced studies of the social, emotional, physical, and learning characteristics of individuals with learning disabilities across the life span.

634. Practicum in Learning Disabilities. 3-6 hrs. Supervised classroom experience, including observation and teaching of students with learning disabilities.

640. Advanced Studies of Mental Retardation. 3 hrs. Advanced studies of the social, emotional, physical, and learning characteristics of individuals with mental retardation across the life span.

641. Vocational Education in Mental Retardation. 3 hrs. Prerequisite to SPE 654. Vocational intervention and services promoting the transition from school to gainful employment are addressed.

643. Advanced Curriculum Studies for Individuals with Mental Retardation. 3 hrs. Study of different approaches to curriculum development, with emphasis on materials and goals for teaching individuals with mental retardation.

644. Practicum in Mental Retardation. 3-6 hrs. Supervised classroom experience, including observation and teaching of students with mental retardation.

645. Assessment and Intervention for Individuals with Severe and Profound Disabilities. 3 hrs. Curricula development activities for individuals with extreme learning problems.

650. The Psychology and Education of Individuals with Emotional and Behavioral Disorders. 3 hrs. Prerequisite to SPE 654. Corequisites: SPE 652 and SPE 655. Explores the characteristics and causation of emotional and behavioral disorders.

652. Instruction and Programming for Individuals with Emotional and Behavioral Disorders. 3 hrs. Corequisite: SPE 650 and 655. This course explores methods and materials for providing instruction to individuals with emotional and behavioral disorders and the role of the teacher in relation to interdisciplinary and community-based programming.

654. Practicum in Teaching Individuals with Emotional and Behavioral Disorders. 3 hrs. Prerequisites: SPE 631, 632, 641, 650, 651, 652, 709. Corequisites: REF 601, 607, and SPE 770. This is a capstone course to be taken at the end of the student’s program.

655. Children and Youth with Autism Spectrum Disorders. 3 hrs. Prerequisite: SPE 654. Corequisites: SPE 650 and 652. To develop skills and knowledge needed by teachers to be safe, effective practitioners when providing educational programming to children and youth with autism spectrum disorders.
Methods and Materials in Teaching Gifted Students. 3 hrs. This course includes instructional models, methodologies, and materials appropriate for gifted students. Learning styles, writing and evaluating instructional units, public relations strategies, and sources of funding are included.

Curricula Development in Gifted Education. 3 hrs. This course includes steps necessary for curriculum development and evaluation for gifted education. Differentiated models, advanced content areas, and process skills are also addressed.

Atypical Gifted Students. 3 hrs. This course encompasses the assessment and identification, characteristics, and delivery of services for diverse groups within gifted education including the culturally diverse, rural, disabled, female, low socioeconomic, underachiever, and highly gifted populations.

Practicum with Gifted Students. 3 hrs. Supervised practicum with gifted students in a variety of instructional settings. The development of appropriate instruction, attention to individual differences, and evaluation of student progress are also included.

Advanced Practicum in Special Education. 3-9 hrs. Practicum for master’s degree students unique to individual program plans. The experience will focus on assessment, curriculum, or other issues related to exceptional individuals.

Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

Research in Special Education. 1-16 hrs.

Special Problems. 1 hr. Examination of medical, sociological, biological, psychological, and institutional aspects of exceptional children.

Master’s Thesis. 6 hrs. A scholarly project conducted in the student’s area of specialization.

Assessment of Exceptional Individuals. 3 hrs. Prerequisite to SPE 654. Formal and informal assessment techniques, including diagnostic-prescriptive teaching strategies, to appropriately meet the needs of students.

Administration and Supervision of Programs for Exceptional Children. 3 hrs. Designed for educators and supervisors of programs for exceptional children; organization and administration of programs for exceptional children.

Internship in Special Education Administration. 1-6 hrs. To provide internship experience for specialist’s and doctoral students in special education administration, institutions, state department.

Research in Special Education. 1-16 hrs. Prerequisite: Approval of the major professor. To be conducted in the student’s area of specialization.

Special Problems. 3 hrs.

Specialist Field Study. 1-6 hrs. A practical project conducted in the student’s area of specialization that may be selected as the culminating requirement of the specialist’s degree.

Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

Critical Review of Professional Literature. 3 hrs. Doctoral seminar focusing on the review of current literature in special education. Prerequisite to SPE 804.

Personnel Preparation in Special Education. 3 hrs. Development of programs, courses of study, observation techniques, models, micro-teaching units, modules in higher education.

Public Relations, Service, and Leadership in Special Education. 3 hrs. In-service training units, conference planning, workshop, parent and national organizations.

Program Evaluation and Grant Writing in Special Education. 3 hrs. Study of program accountability modes, grant writing, and sources.

Research in Special Education. 3 hrs. Emphasis is placed on the review, development, preparation, and submission of publication of research manuscripts in the student’s area of specialization.

Internship in Teacher Education. 1-6 hrs. Individual cases are tested by students and all available information is integrated for diagnostic and educational purposes.

Dissertation. 12 hrs.

<th>Course Description</th>
<th>Credits</th>
<th>Prerequisites</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Speech and Hearing Sciences (SHS)</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>516. Adult Aphasia and Related Problems</td>
<td>3 hrs.</td>
<td>SHS 211, 403, 406 or permission.</td>
<td>Presents theory, research findings, and basic therapy methods for neurogenic communicative disorders.</td>
</tr>
<tr>
<td>517. Speech and Language Disorders Related to Cleft Palate</td>
<td>3 hrs.</td>
<td>SHS 211, 403 or equivalents.</td>
<td>Multidisciplinary management of children and adults with cleft palate is presented.</td>
</tr>
<tr>
<td>518. Advanced Clinical Methods</td>
<td>3 hrs.</td>
<td></td>
<td>Students engage in an in-depth study of the use of specific treatment or diagnostic procedures.</td>
</tr>
<tr>
<td>519. Organic Speech Disorders</td>
<td>3 hrs.</td>
<td></td>
<td>This course surveys symptomology, etiology, and treatment procedures for organic speech disorders.</td>
</tr>
<tr>
<td>521. Aural Rehabilitation</td>
<td>3 hrs.</td>
<td>SHS 221 or equivalent.</td>
<td>Covers the management of clients with hearing loss from infants through the elderly.</td>
</tr>
<tr>
<td>522. Diagnostic/Prescriptive Teaching of the Hearing Impaired</td>
<td>3 hrs.</td>
<td></td>
<td>Presents task analysis, informal test construction, and formal assessment for hearing impaired.</td>
</tr>
<tr>
<td>525. Clinical Audiology I</td>
<td>3 hrs.</td>
<td>SHS 221.</td>
<td>Presents concepts in acoustics, calibration standards, and basic audiological tests.</td>
</tr>
<tr>
<td>530. Speech Pathology and the Hearing Impaired Child</td>
<td>3 hrs.</td>
<td></td>
<td>Reviews speech and language problems, and describes methods for management.</td>
</tr>
<tr>
<td>532. Language Disorders II: Habilitation of the Aphasic Child</td>
<td>3 hrs.</td>
<td></td>
<td>A multisensory intervention program for auditory processing and communication disorders.</td>
</tr>
<tr>
<td>533. Developing Language Skills with the Hearing Impaired</td>
<td>3 hrs.</td>
<td></td>
<td>Presents development of language by hearing impaired children.</td>
</tr>
<tr>
<td>536. Developing Reading in the Hearing Impaired</td>
<td>3 hrs.</td>
<td>SHS 433 or permission.</td>
<td>The reading process, diagnostic-prescriptive teaching, and evaluation of reading skills are discussed.</td>
</tr>
<tr>
<td>538. Problems in Academic Subjects for the Hard-of-Hearing and Deaf</td>
<td>3 hrs.</td>
<td>SHS 433, 434, 436.</td>
<td>Stresses the need for continuous, consistent and coordinated academic programs.</td>
</tr>
<tr>
<td>597. Professional Collaboration for Developmental Disability Services</td>
<td>3 hrs.</td>
<td></td>
<td>Study of the interdependent contributions of relevant disciplines in training, service, and research.</td>
</tr>
<tr>
<td>598. Families of the Developmentally Disabled</td>
<td>3 hrs.</td>
<td></td>
<td>Interdisciplinary approach to the study of families of the developmentally disabled.</td>
</tr>
<tr>
<td>599. British Studies: Comparative Problems in Speech and Hearing Sciences</td>
<td>3-6 hrs.</td>
<td></td>
<td>Offered abroad under the auspices of the Center for International and Continuing Education.</td>
</tr>
<tr>
<td>601. Designs in Research for Speech and Hearing</td>
<td>3 hrs.</td>
<td></td>
<td>Statistical procedures concerning group and single-subject designs.</td>
</tr>
<tr>
<td>602. Current Topics in Speech and Hearing Sciences</td>
<td>3 hrs.</td>
<td></td>
<td>Varies each time the course is offered.</td>
</tr>
<tr>
<td>621. Hearing Aids</td>
<td>3 hrs.</td>
<td>SHS 221 or permission.</td>
<td>Presents components of electroacoustic characteristics of hearing aids and their use.</td>
</tr>
<tr>
<td>623. Clinical Audiology II</td>
<td>3 hrs.</td>
<td>SHS 528 or permission.</td>
<td>Special auditory tests used to determine the site of lesion of hearing loss.</td>
</tr>
<tr>
<td>625. Audiological Instrumentation</td>
<td>3 hrs.</td>
<td>SHS 221 or permission.</td>
<td>Covers basic electronics, auditory function measurements, research, and computer use.</td>
</tr>
<tr>
<td>633. School Curricula for the Hearing Impaired</td>
<td>3 hrs.</td>
<td>SHS 433, 436, 437.</td>
<td>Curricula analysis and review are stressed (majors only).</td>
</tr>
<tr>
<td>641. Medical Diagnosis and Treatment of Speech and Hearing Pathologies</td>
<td>1-4 hrs.</td>
<td>Permission.</td>
<td>Provides opportunities for observation of operations on the auditory or speech mechanism.</td>
</tr>
</tbody>
</table>
314 | Course Descriptions

642. Communication Problems of the Aged. 3 hrs. Prerequisite: Permission. Reviews changes in speech, language, and hearing associated with aging; presents rehabilitative strategies used with the population.

643. Evaluation and Treatment of Dysphagia in Adults. 3 hrs. Prerequisite: Permission of instructor. Covers the speech-language pathologist’s role in the diagnosis and treatment of swallowing disorders in adults.

644. Augmentative Communication. 3 hrs. Methods for providing communication ability using augmentative communication devices and procedures to persons unable to speak.

646. Multicultural Language Issues. 3 hrs. Presents information about speech and language development and disorders from a multicultural perspective.

648. Motor Speech Disorders. 3 hrs. Covers evaluation and treatment of motor speech disorders associated with lesions of the central nervous system.

650. Traumatic Brain Injury and Communication Disorders. 3 hrs. Covers evaluation and treatment of speech and language disorders resulting from traumatic brain injury and neurological disease.

687. Practicum in Speech-Language Pathology. 1-9 hrs. Prerequisites: Regular full-time graduate status and permission. Students participate in diagnosis and treatment of children and adults with speech-language disorders.

688. Practicum in Audiology. 1-9 hrs. Prerequisites: Regular graduate admission and permission. Students participate in diagnosis and treatment of children and adults with hearing disorders.

689. Practicum in Education of the Deaf. 1-9 hrs. Prerequisites: Regular graduate admission and permission. Students participate in habilitative and learning activities with deaf children and adults.

690. Clinical Experience in Speech and Hearing. 1-6 hrs. Prerequisite: SHS 532. This course is designed to provide clinical experience for non-degree students or those enrolled in a non-speech and hearing sciences degree program.

692. Special Problems. 1-6 hrs. Prerequisite: Permission. Students completing Plan B paper should register for 3 hours.

694. Off-Campus Practicum in Speech and Hearing Sciences. 1-9 hrs. Prerequisite: Permission. Students are assigned to medical, institutional, private practice, or clinical settings for supervised experience.

695. Student Teaching Off-Campus Practicum. 1-9 hrs. Prerequisite: Permission. Students participate in supervised management of speech-language impaired school children.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 3-6 hrs. for a total of 6 hrs.

701. Seminar in Psychacoustics. 3 hrs. Presents methods for studying perception of acoustic signals, detection of stimuli, perception of loudness, and pitch.

702. Seminar in Language Problems. 3 hrs. Language pathologies, evaluation procedures, and treatment methods are studied.

703. Quantitative Methods. 3 hrs. Enrollment suspended.

711. Seminar in Aphasia and Related Disorders. 3 hrs. Etiologies, evaluations in neurolinguistics and current treatment procedures are presented.

712. Seminar in Articulation Disorders. 3 hrs. Current theories, diagnostic procedures, and therapeutic methodologies in articulation and phonology are studied.

713. Seminar in Cerebral Palsy. 3 hrs. Current etiologies, evaluation procedures, and treatment techniques are considered.

714. Seminar in Cleft Palate. 3 hrs. Students review the current research and interdisciplinary management of cleft lip and palate individuals.

715. Seminar in Clinical Counseling in Speech-Language Pathology and Hearing. 3 hrs. Therapeutic communication techniques, interview techniques, and counseling theories are studied.

716. Seminar in Stuttering and Related Disorders. 3 hrs. Advanced study of theories, research and remedial procedures related to fluency disorders.

718. Seminar in Psychology of the Deaf and Speech Handicapped. 3 hrs. Effects of disordered communication on lifestyles are studied.

719. Seminar in Problems and Procedures in Evaluating Children. 3 hrs. The weaknesses and strengths of standardized tests are discussed.
722. Seminar in Pediatric Audiology. 3 hrs. Emphasizes behavioral and objective audiological evaluation of infants and young children.

723. Seminar in Electrophysiological Measurements in Hearing. 3 hrs. Administration and interpretation of electrophysiological measurements.

726. Auditory Perceptual Disorders. 3 hrs. Theories and tests are studied.

730. Language Intervention with Infants. 3 hrs. Current research in infant language development and intervention are explored.

752. Laboratory in Speech Pathology. 1-3 hrs. Students conduct supervised laboratory research using instruments.

753. Laboratory in Language Disorders. 1-3 hrs. Specialized testing procedures are learned.

754. Research in Speech and Hearing Sciences. 1-16 hrs. Prerequisite: Permission. Teaches advanced research procedures.

755. Special Problems. 3 hrs. Content varies.

757. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

758. Dissertation. 12 hrs.

Speech Communication (SCM)

598. Teaching Public Speaking. 1-3 hrs. Provides instruction on how to teach public speaking. Emphasis on course assignments, grading, classroom management.

599. British Studies in Communication. 3-6 hrs. Communication research and practice in Great Britain. Taught only in Great Britain under the auspices of the Center for International and Continuing Education.

600. Speech Communication Theory and Research. 3 hrs. A survey of major research traditions in the field of speech communication. Topics will include persuasion, nonverbal communication, networks, and theories of communication.

603. Political Communication. Examines the use of rhetoric to create and maintain political relationships and power.

605. Interpersonal Communication. 3 hrs. A comparative approach to the study of interpersonal communication theories and methods.

609. Speech Communication Seminar. 3 hrs. A rotating seminar that addresses topics in speech communication.

610. Problems in Organizational Communication. 3 hrs. Analysis of work organizations as communication networks. Emphasis on identification, analysis of selected problems, consultation methods, and administration of communication training programs. Field project.

625. Communication, Conflict, and Negotiation. Surveys theory and research on the role of communication in the management of conflict in personal and professional relationships.

674. Dimensions of Learning in Speech Communication Education I. 3 hrs. Provides a broad introduction to concepts, contexts, and practices of teaching speech communication and theatre at the secondary level. This course includes a clinical supervision component.

675. Dimensions of Learning in Speech Communication Education II. 3 hrs. Provides a broad introduction to concepts, contexts, and practices of teaching speech communication and theatre at the secondary level. This course includes a clinical supervision component.

692. Special Problems. 3 hrs. For independent research projects designed to answer specific questions in applied or theoretical communication.

697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. Thesis. 3-6 hrs. for a total of 6 hours.
316 | Course Descriptions

715. Message Processes and Effects. 3 hrs. Examines construction and structuring of messages by communicators to form conversation, the effects of messages upon receivers, and factors which affect construction, structuring, and reception of messages.

720. Introduction to Graduate Research. 3 hrs. Analysis of types of problems, concepts, variables, definition, design measurement techniques, and interpretation of data prevalent in communication research. Involves elementary statistics and development of research proposals and designs. (May also be taken as MC 720.)

721. Content Analysis. 3 hrs. Study of theory and methods of defining, categorizing, coding, and interpreting verbal and non-verbal elements of the communication process. Emphasizes source and message elements. Elementary statistical analysis, research report, and design of studies. (May also be taken as MC 721.)

722. Communication Research Methods. 3 hrs. A study of the techniques and strategies used in conducting empirical studies of communication. Topics will include measurement, sampling, and content analysis. (May also be taken as MC 722.)

725. Seminar in Organizational Communication. 3 hrs. Topics under the heading of organizational communication are explored, including such issues as organizational cultures, communication climate, and conflict management.

726. Seminar in Interpersonal Communication. 3 hrs. Readings in narrative approaches to investigating human communication, including theoretical issues, methods, and case studies.

730. Theory and Research in Small Group Communication. 3 hrs. A study of human interaction in small group settings and the determinants and effects of such interaction.

735. Rhetorical Theory. 3 hrs. A study of the development of rhetorical theory, ancient through contemporary. The course will examine classical, medieval, Renaissance, and late European rhetoricians, and re-emergence of rhetorical theory in the 20th century.

740. Rhetorical Criticism. 3 hrs. This course examines the variety of contexts and situations to which can be applied principles of rhetorical criticism. Emphasis will be placed on public discourse and media.

745. Communication and Humor. Examines the use of humor in public speeches, workplace, and personal relationships. Assesses current theory and research on the topic.

750. Theory and Research in Nonverbal Communication. 3 hrs. A study of nonverbal communication and its relation to effective oral communication. Topics include gender and cultural differences, detecting deception, persuasive strategies.

755. Contemporary Theory and Research in Persuasion. 3 hrs. This course is designed to familiarize students with current issues and research in persuasive communication.

792. Special Problems. 3 hrs. For independent research problems designed to answer specific questions in applied or theoretical communication.

797. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a dissertation, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of dissertation but who are actively working on a dissertation, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

809. Speech Communication Seminar. 3 hrs. A rotating seminar that addresses topics in speech communication.

898. Dissertation. 3-12 hrs., for a total of 12 hrs.

Technical and Occupational Education (TOE)

500. Facility Planning and Equipment Selection. 3 hrs. A study of facility layout, equipment specifications, cost analysis and procurement procedures.

533. Curriculum Construction for Cooperative Education. 3 hrs. Objectives, content, and arrangement of units for teaching cooperative and evening classes.

541. Philosophy and Principles of Occupational Instruction. 3 hrs. A methods course for teaching trade, technical and other vocational subjects.

543. Design of the Occupational Based Instruction Program. 3 hrs. Occupational analysis based design and sequencing of instructional components and the development of appropriate support materials.

544. Development of Occupational Instruction Materials. 3 hrs. Selection, development and use of instructional aids, with an emphasis on media production.

545. Delivery of the Occupational Instruction Program. 3 hrs. Learning theory based techniques of instructional delivery in the vocational classroom and laboratory.

547. **Industrial Human Relations.** 3 hrs. A study of human behavior and interpersonal dynamics within the industrial organization and environment. Primarily for industrial educators.

548. **Industrial and Vocational Safety.** 3 hrs. Analysis of fundamentals of accident prevention and their application in school shops.

552. **History and Philosophy of Vocational Education.** 3 hrs. Objectives, principles, aims, and organization of programs in schools and colleges.

553. **Techniques of Coordination.** 3 hrs. A study of the techniques, procedures, problems, etc., in the operation of cooperative education programs.

578. **Specialized Studies in Developmental Disabilities.** 1-6 hrs. Specialized study and skill acquisition in the area of developmental disabilities. Topics vary.

597. **Professional Collaboration for Developmental Disability Services.** 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.

605. **History of Technology and Occupational Education.** 3 hrs. A study of leaders, movements, and agencies in the development of technical and occupational education.

688. **Medical Aspects of Developmental Disabilities.** 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

689. **Seminar in Technology Education, I, II, III.** 2 hrs. May be taken three times.

692. **Special Problems in Technical Education.** 1-3 hrs. Advanced individualized project relevant to the student’s skill specialty.

697. **Independent Study and Research.** Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university may enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.

698. **Thesis.** 1-6 hrs. for a total of 6 hrs. Credit deferred until thesis is completed.

701. **Supervision of Vocational and Technical Education.** 3 hrs. A study of the problems of local directors and supervisors of vocational and technical education.

702. **Individualized Instruction in Vocational Technical Education.** 3 hrs. Foundations, principles, and techniques of teaching knowledge and skills on an individual basis.

703. **Contemporary Vocational and Technical Education Programs.** 3 hrs. A comparative analysis of contemporary and emerging programs in vocational education.

704. **Vocational Guidance and Placement.** 3 hrs. An overview of careers available through vocational and technical education, methods of student identification placement, and follow-up.

709. **Field Problem in Industrial and Vocational Education.** 3 hrs. Prerequisites: REF 601, REF 702, and approval of the major professor.

798. **Specialist Thesis.** 6 hrs. Utilizing research and professional knowledge in the solution of a practical educational problem. Scholarly paper required.

**Theatre (THE)**

501. **Costume Design.** 3 hrs. Prerequisite: Permission of instructor. Costume design in theatrical production.

510. **Stage Sound Engineering.** 3 hrs. Principles and practice in stage sound engineering.

511. **Advanced Voice for the Actor.** 3 hrs. Advanced vocal production technique with focus on period language.

512. **Stage Lighting.** 3 hrs. Prerequisite: Permission of instructor. Theory and application of general and special lighting, color, instrumentation, and control.

514. **Improvisation.** 3 hrs. A performance course focusing on freeing the creative impulse while reducing internal censorship.

<thead>
<tr>
<th>Course Code</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>518</td>
<td>Period Acting Styles II. 3 hrs. Study of styles of acting from Restoration through 1900. Utilizing speech, movement, and acting style.</td>
</tr>
<tr>
<td>527</td>
<td>Historic Theatre Production. 3 hrs. A survey of historic theatre production techniques.</td>
</tr>
<tr>
<td>528</td>
<td>Summer Theatre I. 3 hrs. Prerequisite: Permission of staff. Concentrated applied theatre.</td>
</tr>
<tr>
<td>531</td>
<td>Summer Theatre II. 3 hrs. Continuation of THE 528.</td>
</tr>
<tr>
<td>533</td>
<td>Design Studio I. 3 hrs. Rendering commonly used theatrical materials.</td>
</tr>
<tr>
<td>534</td>
<td>Design Studio II. 3 hrs. Scenographic techniques.</td>
</tr>
<tr>
<td>550</td>
<td>Audition Process. 3 hrs. Prerequisite: Permission of instructor, audition, or advanced scene study. Methods and techniques needed for professional auditions and interviews.</td>
</tr>
<tr>
<td>551</td>
<td>Rehearsal Process. 3 hrs.</td>
</tr>
<tr>
<td>557</td>
<td>Performance and Production Internship. 1-9 hrs. Professional experience in student’s area of emphasis received while in residence with an approved professional organization.</td>
</tr>
<tr>
<td>581</td>
<td>Repertory Theatre. 3-9 hrs. Participation in the analysis and preparation of performances of plays in repertory. (Must enroll in three 3-hour sections.)</td>
</tr>
<tr>
<td>597</td>
<td>Theatre Exchange Studies Abroad. 9-15 hrs. Opportunity to study theater for one semester in an approved exchange program abroad. Offered under the auspices of the Center for International and Continuing Education.</td>
</tr>
<tr>
<td>599</td>
<td>British Studies in Theatre. 3-6 hrs. Offered under the auspices of the Center for International and Continuing Education.</td>
</tr>
<tr>
<td>611</td>
<td>Seminar: Contemporary Trends in Theatre. 3 hrs.</td>
</tr>
<tr>
<td>612</td>
<td>Seminar in Theatre Production. 3 hrs. A seminar in the integration of research skills into the creative process. Research will encompass historical, critical, biographical, and anthropological fields. The course is designed to include all MFA disciplines.</td>
</tr>
<tr>
<td>613</td>
<td>Seminar in Theatre Design and Structure. 3 hrs. Research in architectural and acoustical design, lighting, audience arrangement, decor, function, and stage requirements.</td>
</tr>
<tr>
<td>614</td>
<td>Seminar in Acting and Directing. 3 hrs. An in-depth study of the relationship of the creative processes generated by the actor and the director to methods of production.</td>
</tr>
<tr>
<td>616</td>
<td>Advanced Scene Study. 3 hrs. Advanced scene study and improvisation techniques, including classic, absurdist, surreal and stage drama.</td>
</tr>
<tr>
<td>620</td>
<td>Advanced Directing, 3 hrs. An advanced level course in stage directing techniques.</td>
</tr>
<tr>
<td>626</td>
<td>Scenic Design. 3 hrs. Elements of scene design. Play analysis in terms of visualization and style and the mechanics of developing an effective stage setting.</td>
</tr>
<tr>
<td>635</td>
<td>Advanced Scene Design. 3 hrs. An advanced course in scenography, including design techniques applicable to selected period styles. Emphasis placed on scenic design as an element of a total production concept.</td>
</tr>
<tr>
<td>645</td>
<td>Advanced Stage Lighting. 3 hrs. Advanced stage-lighting techniques including stylization and dance lighting. Lighting considered as part of a total production concept.</td>
</tr>
<tr>
<td>660</td>
<td>Advanced Costume Design. 3 hrs. Costume design as an element of a total production concept. Projects in designing costumes for plays, opera and dance.</td>
</tr>
<tr>
<td>661</td>
<td>Advanced Theatrical Makeup. 3 hrs. Advanced projects in makeup design and execution. Emphasis placed on three-dimensional makeup techniques for theatre, television and film.</td>
</tr>
<tr>
<td>670L</td>
<td>Graduate Voice and Movement. 1 hr. Repeatable for a total of 6 hours. Exploratory work through both classical and contemporary methods for the development of the actor’s voice and body.</td>
</tr>
<tr>
<td>675</td>
<td>Graduate Directing Studio. 2 hrs. Repeatable for a total of 12 hours. Advanced directing techniques.</td>
</tr>
<tr>
<td>679L</td>
<td>Practicum in Box Office and Publicity. 1-3 hrs. May be taken for a total of 9 hours.</td>
</tr>
<tr>
<td>680</td>
<td>Graduate Design Studio. 2 hrs. Repeatable for a total of 12 hours. Advanced design techniques. Emphasis on combining textual analysis, design research, rendering and design decision making through the creative process.</td>
</tr>
<tr>
<td>681L</td>
<td>Practicum in Acting and Directing. 1-3 hrs. May be taken for a total of 9 hours.</td>
</tr>
<tr>
<td>682L</td>
<td>Practicum in Costume and Makeup Technology. 1-3 hrs. May be taken for a total of 9 hours.</td>
</tr>
<tr>
<td>683L</td>
<td>Practicum in Technical Theatre. 1-3 hrs. May be taken for a total of 9 hours.</td>
</tr>
</tbody>
</table>
684L. Practicum in Lighting and Sound Engineering. 1-3 hrs. May be taken for a total of 9 hours.
685L. Practicum in Properties. 1-3 hrs. May be taken for a total of 9 hours.
686L. Practicum in Design. 1-3 hrs. May be taken for a total of 9 hours.
687L. Practicum in Dance and Movement. 1-3 hrs. May be taken for a total of 9 hours.
690. Graduate Acting Study. 2 hrs. Repeatable for a total of 12 hours. Advanced acting techniques. Emphasis on combining textual analysis, movement, vocal, and advanced acting techniques through the creative process.
691. Research in Theatre. 1-16 hrs. A written prospectus and timetable must be submitted and approved by a graduate faculty member before enrolling.
692. Special Problems I, II, III. 1-3 hrs. each. Investigation into specialized area of interest in the MFA student’s discipline. Proposals with timetable must be submitted and approved by a graduate faculty member before enrolling.
696. Practicum in Theatre I, II, III. 3 hrs. each. Students participate in the university theatre production process in a significant area of responsibility. May be taken three times for a total of 9 hours.
697. Independent Study and Research. Hours arranged. Not to be counted as credit toward a degree. Students actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course. Students who are not in residence and are not enrolled in at least 3 hours of thesis but who are actively working on a thesis, consulting with the major professor, or using other resources of the university must enroll in this course for at least 3 hours each semester.
699. Creative Project. 1-8 hrs.

Therapy (THY)
511. Introduction to Kinesiotherapy. 3 hrs. An introduction to the theory of organizing and conducting kinesiotherapy as it applies to physical and mental rehabilitation.
512. Kinesiotherapy I. 3 hrs. Prerequisites: BSC 250 and 251; HPR 303, 370, and 374; THY 511. Emphasis placed on physical evaluation procedures of spine and extremities, musculoskeletal function, goniometry, and gait analysis.
521. Clinical Experience. 1-4 hrs. arr. A supervised internship in various habilitation, rehabilitation, or neuropsychiatric clinics. May be repeated.
597. Professional Collaboration for Developmental Disability Services. 3 hrs. Study of the interdependent contributions of relevant disciplines in training, service, and research.
598. Families of the Developmentally Disabled. 3 hrs. Interdisciplinary approach to the study of families of the developmentally disabled.
678. Assessment and Intervention for Handicapped Children 0-5. 3 hrs. Current issues and theories regarding assessment and intervention procedures for at-risk and handicapped young children, birth through five.
688. Medical Aspects of Developmental Disabilities. 3 hrs. Medical conditions, diagnostic tests, and other health care issues relevant to individuals with developmental disabilities.

Women’s Studies (WS)
503. British Women Writers. 3 hrs. Literature written by British women writers. Variable content.
510. Women in American Society. 3 hrs. A survey of the experience of American women from the colonial period to the present with emphasis on the evolution of women’s role in society in response to changing economic or social conditions.
520. Women and Politics. 3 hrs. Examines feminist political theory, the role and status of women in United States politics, and public policy issues related to women.
525. Sociology of Gender. 3 hrs. A study of the relationship between gender and broader cultural patterns in various societies.
527. Family Law. 3 hrs. An in-depth study of common law and statutory law relating to the family emphasizing legal remedies to violence and its effects on the criminal justice system.
528. Family Violence, Investigation, and Deterrence. 3 hrs. A study of child and spouse abuse within the family emphasizing detection, investigation, and deterrence.
601. Theories and Methods in Women’s Studies. 3 hrs. An advanced survey of feminist theory and methodology; preparatory to graduate coursework in Women’s Studies.
602. **Topics in Writing by Women.** 3 hrs. A critical examination of a genre, topic, or theme in women’s literature.

692. **Special Problems in Women’s Studies.** 3 hrs. Prerequisite: Consent of instructor. Directed individual study toward the completion of a significant research project.

**Workforce Training Development (WTD)**

540. **Workforce Development Models.** 3 hrs. Application of different instructional models to design workforce training of facts, concepts, procedures, and processes.

543. **Strategies for Technology Training.** 3 hrs. Mastery of core competencies to develop and deliver technology training.

560. **Performance Technology I.** 3 hrs. Examine foundations, process models, interventions, and professional practice issues for improving workforce productivity and competence.

565. **Performance Technology II.** 3 hrs. Prerequisite: WTD 560 or permission of instructor. Investigation of innovative techniques to deliver training and performance interventions.

573. **Workforce Analysis.** 3 hrs. Applied research methods and tools for the training professional to analyze and evaluate the worker, work processes, and the organization.

590. **Multimedia Author.** 3 hrs. Prerequisite: ENT 120 or permission of instructor. Design and development of dynamic, interactive multimedia products for workplace training and electronic support systems.

595. **Emerging Digital Technologies.** 3 hrs. Prerequisite: WTD 590 or permission of instructor. Overviews Web-based systems that provide on-demand, just-in-time, performance-improvement applications to business and industrial settings using the Internet.

665. **Advanced Performance Technology.** 3 hrs. Prerequisite: WTD 560. Advanced application of performance technology interventions that impact today’s workforce.

675. **Research in Workforce Training and Development.** 3 hrs. Analysis and evaluation of current research in the field of workforce training and development.

680. **Workforce Training and Development Seminar.** 1-6 hrs. Presentation of workforce training industrial applications, practices, and problem solutions. May be repeated for a total of 6 hrs.

691. **Research.** 1-6 hrs. Investigation of current research and literature in workforce training and development; development of writing skills, a thesis/prospectus must be orally defended. A maximum of 3 hrs. can be applied toward a degree in workforce training and development.

692. **Topics in Workforce Training and Development.** 1-6 hrs. Investigation of specific topics related to workforce training and development. May be repeated for a total of 6 hrs.

697. **Independent Study and Research.** 1-12 hrs. Hours arranged. Not to be counted as credit toward degree. Students actively working on a thesis or project, consulting with major professor, or using university resources and who are not in residence and are not enrolled in at least 3 hrs. of thesis or project credit must enroll in this course for at least 3 hrs. each semester.

699. **Project.** 1-3 hrs. For a total of 3 hours. Credit deferred until project is complete.
Administration and Faculty

The Board of Trustees
State of Mississippi
Institutions of Higher Learning

Members Whose Terms Expire May 7, 2012
SCOTT ROSS, Northern Supreme Court District, West Point
BETTYE H. NEELY, Fourth Congressional District, Grenada
AMY WHITTEN, Second Congressional District, Oxford
STACY DAVIDSON, Third Congressional District, Cleveland

Members Whose Terms Expire May 7, 2008
THOMAS W. COLBERT, State-at-Large, Jackson
JAMES ROY KLUMB, Sixth Congressional District, Gulfport
D. E. MAGEE JR., Central Supreme Court District, Jackson
VIRGINIA SHANTEAU NEWTON, Southern Supreme Court District, Gulfport

Members Whose Terms Expire May 7, 2004
WILLIAM S. CRAWFORD, Fifth Congressional District, Meridian
RICKI R. GARRETT, Seventh Congressional District, Clinton
BRYCE GRIFFIS, First Congressional District, Tupelo
CARL NICHOLSON JR., State-at-Large, Hattiesburg

Officers of the Board
JAMES ROY KLUMB, President
VIRGINIA SHANTEAU NEWTON, Vice President
DAVID POTTER, Commissioner of Higher Education
Officers of Administration

SHELBY FRELAND THAMES, B.S., M.S., Ph.D..........................President
TIM HUDSON, B.A., M.A., Ph.D........................................University Provost
DARRELL JAY GRIMES, B.A., M.A., Ph.D..................Provost, Southern Miss Gulf Coast
ANGELINA DVORAK, B.A., M.S., Ph.D., J.D..............Vice President for Research and Economic Development
GREGG GLASSEN, B.S., M.B.A., J.D...............................Chief Financial Officer
JOSEPH SCOTT PAUL, B.S., M.S., Ph.D..................Vice President for Student Affairs
RICHARD GIANNINI, B.S., M.S...............................Director of Intercollegiate Athletics

Academic Deans

ELLIOTT A. POOD, B.A., M.M., D.M.A..................Dean of the College of Arts and Letters
HAROLD DOTY, B.A., M.B.A., Ph.D.........................Dean of the College of Business and Economic Development
W. LEE PIERCE, B.S.E., M.Ed., Ed.D.....................Interim Dean of the College of Education and Psychology
JOAN L. EXLINE, B.S., M.H.S.A., Ph.D., FACHE.........Interim Dean of the College of Health
REX GANDY, B.S., M.S., Ph.D...............................Dean of the College of Science and Technology
KENNETH JOHN PANTON, M.A., Ph.D...................Dean of the Honors College
Graduate Council

Officers of the Council
Harold Shoemaker, Ph.D. ......................................................... Chair
William Powell, Ph.D. ........................................................ Vice Chair
Bradley G. Bond, Ph.D. ....................................................... Corresponding Secretary
Greg Pierce, M.Ed. ............................................................ Recording Secretary
Edward C. Mann, D.Ed. ....................................................... Parliamentarian
Shelby F. Thames, Ph.D. ....................................................... Ex-Officio Member
Kay Wall, MLS ................................................................. Ex-Officio Member

Members

College of Arts and Letters
Joseph Brumbeloe, Ph.D.
William Powell, Ph.D.
Jennifer A. Torres, M.F.A.
Amy L. Young, Ph.D.

College of Business and Economic Development
Stephen Bushardt, D.B.A.
Charles Jordan, D.B.A.

College of Education and Psychology
Edward C. Mann D.Ed.
Heather Sterling-Turner, Ph.D.

College of Health
Carolyn E. Beck, Ed.D.
Joan Exline, Ph.D.
Mary Frances Nettles, Ph.D.

College of Science and Technology
James Miller, Ph.D.
Susan R. Ross, Ph.D.
Charlotte Anne Brunner, Ph.D.
Julia Lyle, Ph.D.

Student Representative
GSA President
ABBENYI, JULIANA, Associate Professor of English. Ph.D., University of Yaounde; Ph.D., McGill University.

ADAM, GARY, Assistant Professor of Music. D.M.A., University of South Carolina.

ADAMS, STEPHEN TODD, Instructor of Engineering Technology. M.S., The University of Southern Mississippi.

ADAMS, MARY ANN, Associate Professor of Marriage and Family Therapy. Ph.D., Florida State University.

ADAN-BANTE, EDITH, Assistant Professor of Mathematics, Gulf Coast. Ph.D., University of Illinois.

AGLER-LIN, LIN-MIAO, Assistant Professor. Ph.D., Georgia State University.

AHUA, EMMANUEL, Assistant Professor of Community Health. H.S.D., Indiana University.

ALBER, SHEILA R., Graduate Coordinator and Associate Professor of Special Education. Ph.D., The Ohio State University.

ALBIN, MARVIN J., Associate Professor of Accounting. Ph.D., University of Houston. C.P.A.

ALEXANDER, LEE, Adjunct Professor of Marine Science. Ph.D., Yale University.

ALFORD, DARLYS, Associate Professor of Psychology. Gulf Coast. Ph.D., University of California-Santa Barbara.

ALI, ADEL L., Chair of the Department of Computer Science and Statistics and Associate Professor of Computer Science and Statistics. Ph.D., Lehigh University.

ALI, DIA L., Professor of Computer Science and Statistics. Ph.D., Lehigh University.

ALI, KAMAL SHARAF, Professor of Engineering Technology. Ph.D., Reading University.

ANDERSON, GARY, Professor of Biological Sciences. Ph.D., University of South Carolina.

ANDERSON, PATSY L., Assistant Professor of Nursing. D.N.S., Louisiana State University.

ANDERSON, RANDY. Assistant Professor of Educational Leadership and Research. Ed.D., Saint Louis University.

APPELT-SLICK, GLORIA, Associate Professor of Curriculum and Instruction. Ed.D., University of Houston.

ARNAU, RANDOLPH C. III, Assistant Professor of Psychology. Ph.D., Texas A&M University.

ARONSON, ROBIN, Assistant Professor of Theatre. M.F.A., University of Connecticut-Storrs.

ASPER, VERNON L., Professor of Marine Science. Ph.D., Woods Hole Oceanographic Institute/Massachusetts Institute of Technology.

AUSTIN, CURTIS, Assistant Professor of History and Co-Director of the Center for Oral History and Cultural Heritage. Ph.D., Mississippi State University.

BABIN, BARRY J., Professor of Marketing. Ph.D., Louisiana State University.

BABIN, LAURIE A., Associate Professor of Marketing. Ph.D., Louisiana State University.

BAGGETT, WILLIAM C., JR., Professor of Art. M.F.A., Auburn University.

BAKER, S. SCOTT, Assistant Professor of Music. Ph.D., Florida State University.

BALL, ANGELA SUE, Chair and Professor of English. Ph.D., University of Denver.

BARNETT, LOIS MARGARET, Professor of History. Ph.D., Columbia University.

BARRON, JONATHAN, Associate Professor of English. Ph.D., Indiana University.

BARTHELME, FREDERICK, Professor of English. M.A., Johns Hopkins University.

BARTHELME, STEVEN, Professor of English. M.A., Johns Hopkins University.

BASS, JERRY O., Assistant Professor of Geography. Ph.D., University of Texas.

BATEMAN, ROBERT CAREY, Chair of the Department of Chemistry and Biochemistry and Professor of Chemistry and Biochemistry. Ph.D., University of North Carolina.
BECK, CAROLYN E., Associate Professor of Medical Technology. Ed.D., Consortium-Baylor College of Medicine and University of Houston.

BECKETT, DAVID C., Associate Professor of Biological Sciences, Ph.D., University of Cincinnati.

BELTON, WESLEY, Associate Professor of Social Work. D.S.W., Columbia University.

BERRY, DAVID CHAPMAN, JR., Professor of English. Ph.D., University of Tennessee.

BERRY, VIRGINIA SWITZER, Assistant Professor of Speech and Hearing Sciences. M.S., Vanderbilt University.

BETHEL, JOYOUS, Assistant Professor of Social Work. Ph.D., Barry University.

BETOUNES, DAVID ELTON, Professor of Mathematics. Ph.D., Florida State University.

BIESIOT, PATRICIA M., Associate Professor of Biological Sciences. Ph.D., Woods Hole Oceanographic Institute/ Massachusetts Institute of Technology.

BILLON, WAYNE ELWOOD, Associate Professor of Nutrition and Food Systems. Ph.D., Clemson University.

BISLAND, RALPH BRADFORD JR., Professor of Computer Science and Statistics. D.B.A., Mississippi State University.

BIVINS, JOHN A., Associate Professor of Music. D.M.A., Louisiana State University.

BLACK, HAROLD TYRONE, Professor of Economics, Finance, and International Business. Ph.D., Tulane University.

BLACKWELL, ANN P., Associate Professor of Family and Consumer Sciences. Ph.D., University of Mississippi.

BLESSE, STEVEN K., Instructor of Engineering Technology. M.S., The University of Southern Mississippi.

BOLTE, JEANNETTE, Assistant Professor of Psychology. Ph.D., New Mexico State University.

BOLTON, CHARLES CLIFTON, Chair of the Department of History and Professor of History. Ph.D., Duke University.

BOMHOLD, CATHARINE. Assistant Professor of Library and Information Science. Ph.D., University of Alabama.

BOND, BRADLEY, Assistant Provost and Associate Professor of History. Ph.D., Louisiana State University.

BONTEMPTI PAULA S., Assistant Professor of Marine Science. Ph.D., University of Rhode Island.

BOUDEAUX, LAURA JANE, Professor of Nutrition and Food Systems. Ph.D., Texas Woman’s University.

BOUDRELAUX, LAURA JANE, Professor of Nutrition and Food Systems. Ph.D., Texas Woman’s University.

BOUNDS, WENDY E., Assistant Professor of Nutrition and Food Systems. Ph.D., University of Tennessee.

BOBLES, SHIRLEY J., Associate Professor of Curriculum and Instruction and Graduate Coordinator. Ed.D., Mississippi State University.

BOYD, SHERI JORDAN, Assistant Professor of Mathematics, Gulf Coast. Ph.D., Vanderbilt University.

BOYES, STEPHEN G., Assistant Professor of Polymer Science. Ph.D., University of New South Wales.

BRISTOL, DOUGLAS W., JR., Assistant Professor of History, Gulf Coast. Ph.D., University of Maryland.

BROCK, ANNA M., Professor of Nursing. Ph.D., University of Maryland.

BROUWER, MARIUS, Professor of Coastal Sciences. Ph.D., University of Groningen, The Netherlands.

BROWN, CINDY, Assistant Professor of Journalism/Photojournalist. Ph.D., Indiana University.
BROWN, DENISE, Director of the Applied Research Division, National Food Service Management Institute, and Research Associate Professor of Nutrition and Food Systems. Ph.D., University of Missouri-Columbia.

BRUMBELOE, JOSEPH, Associate Professor of Music. Ph.D., Indiana University.

BRUNNER, CHARLOTTE ANNE, Associate Professor of Marine Science. Ph.D., University of Rhode Island Graduate School of Oceanography.

BRUTON, SAMUEL, Assistant Professor of Philosophy. Ph.D., University of North Carolina.

BUCHANAN, RANDY K., Assistant Professor of Engineering Technology. M.S., Pittsburgh State University.

BUMGARDNER, WALTER HENRY, Interim Director of the School of Human Performance and Recreation and Professor of Recreation. Ph.D., Texas A & M University.

BURAS, AVERY, Assistant Professor of Education. Ph.D., Texas A & M University.

BURGE, CECIL DWIGHT, Associate Vice President for Research and Technology Transfer and Professor of Computer Science and Statistics. Ph.D., Mississippi State University; P.E.

BURGESS, CLIFFORD, Associate Professor of Computer Science and Statistics. Ph.D., North Texas State University.

BURNETT, JOANNE E., Associate Professor of Second Language Acquisition and French. Ph.D., Pennsylvania State University.

BUSHARDT, STEPHEN CHRISTIAN, Professor of Management. D.B.A., Mississippi State University.

BUTKO, PETER, Associate Professor of Chemistry and Biochemistry. Ph.D., Jozsef Attila University, Hungary.

BUTLER, DAVID, Assistant Professor of Economic Development. Ph.D., University of Connecticut.

BUTTS, MARY JANE, Associate Professor of Nursing. D.S.N., The University of Alabama-Birmingham.

CABANA, DONALD, Interim Chair of the Department of Criminal Justice and Associate Professor of Criminal Justice. Ph.D., The University of Southern Mississippi.

CALLAHAN, TERESA R., Associate Professor of Curriculum, Instruction, and Special Education, Gulf Coast. Ed.D., Syracuse University.

CANNON, GORDON CLAUDE, Professor of Chemistry and Biochemistry. Ph.D., Clemson University.

CAPPIN, DANIEL JR., Assistant Professor of Philosophy and Religion. Ph.D., University of Chicago.

CARLIN, MARGARET FRANCES, Professor of Speech and Hearing Sciences. Ph.D., Wichita State University.

CARR, JON, Assistant Professor, Marketing and Management. Ph.D., Mississippi State University.

CARTER, CHARLES P., Professor of Finance. Ph.D., The University of Southern Mississippi.

CARTER, GEORGE HENRY III, Professor of Economics, Finance, and International Business. Ph.D., Texas A & M University.

CARUTHERS, JERALD, Professor of Marine Science. Ph.D., Texas A & M University.

CARVER, VIVIEN, Professor of Community Health. Ed.D., University of Alabama.

CHAMBERS, DOUGLAS, Assistant Professor of History. Ph.D., University of Virginia.

CHANCE, ROSEMARY, Assistant Professor of Library and Information Science. Ph.D., Texas Woman’s University.

CHATHAM, CYNTHIA, Associate Professor of Nursing. D.S.N., University of Alabama-Birmingham.

CHEN, KUO LANE, Associate Professor of Management Information Systems. Ph.D., Lamar University.
CHRIST, THEODORE J., Assistant Professor of Psychology. Ph.D., University of Massachusetts at Amherst.

CLARK, JOHN M., Assistant Professor of Economics, Finance, and International Business. Ph.D., University of Alabama.

CLARK, MARK EDWARD, Associate Professor of Classics and History. Ph.D., Indiana University.

CLARK, STANLEY JOE, Professor of Accounting. Ph.D., University of Kentucky; C.P.A.

CLOUD, STEVEN J., Assistant Professor of Speech and Hearing Sciences. Ph.D., University of Tennessee.

COATES, EYLER R., Associate Professor of Engineering Technology. Ph.D., Louisiana State University.

COBB, MARIA A., Assistant Chair and Assistant Professor, Department of Computer Science and Statistics. Ph.D., Tulane University.

COCHRAN, DAVID M., Assistant Professor of Geography. Ph.D., Kansas University.

COMYNS, BRUCE, Associate Professor of Coastal Sciences. Ph.D., Louisiana State University.

CONNELL, CAROL LAWSON, Research Scientist and Assistant Research Professor, Lower Mississippi Delta Nutrition Intervention Research Initiative. Ph.D., The University of Southern Mississippi.

CONTREIRAS, JOSE', Assistant Professor of Mathematics. Ph.D., The Ohio State University.

CONVILLE, RICHARD LANE JR., Professor of Speech Communication. Ph.D., Louisiana State University.

COPELAND, DEBRA B., Assistant Professor of Nursing. D.S.N., Louisiana State University Medical Center.

COYNE, MARY LOUISE, Professor of Nursing and Coordinator, Gulf Park Campus. D.N.Sc., The Catholic University of America.

CROCKETT, JAMES R., Professor of Accounting. D.B.A., Mississippi State University.

CURLY, KENNETH J., Associate Professor of Biological Sciences. Ph.D., University of Southern California.

CWIKLA, JULIE, Assistant Professor of Curriculum, Instruction and Special Education. Ph.D., University of Delaware.

DAGGETT, LUANN M., Assistant Professor of Nursing and Coordinator for Meridian Campus. D.S.N., University of Alabama at Birmingham.

DAHLER, ERIC REYNOLDS, Assistant Professor of Psychology. Ph.D., Colorado State University.

DANFORTH, MARIE ELAINE, Professor of Anthropology. Ph.D., Indiana University.

DANIEL, FRANCIS, Assistant Professor of Management, Gulf Coast. Ph.D., Florida State University.

DAVIES, DAVID RANDALL, Associate Professor of Journalism. Ph.D., University of Alabama.

DAVIS, ANITA, Assistant Professor of Music. Ph.D., Florida State University.

DAVIS, CHARLES R., Professor of Political Science. Ph.D., University of Kentucky.

DAVIS, DONNA F., Professor of Management Information Systems. Ph.D., The University of Southern Mississippi; C.P.A.

DAVIS, KIMBERLEY M., Associate Professor of Music. D.M.A., The University of Southern Mississippi.

DAVIS, LAJUAN, Assistant Professor of Technology Education. Ph.D., Mississippi State University.

DAVIS, MICHAEL A., Assistant Professor of Biological Sciences. Ph.D., Auburn University.

DAVIS, PATRICIA WOODS, Assistant Professor of Social Work. Ph.D., Tulane University.
DEAN, JACK LEE, Professor and Director of Orchestral Activities. D.M.A., University of Texas-Austin.
DeARMY, MICHAEL HOWARD, Professor of Philosophy and Religion. Ph.D., Tulane University.
DeCHIARO, JOHN PAUL, Professor of Music. M.A., New York University.
DEMETRIOU, GEORGIOS A., Assistant Professor of Computer Science and Statistics. Ph.D., University of Southwestern Louisiana.
DEPREE, CHAUNCEY MARCELLOUS, Professor of Accounting. D.B.A., University of Kentucky.
DIEHL, ROBERT, Postdoctoral Fellow in Biological Sciences. Ph.D., University of Illinois.
DING, JIU, Professor of Mathematics. Ph.D., Michigan State University.
DIXON, CLIFTON V., Chair of the Department of Geography and Associate Professor of Geography. Ph.D., Texas A & M University.
DOTY, D. HAROLD, Dean of the College of Business and Economic Development and Professor of Management and Marketing. Ph.D., University of Texas-Austin.
DUHON, DAVID LESTER, Associate Professor of Management. Ph.D., Louisiana State University.
DUNN, DEAN ALAN, Professor of Geology. Ph.D., University of Rhode Island.
DVORAK, ANGELINE G., Vice President for Research and Economic Development. Ph.D., Florida State University; J.D., Thomas M. Cooley Law School.
DYER, BECKY, Assistant Professor of Theatre and Dance. Ph.D., Texas Woman’s University.
EDWARDS, RONALD PHILIP, Professor of Psychology. Ph.D., University of Iowa.
EISENBERG, LAURENCE, Assistant Professor of Economics, Finance, and International Business. Ph.D., University of Pennsylvania.
ELASRI, MOHAMED, Assistant Professor of Biological Sciences. Ph.D., Oklahoma State University-Stillwater.
ELLERD, RUDOLPH DENNIS, JR., Professor of Biological Sciences. Ph.D., Texas A & M University.
ELLISON, CHARLES A., Director of the School of Music and Professor of Music. Ph.D., University of Texas-Austin.
ENDT, RITA L., Assistant Professor of Engineering Technology. Gulf Coast. M.S., Wayne State University.
ERICKSON, KEITH VINCENT, Professor of Speech Communication. Ed.D., University of Michigan.
ESCOBAR, LUZ MARINA, Assistant Professor of Spanish. Ph.D., The University of Southern Mississippi.
EVANS, JEFFREY ALAN, Associate Professor of Chemistry and Biochemistry. Ph.D., University of Kansas Medical Center.
EXLINES, JOAN L., Interim Dean of the College of Health, Director of the Center for Community Health and Associate Professor of Community Health. Ph.D., Wayne State University.
FALCONER, RENEE, Assistant Professor of Curriculum and Instruction. Ph.D., Utah State University.
FAWCETT, NEWTON CREIG, Professor of Chemistry and Biochemistry. Ph.D., University of New Mexico.
FELDMANN, DOUG, Assistant Professor of Curriculum, Instruction and Special Education. Ph.D., Indiana University.
FISHER, DAN, Assistant Professor of Marketing. Ph.D., University of Arkansas.
FISHER, DIANE J., Assistant Professor of Technology Education. Ph.D., Mississippi State University.
FLANAGAN, JAMES GERARD, Professor of Anthropology. Ph.D., University of Pennsylvania.

FLETCHER, DESMOND W., Associate Professor of Engineering Technology. M.Arch., University of Texas-Austin.

FOLSE, RAYMOND FRANCIS JR., Professor of Physics and Astronomy. Ph.D., Louisiana State University.

FONDER-SOLANO, LEAH, Assistant Professor of Spanish. Ph.D., University of Arizona.

FORSTER, MICHAEL D., Director of the School of Social Work and Associate Professor of Social Work. Ph.D., University of Massachusetts.

FORTUNATO, VINCENT J., Associate Professor of Psychology. Ph.D., University at Albany.

FRASCHILLO, THOMAS VINCENT, Director of Bands and Professor of Music. D.M.A., University of South Carolina.

FROYSLAND, HAYLEY SUSAN, Assistant Professor of History. Ph.D., University of Virginia.

FULLER, GREGORY A., Director of Choral Activities and Associate Professor of Music. Ph.D., University of Missouri.

GANDY, REX F., Dean of the College of Science and Technology and Professor of Physics and Astronomy. Ph.D., University of Texas-Austin.

GARRAWAY, HUGH P. III, Associate Professor of Computer Science and Statistics. Ph.D., University of Texas.

GAUDET, CYNDI, Director of Workplace Learning and Performance Center and Associate Professor of Workforce Training and Development. Ph.D., Louisiana State University.

GENTILE, PHILLIP, Assistant Professor of Mass Communication. Ph.D., University of Rochester.

GILLESPIE, JEANNE L., Assistant Professor of Spanish. Ph.D., Arizona State University.

GILL, CLYDE NEULAN, Vice President for Administrative Affairs Emeritus and Associate Professor of Educational Leadership and Research. Ed.D., McNeese State University.

GLAMSER, FRANCIS DENTON, Professor of Sociology. Ph.D., Pennsylvania State University.

GOERTZEN, CHRIS, Associate Professor of Music. Ph.D., University of Illinois.

GOFF, DAVID HENRY, Director, School of Mass Communication and Journalism and Professor of Mass Communication. Ph.D., University of Massachusetts.

GOFF, LINDA D., Associate Professor of Speech Communication. Ph.D., University of Massachusetts.

GOGIN, CHERYL L., Associate Professor of Art. Ph.D., Indiana University.

GOGIN, WILLIAM C., Professor of Psychology. Ph.D., Indiana University.

GORZEGNO, JANET M., Associate Professor of Art. M.F.A., Yale University.

GOULD, TRENT, Assistant Professor/Program Director of Athletic Training. Ph.D., Ohio University.

GRAHAM-KRESGE, SUSAN MARIE, Instructor of Community Health. M.P.H., University of North Carolina-Chapel Hill.

GREEN, BRADLEY, Assistant Professor of Psychology. Ph.D., Texas A & M University.

GREEN, FREDERICK P., Professor of Recreation. Ph.D., University of Minnesota.

GREEN, TRELLIS GARNETT, Associate Professor of Economics, Finance, and International Business. Ph.D., Florida State University.

GREENE, KATHANNE WESTBROOK, Associate Professor of Political Science. Ph.D., University of Utah.

GREER, TAMMY FAY, Associate Professor of Psychology. Ph.D., Tulane University.

GRIFFITH, JERRY, Assistant Professor of Geography. Ph.D., University of Kansas.

GRIMES, DARRELL JAY, University Provost and Professor of Coastal Sciences. Ph.D., Colorado State University.

GUNTHER, WILLIAM DAVID, Professor of Economics. Ph.D., University of Kentucky.
GWOZDZ, LAWRENCE STEPHEN, Professor of Music. D.M.A., University of Iowa.
HAI RSTON, ROSALINA, Professor of Science Education. Ph.D., The University of Texas-Austin.
HAL L, MARGARET JEAN, Professor of Medical Technology. Ph.D., University of North Carolina-Chapel Hill.
HAN NON, JOHN JEFFREY, Assistant Professor of Engineering Technology. M.S., University of Oklahoma.
HAP CIC, BRIAN, Assistant Professor of Theatre. M.F.A., University of Montana.
HAQUE, S. M. MAZHARUL, Professor of Mass Communication. Ph.D., Ohio University.
HARBAU GH, BONNIE LEE, Assistant Professor of Nursing. Ph.D., University of Minnesota.
HAPPER, GLENN TERRY, Professor of History. Ph.D., Duke University.
HARR IS, ELIZABETH KAY, Associate Professor of English, Gulf Coast. Ph.D., University of Texas-Austin.
HARR IS, JOHN M., Assistant Professor of Mathematics, Gulf Coast. Ph.D., Louisiana State University.
HAR SH, JOHN RICHARD, Professor of Psychology. Ph.D., Bowling Green State University.
HARTMAN, SHERRY, Associate Professor of Nursing. Dr.P.H., Tulane University.
HAR TSE LL, TARA LYNN S., Assistant Professor of Technology Education. Ph.D., University of Arizona.
HAUER, STANLEY R., Professor of English. Ph.D., University of Tennessee.
HAWKINS, WILLIAM E., Professor of Coastal Sciences. Ph.D., University of Mississippi Medical Center.
HAYES, MONICA, Associate Professor of Theatre. M.F.A., Illinois State University.
HAYNES, DOROTHY ELIZABETH, Assistant Professor of Library and Information Science. Ph.D., University of Texas-Austin;
HEARD, RICHARD W., Professor of Coastal Science. Ph.D., The University of Southern Mississippi.
HEINHORST, SABINE, Professor of Chemistry and Biochemistry. Ph.D., Clemson University.
HENRY, MYRON S., Professor of Mathematics. Ph.D., Colorado State University.
HEN THORNE, TONY LEONARD, Professor of Marketing. Ph.D., University of Mississippi.
HERZINGER, KIM ALLEN, Professor of English. Ph.D., University of Rochester.
HESTER, ROGER DAVID, Professor of Polymer Science. Ph.D., Georgia Institute of Technology.
HINTON, AGNES W., Professor of Community Health. Dr.P.H., University of Alabama-Birmingham.
HOFACRE, MARTA JEAN, Professor of Music. D.M.A., University of Oklahoma.
HOFFMAN, MICHAEL, Assistant Professor of Computer Science. Ph.D., Louisiana State University.
HOLLEY, DAVID MARTIN, Chair of the Department of Philosophy and Religion and Professor of Philosophy and Religion. Ph.D., University of Texas-Austin.
HONG, SHERMAN, Professor of Music. Ed.D., The University of Southern Mississippi.
HORNOR, WILLIAM EDWARD, Professor of Mathematics. Ph.D., Memphis State University.
HOS MAN, LAWRENCE ANDREW, Professor of Speech Communication. Ph.D., University of Iowa.
HOUSE, JOHN, Associate Professor of Art. M.F.A., University of Tennessee.
HOU STON, SHELTON L., Interim Director of the School of Engineering Technology and Professor of Engineering Technology. Ph.D., University of Mississippi.
HOWDEN, STEPHAN, Assistant Professor of Marine Science. Ph.D., University of Rhode Island.
HOWELL, FREDDIE GENE, Professor of Biological Sciences. Ph.D., Texas Tech University.

HOYLE, CHARLES ENSLEY, The Southern Society for Coatings Distinguished Professor and Professor of Polymer Science and Chemistry and Biochemistry. Ph.D., Northwestern University.

HSIEH, CHANG-TSEH, Professor of Management Information Systems. Ph.D., Purdue University.

HUANG, FAQING, Associate Professor of Chemistry and Biochemistry. Ph.D., Duke University.

HUBBLE, SUSAN MARIE, Interim Director of the School of Human Performance and Recreation and Associate Professor of Recreation. Ed.D., University of Utah.

HUDSON, MABEL JANE, Chair of the Department of Medical Technology and Professor of Medical Technology. Ph.D., The University of Southern Mississippi.

HUDSON, TIM WILLIAMS, Provost and Professor of Economic Development. Ph.D., Clark University.

HUNT, DENNIS R., Assistant Professor of Criminal Justice. L.L.M., Northwestern University Law School.

HUNT, H. DAVID, Assistant Professor of Sociology. Ph.D., University of Illinois at Urbana-Champaign.

HUTCHINSON, JOE C., Associate Professor of Hospitality Management. Ph.D., Virginia Polytechnic Institute and State University.

IBRAHIM, IBRAHIM A., Associate Professor of Community Health. Ph.D., Virginia Commonwealth University.

JACKSON, HOMER EDWIN, Chair of the Department of Anthropology and Sociology and Professor of Anthropology. Ph.D., University of Michigan.

JACKSON, SARA, Associate Professor of Special Education, Gulf Coast. Ed.D., University of New Orleans.

JANES, SHARYN, Chief Nursing Administrator and Professor of Nursing. Ph.D., Florida State University.

JEFFRESS, PHILIP, Professor of Business Administration. Ph.D., University of Kentucky.

JENSEN, R. GEOFFREY, Associate Professor of History. Ph.D., Yale University.

JESTICE, PHYLLIS G., Associate Professor of History. Ph.D., Stanford University.

JOHNSOEY, GARY, Associate Professor of Engineering Technology. M.S., University of Missouri.

JORDAN, CHARLES EDWARD, Professor of Accounting. D.B.A., Louisiana Tech University. C.P.A.

JORDAN, SARA SYTSMA, Assistant Professor of Psychology. Ph.D., Louisiana State University.

JUDD, STEPHEN GLENN, Associate Professor of Theatre. M.F.A., University of Georgia.

JUNEAU, KAREN R., Assistant Professor of Technology Education. Ph.D., Louisiana State University.

KAMENKOVICh, VLADIMIR M., Professor of Marine Science. Ph.D., Shirshov Institute of Oceanology, Moscow, Russia.

KARNES, FRANCES ANN, Professor of Special Education. Ph.D., University of Illinois.

KAUFMANN, JEFFREY C., Assistant Professor of Anthropology. Ph.D., University of Wisconsin-Madison.

KAUL, ARTHUR JESSE, Professor of Journalism. Ph.D., Southern Illinois University.

KAZELSKIS, RICHARD, Professor of Educational Leadership and Research. Ed.D., University of Georgia.

KHOURY, AMAL J., Coordinator of Graduate Studies and Assistant Professor of Community Health. Ph.D., Johns Hopkins University.

KIMBER, MICHAEL, Associate Professor of Music. D.M.A., The Catholic University of America.

KINNELL, ANN MARIE, Assistant Professor of Sociology. Ph.D., Indiana University.
Administration and Faculty

KOEPPEL, JOHN CARRINGTON, Associate Professor of Psychology. Ph.D., Oklahoma State University.

KOHN, DANIEL E., Instructor of Engineering Technology. M.S., The University of Southern Mississippi.

KOLBO, JEROME, Professor of Social Work. Ph.D., University of Minnesota.

KOLSIBAL, JOSEPH G., Coordinator of Scientific Computing and Associate Professor of Mathematics. D. Phil., Oxford University.

KOLIN, PHILIP CHARLES, Professor of English. Ph.D., Northwestern University.

KREISER, BRIAN ROBERT, Assistant Professor of Biological Sciences. Ph.D., University of Colorado.

KUCZAJ, STAN A., II, Chair of the Department of Psychology and Professor of Psychology. Ph.D., University of Minnesota.

KUHN, FRANCIS X., Chair of the Department of Theatre and Dance and Associate Professor of Theatre. M.F.A., Southern Methodist University.

KUSKIN, WILLIAM, Assistant Professor of English. Ph.D., University of Wisconsin-Madison.

KYRE, MARYANN, Assistant Professor of Music. D.M.A., Louisiana State University.

KYRIAKOUDES, LOUIS, Associate Professor of History. Ph.D., Vanderbilt University.

LANSFORD, TOM, Assistant Professor of Arts and Sciences. Ph.D., University of New Orleans.

LARES, JAMEELA, Associate Professor of English. Ph.D., University of Southern California.

LARMON, MARILYN, Associate Professor of Curriculum, Instruction and Special Education. Ph.D., The University of Southern Mississippi.

LEA, JAMES FRANKLIN, Professor of Political Science. Ph.D., Louisiana State University.

LEACH, MARK MICHAEL, Associate Professor of Psychology. Ph.D., University of Oklahoma.

LEBSACK, SHARON ELAINE, Associate Professor of Music. M.M, University of Northern Colorado.

LEE, DAVID, Ed.D., Louisiana State University.

LEE, JOON C., Professor of Physics and Astronomy. Ph.D., University of Florida.

LEE, SUNGWOOK, Assistant Professor of Mathematics. Ph.D., University of Connecticut.

LEVENTHAL, LOIS ANN, Professor of Music. D.M.A., University of Indiana.

LEVITOV, JUSTIN, Associate Professor of Education. Ph.D., University of New Orleans.

LEVY, JACOB J., Assistant Professor of Psychology. Ph.D., Indiana University.

LEWIS, RICHARD, Assistant Professor of Art. Ph.D., Northwestern University.

LEY, HUGO D., Assistant Professor of Engineering Technology. M.S., The University of Texas-Austin.

LEWIS, STANLEY X., JR., Professor of Management Information Systems. D.B.A., Mississippi State University; C.P.A., C.F.E., C.C.E.A.

LEYBOURNE, ALAN, Professor of Engineering Technology. Ph.D., University of Florida.

LINDLEY, JAMES T., Professor of Economics, Finance, and International Business. Ph.D., University of Georgia.

LIPSCOMB, JOHN W. JR., Professor of Engineering Technology. Ph.D., University of Mississippi; P.E.

LO, MELODY, Assistant Professor of Economics, Finance, and International Business. Ph.D., Purdue University.

LOCHHEAD, ROBERT Y., Professor of Polymer Science. Ph.D., Strathclyde University.
LOHRENZ, STEVEN ERIC, Professor of Marine Science. Ph.D., Woods Hole Oceanographic Institute/Massachusetts Institute of Technology.

LOPEZ, TARA BURNTHORNE, Assistant Professor of Marketing. D.B.A., Louisiana State University.

LOTZ, JEFFERY M., Chair of the Department of Coastal Sciences and Professor of Coastal Sciences. Ph.D., Louisiana State University.

LOWE, ANDREW L., Assistant Professor of Chemistry and Biochemistry. D. Phil, University of Sussex.

LOWREY, PERRIN H., Associate Professor of Curriculum, Instruction, and Special Education. Ed.D., The University of Southern Mississippi.

LUCAS, AUBREY KEITH, President Emeritus and Distinguished Professor of Higher Education. Ph.D., Florida State University.

LUCIE, ERIC F., Associate Professor of Curriculum and Instruction, Gulf Coast. Ph.D., New York University.

LUH, KAREN, Assistant Professor of Educational Leadership and Research. Ph.D., University of Michigan.

LUNDY, KAREN SAUCIER, Professor of Nursing. Ph.D., University of Colorado.

LUTHER, CYNTHIA, Assistant Professor of Nursing. D.S.N., University of Alabama-Birmingham.

LUX, MARY FRANCES, Professor of Medical Technology. Ph.D., University of Mississippi.

LYDDON, WILLIAM J., Professor of Psychology. Ph.D., University of California-Santa Barbara.

LYTLE, JULIA S., Professor of Coastal Sciences. Ph.D., University of Texas.

LYTLE, THOMAS F., Professor of Coastal Sciences. Ph.D., University of Texas.

MACKAMAN, DOUGLAS, Associate Professor of History and International Education. Ph.D., University of California-Berkeley.

MAGRUDER, JAMES SCOTT, Associate Professor of Management Information Systems. Ph.D., Southern Illinois University.

MALLORY, STEPHEN L., Associate Professor of Criminal Justice. Ph.D., University of Mississippi.

MALONE, KENNETH G., Chair of the Department of Economic Development and Director of Business Ventures and Assistant Professor of Economic Development. Ph.D., The University of Southern Mississippi.

MALONE, PATRICIA ANN, Associate Professor of Music. D.M., Florida State University.

MALONE, SUSAN C., Associate Professor of English. Ed.D., Vanderbilt University.

MANEVAL, MARK W., Professor of Coaching and Sports Administration. Ph.D., Texas A & M University.

MANN, EDWARD C., Chair of the Department of Technology Education and Associate Professor of Technology Education. D.Ed., Pennsylvania State University.

MANN, SCOT J., Assistant Professor of Theatre and Dance. M.F.A., University of Alabama.

MARCHMAN, DAVID A., Professor of Engineering Technology. M.B.C., University of Florida.

MARTIN, FRANCES R., Associate Professor of Nursing. Ph.D., Florida State University.

MARTIN, MICHAEL, Associate Professor of Curriculum, Instruction and Special Education. Ph.D., University of Georgia.

MARTIN, SARAH H., Associate Professor of Curriculum, Instruction, and Special Education. Ph.D., Louisiana State University.

MASTERS, KATHLEEN, Assistant Professor of Nursing. D.S.N., Louisiana State University.

MATTHIAS, LON JAY, Professor of Polymer Science. Ph.D., University of Michigan.

MATTSON, GERALD A., Director of Forensic Science and Associate Professor of Polymers and High Performance Materials. Ph.D., Auburn University.

MAULDING, WANDA, Interim Chair and Assistant Professor of Educational Leadership. Ed.D., University of North Texas.
MAURITZ, KENNETH A., Professor of Polymer Science and Polymer Physicist. Ph.D., Case Western Reserve University.

MAYO, CHARLES M., Associate Professor of Journalism. Ph.D., University of Alabama.

MAYS, WILLIAMMICHAEL, Associate Professor of English. Ph.D., University of Washington.

MCBRIDE, ALLAN, Chair of the Department of Political Science and Associate Professor of Political Science. Ph.D., Southern Illinois University

MCCORMICK, CHARLES LEWIS III, Professor of Polymer Science, Chemistry and Biochemistry. Ph.D., University of Florida.

MCCOY, JOHN G., Associate Professor of Psychology. Ph.D., Colorado State University.

MCGUIRE, JAMES G., Coordinator of Undergraduate Programs and Associate Professor of Community Health. Ph.D., University of Tennessee.

MCNEESE, MARY NELL, Assistant Professor of Educational Leadership and Research. Ph.D., University of Alabama.

MEADE, JAMES WALTER JR., Professor of Art. M.F.A., University of Georgia.

MELEAR, KERRY BRIAN, Assistant Professor of Educational Leadership and Research. Ph.D., Florida State University.

MEYER, JOHN CARL, Associate Professor of Speech Communication. Ph.D., University of Kansas.

MEYER, MARY KAY, Research Professor of Nutrition and Food Systems. Ph.D., Virginia Polytechnic Institute and State University.

MEYLAN, MAURICE ANDRE, Professor of Geology. Ph.D., University of Hawaii.

MIDDLEBROOKS, BOBBY LYNN, Professor of Biological Sciences. Ph.D., University of Texas.

MILES, CHRISTOPHER J., Assistant Professor of Spanish. Ed.D., University of Cincinnati.

MILLER, AMY L. CHASTEEN, Associate Professor of Sociology. Ph.D., University of Michigan.

MILLER, JAMES E., Professor of Computer Science and Statistics. Ph.D., University of Southwestern Louisiana.

MILLER, MARK MICHAEL, Dean of the College of International and Continuing Education and Professor of Economic Development. Ph.D., University of Arizona.

MITRA, AMAL K., Associate Professor of Community Health. Dr.P.H., The University of Alabama-Birmingham.

MOORE, CYNTHIA RUSSELL EASTERLING, Professor of Fashion Merchandising. Ph.D., Florida State University.

MOORE, FRANK R., Chair of the Department of Biological Sciences and Professor of Biological Sciences. Ph.D., Clemson University.

MOORE, ROBERT B. III, Associate Professor of Polymer Science. Ph.D., Texas A & M University.

MORELAND, WILBUR LAFE, Professor of Music. M.A., University of Northern Colorado.

MORGAN, SARAH E., Assistant Professor. Ph.D., The University of Southern Mississippi.

MORSE, TIMOTHY E., Assistant Professor of Special Education. Ed.D., University of Kentucky.

MOSER, STEVEN R., Associate Director of Bands, Director of the Pride of Mississippi Marching Band, and Assistant Professor of Music. M.M.E., Texas Christian University.

MULLICAN, LARRY DUANE, Professor of Theatre. M.A., University of Colorado.

MUMA, JOHN, Professor of Speech and Hearing Sciences. Ph.D., Pennsylvania State University.

MURALI, BEDDUHU, Assistant Professor of Computer Science and Statistics. Ph.D., Mississippi State University.

NAGURNY, FRANK KLEIN, Professor of Computer Science and Statistics. Ph.D., University of Pittsburgh.
NAM, DOOWOO, Assistant Professor of Finance. Ph.D., University of Alabama.

NAZARENKO, SERGEI, Assistant Professor of Polymer Science. Ph.D., USSR Academy of Sciences.

NEAL, SCOTTIE E., Instructor of Engineering Technology. M.S., The University of Southern Mississippi.

NECHAEV, DMITRI, Assistant Professor of Marine Science. Ph.D., Shirshov Institute of Oceanology.

NELSON, ERIC W., Assistant Professor of History, Gulf Coast. D. Phil., Metten College, Oxford University.

NELSON, JANET S., Associate Professor of Special Education. Ed.D., Northern Illinois University.

NETTLES, MARY FRANCES, Director of the Didactic Program in Dietetics and Associate Professor of Nutrition and Food Systems. Ph.D., Kansas State University.

NICHOLSON, BONNIE C., Assistant Professor of Psychology. Ph.D., Marquette University.

NELSEN, SHELLIE, Assistant Professor of Dance. M.A., Teachers College, Columbia University.

NIROOMAND, FARHANG, Associate Dean of the College of Business and Economic Development and Professor of Economics, Finance, and International Business. Ph.D., Michigan State University.

NISSAN, EDWARD, Professor of Economics, Finance, and International Business. Ph.D., Texas A & M University.

NORED, LISA, Assistant Professor of Criminal Justice. J.D., Mississippi College School of Law.

NORTON, MELANIE J., Director of the School of Library and Information Science and Associate Professor of Library and Information Science. Ph.D., North Texas State University.

NUWER, DEANNE, Assistant Professor of History. Ph.D., The University of Southern Mississippi.

O’BRIEN, GREGORY, Associate Professor of History. Ph.D., University of Kentucky.

ODOM, WILLIAM, Associate Professor of German and Russian. Ph.D., Tulane University.

OLMI, D. JOE, Associate Professor of Psychology. Ph.D., Mississippi State University.

OLSON, GARY, Professor of English. Ph.D., University of Pennsylvania.

O’NEIL, BRIAN, Assistant Professor of History. Ph.D., University of California-Los Angeles.

ORTLOFF, WARREN, Assistant Professor of Educational Leadership and Research. Ed.D., Oklahoma State University.

OSSHIN, STEPHEN EDWARD, Chair of the Department of Speech and Hearing Sciences and Professor of Speech and Hearing Sciences. Ph.D., Ohio University.

OSMONBEKOV, TALAI, Assistant Professor of Management and Marketing. B.B.A., Emory University.

OTAIUBE, JOSHUA U., Associate Professor of Polymer Science. Ph.D., University of Manchester.

OTVOS, ERVIN G., Associate Professor of Coastal Sciences. Diploma, University of Science (Budapest); Ph.D., University of Massachusetts.

OVERSTREET, ROBIN M., Professor of Coastal Sciences. Ph.D., University of Miami.

PANDEY, RAS BIHARI, Professor of Physics and Astronomy. Ph.D., University of Roorkee, India.

PANELLA, LAWRENCE M., Associate Professor of Music. M.M., Northern Illinois University.

PANTON, KENNETH JOHN, Dean of the Honors College, Director of the British Studies Program and Professor of Geography. Ph.D., King’s College, University of London.

PARKER, JOSEPH Balfour, Professor of Political Science. Ph.D., Tulane University.

PATE, GWENDOLYN ANN, Associate Professor of Accounting. Ph.D., University of Tennessee; C.P.A.

PATRICK, DAVID MAXWELL, Professor of Geology. Ph.D., University of Oklahoma; P.E.

PAUL, JOSEPH SCOTT, Vice President for Student Affairs and Assistant Professor of Psychology. Ph.D., University of Alabama.
PAYNE, THOMAS E., Associate Professor of Criminal Justice. Ph.D., The University of Southern Mississippi; J.D., University of Mississippi.

PERRY, HARRIETM., Assistant Professor of Coastal Sciences. M.S., The University of Southern Mississippi.

PERRY, RICHARD, Assistant Professor of Music. D.M.A., University of Wisconsin-Madison.

PESSONEY, GEORGE FRANCIS III, Professor of Biological Sciences. Ph.D., University of Texas.

PETERS, GARY B., Assistant Professor, Coordinator of Educational Leadership and Research. Ph.D., University of Alabama-Birmingham.

PETERSON, MARK S., Professor of Coastal Sciences. Ph.D., The University of Southern Mississippi.

PEYREFITTE, JOSEPH, Assistant Professor of Management. Ph.D., Florida Atlantic University.

PHILLIPS, DENNIS R., Graduate Coordinator of the School of Human Performance and Recreation and Associate Professor of Coaching and Sports Administration. D.P.E., Springfield College.

PIAZZA, BARRY LYNN, Professor of Mathematics. Ph.D., Clemson University.

PIERCE, WILLIE LEE JR., Interim Dean of the College of Education and Psychology and Professor of Educational Leadership and Research. Ed.D., North Carolina State University.

POJMAN, JOHN ANTHONY, Professor of Chemistry and Biochemistry. Ph.D., University of Texas.

POOD, ELLIOTT A., Dean of the College of Arts and Letters and Professor of Speech Communication. Ph.D., Florida State University.

POWELL, WILLIAM W., Coordinator of MATL Program and Associate Professor of TESOL and French. Ph.D., Florida State University.

PRICE, CATHERINE H., Associate Professor of Hospitality Management. Ph.D., Virginia Polytechnic Institute.

PRIEUR, JANET SUMNER, Associate Professor of Dance. M.F.A., University of Michigan.

PYE, WALLACE CLARK, Chair of the Department of Mathematics and Professor of Mathematics. Ph.D., Texas Tech University.

QUALLS, CARL, Assistant Professor of Biological Sciences. Ph.D., University of Sydney.

RABER, GEORGE T., Assistant Professor of Geography. Ph.D., University of South Carolina.

RACHAL, JOHN RALPH, Professor of Educational Leadership and Research. Ed.D., North Carolina State.

RAGSDALE, DANA OUGH, Professor of Music. D.M.A., Cincinnati Conservatory of Music.

RAKOCINSKI, CHET F., Associate Professor of Coastal Sciences. Ph.D., The University of Southern Mississippi.

RAMBO, ROBERT, Assistant Professor of Business Administration. Ph.D., Florida State University.

RANOLPH, DANIEL LEE, Professor of Psychology. Ph.D., Florida State University.

RANGE, LILLIAN MILLER, Professor of Psychology. Ph.D., Georgia State University.

REDALIE, DONALD G., Professor of Marine Science. Ph.D., University of Hawaii.

REDFERN, MYLAN B., Professor of Mathematics. Ph.D., Louisiana State University.

REDFIELD, STEPHEN C., Assistant Professor of Violin, School of Music. M.M., Eastman School of Music.

REESE, CARL A., Assistant Professor of Geography. Ph.D., Louisiana State University.
REEVES-KAZELSKIS, CAROLYN KELLER, Professor of Curriculum and Instruction. Ed.D., Mississippi State University.

REGAN, JENNIFER, Instructor of Biological Sciences. Ph.D., University of Houston.

REHNER, TIMOTHY, Assistant Director of the School of Social Work and Associate Professor of Social Work. Ph.D., University of Alabama.

REINERT, BONITA R., Professor of Nursing. Ph.D., University of Texas-Austin.

REISSCHMAN, STACY D., Director of Dance. M.F.A., Ohio State University.

RICHARDS, JANET, Associate Professor of Curriculum and Instruction, Gulf Coast. Ph.D., University of New Orleans.

RICHARDSON, THOMAS JOSEPH, Coordinator of Seniors Honors and Professor of English. Ph.D., Vanderbilt University.

RIMES, BRADY RAY, Associate Professor of Computer Science and Statistics. Ph.D., Louisiana State University.

ROBERSON, THELMA, Assistant Professor of Educational Leadership and Research. Ph.D., The University of Southern Mississippi.

ROBISON, MARY A., Professor of English. M.A., Johns Hopkins University.

RODRIGUEZ-BUCKINGHAM, ANTONIO M., Professor of Library and Information Science. Ph.D., University of Michigan.

RODRIGUEZ, KETTY, Assistant Professor of Library and Information Science. Ph.D., Indiana University.

ROSS, SUSAN R. C., Director of the Center for Science and Mathematics Education and Assistant Professor of Mathematics. Ph.D., University of Georgia.

ROUSE, SHARON E., Visiting Assistant Professor of Technology Education. Ph.D., The University of Southern Mississippi.

ROWLEY, LUCILLE, Instructor of Social Work. D.S.W., Tulane University.

RUSSAKOVSKY, ALEXANDER, Assistant Professor of Music. D.M.A., University of Santa Barbara, California.

RUSSELL, GAIL SHERRER, Chair of the Department of Geology and Professor of Geology. Ph.D., Florida State University.

RYAN, MAUREEN ANN, Professor of English. Ph.D., Temple University.

SÁNCHEZ-ALONSO, RAFAEL, Chair of the Department of Foreign Languages and Literatures and Associate Professor of Spanish. Ph.D, Tulane University.

SANCIGA, RICHARD DENNIS, Professor of Speech and Hearing Sciences. Ph.D., University of South Bend, Indiana.

SANTANGELO, GEORGE MICHAEL, Professor of Biological Sciences. Ph.D., Yale University.

SAWYER, W. CHARLES, Professor of Economics, Finance, and International Business. Ph.D., University of Southern Mississippi.

SCARBOROUGH, WILLIAM KAUFFMAN, Professor of History. Ph.D., University of North Carolina.

SCHANZ, HANS-JORG, Assistant Professor of Chemistry and Biochemistry. Ph.D., Universitat Bayreuth, Germany.

SCHAUB, MARY TURPEN, Assistant Professor of Speech and Hearing Sciences. M.A., University of Wyoming.

SCHIEFT, TIMOTHY P., Assistant Professor of Human Performance. Ph.D., University of Connecticut.

SCHETZ, RAYMOND WAYNE, Professor of Biological Sciences. Ph.D., University of Delaware.
SCIOLINO, MARTINA, Associate Professor of English. Ph.D., State University of New York-Buffalo.

SCURFIELD, RAYMOND, Associate Professor of Social Work, Gulf Coast. Ph.D., University of Southern California-Los Angeles.

SEYFARTH, BENJAMIN RAYMOND, Assistant Professor of Computer Science and Statistics. Ph.D., University of Florida.

SHARP, DAVID, Assistant Professor of Economics, Gulf Coast. Ph.D., University of Memphis.

SHEARER, GLENMORE JR., Professor of Biological Sciences. Ph.D., University of Oklahoma.

SHEYBANI, EHSAN OLLAH, Assistant Professor of Engineering Technology. Ph.D., University of South Florida.

SHILLER, ALAN MARK, Professor of Marine Science. Ph.D., University of California, Scripps Institute of Oceanography.

SHEOEMAKER, HAROLD L., Assistant Professor of Technology Education, Gulf Coast. Ph.D., University of Tennessee.

SIAKALUK, PAUL D., Assistant Professor of Psychology. Ph.D., University of Alberta.

SIDERS, JAMES A., Professor of Special Education. Ed.D., University of Florida.

SILKANEN, SUSAN ANN, Professor of Speech Communication. Ph.D., Ohio State University.

SLOAN, STEPHEN M., Assistant Professor of History and Assistant Director of the Center for Oral History and Cultural Heritage. Ph.D., Arizona State University.

SMITH, JAMES PATTERSON, Professor of History, Gulf Coast. Ph.D., Vanderbilt University.

SMITH, LARRY DEARMAN, Professor of Music. D.M.A., Southwestern Baptist Theological Seminary.

SMITH, MARGARET DONALDSON, Professor of Educational Leadership and Research. Ed.D., West Virginia University.

SMITH, MICHAEL CLAY, Professor of Criminal Justice. D. Min., The University of the South; Ed.D., West Virginia University.

SMITH, W. ROBERT, Associate Professor of Accounting. Ph.D., Louisiana State University.

SMITH, TENERAMIE COLETTE, Assistant Professor of Educational Leadership and Research. Ed.D., Arizona State University.

SMITHKA, PAULA JEAN, Associate Professor of Philosophy and Religion. Ph.D., Tulane University.

STANBERRY, ANNE, Associate Professor of Child and Family Studies. Ph.D., Kansas State University.

STANDARD-TEAMER, HEATHER E., Assistant Professor of Psychology. Ph.D., Mississippi State University.

STOREY, ROBSON FREELAND, Professor of Polymer Science. Ph.D., University of Akron.

STRETCH, VINCENT, Assistant Professor of Psychology. Ph.D., University of San Diego.

STRINGER, GARY ALLEN, Professor of English. Ph.D., University of Oklahoma.

STRINGER, MARY ANN, Associate Professor of Music. D.M.A., University of Oklahoma.

STYRON, RONALD A., B.M.Ed., Loyola University; Ed.D., University of New Orleans.

SULBARAN, TULIO, Assistant Professor of Engineering Technology. Ph.D., Georgia Institute of Technology.

TARDOY, CHARLES HOLMAN, Chair of the Department of Speech Communication and Professor of Speech Communication. Ph.D., University of Iowa.

TAYLOR, WALTON R. L., Professor of Finance, Gulf Coast. Ph.D., Pennsylvania State University.

TAYLOR, WILLIAM BANKS III, Professor of Criminal Justice. Ph.D., London School of Economics.

TELLER, HENRY EMMANUEL Jr., Associate Professor of Speech and Hearing Sciences. Ed.D., University of Alabama.
TERRIO, LEELEN M., Associate Professor of Speech and Hearing Sciences and Supervisor of Audiology Clinic. Ph.D., Florida State University.

THAMES, DANA G., Chair of the Department of Curriculum, Instruction, and Special Education and Professor of Curriculum and Instruction. Ph.D., Louisiana State University.

THAMES, SHELBY FRELAND, President of The University of Southern Mississippi, Distinguished University Research Professor of Polymer Science and Engineering. Ph.D., University of Tennessee.

THOMPSON, ROBERT ALAN, Assistant Professor of Criminal Justice. Ph.D., Sam Houston State University.

TINGSTROM, DANIEL H., Professor of Psychology. Ph.D., Tulane University.

TOPPING, SHARON, Associate Professor of Management. Ph.D., University of Alabama-Birmingham.

TORRES, JENNIFER A., Chair of the Department of Art and Associate Professor of Art. M.F.A., University of Georgia.

TRAYLOR, JOAN, Coordinator of Interior Design Program and Associate Professor of Interior Design. M.S., Western Kentucky University.

TREVINO, LEN, Associate Professor of Economics and Finance and International Business. Ph.D., Indiana University at Bloomington.

TREYBIG, JOEL, Assistant Professor of Music. D.M.A., University of Texas-Austin.

UFNAR, DAVID F., Assistant Professor of Geology. Ph.D., University of Iowa.

UNNOLD, YVONNE, Associate Professor of Spanish and German. Ph.D., University of Washington-Seattle.

URBAN, MAREK W., Professor of Polymer Science. Ph.D., Michigan Technological University.

VAJPAYEE, S. KANT, Professor of Engineering Technology. Ph.D., University of Birmingham.

VELASQUEZ, BENITO, Associate Professor of Human Performance. D.A., Middle Tennessee State University.

VEST, MICHAEL JEFFREY, Associate Professor of Management. Ph.D., Virginia Polytechnic Institute and State University.

VILLEPONTEAUX, MARY, Associate Professor of English. Ph.D., Louisiana State University.

VON HERRMANN, DENISE, Chair of Arts and Sciences and Assistant Professor of Political Science, Gulf Coast. Ph.D., University of Alabama.

WAGNER, WILLIAM G., Professor of Psychology. Ph.D., University of Florida.

WALDOFF, STANLEY, Professor of Music. Ed.D., Columbia University.

WALKER, DAVID W., Associate Professor of Special Education. Ed.D., Ball State University.

WALKER, SHARON, Professor of Coastal Sciences. Ph.D., The University of Southern Mississippi.

WALLACE, ANNE DENICE, Professor of English. Ph.D., University of Texas-Austin.

WANG, SHIAO YU, Associate Professor of Biological Sciences. Ph.D., Louisiana State University.

WARD, HARRY CALVIN JR., Professor of Art. M.A., East Tennessee State University.

WATSON, KENNETH V., Associate Professor of English. Ph.D., Duke University.

WATSON, SHEREE L., Assistant Professor of Psychology. Ph.D., University of Memphis.

WATSON, WILLIAM L., Associate Professor of English. Gulf Coast. Ph.D., Louisiana State University.

WEBSTER, MICHAEL J., Associate Professor of Human Performance. Ph.D., Auburn University.

WEINAUER, ELLEN M., Director of Women’s Studies and Associate Professor of English. Ph.D., Indiana University.

WELSH, TERESA, Assistant Professor of Library and Information Science. Ph.D., University of Tennessee.
WERTZ, DAVID LEE, Professor of Chemistry and Biochemistry. Ph.D., University of Arkansas.

WESLEY, ANDREA LOTT, Professor of Psychology. Ph.D., Florida State University.

WHEAT, EDWARD MCKINLEY, Professor Emeritus. Ph.D., University of California-Santa Barbara.

WHEELER, DAVID MARK, Professor of English. Ph.D., University of Virginia.

WHITEHEAD, JOE B. Jr., Associate Dean of the College of Science and Technology and Chair of the Department of Physics and Astronomy and Associate Professor of Physics and Astronomy and Chemistry and Biochemistry. Ph.D., Kent State University.

WHITESELL, FRANK COOK, Associate Professor of Economics, Finance, and International Business. Ph.D., Tulane University.

WHORTON, JAMES E., Professor of Special Education. Ed.D., Colorado State College.

WICKS, DOUGLAS A., Chair and Hearin Support Foundation Professor of Polymer Science and Engineering. Ph.D., University of Massachusetts.

WIESENBURG, DENIS A., Chair of the Department of Marine Science and Professor of Marine Science. Ph.D., Texas A&M University.

WIESENBURG, DENIS A., Chair of the Department of Marine Science and Professor of Marine Science. Ph.D., Texas A&M University.

WIGNER, ROBERT GENE, Professor of Journalism. Ph.D., Southern Illinois University.

WILLIAMS, ALVIN JEROME, Chair of the Department of Marketing and Management and Professor of Marketing. Ph.D., University of Arkansas.

WILLIAMS, JUDITH, Assistant Professor of Biology, Gulf Coast. Ph.D., University of South Carolina.

WILSON-KIMBER, MARIAN, Associate Professor of Music. Ph.D., Florida State University.

WINSTEAD, CHRISTOPHER, Interim Chair of the Department of Physics and Astronomy and Associate Professor of Physics and Astronomy. Ph.D., Georgia Institute of Technology.

WOLFE, JAMES HASTINGS, Professor of Political Science. Ph.D., University of Maryland.

WONG, SUNNY, Assistant Professor of Economics. Ph.D., University of Oregon.

WOOD, FORREST EDWARDS JR., Professor of Philosophy and Religion. Ph.D., Southwestern Baptist Theological Seminary.

WOOTON, JOHN, Associate Professor of Music. D.M.A., University of Iowa.

YADRICK, M. KATHLEEN, Coordinator of the Center for Nutrition and Food Systems and Professor of Nutrition and Food Systems. Ph.D., Oklahoma State University.

YANG, JIE, Assistant Professor of Business Administration. Ph.D., Chinese University of Hong Kong.

YOUNG, AMY L., Associate Professor of Anthropology. Ph.D., University of Tennessee.

YUEN, STEVE CHI-YIN, Professor of Technology Education. Ph.D., Pennsylvania State University.

ZANTOW, KENNETH, Assistant Professor of Management, Gulf Coast. Ph.D., University of Arkansas.

ZHANG, CHAOYANG, Assistant Professor of Computer Science and Statistics. Ph.D., Louisiana Technology University.
